Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

These principles of tax administration were previously published in the Internal Revenue Bulletin as Revenue Procedure 64-22, 1964-1 (Part I) C.B. 689. They are restated here to emphasize their importance to all employees of the Internal Revenue Service.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the entire state of facts involved. In those that are based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and confidential information are deleted to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

Cumulative Bulletin 1985-2 is a consolidation of all items of permanent nature published in the weekly Bulletins 1985-26 through 1985-52 for the period of July 1 through December 31, 1985.

The Internal Revenue Cumulative Bulletin is prepared in three parts as follows:

Part I.—1954 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954. Arrangement is sequential according to Code and regulations sections. The code section is shown at the top of each page.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.

To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts. Included in this Part is a list of persons disbarred or suspended from practice before the Internal Revenue Service.

Notice of Proposed Rulemaking

The preambles and text of proposed regulations that were published in the **Federal Register** during this six-month period are printed in this section.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Services No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provide (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) topical indexes of Public Laws, Treasury Decisions, and Tax Conventions.

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified, below*).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1954 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified and superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.

Abbreviations

The following abbreviations in current use and formerly used will appear in material published in the Bulletin.

A—Individual.
Acq.—Acquiescence.
B—Individual.
BE—Beneficiary.
BK—Bank.
B.T.A.—Board of Tax Appeals.
C—Individual.

Cumulative List of Announcements Relating to Decisions of the Tax Court Published in the Internal Revenue Bulletin from January 1, 1985 thru December 31, 1985

It is the policy of the Internal Revenue Service to announce in the Internal Revenue Bulletin at the earliest practicable date the determination of the Commissioner to acquiesce or not acquiesce in a decision of the Tax Court which disallows a deficiency in tax determined by the Commissioner to be due.

Notice that the Commissioner has acquiesced or nonacquiesced in a decision of the Tax Court relates only to the issue or issues decided adversely to the Government.

Actions of acquiescences in adverse decisions shall be relied on by Revenue officers and others concerned as conclusions of the service only to the application of the law to the facts in the particular case. Caution should be exercised in extending the application of the decision to a similar case unless the facts and circumstances are substantially the same, and consideration should be given to the effect of new legislation, regulations, and rulings as well as subsequent court decisions and actions thereon.

Acquiescence in a decision means acceptance by the Service of the conclusion reached, and does not necessarily mean acceptance approval of any or all of the reasons assigned by the court for its conclusions.

No announcements are made in the Bulletin with respect to memorandum opinions of the tax court.

The announcements published in the weekly Internal Revenue Bulletins are consolidated semiannually and annually. The semiannual consolidation appears in the first Bulletin for July and in the Cumulative Bulletin for the first half of the year and the annual consolidation appears in the first bulletin for the following January and in the Cumulative Bulletin for the last half of the year.

The Commissioner ACQUIESCES in the following decisions:

Taxpayer	Docket No.	Report Volume	Page
Cologne Life Reinsurance Co.[1]	10337-81	80	859
Cooper, Robert E.[2]	3164–75 6401-75	67	870
Gershman Family Foundation, Harold & Julia[3]	16385-84	83	217
Sibla, Richard R.[4]	2864-76	68	422

[1]Acquiescence relating to whether the taxpayer is entitled to take into account the reserves held and the premiums received under its risk premium reinsurance contracts in computing the deduction under section 809(d)(5) of the Code.

[2]Nonacquiescence published in 1978-1 C.B. 2, relating to whether payments made by petitioner for meal expenses in connection with his employment as a fireman are deductible under section 162(a) of the Code or excludable under section 119(b)(3), is withdrawn and acquiescence is substituted therefore.

[3]Acquiescence relating to whether the petitioner, a disqualified person with respect to the private foundation, committed an act of self-dealing proscribed by section 4941(d)(1)(A) of the Code when he transferred to the foundation a promissory note subject to two senior notes secured by an all-inclusive deed of trust.

[4]Nonacquiescence published in 1978-1 C.B. 3, relating to whether payments made by petitioner for meal expenses in connection with his employment as a fireman are deductible under section 162(a) of the Code or excludable under section 119(b)(3), is withdrawn and acquiescence is substituted therefore.

Information Reporting for Mortgage Credit Certificates

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document contains temporary regulations that relate to mortgage credit certificates. Changes to the applicable tax law were made by the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1]. These regulations affect all holders and issuers of mortgage credit certificates. In addition, the text contained in the temporary regulations set forth in this document serves as the text of the proposed regulations cross-referenced * * * [on page 842, this Bulletin].

DATES: These regulations are effective with respect to mortgage credit certificates issued after September 30, 1985.

FOR FURTHER INFORMATION CONTACT: Mitchell H. Rapaport of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3740).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains amendments to the temporary regulations relating to mortgage credit certificates under section 25 of the Internal Revenue Code of 1954 as amended by section 612 of the Tax Reform Act of 1984 (Pub. L. 98-369; 98 Stat. 905) [1984-3 C.B. (Vol. 1) 1, 413]. The temporary regulations provided by this document will remain in effect until superseded by final regulations on this subject.

EXPLANATION OF PROVISIONS

Section 25 authorizes States and political subdivisions ("issuers") to issue mortgage credit certificates ("MCCs") in lieu of qualified mortgage bonds. MCCs entitle qualifying individuals to a credit against the individuals' Federal income tax. The amount of the credit is determined by multiplying the certificate credit rate by the amount of interest paid or accrued by the taxpayer during the taxpayer's taxable year on the certified indebtedness amount. In order for an individual to claim the credit provided by section 25, the MCC must be a "qualified mortgage credit certificate" issued pursuant to a "qualified mortgage credit certificate program". The requirements of section 103A(j), including the State certification requirement, the policy statement requirement, and the information reporting requirement, must be met in order for a program to be a qualified mortgage credit certificate program.

On May 8, 1985, temporary and proposed regulations with respect to MCCs were published in the FEDERAL REGISTER (50 FR 19344; 50 FR 19383) [T.D. 8023, 1985-1 C.B. 1; LR-245-84, 1985-1 C.B. 659]. Those regulations reserved §1.25-4T(e), relating to the information reporting requirement, and §1.25-4T(f), relating to the policy statement requirement. The Service received numerous written comments responding to a notice of proposed rulemaking published in the FEDERAL REGISTER on December 12, 1984 (49 FR 48323) [LR-240-84, 1985-1 C.B. 658], with respect to the reporting and policy statement requirements as they apply to qualified mortgage bonds and qualified veterans' mortgage bonds, and a public hearing was held on April 30, 1985. After consideration of all comments regarding those proposed regulations, temporary and proposed regulations relating to the information reporting and policy statement requirements applicable to mortgage credit certificates are being provided.

Section 1.25-4T(e) contains the information reporting requirements applicable to issuers of mortgage credit certificates. This requirement must be satisfied for a program to be a qualified mortgage credit certificate program. In order to satisfy the information reporting requirement, an issuer must submit a report concerning the holders of certificates issued during the relevant reporting period. The information required to be submitted is to be presented in tabular form. Section 1.25-4T(e)(1)(i) requires the submission of information concerning the number of mortgage credit certificates categorized according to the income of the holders and the acquisition cost of the residences; this information is to be further categorized according to whether the holders had no present ownership interest in their principal residences at any time during the 3-year period ending on the date the MCC is executed (*i.e.*, satisfy the 3-year requirement) and whether the residences are located in targeted areas. In addition, information concerning the fees charged to the holders must be submitted. Section 1.25-4T(e)(1)(ii) requires the submission of information concerning the volume of MCCs (*i.e.*, the total of the certified indebtedness amount of the certificates issued and the sum of the products of the certified indebtedness amount and the certificate credit rate for each certificate) according to the income of the holders and the acquisition cost of the residences; this information is also to be categorized according to whether the holders satisfy the 3-year requirement and whether the residences are located in targeted areas. With respect to home improvement and rehabilitation loans, §1.25-4T(e)(1)(iii) requires the submission of information

concerning the number and volume of such loans categorized according to whether the residences are located in targeted areas.

Section 1.25-4T(f) contains the policy statement requirement. In order for a program to be a qualified mortgage credit certificate program, the applicable elected representative of the governmental unit which is the issuer (or on whose behalf the certificates were issued) must have published (after a public hearing following reasonable public notice) a policy statement by the last day of the year preceding the year in which the election not to issue qualified mortgage bonds was made, and the respresentative must have submitted a copy of the policy statement to the Commissioner. The provisions concerning the policy statement that must be submitted by issuers of MCCs are identical to those applicable to issuers of qualified mortgage bonds. See §1.103A-2(1).

NON-APPLICABILITY OF EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis therefore is not required.

REGULATORY FLEXIBILITY ANALYSIS

A general notice of proposed rulemaking is not required by 5 U.S.C. 553 for temporary regulations. Accordingly, the temporary regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

PAPERWORK REDUCTION ACT

The collection of information requirements contained in these regulations have been submitted to the Office of Management and Budget in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by the OMB under control number 1545-0922.

DRAFTING INFORMATION

The principal author of these proposed regulations is Mitchell H. Rapaport of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, on matters of both substance and style.

* * * * *

Amendments to the regulations

For the reasons set out in the preamble, Part 1 and Part 602 of Title 26 of the Code of Federal Regulations are amended as follows:

PART 1
INCOME TAX REGULATIONS

Paragraph 1. The authority for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805. * * * Section 1.25-4T also issued under 26 U.S.C. 25(g).* * *

Par. 2. Paragraphs (e) and (f) of §1.25-4T are revised to read as follows:

§1.25-4T Qualified mortgage credit certificate program.

* * * * *

(e) *Information reporting requirement*—(1) *Reports.* With respect to mortgage credit certificates issued after September 30, 1985, a program meets the requirements of this paragraph only if the issuer submits a report containing the information concerning the holders of certificates issued during the preceding reporting period required by this paragraph. The report must be filed for each reporting period in which certificates (other than transferred certificates) are issued under the program. The issuer is not responsible for false information provided by a holder if the issuer did not know or have reason to know that the information was false. The report must be filed on the form prescribed by the Internal Revenue Service. If no form is prescribed, or if the form prescribed is not readily available, the issuer may use its own form provided that such form is in the format set forth in this paragraph and contains the information required by this paragraph. The report must be titled "Mortgage Credit Certificate Information Report" and must include the name, address, and TIN of the issuer, the reporting period for which the information is provided, and the following tables containing information concerning the holders of certificates issued during the reporting period for which the report is filed:

(i) A table titled "Number of Mortgage Credit Certificates by Income and Acquisition Cost" showing the number of mortgage credit certificates issued (other than those issued in connection with qualified home improvement and rehabilitation loans) according to the annualized gross income of the holders (categorized in the following intervals of income: $0-$9,999; $10,000-$19,999; $20,000-$29,999; $30,000-39,999; $40,000-$49,999; $50,000-$74,999; and $75,000 or more) and according to the acquisition cost of the residences acquired in connection with the mortgage credit certificates (categorized in the following intervals of acquisition cost: $0-$19,999; $20,000-$39,999; $40,000-$59,999; $60,000-$79,999; $80,000-$99,999; $100,000-$119,999; $120,000-$149,999; $150,000-$199,999; and $200,000 or more). For each interval of income and acquisition cost the table must also be categorized according to—

(A) The aggregate amount of fees charged to holders to cover any administrative costs incurred by the issuer in issuing mortgage credit certificates, and

(B) The number of holders that—

(1) Did not have a present ownership interest in a principal residence at any time during the 3-year period ending on the date the mortgage credit certificate is executed (*i.e.*, satisfied the 3-year requirement) and purchased residences in targeted areas,

(2) Satisfied the 3-year requirement and purchased residences not located in targeted areas,

(3) Did have a present ownership interest in a principal residence at any time during the 3-year period ending on the date the mortgage credit certificate is executed (*i.e.*, did not satisfy the 3-year requirement) and purchased residences in targeted areas, and

(4) Did not satisfy the 3-year requirement and purchased residences not located in targeted areas.

(ii) A table titled "Volume of Mortgage Credit Certificates by Income and Acquisition Cost" containing data on—

(A) The total of the certified indebtedness amounts of the certificates issued (other than those issued in connection with qualified home

improvement and rehabilitation loans);

(B) The sum of the products of the certified indebtedness amount and the certificate credit rate for each certificate (other than those issued in connection with qualified home improvement and rehabilitation loans) according to annualized gross income (categorized in the same intervals of income as the preceding table) and according to the acquisition cost of the residences acquired in connection with mortgage credit certificates (categorized in the same intervals of acquisition cost as the preceding table); and

(C) For each interval of income and acquisition cost, the information described in paragraph (e)(1)(ii)(A) and (B) categorized according to the holders that—

(1) Satisfied the 3-year requirement and purchased residences in targeted areas,

(2) Satisfied the 3-year requirement and purchased residences not located in targeted areas,

(3) Did not satisfy the 3-year requirement and purchased residences in targeted areas, and

(4) Did not satisfy the 3-year requirement and purchased residences not located in targeted areas.

(iii) A table titled "Mortgage Credit Certificates for Qualified Home Improvement and Rehabilitation Loans" showing the number of mortgage credit certificates issued in connection with qualified home improvement loans and qualified rehabilitation loans, the total of the certified indebtedness amount with respect to such certificates, and the sum of the products of the certified indebtedness amount and the certificate credit rate for each certificate; the information contained in the table must also be categorized according to whether the residences with respect to which the certificates were provided are located in targeted areas.

(2) *Format.* If no form is prescribed by the Internal Revenue Service, or if the prescribed form is not readily available, the issuer must submit the report in the format specified in this paragraph (e)(2). The specified format of the report is the following:

MORTGAGE CREDIT CERTIFICATE INFORMATION REPORT

(3) *Definitions and special rules.* (i) For purposes of this paragraph the term "annualized gross income" means the borrower's gross monthly income multiplied by 12. Gross monthly income is the sum of monthly gross pay, any additional income from investments, pensions, Veterans Administration (VA) compensation, part-time employment, bonuses, dividends, interest, current overtime pay, net rental income, etc., and other income (such as alimony and child support, if the borrower chooses to disclose such income). Information with respect to gross monthly income may be obtained from available loan documents, *e.g.*, the sum of lines 23D and 23E on the Application for VA or FmHA Home Loan Guaranty or for HUD/FHA Insured Mortgage (VA Form 26-1802a, HUD 92900, Jan. 1982), or the total line from the Gross Monthly Income section of FHLMC Residential Loan Application form (FHLMC 65 Rev. 8/78).

(ii) For purposes of this paragraph, the term "reporting period" means each one year period beginning July 1 and ending June 30, except that issuers need not provide data with respect to the period prior to October 1, 1985.

(iii) For purposes of this paragraph, verification of information concerning a holder's gross monthly income by utilizing other available information concerning the holder's income (*e.g.*, Federal income tax returns) is not required. In determining whether the holder of a mortgage credit certificate acquiring a residence in a targeted area satisfies the 3-year requirement, the issuer may rely on a statement signed by the holder.

(4) *Time for filing.* The report required by this paragraph shall be filed not later than the 15th day of the second calendar month after the close of the reporting period. The Commissioner may grant an extension of time for the filing of a report required by this paragraph if there is reasonable cause for the failure to file such report in a timely fashion. The report may be filed at any time before such date but must be complete based on facts and reasonable expectations as of the date the report is filed. The report need not be amended to reflect information learned subsequent to the date of filing, or to reflect changed circumstances with respect to any holder.

(5) *Place for filing.* The report required by this paragraph is to be filed at the Internal Revenue Service Center, Philadelphia, Pennsylvania 19255.

(f) *Policy statement.* A program established pursuant to an election under paragraph (c) made after 1984 meets the requirements of this paragraph only if the applicable elected representative of the governmental unit—

(1) Which is the issuer, or

(2) On whose behalf the certificates were issued,

has published (after a public hearing following reasonable public notice) a policy statement described in §1.103A-2(1) by the last day of the year preceding the year in which the election under paragraph (c) is made, and a copy of such report has been submitted to the Commissioner on or before such last day. See §1.103A-2(1) for further definitions and requirements.

PART 602
OMB CONTROL NUMBER UNDER THE PAPERWORK REDUCTION ACT

Par. 3. Section 602.101(c) is amended by inserting in the appropriate

places in the table "§1.25-4T.... 1545-0922".

There is a need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason it is found impracticable to issue it with notice and public procedure under subsection (b) of section 553 of title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

JAMES I. OWENS,
Commissioner of Internal Revenue.

Approved August 19, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on August 29, 1985, 10:53 a.m., and published in the issue of the Federal Register for September 3, 1985, 50 F.R. 35536)

Investment credits; cooperative. A cooperative association may have unused investment credit for carryback and carryover purposes in a year during which it has a net operating loss if it acquired and placed in service section 38 property during that year. Rev. Rul. 70-328 revoked.

Rev. Rul. 85-126

ISSUE

The Internal Revenue Service has reconsidered Rev. Rul. 70-328, 1970-1 C.B. 5, which concludes that a cooperative association has no unused investment credit for carryback and carryover purposes in a year during which it has a net operating loss even though it acquired and placed in service section 38 property during that year.

LAW AND ANALYSIS

Section 46(d) of the Internal Revenue Code, prior to amendment by the Tax Reduction Act of 1975, Pub. L. 94-12, 1975-1 C.B. 545, and the Revenue Act of 1978, Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1, contained a special limitation on the availability of investment credits to cooperatives. (The 1975 amendment redesignated section 46(d) as section 46(e), and the 1978 amendment repealed the limitation.) The investment credit of a cooperative was limited to its "ratable share" of the credit otherwise allowable. "Ratable share" for a taxable year was defined as fraction, the numerator of which was the cooperative's taxable income and the denominator of which was the cooperative's taxable income plus special deductions allowed the cooperative solely because of its status as a cooperative (generally, deductions for patronage dividends and nonpatronage distributions under section 1382(b) and (c), respectively).

Rev. Rul. 70-328 concludes that a cooperative's ratable share of investment credit is zero in a year when it has a net operating loss and pays no patronage dividends or nonpatronage distributions, so it has no unused investment credit for that year to be carried back or carried over to other taxable years. This conclusion is based on the belief that a cooperative has zero (not negative) taxable income in a loss year, and "[i]f a cooperative has no taxable income, a zero as the numerator of the above ratio automatically yields a zero ratable share...."

The Service's position that a cooperative's ratable share of investment credit is zero in a year when it has a loss or no taxable income and pays no patronage dividends or nonpatronage distributions was upheld in *Farmers Union Marketing & Processing Ass'n v. United States*, Civil No. 73-230 (D. Minn., February 1, 1977), and *Helena Cotton Oil Co. v. Commissioner*, 60 T.C. 125 (1973). However, the Service's position was rejected in *Farm Bureau Services, Inc. v. United States*, 547 F. Supp. 1279 (W.D. Mich. 1982), and *Farmers Grain Marketing Terminal (AAL) v. United States*, 434 F. Supp. 368 (N.D. Miss. 1977), *aff'd per order*, No. 77-2715 (5th Cir. 1980), each concluding that a farmers cooperative is not precluded from claiming an investment credit for property otherwise qualified merely because it places that property in service during a loss year, if it does not pay patronage dividends or nonpatronage distributions in that year.

The courts in *Farm Bureau Services, Inc.* and *Farmers Grain Marketing Terminal* relied on the legislative history of the ratable share formula, which suggests that the formula should restrict the investment credit otherwise allowable to a cooperative only in the proportion its taxable income is reduced by the special deductions available to cooperatives. *See* H.R. Rep. No. 95-1800, 95th Cong., 2d Sess. 228 (1978), 1978-3 (Vol. 1) C.B. 521, 562 (conference report statement with respect to repeal of cooperative ratable share limitation); H.R. Rep. No. 1447, 87th Cong., 2d Sess. 15 (1962), 1962-3 C.B. 402, 419; S. Rep. No. 1881, 87th Cong., 2d Sess. 20, 1962-3 C.B. 703, 726. In view of this legislative history, the courts held that a cooperative's investment credit should not be limited by the ratable share formula in a year when it has no special deductions.

HOLDING

A cooperative association may have unused investment credit for carryback and carryover purposes in a year during which it has a net operating loss if it acquired and placed in service section 38 property during that year.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 70-328 is revoked.

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, SUBCHAPTER H, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Investment Credit for Commuter Highway Vehicles

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to special rules for computing the investment credit for commuter highway vehicles. The Energy Tax Act of 1978 (Pub. L. 95-618, 92 Stat. 3193) [1978-3 C.B. (Vol. 2) 1] enacted special rules for determining the amount of that credit and for the recapture of that credit. The regulations provide the public and Internal Revenue Service personnel with the guidance needed to comply with and administer the law.

DATES: The amendments are effective for commuter highway vehicles placed in service on or after November 9, 1978 and before January 1, 1986.

FOR FURTHER INFORMATION CONTACT: Patricia Wendlandt of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T (202-566-3458, not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains final amendments to the Income Tax Regulations (26 CFR Part 1) under sections 46(c)(6) and 47(a)(4) of the Internal Revenue Code of 1954, relating to the investment credit for commuter highway vehicles. These regulations were published in proposed form in the FEDERAL REGISTER on October 5, 1984 (49 FR 39344) [LR-169-79, 1984-2 C.B. 833]. One comment was received suggesting changes to the proposed amendments to the regulations. There were no requests for a public hearing and none was held. With only minor revisions, the proposed regulations are adopted by this Treasury decision.

COMMUTER USE REQUIREMENT

The proposed regulations define the 80 percent commuter use requirement. To qualify for the investment credit for commuter highway vehicles, section 46(c)(6)(B)(ii) and the regulations provide that at least 80 percent of the vehicle's mileage must be for purposes of transporting the taxpayer's employees between their residences and their places of employment. The comment suggested that personal incentive mileage and mileage for maintenance and refueling be included as qualified commuter uses. Such usage is not considered to be for the purpose of transporting the taxpayer's employees between their residences and places of employment and is not properly considered a qualified commuter use of the vehicle. Although personal incentive mileage and mileage for maintenance and refueling are not includible as qualified commuter uses, such mileage will not disqualify a commuter highway vehicle provided it does not exceed 20 percent of the vehicle's total mileage. Accordingly, the final regulations adopt the proposed definition of the commuter use and requirement without change.

EXECUTIVE ORDER 12291 AND REGULATORY FLEXIBILITY ACT

The Commissioner of Internal Revenue has determined that this final rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required. Although a notice of proposed rulemaking that solicited public comment was issued, the Internal Revenue Service concluded when the notice was issued that the regulations are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 did not apply. Accordingly, the final regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

PAPERWORK REDUCTION ACT

The collection of information requirements contained in these regulations have been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of these final regulations is Patricia Wendlandt of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Part 1 and Part 602 are amended as follows:

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Paragraph 1. These regulations are issued under the authority contained in 26 U.S.C. 7805 and 26 U.S.C. 47(a). The authority citation for Part 1 is amended by adding "§1.47-1 also issued under 26 U.S.C. 47(a)."

Par. 2. A new §1.46-10 is added in the appropriate place to read "§1.46-10 [Reserved]."

Par. 3. A new §1.46-11 is added in the appropriate place. As added, the new section reads as follows:

§1.46-11 Commuter highway vehicles.

(a) *In general.* Section 46(c)(6) provides that the applicable percentage to determine qualified investment under section 46(c)(1) for a qualifying commuter highway vehicle is 100 percent. A qualifying commuter highway vehicle is a vehicle (defined in paragraph (b) of this section)—

(1) Which is acquired by the taxpayer on or after November 9, 1978,

(2) Which is placed in service by the taxpayer before January 1, 1986, and

(3) With respect to which the taxpayer makes an election under paragraph (g) of this section.

(b) *Definition of commuter highway vehicle.* A commuter highway vehicle is a highway vehicle that meets the following requirements:

(1) The vehicle is section 38 property in the hands of the taxpayer. The rule of section 48(d), allowing a lessor to elect to treat the lessee of new section 38 property as having acquired the property, applies to commuter highway vehicles. If the vehicle is leased and that election is made, the lessee is treated as the taxpayer under this section. However, if that election is not made, the lessor, and not the lessee, is treated as the taxpayer under this section.

(2) The vehicle must meet the seating capacity requirement of paragraph (c) of this section; and

(3) The taxpayer reasonably expects to meet the commuter use requirement of paragraph (d) of this section for at least the first 36 months after the vehicle is placed in service.

(c) *Seating capacity.* A commuter highway vehicle must have a seating capacity of at least 8 adults in addition to the driver's seat.

(d) *Commuter use requirement.* A vehicle meets the commuter use requirement only if at least 80 percent of the miles the vehicle is driven are for trips to transport the taxpayer's employees between their residences and their places of employment. A trip for this purpose includes driving the vehicle before or after employees are in the vehicle, so long as the mileage driven is necessary either to pick up or drop off passengers or to park the vehicle in its regular parking space. A trip does not include miles driven solely for maintenance or to refuel the vehicle. A trip is not considered to transport the taxpayer's employees between their residences and their places of employment unless at least one-half the seating capacity (defined in paragraph (c) of this section) is used to seat employees of the taxpayer. In no event is the driver counted as an employee of the taxpayer.

(e) *Definition of employee.* An employee in this section is the same as in section 3121(d) (definition of employee for withholding purposes).

(f) *Transportation between employee's residence and place of employment.* An employee is transported between that employee's residence and place of employment even if that place of employment is not the same as any of the other employees transported, and even if picked up or dropped off at some central point between that residence and place of employment. An employee is not transported between that employee's residence and place of employment if the transportation is of the type for which a deduction would be allowed under §1.162-2 were the employee providing it, such as the transportation from one work site to another after beginning work for the day.

(g) *Election.* A taxpayer must elect to have the vehicle treated as a qualifying commuter highway vehicle on the return for the taxable year in which the vehicle is placed in service. The election may be made only if the vehicle actually meets the commuter use requirement under paragraph (d) of this section for that taxable year. It must be made on or before the due date (including extensions) of that return. The election is effective as of that due date.

Par. 4. Section 1.47-1 is amended by:

1. Inserting, in the first sentence of paragraph (a)(1)(i) of that section, "or is a qualifying commuter highway vehicle (as defined in paragraph (a) of §1.46-11) which undergoes a change in use (as defined in paragraph (m)(2) of this section)" immediately following "(as defined in paragraph (g) of §1.46-3)", and

2. Reserving paragraphs (i), (j), (k), and (l) and by adding a new paragraph (m) to read as follows:

§1.47-1 Recomputation of credit allowed by section 38.

* * * * *

(i) [Reserved].

(j) [Reserved].

(k) [Reserved].

(l) [Reserved].

(m) *Commuter highway vehicles*—(1) *Recomputed qualified investment.* (i) If a qualifying commuter highway vehicle (as defined in §1.46-11(a)) undergoes a change in use but does not cease to be section 38 property, qualified investment for that vehicle is recomputed as if the vehicle was section 38 property which is not a qualifying commuter highway vehicle for its entire useful life.

(ii) The following example illustrates this paragraph (m)(1).

Example. X Corporation, a calendar year taxpayer, acquired and placed in service on January 1, 1982, a qualifying commuter highway vehicle with a basis of $10,000 and which qualified as three year recovery property under section 168(c)(2)(A)(i). The amount of qualified investment for the vehicle under section 46(c)(1) and (6) is $10,000. For the taxable year 1982, X Corporation's credit earned was $1,000 (10 percent of $10,000) and X Corporation was allowed under section 38 a $1,000 credit against its 1982 tax liability. During the taxable year 1984, the vehicle undergoes a change in use but does not cease to be section 38 property. The vehicle is treated as section 38 property which is not a qualifying commuter highway vehicle of its entire useful life. The recomputed qualified investment for the vehicle is $6,000 (60 percent of $10,000) and X Corporation's recomputed credit earned is $600 (10 percent of $6,000). The income tax imposed by chapter 1 of the Code on X Corporation for 1984 is increased by the $400 decrease in its credit earned for 1982 ($1,000–$600).

(2) *Change in use*—(i) A qualifying commuter highway vehicle undergoes a change in use if the vehicle does not meet the commuter use requirement (as defined in §1.46-11(d)) for each computation period.

(ii) Each of the following is a computation period:

(A) The period beginning on the date the vehicle was placed in service and ending on the last day of the taxpayer's taxable year in which the vehicle was placed in service;

(B) Each of the taxpayer's taxable years beginning after the date the vehicle was placed in service and ending before the end of the first 36 months after the vehicle was placed in service; and

(C) The period ending at the end of the first 36 months after the vehicle was placed in service and beginning on the first day of the taxpayer's taxable year in which the end of those first 36 months falls.

(iii) The following example illustrates this paragraph (m)(2).

Example (1). (a) Z Corporation, a calendar year taxpayer, acquired and placed in service a qualifying commuter highway vehicle on January 15, 1979. Z Corporation used the vehicle as set forth in the following table:

Taxable year ending	Total miles	Commuter miles	Ratio
1979	10,000	9,000	.90
1980	10,000	8,000	.80
1981	10,000	8,000	.80
1982 (1–14) ...	1,000	100	.10

(b) The first computation period begins on the date the vehicle is placed in service, in this example 1–15–79, and ends 12–31–79. In that computation period, the ratio of commuter miles to total miles is .90 (9,000 mile ÷ 10,000 miles). Therefore, the vehicle meets the commuter use requirement for that period and has not undergone a change in use. Similar calculating for the computation periods 1–1–80 to 12–31–80 and 1–1–81 to 12–31–81 produce the same result.

(c) As of the computation period beginning 1–1–82 and ending 1–14–82, the ratio of commuter use to total mileage is .10 (100 miles ÷ 1,000 miles). Since that ratio is less than .80, the vehicle does not meet the commuter use requirement for the period and the vehicle has undergone a change in use.

PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Par. 5. The authority citation for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 6. Section 602.101(c) is amended by inserting in the appropriate place in the table "§1.46-11(g) . . . 1545-0155"

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved June 17, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on July 18, 1985, 8:45 a.m., and published in the issue of the Federal Register for July 19, 1985, 50 F.R. 29369)

Section 47.—Certain Dispositions, Etc., of Section 38 Property

26 CFR 1.47-1: Recomputation of credit allowed by section 38.

Whether oil lease and well equipment such as casing, tubing, pumps, motors, separators and storage tanks installed on an oil tract is a single unit of constructed section 38 property. See Rev. Rul. 85-156, page 11.

---

26 CFR 1.47-1: Recomputation of credit allowed by section 38.

Special rules for computing the investment credit for commuter highway vehicles. See T.D. 8035, page 6.

---

26 CFR 1.47-3: Exceptions to the application of section 1.47-1.

Investment credit; recapture; transfer of property to partnership; simultaneous leaseback. If section 38 property is contributed to a partnership and simultaneously leased back to the taxpayer making the contribution, there is no recapture of investment tax credit under section 47 of the Code.

Rev. Rul. 85-179

ISSUE

Under the circumstances described below, is there recapture of investment tax credit under section 47 of the Internal Revenue Code at the time section 38 property is contributed to a partnership and simultaneously leased back to the taxpayer making the contribution?

FACTS

The taxpayer is a corporation engaged in the manufacture and sale of industrial lubricating systems. Most of the machinery and equipment it uses in its manufacturing operations qualifies as section 38 property. The taxpayer has claimed investment tax credit with respect to this section 38 property.

X is a limited partnership engaged in a variety of activities, including the ownership and operation of railroad boxcars. In order to broaden *X*'s capital base and further diversify its operations, the partners of *X* solicited additional investment in the partnership. The taxpayer contributed a significant amount of the section 38 property that it uses in its manufacturing operations to *X* in exchange for a 9 percent interest in the partnership's profits and losses. The section 38 property was simultaneously leased back to the taxpayer at a fair rental value for a term substantially less than the useful life of the property. The taxpayer had no option to repurchase the property.

LAW AND ANALYSIS

Section 47(a)(1) of the Code provides that if during any taxable year any property is disposed of, or otherwise ceases to be section 38 property with respect to the taxpayer, before the close of the useful life that was taken into account in computing the credit under section 38, then the tax for the taxable year shall be increased by an amount equal to the aggregate decrease in the credits allowed under section 38 for all prior taxable years that would have resulted solely from substituting, in determining qualified investment, for the useful life the period beginning with the time the property was placed in service by the taxpayer and ending with the time the property ceased to be section 38 property. The legislative history of section 47 indicates that its purpose is to prevent a quick turnover of assets in an effort by a taxpayer to obtain multiple tax credits. *See* H.R. Rep. No. 1447, 87th Cong., 2d Sess. 13 (1962), 1962-3 C.B. 405, 417.

Section 1.47-2(a)(1) of the Income Tax Regulations provides that the term "disposition" includes a sale in a sale-and-lease back transaction. The term "disposition" also includes events not specifically mentioned in the regulations, such as a contribution to a partnership. *See* H.R. Rep. No. 1447 at A12, 1962-3 C.B. at 510.

Section 1.47-3(g) of the regulations provides that notwithstanding the provisions of section 1.47-2 relating to "disposition" and "cessation," the rules requiring recapture shall not apply where section 38 property is disposed of and as part of the same transaction is leased back to the vendor even though gain or loss is recognized to the vendor-lessee and the property ceases to be subject to depreciation in the vendor-lessee's hands. Thus, the present situation falls within the scope of the exception to the recapture rules provided by section 1.47-3(g).

HOLDING

Under the circumstances described above, there is no recapture of investment tax credit under section 47 of the Code at the time section 38 property is contributed to a partnership and simultaneously leased back to the taxpayer making the contribution.

Section 48—Definition; Special Rules

26 CFR 1.48-1: Definition of section 38 property.

Investment credit; hydraulic dock

leveler. A hydraulic dock leveler that is bolted to the loading dock and used in the operation and maintenance of an office building is a structural component of a building within the meaning of section 1.48-1(e)(2) of the regulations and does not qualify as section 38 property

Rev. Rul. 85-90

ISSUE

Whether the hydraulic dock leveler described below qualifies as section 38 property for purposes of the investment tax credit.

FACTS

In 1983, the taxpayer constructed a new office building equipped with a hydraulic dock leveler that is bolted to the loading dock. The dock leveler is an adjustable ramp that serves to bridge the gap between the dock and the truck and compensates for variances in the height of truck beds. The leveler weighs approximately 2000 pounds, has a 25,000 pound load bearing capacity and consists of a 6×8 foot steel platform deck and a hydraulic system that raises and lowers the deck at one end. The pressure for the hydraulic system is provided by an electrically driven pump. The dock leveler is recovery property under section 168 of the Internal Revenue Code.

LAW AND ANALYSIS

Section 38 of the Code allows a credit against federal income tax for qualified investment in section 38 property. Section 38 property is defined in section 48.

Section 48(a)(1) of the Code defines section 38 property to include (A) tangible personal property or (B) other tangible property (not including a building and its structural components) but only if the other tangible property is used as an integral part of manufacturing, production, or other specified activity. The term section 38 property includes only recovery property (without regard to any useful life) and any other property with respect to which depreciation is allowable that has a useful life of 3 years or more.

Section 1.48-1(c) of the Income Tax Regulations provides that the term "tangible personal property" means any tangible property except land and improvements thereto, such as buildings or other inherently permanent structures. The term includes all property (other than structural components) that is contained in or attached to a building and all property that is in the nature of machinery (other than structural components of a building or other inherently permanent structures) even though located outside a building. Thus, for example, a gasoline pump, hydraulic car lift, or automatic vending machine, although annexed to the ground, shall be considered tangible personal property.

Section 1.48-1(e)(1) of the regulations provides that buildings and structural components thereof do not qualify as section 38 property.

Section 1.48-1(e)(2) of the regulations defines the term "structural components." The term includes such parts of a building as walls, partitions, floors and ceilings; windows and doors; all components of a central air-conditioning or heating system; plumbing and plumbing fixtures; electric wiring and lighting fixtures; escalators and elevators and other components relating to the operation or maintenance of a building.

The dock leveler is an important truck loading area accessory. Because the dock leveler is permanently installed and is used in the operation and maintenance of the office building, it is a structural component of a building within the meaning of section 1.48-1(e)(2) of the regulations. It is not, therefore, tangible personal property or qualifying other tangible property.

HOLDING

The hydraulic dock leveler described in the facts is a structural component of a building within the meaning of section 1.48-1(e)(2) of the regulations and does not qualify as section 38 property.

---

26 CFR 1.48-1: Definition of section 38 property.

Investment credit; section 38 property; snowmaking system. Components of a snowmaking system such as air and water distribution pipes, hydrants, electrical transmission lines, and a water intake pipe are not section 38 property and do not qualify for the investment credit.

Rev. Rul. 85-93

ISSUE

Are various components of a snowmaking system used by a taxpayer in the operation of its ski resort section 38 property within the meaning of section 1.48-1 of the Income Tax Regulations?

FACTS

The taxpayer operates a ski resort. It also owns and operates a snowmaking system that produces snow used on the ski slopes and trails.

The system operates through the use of water pumps, air compressors, power transformers, and other machinery, which are housed adjacent to the water source, a large pond. Water is pumped through welded steel pipe from the pond, up the nearby ski slopes, and along the ski trails. Almost all the pipe is buried for insulation, safety, or aesthetic purposes. High voltage electrical transmission lines to the pumphouse are also buried as required by state and local law. Other welded steel pipe, buried in the same trenches with the water lines, carries compressed air from an air compressor located in the pumphouse. The water and air distribution lines are tapped at appropriate intervals along the slopes and trails by upright pipes and valves. Flexible hoses connected to these hydrants deliver the water and air to the guns through which the water is ejected and atomized by a jet of the compressed air. When the guns are operated in temperatures of less than 32 degrees Fahrenheit, the spray freezes and falls as snow along the slopes and trails, all of which are a part of the taxpayer's ski resort. (No snow is sold to other parties.)

The taxpayer and the Service agree that the pumphouse is a building and not section 38 property. It is also agreed that the snowmaking guns and hoses, power transformers, pumps, compressors, control equipment, and plumbing and wiring interconnections in and around the pumphouse are all in the nature of machinery and are, therefore, tangible personal property qualifying as section 38 property. The only

snowmaking system components at issue in this revenue ruling are the air and water distribution pipes, the hydrants, the electrical transmission lines and the water intake pipe.

LAW AND ANALYSIS

Section 38 of the Internal Revenue Code allows a credit against federal income tax for qualified investments. Section 48 and the corresponding regulations define what property qualifies under section 38.

Section 48(a)(1) of the Code provides that the term "section 38 property" includes: (1) tangible personal property, and (2) other tangible property (not including a building and its structural components) if such property is used as an integral part of one of certain specific activities among which are manufacturing and production.

Section 1.48-1(c) of the regulations provides that, for investment credit purposes, the term "tangible personal property" means any tangible property except land and improvements thereto, such as buildings or other inherently permanent structures (including items which are structural components of such buildings or structures). Tangible personal property includes all property (other than structural components) which is contained in or attached to a building. Furthermore, all property which is in the nature of machinery (other than structural components of a building or other inherently permanent structure) shall be considered tangible personal property even though located outside a building.

Section 1.48-1(d)(2) of the regulations provides that, for investment credit purposes, the terms "manufacturing" and "production" include the construction, reconstruction, or making of property out of scrap, salvage, or junk material, as well as from new or raw material, by processing, manipulating, refining, or changing the form of an article, or by combining or assembling two or more articles.

The snowmaking system components in question—the air and water distribution pipes, the hydrants, the electrical transmission lines, and the water intake pipe—may qualify as section 38 property if they are either tangible personal property or are used as an integral part of manufacturing or production.

The committee reports prepared when the investment credit was first enacted mention oil and gas pipelines as examples of real property. H.R. Rep. No. 1447, 87th Cong., 2d Sess. 12 (1962), 1962-3 C.B. 405, 416; S. Rep. No. 1881, 87th Cong., 2d Sess. 16 (1962), 1962-3 C.B. 707, 722. Because they are analogous to oil and gas pipelines, extensive systems of underground piping are considered inherently permanent improvements to land and not tangible personal property. *See, e.g., Johnston v. United States*, 80-1 U.S.T.C. ¶ 9199 (D. Mont. 1979) (underground water and sewer pipes); Rev. Rul. 69-273, 1969-1 C.B. 30 (underground pipes and valves in a golf course irrigation system); Rev. Rul. 66-269, 1966-2 C.B. 13 (underground pipes) in a trailer park water and sewer system), all relying on the oil and gas pipeline analogy.

The air and water distribution pipes and hydrants of the snowmaking system are similar to the types of property involved in the above authorities in that all consist of extensive systems of underground piping connected to machinery or equipment. Accordingly, the air and water distribution pipes and hydrants are not tangible personal property, but are inherently permanent improvements to land.

Electrical wiring and plumbing appurtenant to machinery or equipment are sometimes considered part of the machinery or equipment and, thus, tangible personal property. *See, e.g.*, Rev. Rul. 69-558, 1969-2 C.B. 4; Rev. Rul. 66-299, 1966-2 C.B. 14. In the cited revenue rulings, the electrical wiring and plumbing are located in the immediate vicinity of, and inside the building housing, the machinery to which they are connected.

The water intake pipe and electrical transmission lines of the snowmaking system are located outside the pumphouse and buried underground. Therefore, these components are not tangible personal property, but are inherently permanent property not in the nature of machinery or equipment.

Although none of the components in question are tangible personal property, they may be section 38 property if used as an integral part of manufacturing or production.

As used in section 48(a)(1) of the Code the terms "manufacturing" and "production" are to be given their commonly accepted meanings. H.R. Rep. No. 1447, at A18, 1962-3 C.B. at 516; S. Rep. No. 1881, at 155, 1962-3 C.B. at 859. Interpreting the term "manufacturing" in its usual sense, Rev. Rul. 81-66, 1981-1 C.B. 19, concludes that the operation of a cafeteria is a retail activity, not a manufacturing activity within the meaning of section 48(a)(1), and that leasehold improvements to the cafeteria facility that are not tangible personal property do not qualify as section 38 property. Rev. Rul. 81-66, 1981-1 C.B. at 20, states:

> Activities involving the sale of merchandise, food and other items to the general public for personal or household consumption, and the rendering of services incidental to the sale of goods are considered to be retail activities rather than manufacturing within the commonly accepted meaning of the term. Processing incidental or subordinate to selling is often conducted at retail stores. For example, drug stores prepare prescriptions, restaurants prepare meals, and meat markets cut meat.
>
> The operation of a cafeteria, like the operation of a restaurant or cafe, is considered in the trade to be a retail activity rather than a manufacturing activity. The food and drink prepared by the cafeteria employees is for direct sale to and for the consumption by the general public. The food preparation activity is incidental or subordinate to the selling of the prepared meals and is not considered to be similar to any of the activities encompassed by the definition of manufacturing provided by section 1.48-1(d)(2) of the regulations.

Thus, Rev. Rul. 81-66 determines that in common parlance the term "manufacturing" does not include incidental or subordinate activities occuring in a retail context.

Similarly, the terms "manufacturing" and "production" in their customary sense do not embrace activities that are incidental or subordinate to the provision of recreational services, such as snowmaking by the operator of a ski resort. Accordingly, the air and water distribution pipes, hydrants, electrical transmission lines and the water intake pipe in the present case are not used as

an integral part of manufacturing or production.

HOLDING

The snowmaking system components in question are not section 38 property and do not qualify for the investment credit.

---

26 CFR 1.48-1: Definition of section 38 property.
(Also Sections 38, 46, 47; 1.38-1, 1.46-1, 1.47-1.)

Investment credit; oil lease and well equipment. Separate items of oil lease and well equipment such as casing, tubing, pumps, motors, separators and storage tanks must be classified separately as new or used section 38 property.

Rev. Rul. 85-156

ISSUE

Whether oil lease and well equipment such as casing, tubing, pumps, motors, separators and storage tanks installed on an oil tract is a single unit of constructed section 38 property.

LAW AND ANALYSIS

Section 38(a) of the Internal Revenue Code allows a tax credit which section 46(a) provides shall be a percentage of qualified investment. Section 46(c)(1) states that qualified investment means the applicable percentage of the basis of each new section 38 property plus the applicable percentage of the basis of each used section 38 property placed in service during the year.

Section 48(b)(1) of the Code defines new section 38 property as property the original use of which commences with the taxpayer. Section 48(c)(1) defines used section 38 property as section 38 property acquired by purchase after December 31, 1961, which is not new section 38 property. Section 48(c)(2) limits the cost of used section 38 property that may qualify for the credit in any taxable year.

An item of property can be constructed with some used parts yet constitute new section 38 property. *See*, for example, section 1.48-2(b)(3) of the Income Tax Regulations and Rev. Rul. 80-313, 1980-2 C.B. 25. The installation of an item of used property, however, in conjunction with new property or with other items of used property does not necessarily constitute the construction of new property within the meaning of section 48(b) of the Code. Each separate item of property must be separately classified as new or used property.

Oil lease and well equipment is not a single unit of constructed property. Each well contains a number of separate items of section 38 property each of which must be classified as new or used. Although the property placed on an oil well performs a unitary function, in this sense it is not different than the items of machinery and equipment in a factory that are part of a single production line. The items of machinery and equipment do not lose their character as separate items of property for purposes of determining whether they are new or used property merely because they are installed together to accomplish a single objective. For example, a pump used on an oil tract, like a machine in a factory production line, is a separate property.

HOLDING

Separate items of oil lease and well equipment such as casing, tubing, pumps, motors, separators and storage tanks must be classified separately as new or used section 38 property.

---

26 CFR 1.48-1: Definition of section 38 property.

Investment credit; boilers fueled by oil or natural gas. A boiler primarily fueled by natural gas used in a residential apartment building is a structural component of a building and does not qualify as section 38 property.

Rev. Rul. 85-183

ISSUE

Does a boiler primarily fueled by natural gas and used in a residential apartment building as part of the heating system of that building qualify as section 38 property?

FACTS

Taxpayer constructed and placed in service a residential apartment building in 1982. The building contained a central heating system that provides steam heat to each apartment unit. Included in the heating system is a boiler primarily fueled by natural gas.

LAW AND ANALYSIS

Section 48(a)(1) of the Code provides that the term "section 38 property" includes (A) tangible personal property or (B) other tangible property (not including a building and its structural components) but only if the other tangible property is used as an integral part of certain specified activities.

Section 48(a)(10)(A) of the Code provides that the term "section 38 property" does not include any boiler primarily fueled by petroleum or petroleum products (including natural gas) unless the use of coal is precluded by federal air pollution regulations (or by state air pollution regulations in effect on October 1, 1978) or unless the use of such boiler will be an exempt use within the meaning of subparagraph (B).

Section 48(a)(10)(B) of the Code defines the term "exempt use" for purposes of subparagraph (A). Included in the definition are such uses as use in an apartment, hotel, motel, office building, a wholesale or retail establishment, and any other facility that is not an integral part of manufacturing, processing, or mining.

Section 1.48-1(e)(1) of the regulations provides that buildings and structural components thereof do not qualify as section 38 property.

Section 1.48-1(e)(2) of the regulations defines the term "structural components". Included in the definition are parts of a building such as all components of a central air conditioning or heating system and other components relating to the operation or maintenance of a building.

The section 1.48-1(e)(2) definition of structural components is based, in part, on the language in the committee reports associated with the Revenue Act of 1962 (Public Law 87-834), which first provided for the investment tax credit. Both H.R. Rep. No. 1447, 87th Cong. 2nd Sess. A18 (1962), 1963-3 C.B. 405, 516 and S. Rep. No. 1881, 87th Cong., 2nd Sess. 155 (1962), 1962-3 C.B. 707, 859, state that the term "structural components" of a building includes such parts of the building as central air-conditioning and

heating systems, plumbing, and electric wiring and lighting fixtures, related to the operation and maintenance of the building.

Section 48(a)(10) of the Code was added by section 301(d) of Title III of the Energy Tax Act of 1978, 1978-3 (Vol. 2) C.B. vii, 20, 26. The subject heading for Title III is "Changes in Business Investment Credit to Encourage Conservation of, or Conversion From, Oil and Gas or to Encourage New Energy Technology". The subject heading for section 301(d) is "Denial of Investment Tax Credit for Certain Property". In addition to denying the investment tax credit for most boilers fueled by oil and gas, section 301(d) denied the investment tax credit for air conditioning or space heating units that may have qualified as tangible personal property under the prior law and denied rapid depreciation for boilers fueled by oil or gas.

The source of the language on exempt uses in section 48(a)(10) was the proposed excise tax on business use of oil and natural gas that was part of the 1977 House Energy Tax Bill (Title II of H.R. 6831). The House bill also proposed to deny investment tax credit for most boilers that are fueled by oil or natural gas except for those boilers used in any of the exempt uses. The excise tax portion of the House bill was not included in the final bill (H.R. 5263) that was enacted into law. See H.R. Rep. No. 95-496, Part III, 95th Cong., 1st Sess. 93, 100-105, 124 (1977), 1978-3 (Vol. 2) C.B. 71, 155, 162-167, 186. See also S. Rep. No. 95-1324 (Conf. Rep.), 95th Cong., 2nd Sess. 59-61, 67 (1978), 1978-3 (Vol. 2) C.B. 309, 331-333, 339.

Section 301(d) of the 1978 Act, which added section 48(a)(10) to the Code, was intended to remove from the definition of section 38 property certain property that could qualify as section 38 property under the prior law. See H.R. Rep. No. 95-496, Part III, 95th Cong., 1st Sess. 5, 124 (1977), 1978-3 (Vol. 2) C.B. 71, 79, 186. The purpose of section 301(d) under Title III is to encourage conservation of, or conversion from oil and gas and not to expand the definition of section 38 property by adding property that uses oil or natural gas that did not qualify for the credit before.

Under section 48(a)(1) of the Code, section 1.48-1(e)(2) of the regulations, and the committee reports associated with the Revenue Act of 1962, cited above, it is clear that parts of a building such as heating systems related to the operation and maintenance of the building are "structural components" of the building that do not qualify as section 38 property. Since the legislative history of section 48(a)(10) of the Code indicates that Congress intended to restrict the definition of section 38 property, structural components that did not qualify as section 38 property prior to the enactment of section 48(a)(10) are not affected by that section.

HOLDING

A boiler primarily fueled by natural gas used in a residential apartment building, is a structural component of a building within the meaning of section 1.48-1(e)(2) of the regulations and does not qualify as section 38 property.

---

26 CFR 1.48-1: Definition of section 38 property

Investment credit; energy property; equipment used to produce fuel alcohol from biomass feedstock. Equipment placed in service in 1982 that uses oil or natural gas as a primary source of energy to convert biomass to fuel alcohol qualifies as alternative energy property under section 48(1)(3)(A)(iii) of the Code. Rev. Rul. 85-41 distinguished.

Rev. Rul. 85-191

ISSUE

Whether equipment placed in service in 1982 that uses oil or natural gas as a primary source of energy to convert biomass to fuel alcohol qualifies as energy property under section 48(1) of the Internal Revenue Code.

FACTS

In 1982, taxpayer constructed a new plant to produce fuel alcohol from biomass feedstock. The fuel alcohol is used in the production of gasohol. The primary source of energy for the plant facility is natural gas that is used to fire boilers producing steam for the alcohol production process. The biomass feedstock is an alternate substance under both sections 48(1)(3)(B) and 48(1)(15)(B)(i) of the Code. The fuel alcohol production equipment is recovery property under section 168(c) of the Code. For federal income tax purposes, the only significant difference between the facts in this revenue ruling and those in Rev. Rul. 85-41, 1985-1 C.B. 17, is that the plant facility was constructed and placed in service in 1982 rather than 1984.

LAW AND ANALYSIS

Section 46(a) of the Code provides that, for purposes of section 38, the amount of the investment credit determined under this section for any taxable year shall be an amount equal to the sum of the following percentages of the qualified investment:

(1) the regular percentage,

(2) in the case of energy property, the energy percentage, and

(3) in the case of that portion of the basis of any property which is attributable to qualified rehabilitation expenditures, the rehabilitation percentage.

Section 46(b)(2)(A) of the Code provides a table to be used in determining the applicable investment credit energy percentage for the various categories of energy property. Section 46(b)(2)(A)(I) sets forth a general rule that provides a 10 percent credit, beginning October 1, 1978, and ending December 31, 1982, for property not described in any of the subsequent provisions of the table. Alternative energy property, defined in section 48(1)(3), is not separately described or listed in the subsequent provisions of the section 46(b)(2)(A) table and, therefore, comes under the general rule. On the other hand, biomass property, which is defined in section 48(1)(15), is separately described in section 46(b)(2)(A)(VI). That section provides a ten percent credit for biomass property for the period beginning October 1, 1978, and ending December 31, 1985.

Section 48(1)(3)(A)(iii) of the Code defines the term "alternative energy property" to include equipment for converting an alternate substance into a synthetic liquid, gaseous, or solid fuel. Section 48(1)(3)(B) defines the term "alternative substance" to mean any substance other than oil and natural gas, and any product of oil and natural gas.

Section 1.48-9(c)(5)(i) of the Income Tax Regulations provides that equip-

ment (synthetic fuel equipment) that converts an alternate substance into a synthetic solid, liquid, or gaseous fuel (other than coke or coke gas) is alternative energy property. In the example provided in the regulations, alcohol production equipment qualifies as synthetic fuel equipment to the extent that it is used to produce alcohol for use in a fuel mixture, such as gasohol. Section 1.48-9(c)(5)(iii) provides that synthetic fuel equipment includes equipment that converts biomass into a synthetic fuel.

Section 48(1)(15) of the Code, which was added by section 222(g) of the Crude Oil Windfall Profit Tax Act of 1980, 1980–3 C.B. 1, 36, defines the term "biomass property" to include equipment for converting an alternate substance into alcohol for fuel purposes, but only if the primary source of energy for the facility producing the alcohol is not oil or natural gas or a product of oil or natural gas.

Section 1.48-9(a)(1) of the regulations states that energy property means property described in at least one category of energy property. If property is described in more than one category or is described more than once in a single category, only one energy credit is allowed. If the property is described in more than one category, the credit will be allowed under the category chosen by the taxpayer.

It was possible, prior to January 1, 1983, for certain fuel alcohol production facilities to fall into more than one category of energy property. Any facility that qualified as biomass property under section 48(1)(15) of the Code also qualified as alternative energy property under section 48(1)(3)(A)(iii). However, only if the primary source of energy for the facility producing the alcohol is other than oil or natural gas or a product of oil or natural gas may the alternative energy property qualify as biomass property. A fuel alcohol production facility that does not qualify as biomass property because it uses oil or natural gas as its primary source of energy could, thus, qualify as alternative energy property. The availability of the energy credit for alternative energy property, however, ended on December 31, 1982, while the availability of the energy credit for biomass property does not end until December 31, 1985.

Taxpayer's fuel alcohol production equipment does not qualify as biomass property uner section 48(1)(15) of the Code because it uses natural gas as its primary energy source. However, the equipment qualifies for the energy credit as alternative energy property under section 48(1)(3)(A)(iii) of the Code and section 1.48-9(c)(5)(i) of the regulations because it was placed in service in 1982.

In Rev. Rul. 85-41, equipment similar to that described in this revenue ruling was placed in service on or after January 1, 1983. Since the energy credit for alternative energy property did not still apply, that equipment did not qualify for the energy credit.

HOLDING

Equipment placed in service in 1982 that uses oil or natural gas as a primary source of energy to convert biomass to fuel alcohol qualifies as alternative energy property under section 48(1)(3)(A)(iii) of the Code and section 1.48-9(c)(5)(i) of the regulations.

EFFECT ON OTHER RULINGS

Rev. Rul. 85-41 is distinguished.

T.D. 8031

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Investment Tax Credit for Qualified Rehabilitated Buildings

AGENCY: Internal Revenue Service, Treasury.
ACTION: Final Regulations.

SUMMARY: This document contains final Income Tax Regulations relating to the investment tax credit for qualified rehabilitated buildings. It reflects changes relating to the rehabilitation credit that were made to sections 38, 46, 47 and 48 of the Internal Revenue Code of 1954 by the Revenue Act of 1978 [Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1] and the Technical Corrections Act of 1979 [Pub. L. 96-222, 1980-1 C.B. 499], but does not reflect changes made to those sections by the Economic Recovery Tax Act of 1981 [Pub. L. 97-34, 1981-2 C.B. 256]. Given the fact that the Economic Recovery Tax Act of 1981 substantially amended the provisions pertaining to the rehabilitation credit, these regulations are generally not effective for expenditures incurred after December 31, 1981. A notice of proposed rulemaking * * * [LR-238-81, page 777, this Bulletin] however, contains proposed regulations relating to these expenditures.

DATES: The amendments are generally effective with respect to qualified rehabilitation expenditures incurred after October 31, 1978, and before January 1, 1982.

FOR FURTHER INFORMATION CONTACT: John G. Schmalz of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224. Attention CC:LR:T, (202-566-3516, not a toll free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

On October 28, 1980, the FEDERAL REGISTER published proposed amendments to the Income Tax Regulations (26 CFR Part 1) under sections 46 and 48 of the Internal Revenue Code of 1954. The amendments were proposed to conform the regulations to section 315 of the Revenue Act of 1978 (92 Stat. 2828) [Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1, 62] and section 103(a)(4) of the Technical Corrections Act of 1979 (94 Stat. 209) [Pub. L. 96-222, 1980-1 C.B. 499, 507].

Public comments on the proposed regulations were received. A public hearing was held on March 31, 1981. After consideration of all comments regarding the proposed amendments, these amendments are adopted as revised by this Treasury decision.

EXPLANATION OF PROVISIONS

Under section 48(a)(1)(E), that portion of the basis of a qualified rehabilitated building which is attributable to qualified rehabilitation expenditures is treated as section 38 property. Section 48(g)(1) and (2) and the final regulations set forth several requirements

for qualified rehabilitated buildings and for qualified rehabilitation expenditures.

One requirement for a qualified rehabilitated building is that a twenty-year period must have elapsed between the beginning of the rehabilitation and the later of: (1) the date the building was first placed in service or (2) the date of any prior rehabilitation for which a credit was allowed under section 48(a)(1)(E).

Another requirement for a qualified rehabilitated building is that the building be rehabilitated. The regulations require that the rehabilitation of the building be substantial. In general, for the rehabilitation to be "substantial," it must either materially extend the useful life of the building, significantly upgrade its usefulness, or preserve it in a manner that significantly improves its condition or enhances its historic value.

Section 48(g) also distinguishes between expenditures for new construction and for rehabilitation. Any expenditures attributable to an enlargement of an existing building are considered to be expenditures for new construction and, therefore, do not qualify for the credit. The final regulations contain rules defining an enlargement of a building and provide allocation rules for cases where expenditures are attributable to both a rehabilitation and an enlargement.

Another requirement for a qualified rehabilitated building is that at least 75 percent of the existing external walls of the building must be retained in place as external walls in the rehabilitation process.

Section 48(g)(1)(C), prior to its amendment by the Economic Recovery Tax Act of 1981, provided that where there is a separate rehabilitation of a major portion of a building, the major portion may be treated as a separate building for purposes of the definition of a qualified rehabilitated building and the twenty-year requirement. These regulations provide that a major portion must consist of clearly identifiable parts of a building and lists factors that are taken into account in determining whether a part of a building is a major portion.

Rehabilitation activity that is done in phases may be considered a single rehabilitation. The final regulations provide rules for determining whether noncontinuous rehabilitation activity constitutes a single rehabilitation done in phases.

Under the version of section 48(g)(2) in effect prior to the amendments made by the Economic Recovery Tax Act of 1981, and the final regulations, the term "qualified rehabilitation expenditure" means any amount properly chargeable to capital account, incurred after October 31, 1978, for property (or additions or improvements to property) with a useful life of five years or more, made in connection with the rehabilitation of a qualified rehabilitated building. The regulations have been revised to make clear that only expenditures for depreciable property qualify as qualified rehabilitation expenditures. The final regulations contain special rules for treating a transferee of a building as having incurred the qualified rehabilitation expenditures of a transferor if the building is acquired before the property attributable to such expenditures is placed in service. In addition, expenditures for property that is "section 38 property" (determined without regard to section 48(a)(1)(E) and (1)), the cost of acquiring an interest in a building, and the costs for an enlargement of a building are not qualified rehabilitation expenditures. Finally, expenditures to rehabilitate a certified historic structure (as defined in section 191(d)(1) and the regulations thereunder) are not qualified rehabilitation expenditures unless the rehabilitation is a certified rehabilitation (as defined in section §1.48-11(c)(8)).

PUBLIC COMMENTS AND CHANGES IN RESPONSE TO COMMENTS

ENLARGEMENTS

Several commenters suggested the regulations should provide some leeway for enlargements that are *de minimus*. However, the statute clearly provides that expenditures for enlargements do not qualify. Also, since only the expenditures attributable to the enlargement of the building are excluded from the definition of qualified rehabilitation expenditure (*i.e.*, the entire rehabilitation is not necessarily disqualified), there is no need for a *de minimus* rule. Therefore, no change was made in the final regulations.

EXTERNAL WALL

A number of commenters requested that the rule defining an "external wall" be clarified. The proposed regulations contained the rule that a common wall was not an external wall. After careful consideration, the regulations are clarified to provide that an abutting wall (*i.e.*, a wall that abuts the wall of a separate building) and a shared wall (*i.e.*, a single wall serving two buildings) are external walls. An alternative rule, however, provides that if a taxpayer is adversely affected by the treatment of party walls in these final regulations, the taxpayer may continue to use the old definition of external wall.

MAJOR PORTION TEST

In response to comments regarding the major portion provision, the "facts and circumstances" test in the proposed regulations is revised to include as a factor whether the portion rehabilitated constitutes a separate leasehold interest.

PHASED REHABILITATIONS

A rule in the proposed regulations required that a written set of architectural plans and specifications describing the rehabilitation be in existence at the commencement of the project for a rehabilitation done in phases to qualify as a single rehabilitation. The final regulations provide that written plans generally describing all phases of the rehabilitation of the building are sufficient even though such plans are not architectural plans and specifications.

TIMING OF THE CREDIT

The proposed regulations provided that the credit could be claimed only in the taxable year in which the property is placed in service. In response to comments, the final regulations make it clear that qualified progress expenditure treatment is available under section 46(d) if the requirements of that section are met.

DRAFTING INFORMATION

The principal author of these regulations is John G. Schmalz of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service participated in developing these

regulations, both on matters of substance and style.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this final rule is not a major legislative rule as defined in Executive Order 12291. Because the notice of proposed rulemaking for this final rule was published prior to January 1, 1981 (the effective date for the Regulatory Flexibility Act), this final rule is not subject to the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*)

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Part 1 is amended as follows:

Paragraph 1. These regulations are issued under the authority of 26 U.S.C. 7805, and the authority citation for Part 1 remains unchanged.

Par. 2. Section 1.46-4(d) is amended by adding a new paragraph (d)(5) to read as follows:

§1.46-4 Limitations with respect to certain persons.

* * * * *

(d) *Noncorporate lessors.* * * *

(5) The requirements of this paragraph shall not apply with respect to any property which is treated as section 38 property by reason of section 48(a)(1)(E).

Par. 3. Section 1.48-1 is amended by revising the second sentence of paragraph (a), by revising the first sentence of paragraph (e)(1), and by adding a new sentence immediately after such first sentence of paragraph (e)(1), to read as follows:

§1.48-1 Definition of section 38 property.

(a) *In general.* * * * Except as otherwise provided in this section, the term "section 38 property" means property (1) with respect to which depreciation (or amortization in lieu of depreciation) is allowable to the taxpayer, (2) which has an estimated useful life of 3 years or more (determined as of the time such property is placed in service), and (3) which is (i) tangible personal property, (ii) other tangible property (not including a building and its structural components) but only if such other property is used as an integral part of manufacturing, production, or extraction, or as an integral part of furnishing transportation, communications, electrical energy, gas, water, or sewage disposal services by a person engaged in a trade or business of furnishing any such service, or is a research or storage facility used in connection with any of the foregoing activities, (iii) an elevator or escalator which satisfies the conditions of section 48(a)(1)(C), or (iv) in the case of a qualified rehabilitated building, that portion of the basis which is attributable to qualified rehabilitation expenditures. * * *

* * * * *

(e) *Definition of building and structural components.* (1) Generally, buildings and structural components thereof do not qualify as section 38 property. See, however, section 48(a)(1)(E) and (g), and §1.48-11 (relating to investment credit for qualified rehabilitated building). * * *

* * * * *

Par. 4. Section 1.48-2 is amended by adding a new paragraph (d) to read as follows:

§1.48-2 New section 38 property.

* * * * *

(d) *Special rule for qualified rehabilitated buildings.* Notwithstanding the rules in paragraphs (a) through (c) of this section, that portion of the basis of a qualified rehabilitated building attributable to qualified rehabilitation expenditures is treated as new section 38 property. See section 48(a)(1)(E) and (g), and §1.48-11.

Par. 5. There is inserted immediately after § 1.48-10 the following new §1.48-11:

§1.48-11 Qualified rehabilitated building; expenditures incurred before January 1, 1982.

(a) *In general.* Under section 48(a)(1)(E), that portion of the basis of a qualified rehabilitated building which is attributable to qualified rehabilitation expenditures qualifies as section 38 property. In general, property which is treated as section 38 property by reason of section 48(a)(1)(E) is treated as new section 38 property and therefore is not subject to the used property limitation. See §1.48-2(d). Section 48(g)(1) and paragraph (b) of this section define the term "qualified rehabilitated building". Section 48(g)(2) and paragraph (c) of this section define the term "qualified rehabilitation expenditure". Paragraph (d) of this section provides guidance for coordination of these provisions with other sections of the Code.

(b) *Definition of qualified rehabilitated building*—(1) *In general.* The term "qualified rehabilitated building" means any building and its structural components—

(i) Which has been rehabilitated (within the meaning of paragraph (b)(3) of this section),

(ii) Which was placed in service (within the meaning of §1.46-3(d)) by any person at any time before the beginning of the rehabilitation,

(iii) 75 percent or more of the existing external walls of which are retained in place as external walls (within the meaning of paragraph (b)(4) of this section) in the rehabilitation process, and

(iv) Which meets the twenty-year requirement in paragraph (b)(2) of this section.

In addition, a major portion of a building may be treated as a separate building for purposes of this paragraph if the requirements of paragraph (b)(5) of this section are met.

(2) *Twenty-year requirement*—(i) *In general.* A building is considered a qualified rehabilitated building only if a period of at least 20 years has elapsed between the date physical work on the rehabilitation of the building began, and the later of—

(A) The date the building was first placed in service (see §1.46-3(d)) by any person as a building, or

(B) The date the building was placed in service by any taxpayer in connection with a prior rehabilitation with respect to which a credit was allowed by reason of section 48(a)(1)(E).

(ii) *Vacant periods.* The 20-year period include periods during which a building was vacant or devoted to a personal use and is computed without regard to the number of owners or the identity of owners during the period.

(iii) *Physical work on a rehabilitation.* For purposes of this section, "physical work on a rehabilitation" be-

gins when actual construction begins. The term "physical work on a rehabilitation" does not include preliminary activities such as planning, designing, securing financing, exploring, researching, developing plans and specifications, or stabilizing a building to prevent deterioration (*e.g.*, placing boards over broken windows).

(iv) *Special rule.* If a part of a building meets the twenty-years requirement in subdivision (i) of this subparagraph and a part (for example, an addition) does not, a rehabilitation of that part that meets the requirement may qualify for a credit only if that part constitutes a major portion (as defined in paragraph (b)(5) of this section) of the building.

(3) *Rehabilitation*—(i) *In general.* For purposes of this paragraph, rehabilitation includes renovation, restoration, or reconstruction. However, the term "rehabilitation" does not include enlargement (within the meaning of paragraph (c)(7)(ii) of this section), new construction, or the completion of new construction after a building has been placed in service. For purposes of this paragraph (b)(3), whether expenditures are attributable to the rehabilitation of an existing building, or to new construction, is determined upon all the facts and circumstances.

(ii) *Substantial rehabilitation.* For a building to be considered rehabilitated, the rehabilitation must be substantial. Whether a rehabilitation is substantial is determined upon the basis of all the facts and circumstances. In general, to be substantial, the rehabilitation must do one of the following:

(A) materially extend the useful life of the building;

(B) significantly upgrade its usefulness (for either the same or a new use); or

(C) preserve it in a way that significantly improves its condition or enhances its historic value.

A substantial rehabilitation may vary in degree from gutting and extensive reconstruction of a building's major structural components to the cure of a substantial accumulation of major disrepairs. It may also include renovation, alteration, or remodelling for the conversion of a structurally sound building to a design and condition required for a new use. Cosmetic improvements alone, however, do not qualify as a substantial rehabilitation.

(iii) *Aggregation of rehabilitation.* In the case where qualified rehabilitation expenditures are incurred with respect to a rehabilitation of a building by more than one person (*e.g.*, a lessor and a lessee, several lessees, or several condominium owners), the substantial rehabilitation requirement in this paragraph (b)(3) shall be applied by aggregating all the rehabilitation work done by such persons.

(iv) *Special rule for qualified rehabilitation expenditures treated as incurred by the taxpayer.* In the case where qualified rehabilitation expenditures are treated as having been incurred by a taxpayer. In the case where qualified rehabilitation expenditures are treated as having been incurred by a taxpayer because of the application of paragraph (c)(3)(ii) of this section, the substantial rehabilitation test in paragraph (b)(3)(ii) of this section will be applied by aggregating the rehabilitation work done by the transferor and the transferee.

(v) *Examples.* The provisions of this subparagraph (3) may be illustrated by the following examples:

Example (1). Taxpayer A is the owner of a 30-year old building. The building is air conditioned by means of window air conditioning units. A replaces the window units with a central air conditioning system and no other rehabilitation is performed by A. The expenditures incurred by A did not materially extend the building's useful life, significantly upgrade its usefulness, or preserve it in a manner that significantly improves its condition or enhances its historic value. Although expenditures for replacement of window units with a central air conditioning system may constitute qualified expenditures as part of an overall rehabilitation, alone they do not qualify as a substantial rehabilitation and the building is not considered rehabilitated within the meaning of this subparagraph.

Example (2). Taxpayer B is the owner of a 10 story office building that is 35 years old. The building is in substantial disrepair and in order to modernize it as an office building B installs new plumbing, electrical wiring, and heating and air conditioning systems. In addition, the layout of each floor is changed by means of tearing down many existing interior walls and partitions and building new walls, partitions, and doors. Old plaster is removed from many walls and replaced by new wall covering. New windows and new flooring are installed throughout the building. The improvements made by B materially extend the useful life of the building and significantly upgrade its usefulness. The building is considered rehabilitated within the meaning of the facts and circumstances test in this subparagraph.

Example (3). Taxpayer C is the owner of a 100-year old building that has substantial historic character, although the building is not a certified historic structure (as defined in section 191(d)(1) and the regulations thereunder). C uncovers and restores the original woodwork, wall coverings and molding throughout the building. The windows and doors are replaced with replicas of the original. The improvements made by C significantly preserve the building and significantly enhance its historic value. Thus, the building is considered rehabilitated within the meaning of this subparagraph.

(4) *Retention of 75 percent of external walls*—(i) *In general.* A building meets the requirements set forth in paragraph (b)(1)(iii) only if 75 percent or more of the existing external walls (as measured by the total area of the existing external walls) are retained in place as external walls in the rehabilitation process. For this purpose, the area of existing external walls includes the area of windows and doors.

(ii) *External wall.* For purposes of this paragraph (b)(4), a wall includes both the supporting elements of the wall and the nonsupporting elements (*e.g.*, a curtain) of the wall. Except as otherwise provided in this paragraph (b)(4), the term "external wall" includes any wall that has one face exposed to the weather, earth, or an abutting wall erected on an adjacent property. An external wall also includes a shared wall (*i.e.*, a single wall shared with an adjacent building), generally referred to as a "party wall".

(iii) *Alternative rule.* Notwithstanding the definition of external wall contained in paragraph (b)(4)(ii) of this section, in any case in which the building being rehabilitated would fail to meet the requirements of a qualified rehabilitation building if the definition of external wall in paragraph (b)(4)(ii) of this section were used, then the term "external wall" shall be defined as a wall, in including its supporting elements, with one face exposed to the weather or earth, and a common wall shall not be treated as an external wall.

(iv) *Retained in place.* An existing external wall is retained in place if the supporting elements of the wall are retained in place. An existing external wall is not retained in place if the supporting elements of the wall are replaced by new supporting elements. An external wall is retained in place, however, if the supporting elements are reinforced in the rehabilitation, provided

that such supporting elements of the external wall are retained in place. An external wall is retained in place even though it is covered (e.g., with new siding). Moreover, the existing curtain may be replaced with a new curtain provided that the structural framework that provides for the support of the existing curtain is retained in place. An external wall is retained in place notwithstanding that the existing doors and windows in the wall are modified, eliminated, or replaced. A wall may be disassembled and reassembled so long as the same supporting elements are used when the wall is reassembled. Thus, for example, in the case of the brick wall, the wall is considered retained in place even though the original bricks are removed (for cleaning, *etc.*) and put back to form the wall.

(v) *Retention as an external wall.* For purposes of meeting the 75 percent requirement of this subparagraph (4), an existing external wall must be retained in place as an external wall. If an addition is made that results in an existing external wall being converted into an internal wall, the wall is not retained in place as an external wall.

(vi) *Special rule.* Solely for the purpose of meeting the 75 percent requirement of this subparagraph (4), the walls of an uncovered internal shaft designed solely to bring light or air into the center of a building which are completely surrounded by external walls of the building and which enclose space not designated for occupancy or other use by people (other than for maintenance or emergency) are not considered external walls. Thus, a wall of a light well in the center of an office building is not an external wall. However, walls surrounding an uncovered courtyard which is usable by the building's occupants, (*e.g.*, at lunch time) are external walls.

(vii) *Examples.* The provisions of this subparagraph (4) may be illustrated by the following examples:

Example (1). Taxpayer A rehabilitated a building all of the walls of which consisted of wood siding attached to gypsum board sheets (which covered the studs). A covered the existing wood siding with aluminum siding in a part of a rehabilitation that otherwise qualified under this subparagraph. A satisfied the requirement that 75 percent of the existing external walls must be retained in place as external walls.

Example (2). Taxpayer B rehabilitated a building the external walls of which had a masonry curtain. The masonry on the wall face was replaced with a glass curtain. The steel beam and girders supporting the existing curtain were retained in place. B satisfied the requirement that 75 percent of the existing external walls must be retained in place as external walls.

Example (3). Taxpayer C rehabilitated a building which has two external walls measuring 75′ × 20′ and two other external walls measuring 100′ × 20′. C tore down one of the larger walls, including its supporting elements, which accounted for more than 25% of the building's external walls and constructed a new wall. C has not satisfied the requirement that 75 percent of the existing external walls must be retained in place as external walls.

Example (4). The facts are the same as in example 3, except C does not tear down any walls, but makes an addition that results in one of the smaller walls becoming an internal wall. In addition, C enlarged 8 of the existing windows on the larger walls, increasing them from a size of 3′ × 4′ to 6′ × 8′. Since the smaller wall accounts for less than 25 percent of the total wall area, C has satisfied the requirement that 75 percent of the existing external walls must be retained in place as external walls in the rehabilitation process. The enlargement of the existing windows on the larger wall does not change the result.

(5) *Major portion treated as separate building*—(i) *In general.* Where there is a separate rehabilitation of a major portion of a building, such major portion shall be treated as a separate building. Thus, such major portion may qualify as a qualified rehabilitated building if the requirements of this paragraph are met with respect to such major portion. Expenditures for property that services both a major portion of a building and another portion must be specifically allocated to each portion to the extent possible. If it is not possible to make such an allocation, the expenditures must be allocated to each portion on some reasonable basis. What constitutes a reasonable basis for an allocation depends on factors such as the type of improvement and how the improvement relates functionally to the building. For example, in the case of expenditures for an airconditioning system or a roof, a reasonable basis for allocating the expenditures would be the volume of the major portion served by the improvement relative to the volume of the other portion of the building served by the improvement.

(ii) *Major portion defined.* Whether a part of a building constitutes a major portion of the building is determined upon the basis of all the facts and circumstances. A major portion must generally consist of clearly identifiable parts of a building (*e.g.*, a wing of a building or the first 5 stories of a 7 story building). The following factors shall be taken into account:

(A) Whether the portion comprises an entire leasehold interest or an entire ownership (*e.g.*, condominium) interest;

(B) Whether the portion (as measured by volume) is sufficiently large that it would be reasonable to treat it as a separate building; and

(C) Whether the portion is functionally different from other parts of the building.

(6) *Special rule for rehabilitation done in phases.* If rehabilitation which is not continuous is determined under this subparagraph to be a single rehabilitation done in phases, the requirements of this paragraph (b) are to be applied with respect to the overall rehabilitation and not merely to a phase of the rehabilitation. In such case, a phase of a single overall rehabilitation will not be considered as "prior rehabilitation" for purposes of subparagraph (2)(i)(B) of this paragraph (b). Whether rehabilitation which is not continuous is a single rehabilitation that is done in phases is determined on the basis of all the facts and circumstances. Generally, however, to constitute a single rehabilitation that is done in phases, there must exist, prior to the time any rehabilitation work is commenced, a set of written plans describing generally all phases of the rehabilitation of the building and a reasonable expectation that all phases of the rehabilitation will be completed. Such written plans are not required to contained detailed working drawings or detailed specifications of the material to be used. In addition, the period between the time that physical work on the first phase of the overall rehabilitation begins and physical work on the last phase of the overall rehabilitation begins must be reasonable. In determining whether the rehabilitation is completed within a reasonable time, the fact that a building is occupied during the rehabilitation, the necessity of acquiring a lease (of additional portions of the building), and unforeseen delays shall be taken into account. Other factors that are relevant in determining whether rehabilitation is a single rehabilitation include the length of time between each phase of rehabilitation activities and the extent of rehabilitation

activity in each phase.

(7) *Special rule for adjoining buildings that are combined.* For purposes of this paragraph (b), if as part of a rehabilitation process two or more adjoining buildings are combined and placed in service as a single building after the rehabilitation process, then all of the requirements of a qualified rehabilitated building in section 48(g)(1) and this section may be applied to the constituent adjoining buildings in the aggregate. Any party walls or abutting walls between the constituent buildings that would otherwise be treated as external walls (within the meaning of paragraph (b)(4)(ii) of this section) would not be treated as external walls of the building; the substantial rehabilitation test in paragraph (b)(3)(ii) of this section would be applied to the aggregate rehabilitation work with respect to all of the constituent buildings.

(c) *Definition of qualified rehabilitation expenditures*—(1) *In general.* Except as provided in subparagraph (2) of this paragraph, the term "qualified rehabilitation expenditure" means any amount—

(i) Property chargeable to capital account (as described in subparagraph (2) of this paragraph),

(ii) Incurred after October 31, 1978, for depreciable or amortizable property (or additions or improvements to property) with a useful life of five years or more, and

(iii) Made in connection with the rehabilitation of qualified rehabilitated building.

(2) *Chargeable to capital account.* For purposes of paragraph (c)(1)(i) of this section, amounts paid or incurred are chargeable to capital account if under the taxpayer's method of accounting they are properly includible in computing basis under §1.46-3. Amounts treated as an expense and deducted in the year they are paid or incurred are not chargeable to capital account.

(3) *Incurred by the taxpayer*—(i) *In general.* Generally, to qualify for a credit under section 48(a)(1)(E), qualified, rehabilitation expenditures must be incurred by the taxpayer after October 31, 1978. An expenditure is incurred for purposes of this paragraph on the date such expenditure would be considered incurred under the accrual method of accounting, regardless of the method of accounting used by the taxpayer with respect to other items of income and expense. If qualified rehabilitation expenditures are treated as having been incurred by a taxpayer under paragraph (c)(3)(ii) of this section, the taxpayer shall be treated as having incurred the expenditures on the date such expenditures were incurred by the transferor.

(ii) *Qualified rehabilitation expenditures treated as incurred by the taxpayer.* (A) Where rehabilitation expenditures are incurred with respect to a building by a person (or persons) other than the taxpayer and the taxpayer acquires the building, or a portion of the building to which the expenditures are allocable, the taxpayer acquiring such property will be treated as having incurred the rehabilitation expenditures actually incurred by the transferor (or treated as incurred by the transferor under this paragraph (c)(3)(ii)) with respect to the acquired property, provided that—

(1) the building, or the portion of the building, acquired by the taxpayer was not used after the rehabilitation expenditures were incurred and prior to the date of acquisition by the taxpayer, and

(2) No credit with respect to such qualified rehabilitation expenditures is claimed by anyone other than the taxpayer acquiring the property.

For purposes of this paragraph (c)(3)(ii), use shall mean actual use, whether personal or business.

(B) The amount of qualified rehabilitation expenditures treated as incurred by the taxpayer under this paragraph is the lesser of—

(1) The qualified rehabilitation expenditures incurred before the date on which the taxpayer acquired the building (or portion thereof), to which the expenditures are attributable, or

(2) That portion of the taxpayer's cost or other basis for the property which is attributable to the qualified rehabilitation expenditures described in paragraph (c)(3)(B)*(1)* of this section incurred before such date.

For purposes of paragraph (c)(6)(ii) of this section, the amount of rehabilitation expenditures treated as incurred by the taxpayer under this paragraph (c)(3)(ii) shall not be considered to be part of the cost of acquiring a building or any interest in the building. The portion of the cost of acquiring a building (or an interest therein) which is not treated under this paragraph as qualified rehabilitation expenditures incurred by the taxpayer is not eligible for a rehabilitation investment credit. See paragraph (c)(6)(ii) of this section.

(C) See paragraph (b)(2)(iv) of this section for rules concerning the application of the substantial rehabilitation test to expenditures treated as incurred by the taxpayer.

(iii) *Examples.* The provisions of this subparagraph may be illustrated by the following examples:

Example (1). In 1978, taxpayer A, a cash basis taxpayer, commenced the rehabilitation of a 30-year old building. In June 1978, A signed a contract with a plumbing contractor for replacement of the plumbing in the building. A agreed to pay the contractor as soon as the work was completed. The work was completed in September 1978, but A did not pay the amount due until November 1, 1978. The expenditures for the plumbing are not qualified rehabilitation expenditures because they were not incurred after October 31, 1978.

Example (2). B incurred qualified rehabilitation expenditures of $300,000 with respect to an existing building between January 1, 1980, and May 15, 1980, and then sold the building to C on June 1, 1980. If the property attributable to the expenditures was not placed in service by A during the period from January 1, 1980, to June 1, 1980, C will be treated as having incurred the expenditures.

(4) *Incurred for 5-year property.* An expenditure is incurred for depreciable or amortizable property if the amount of the expenditure is added to the basis of property which is depreciable or amortizable under section 167. The determination of whether property has a useful life of five years or more is made by applying the principles of §1.46-3(e). In the case of expenditures for property made by a lessee, see sections 167 and 178 and the regulations thereunder for rules relating to whether improvements made to leased property are depreciable or amortizable.

(5) *Made in connection with the rehabilitation of a qualified rehabilitated building.* Expenditures attributable to work done to facilities related to a building (*e.g.*, sidewalk, parking lot, landscaping) are not considered made in connection with a rehabilitation of a qualified rehabilitated building.

(6) *Certain expenditures excluded from qualified rehabilitation expenditures.* The term "qualified rehabilitation

expenditures" does not include the following expenditures:

(i) An expenditure for property which is "section 38 property" (determined without regard to section 48(a)(1)(E) and (l)).

(ii) The cost of acquiring a building or any interest in a building (including a leasehold interest) except as provided in paragraph (c)(3)(ii) of this section.

(iii) An expenditure attributable to enlargement of a building (as defined in paragraph (c)(7) of this section).

(iv) An expenditure attributable to rehabilitation of a certified historic structure (as defined in section 191(d)(1) and the regulations thereunder), unless the rehabilitation is a certified rehabilitation (as defined in paragraph (c)(8) of this section).

(7) *Expenditures for enlargement distinguished*—(i) *In general.* Expenditures attributable to an enlargement of an existing building do not qualify as qualified rehabilitated expenditures. A building is enlarged to the extent that the total volume of the building is increased. An increase in floor space resulting from interior remodelling is not considered an enlargement. Generally, the total volume of a building is equal to the product of the floor area of the base of the building and the height from the underside of the lowest floor (including the basement) to the average height of the finished roof (as it exists or existed). For this purpose, floor area is measured from the exterior faces of external walls (other than shared walls that are external walls) and from the centerline of shared walls that are external walls. In addition, a building is enlarged to the extent of any construction outside the exterior faces of the existing external wall of the building.

(ii) *Rehabilitation which includes enlargement.* If expenditures for property only partially qualify as qualified rehabilitation expenditures because some of the expenditures are also attributable to the enlargement of the building, the expenditures must be apportioned between the original portion of the building and the enlargement. This allocation should be made using the principles contained in paragraph (b)(5)(i) of this section.

(8) *Certified rehabilitation*—(i) *In general.* For the purpose of this paragraph (c) of this section, the term "certified rehabilitation" means any rehabilitation of a certified historic building in a registered historic district which the Secretary of the Interior has certified to the Secretary as being consistent with the historic character of such building or the district in which such building is located.

(ii) *Revoked or invalidated certifications.* If the Department of Interior revokes or otherwise invalidates a certification after it has been provided to a taxpayer, the decertified property will cease to be section 38 property described in section 48(a)(1)(E). Such cessation shall be effective as of the date the activity giving rise to the revocation or invalidation occurred. See section 47 for the rules applicable to property that ceases to be section 38 property.

(d) *Coordination with other provisions of the Code*—(1) *Credit by lessees*—(i) *Rehabilitation performed by lessor.* A lessee may take the credit for rehabilitation performed by the lessor if the requirements of this section and section 48(d) are satisfied. For purposes of applying section 48(d), the fair market value of section 38 property described in section 48(a)(1)(E) shall be equal to that portion of the lessor's basis in a qualified rehabilitated building that is attributable to qualified rehabilitation expenditures.

(ii) *Rehabilitation performed by lessee.* A lessee may take the credit for rehabilitation performed by the lessee, provided that the property (or improvements or additions to property) for which the rehabilitation expenditures are made is depreciable (or amortizable) by the lessee (see sections 167 and 178, and the regulations thereunder) and the requirements of this section are satisfied.

(2) *When credit may be claimed.* The investment credit for qualified rehabilitation expenditures is allowed generally in the taxable year in which the property to which the rehabilitation expenditures is attributable is placed in service, provided the building is a qualified rehabilitated building for the taxable year. See §1.46-3(d). Under certain circumstances, however, the credit may be available prior to the date the property is placed in service. See section 46(d) and §1.46-5 (relating to qualified progress expenditures).

(3) *Recapture.* If property described in section 48(a)(1)(E) is disposed of by the taxpayer, or otherwise ceases to be "section 38 property," recapture may result under section 47. Property will cease to be section 38 property, and therefore recapture may occur under section 47, in any case where the Department of Interior revokes or otherwise invalidates a certification of rehabilitation (see section 48(g)(2)(C)) after the property is placed in service because, for example, the taxpayer made modifications to the building inconsistent with Department of Interior standards.

(e) *Effective date*—(1) *General rule.* Except as provided in paragraph (e)(2) of this section, this §1.48-11 shall not apply to expenditures incurred after December 31, 1981.

(2) *Transitional rule.* This §1.48-11 shall continue to apply to expenditures incurred after December 31, 1981, for the rehabilitation of a building if—

(i) The physical work on the rehabilitation began before January 1, 1982, and

(ii) The building does not meet the requirements of section 48(g)(1) of the Code as amended by the Economic Recovery Tax Act of 1981.

(This Treasury decision is issued under the authority contained in sections 48(g) and 7805 of the Internal Revenue Code of 1954 (92 Stat. 2828, 26 U.S.C. 48(g), 68A Stat. 917, 26 U.S.C. 7805).)

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved June 18, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on June 27, 1985, 8:45 a.m., and published in the issue of the Federal Register for June 28, 1985, 50 F.R. 26696)

Subpart F.—Rules for Computing Targeted Jobs Credit

Section 51.—Amount of Credit

26 CFR 1.51-1: Amount of credit.
(Also Section 381; 1.381(c)(26)-1.)

T.D. 8062

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; PART 5—TEMPORARY INCOME TAX REGULATIONS UNDER THE REVENUE ACT OF 1978; PART 5h— TEMPORARY REGULATIONS— ELECTIONS UNDER VARIOUS PUBLIC LAWS, SUBCHAPTER H, PART 602—REPORTING AND RECORDKEEPING REQUIREMENTS

Credit for the Employment of Certain New Employees

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations under sections 51 and 381 of the Internal Revenue Code of 1954, relating to a credit for the employment of certain new employees (the "targeted jobs credit"). The amount of the targeted jobs credit that an employer is entitled to is determined under section 51 and these final regulations. These final regulations also provide rules concerning the extent to which an acquiring corporation must take into account items that relate to the targeted jobs credit determined under section 51 in the case of a transaction subject to section 381(a). Changes to the applicable law were made by the Revenue Act of 1978 [Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1], the Technical Corrections Act of 1979 [Pub. L. 96-222, 1980-1 C.B. 499], the Economic Recovery Tax Act of 1981, [Pub. L. 97-34, 1981-2 C.B. 256], the Tax Equity and Fiscal Responsibility Act of 1982, [Pub. L. 97-248, 1982-2 C.B. 462] the Technical Corrections Act of 1982 [Pub. L. 97-448, 1983-1 C.B. 451], and the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1]. These final regulations provide the public with the guidance needed to comply with the law as amended by these Acts.

DATES: The amendments are generally effective for certain wages paid or incurred after December 31, 1978, to an individual who begins work for the employer before January 1, 1986.

FOR FURTHER INFORMATION CONTACT: John G. Schmalz of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Ave., N.W., Washington, D.C. 20224. Attention: CC:LR:T (202-566-3516, not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

Proposed amendments to the Income Tax Regulations (26 CFR Part 1) were published in the FEDERAL REGISTER on November 23, 1983 [LR-218-81, 1984-1 C.B. 705]. Those amendments were proposed to conform the regulations to section 321 of the Revenue Act of 1978 (92 Stat. 2830) [Pub. L. 95-600, 1978-3 C.B. (Vol. 1), 1, 64], section 103(a)(6) of the Technical Corrections Act of 1979 (94 Stat. 209) [Pub. L. 96-222, 1980-1 C.B. 499, 507] section 261 of the Economic Recovery Tax Act of 1981 (95 Stat. 260) [Pub. L. 97-34, 1981-2 C.B. 256, 303], section 233 of the Tax Equity and Fiscal Responsibility Act of 1982 (96 Stat. 501) [Pub. L. 97-248, 1982-2 C.B. 462, 510], and section 102 (l) of the Technical Corrections Act of 1982 (96 Stat. 2374) [Pub. L. 97-448, 1983-1 C.B. 451, 456].

Approximately 20 written comments were received in response to the notice of proposed rulemaking. A public hearing was held on February 29, 1984. After consideration of all the public comments, the proposed amendments are adopted as revised by this Treasury decision.

In addition, these final regulations also reflect amendments made to section 51 of the Internal Revenue Code by sections 474(p), 712(n), 1041, 2638(b), and 2663(j)(5)(A) of the Tax Reform Act of 1984 (98 Stat. 837, 955, 1042, 1144, and 1171) [Pub. L. 98-369, 1984-3 C.B. (Vol. 1)1, 345, 463, 550, 652, 679].

IN GENERAL

In general, a taxpayer may claim a targeted jobs credit for amounts paid or incurred after December 31, 1978, for taxable years ending after that date, to members of a targeted group. Generally, to qualify for the credit, the amounts must be paid or incurred to members of a targeted group first hired after September 26, 1978. However, amounts paid or incurred after December 31, 1978, to a vocational rehabilitation referral hired before September 27, 1978, may qualify for the credit if a credit under section 44B (as in effect prior to enactment of the Revenue Act of 1978) was claimed for the individual by the taxpayer for a taxable year beginning before January 1, 1979.

AMOUNT OF CREDIT

Except in the case of a qualified summer youth employee, the amount of the targeted jobs credit for the taxable year is 50 percent of the qualified first-year wages plus 25 percent of the qualified second-year wages. Generally, qualified first-year wages are the first $6,000 of wages paid or incurred by the employer during the taxable year to an individual who is a member of a targeted group for services rendered during the 1-year period beginning with the day the individual begins work for the employer. Qualified second-year wages are the first $6,000 of wages paid or incurred by the employer during the taxable year to an individual who is a member of a targeted group for services rendered during the 1-year period beginning on the day after the last day of the qualified first-year wages period. For taxable years of the employer beginning before January 1, 1982, qualified first-year wages are further limited to 30 percent of the aggregate unemployment insurance wages paid by the employer during the calendar year ending in such taxable year.

Special rules apply to wages that are paid to employees who are qualified summer youth employees. In general, an employer is entitled to a credit equal to 85 percent of not more than $3,000 of wages paid to a qualified summer youth employee during a 90-day period between May 1 and September 15.

MEMBERS OF A TARGETED GROUP

An indiviudal is a member of a targeted group if the individual is certified as a qualified summer youth employee, a vocational rehabilitation referral, an economically disadvantaged youth, an economically disadvantaged Vietnam-era veteran, an SSI receipient, a general assistance recipient, a youth participating in a cooperative education program, an economically disadvantaged ex-convict, an eligible work in-

centive employee, or an involuntarily terminated CETA employee. The first category was added by the Tax Equity and Fiscal Responsibility Act of 1982. The last two categories were added by the Economic Recovery Tax Act of 1981. The Economic Recovery Tax Act also amended the definition of a youth participating in a cooperative education program to require the individual to be also a member of an economically disadvantaged family.

The regulations provide rules and definitions relating to the eligibility requirements for several of the targeted groups. In the case of youths participating in a cooperative education program, the regulations define the term "program of vocational education" (a component in the definition of qualified cooperative education program) in accordance with the definition of that term in the Vocational Education Act of 1963 and the Department of Education regulations thereunder because the legislative history of the Revenue Act of 1978 indicates that the term "qualified cooperative education program" in section 51(d)(8) is similar to that term as used in the Vocational Education Act.

The regulations also provide guidance on the issue of second certifications with respect to employees who continue to work for the same employer after the employee no longer meets the requirements for membership in the targeted group for which the employee was originally certified. For example, a qualified summer youth employee may continue to work for the same employer after the end of the ninety-day period described in section 51(d)(12)(B)(iii) and may then qualify as an economically disadvantaged youth. Similarly, a youth certified as participating in a qualified cooperative education program may no longer be actively participating in the program, but may then qualify as an economically disadvantaged youth. The regulations provide that the timely certification rules do not apply to the second certification if the first certification was timely. The regulations also provide that, for purposes of the eligibility requirements, the "hiring date" will be defined as the day the individual is certified for the second targeted group. Thus, whether an individual meets the age requirement for the second targeted group will be determined as of the date of certification rather than the original hiring date.

In general, the State employment security agency is the agency responsible for certifying an individual as a member of a targeted group. In the case of youths participating in a qualified cooperative education program, the school offering the program must certify the individual as a member of that targeted group. A school may satisfy the certification requirement by using Form 6199. In either case, a certificate may be revoked if it is discovered that the information supplied by the individual for purposes of issuing the certificate was incorrect or false.

Furthermore, the amendments made by the Economic Recovery Tax Act have the effect of making retroactive certifications invalid unless the employer has requested in writing a certification before the employee began work. Therefore, an individual will not be treated as a member of a targeted group unless, before the day the individual begins work for the employer, the employer receives a certification from the designated local agency or school, or has requested in writing a certification. However, the Tax Equity and Fiscal Responsibility Act of 1982 amended this rule with respect to individuals who begin work for the employer after May 11, 1982, so that certifications will be valid if requested or received on or before the day the individual begins work for the employer. Transitional rules apply with respect to certain employees. In addition, the Tax Reform Act of 1984 amended the timely certification rules to extend the deadline for requesting a certification to 5 days after the individual begins work for the employer if the individual has received a "voucher" (*i.e.*, a preliminary determination of targeted group eligibility) on or before the day the individual begins work for the employer.

PUBLIC COMMENTS AND CHANGES MADE IN RESPONSE TO PUBLIC COMMENTS

Several commentators objected to two aspects of the proposed regulations relating to the targeted group "youths participating in qualified cooperative education programs." First, they objected to the rule in §1.51-1(c)(2)(iii) of the proposed regulations which provided that the requirement in section 51(d)(8)(B) that both the education and the work experience contribute to the student's education and employability is not met unless the employment is related to the occupation for which the student is in training. The Treasury Department has carefully considered the public comment on this issue, but continues to believe that the proposed rule is correct. Therefore, no substantive change is made.

Commentators also objected to the conclusion in example (9) of the proposed regulations that a student who worked for an employer during the summer vacation did not meet the "activity pursuing" requirement in section 51(d)(8)(A)(iii) during the summer since the cooperative education program that the student was enrolled in did not continue during the summer. The final regulations clarify that this is the case only if the qualified cooperative education program of the school is not continued by the school during the summer vacation. Whether the program continues during the summer is determined by reference to the written agreement between the employer and the school. If the school does continue the program throughout the summer, the student will be considered to be actively pursuing the program regardless of whether the student attends classes during the summer.

GENERAL ASSISTANCE RECIPIENT

The regulations also clarify, in response to public comment, that in order to be considered a general assistance recipient (within the meaning of section 51(d)(6)) it is not necessary that the individual be the individual to whom the assistance check is issued. It is sufficient that the individual be a member of the same assistance unit (within the meaning of 45 CFR 205.40 (a)(1)) as the person receiving the assistance.

Several other comments in the nature of legislative suggestions were made by certain commentators. Although considered, changes were not made since these comments did not pertain to the regulations.

REGULATORY FLEXIBILITY ACT AND EXECUTIVE ORDER 12291

The Commissioner of Internal Reve-

nue has determined that this final rule is not a major rule as defined in Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required. The Internal Revenue Service has concluded that the final regulations herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these final regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

PAPERWORK REDUCTION ACT

The collection of information contained in these final regulations has been submitted to the Office of Management and Budget in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of these final regulations is John G. Schmalz of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Part 1, Part 5, Part 5h, and Part 602 are amended as follows:

INCOME TAX REGULATIONS
(26 CFR Part 1)

Paragraph 1. The authority for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805. * * * Section 1.51-1(g) also issued under 26 U.S.C. 51(j); §1.381(c)(26)-1 also issued under 26 U.S.C. 381(c)(26).

Par. 2. There is inserted immediately after §1.50B-1 the following new §1.51-1 to read as follows:

§1.51-1 Amount of credit.

(a) *Determination of amount*—(1) *General rule.* Except as provided in paragraph (a)(2) of this section, the amount of the targeted jobs credit for purposes of section 38 (formerly designated section 44B) for the taxable year equals 50 percent of the qualified first-year wages (minus any qualified first-year wages paid to individuals while such individuals are qualified summer youth employees) plus 25 percent of the qualified second-year wages.

(2) *Special rule for employment of qualified summer youth employees.* In the case of an employer who pays or incurs qualified wages after April 30, 1983, to a qualified summer youth employee beginning work for the employer after such date, the amount of the targeted jobs credit for the taxable year is equal to the amount determined under paragraph (a)(1) of this section plus an amount equal to 85 percent of the first $3,000 of qualified wages paid to each qualified summer youth employee during the taxable year. Such wages must be attributable to services rendered by the qualified summer youth employee during an 90-day period beginning on or after May 1 and ending on or before September 15.

(3) *Limitation.* See section 38(c) for rules limiting the amount of the credit to a percentage of the amount of the taxpayer's net tax liability.

(b) *Definitions*—(1) *Qualified wages.* The term "qualified wages" means wages (as defined in paragraph (b)(4)) paid or incurred by the employer during the taxable year to individuals who are members of a targeted group (within the meaning of section 51(d)).

(2) *Qualified first-year wages*—(i) *General rule.* Except in the case of qualified summer youth employees, the term "'qualified first-year wages" means the first $6,000 of wages (as defined in paragraph (b)(4) of this section) attributable to service rendered by a member of a targeted group during the 1-year period beginning with the day the individual first begins work for the employer. In the case of a vocational rehabilitation referral (as defined in section 51(d)(2)) who begins work for the employer before July 19, 1984, the one-year period begins with the day the individual begins work for the employer on or after the beginning of such individual's rehabilitation plan. However, with the exception of vocational rehabilitation referrals for whom the employer claimed a credit under section 44B (as in effect prior to enactment of the Revenue Act of 1978) for a taxable year beginning before January 1, 1979, members of a targeted group who are first hired after September 26, 1978, and before January 1, 1979, will be treated as if they first began work for the employer on January 1, 1979. The date on which the wages are paid is not determinative of whether the wages are first-year wages; rather, the wages must be attributed to the period during which the work was performed. See paragraph (f)(1) of this section for an additional limitation on the term "qualified first-year wages". (See examples (1), (2), (3), (4), (5), and (6) in paragraph (j) of this section for examples illustrating the application of the rules in this paragraph (b)(2)).

(ii) *Special rule for qualified summer youth employees.* In the case of a qualified summer youth employee, qualified first-year wages for purposes of the 85 percent credit referred to in paragraph (a)(2) of this section include only wages attributable to services rendered by a qualified summer youth employee during any 90-day period beginning on or after May 1 and ending on or before September 15. If the individual is retained by the employer after the 90-day period and recertified as a member of another targeted group, the term "qualified first-year wages" for purposes of the 50 percent credit described by section 51(a)(1) has the meaning assigned that term in paragraph (b)(2)(i) of this section except that the $6,000 limitation for qualified first-year wages shall be reduced by wages up to, but not more than, $3,000 attributable to services rendered during the 90-day period.

(3) *Qualified second-year wages.* The term "qualified second-year wages" means the first $6,000 of wages attributable to services rendered by a member of a targeted group, other than a qualified summer youth employee, during the 1-year period beginning on the day after the last day of the period for qualified first-year wages. The date on which the wages are paid is not determinative of whether the wages are second-year wages; rather, the wages must be attributed to the period during which the work was performed.

(4) *Wages*—(i) *General rule.* Except as otherwise provided in paragraph (b)(4)(ii) and (iii) of this section, the

term "wages" shall only include amounts paid or incurred after December 31, 1978, for taxable years ending after December 31, 1978. For purposes of this section, the term "wages" has the meaning assigned such term by section 3306(b) (determined without regard to any dollar limitation contained in such subsection).

(ii) *Special rules.* In the case of agricultural labor or railway labor, the term "wages" means unemployment insurance wages within the meaning of subparagraph (A) or (B) of section 51(h)(1). The term "wages" shall not include any amounts paid or incurred by an employer for any pay period to any individual for whom the employer receives federally funded payments for on-the-job training for such individual for such pay period. (See example (7) in paragraph (j) of this section.) The amount of wages which would otherwise be qualified wages under this section with respect to an individual for a taxable year shall be reduced by an amount equal to the amount of payments made to the employer (however ultilized by such employer) with respect to such individual for such taxable year under a program established under section 414 of the Social Security Act. In addition, the term "wages" shall not include any amount paid or incurred by the employer in a taxable year beginning before January 1, 1982, to an individual with respect to whom the employer claims a credit under Section 40 (relating to expenses of work incentive programs). For youths participating in a qualified cooperative education program:

(A) Section 3306(c)(10)(C) (relating to the definition of employment for certain students) does not apply in determining wages under this section; and

(B) The term "wages" shall include only those amounts paid or incurred by the employer that are attributable to services rendered by the individual while he or she meets the conditions specified in section 51(d)(8)(A). For purposes of the preceding sentence, an employee who met the requirement in section 51(d)(8)(A)(iv), dealing with economically disadvantaged status, when hired, shall be deemed to continuously meet the requirement in section 51(d)(8)(A)(iv) during the time the employee is in the cooperative education program. See also paragraph (e) of this section for rules relating to the exclusion of wages paid to certain individuals.

(iii) *Termination.* The term "wages" shall not include any amount paid or incurred to an individual who begins work for the employer after December 31, 1985.

(5) *Special rule for eligible work incentive employees.* In the case of an eligible work incentive employee (as defined in §1.51-1(c)(4)), this paragraph (b) shall be applied for taxable years beginning after December 31, 1981, as if such employee had been a member of a targeted group for taxable years beginning before January 1, 1982. (See example (8) in paragraph (j) of this section.)

(c) *Members of targeted groups*—(1) *In general.* An individual is a member of a targeted group if the individual is certified as (i) a vocational rehabilitation referral, (ii) an economically disadvantaged youth, (iii) an economically disadvantaged Vietnam-era veteran, (iv) an SSI recipient, (v) a general assistance recipient, (vi) a youth participating in a cooperative education program, (vii) an economically disadvantaged ex-convict, (viii) an eligible work incentive employee, (ix) a qualified summer youth employee, or (x) an involuntarily terminated CETA employee. Except as provided below, see section 51(d) of this section for a definition of these groups. See paragraph (d) of this section for rules concerning the certification of individuals as members of one of these targeted groups.

(2) *Youths participating in a qualified cooperative education program*—(i) *Student requirements.* For an individual to qualify as a youth participating in a qualified cooperative education program, the individual must meet each of the following conditions (A) through (D)—

(A) The youth must have attained the age of 16 but not 20. (An individual reaching 19 will be treated as a youth participating in a qualified cooperative education program only for wages paid or incurred after November 26, 1979.)

(B) The youth must not have graduated from a high school or vocational school.

(C) The youth must be enrolled in and actively pursuing a qualified cooperative education program (as defined in paragraph (c)(2)(iii) of this section).

(D) With respect to wages paid or incurred after December 31, 1981, the youth must be a member of an economically disadvantaged family when initially hired.

(ii) *Economically disadvantaged family.* See section 51(d)(11) for the rules relating to the determination of whether an individual is a member of an economically disadvantaged family.

(iii) *Qualified cooperative education program.* The term "qualified cooperative education program" means a program of vocational education for individuals who (through written cooperative arrangements between a qualified school and one or more employers) receive instruction (including required academic instruction) by alternation of study in school with a job in any occupational field (but only if these two experiences are planned by the school and employer so that each contributes to the student's education and employability). See section 51(d)(8)(C) for the definition of a "qualified school." For purposes of this paragraph, the term "program of vocational education" means an organized educational program which is directly related to the preparation of individuals for employment, or for additional preparation for a career requiring other than a baccalaureate or advanced degree. An "organized educational program" means only instruction related to the occupation or occupations for which the students are in training or instruction necessary for students to benefit from such training. The student's employment contributes to his or her education and employability only if it is related to the occupation, or a cluster of closely related occupations, for which the student is in training in school. However, the student's employment need not be directly related to or in the same technical field as the training the student receives in school. For example, a student studying carpentry does not have to work as a carpenter for the program to constitute a "qualified cooperative education program." The program will qualify if, for example, the student works at a hardware store because the student's work would familiarize the student with the materials and tools used by carpenters. The program

would not qualify, however, if the student works at a restaurant and generally performs tasks in such employment not related to carpentry.

(iv) *Actively pursuing.* For purposes of this paragraph (c)(2), a youth will not be considered to be "actively pursuing" a school's qualified cooperative education program (within the meaning of paragraph (c)(2)(iii) of this section) during summer vacation unless that school program continues during the summer vacation. Whether the school program continues during the summer vacation will be determined by examining the written agreement between the school and the employer. Thus, if a written agreement specifically covers the summer vacation period and provides for a significant degree of involvement by school personnel to provide supervision for the students in the program during that period, the school program will be considered to continue during the summer, regardless of whether classes are held during the vacation period.

(3) *General assistance recipients.* In order for an individual to qualify as a general assistance recipient, the individual, or another member of the assistance unit (within the meaning 45 CFR 205.40(a)(1)) that the individual is a member of, must receive assistance for a period of not less than 30 days ending within the preemployment period (as defined in section 51(d)(13)) from a qualified general assistance program. A qualified general assistance program is a program of a State or a political subdivision of a State that the Secretary (after consultation with the Secretary of Health and Human Services) has designated as providing general assistance (or similar assistance) which is based on need and consists of money payments or voucher or scrip. For purposes of the preceding sentences, a program qualifying as a general assistance program by reason of non-cash assistance (*i.e.*, voucher or script) shall be so treated only with respect to amounts paid or incurred after July 1, 1982, to individuals beginning work for the employer after such date. For purposes of this subparagraph, the term "money" means cash or an instrument convertible into cash (*e.g.*, a check).

(4) *Eligible work incentive employees.* An eligible work incentive employee means an individual who has been certified by the designated local agency (as defined in paragraph (d)(10) of this section) as—

(i) Being eligible for financial assistance under part A of title IV of the Social Security Act and as having continuously received such financial assistance during the 90-day period which immediately precedes the date on which such individual is hired by the employer, or

(ii) Having been placed in employment under a work incentive program established under section 432(b)(1) or 445 of the Social Security Act.

The provisions of this paragraph (c)(4) are effective with respect to taxable years of the employer beginning after December 31, 1981. (See paragraph (b)(5) of this section for a special rule relating to eligible work incentive employees.)

(5) *Involuntarily terminated CETA employees*—(i) *In general.* An involuntarily terminated CETA employee is an individual who first began work for an employer after August 13, 1981, in taxable years of the employer ending after August 13, 1981, and is certified by the designated local agency (as defined in paragraph (d)(10) of this section) as having been involuntarily terminated after December 31, 1980, from employement financed in whole, or in part, under a program under part D of title II or title VI of the comprehensive Employment and Training Act.

(ii) *Termination.* Section 51(d)(10) and this paragraph (c)(5) shall not apply to any individual who begins work for the employer after December 31, 1982.

(d) *Certification*—(1) *General rule.* Except as otherwise provided in this paragraph, an individual shall not be treated as a member of a targeted group unless, on or before the day on which such individual begins work for the employer, the employer has received, or has requested in writing, a certification that the individual is a member of a targeted group from the designated local agency (as defined in paragraph (d)(10) of this section). In addition, the employer must receive a certification before the targeted jobs credit can be claimed. However, with respect to individuals who began work for the employer on or before May 11, 1982, the certification will be timely only if requested or received before the day the individual began work for the employer. In the case of a request in writing mailed via the United States Postal Service, the request shall be deemed to be made on the date of the postmark stamped on the cover in which such request was mailed to the designated local agency provided the request is mailed in accordance with the mailing requirements in §301.7502-1(c) and delivered in accordance with the delivery requirements in §301.7502-1(d). In the case of a deadline that but for this sentence would fall on a Saturday, Sunday, or a legal holiday, the deadline for making a timely request in writing for a certification or receiving a timely certification shall be the next succeeding day which is not a Saturday, Sunday, or legal holiday. (See section 7503 for the definition of "legal holiday.") See paragraph (d)(2) of this section for transitional rules applicable to certain employees who began work for the employer before September 26, 1981. See paragraph (d)(3) of this section for special rules applicable to cooperative education students and paragraph (d)(4) of this section for special rules applicable to eligible work incentive employees.

(2) *Timeliness of certification in the case of an individual to whom a written preliminary eligibility determination has been issued.* If on or before the day on which an individual begins work for the employer, such individual has received from a designated local agency (or other agency or organization designated pursuant to a written agreement with such designated local agency) a written preliminary determination that such individual is a member of a targeted group, then such individual may be treated as a member of a targeted group if on or before the fifth day after the day such individual begins work for the employer such employer receives, or requests in writing, from the designated local agency a certification that such individual is a member of a targeted group. This paragraph (d)(2) only applies to individuals who begin work for the employer after July 18, 1984.

(3) *Transitional rules for certain employees who began work for the employer on or before September 26, 1981.* In the case of an individual, other than a cooperative education stu-

dent, who began work for the employer before June 29, 1981, the employer must either receive, or request in writing, a certification before July 23, 1981. In the case of an individual, other than a cooperative education student, who began work for the employer after June 28, 1981, and on or before September 26, 1981, the employer must either receive, or request in writing, a certification before September 26, 1981.

(4) *Cooperative education students.* In the case of cooperative education students, the school administering the cooperative education program must issue the certification. Form 6199 is provided for this purpose. If the student begins work for the employer after September 26, 1981, see the general rule in §1.51-1(d)(1) for the date when this certification must be received or requested. If the student begins work for the employer on or before September 26, 1981, the employer must receive the certification or request it in writing before September 26, 1981. In order for an employer to claim a credit on wages paid or incurred to a cooperative education student after December 31, 1981, the employer must receive or request in writing a determination that the student is a member of an economically disadvantaged family. A request for economic eligibility determination for a cooperative education student must be made in writing by the employer to the participating school. If the student begins work for the employer on or before September 26, 1981, the employer must receive or request in writing such determination before September 26, 1981. However, a request in writing on or after August 13, 1981, to a participating school for certification will be deemed to include a request for an economic eligibility determination. In addition, any certification issued by a school after August 13, 1981, will be deemed to be issued in response to a request for certification which includes a request for an economic eligibility determination. The rule in the preceding sentence does not eliminate the requirement that the employer receive a certification that includes an economic eligibility determination in order to claim a credit for wages paid or incurred after December 31, 1981. If a certification issued by a school after August 13, 1981, does not contain an economic eligibility determination and the employer wishes to claim a credit for wages paid or incurred after December 31, 1981, the employer must receive a completed certification before the date on which the credit is claimed.

(5) *Eligible work incentive employees.* In the case of eligible work incentive employees, the employer must either receive, or request in writing, a certification within the time requirements of paragraph (d)(1), (2), or (3) of this section, whichever is applicable. Before October 12, 1981 (the date the Economic Recovery Tax Act of 1981 codified the State employment security agency as the designated local agency for certifying targeted groups), a certificate may be received or requested in writing from either the designated local agency (as defined in paragraph (d)(10) of this section) or the office or agency that properly issued certifications under former section 50B(h)(1) (relating to the work incentive credit.)

(6) *Certifications that are not timely.* Any certification that is not timely received or requested by the employer in accordance with the rules of this paragraph will be treated as invalid. Thus, the employer will not be allowed to claim a credit under section 51 with respect to any wages paid or incurred to an employee whose certification or request for certification is not timely. A timely request for certification does not eliminate the need for the employer to receive a certification before claiming the credit. In the case of a request for certification that was denied, resubmitted, and then approved, the timeliness of the request shall be determined by the timeliness of the first request.

(7) *Incorrect certification*—(i) *In general.* Except as otherwise provided in paragraph (d)(7)(ii) of this section, if an individuual has been certified as a member of a targeted group, and such certification is based on false information provided by such individual, the certification shall be revoked and wages paid by the employer after the date on which notice of revocation is received by the employer shall not be treated as qualified wages. For purposes of this paragraph, a certification will be revoked only if the individual would not have been certified had correct information been provided to the issuer of the certification. Thus, false information that is not material to an individual's eligibility as a member of a targeted group will not invalidate an otherwise valid certification.

(ii) *Employer's knowledge that the certification was incorrect.* In the case of an employer who knew, or had reason to know, at the time of certification that the information provided to the designated local agency was false, none of the wages paid by such employer to an individual to whom an incorrect certification has been issued will be qualified wages.

(8) *Certifications issued to certain rehires.* This paragraph (d)(8) applies in the case of an employee who first began work for the employer before August 13, 1981, and was dismissed and rehired by the employer. A certification received or requested by an employer with respect to such an employee will be considered timely only if there was a valid business reason, unrelated to the availability of the credit, for the dismissal and rehire and if the employer did not dismiss and then rehire the employee in order to meet the timing requirement with respect to certification. An individual who is dismissed and then rehired for the purpose described in the preceding sentence will be considered for purposes of section 51(d)(16) and this paragraph to have been continuously employed by the employer during the time between the dismissal and the rehire. Whether the employer was motivated by reason of the certification rules in section 51(d)(16) and this paragraph to dismiss and then rehire an employee is a question of fact to be determined from all the circumstances surrounding the dismissal and rehire. (See paragraph (e)(2) of this section for a separate rule disallowing the credit in the case of nonqualifying rehires.)

(9) *Individuals who continue to be employed by the same employer but as a member of another targeted group.* This paragraph (d)(9) applies in the case of an employee who continues to be employed by the same employer but no longer qualifies as a member of the targeted group for which such employee was first certified (*e.g.*, the employee was originally certified as a qualified summer youth employee with

respect to a ninety-day period between May 1 and September 15, but such ninety-day period has ended). In such case, the employer may request a certification that the employee is a member of another targeted group, and if any wages paid to such individual are qualified first-year wages or qualified second-year wages, the employer may be entitled to a targeted jobs credit with respect to such wages. The second certification will not be invalid merely because it was requested or received after the individual began work for the employer; only the first certification (for example, the certification with respect toan individual hired first as a qualified summer youth employee) must meet the requirement of section 51(d)(16) that a certification must be requested or received by an employer on or before the day on which the individual begins work for the employer. In the case of a former qualified summer youth employee or a youth participating in a qualified cooperative education program who is recertified as an economically disadvantaged youth, the term "hiring date" in section 51(d)(3)(B) does not mean the day the individual is hired by the employer but means the day the individual is certified as a member of the new targeted group. Accordingly, the age requirement of section 51(d)(3)(B) shall be applied as of the day the individual is certified as a member of the second targeted group. In addition, see section 51(d)(11) for rules concerning the viability of the original economic eligibility determination.

(10) *Certification where a trade or business has been transferred to a new employer.* In the case of a transfer of a trade or business in which an individual who is a member of a targeted group is retained as an employee in the trade or business, the certification obtained for such employee by the transferor-employer will apply with respect to the transferee-employer.

(11) *Designated local agency*—(i) *In general.* For the period before October 12, 1981, the term "designated local agency" means the agency for any locality designated jointly by the Secretary and the Secretary of labor to perform certifications of employees for employers in that locality. On or after October 12, 1981, the term "designated local agency" means a State employment security agency established in accordance with the Act of June 6, 1933, as amended (29 U.S.C. 49-49n).

(ii) *Jurisdiction.* The designated local agency is the agency that has, pursuant to its charter, jurisdiction over the individual that is sought to be certified. Thus, any certification that is issued with respect to an individual who is not within the jurisdiction of the designated local agency that issued the certification will be invalid. Notwithstanding any other provision of this section, a request in writing for certification to be appropriate designated local agency that is made before January 23, 1984, will be considered to be timely if it is made after an otherwise timely request in writing for certification was made to a designated local agency that does not have jurisdiction over the individual sought to be certified.

(e) *Certain ineligible individuals*—(1) *Related individuals.* For purposes of section 51(a), "qualified wages" does not include any amounts paid or incurred by a taxpayer to any of the following individuals:

(i) An individual who is related (within the meaning of any of paragraphs (1) through (8) of section 152(a)) to the taxpayer;

(ii) An individual who is a dependent (within the meaning of section 152(a)(9)) of the taxpayer;

(iii) An individual who is related (within the meaning of any of paragraphs (1) through (8) of section 152 (a)) to a shareholder who owns (within the meaning of section 267(c)) more than 50 percent in value of the outstanding stock of the taxpayer, if the taxpayer is a corporation;

(iv) An individual who is a dependent (within the meaning of section 152(a)(9)) of a shareholder described in paragraph (e)(1)(iii) of this section;

(v) An individual who is a grantor, beneficiary or fiduciary of the taxpayer, if the taxpayer is an estate or trust;

(vi) An individual who is a dependent (within the meaning of section 152(a)(9)) of an individual described in paragraph (e)(1)(v) of this section; or

(vii) An individual who is related (within the meaning of any of paragraphs (1) through (8) of section 152(a)) to an individual described in paragraph (e)(1)(v) of this section.

(2) *Nonqualifying rehires.* For pur poses of section 51(a), "qualifie wages" does not include wages paid t an employee who had been employe by the employer prior to the curren hiring date of the employee if at an time during such prior employment th employee was not a member of a tar geted group. The preceding sentenc shall not apply to an employee wh was previously timely certified as member of a targeted group with re spect to the same employer. An em ployee shall be treated as not having been a member of a targeted group i the certification requirements of section 51(d)(16) were not met. (See example (8) in paragraph (j) of this section.)

(3) *Effective date.* The provisions of this paragraph (e) are effective with respect to employees first beginning work for an employer after August 13, 1981.

(f) *Limitations*—(1) *Limitation on qualified first-year wages.* With respect to taxable years beginning before January 1, 1982, the amount of the qualified first-year wages which may be taken into account for purposes of the targeted jobs credit for any taxable year shall not exceed 30 percent of the aggregate unemployment insurance wages paid by the employer during the calendar year ending in such taxable year. In the case of a group of trades or businesses under common control (as defined in §1.52-1(b)), the qualified first-year wages cannot exceed 30 percent of the aggregate unemployment insurance wages paid to all employees of that group of trades or businesses under common control during the calendar year ending in such taxable year. For this purpose, the term "unemployment insurance wages" has the same meaning given to the term "wages" as defined in §1.51-1(b)(4). In this case of agricultural or railway labor, see section 51(h)(1) for the applicable definition of unemployment insurance wages. (See examples (13) and (14) in paragraph (j) of this section.)

(2) *Remuneration must be for trade or business employment.* Remuneration paid by an employer to an employee during any taxable year shall be taken into account only if more than one-half of the remuneration paid by the employer to an employee is for services in a trade or business of the employer. This determination shall be made by

each employer without regard to section 52(a) or (b). Accordingly, employees of corporations that are members of a controlled group or employees of partnerships, proprietorships, and other trades or businesses (whether or not incorporated) which are under common control will be treated as being employed by each separate employer for this purpose. For this purpose, the term "year" means the taxable year of the employer. (See example (15) in paragraph (j) of this section.)

(g) *Election not to claim the targeted jobs credit.* The election under section 51(j) (as amended by section 474(p) of the Tax Reform Act of 1984) not to claim the targeted jobs credit is available for taxable years beginning after December 31, 1983, and shall be made for the taxable year in which such credit is available by not claiming such credit on an original return or amended return at any time before the expiration of the 3-year period beginning on the last date prescribed by law for filing the return for the taxable year (determined without regard to extensions). The election may be revoked within the 3-year period by filing an amended return on which the credit is claimed.

(h) *Treatment of successor-employers.* In the case of a successor-employer referred to in section 3306(b)(1), the determination of the amount of credit under this section with respect to wages paid by such successor-employer shall be made in the same manner as if such wages were paid by the predecessor-employer referred to in such section. Thus, the 1-year period referred to in §1.51-1(b)(2)(i) will be considered to begin with the day the employee first began work for the transferor-employer, and the amount of qualified first-year wages and qualified second-year wages paid or incurred with respect to the employee must be reduced by the amount of any such wages paid or incurred by the transferor-employer. (See examples (10) and (11) in paragraph (j) of this section.) Also, see paragraph (d)(10) of this section for rules concerning the viability of the employee's certification.

(i) *Treatment of employees performing services for other persons.* No credit shall be determined under this section with respect to remuneration paid by an employer to an employee for services performed by such employee for another person unless the amount reasonably expected to be received by the employer for such services from such other person exceeds the remuneration paid by the employer to such employee for such services.

(j) *Examples.* The application of this section may be illustrated by the following examples which, except as otherwise stated, assume that the limitations imposed by §§1.51-1(f)(2) and 1.53-3 are inapplicable:

Example (1). Corporation M is a calendar year, cash receipts and disbursements method taxpayer. A, an economically disadvantaged youth, first began work for Corporation M on October 1, 1978. Qualified first-year wages with respect to A are wages attributable to the period beginning on January 1, 1979 (since A was first hired after September 26, 1978, he is treated as having begun work on January 1, 1979) and ending on December 31, 1979. In the 1979 taxable year, Corporation M pays A $5,000 of qualified first-year wages attributable to services performed in 1979. Corporation M's allowable credit is equal to $2,500 (50 percent of $5,000).

Example (2). Assume the same facts as in example (1), except that in 1980 Corporation M pays to A $100 of wages attributable to services rendered in 1979. These wages will still be considered as qualified first-year wages, but the credit may not be claimed until the 1980 taxable year.

Example (3). Corporation O is a calendar year, cash receipts and disbursements method taxpayer. C, a vocational rehabilitation referral, first began work for Corporation O on July 1, 1978. Corporation O claimed a credit under section 44B (as in effect prior to enactment of the Revenue Act of 1978) for $3,000 of wages paid to C in the 1978 taxable year. Corporation O paid C $6,000 for services performed from January 1, 1979 to June 30, 1979. The period during which qualified first-year wages are determined begins on July 1, 1978, and ends on June 30, 1979. Amounts paid before January 1, 1979, however, are not taken into consideration in determining the amount of qualified first-year wages. Accordingly, only the wages attributable to services performed from January 1, 1979, through June 30, 1979, are considered as qualified first-year wages. Corporation O's allowable credit is equal to $3,000 (50 percent of $6,000).

Example (4). I first began work for Corporation Q, a cash receipts and disbursement method taxpayer, on January 1, 1981, and was not a member of a targeted group. On March 1, 1981, I was convicted of a felony and sentenced to prison. I quit working for Corporation Q, and served the prison sentence. On November 1, 1981, I again was hired by Corporation Q and began work on that date. On the November 1, 1981 hiring date, I was an economically disadvantaged ex-convict for whom Corporation Q received a certificate. Corporation Q paid I $500 of wages for services performed from November 1, 1981, to December 31, 1981, and $6,000 of wages for services performed during 1982. The $500 of wages paid for services performed from November 1, 1981, to December 31, 1981, would be qualified first-year wages because these qualified wages were paid for services performed during the 1-year period beginning on the date I first began work for Corporation Q (January 1, 1981). The $6,000 of wages paid for services performed during 1982 would be qualified second-year wages because these qualified wages were paid for services performed during the 1-year period beginning on the day after the first 1-year period. Accordingly, Corporation Q has an allowable credit of $250 attributable to qualified first-year wages and $1,500 attributable to qualified second-year wages.

Example (5). Assume the same facts as in example (4), except that all dates are 1 year later. Thus, I first began work for Corporation Q on January 1, 1982, was convicted on March 1, 1982, and was rehired on November 1, 1982. Under these facts, Q is not entitled to take a targeted jobs credit with respect to I's wages because I is a nonqualifying rehire.

Example (6). J, an economically disadvantaged youth, first began work for Corporation R, a calendar year cash receipts and disbursements method taxpayer, on December 1, 1979. On July 1, 1980, J was laid off by Corporation R and began work for Corporation S, which is unrelated to Corporation R, on July 2, 1980. On November 1, 1980, J again began work for Corporation R and continued working for Corporation R until January 1, 1982. At the time J first began work for Corporation S, J no longer met the qualifications of an economically disadvantaged youth. Corporation S may not claim a credit for wages paid to J because J was not a member of a targeted group at the time he began work for Corporation S. Corporation R, however, may claim a credit for wages paid to J because J was a member of a targeted group when he was hired by Corporation R. Corporation R's qualified first-year wages paid to J are the wages paid for services performed by J from December 1, 1979, to July 1, 1980, and from November 1, 1980, to November 30, 1980. Corporation R's qualified second-year wages paid to J are wages paid for services performed by J from December 1, 1980, to November 30, 1981. Corporation R may not claim a credit for wages paid for services performed by J after November 30, 1981.

Example (7). K, a member of a targeted group, first began work for Corporation T on January 1, 1979. For the pay periods from January 1, 1979, to March 31,1979, Corporation T received federally funded payments for on-the-job training for K and paid wages of $2,000 to K. During the remainder of 1979 Corporation T paid wages of $7,000 to K. Corporation T may claim a credit on $6,000 of qualified first-year wages. Amounts paid to K by Corporation T during the pay periods for which Corporation T received federally funded payments for on-the-job training for K are not considered wages for purposes of the credit. However, Corporation T may consider $6,000 of the total $7,000 of wages paid after March 31, 1979, as qualified first-year wages.

Example (8). P first began work for Corporation X on January 1, 1981, as an individual who was certified to be an eligible employee for purposes of the WIN credit provided in section 40. Corporation X paid P $6,000 of wages during its taxable year beginning on January 1, 1981, and

$6,000 of wages during its taxable year beginning on January 1, 1982. X can claim a targeted jobs credit for the wages paid in 1982 if the requirements of section 51 are met. For purposes of section 51(a), P's qualified first-year wages are the wages paid from January 1, 1981, to December 31, 1981, and P's qualified second-year wages are the wages paid from January 1, 1982, to December 31, 1982. Thus, Corporation X is only entitled to claim a targeted job credit based on P's qualified second-year wages.

Example (9). (i) L, 15 years of age, first began work for Corporation U on August 1, 1979. On September 3, 1979, L began her junior year in high school and enrolled in a qualified cooperative education program that was to run for her junior and senior years. On October 1, 1979, when L turned 16, she met all the requirements of §1.51-1(c)(2)(i) and qualified as a youth participating in a qualified cooperative education program. Corporation U is entitled to claim a credit on wages paid or incurred for services performed by L after September 30, 1979, so long as L meets the requisite requirements. L's summer vacation began on June 1, 1980. Assume that the cooperative education program L was enrolled in did not continue during the summer vacation (*i.e.*, the written agreement between the employer and the school did not cover the summer vacation). Thus, during her summer vacation, L did not meet the requirement of actively pursuing a qualified cooperative education program. Accordingly, Corporation U may not claim a credit on wages paid for services performed by L during L's summer vacation. On September 2, 1980, L began her senior year, and again met all the requirements of §1.51-1(c)(2)(i). She continued to meet these requirements until June 5, 1981, when she graduated from high school. Accordingly, Corporation U may claim a credit on wages paid for services performed after September 1, 1980, and before June 5, 1981.

(ii) Assume the same facts as in (i), above, except that all dates are 3 years later. Under these facts, U is not entitled to claim a targeted jobs credit with respect to any of L's wages because L has not been timely certified under section 51(d)(16) and §1.51-1(d)(3).

Example (10). D began work for a drugstore owned by E as a sole proprietor on January 1, 1979, and was certified as a member of a targeted group with respect to E. On June 1, 1979, E sold the drugstore where D worked to F, who continued to operate the drugstore with D as an employee. D's qualification as a member of a targeted group is not required to be redetermined in order for F to qualify for the targeted jobs credit. F will take into account the certification of D's eligibility that was provided to E. F will have qualified first-year wages consisting of the first $6,000 of wages paid or incurred to D by E and F from January 1, 1979 to December 31, 1979 (reduced by any qualified wages paid or incurred by E to D from January 1, 1979, to May 31, 1979). F's qualified second-year wages will consist of the first $6,000 of wages paid or incurred to D by F from January 1, 1980, to December 31, 1980.

Example (11). G began work in a machine shop owned by H as a sole proprietor on January 1, 1979, and was certified as a member of a targeted group with respect to H. On June 1, 1980, H transferred all the assets of the machine shop to newly formed Corporation P. Corporation P retained G as an employee in the machine shop. G's qualification as a member of a targeted group is not required to be redetermined in order for P to qualify for the targeted jobs credit. H has qualified first-year wages in the amount of the first $6,000 of wages paid or incurred to G by H from January 1, 1979, to December 31, 1979. Corporation P has qualified second-year wages in the amount of the first $6,000 of wages paid or incurred to G by H and Corporation P from January 1, 1980, to December 31, 1980 (reduced by any qualified second-year wages paid by H to G).

Example (12). W operates a retail store as a sole proprietor. On June 1, 1982, W hires S after receiving a written determination from a local community organization that S meets the requirements of an economically disadvantaged youth. W does not request a certification from the State employment security agency as to S's eligibility. W is not entitled to claim a credit with respect to wages paid to S because W did not receive, or request in writing, a certification from the State employment security agency as to S's eligibility on or before the day on which S began work for W.

Example (13). Corporation V is a cash receipts and disbursements method taxpayer with a July 1 through June 30 taxable year. In the taxable year ending June 30, 1980, the aggregate unemployment insurance wages paid by V were $150,000. In calendar year 1979 the aggregate unemployment insurance wages paid by Corporation V were $110,000. Corporation V's qualified first-year wages are limited to 30 percent of the aggregate unemployment insurance wages paid by it in calendar year 1979 or $33,000 (30 percent of $110,000), even though the aggregate unemployment insurance wages paid by it in the taxable year ending June 30, 1980, were $150,000.

Example (14). Assume the same facts as in example (13), except that all dates are 3 years later. Since the limitation on qualified first-year wages does not apply to taxable years beginning after December 31, 1981, Corporation V's qualified first-year wages are $150,000.

Example (15). M operates a retail store as a sole proprietor. N and O, both members of a targeted group, first began work for M on January 1, 1979. M paid N total qualified first-year wages of $6,000 in 1979. Three thousand one hundred dollars of those wages were for services in M's retail store, and $2,900 of those wages were for services as M's maid. M paid O total qualified first-year wages of $6,000 in 1979. Three thousand dollars of those wages were for services in M's store and $3,000 of those wages were for services as M's chauffeur. M has an allowable credit of $3,000 in 1979 on all $6,000 of qualified first-year wages paid to N because more than one-half of the remuneration paid by M to N was for services in M's trade or business. M may not take into account the wages paid to O because not more than one-half of the remuneration paid by M to O was for services in M's trade or business. Accordingly, M may not claim a credit on wages paid to O.

Par. 3. Section 1.381(c)(26)-1 is amended to read as set forth below:

§1.381(c)(26)-1 Credit for employment of certain new employees.

(a) *Carryovers and carrybacks.* For taxable years beginning before January 1, 1984, the computation of carryovers and carrybacks of unused targeted jobs credit (new jobs credit in the case of wages paid before 1979) under section 44B (as in effect prior to enactment of the Tax Reform Act of 1984) in a transaction to which section 381(a) applies shall be made under the principles of §1.381(c)(23)-1 (relating to the computation of carryovers and carrybacks of unused investment credit), except that the provisions of paragraph (c)(4) and paragraph (e)(6), (7) and (8) of such section shall not apply.

(b) *Other items.* See §1.51-1(h) for a rule that applies to certain transfers of a trade or business in which a member of a targeted group is employed.

TEMPORARY REGULATIONS UNDER THE REVENUE ACT OF 1978
(26 CFR Part 5)

Par. 4. The authority for Part 5 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 5. Section 5.51-1 is removed.

TEMPORARY REGULATIONS—ELECTIONS UNDER VARIOUS PUBLIC LAWS
(26 CFR Part 5h)

Par. 6. The authority for Part 5h continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 7. Section 5h.4(e) is removed.

INTERNAL REVENUE PRACTICE REGULATIONS
(26 CFR Part 602)

Par. 8. The authority citation for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 9. Section 602.101(c) is amended by inserting in the appropriate places in the table "§1.51-1(d). . . 1545-0219."

This Treasury decision includes amendments that conform the regulations to the amendments made to section 51 of the Internal Revenue Code of 1954 by the Tax Reform Act of 1984. Because these are interpretative regulations and because there is need for immediate guidance, the requirement for notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code and the effective date limitation of subsection (d) of

that section are found to be inapplicable with respect to such amendments.

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved October 16, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on November 5, 1985, 8:45 a.m., and published in the issue of the Federal Register for November 6, 1985, 50 F.R. 45996)

Subchapter B.—Computation of Taxable Income
Part I.—Definition of Gross Income, Adjusted Gross Income, Taxable Income, etc.

Section 61.—Gross Income Defined

26 CFR 1.61-2: Compensation for services, including fees, commissions, and similar items.

Whether a pension received by a disabled firefighter under a state statute creating a rebuttable presumption the disability was service incurred is includible in gross income. See Rev. Rul. 85-105, page 53.

---

26 CFR 1.61-2T: Questions and answers relating to the taxation of fringe benefits (temporary).

The use of employer-provided vehicles for commuting. See T.D. 8061, page 93.

---

26 CFR 1.61-7: Interest.

Whether interest on obligations of a political subdivision will be exempt from tax. See Rev. Rul. 85-112, page 33.

---

26 CFR 1.61-7: Interest

Whether interest to be paid on obligations of a political subdivision of a state will be exempt from tax. See Rev. Rul. 85-120, page 32.

---

26 CFR 1.61-14: Miscellaneous items of gross income.

The amount received by an individual in settlement of a libel suit for injury to personal reputation is includible in the individual's gross income to the extent such amount represents the satisfaction of punitive damages. See Rev. Rul. 85-98, page 51.

Section 62.—Adjusted Gross Income Defined

26 CFR 1.62-1: Deductions from adjusted gross income.

Whether interest and state and local taxes are deductible in addition to the amount of passenger vehicle expenses determined by use of the standard mileage rate. See Rev. Proc. 85-49, page 716.

Section 63.—Taxable Income Defined

26 CFR 1.63-1: Change of treatment with respect to the zero bracket amount and itemized deductions.

Adjusted zero bracket amount set forth for taxable years beginning in 1986. See Rev. Proc. 85-55, page 737.

Part II.—Items Specifically Included in Gross Income

Section 72.—Annuities; Certain Proceeds of Endowment and Life Insurance Contracts

26 CFR 1.72-1: Introduction.

Annuities; withdrawals. The Service explains the Federal income tax consequences, under section 72 of the Code, as amended by the Tax Equity and Fiscal Responsibility Act of 1982, of a cash withdrawal from an annuity contract subsequent to a tax-free exchange of annuity contracts.

Rev. Rul. 85-159

ISSUE

What are the Federal income tax consequences of a withdrawal from an annuity contract after there has been an exchange of annuity contracts qualifying for nonrecognition under section 1035 of the Internal Revenue Code, as described below?

FACTS

The taxpayer, an individual, purchased an annuity contract on March 1, 1973, for 100*x* dollars, with an annuity starting date of June 24, 1993. On September 1, 1982, the taxpayer exchanged the annuity contract for an annuity contract with a different company, with the same annuity starting date. The exchange qualified as a tax-free exchange under section 1035(a) of the Code.

In December 1982, the taxpayer paid an additional premium of 50*x* dollars under the annuity contract. On March 1, 1983, when the contract was not subject to surrender charges, the taxpayer, age 45, made a partial surrender of the annuity and received 160*x* dollars. The cash value of the annuity was 200*x* dollars as a result of: (1) 100*x* dollars in premiums paid prior to August 14, 1982; (2) 50*x* dollars in premiums paid after August 13, 1982; (3) 49*x* dollars in accumulations attributable to investments made prior to August 14, 1982; and (4) 1*x* dollars in accumulations attributable to investments made after August 13, 1982.

LAW AND ANALYSIS

Section 72(e)(2)(B)(i) of the Code requires that amounts received as partial surrenders or cash withdrawals from an annuity contract prior to the annuity starting date be included in gross income to the extent allocable to income on the contract.

Section 72(e)(3)(A) of the Code provides that the amount by which the cash value of the contract (determined without regard to any surrender charge) exceeds the contract owner's investment in the contract immediately prior to receipt is the amount allocable to income on the contract. Distributions of less than the amount by which the cash surrender value exceeds the investment are includible in full in income. Section 72(e)(3)(B) provides that to the extent amounts are not allocable to income under the preceding rule, such amounts shall be allocated to the investment in the contract and, therefore, are not included in gross income. In short, withdrawals are allocated first to income and then to the investment in the contract.

Sections 72(e)(5)(A) and (B) of the Code provide that for contracts entered into before August 14, 1982, the rule contained in section 72(e)(2)(B) treating withdrawals as taxable to the extent allocable to income on the contract does not apply. Instead, amounts received under these contracts before the annuity starting dates are includible in gross income only to the extent they exceed the investment in the contract. Therefore, withdrawals are includible in income only after they exceed the investment in the contract.

Subject to certain exceptions and limitations, section 72(q) of the Code imposes a penalty on premature distributions from annuity contracts. The penalty is 5 percent of the amount includible in the contract owner's gross income. The penalty does not apply to a distribution that is allocable to an investment in the contract made before

August 14, 1982.

H.R. Rep. No. 97-760, 97th Cong., 2d Sess. 647 (1982), 1982-2 C.B. 600, 686 states, referring to the preceding sections: "[A] replacement contract obtained in a tax-free exchange of contracts succeeds to the status of the surrendered contract for purposes of the new provisions."

Thus, pursuant to section 72(e)(5)(B) of the Code, the cash withdrawal rules do not apply to amounts invested in an annuity contract prior to August 14, 1982, nor to income accumulated on such amounts, notwithstanding that the annuity contract was exchanged after August 13, 1982, for another annuity contract in a tax-free exchange under section 1035. Accordingly, under section 72(e)(5)(B) as described above, withdrawals are allocable first to investments prior to August 14, 1982, then to income accumulations with respect to such investments, then, pursuant to section 72(e)(3)(B), to income accumulated with respect to investments after August 13, 1982, and finally to investments after August 13, 1982.

HOLDING

Because the taxpayer received the present annuity in a tax-free exchange, that annuity will retain the attributes of the surrendered annuity for purposes of determining when amounts are to be considered invested and for computing the taxability of any withdrawals.

In the example above, the taxpayer is considered to have withdrawn amounts allocable to the taxpayer's pre-August 14, 1982, investment first. Accordingly, the first 100*x* dollars of the 160*x* dollars withdrawn is treated as a return of capital. The next 49*x* dollars withdrawn is ordinary income since it is allocable to income accumulations on pre-August 14, 1982, investments. The next 1*x* dollars withdrawn is ordinary income allocable to income accumulations on post-August 13, 1982, investments. The remainder of the withdrawal, 10*x* dollars, is attributable to the 50*x* dollars invested after August 13, 1982, and is treated as a return of capital.

The 5 percent penalty only applies to distributions made after December 31, 1982, of income accumulations that are allocable to an investment made after August 13, 1982. Therefore, the penalty tax is 5 percent of 1*x* dollars.

Section 83.—Property Transferred in Connection with Performance of Services

26 CFR 1.83-3: Meaning and use of certain terms.

T.D. 8042

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, PART 1—INCOME TAX: TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Property Transferred in Connection with the Performance of Services

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final Regulations.

SUMMARY: This document contains amendments to the regulations relating to property transferred in connection with the performance of services. These regulations reflect the changes made to the applicable tax law by the Economic Recovery Tax Act of 1981 [Pub. L. 97-34, 1981-2 C.B. 256], and revise certain provisions of the existing regulations. The regulations affect taxpayers performing services and taxpayers transferring property in connection with the performance of such services, and provide them with the guidance needed to comply with the law.

DATES: The amendments to §1.83-3(e) apply to property transferred after June 30, 1969. The rules added by paragraphs (j) and (k) of §1.83-3 apply to property transferred after December 31, 1981.

FOR FURTHER INFORMATION CONTACT: Bruce Jurist of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T), 202-566-3238, not a toll-free call.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On November 16, 1983, the FEDERAL REGISTER published proposed amendments (48 FR 52079) [LR-16-80, 1984-1 C.B. 641] to the Income Tax Regulations (26 CFR Part 1) under section 83 of the Internal Revenue Code. These amendments were proposed to conform the regulations to section 252 of the Economic Recovery Tax Act of 1981 (95 Stat. 260, 26 U.S.C. 83(c)) and make certain corrective and clarifying changes to the existing regulations under section 83. Twelve written comments responding to this notice were received. No requests for a public hearing were received and accordingly none was held. After consideration of all written comments regarding the proposed amendments, all but one of those amendments are adopted as revised by this Treasury decision.

PUBLIC COMMENTS PERIOD OF SECTION 16(b) RESTRICTION

Section 83(c)(3) states that property is nontransferable and subject to a substantial risk of forfeiture so long as the sale of such property at a profit could subject the seller to suit under section 16(b) of the Securities Exchange Act of 1934 ("the 1934 Act"). The proposed regulations under §1.83-3(j) provided that for purposes of section 83 the section 16(b) restriction would be considered to have lapsed after its initial six-month period, notwithstanding any extension of such restriction under the rules of section 16(b) of the 1934 Act. Six comments suggested that for purposes of section 83 the section 16(b) restriction should not lapse after a single six-month period, but rather should continue so long as a suit is maintainable under section 16(b) of the 1934 Act. This suggestion was not adopted because the legislative history of section 83(c)(3) provides that stock subject to the section 16(b) restriction will be treated as being subject to a substantial risk of forfeiture and nontransferable for the six-month period during which that section applies.

Further, five comments were received requesting additional clarification relating to the following issues:

(1) the effect under section 83 of simultaneous restrictions (*i.e.*, performance restrictions in addition to a section 16(b) restriction);

(2) the effect of a section 83(b) election on the section 16(b) restriction;

(3) the effect under section 83 of the

loss of insider status prior to the expiration of the six-month period;

(4) the day on which a section 16(b) restriction period ends (see *Colonial Realty Corp. v. McWilliams*, 381 F. Supp. 26 (S.D.N.Y. 1974)).

(5) the application of section 83 to purchases exempt under rule 16b-3 of the 1934 Act (17 CFR 240.16b-3); and

(6) the effect of a section 16(b) restriction on the determination of the readily ascertainable fair market value of a nonqualified stock option under §1.83-7.

The final regulations respond to issues (1), (2), and (3) (see examples (1) and (2) of §1.83-3(j)(2)) and issue (6) (see the last line in §1.83-3(j)(1)). The final regulations do not provide any additional guidance with respect to issues (4) and (5) because these issues relate primarily to the application of section 16(b) of the 1934 Act and only incidentally to section 83.

EMPLOYER'S DEDUCTION UNDER §1.83-6

The amendments to §1.83-6 as proposed in the November 16, 1983, notice of proposed rulemaking are not adopted by this Treasury decision. Those amendments remain under study by the Service.

SPECIAL ANALYSES

Although a notice of proposed rulemaking soliciting public comments was issued, the Internal Revenue Service concluded when the notice was issued that the regulations are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these regulations are not subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

The Treasury Department has determined that this final regulation is not a major rule under Executive Order 12291 or the Treasury and OMB implementation of the Order dated April 29, 1983. Accordingly, a Regulatory Impact Analysis is not required.

DRAFTING INFORMATION

The principal authors of these regulations are Bruce H. Jurist and Philip R. Bosco of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, other personnel in the Internal Revenue Service and Treasury Department participated in developing the regulations on matters of both substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, after careful consideration of all comments received, 26 CFR Part 1 is amended as follows:

Paragraph 1. These regulations are issued under the authority contained in 26 U.S.C. 7805. The authority citation for Part 1 is unchanged.

Par. 2. Section 1.83—3 is amended by revising paragraph (e) and adding new paragraphs (j) and (k). The amended section reads as follows:

§1.83-3 Meaning and use of certain terms.

* * * * *

(e) *Property.* For purpose of section 83 and the regulations thereunder, the term "property" includes real and personal property other than either money or an unfunded and unsecured promise to pay money or property in the future. The term also includes a beneficial interest in assets (including money) which are transferred or set aside from the claims of creditors of the transferor, for example, in a trust or escrow account. See, however, §1.83-8(a) with respect to employee trusts and annuity plans subject to section 402(b) and section 403(c). In the case of a transfer of a life insurance contract, retirement income contract, endowment contract, or other contract providing life insurance protection, only the cash surrender value of the contract is considered to be property. Where rights in a contract providing life insurance protection are substantially nonvested, see §1.83-1(a)(2) for rules relating to taxation of the cost of life insurance protection.

* * * * *

(j) *Sales which may give rise to suit under section 16(b) of the Securities Exchange Act of 1934*—(1) *In general.* For purposes of section 83 and the regulations thereunder if the sale of property at a profit within six months after the purchase of the property could subject a person to suit under section 16(b) of the Securities Exchange Act of 1934, the person's rights in the property are treated as subject to a substantial risk of forfeiture and as not transferable until the earlier of (i) the expiration of such six-month period, or (ii) the first day on which the sale of such property at a profit will not subject the person to suit under section 16(b) of the Securities Exchange Act of 1934. However, whether an option is "transferable by the optionee" for purposes of §1.83-7(b)(2)(i) is determined without regard to section 83(c)(3) and this paragraph (j).

(2) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). On January 1, 1983, X corporation sells to P, a beneficial owner of 12% of X corporation stock, in connection with P's performance of services, 100 shares of X corporation stock at $10 per share. At the time of the sale the fair market value of the X corporation stock is $100 per share. P, as a beneficial owner of more than 10% of X corporation stock, is liable to suit under section 16(b) of the Securities Exchange Act of 1934 for recovery of any profit from any sale and purchase or purchase and sale of X corporation stock within a six-month period, but no other restrictions apply to the stock. Because the section 16(b) restriction is applicable to P, P's rights in the 100 shares of stock purchased on January 1, 1983, are treated as subject to a substantial risk of forfeiture and as not transferable through June 29, 1983. P chooses not to make an election under section 83(b) and therefore does not include any amount with respect to the stock purchase in gross income as compensation on the date of purchase. On June 30, 1983, the fair market value of X corporation stock is $250 per share. P must include $24,000 (100 share of X corporation stock × $240 ($250 fair market value per share less $10 price paid by P for each share)) in gross income as compensation on June 30, 1983. If, in this example, restrictions other than section 16(b) applid to the stock, such other retrictions (but not section 16(b)) would be taken into account in determining whether the stock is subject to a substantial risk of forfeiture and is nontransferable for periods after June 29, 1983.

Example (2). Assume the same facts as in example (1) except that P is not an insider on or after May 1, 1983, and the section 16(b) restriction does not apply beginning on that date. On May 1, 1983, P must include in gross income as compensation the difference between the fair market value of the stock on that date and the amount paid for the stock.

Example (3). Assume the same facts as in example (1) except that on June 1, 1983, X corporation sells to P an additional 100 shares of X corporation stock at $20 per share. At the time of the sale the fair market value of the X corporation stock is $150 per share. On June 30, 1983, P must include $24,000 in gross income as compensation with respect to the January 1, 1983 purchase. On November 30, 1983, the fair market value of X corporation stock is $200 per share. Accordingly, on that date P must include

$18,000 (100 shares of X corporation stock × $180 ($200 fair market value per share less $20 price paid by P for each share)) in gross income as compensation with respect to the June 1, 1983 purchase.

(3) *Effective date.* this paragraph applies to property transferred after December 31, 1981.

(k) *Special rule for certain accounting rules.* (1) For purposes of section 83 and the regulations thereunder, property is subject to substantial risk of forfeiture and is not transferable so long as the property is subject to a restriction on transfer to comply with the "Pooling-of-Interests Accounting" rules set forth in Accounting Series Release Numbered 130 ((10/5/72) 37 FR 20937; 17 CFR 211.130) and Accounting Series Release Numbered 135 ((1/18/73) 38 FR 1734; 17 CFR 211.135).

(2) *Effective date.* This paragraph applies to property transferred after December 31, 1981.

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved July 8, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on August 5, 1985, 8:45 a.m., and published in the issue of the Federal Register for August 6, 1985, 50 F.R. 31712)

Part III.—Items Specifically Excluded From Gross Income

Section 103.—Interest on Certain Governmental Obligations

26 CFR 1.103-7: Industrial development bonds. (Also Section 61; 1.61-7.)

Industrial development bonds; fish preservation and public recreational facilities; trade or business and security interest tests. Obligations issued by a public utility district in connection with a hydroelectric project to finance construction of a fish bypass system and recreational facilities it is required to build under state and federal law will be industrial development bonds if the underlying facility is subject to an output contract as described in section 1.103-7(b)(5) of the regulations.

Rev. Rul. 85-120

ISSUE:

Will a proposed issue of revenue bonds satisfy the "trade or business test" and the "security interest test" described in section 103(b)(2) of the Internal Revenue Code and section 1.103-7(b)(5) of the Income Tax Regulations, under the circumstances described below?

FACTS:

Q is a public utility district, authorized to acquire, construct and operate structures necessary in the manufacture, distribution, purchase, and sale of electric power. *Q* is also authorized to issue revenue bonds for financing the acquisition, construction, and maintenance of electric utility and related properties.

In 1961, *Q* constructed and placed in service a hydroelectric project consisting of a dam, a reservoir, and electric generating equipment in a powerhouse. In connection with the project, *Q* was required in 1981 under the license issued by the Federal Power Commission to construct and thereafter maintain various facilities for the preservation of fish and for public recreation.

The fish preservation facilities to be installed at the dam site will consist of a fish bypass system designed to protect ocean-migrating fish and to assist them to pass the project safely during their seaward migration.

The recreational facilities above the dam site will consist of camping and picnic areas, swimming pools, boat docks and fishing access areas.

To finance the fish preservation and recreational facilities, *Q* will issue revenue bonds, payable solely out of revenues from the sale of electric energy generated by the hydroelectric project and from user chargers with respect to the proposed recreational facilities.

A privately-owned utility has agreed pursuant to a contract to take or pay for more than 25 percent of the output of the hydroelectric project, as defined in section 1.103-7(b)(5) of the regulations. Pursuant to this contract, the utility is contractually obligated to pay an amount equal to more than 25 percent of the debt service on all of *M*'s revenue bonds issued to finance the construction of the project, including fish passageway and recreational facilities.

LAW AND ANALYSIS

Section 103(a)(1) of the Code provides that gross income does not include interest on the obligations of a state or its political subdivisions.

Section 103(b)(1) of the Code provides that, except as otherwise provided in section 103(b), any industrial development bond shall be treated as an obligation that is not an obligation described in section 103(a)(1).

Section 103(b)(2) of the Code states that the term "industrial development bond" means any obligation—(A) which is issued as part of an issue all or a major portion of the proceeds of which are to be used directly or indirectly in any trade or business carried on by any person who is not an exempt person, and (B) the payment of the principal or interest on which is, in whole or in major part—(i) secured by any interest in property used or to be used in a trade or business or in payments in respect of such property, or (ii) to be derived from payments in respect of property, or borrowed money, used or to be used in a trade or business.

Section 103(b)(3) of the Code provides that an exempt person is a state or local governmental unit or an organization described in section 501(c)(3).

Section 1.103-7(b)(3)(iii) of the regulations provides, in part, that the use of more than 25 percent of the proceeds of an issue of obligations in trades or businesses of nonexempt persons will be the use of a major portion of such proceeds.

Section 1.103-7(b)(5)(i) of the regulations provides, in part, that the use by one or more nonexempt persons of a major portion of the output of facilities such as electric energy, gas, or water facilities constructed, reconstructed, or acquired with the proceeds of a bond issue satisfies the trade or business test and the security interest test if such use has the effect of transferring to nonexempt persons the benefits of ownership of such facilities, and the burdens of paying the debt service on governmental obligations used directly or indirectly to finance such facilities, so as to constitute the indirect use by them of a major portion of such proceeds.

Section 1.103-7(b)(5)(i) further provides that such benefits and burdens are transferred and a major portion of the proceeds of an issue is used indirectly by the users of the subparagraph (5) output of a facility that is owned and operated by an exempt person where one nonexempt person agrees, pursuant to a contract to take, or to take or pay for, a major portion (more than 25 percent) of the output (within the meaning of subdivision (ii) of this subparagraph) of such a facility (whether or not conditioned upon the production of such output).

In this case, although the fish preservation and recreational facilities will not increase electrical output of the hydroelectric project, they are such facilities which would not be built but for the hydroelectric project. Just as the dam and other facilities for the generation of electricity are properties used in the private utility's trade or business, these facilities that *Q* is required to build and maintain under the license are so closely associated with the hydroelectric project as to be considered a part of the hydroelectric project used in *Q*'s trade or business. Since a nonexempt person as defined in section 103(b)(3) of the Code (a private power purchaser) has agreed to take or pay for more than 25 percent of the output of the hydroelectric project and the payment of more than 25% of the debt service of the bonds will be derived from revenues generated by the output contract, the bonds will satisfy the trade or business test and the security interest test of section 1.103-7(b)(5) of the regulations. Therefore, the bonds will be industrial development bonds within the meaning of section 103(b)(2) of the Code.

HOLDING

The bonds to be issued by *Q* will satisfy the trade or business test and the security interest test of section 1.103-7(b)(5) of the regulations. Therefore, the bonds will be industrial development bonds within the meaning of section 103(b)(2) of the Code.

---

26 CFR 1.103-8: Interest on bonds to finance certain exempt facilities.

Industrial development bonds; exempt facility; convention or trade show. Facilities occupying three floors of an eighteen story hotel will not qualify as exempt convention or trade show facilities.

Rev. Rul. 85-94

ISSUE

Will facilities occupying three floors of an eighteen story hotel as described below qualify as exempt convention or trade show facilities within the meaning of section 103(b)(4)(C) of the Internal Revenue Code?

FACTS

As part of a cooperative effort among private investors, local businesses, and the government of *CI* to revitalize convention activity in the city, a developer proposes to acquire and reconstruct a hotel in *CI*. The entire project will cost an estimated $35*x* million dollars. Most of the funds for the project will be from private, taxable obligations. However, as part of the financing plan, the *CI* Industrial Development Authority will issue industrial development bonds in the amount of $8*x* million dollars to finance the construction and restoration of convention and trade show facilities located in the hotel.

The convention and trade show facilities will consist of the first, second and eighteenth floors of the hotel. As restored, the first floor will contain a ballroom as well as nine meeting rooms. The second floor will consist in major part of hospitality suites that will be leased for the display of goods, wares, etc., in connection with convention activities and trade shows. The eighteenth floor will consist of an additional ballroom, a reception room, and five meeting rooms. All of these facilities will be made available for rental to the general public in accordance with a fixed rate schedule.

In addition, the proceeds of the loan will also be used to finance part of the cost of certain public areas and facilities which serve the convention facilities as well as other parts of the hotel.

LAW AND ANALYSIS

Section 103(a) of the Code provides that gross income does not include interest on the obligations of a state or its political subdivisions.

Section 103(b)(1) of the Code provides that, with certain exceptions, industrial development bonds shall not be treated as obligations described in section 103(a).

Section 103(b)(4)(C) of the Code excepts from section 103(b)(1) obligations which are part of an issue substantially all of the proceeds of which are to be used to provide convention or trade show facilities.

Section 1.103-8(d)(2) of the Income Tax Regulations defines the term "convention or trade show facilities" to mean special purpose buildings or structures, such as meeting halls or display areas, which are generally used to house a convention or trade show, including facilities functionally related and subordinate to such facilities such as parking lots or railroad sidings. A hotel or motel which is available to the general public, whether or not it is intended primarily to house persons attending or participating in a convention or trade show is neither a convention or trade show facility nor functionally related and subordinate thereto. Hotel facilities are likewise not within the definition of "convention or trade show facilities". *See*, S. Rep. No. 1014, 90th Cong., 2d Sess. 37 (1968), 1968-2 C.B. 790, 809.

Thus, the exemption for convention and trade show facilities under section 103(b)(4)(C) of the Code applies only to special purpose buildings or structures constructed for housing conventions or trade shows and not to facilities that are an integral part of a hotel. Here, the convention and trade show facilities comprise three floors of an eighteen story hotel and are functionally an integral part of the hotel.

HOLDING

The facilities occupying three floors of an eighteen story hotel will not qualify as exempt convention or trade show facilities within the meaning of section 103(b)(4)(C) of the Code.

---

26 CFR 1.103-10: Exemption for certain small issues of industrial development bonds. (Also Section 61; 1.61-7.)

Industrial development bonds; exempt small issue; capital expenditures; capitalized costs. A corporation's proposed costs of purchasing components and assemblying computers in new buildings to be financed with

the proceeds from a city's proposed exempt small issue of industrial development bonds will not be section 103(b)(6)(D) capital expenditures if the computers are leased to users located outside the city.

Rev. Rul. 85-112

ISSUE

Will an "exempt small issue" of industrial development bonds described in section 103(b)(6)(D) of the Internal Revenue Code exceed the exempt small issue limitation of $10,000,000 under the circumstances described below?

FACTS

Corporation *X*, which is not an exempt person within the meaning of section 103(b)(3) of the Code, proposes to construct buildings on land it owns in city *CI* for use as an assembly plant for computers. *X* will purchase the components and other materials, assemble the computers, and lease or sell them to customers for use in their places of business, which are located throughout the United States.

X will capitalize the cost of those computers that it intends to lease. Assembly of each computer will require approximately 2 weeks after necessary materials are received. Assembled computers will then be shipped out of *CI* to branch service centers, lessees, and purchasers. At the time of shipment out of *CI*, the computers will function independently, requiring only an electrical outlet in order to operate. The computers are not specifically designed for any particular lessee's special needs. During the first year of operation, *X* will assemble computers for lease costing approximately $6,000,000. A regional center for long-term storage of surplus computers will be located outside *CI*.

Under the terms of the leases, *X* will be the owner of the leased computers for federal income tax purposes. *X* will lease the computers for terms of more than 3 years. In addition, because *X* will maintain numerous service centers throughout the country, less than 10 percent of *X*'s leased computers will be returned to the plant in *CI* each year for repair, refurbishing, and recycling.

CI purposes to issue registered industrial development bonds described in section 103(b)(2) of the Code in the amount of $8,000,000. The bond proceeds will be loaned to *X* for use in constructing the buildings located in *CI*. Before the issuance of the bonds, *CI* will file a statement electing to treat the bonds as an exempt small issue of $10,000,000 or less under the provisions of section 103(b)(6)(D). *X* has not previously financed any facilities with an exempt small issue. Neither *CI* nor *X* has made or will make any capital expenditures with respect to the facilities during the 3 years before the date of issuance of the bonds.

CI's proposed bond issue will satisfy all the requirements for tax-exemption under section 103 of the Code if the aggregate face amount of such bonds does not exceed the exempt small issue limitation of $10,000,000 under section 103(b)(6)(D)(ii) of the Code.

LAW AND ANALYSIS

Section 103(a)(1) of the Code provides that gross income does not include interest on the obligations of a state or its political subdivisions.

Section 103(b)(1) of the Code provides that, except as otherwise provided in section 103(b), any industrial development bond will be treated as an obligation that is not decribed in section 103(a)(1).

Section 103(b)(6)(D) of the Code provides that, at the election of the issuer, section 103(b)(1) will not apply to any obligation issued as part of an issue if the aggregate face amount of the issue is $10,000,000 or less and if substantially all (90 percent or more) of the proceeds of the issue are to be used to acquire or construct land or property of a character subject to the allowance for depreciation. To determine the aggregate face amount of a bond issue, the face amount of the bonds to be issued, the outstanding face amount of certain prior exempt small issues, and the aggregate amount of capital expenditures for certain facilities must all be taken into account.

Section 1.103-10(b)(2)(ii) of the Income Tax Regulations provides that an expenditure is a section 103(c)(6)(D) (redesignated as section 103(b)(6)(D)) capital expenditure if:

(a) The capital expenditure was financed other than out of the proceeds of issues taken into account,

(b) The capital expenditures were paid or incurred during the 6-year period that begins 3 years before the date of issuance of the issue and ends 3 years after that date,

(c) The principal user of the facility in connection with which the property resulting from the capital expenditures is used and the principal user of the facility financed by the proceeds of the issue in question is the same person or two or more related persons,

(d) Both facilities referred to in (c) were located in the same incorporated municipality or in the same county (outside the incorporated municipality in the county), and

(e) The capital expenditures were properly chargeable to the capital account of any person or state or local governmental unit (whether or not the person is the principal user of the facility or a related person).

In this case, X will assemble computers during a short period of time (approximately 2 weeks) and transfer the computers outside *CI* for delivery to the lessees. The computers to be returned to X's assembly plant in *CI* by lessees each year for repairs will be insignificant. None of the computers will be stored in *CI* after assembly or repairs.

Because the computers to be assembled for lease will be situated in *CI* for only a temporary period and will not be intended for use in *CI*, such computers will not be considered located in *CI*. They will be considered located in the political subdivisions where they are used by the lessees. Therefore, the capitalized cost of the computers assembled in *CI* for lease will not be considered section 103(b)(6)(D) capital expenditures by *X* in *CI* for purposes of determining the aggregate face amount of the bonds to be issued by *CI*. Such expenditures will not satisfy the requirement under section 1.103-10(b)(2)(ii)(*d*) of the regulations because the facilities (lessees' land and buildings) in connection with which the property resulting from the capital expenditures (computers) will be used and the facility to be financed with the bond proceeds (*X*'s buildings) will not be located in the same incorporated municipality. The cost of the computers will be section 103(b)(6)(D) capital expenditures by *X* in the political subdivi-

sions where the computers are used by the lessees.

HOLDING

The aggregate face amount of the bonds ($8,000,000 face amount) to be issued by *CI* will not exceed the exempt small issue limitation of $10,000,000 under section 103(b)(6)(D) of the Code. Therefore, the interest on the bonds will be excludable from gross income under section 103(a)(1).

---

26 CFR 1.103-10: Exemption for certain small issues of industrial development bonds.

Industrial development bonds; exempt small issue; research expenses; capital expenditures. Research expenses will be treated as capital expenditures, within the meaning of section 103(b)(6)(D) of the Code, with respect to the facilities where the product of the research will be used unless such expenses are research expenses described in section 30(b)(2)(A) for which a deduction has been allowed under section 174(a). Rev. Ruls. 77-27 and 77-253 modified and superseded.

Rev. Rul. 85-142

ISSUE

Will expenditures for research and experimental activity be classified as "section 103(b)(6)(D) capital expenditures" in the situations described below for purposes of determining if the exempt small issue limitation of $10,000,000 will be exceeded?

FACTS

Situation 1.

County *CY* proposes to issue industrial development bonds on October 1, 1985, in the amount of $9,500,000 to finance the construction of a factory building in *CY* for use by *X* corporation, a nonexempt person. *X* will use its own funds to purchase the land for $300,000. Prior to the issuance of the bonds, *CY* will file a statement with the Internal Revenue Service electing to treat the bonds as an exempt small issue of $10,000,000 or less under section 103(b)(6)(D) of the Internal Revenue Code.

X currently owns and operates a manufacturing facility in city *CI*, an incorporated municipality located in *CY*. During the 3 years prior to the issuance of the bonds, *X* will have expended $550,000 at the *CI* facility for research and experimental activities with respect to the proposed facility to be located in *CY*. The research and experimental activities will consist of experimentation with respect to the products to be produced in the new facility and the equipment to be used in the manufacture of such products.

X will expend $200,000 for wages to employees for qualified services and $175,000 for supplies to be used in the conduct of qualified research as part of the total research and experimental expenditures of $550,000. The amounts expended on wages and supplies are amounts described in section 30(b)(2)(A)(i) and (ii) of the Code relating to a credit for increasing research activities. *X* will claim a deduction for all $550,000 of the expenditures for research and experimental activities, under section 174 of the Code.

Situation 2.

County *CY* proposes to issue industrial development bonds on October 1, 1985, in the amount of $9,750,000 to finance the acquisition of land and the construction of a factory building in *CY* to be used by *X* corporation, a nonexempt person. The purchase price of the land will be less than 25 percent of the bond proceeds. Prior to the issuance of the bonds, *CY* will file a statement with the Internal Revenue Service electing to treat the bonds as an exempt small issue of $10,000,000 or less under section 103(b)(6)(D) of the Code.

X currently owns and operates facilities through subsidiary corporations in counties *G*, *H*, *I*, and *J* within the state. A portion of the proposed factory building in *CY* will be used by *X* for research and experimental activities. *X* plans to develop a new product for manufacture in its subsidiary corporations' manufacturing facilities in *G* and *I*. *X* plans to expend $300,000 for the research and experimental activities on behalf of the subsidiary corporations in *G* and *I*. *X* will not elect to treat the expenditures for research and experimental activities as deductible expense under the provisions of section 174 of the Code. *X* will capitalize such expenditures.

The manufacturing facilities in *G* will produce 70 percent of the new product to be manufactured and the facilities in *I* will produce the remaining 30 percent of the new product.

LAW

Section 103(a)(1) of the Code provides that gross income does not include interest on the obligations of a state or its political subdivisions.

Section 103(b)(1) of the Code provides that, except as otherwise provided in section 103(b), any industrial development bond will be treated as an obligation that is not described in section 103(a)(1).

Section 103(b)(6)(D) of the Code provides that, at the election of the issuer, section 103(b)(1) will not apply to any obligation issued as part of an issue if the aggregate authorized face amount of the issue is $10,000,000 or less and if substantially all (90 percent or more) of the proceeds of the issue are to be used for the acquisition, construction, reconstruction, or improvement of land or property of a character subject to the allowance for depreciation. To determine the aggregate authorized face amount of a bond issue, the face amount of the bonds to be issued, the outstanding face amount of certain prior exempt small issues, and the aggregate amount of capital expenditures for certain facilities must all be taken into account.

Section 103(b)(16)(A)(ii) of the Code provides that obligations will not qualify as exempt industrial development bonds under paragraphs (4), (5), or (6) of section 103(b) if 25 percent or more of the bond proceeds are to be used for the acquisition of land.

Section 1.103-10(b)(2)(ii) of the regulations generally defines an expenditure (regardless of how paid, whether in cash, notes, or stock in a taxable or nontaxable transaction) as a section 103(c)(6)(D) (redesignated as section 103(b)(6)(D)) capital expenditure if—

(a) The capital expenditure was financed other than out of the proceeds of issues taken into account under section 1.103-10(b)(2)(i)(a) of the regulations,

(b) The capital expenditures were paid or incurred during the 6-year period that begins 3 years before the date

of issuance of the issue in question and ends 3 years after such date,

(c) The principal user of the facility in connection with which the property resulting from the capital expenditures is used and the principal user of the facility financed by the proceeds of the issue in question is the same person or are two or more related persons (as defined in section 103(c)(6)(C) [redesignated as section 103(b)(6)(C)] of the Code and section 1.103-10(e) of the regulations),

(d) Both facilities referred to in (c) were (during the period described in (b) or a part thereof) located in the same incorporated municipality or in the same county (outside of the incorporated municipalities in such county), and

(e) The capital expenditures were properly chargeable to the capital account of any person or state or local government unit (whether or not such person is the principal user of the facility or a related person) determined, for this purpose without regard to any rule of the Code which permits expenditures properly chargeable to capital account to be treated as current expenses. With respect to obligations issued on or after August 8, 1972, determinations under the preceding sentence shall be made by including any expenditure which may, under any rule or election under the Code, be treated as a capital expenditure (whether or not such expenditure is so treated).

Section 103(b)(6)(F)(iv) of the Code provides that any capital expenditure described in clause (i) or (ii) of section 30(b)(2)(A) for which a deduction was allowed under section 174(a) shall not be taken into account in determining the aggregate authorized face amount of an issue.

Section 30(b)(2)(A) of the Code provides, in part, that the term "in-house research expenses" means (i) any wages paid or incurred to an employee for qualified services performed by such employee, and (ii) any amount paid or incurred for supplies used in the conduct of qualified research.

Section 174(a)(1) of the Code provides that a taxpayer may treat research or experimental expenditures that are paid or incurred during the taxable year in connection with the taxpayer's trade or business as expenses that are not chargeable to capital account. The expenditures so treated shall be allowed as a deduction.

In Rev. Rul. 77-27, 1977-1 C.B. 23, a political subdivision proposed to issue industrial development bonds in the amount of $4,500,000 to finance the acquisition of facilities to be located in county *M* for use by a nonexempt corporation. The corporation planned to expend $550,000 for research and experimentation with respect to the new facilities in county *M*. The corporation also owned and operated a facility in city *N*, an incorporated municipality located in county *M*. Rev. Rul. 77-27 holds that the expenditures by the corporation for research and experimentation will be capital expenditures within the meaning of section 103(b)(6)(D) of the Code with respect to the facilities to be located in county *M*.

In Rev. Rul. 77-253, 1977-2 C.B. 40, a political subdivision of a state issued $4,750,000 of industrial development bonds to finance the acquisition of land, a building, and equipment located in county *M*, to be used by *X* corporation, a nonexempt person. *X* also owns and operates manufacturing facilities through subsidiary corporations in counties *N*, *O*, *P*, and *Q*. *X* used the facilities in *M* for research and experimental activities to develop a new product for manufacture in *N* and *P*. Rev. Rul. 77-253 holds that the expenditures for research and experimental activities are section 103(b)(6)(D) capital expenditures with respect to the facilities in *N* and *P* where the new product is manufactured and not with respect to the facilities in *M* where the research and experimental activities were conducted. Rev. Rul. 77-253 amplified Rev. Rul. 77-27.

ANALYSIS

Situation 1.

Although *X* will elect to treat its expenditures for research and experimental activity as deductible expenses under section 174 of the Code, the provisions of section 1.103-10(b)(2)(ii)*(e)* of the regulations will apply for purposes of determining whether such expenditures are section 103(b)(6)(D) capital expenditures. However, under section 103(b)(6)(F)(iv), *X*'s capital expenditures for certain wages and supplies described in section 30(b)(2)(A)(i) and (ii) will not be treated as section 103(b)(6)(D) capital expenditures since those expenditures will be deducted under section 174. Therefore, *X* will not take $375,000 ($200,000 of wages and $175,000 of supplies) of the expenditures for research and experimental activity into account as a section 103(b)(6)(D) capital expenditure.

Situation 2.

X may elect to treat its proposed expenditures for research and experimental activity as capital expenditures or as deductible expenses. Regardless of *X*'s treatment of those amounts, the provisions of section 1.103-10(b)(2)(ii)*(e)* of the regulations will apply for purposes of determining whether such expenditures are section 103(b)(6)(D) capital expenditures. In addition, because *X* will not elect to treat its expenditures for research and experimental activity as deductible expenses under section 174(a) of the Code, none of the expenditures will be excluded under section 103(b)(6)(F)(iv) from treatment as section 103(b)(6)(D) capital expenditures.

HOLDING

Situation 1.

The expenditure of $300,000 by *X* for the land in *CY* is a section 103(b)(6)(D) capital expenditure. In addition, $175,000 of the $550,000 of expenditures by *X* for research and experimental activity is a section 103(b)(6)(D) capital expenditure. The expenditures for research and experimental activity must be taken into account with respect to the proposed facilities in *CY* and not with respect to the facilities in *CI* where the research and experimental activity will be conducted. Therefore, the aggregate authorized face amount of *CY*'s proposed bonds will be $9,975,000 ($9,500,000 face amount plus $300,000 and $175,000 of capital expenditures), and will not exceed the exempt small issue limitation.

Situation 2.

The proposed expenditures by *X* of $300,000 for research and experimental activities to be conducted in *CY* will be section 103(b)(6)(D) capital expenditures, but not with respect to the proposed manufacturing facilities to be lo-

cated in *CY*. Such expenditures will be section 103(b)(6)(D) capital expenditures with respect to the manufacturing facilities in *G* and *I*. The capital expenditures must be allocated to the facilities located in *G* and *I* on the basis of the percentage of production to be accomplished at each facility. Thus, $210,000 (70 percent of $300,000) of the total section 103(b)(6)(D) capital expenditures will be paid or incurred with respect to the facilities located in *G* and $90,000 (30 percent of $300,000) of the total section 103(b)(6)(D) capital expenditures will be paid or incurred with respect to the facilities located in *I*. The section 103(b)(6)(D) capital expenditures attributable to facilities in *G* and *I* must be aggregated with any outstanding exempt small issues under section 103(b)(6)(D) issued, within 3 years before or 3 years after the date of the capital expenditures, to finance facilities for use by the subsidiary corporations in the respective counties. The result will be the same if the research and experimental activities fail to develop a usable product. The aggregate authorized face amount of *CY*'s proposed bonds will be $9,750,000 and will not exceed the exempt small issue limitation.

EFFECT ON OTHER REVENUE RULINGS

Rev. Ruls. 77-27 and 77-253 are modified and superseded.

---

26 CFR 1.103-10: Exemption for certain small issues of industrial development bonds.

Industrial development bonds; exempt small issue; capital expenditures. Installation of air conditioning benefiting tenants of the facility, other than the principal user, is a capital expenditure for purposes of section 103(b)(6)(D)(ii) of the Code.

Rev. Rul. 85-145

ISSUE

Is the installation of a $1,500,000 air conditioning system which benefits tenants other than a principal user a capital expenditure under section 130(b)(6)(D)(ii) of the Internal Revenue Code if the installation took place within 3 years before the issuance of an exempt small issue of bonds to finance new facilities for the principal user in the same city?

FACTS

Corporation *X* is engaged in the business of engineering, manufacturing, and marketing certain electrical products. *X*'s primary operations are currently conducted in one leased building located within city *CI* under a long term lease. As the principal user of the facility, *X* occupies more than 75 percent of the actual physical space in the leased building, although there are four other tenants accounting for the remaining space. Due to the nature of their businesses, the other tenants require air conditioning. *X* does not need nor want air conditioning. The owner-leasor, *L*, proposes to install a central air conditioning system solely designed to serve that portion of the building occupied by the other tenants. The system's installation will cost $1,500,000.

In order to meet expanded market demand for its products, *X* proposes to purchase land and erect a building at a different location in *CI*. The land and building (Project) will allow *X* to increase its overall production capacity. Upon completion of the Project, *X* will cancel the lease and vacate the leased building.

X has requested *CI* to issue an exempt small issue of industrial development bonds of $10,000,000 or less described in section 103(b)(6)(D) of the Code to finance the Project. *CI* had adopted a resolution expressing its intent to issue the bonds to finance *X*'s Project. Before the issuance of the bonds, *CI* will file a statement with the Internal Revenue Service electing to treat the bonds as an exempt small issue of $10,000,000 or less. At the time of issuance of the proposed bonds, *CI* will have no outstanding exempt small issues the proceeds of which were used to finance facilities for *X* or persons related to *X*.

X leased the building in *CI* of which it is now the principal user from corporation *L*, which is not related to *X*. *L* purchased the building more than 3 years before the proposed issuance date of *CI*'s bonds. However, within 3 years of the proposed issuance date of *CI*'s bonds, *L* will have completed the installation of the air conditioning system in the building.

LAW AND ANALYSIS

Section 103(a)(1) of the Code provides that gross income does not include interest on the obligations of a state or a political subdivision of a state.

Section 103(b)(1) of the Code provides that except as otherwise provided in section 103(b), any industrial development bond shall be treated as an obligation that is not an obligation described in section 103(a)(1).

Section 103(b)(6)(A) of the Code provides that section 103(b)(1) shall not apply to any obligation issued as part of an issue the aggregate authorized face amount of which is $1,000,000 or less and substantially all of the proceeds of which are to be used for the acquisition, construction, reconstruction, or improvement of land or property of a character subject to the allowance for depreciation, or to redeem part or all of a prior issue that was issued for such purposes.

Section 103(b)(6)(D) of the Code provides, in part, that the issuer may elect to issue an exempt small issue of $10,000,000 or less in lieu of the $1,000,000 described in section 103(b)(6)(A). For purposes of determining the aggregate face amount of such issue, there must be taken into account the face amount of the bonds to be issued, the outstanding face amount of any prior exempt small issues, and the aggregate amount of capital expenditures with respect to facilities paid or incurred during the 6-year period beginning three years before the date of such issue and ending three years after such date (and financed otherwise than out of the proceeds of outstanding issues to which section 103(b)(6)(A) applied). The facilities to be taken into account are those located in the same incorporated municipality or located in the same county (but not in any incorporated municipality) the principal user of which is or will be the same person or two or more related persons.

Section1.103-10(b)(2)(ii) of the Income Tax Regulations provides that an expenditure is a section 103(c)(6)(D) (redesignated as section 103(b)(6)(D)) capital expenditure if:

(a) The capital expenditure was financed other than out of the proceeds of issues taken into account,

(b) The capital expenditures were

paid or incurred during the 6-year period that begins 3 years before the date of issuance of the issue and ends 3 years after that date,

(c) The principal user of the facility in connection with which the property resulting from the capital expenditures is used and the principal user of the facility financed by the proceeds of the issue in question is the same person or two or more related persons,

(d) Both facilities referred to in (c) were located in the same incorporated municipality or in the same country (outside the incorporated municipalities in the county), and

(e) The capital expenditures were properly chargeable to the capital account of any person or state or local governmental unit (whether or not the person is the principal user of the facility or a related person).

In this case although *L* will not use tax-exempt bond proceeds to finance installation of the air conditioning system in the leased building, its purchase of the system will have been made within 3 years of the proposed issue date of *CI*'s bonds. Further, at the time of the proposed issuance of *CI*'s bonds, *X* will still be the principal user of *L*'s building even though not a direct user of the newly installed air conditioning system. Both the leased building and the facility to be bond-financed are in the same city and are used by the same principal user, *X*, and the cost of installation of the air conditioning system by *L* is a capital expenditure chargeable to *L*'s capital account. Therefore, the purchase of the air conditioning system by *L* satisfies the requirements of section 1.103-10(b)(2)(ii)(a) through (e) of the regulations.

HOLDING

The installation of an air conditioning system which benefits tenants of a facility other than the principal user of such facility is a capital expenditure with respect to such facility for purposes of section 103(b)(6)(D)(ii) of the Code and section 1.103-10(b)(2)(ii) of the regulations if the installation took place within 3 years of the issuance of an exempt small issue of bonds to finance new facilities for the principal user in the same city.

---

26 CFR 1.103-13: Arbitrage bonds.

Government obligations; arbitrage bonds; refunding issue; tender offer. Acceptance of tender offers for previously issued bonds, which causes the proceeds of the refunding bonds to exceed the amount needed for the refunding, will not cause the refunding bonds to be arbitrage bonds.

Rev. Rul. 85-146

ISSUE

In a situation where a local government issues refunding bonds, where subsequent increases in interest rates cause large decreases in the market value of the previously issued bonds that are to be refunded, and where these decreases are so great that, if the holders of the previously issued bonds were to accept tender offers for their bonds, then the acceptances would cause the proceeds of the refunding bonds to exceed the amount needed for refunding the previous issue, will such a tender offer cause the refunding bonds to be arbitrage bonds under section 103(c) of the Internal Revenue Code?

FACTS

In October 1967 and December 1968, local government *CI* sold a total of 500x dollars of general obligation bonds (Bonds), which carried an interest rate of 5 percent. Currently, 400x dollars of these Bonds are outstanding.

In October 1978, *CI* sold 290x dollars of its Refunding Bonds carrying an interest rate of 9 percent pursuant to a common plan of financing. At the time of issuance of the Refunding Bonds, the proceeds received from issuance together with anticipated investment accumulations on the proceeds were projected to provide no more than enough funds to retire the 1967 and 1968 Bonds as soon as they would become callable. In October 1978, the 1967 and 1968 Bonds were being traded on the open market at prices which had fallen below par as a result of increases in interest rates. However, use of any portion of the Refunding Bond proceeds to purchase the 1967 and 1968 Bonds at market prices in October 1978 was not advantageous at that time.

CI invested the proceeds of the Refunding Bonds in United States Treasury obligations, State and Local Government Series (SLGS), at a yield that is not materially higher than the yie on the Refunding Bonds. *CI* h matched the maturities on the SLG obligations with the requirements f debt service of the escrow account. U der the terms of the escrow *CI* could its option redeem SLGS and use t proceeds of the redemption to purcha by tender offer any of the outstandi 1968 Bonds, provided that the amoun remaining in the escrow accounts aft a tender offer purchase were sufficie to retire the remaining outstandi 1967 and 1968 Bonds.

Because of increases in interest rat since the issuance of the Refundi Bonds, the market value of the ou standing 1967 and 1968 Bonds ha been further depressed. *CI* has dete mined that a consolidation of its ou standing Bonds would be beneficial this time. Therefore, *CI* is now consi ering the purchase at fair market valu below par, of certain of the outstandi 1967 and 1968 Bonds. Specifically, proposes to advertise, or have the ban that is trustee under the escrow agre ments advertise, for tenders for sale the outstanding 1967 and 1968 Bond that were to be eventually refunded b the Refunding Bonds. *CI* will accep those offers that it deems advantageou and advisable.

In accord with its expectations at th time of issuance of the Refundin Bonds, *CI* will assure that after C completes its tender offer purchases o outstanding Bonds, the yield on th SLGS obligations remaining in the es crow accounts will continue to be no materially higher than the yield on th Refunding Bonds. Because *CI* expect to purchase some of the outstandin 1967 and 1968 Bonds at prices de pressed far below par, the amount re maining in the escrow accounts afte the purchase will exceed the amoun needed to discharge the remaining out standing 1967 and 1968 Bonds. There fore, *CI* will transfer the excess amoun from the escrow account into its gen eral fund for immediate expenditure fo general municipal purposes.

LAW AND ANALYSIS

Section 103(a) of the Code provide that gross income does not include in terest on the obligations of a state or its political subdivision. However, sectio 103(c) of the Code generally provide

that any arbitrage bond shall not be treated as an obligation described in section 103(a).

Section 103(c)(2) of the Code defines an arbitrage bond as any obligation that is issued as part of an issue all or a major portion of the proceeds of which are reasonably expected to be used directly or indirectly (A) to acquire securities or obligations that may be reasonably expected at the time of issuance of the issue, to produce a yield over the term of the issue that is materially higher than the yield on obligations of the issue or (B) to replace funds that were used directly or indirectly to acquire securities or obligations described in section 103(c)(2)(A).

Section 1.103-13(a)(2)(i) provides that the determination whether an obligation is an arbitrage bond depends on the issuer's reasonable expectations as of the date of issue regarding the amount and use of the proceeds of the issue.

Section 1.103-15(a) of the regulations provides the general rule that with certain exceptions if the excess proceeds of a refunding issue exceed 1 percent of the original proceeds, the refunding obligations are arbitrage bonds. Excess proceeds of a refunding issue are defined generally to include all proceeds, including investment proceeds, excepting certain proceeds enumerated in section 1.103-15(b) of the regulations.

Because it is common knowledge that market rates of interest vary from time to time, it may be assumed that, as of the issuance of any issue of refunding bonds, the issuer may have a reasonable expectation that future increases in interest rates are a possibility. Further, such an issuer would normally understand that rate increase would tend to depress all bond prices and therefore could make possible the advantageous purchase of some of the original bonds. Conversely, the issuer would ordinarily not know with certainty that interest rates would in fact increase.

It was foreseeable by *CI* that, sometime after the 1978 issuance, market rates of interest might eventually increase, which would tend to depress the prices of *CI*'s outstanding bonds. However, the foreseeability in 1978 of the possible opportunity to make advantageous purchases in some later year did not require a reduction in the size of the 1978 Refunding Bond issue. At the time of the1978 issuance, *CI* could not be certain that market rates of interest would eventually increase sufficiently to actually make any advantageous purchases of its outstanding 1967 and 1968 Bonds possible. Therefore, it was appropriate for purposes of section 103(c) to issue the Refunding Bonds in an amount that was based on an assumption that no open-market purchases would be made.

The actual purchase of 1967 and 1968 Bonds below par will result in excess funds in the refunding escrow. But this fact will not cause the 1978 Refunding Bonds to be arbitrage bonds because the yield on the obligations remaining in the escrow account for the outstanding bonds after *CI* completes its tender offer purchases will not be materially higher than the combined yield on the Refunding Bonds.

HOLDING

In a situation where a local government issues refunding bonds, where subsequent increases in interest rates cause large decreases in the market value of the previously issued bonds that are to be refunded, and where these decreases are so great that, if the holders of the previously issued bonds were to accept tender offers for their bonds, then the acceptances would cause the proceeds of the refunding bonds to exceed the amount needed for refunding the previous issue, such a tender offer will not cause the refunding bonds to be arbitrage bonds under section 103(c) of the Code.

---

26 CFR 1.103-13: Arbitrage bonds.

Arbitrage bonds; residential rental project. Bonds will be arbitrage bonds, within the meaning of section 103(c)(2) of the Code, if a city's certification is made in bad faith and it is reasonable to expect the bond proceeds will be invested in materially higher yielding obligations. Section 103(b)(4)(A) does not apply to an issue of industrial development bonds with the stated purpose of providing a residential rental project if the facts indicated that the bond proceeds will not be so used.

Rev. Rul. 85-182

ISSUES

1. If the facts surrounding an issuance of bonds by a city indicate (a) that the city's certification of its expectations with respect to the amount and use of the bond proceeds was made in bad faith and (b) that the issuer's reasonable expectations were that the bond proceeds would be invested in materially higher yielding obligations, are the bonds arbitrage bonds within the meaning of section 103(c)(2) of the Internal Revenue Code?

2. If the stated purpose of an issue of industrial development bonds is to provide a residential rental project within the meaning of section 103(b)(4)(A) but the facts surrounding the issuance indicate that substantially all of the proceeds will not be so used, does section 103(b)(4)(A) apply to the bonds?

FACTS

City *CI* issued bonds in the amount of 350*x* dollars. At the time of issuance, *CI* certified that (1) the proceeds of the issue would be loaned to *X*, a nonexempt person, to finance the construction in *CI* of a project for residential rental property described in section 103(b)(4)(A) of the Code, (2) the project would consist of approximately *y* residential units, and (3) *X* would lease the completed residential units in the project to qualifying tenants. *CI* covenanted in the bond indenture that it would meet the requirements of section 1.103-14(b) of the Income Tax Regulations concerning temporary investment of the proceeds at a materially higher yield.

Pursuant to the bond indenture, the bond proceeds were invested in certificates of deposit and were held as security for the bondholders. The yield on the certificates of deposit is materially higher than the yield on the bonds. The bond indenture provides that the bond trustee cannot loan the proceeds to *X* until alternate security for the issue in the form of a letter of credit from a foreign bank is obtained. The alternate security must be sufficient to enable the bonds to maintain a satisfactory credit rating. The bond indenture provides that if the alternate security for the issue is not obtained within 3 years of

the date of issue, *CI* must redeem all the bonds.

X will not begin construction of the project until it has been loaned the proceeds of the bonds. Consequently, if *CI* redeems the bonds prior to the loan, *X* will not suffer a financial detriment.

The bond trustee is authorized to pay issuance costs of 25*x* dollars, including issuer's, bond counsel's, and underwriters' fees. Earnings on the certificates of deposit during the initial 3-year period are sufficient to pay all issuance costs as well as the interest on the bonds. As a result, *CI* will incur no costs with respect to the issue.

The indenture provides that after a letter of credit is secured and the proceeds are loaned to *X*, payment of debt service (principal and interest) on the bonds is to be secured by the remaining proceeds, the property, and the semiannual payments *X* will make to *CI*. *X*'s payments to *CI* are to be equal to the semiannual payments of debt service on the bonds.

Within 6 months of the date of issue, *CI* incurred a substantial binding obligation, within the meaning of section 1.103-14(b)(3) of the regulations, to acquire the land on which the project is to be located in an amount which is de minimis relative to the size of the issue.

The population of the greater metropolitan area of *CI* is such that the contemplated increase in *CI*'s housing stock of *y* residential units is out of proportion to the population figure.

The average cost of each residential rental unit to be constructed is substantially greater than not only the average cost of construction of residential rental units in the *CI* metropolitan area during the past 3 years, but also the average cost during that period of new single family, owner-occupied residences.

CI's total outstanding indebtedness issued in the 8 years preceding the date of issue totaled 165*x* dollars, 35*x* dollars of which were tax exempt industrial development bonds.

For a residential rental project of this type, the customary financial practice would be to obtain, prior to the issuance of bonds, either a letter of credit, a commitment or guaranty for the issuance of a letter of credit, or some other credit support. However, *CI* did not obtain a commitment or guaranty for the issuance of a letter of credit prior to issuance of the bonds. It is likely that it will be difficult to obtain a letter of credit to support this project.

LAW AND ANALYSIS

Issue 1

Section 103(a) of the Code provides that gross income does not include interest on the obligations of a state or a political subdivision of a state.

Section 103(c)(1) of the Code provides, generally, that the interest on any arbitrage bond will not be excludable from gross income.

Section 103(c)(2) of the Code provides that the term "arbitrage bond" means any obligation that is issued as part of an issue all or a major portion of the proceeds of which are reasonably expected to be used directly or indirectly (A) to acquire securities or obligations that may be reasonably expected at the time of issuance of the issue, to produce a yield over the term of the issue that is materially higher than the yield on obligations of the issue, or (B) to replace funds that were used directly or indirectly to acquire securities or obligations described in section 103(c)(2)(A).

Section 103(c)(4)(A) of the Code provides that an obligation shall not be treated as an arbitrage bond solely by reason of the fact that the proceeds of the issue of which the obligation is a part may be invested for a temporary period in securities or other obligations until the proceeds are needed for the purpose for which the issue was issued.

Section 1.103-13(a)(2)(i) of the regulations provides that the determination whether an obligation is an arbitrage bond depends on the issuer's reasonable expectations, as of the date of issue, regarding the amount and use of the proceeds of the issue. An obligation is not an arbitrage bond if, based on the issuer's reasonable expectations on the date of issue, the proceeds will not be used in a manner that would cause the obligation to be an arbitrage bond under section 103(c)(2) of the Code and sections 1.103-13, 1.103-14, and 1.103-15 of the regulations. Reasonable expectations as to future events may be established to the extent permitted by section 1.103-13(a)(2)(ii).

Section 1.103-13(a)(2)(ii)(A) of the regulations permits an issuer to certify in the bond indenture or related documents its reasonable expectations on the date of issue as to future events. Section 1.103-13(a)(20)(ii)(D) requires that the issuer certify the facts and circumstances on which its expectations are based. In addition, the issuer must certify that its expectations are reasonable. Section 1.103-13(a)(2)(ii)(F) provides that a proper certification is not affected by subsequent events. Consequently, bonds will not be arbitrage bonds solely because of the occurrence of an event after issuance of the bonds that was not reasonably expected at the time of the issue.

Section 1.103-13(a)(2)(iv) of the regulations provides that if a certification contains a material misrepresentation, the Commissioner may disqualify the issuer. An issuer that is disqualified may not certify an issue under section 1.103-13(a)(2)(ii). The disqualification of an issuer will not affect bonds issued prior to the disqualification.

The purpose of the certification provisions in the regulations is to permit the issuer to provide certainty to the purchasers of the bonds regarding the facts that determine whether the bonds are arbitrage bonds. These provisions, however, do not permit an issuer to make a certification of expectations in bad faith. Bad faith is present where the likelihood of completion of the project as contemplated is remote. *Compare* Rev. Rul. 80-91, 1980-1 C.B. 30, Rev. Rul. 80-92, 1980-1 C.B. 31, and Rev. Rul. 80-188, 1980-2 C.B. 47.

The facts of this case indicate that the likelihood of completing the project as contemplated is remote. The facts which so indicate include: (1) the size of the project relative to the population of *CI*, (2) issuance without the credit support necessary to permit use of the proceeds for the construction of residential rental property, (3) the difficulty that is likely to be incurred in obtaining the required credit support, (4) the provision for redemption of the bonds at the end of 3 years if credit support is not secured, (5) earnings on the certificates of deposit sufficient to pay all costs of issuance, (6) costs of construction far in excess of the average cost of other housing in *CI*, and (7) an issue the size of which is grossly disproportionate to both the size of the indebtedness *CI* issued in the several years immediately prior to the issue and

the aggregate amount of industrial development bonds issued in that period.

Because *CI*'s certification was made in bad faith, *CI* cannot rely on the certification.

CI reasonably expected to use all or a major portion of the proceeds to acquire obligations with a materially higher yield than the yield on the bonds. The bonds do not fall within the exception provided in section 103(c)(4)(A) of the Code for temporary investment of the proceeds. Accordingly, the bonds are arbitrage bonds within the meaning of section 103(c)(2). In addition, the Commissioner may disqualify *CI* pursuant to section 1.103-13(a)(20)(iv) of the regulations because of the material misrepresentation in *CI*'s certificate.

Issue 2

Section 103(b)(1) of the Code provides generally that industrial development bonds are not described in section 103(a) and the interest paid with respect to these bonds will not be excludable from gross income. Section 103(b)(4)(A) of the Code and section 1.103-8(a)(1) of the regulations provide that the interest on an industrial development bond to provide projects for residential rental property will be excluded from gross income if substantially all (90 percent or more) of the bond proceeds are to be used to provide the facilities.

The facts of this case noted above also indicate that substantially all of the proceeds of the issue will not be used to provide a project for residential rental property within the meaning of section 103(b)(4)(A) of the Code. Accordingly, *CI*'s bonds will not meet the requirements of section 103(b)(4)(A), and the interest on the industrial development bonds will not be excludable from gross income.

HOLDING

Issue 1. If the facts surrounding an issue indicate (a) that the issuer's certification was made in bad faith and (b) that the issuer's reasonable expectations were that the proceeds would be invested in securities or obligations reasonably expected at the time of issuance to produce a yield over the term of the issue materially higher than the yield on the issue, then the bonds are arbitrage bonds within the meaning of section 103(c) of the Code.

Issue 2. If the stated purpose of an issue of industrial development bonds is to provide a residential rental project within the meaning of section 103(b)(4)(A) of the Code, but the facts surrounding the issuance indicate that substantially all of the proceeds will not be so used, then section 103(b)(4)(A) does not apply to the bonds.

Section 103A.—Mortgage Subsidy Bonds

26 CFR 1.103A-2: Qualified mortgage bond.

T.D. 8049

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, SUBCHAPTER H, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; PART 6a—TEMPORARY REGULATIONS UNDER TITLE 11 OF THE OMNIBUS RECONCILIATION ACT OF 1980; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Information Reporting for Mortgage Subsidy Bonds

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations that relate to the tax exempt status of mortgage subsidy bonds. Changes to the applicable tax law were made by the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1]. These regulations affect all purchasers, beneficiaries, and governmental issuers of tax exempt mortgage subsidy bonds.

DATES: These regulations are effective with respect to mortgage subsidy bonds issued after December 31, 1984 except that the regulations relating to qualified veterans' mortgage bonds are effective for obligations issued after July 18, 1984.

FOR FURTHER INFORMATION CONTACT: Mitchell H. Rapaport of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3740).

SUPPLEMENTARY INFORMATION:

BACKGROUND

On December 12, 1984, the FEDERAL REGISTER published proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 103A(j)(3), (4), and (5) of the Internal Revenue Code of 1954 (49 FR 48323) [LR-240-84, 1985-1 C.B. 658]. The amendments were, in part, proposed to conform the regulations to section 611(b) of the Tax Reform Act of 1984 (Pub. L. 98-369; 98 Stat. 901) [1984-3 C.B. (Vol. 1) 1, 409]. A public hearing was held on April 30, 1985. After consideration of all comments regarding the proposed amendments, those amendments are adopted as revised by this Treasury decision. In addition, the regulations adopted by this Treasury decision supersede the temporary regulations under section 103A(j)(3), (4), and (5). Accordingly, those portions of the Temporary Regulations under Title 11 of the Omnibus Reconciliation Act of 1980 [Pub. L. 96-499, 1980-2 C.B. 509] relating to the changes made by section 611(b) of the Tax Reform Act are removed and replaced with a cross-reference to the rules adopted by this Treasury decision.

EXPLANATION OF PROVISIONS

Section 103(a) provides that gross income does not include interest on the obligations of a State or political subdivision thereof. Section 103A provides that any mortgage subsidy bond shall be treated as an obligation not described in section 103(a). However, qualified mortgage bonds and qualified veterans' mortgage bonds are not treated as mortgage subsidy bonds. Section 611 of the Tax Reform Act added several requirements to the definition of qualified mortgage bond and qualified veterans' mortgage bond.

PUBLIC COMMENTS

Many commentators objected to the extent of the information required to be reported with respect to each beneficiary of the proceeds of an issue (*i.e.*, each recipient of a mortgage loan provided with the proceeds of an issue). In response to these comments, the regulations have been revised to require the reporting of significantly less information. In addition, the regulations adopt the suggestion that information be reported on an aggregate basis, rather than with respect to each recipient of a mortgage loan. It is believed that information collected with respect to each recipient of a mortgage loan may be useful to the government in assessing the mortgage bond and mortgage credit certificate programs. Nevertheless, due to practical considerations, including the requirement of section 611(d)(7) of the Tax Reform Act of 1984, that the Secretary of the Treasury, in consultation with the Secretary of Housing and Urban Development, submit a report concerning these programs to Congress by January 1, 1987, it has been decided to require the reporting of data on an aggregate basis.

As revised, the regulations require information reporting with respect to the number of loans and aggregate principal amount of the loans categorized according to (1) the borrowers' income, (2) the acquisition cost of the residences acquired, (3) whether the borrowers have satisfied the 3-year requirement, and (4) whether the residences are located in targeted areas. With respect to qualified home improvement and rehabilitation loans, the only information required to be reported is the number and aggregate loan amount of such loans and whether the loans are with respect to residences located in targeted areas. Similar information is to be collected with respect to mortgage credit certificates. See §1.25-4T(e). This information is being collected in response to section 611(d)(7) of the Tax Reform Act of 1984 which requires that the Secretary of the Treasury submit a report to Congress by January 1, 1987, regarding the performance of issuers of qualified mortgage bonds and mortgage credit certificates relative to the intent of Congress described in section 103A(j)(5).

Some commentators objected to the extent of information required to be reported with respect to qualified veterans' mortgage bonds on the grounds that such information is not relevant to qualified veterans' mortgage bonds because such bonds are not subject to all of the statutory requirements imposed on qualified mortgage bonds. Although information concerning income, acquisition cost, and the 3-year requirement is not relevant to any statutory requirement imposed on qualified veterans' mortgage bonds, the collection of such information pursuant to section 103A(j)(3)(A) is relevant to an evaluation of the qualified veterans' mortgage bond program. Accordingly, the final regulations require information reporting on qualified veterans' mortgage bonds with respect to the number of loans and the aggregate principal amounts of the loans categorized according to (1) the borrowers' income, (2) the acquisition cost of the residences acquired, and (3) whether the borrowers have satisfied the 3-year requirement.

Several commentators stated that the regulations should be amended to make clear that the information required to be reported is information as of the date such information is required to be submitted and is not affected by later events. Similarly, it was suggested that the State certification requirement of section 103A(j)(4) should not require officials to certify as to matters that could change in the future. These suggestions have been adopted.

Commentators suggested that the information reporting requirement should apply only to mortgages provided with the original proceeds of an issue. This suggestion has been adopted. Thus, for example, reporting would not be necessary with respect to assumptions of mortgage loans.

Many commentators objected to the requirement that information be submitted on magnetic media. Accordingly, the regulations as revised do not require reporting on magnetic media.

A number of commentators stated that the regulations did not define the term "beneficiary" and that the regulations implied that it was necessary to file more than one report where, for example, a husband and a wife jointly obtain a mortgage. In addition, commentators stated that only the income of the borrower, and not the income of all the members of the borrower's family, is the relevant information for purposes of section 103A. Accordingly, the regulations have been revised to require reporting with respect to the "borrowers" of the original proceeds.

In response to public comments, the regulations no longer require data on borrower income to be collected under the definition used for purposes of section 8 of the Housing Act of 1937, as amended. Instead, annualized gross monthly income, as reported by borrowers on standard loan documents, is to be reported. In addition, issuers are not required to check the accuracy of information collected by examining borrowers' tax returns. Similarly, in determining whether a borrower acquiring a residence in a targeted area satisfies the 3-year requirement, the issuer may rely on a statement signed by the borrower.

Commentators indicated that issuers should not be responsible for submitting false information provided to them by mortgagors. This suggestion has been adopted.

A number of commentators stated that the regulations require excessive and redundant information to be included in the policy statement as described in section 103A(j)(5). In response to these comments, the regulations have been revised to make clear that the provisions describing the information to be included in the policy statement are intended merely as examples of the types of information that an issuer may include in its policy statement; thus, there is no requirement that all such information be provided. In addition, in response to comments, the definitions of "low", "moderate", and "median" income for purposes of providing information in the policy statement have been revised.

Several commentators stated that there is no statutory requirement that issuers indicate in the policy statement their "goals" with respect to housing, development, and low-income housing assistance. Accordingly, the regulations as revised do not require issuers to indicate their goals with respect to these matters.

The proposed regulations provided that issuers that did not issue qualified

mortgage bonds in a particular year and did not reasonably expect to issue qualified mortgage bonds in the following year would not be precluded from issuing qualified mortgage bonds in the following year if a policy statement is filed prior to the date of issue. In response to public comments, the final regulations provide that this provision will apply if the issuer did not reasonably expect to issue qualified mortgage bonds during the following year, regardless of whether it issued bonds in the current year.

Commentators stated that the requirement that the notice of hearing summarize the policy statement is unnecessary and adds to the expense of providing such notice. In response to this comment the regulations have been revised to require only that the notice contain a statement that the hearing will involve the issuer's policies with respect to housing, development, and low-income housing assistance which the issuer is to follow in issuing qualified mortgage bonds and mortgage credit certificates.

In response to public comments, the periods covered by the reports relating to the use of proceeds and the periods for assessing compliance with the statements of policy have been modified. In general, as modified, these periods end each year on June 30.

With respect to the State certification requirement, commentators stated that the rule permitting an issuer, after a 30 day waiting period, to self-certify that an issue satisfies the requirements of section 103A(g) requires too long a period of time to elapse before the issuer may execute this certification. In response to this comment, this rule has been modified so as to permit the issuer to execute this certification after 15 days.

In response to public comments, the regulations have been revised to make clear that the State certification must be executed on or before the date of issue.

NON-APPLICABILITY OF EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis therefore is not required.

REGULATORY FLEXIBILITY ANALYSIS

Although a notice of proposed rulemaking that solicited public comment was issued, the Internal Revenue Service concluded when that notice was issued that the regulations are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, the final regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

PAPERWORK REDUCTION ACT

The collection of information requirements contained in these regulations have been submitted to the Office of Management and Budget in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB under control number 1545-0720.

DRAFTING INFORMATION

The principal author of these proposed regulations is Mitchell H. Rapaport of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, on matters of both substance and style.

* * * * *

Amendments to the regulations

For the reasons set out in the preamble, Part 1, Part 6a, and Part 602 of Title 26 of the Code of Federal Regulations are amended as follows:

Paragraph 1. The authority for Part 1 is amended to read in part:

Authority: 26 U.S.C. 7805. * * * Section 1.103A-2(k), (l), and (m) also issued under 26 U.S.C. 103A(j)(3), (4), and (5). * * *

Par. 2. New §1.103A-2 is added immediately following §1.103(n)-7T to read as follows:

§1.103A-2 Qualified mortgage bond.

(a)-(j) (Reserved)

(k) *Information reporting requirement*—(1) *In general.* An issue meets the requirements of this paragraph only if the issuer in good faith attempted to meet the information reporting requirements of this paragraph. Except as otherwise provided in paragraph (k)(5)(iv), the requirements of this paragraph apply to qualified veterans' mortgage bonds issued after July 18, 1984, and to qualified mortgage bonds issued after December 31, 1984.

(2) *Information required.* (i) The issuer must, based on information and reasonable expectations determined as of the date of issue submit on Form 8038 the information required therein; the issuer need not however, include the information required by Form 8038 that is relevant only to obligations described in section 103(a)(1) and the regulations thereunder. The information that must be submitted includes—

(A) The name, address, and employer identification number of the issuer,

(B) The date of issue,

(C) The face amount of each obligation which is part of the issue,

(D) The total purchase price of the issue,

(E) The amount allocated to a reasonably required reserve or replacement fund,

(F) The amount of lendable proceeds,

(G) The stated interest rate of each maturity,

(H) The term of each maturity,

(I) In the case of an issue of qualified mortgage bonds, whether the issuer has elected under section §6a.103A-2(i)(4)(v) to pay arbitrage to the United States,

(J) In the case of an issue of qualified mortgage bonds, the issuer's market limitation as of the date of issue (as defined in §6a.103A-2(g)), the amount of qualified mortgage bonds that the issuer has elected not to issue under section 25(c)(2) and the regulations thereunder, and the aggregate amount of qualified mortgage bonds issued to date by the issuer during the calendar year, and

(K) In the case of an issue of qualified veterans' mortgage bonds, the issuer's State veterans limit (as defined in section 103A(o)(3)(B) and the regulations thereunder) and the aggregate amount of qualified veterans' mortgage bonds issued to date by the issuer during the calendar year and prior to the date by the issuer during the calendar year and prior to the date of issue of

the issue for which the Form 8038 is being submitted.

(ii) With respect to issues issued after December 31, 1984, the issuer must submit a report containing information on the borrowers of the original proceeds of such issues. The report must be filed for each reporting period in which the original proceeds of any of such issues are used to provide mortgages. The issuer is not responsible for false information provided by a borrower if the issuer did not know or have reason to know that the information was false. The report must be filed on the form prescribed by the Internal Revenue Service. If no form is prescribed, or if the form prescribed is not readily available, the issuer may use its own form provided that such form is in the format set forth in paragraph (k)(3) and contains the information required by this paragraph (k)(2)(ii). The report must be titled "Qualified Mortgage Bond Information Report" or "Qualified Veterans' Mortgage Bond Information Report", and must include the name, address, and TIN of the issuer, the reporting period for which the information is provided, and the following tables containing information concerning the borrowers of the original proceeds of the issues subject to the requirements of this paragraph (k)(2)(ii) with respect to mortgages provided during the reporting period for which the report is filed:

(A) A table titled "Number of Mortgage Loans by Income and Acquisition Cost" showing the number of mortgage loans (other than those issued in connection with qualified home improvement and rehabilitation loans) made during the reporting period according to the annualized gross income of the borrowers (categorized in the following intervals of income: $0-$9,999; $10,000-$19,999; $20,000-$29,999; $30,000-39,999; $40,000-$49,999; $50,000-$74,999; and $75,000 or more) and according to the acquisition cost of each residence being financed (categorized in the following intervals of acquisition cost: $0-$19,999; $20,000-$39,999; $40,000-$59,999; $60,000-$79,999; $80,000-$99,999; $100,000-$119,999; $120,000-$149,999; $150,000-$199,999; and $200,000 or more). For each interval of income and acquisition cost the table must also be categorized according to the number of borrowers that—

(1) Did not have a present ownership interest in a principal residence at any time during the 3-year period ending on the date the mortgage is executed (*i.e.*, satisfied the 3-year requirement) and purchased residences in targeted areas,

(2) Satisfied the 3-year requirement and purchased residences not located in targeted areas,

(3) Did have a present ownership interest in a principal residence at any time during the 3-year period ending on the date the mortgage is executed (*i.e.*, did not satisfy the 3-year requirement) and purchased residences in targeted areas, and

(4) Did not satisfy the 3-year requirement and purchased residences not located in targeted areas.

With respect to issues of qualified veterans' mortgage bonds, for each interval of income and acquisition cost the table need only be categorized according to the number of borrowers that satisfied the 3-year requirement and the number of borrowers that failed to satisfy the 3-year requirement.

(B) A table titled "Volume of Mortgage Loans by Income and Acquisition Cost" showing the total principal amount of the mortgage loans (other than qualified home improvement and rehabilitation loans) provided during the reporting period according to annualized gross income (categorized in the same intervals of income as the preceding table) and according to the acquisition cost of the residences acquired (categorized in the same acquisition cost intervals as the preceding table). For each interval of income and acquisition cost the table must also be categorized according to the total principal amount of the mortgage loans of borrowers that—

(1) Satisfied the 3-year requirement and purchased residences in targeted areas,

(2) Satisfied the 3-year requirement and purchased residences not located in targeted areas,

(3) did not satisfy the 3-year requirement and purchased residences in targeted areas, and

(4) Did not satisfy the 3-year requirement and purchased residences not located in targeted areas.

With respect to issues of qualified veterans' mortgage bonds, for each interval of income and acquisition cost the table need only be categorized according to the total principal amount of the mortgage loans of borrowers that satisfied the 3-year requirement and the total principal amount of the mortgage loans of borrowers that did not satisfy the 3-year requirement.

(C) For issues other than qualified veterans' mortgage bonds, a table titled "Mortgage Subsidy Bonds for Qualified Home Improvement and Rehabilitation Loans" showing the number of borrowers obtaining qualified home improvement loans and qualified rehabilitation loans and the total of the principal amounts of such loans; the information contained in the table must also be categorized according to whether the residences with respect to which the loans were provided are located in targeted areas.

(3) *Format.* (i) With respect to the report required by paragraph (k)(2)(ii), if no form is prescribed by the Internal Revenue Service, or if the prescribed form is not readily available, the issuer must submit the report in the format specified in this paragraph (k)(3).

(ii) With respect to issues of qualified mortgage bonds the format of the report specified in paragraph (k)(3) is the following:

QUALIFIED MORTGAGE BOND INFORMATION REPORT

(4) *Definitions and special rules.* (i) For purposes of this paragraph the term "annualized gross income" means the borrower's gross monthly income multiplied by 12. Gross monthly income is the sum of monthly gross pay, any additional income from investments, pensions, Veterans Administration (VA) compensation, part-time employment, bonuses, dividends, interest, current overtime pay, net rental income, etc., and other income (such as alimony and child support, if the borrower has chosen to disclose such income). Information with respect to gross monthly income may be obtained from available loan documents, *e.g.*, the sum of lines 23D and 23E on the Application for VA or FmHA Home Loan Guaranty or for HUD/FHA Insured Mortgage (VA Form 26–1802a, HUD 92900, Jan. 1982), or the total line from the Gross Monthly Income section of FHLMC Residential Loan Application form (FHLMC 65 Rev. 8/78). With respect to obligations issued prior to October 1, 1985, issuers may submit data based on annualized gross income or, instead, based on the adjusted income (as defined in §1.167(k)-3(b)(3)) of the mortgagor's family for the previous calendar year. If data is submitted based on adjusted income, the issuer must note this fact in the report.

(ii) For purposes of this paragraph, the term "reporting period" means the following periods:

(A) The period beginning January 1, 1985, and ending on September 30, 1985,

(B) The period beginning on October 1, 1985, and ending on June 30, 1986, and

(C) After June 30, 1986, each 1-year period beginning July 1 and ending June 30.

(iii) See the regulations under section 103(1) for the definitions of the terms "date of issue", "maturity", and "term of issue".

(iv) For purposes of this paragraph, verification of information concerning a borrower's gross monthly income with other available information concerning the borrower's income (*e.g.*, Federal income tax returns) is not required. In determining whether a borrower acquiring a residence in a targeted area satisfies the 3-year requirement, the is-

suer may rely on a statement signed by the borrower.

(5) *Time for filing.* (i) The report required by paragraph (k)(2)(i) shall be filed not later than the 15th day of the second calendar month after the close of the calendar quarter in which the obligation is issued. The statement may be filed at any time before such date but must be complete based on facts and reasonable expectations as of the date of issue. The statement need not be amended to report information learned subsequent to the date of issue or to reflect changed circumstances with respect to the issuer.

(ii) The report required by paragraph (k)(2)(ii) (relating to use of proceeds) shall be filed not later than the 15th day of the second calendar month after the close of the reporting period, except that the report for the reporting period ending September 30, 1985, is due not later than February 15, 1986. The report may be filed at any time before such date but must be complete based on facts and reasonable expectations as of the date the report is filed. The report need not be amended to reflect information learned subsequent to the date the report is filed or to reflect changed circumstances with respect to any borrower.

(iii) The Commissioner may grant an extension of time for the filing of a report required by paragraph (k)(2)(i) or (ii) if there is reasonable cause for the failure to file such report in a timely fashion.

(iv) An issue of qualified veterans' mortgage bonds issued after July 18, 1984, and prior to January 1, 1985, will be treated as satisfying the information reporting requirement of this paragraph if a Form 8038 with respect to the issue is properly filed not later than February 15, 1985; the report described in paragraph (k)(2)(ii) need not be filed with respect to such issues.

(6) *Place for filing.* The reports required by paragraph (k)(2)(i) and (ii) are to be filed at the Internal Revenue Service Center, Philadelphia, Pennsylvania 19255.

(l) *Policy statement*—(1) *In general.* (i) For obligations issued after December 31, 1984, an issue meets the requirements of this paragraph only if the applicable elected representative of the governmental unit which is the issuer (or on behalf of which the issuing authority is empowered to issue qualified mortgage bonds) has published (after a public hearing following reasonable public notice) the report described in paragraph (l)(3) by the last day of the year preceding the year in which such issue is issued and a copy of such report has been submitted to the Commissioner on or before such last day. The Commissioner may grant an extension of time for publishing and filing the report if there is reasonable cause for the failure to publish or file such report in at timely fashion. The requirements of this paragraph will be treated as met if the issuer in good faith attempted to meet the policy statement requirements of this paragraph.

(ii) With respect to reports required by paragraph (l)(1)(i) to be published and submitted to the Commissioner not later than December 31, 1984, the Commissioner has determined that there is reasonable cause for the failure to publish or file such reports in a timely fashion; such a report will be considered published and filed in a timely fashion if, not later than March 11, 1985, the report is published (after a public hearing following reasonable public notice) and a copy is submitted to the Commissioner. In addition, any report submitted not later than December 31, 1984, with respect to which an issuer in good faith attempted to satisfy the requirements of section 103A(j)(5) shall be treated as substantially satisfying the requirements of this paragraph. For example, with respect to a report submitted not later than December 31, 1984, an issuer shall not be treated as failing to satisfy the requirements of section 103A(j)(5) based on the fact that (A) the notice of public hearing failed to state the manner in which affected residents may obtain copies of the proposed report prior to the hearing, or (B) the proposed report was not available prior to or at the public hearing.

(2) *Definitions and special rules.* (i) In the case of an issuer that issues qualified mortgage bonds on behalf of one or more governmental units, a single report may be filed provided that such report is signed (A) by the applicable elected representative of each governmental unit on whose behalf obligations have been issued during any preceding calendar year or (B) by the Governor of the State in which the issuer is located.

(ii) See section 103(k)(2)(E) and the regulations thereunder for the definition of the term "applicable elected representative".

(iii) In the case of qualified mortgage bonds issued by, or on behalf of, a governmental unit that did not reasonably expect during the preceding calendar year to issue (or have issued on its behalf by any other issuer) qualified mortgage bonds during the current calendar year, the requirements of this paragraph will be treated as met if the applicable governmental unit which is the issuer (or on behalf of which the issuing authority is empowered to issue qualified mortgage bonds) has published (after a public hearing following reasonable public notice) the report described in paragraph (l)(3) prior to the issuance of any qualified mortgage bonds and a copy of such report has been submitted to the Commissioner prior to such issuance.

(iv) For purposes of this paragraph a report will be considered to be "published" when the applicable elected representative of the governmental unit has made copies of the report available for distribution to the public. Reasonable public notice of the manner in which copies of the report may be obtained must be provided; such notice may be included as part of the public notice required by paragraph (l)(4).

(3) *Report.* (i) A report is described in this paragraph (l)(3) if it contains the issuer's name, TIN, and the title "Policy Report Under Section 103A" stated on the cover page of the report and if it includes—

(A) A statement of the policies of the issuer with respect to housing, development, and low-income housing assistance which such issuer is to follow in issuing qualified mortgage bonds and mortgage credit certificates, and

(B) An assessment of the compliance of such issuer during the 1-year period preceding the date of the report with—

(1) The statement of policy on qualified mortgage bonds and mortgage credit certificates that was set forth in the previous report, if any, of the issuer, and

(2) The intent of Congress that State and local governments are expected to

use their authority to issue qualified mortgage bonds and mortgage credit certificates to the greatest extent feasible (taking into account prevailing interest rates and conditions in the housing market) to assist lower income families to afford home ownership before assisting higher income families.

(ii) For example, a report described in this paragraph (1)(3) may (but is not required to) contain—

(A) A specific statement of the policies with respect to housing, development, and low-income housing assistance which the issuer is to follow in issuing qualified mortgage bonds and mortgage credit certificates, including, for example, a statement as to—

(1) With respect to housing policies, *(i)* whether the proceeds will be used to provide financing for the acquisition of residences, to provide qualified home improvement loans, or to provide qualified rehabilitation loans; *(ii)* whether all or a portion fo the proceeds will be targeted to new, existing, or any other particular class or type of housing; *(iii)* how the existence of a need or absence of a need for such targeting has been determined; *(iv)* the method by which the proceeds will be targeted; *(v)* any other pertinent information relating to the issuer's housing policies; and *(vi)* how the housing policies relate to the issuer's development and low-income housing assistance policies;

(2) With respect to development policies, *(i)* whether all or a portion of the proceeds will be targeted to specific areas (including targeted areas as described in §6a.103A-2(b)(3)); *(ii)* a description of the areas to which the proceeds will be targeted; *(iii)* the reasons for selecting such areas; *(iv)* whether proceeds targeted to each area are to be used to finance redevelopment of existing housing or new construction; *(v)* any other pertinent information relating to the issuer's development policies; and *(vi)* how the development policies relate to the issuer's low-income housing assistance policies; and

(3) With respect to low-income housing assistance policies, *(i)* whether all or a portion of the proceeds will be targeted to low-income (*i.e.*, 80 percent of median income), moderate-income (*i.e.*, 100 percent of median income), or any other class of borrowers; *(ii)* the method by which the proceeds will be targeted to such borrowers; and *(iii)* any other pertinent information relating to the issuer's low-income housing assistance policies;

(B) An assessment of the compliance of the governmental unit or issuing authority during the twelve-month period ending with the date of the report with the statement of housing, development, and low-income housing assistance policies with respect to qualified mortgage bonds and mortgage credit certificates that were set forth in the report, if any, published in the preceding year with respect to such governmental unit, including, for example, a statement as to whether the governmental unit or issuing authority successfully implemented its policies and, if not, an analysis of the reasons for such failure; and

(C) An assessment of the compliance of the governmental unit or issuing authority during the twelve-month period ending with the date of the report with the intent of Congress that State and local governments are expected to use their authority to issue qualified mortgage bonds and mortgage credit certificates to the greatest extent feasible (taking into account prevailing interest rates and conditions in the housing market) to assist lower income families to afford home ownership before assisting higher income families, including, for example, a description of *(1)* the method used by the governmental unit or issuing authority to distribute proceeds, *(2)* whether and how that method enabled the governmental unit or issuing authority to assist lower income families before higher income families, and (3) any income levels that have been defined and used by the governmental unit or issuing authority in connection with distribution of the proceeds (no specific definition of lower income and higher income is imposed on governmental units or issuing authorities).

(iii) For purposes of the assessments of compliance required by paragraph (1)(3)(i)(B) to be included in the report, the "date of the report" means June 30. For purposes of the report required to be filed prior to January 1, 1986, an issuer need not perform these assessments of compliance with respect to any period prior to January 1, 1985.

(iv) An issuer that fails to establish policies with respect to the criteria provided in paragraph (1)(3)(i) will not be treated as failing to satisfy the requirements of this paragraph. Thus, for example, an issuer may state in its report that none of the proceeds of the issues will be targeted to specific areas. Similarly, an issuer that fails to successfully implement its policies will not be treated as failing to satisfy the requirements of this paragraph.

(4) *Public hearing.* The public hearing required by paragraph (1)(1) means a forum providing a resonable opportunity for interested individuals to expres their views, both orally and in writing, on the report that the applicable representative proposes to publish to satisfy the requirements of this paragraph (1). A public hearing held prior to January 1, 1985, will not fail to satisfy the requirements of this paragraph (1)(4) merely because the proposed policy statement was not available prior to the public hearing. In general, a governmental unit may select its own procedure for the hearing, provided that interested individuals have a reasonable opportunity to express their views. Thus, it may impose reasonable requirements on persons who wish to participate in the hearing, such as a requirement that persons desiring to speak at the hearing so request in writing at least 24 hours before the hearing or that they limit their oral remarks to 10 minutes. For purposes of this public hearing requirement, it is not necessary that the applicable elected representative who will publish the report be present at the hearing, that a report on the hearing be submitted to that official, or that State administrative procedural requirements for public hearings in general be observed. However, compliance with such State procedural requirements (except those at variance with a specific requirement set forth in this paragraph) will generally assure that the hearing satisfies the requirements of this paragraph. The hearing may be conducted by any individual appointed or employed to perform such function by the governmental unit, its agencies, or by the issuer. Thus, for example, for a report to be issued by an issuing authority that acts on behalf of a county, the hearing may be conducted by the issuing authority, the county, or an appointee or employee of either.

(5) *Reasonable public notice.* (i) The

reasonable public notice required by paragraph (1)(1) means published notice which is reasonably designed to inform residents of the geographical area within the jurisdiction of the governmental unit that will publish the report. The notice must state the time and place for the hearing and contain the information required by paragraph (1)(5)(ii). Notice is presumed reasonable if published no fewer than 14 days before the hearing. Notice is presumed reasonably designed to inform affected residents only if published in one or more newspapers of general circulation available to residents of that locality or if announced by radio or television broadcast to those residents.

(ii) The notice of hearing described in this paragraph (1)(5) must state—

(A) The time and place for the hearing,

(B) Any applicable limitations regarding participation in the hearing,

(C) With respect to any notice of hearing published after December 31, 1984, the manner in which affected residents may obtain copies of the proposed report prior to the hearing, and

(D) With respect to any notice of hearing published after December 31, 1984, that the hearing will involve the issuer's policies with respect to housing, development, and low-income housing assistance which the issuer is to follow in issuing qualified mortgage bonds and mortgage credit certificates.

(6) *Procedure for public hearings of multiple jurisdiction issuers.* In the case of an issuer that issues qualified mortgage bonds on behalf of two or more governmental units ("'multiple jurisdiction issuer"), each governmental unit on whose behalf the issuer reasonably expects to issue qualified mortgage bonds during the succeeding calendar year must hold a public hearing following reasonable public notice prior to the publication of the report required by this paragraph. A multiple jurisdiction issuer may hold a combined hearing as long as the combined hearing is a joint undertaking that provides all residents of the participating governmental units (*i.e.*, each governmental unit on whose behalf qualified mortgage bonds were issued by the authority and each governmental unit on whose behalf the authority reasonably expects to issue qualified mortgage bonds during the succeeding calendar year) a reasonable opportunity to be heard. The location of any combined hearing is presumed to provide a reasonable opportunity for all affected residents to be heard if it is no farther than 100 miles from the seat of government of each participating governmental unit beyond whose geographic jurisdiction the hearing is conducted.

(7) *Place for filing.* The report is to be filed with the Internal Revenue Service Center, Philadelphia, Pennsylvania 19255.

(m) *State certification requirements*—(1) *In general.* An issue meets the requirements of this paragraph only if the issuer in good faith attempted to meet the State certification requirements of this paragraph. The requirements of this paragraph apply to obligations issued after December 31, 1984.

(2) *Certification.* (i) An issue satisfies the requirements of section 103A(j)(4) and this paragraph (m)(2) only if the State official designated by law (or, if there is no State official, the Governor) certifies on or before the later of the date of issue or October 3, 1985, following a request for such certification by the issuer, that, as of the date the certification is executed, the issue meets the requirements of section 103A(g) and the regulations thereunder (relating to volume limitation). In the case of any constitutional home rule city, the certification shall be made by the chief executive officer of the city. To the extent consistent with State and local law, the Governor (or the chief executive officer of any constitutional home rule city) may delegate the responsibility to execute the certification required by this paragraph.

(ii) The certifying official need not perform an independent investigation in order to determine whether the issue meets the requirements of section 103A(g). In determining the aggregate amount of qualified mortgage bonds previously issued by an issuer during a calendar year, the certifying official may rely on copies of the reports submitted, to date, by the issuer pursuant to section 103A(j)(3) for other issues of qualified mortgage bonds issued during that year and copies of any elections previously made pursuant to section 25(c)(2) not to use qualified mortgage bonds, together with an affidavit executed by an officer of the issuer responsible for issuing the bonds stating that the issuer has not, to date during the calendar year, issued any other qualified mortgage bonds, the amount, if any, of the issuer's market limitation that it has, to date during the calendar year, surrendered to other issuing authorities, and that it has not, to date during the calendar year, made any other elections not to issue qualified mortgage bonds. If, based on such information, the certifying official determines that, as of the date the certification is executed, the issue will not exceed the issuer's market limitation for the year, the official may certify that the issue meets the requirements of section 103A(g).

(3) *Special rule.* If 15 days elapse after the issuer files a proper request for the certification described in paragraph (m)(2) and the issuer has not received from the State official designated by law (or, if there is no State official, the Governor) certification that the issue meets the requirements of section 103A(g) and §6a.103A-2(g) or, in the alternative, a statement that the issue does not meet such requirements, the issuer may, instead, submit an affidavit executed by an officer of the issuer responsible for issuing the bonds stating that—

(i) The issue meets the requirements of section 103(A)(g) and §6a.103A-2(g)

(ii) At least 15 days before the execution of the affidavit the issuer filed a proper request for the certification described in paragraph (m)(2), and

(iii) The State official designated by law (or, if there is no State official, the Governor) has not provided the certification described in paragraph (m)(2).

In the case of obligations issued prior to October 4, 1985 the preceding sentence shall be applied by substituting "30 days" for "15 days". For purposes of this paragraph, a request for certification is proper if the request includes the reports and affidavits described in paragraph (m)(2)(ii).

(4) *Filing.* The certification (or affidavit) required by this paragraph shall be filed with the Internal Revenue Service Center, Philadelphia, PA 19255. The certification (or affidavit) shall be submitted with the Form 8038 required to be filed by section 103A(j)

(3) and paragraph (k) of this §1.103A-2. The Commissioner may grant an extension of time for filing the certification (or affidavit) if there is a reasonable cause for the failure to file such statement in a timely fashion.

(5) *Effect of certification.* The fact that an issuer obtains the certification (or affidavit) described in this paragraph does not ensure that the requirements of paragraph (g) of this section are met. Obligations that do not meet the requirements of paragraph (g) are not described in section 103(a).

PART 6a
TEMPORARY REGULATIONS
UNDER TITLE II
OF THE OMNIBUS
RECONCILIATION ACT OF 1980

Par. 3. The authority for part 6a continues to read in part:

Authority: 26 U.S.C. 7805. * * * Section 6a.103A-2(k), (l), and (m) also issued under 26 U.S.C. 103A(j)(3), (4), and (5). * * *

Par. 4. Section 6a.103A-2 is amended by revising paragraphs (k), (l), and (m). These revised provisions read as follows:

§6a.103A-2 Qualified mortgage bond.

* * * * *

(k) *Information reporting requirement.* See §1.103A-2 (k) for rules relating to section 103A(j)(3).

(l) *Policy statement.* See §1.103A-2(l) for rules relating to section 103A(j)(5).

(m) *State certification.* See §1.103A-2(m) for rules relating to section 103A(j)(4).

PART 602
OMB CONTROL NUMBERS UNDER
THE
PAPERWORK REDUCTION ACT

Par. 4. Section 602.101(c) is amended by inserting in the appropriate places in the table "§1.103A-2 . . . . 1545-0720".

JAMES I. OWENS,
Acting Commissioner
of Internal Revenue.

Approved August 19, 1985.

RONALD A. PEARLMAN,
Assistant Secretary
of the Treasury.

(Filed by the Office of the Federal Register on August 29, 1985, 10:54 a.m., and published in the issue of the Federal Register for September 3, 1985, 50 F.R. 35540)

Section 104.—Compensation for Injuries or Sickness

26 CFR 1.104-1: Compensation for injuries or sickness.

Damages; personal injury settlement; lost wages. The entire amount received by an individual in settlement of a suit for personal injuries sustained in an accident, including the portion of the amount allocable to the claim for lost wages, is excludable from the individual's gross income. Rev. Rul. 61-1 amplified.

Rev. Rul. 85-97

ISSUE

Are amounts received by a taxpayer, under the circumstances described below, excludable from gross income as damages received on account of personal injuries?

FACTS

The taxpayer was seriously injured when struck by a bus. To recover for the injuries suffered as a result of the negligent operation of the bus, the taxpayer sued the bus company. The complaint alleged that, as a direct and proximate result of being struck by the bus, the taxpayer had sustained serious and permanent injuries, had been unable to pursue normal employment activities and had lost wages, had suffered and would continue to suffer great pain of body and mind, had sustained permanent disability, deformity, and loss of earning capacity, and had incurred and would incur in the future hospital, doctors' and related bills in an effort to be cured of these injuries. The complaint asked for compensatory damages of 5*x* dollars. No punitive damages were quested. Prior to trial, the taxpayer the bus company agreed to a settlen under the terms of which the taxpa received a lump-sum payment of dollars in exchange for a full releas all the taxpayer's claims against the company. The taxpayer had not ducted any medical expenses in a p year.

LAW AND ANALYSIS

Section 61 of the Internal Reve Code provides, in part, that, except otherwise provided in subtitle A, gr income means all income from wh ever source derived.

Section 104(a)(2) of the Code e cludes from gross income the amou of any damages received (whether suit or agreement and whether as lu sums or as periodic payments) on a count of personal injuries or sickness

Section 1.104-1(c) of the Incon Tax Regulations provides, in part, th the term "damages received (wheth by suit or agreement)" means amount received (other than workmen compensation) through prosecution of legal suit or action based upon tort tort type rights, or through a settleme agreement entered into in lieu of su prosecution.

Rev. Rul. 61-1, 1961-1 C.B. 1 holds that the entire amount receiv by a railroad employee in settlement any and all claims that the employe had against the railroad for personal i juries is excludable from gross incor under section 104(a)(2) of the Cod even though the employee elected apportion part of the settlement amou to "time lost" in order to receive ra road retirement credit for the time t employee was unable to work. The re enue ruling states that the fact that t "time lost payments" constituted co pensation for purposes of the tax imposed by the Railroad Retireme Tax Act does not preclude the applic tion of the exclusion from gross incom under section 104(a)(2). Thus, the ru ing indicates that the exclusion pr vided by section 104(a)(2) extends personal injury damages allocable lost wages. *Also cf., Norfolk & Wes ern Ry. Co. v. Liepelt*, 444 U.S. 4 (1980) (defendant is entitled to an i struction to jury that damages for lo

future wages are not subject to federal income taxation).

In the instant case, the entire 3*x* dollars settlement amount, including the amount allocable to the claim for lost wages, represents compensation for personal injuries sustained by the taxpayer when the taxpayer was struck by the bus. Therefore, the exclusion provided by section 104(a)(2) of the Code extends to the entire settlement amount.

HOLDING

The entire 3*x* dollars settlement amount is excludable from the taxpayer's gross income under section 104(a)(2) of the Code and the regulations thereunder.

EFFECT ON OTHER REVENUE RULING

Rev. Rul. 61-1, 1961-1 C.B. 14, is amplified.

---

26 CFR 1.104-1: Compensation for injuries or sickness.
(Also Sections 61, 212; 1.61-14, 1.212-1.)

Damages; libel suit settlement; compensatory and punitive. The amount received by an individual in settlement of a libel suit for injury to personal reputation is includible in the individual's gross income to the extent such amount represents the satisfaction of punitive damages. The expenses incurred by the individual that are attributable to the punitive damages are deductible by the individual. Rev. Rul. 58-418 superseded.

Rev. Rul. 85-98

ISSUES

(1) What portion of a settlement, which includes both compensatory and punitive damages, for injury to personal reputation is excludable from the recipient's gross income under the circumstances described below?

(2) Are the expenses attributable to the amounts received in settlement of the suit deductible for federal income tax purposes?

FACTS

The taxpayer was the subject of a newspaper article that contained false and defamatory statements that resulted in injury to the personal reputation of the taxpayer as an individual only and did not affect the taxpayer's business or professional reputation. Upon learning of the article, the taxpayer filed in the state court a suit for libel against the reporter who wrote the article and the corporation that published the newspaper. The complaint alleged that at all times prior to the publication of the article, the taxpayer had enjoyed a good reputation for honesty, integrity, and personal character; that as the result of the article's publication the taxpayer had suffered damage to personal reputation, social standing, and family relationships; that the article had caused the taxpayer embarrassment, shame, anxiety, and worry; and that the article had been written and published with actual intent to harm the taxpayer's personal reputation. The complaint asked for compensatory damages of 15*x* dollars and punitive damages of 45*x* dollars. The amount of compensatory damages requested relative to the amount of punitive damages requested, 1 to 3, bore a reasonable relationship to what a jury might be expected to award under the facts and circumstances of the case. Shortly before trial, the taxpayer and the defendant agreed to a settlement of the libel suit. The taxpayer received a lump-sum payment of 24*x* dollars in full settlement of all the taxpayer's claims.

In processing the case through the courts, prior to settlement, the taxpayer incurred and paid various legal expenses totaling 8*x* dollars. Under the facts and circumstances, it is reasonable to attribute these expenses on a pro-rata basis between the compensatory and punitive damages recovered. That is, the expenses allocable to the recovery of punitive damages bear the same proportion to the total expenses as the punitive damages recovered bear to the total damages received.

LAW AND ANALYSIS

Section 61 of the Internal Revenue Code provides, in part, that except as otherwise provided in subtitle A, gross income means all income from whatever source derived.

Section 1.61-14(a) of the Income Tax Regulations states, in part, that punitive damages such as treble damages under the antitrust laws and exemplary damages for fraud are gross income.

Section 104(a)(2) of the Code excludes from gross income the amount of any damages received (whether by suit or agreement and whether as lump sums or as periodic payments) on account of personal injuries or sickness.

Section 1.104-1(c) of the regulations provides that the term "damages received (whether by suit or agreement)" means an amount received (other than workmen's compensation) through prosecution of a legal suit or action based upon tort or tort type rights, or through a settlement agreement entered into in lieu of such prosecution. The regulation makes no distinction between physical or emotional injuries. See *Seay v. Commissioner*, 58 T.C. 32, 40 (1972), *acq.*, 1972-2 C.B. 3. Punitive damages, however, are not excludable from gross income. See Rev. Rul. 84-108, 1984-2 C.B. 32.

In Rev. Rul. 58-418, 1958-2 C.B. 18, a taxpayer received an amount in settlement of a libel suit in which the taxpayer had asked for both compensatory and punitive damages. Because of the lack of adjudication, the amount was not distinguished as to the portions allocable to satisfaction of the taxpayer's claim for compensatory damages as distinguished from the taxpayer's claim for punitive damages. The revenue ruling concludes that, inasmuch as the tax consequences attributable to each claim differ, allocation is necessary and proper and that the best evidence available under the facts and circumstances of the case to determine a proper allocation is the taxpayer's complaint.

In Rev. Rul. 75-230, 1975-1 C.B. 93, a taxpayer received an amount in settlement of a personal injury suit. In determining what part of the settlement amount was allocable to medical expenses incurred and deducted under section 213 of the Code in a prior year, the revenue ruling states that Rev. Rul. 58-418 provides a method of allocation, with respect to settlement of a libel suit, that is based on the best evidence available under the circumstances, which, in Rev. Rul. 58-418, was the relative percentages of the amounts alleged in the complaint. Rev. Rul. 75-230 distinguishes Rev. Rul. 58-418 based on a conclusion that the best evidence available on which to base an allocation under the facts and

circumstances of Rev. Rul. 75-230 is the amount of previously paid medical expenses, which is a sum certain, in contrast with the generally speculative nature of the pain and suffering damages alleged in a personal injury suit.

In this case, the best evidence available to determine a proper allocation is the taxpayer's complaint, since the amount of punitive damages relative to compensatory damages requested bore a reasonable relationship to what a jury might be expected to award. The taxpayer received a lump-sum settlement amount of 24*x* dollars. The taxpayer's complaint, however, asked for compensatory damages of 15*x* dollars and punitive damages of 45*x* dollars. Thus, the amount of compensatory damages asked equaled 25 percent and the amount of punitive damages asked equaled 75 percent of the total 60*x* dollars damages asked.

Section 212 of the Code allows a deduction, in the case of an individual, for all the ordinary and necessary expenses paid or incurred during the taxable year for the production of income.

HOLDINGS

(1) Inasmuch as the taxpayer's complaint is the best evidence available to determine a proper allocation under the facts and circumstances of the instant case, 25 percent of the 24*x* dollars settlement amount, 6*x* dollars, is considered to be in satisfaction of compensatory damages and is excludable from the taxpayer's gross income under section 104(a)(2) of the Code and the regulations thereunder. The remaining 75 percent, 18*x* dollars, is considered to be in satisfaction of punitive damages and is includable in the taxpayer's gross income under section 61 and the regulations thereunder.

(2) The expenses incurred and paid to procure the portion of the settlement that is includible in gross income are deductible under section 212 of the Code as ordinary and necessary expenses paid or incurred by an individual for the production or collection of income. Because the expenses are to be allocated between the compensatory and punitive damages on a pro-rata basis, 75 percent of the total 8*x* dollars expense of procuring the settlement, 6*x* dollars, is deductible under section 212 of the Code.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 58-418 is superseded.

---

26 CFR 1.104-1: Compensation for injuries or sickness.

Disability benefits; police officers and fire fighters; District of Columbia. The extent to which payments received by disabled police officers and fire fighters under sections 4-615 and 4-616 of the District of Columbia Code are excludable from gross income under section 104(a)(1) of the Code is set forth. Rev. Rul. 79-147 superseded.

Rev. Rul. 85-104

ISSUE

Are payments received by disabled police officers and fire fighters under sections 4-615 and 4-616 of the District of Columbia Code excludable from gross income under section 104(a)(1) of the Internal Revenue Code?

FACTS

The District of Columbia Code (D.C. Code), sections 4-615 and 4-616 (1981), provide disability retirement benefits to certain police officers and fire fighters. Persons eligible to receive disability retirement benefits under sections 4-615 and 4-616 are officers and members of the Metropolitan Police force, the Fire Department of the District of Columbia, the United States Park Police force, the Executive Protective Service, and certain officers or members of the United States Secret Service Division. Pursuant to section 4-612, these employees contribute a percentage of their salary to a retirement fund (which also contains employer contributions), from which the disability retirement benefits are paid.

Section 4-615 of the D.C. Code provides an annuity to police officers and fire fighters who are disabled due to an injury or disease incurred other than in the performance of duty.

Section 4-616(a) of the D.C. Code provides an annuity to police officers and fire fighters who are injured or contract a disease in the performance of duty or who receive an aggravation of such injury or disease in the performance of duty, and such injury, disease, or aggravation permanently disables the police officer or fire fighter for the p formance of duty. The annuity is eq to the greater of (a) 66 2/3 percent the individual's average pay, or (b) 1/2 percent of the individual's avera pay multiplied by the number of full partial years of service. However, t annuity shall not exceed 70 percent the individual's average pay.

Section 4-616(e) of the D.C. Co provides an annuity to officers a members of the Metropolitan Poli force and the Fire Department of t District of Columbia who first becan officers and members after the 90-d period beginning on the date of the e actment of the District of Columbia R tirement Reform Act and who are i jured or contract a disease in t performance of duty or who receive aggravation of such injury or disease the performance of duty and such i jury, disease, or aggravation perm nently disables the police officer or fi fighter from the performance of dut The annuity is the greater of (a) 40 pe cent of the individual's basic salary the time of his or her retirement, (b) 70 percent of the individual's bas salary at the time of his or her retir ment multiplied by the percentage disability incurred. Under sectio 4-616(e)(2)(B), the percentage of dis bility is determined with reference t the following factors: (i) the nature the injury or disease; (ii) the percentag of impairment as determined by th Board of Police and Fire Surgeons (iii) the position held by the membe immediately prior to retirement; (iv) the age and years of service of th member; (v) and any other factors circumstances which may affect the ca pacity of the member to earn wages engage in gainful activity in a disable condition.

Section 4-616(b) of the D.C. Cod provides an annuity to officers an members of the United State Park Po lice force, the Executive Protectio Service, and the United States Secre Service Division who incur an on-the job aggravation of an injury or disease not incurred in the performance of dut or for which the proximate cause i doubtful, rendering the individual per manently disabled for the performanc of duty. The annuity is equal to th greater of (a) 66 2/3 percent of the in dividual's average pay or (b) 2 1/2 per

cent of the individual's average pay multiplied by the number of full or partial years of service. However, the annuity shall not exceed 70 percent of the individual's average pay.

LAW AND ANALYSIS

Section 104(a)(1) of the Code provides, with certain exceptions not pertinent here, that gross income does not include amounts received under workmen's compensation acts as compensation for personal injuries or sickness.

Section 1.104-1(b) of the Income Tax Regulations states that section 104(a)(1) of the Code excludes from gross income amounts that are received by an employee under a workmen's compensation act or under a statute in the nature of a workmen's compensation act that provides compensation to employees for personal injuries or sickness incurred in the course of employment. However, section 104(a)(1) does not apply to a retirement pension or annuity to the extent that it is determined by reference to the employee's age, length of service, or prior contributions, even though the employee's retirement is occasioned by an occupational injury or sickness. Section 104(a)(1) also does not apply to amounts that are received as compensation for a nonoccupational injury or sickness or to amounts received as compensation for an occupational injury or sickness to the extent that they are in excess of the amount provided in the applicable workmen's compensation act or acts.

If disability benefits are received under a workmen's compensation act, or under a statute in the nature of a workmen's compensation act, they qualify for the section 104(a)(1) exclusion. A statute is in the nature of a workmen's compensation act if it provides compensation to employees only for personal injuries or sickness incurred in the course of employment. Thus, if disability retirement benefits are paid pursuant to such a statute, those benefits will qualify for the section 104(a)(1) exclusion. *See* Rev. Rul. 80-14, 1980-1 C.B. 33. If benefits are computed by a formula that does not refer to the employee's age, length of service, or prior contributions and are provided to a class that is restricted to employees with service-incurred injuries, then the benefits are payments for those injuries, and the statute under which the benefits are paid qualifies as a statute in the nature of a workmen's compensation act. *See* Rev. Rul. 80-84, 1980-1 C.B. 35.

The fact that the amount received is equal to the employee's salary at the date of the disability or is based on a percentage of that salary does not disqualify the payment from qualifying as one in the nature of workmen's compensation. *See* Rev. Rul. 68-10, 1968-1 C.B. 50. Nor does the fact that employees contribute a percentage of their salary to a retirement fund, pursuant to section 4-612, disqualify the payments since the amount of the disability pensions does not depend on the amount so contributed.

The benefits provided by section 4-615 of the D.C. Code are amounts received as compensation for a nonoccupational injury or sickness. Accordingly, that section of the D.C. Code is not a statute in the nature of a workmen's compensation act within the meaning of section 1.104-1(b) of the regulations. *See* Rev. Rul. 79-147, 1979-1 C.B. 80, which holds that section 4-526 (the predecessor of section 4-615) of the D.C. Code is not a statute in the nature of a workmen's compensation act within the meaning of section 1.104-1(b) of the regulations.

The benefits provided by sections 4-616(a), 4-616(b), and 4-616(e) of the D.C. Code are authorized by a statute that restricts benefits to a class of employees with service-incurred injuries or diseases resulting in permanent disabilities. The benefits provided by section 4-616(b), for a service-related aggravation of an existing injury or illness are received under a statute in the nature of a workmen's compensation act since the increment or increase in the injury or illness caused by the job-incurred aggravation is in itself in the nature of an injury or illness.

However, the benefits provided under sections 4-616(a) and 4-616(b) of the D.C. Code are partially computed by reference to the employee's length of service. To the extent that an annuity provided under sections 4-616(a) and 4-616(b) exceeds 66 2/3 percent of the employee's salary, it is attributable to the employee's length of service. Therefore, although sections 4-616(a) and 4-616(b) are statutes in the nature of a workmen's compensation act, annuities provided to employees under sections 4-616(a) and 4-616(b) are excluded from gross income under section 104(a)(1) of the Code only to the extent they do not exceed 66 2/3 percent of the employee's average pay. The benefits provided under section 4-616(e) are computed under a formula that refers to the employee's basic salary and percentage of disability. While age and years of service are mentioned in this formula, they are only considered as factors in determining the percentage of disability, not in directly calculating the annuity. Accordingly, section 4-616(e) is a statute in the nature of workmen's compensation act within the meaning of section 1.104-1(b) of the regulations.

HOLDING

Payments received by disabled police officers and fire fighters under section 4-615 of the D.C. Code are not excludable under section 104(a)(1) of the Code. The total annuity received by an employee pursuant to section 4-616(e) is excludable from gross income under section 104(a)(1). An annuity provided to an employee under section 4-616(a) or 4-616(b) is excludable under section 104(a)(1) only to the extent it does not exceed 66 2/3 percent of the employee's average pay.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 79-147 is superseded.

---

26 CFR 1.104-1: Compensation for injuries or sickness.
(Also Section 61; 1.61-2.)

Disability benefits; fire fighter; presumption of service connection. A pension received by a disabled fire fighter under a state statute that creates a rebuttable presumption the disability was service connected is excludable from gross income to the extent the pension is not attributable to length of service.

Rev. Rul. 85-105

ISSUE

Are payments made to a retired firefighter excludable from gross income under section 104(a)(1) of the In-

ternal Revenue Code under the circumstances described below?

FACTS

A, a municipal fire fighter, developed dizziness and chest pains while fighting a fire on August 1, 1984. Shortly after, *A*'s doctor stated that *A* was suffering from heat stroke and exhaustion. On December 1, 1984, *A* suffered a heart attack while at home. *A* had no history of prior heart disease. After examination by the proper medical authorities, *A* retired with 26 years of service and received a service-connected disability pension pursuant to section 2 of the state, *ST*, statutes.

Section 1 of the *ST* statutes provides that any person who is a member of a regularly constituted fire department of any city or town within *ST* who serves as a member for not less than 20 years, the last 5 years continuously in the fire department in which that person was a member when retired, is entitled upon written request to retire from service. Upon retirement, the member will be paid a monthly pension of 50 percent of the fire fighter's average monthly salary paid for service in the fire department during the last 30 months of service. In addition, for each year of service beyond 20 years, but not to exceed 10 years, the firefighter is entitled to receive an additional 2 1/2 percent of the average monthly salary that was paid for services in the fire department during the last 30 months of service. In no event shall the member be entitled to receive more than 75 percent of salary.

Section 2 of the *ST* provides that any person serving in any capacity in a regularly constituted fire department of a city or town within *ST* may be retired whenever that person becomes physically or mentally disabled in the course of his or her duties and the disability prevents the effective performance of such duties. If retired, the Board of Trustees of the Firemen's Relief and Pension Fund will direct that the disabled fire fighter be paid from the fund a monthly pension of 50 percent of the average salary that was paid during the last 30 months of service or, if greater, the pension calculated on the regular retirement formula as set forth in section 1 of the *ST* statutes. Section 2 of the *ST* statutes further provides that the larger sum will be paid as a disability pension because *ST*'s intention and public policy is that disabled fire fighters should draw as disability pension the greater amount determined under the formula of section 1 or 2 of the *ST* statutes.

Section 3 of the *ST* statutes provides that any member of the fire department of any city or town within *ST* who is disabled as the result of heart disease or injury to the respiratory system, which disease or injury was not revealed by the physical examination passed by the member upon entry into the department, is presumed to have incurred the disease or injury while performing official duties as a member of the department unless the contrary is shown by competent evidence. Any such member who applies for disability benefits as a result of heart disease or injury to the respiratory system not revealed by the physical examination passed by the member upon entry into the department must be examined by three physicians, each of whom must submit a written report of findings to the board.

Under section 1 of the *ST* statutes, *A* was entitled to receive 65 percent of *A*'s average monthly salary paid during the last 30 months of *A*'s service; under section 2, *A* was entitled to receive 50 percent. Therefore, under the provisions of section 2, *A* was awarded a pension of 65 percent of *A*'s monthly salary paid during the last 30 months of service.

LAW AND ANALYSIS

Section 61(a) of the Code provides that, except as otherwise provided by law, gross income means all income from whatever source derived, including compensation for services.

Section 104(a)(1) of the Code provides, with certain exceptions not pertinent here, that gross income does not include amounts received under workmen's compensation acts as compensation for personal injuries or sickness.

Section 1.104-1(b) of the Income Tax Regulations provides that section 104(a)(1) of the Code excludes from gross income amounts received by an employee under a workmen's compensation act or under a statute in the nature of a workmen's compensation act that provides compensation to the employee for personal injuries or sickness incurred in the course of employme
However, the exclusion under secti
104(a)(1) does not apply to a retireme
pension or annuity to the extent that
is determined by reference to the e
ployee's age or length of service, or t
employee's prior contributions, ev
though the employee's retirement is c
casioned by an occupational injury
sickness.

Rev. Rul. 80-14, 1980-1 C.B. 3
and Rev. Rul. 80-44, 1980-1 C.B. 3
hold that statutes providing benefits
a class restricted to employees wi
service-incurred disabilities are statut
in the nature of workmen's compens
tion. In both revenue rulings, a medic
examination was necessary to certi
the employee's work-related disabilit

In *Take v. Commissioner*, 82 T.C
630 (1984), a state occupational dis
bility statute was held not to be a sta
ute in the nature of a workmen's com
pensation act because it created a
irrebuttable presumption that certai
disabilities were occupationally-relate

Under the *ST* statutes, a rebuttabl
presumption is created in favor of
finding of service-incurred disability
The statutory presumption does not re
move the necessity to demonstrate tha
the disability is work-related. It merel
shifts the burden of proof concernin
the cause of disability to the board o
the pension fund. The board still mus
make a finding, based on medical evi
dence, whether the employee's disabil
ity was service-connected. Therefore
the lifetime benefits received by *A* ar
authorized by a statute that provide
benefits to a class restricted to employ
ees with service-incurred disabilities
Because these benefits are payable fo
those disabilities, *ST*'s statute is a stat
ute in the nature of a workmen's com
pensation act.

The pension received by *A* under the
service-connected disability retiremen
provisions of *ST*'s statutes is excludable
from *A*'s gross income under section
104(a)(1) of the Code to the extent tha
the pension does not exceed 50 percen
of *A*'s final salary over the last 30
months of service. The excess (the ex-
tra 15 percent that, pursuant to section
2 of the *ST* statutes, is received under
section 1 of the *ST* statutes) is attributa-
ble to length of service and is not ex-
cludable under section 104(a)(1). Rev.
Rul. 80-44.

HOLDING

A may exclude, under section 104(a)(1) of the Code, a monthly pension equal to 50 percent of the average monthly salary paid to *A* during the last 30 months of *A*'s service. The excess is not excludable from gross income under section 104(a)(1).

26 CFR 1.104-1: Compensation for injuries or sickness.

Damages; libel suit. The Service will not follow the opinion of the United States Court of Appeals in *Roemer v. Commissioner,* 716 F.2d 693 (9th Cir. 1983), *rev'g* 79 T.C. 398 (1982), relating to the taxability of compensatory damages awarded in a libel suit. The Service will follow the decision of the Tax Court in *Roemer.*

Rev. Rul. 85-143

The Internal Revenue Service will not follow the opinion of the United States Court of Appeals in *Roemer v. Commissioner,* 716 F.2d 693 (9th Cir. 1983), *rev'g* 79 T.C. 398 (1982). The Service will follow the decisions of the Tax Court in *Roemer.*

In *Roemer,* the taxpayer was an insurance broker who had operated his own insurance business in California for many years. By the mid-1960's, the taxpayer enjoyed an excellent reputation in the community, both personally and professionally, and earned a high income from his insurance business. Until 1965, the taxpayer sold primarily casualty insurance. At that time, the taxpayer had an opportunity to expand into the life insurance business. In connection with that opportunity, the taxpayer applied for an agency license from *IC,* a life insurance company. *IC* ordered a credit report on the taxpayer from *X,* a credit bureau. *X* prepared the credit report and sent copies to *IC* and other insurance companies.

X's report on the taxpayer was grossly defamatory. It falsely stated that the taxpayer was ignorant in insurance matters, neglected his clients' affairs, was recently fired from his position as president of an insurance firm, and intentionally defaced property belonging to others. The report also implied that the taxpayer had misappropriated funds belonging to others for his personal benefit.

Upon learning of the report, the taxpayer demanded that *X* issue a retraction. *X* then distributed a purported retraction to those companies that had received the original report. The purported retraction contained further false and defamatory innuendos concerning the taxpayer's fitness as an insurance agent and his general business and personal character.

As a result of *X*'s report, *IC* and other insurance companies denied the taxpayer agency licenses to sell life insurance. The taxpayer's existing business relationships were damaged, as well as his ability to attract new clients due, in part, to the fact that most of his friends were also his clients, and vice versa. *X*'s report thus caused the taxpayer's insurance profits to diminish, and damaged his business reputation.

The taxpayer filed an action for libel under section 45 of the California Civil Code, West's Ann. Cal. Civ. Code §45, which provides as follows:

> Libel is a false and unprivileged publication by writing, printing, picture, effigy, or other fixed representation to the eye, which exposes any person to hatred, contempt, ridicule, or obloquy, or which causes him to be shunned or avoided, or which has a tendency to injure him in his occupation.

The taxpayer's complaint claimed that *X*'s report damaged his good reputation as a licensed insurance broker, causing him to lose insurance business and profits. He subsequently filed an amended complaint, alleging that publication of the report was done "with intent to damage his reputation, and to injure him in his business profession and occupation." Both compensatory and punitive damages were sought in the amended complaint.

At trial, the taxpayer produced substantial evidence concerning how the defamatory credit report adversely affected his insurance business, causing him to lose income. While the taxpayer described in detail to the jury how the defamatory report affected his business relations, he said little, if anything, about how the report affected his personal affairs.

The taxpayer's counsel, in addressing the jury on the amount of damages to which the taxpayer was entitled, asserted that the defamatory report injured both the taxpayer's personal and professional reputation. Counsel argued that the defamatory report caused severe damage to the taxpayer's general reputation and caused mental distress.

The judge instructed the jury that it could consider the injuries to both the taxpayer's personal and professional reputation in reaching a verdict. The jury awarded the taxpayer both compensatory and punitive damages, but gave no indication of the basis upon which it arrived at the verdict. The jury verdict was upheld on appeal in *Roemer v. Retail Credit Co.,* 44 Cal. App. 3d 926, 119 Cal. Rptr. 82 (1975).

This revenue ruling deals only with the compensatory damages. With respect to the taxability of the punitive damages, see Rev. Rul. 84-108, 1984-2 C.B. 32.

Section 104(a)(2) of the Code provides, with an exception not relevant here, that gross income does not include the amount of any damages received (whether by suit or agreement and whether as lump-sums or as periodic payments) on account of personal injuries or sickness.

The issue in the Tax Court in *Roemer* was whether the award in the libel suit was includible in the taxpayer's gross income for 1975. The taxpayer argued that if there is an inextricable combination of damages to both professional and personal reputation, the entire award is excludable from gross income under section 104(a)(2) of the Code. However, the court, at pages 405-406 stated:

> We think the taxation of damages received pursuant to a court judgment in a suit for injury to a person's reputation, caused by defamatory statements constituting libel, depends on whether or not such defamation results in injury to the personal reputation of an individual, as distinguished from libel that injures his business or professional reputation, to the extent it has affected or may affect his income.

The court stated that, in view of this principle, the taxpayer was required to provide that the damages resulted from injury to his personal reputation.

The Tax Court, in ascertaining the nature of the damages received by the taxpayer, examined the allegations contained in his first and amended complaints filed in the state libel suit and the issues and evidence before the state court. Based on these factors, the court concluded that the predominant nature of the taxpayer's claims involved dam-

age to his business and professional reputation as an insurance broker. Therefore, the Tax Court held that the compensatory damages that the taxpayer received as a result of the libel action were includible in his gross income.

The Tax Court later distinguished its decision in *Roemer* in *Church v. Commissioner*, 80 T.C. 1104 (1983). The petitioner in *Church* was the elected state attorney general of Arizona. In response to one of the petitioner's speeches, a local newspaper published a front-page editorial tying petitioner to communism. The petitioner filed a complaint for libel in state court against the newspaper. The jury awarded petitioner compensatory and punitive damages, but gave no indication of the basis upon which it arrived at the award.

In *Church*, the Tax Court held that the compensatory damages were excludable from petitioner's gross income under section 104(a)(2) of the Code. Upon review of the pleadings, the evidence, and the arguments made at the state trial, the court found that the entire thrust of the petitioner's case was how the libelous editorial affected the petitioner personally. The court in *Church* distinguished *Roemer* on the basis that in *Church*, unlike *Roemer*, the jury "simply did not intend to compensate the petitioner for injury to his professional or business reputation to the extent it affected past or future income."

The court of appeals subsequently reversed the Tax Court's decision in *Roemer*, holding that the compensatory damages were not includible in the taxpayer's gross income. The court of appeals stated that the Tax Court's opinion illogically distinguished physical from nonphysical personal injuries and confused a personal injury with its consequences.

The court of appeals noted that when an individual recovers damages for a physical personal injury, the lump-sum award is not allocated between the personal aspects of the injury and the economic loss resulting from the personal injury, nor is the exclusion of section 104(a)(2) of the Code unavailable when the predominant result of the injury is loss of income. The court of appeals concluded that the rule for physical personal injuries should apply to nonphysical personal injuries, stating that the relevant distinction should be between personal and nonpersonal injuries, not between physical and nonphysical injuries.

To determine whether the damages awarded to the taxpayer were for personal injuries, the court of appeals analyzed the nature of the tort of defamation under California law. It pointed out that California defamation statutes (including section 45 of the Civil Code under which the taxpayer had originally brought his action before the state court) appear in the Civil Code at "Division 1. Persons. Part 2. Personal Rights." In contrast, the court of appeals noted, California law also provides for the related tort of disparagement or trade libel that remedies an attack on the quality of the plaintiff's products or services.

While noting that the same statement may give rise to both defamation and disparagement actions, the court of appeals observed that defamation concerns the person of the plaintiff, while disparagement concerns the plaintiff's goods. The court of appeals pointed out that the injury to the person caused by the defamation should not be confused with the derivative consequences of the defamatory attack, such as the loss of reputation in the community and any resulting loss of income. It stated that while a defamatory statement may impair both the personal and professional relationships of the victim, all of the harm flows from the same personal attack.

The court of appeals found that the taxpayer suffered damage to both his personal and professional relationships as a result of the false report filed by *X*. It held that the compensatory damages received by the taxpayer in the defamation suit are excludable from his gross income under section 104(a)(2) of the Code, as would be the compensatory damages received on account of any personal injury, since defamation of an individual is a personal injury under California law.

The Service continues to believe the decision of the Tax Court is correct. Whether a libel in a particular situation is a personal injury should depend on the nature of the libel. In factual situations similar to *Roemer*, where the libelous statements were directed primarily to the individual in the individu business capacity, with the result the primary harm suffered by the i vidual was loss of business income, individual has not suffered a pers injury for purposes of section 104(a of the Code. The characterization of lawsuit brought by the individual un the law of the particular state wh suit was filed should not determine characterization of the damages ceived for federal income tax purpos

It is true that where a taxpayer s fers a physical personal injury, all co pensatory damages received theref are excludable from gross income u der section 104(a)(2) of the Code, cluding any damages received to co pensate the taxpayer for income lo while the taxpayer was disabled by t injury. See Rev. Rul. 85-97, pag 50, this Bulletin. Although damag may be measured, at least in part, the amount of lost income, they neve theless are attributable to a personal i jury, as required by the statute. In t present case, however, the Tax Cou found that the taxpayer's claims f which the state court awarded him a r covery were predominantly for inju to his business and professional reput tion as an insurance broker, and th the main thrust of the evidence he pr sented to the jury was of lost busine income. 79 T.C. at 406. If a taxpay operates a business, whether as a pr prietorship or a corporation, a defam tory statement that is directed at th business and causes loss of business i come is an injury to the business as di tinguished from a personal injury. T the extent damages received by the ta payer are for an injury to the taxpayer business, they are not attributable to personal injury and are not excludab under section 104(a)(2).

Section 105.—Amounts Received Under Accident and Health Plans

26 CFR 1.105-1: Amounts attributable to e ployer contributions.

For the purpose of section 105 of the Code laid-off worker is an "employee" during the riod of layoff. See Rev. Rul. 85-121, page 5

Section 106.—Contributions by Employer to Accident and Health Pla

26 CFR 1.106-1: Contributions by employer accident and health plans.

(Also Sections 105, 3401; 1.105-1, 31.3401 (a)-1.)

Insurance; premiums paid by employer; accident and health plan; laid-off worker. A laid-off worker is an "employee" during the period of layoff for purposes of an accident or health plan described in sections 105 and 106 of the Code.

Rev. Rul. 85-121

ISSUE

Under the circumstances described below, is a laid-off worker an "employee" during the period of layoff for purposes of an accident or health plan described in sections 105 and 106 of the Internal Revenue Code?

FACTS

Corporation *X* maintains for its employees an employer-financed accident and health plan that qualifies as an accident or health plan described in sections 105(e) and 106 of the Code. Pursuant to the collective bargaining agreement between *X* and its employees, the plan also provides identical accident and health coverage for former active employees of *X* who have been laid off during the term of the agreement and who are available for work.

A, an employee, was laid off by *X* for a period of time. During the period of layoff *X* made contributions to its accident and health plan on behalf of *A*, and *A* received health benefit payments from the plan.

LAW AND ANALYSIS

Section 106 of the Code provides that gross income of an employee does not include contributions by the employer to an accident or health plan for compensation (through insurance or otherwise) to the employees for personal injuries or sickness.

Section 106 of the Code operates in conjunction with section 105, which provides, with certain exceptions, that amounts an employee receives through accident or health insurance for personal injuries or sickness are includible in gross income to the extent the amounts (1) are attributable to contributions by the employer that were not includible in the gross income of the employee, or (2) are paid by the employer. Withholding is required on payments of amounts includible in gross income under section 105(a) pursuant to section 3401(a) and section 31.3401(a)-1(b)(8) of the Employment Tax Regulations.

Rev. Rul. 82-196, 1982-2 C.B. 53, holds, in part, that employer contributions to an accident or health plan that provides coverage for an employee and the employee's spouse and dependents before and after the employee's retirement and for a deceased employee's surviving spouse and dependents are excludable from the gross income of the employee and the survivors under section 106 of the Code. Rev. Rul. 82-196 also holds that the taxation of health benefits paid to survivors of a deceased employee-participant in such a plan is determined under section 105. The revenue ruling in effect considers an employee-participant in an employer-funded accident or health plan to continue to be an "employee" for purposes of section 105 and 106 even after termination of employment.

As in the case of retired or deceased employees, *X*'s contributions to the accident and health plan on behalf of *A* were based solely upon the employment relationship. *A*'s treatment under section 105 and 106 should, therefore, be the same as that of the retired or deceased employees in Rev. Rul. 82-196.

HOLDING

During the period of layoff, the laid-off worker is an "employee" for purposes of sections 105 and 106 of the Code.

Section 107.—Rental Value of Parsonages

26 CFR 1.107-1: Rental value of parsonages.

Whether a minister may deduct interest and taxes paid on a personal residence if the amounts expended are allocable to a rental allowance that is otherwise excludable from gross income under a particular section of the Code. See Rev. Rul. 85-96, page 87.

Section 108.—Income From Discharge Of Indebtedness

26 CFR 1.108(a)-1: Income from discharge of indebtedness.

Conditions under which the Service will issue an advance ruling and enter into a closing agreement permitting a variation from the general rule of section 1.1017-1 of the regulations relating to the adjustment to basis of depreciable property resulting from a discharge of indebtedness under section 108 of the Code. See Rev. Proc. 85-44, page 504.

Section 111.—Recovery Of Tax Benefit Items

26 CFR 1.111-1: Recovery of certain items previously deducted or credited.

Research or experimental costs previously deducted pursuant to section 174(a) of the Code are not subject to recapture upon the subsequent sale of the resulting technology. See Rev. Rul. 85-186, page 84.

Section 117.—Scholarships and Fellowship Grants

26 CFR 1.117-1: Exclusion of amounts received as a scholarship or fellowship grant.

Clarification of Rev. Proc. 76-47, 1976-2 C.B. 670, which provides guidelines to be used in determining whether educational grants made by a private foundation under an employer-related grant program qualify as scholarships or fellowship grants. See Rev. Proc. 85-51, page 717.

26 CFR 1.117-5: Federal grants requiring future service as a federal employee.

T.D. 8032

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1983; PART 602—REPORTING AND RECORDKEEPING REQUIREMENTS

Federal Grants Not Includible in Income in Certain Cases

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to certain federal grants and scholarships which are not includible in income. Changes to the applicable law made by the Tax Treatment Act of 1980 [Pub. L. 96-541, 1980-2 C.B. 596] are reflected in this document. These regulations provide guidance to Internal Revenue Service personnel who administer the Code and members of the public who are subject to these laws.

DATES: These regulations are effective for amounts received under qualifying programs after December 31, 1980.

FOR FURTHER INFORMATION CONTACT: Margaret M. O'Connor of

the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224. (Attention: CC:LR:T, 202-566-3287, not a toll free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

On August 22, 1984, the FEDERAL REGISTER published proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 117(c) of the Internal Revenue Code of 1954 (49 FR 33281) [LR-72-81, 1984-2 C.B. 849]. No comments were received. A public hearing was not requested. Accordingly, the proposed amendments are adopted by this Treasury decision as they appeared in the FEDERAL REGISTER. Typographical errors which were contained in the notice of proposed rulemaking have been corrected.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this final rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required. Although a notice of proposed rulemaking which solicited public comments was issued, the Internal Revenue Service concluded when the notice was issued, that the regulations are interpretative and that the notice and public procedure requirement of 5 U.S.C. 553 did not apply. Accordingly, the final regulations do not constitute regulations subject to the Regulatory Flexibility Act of (5 U.S.C. chapter 6).

The collection of information contained in these regulations has been submitted to the Office of Management and Budget in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of these regulations is Margaret M. O'Connor of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations.

Accordingly, 26 CFR Part 1 is amended by adopting, without change, the regulations proposed as a notice of proposed rulemaking published in the FEDERAL REGISTER on August 22, 1984, (49 FR 33281) [LR-72-81, 1984-2 C.B. 849] and Part 602 is amended as follows:

Paragraph 1. The authority for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805. * * *

Par.2. Paragraph (b) of §1.117-3 is amended by removing "institution" wherever it appears and inserting in lieu thereof, "organization" and by removing "section 117 adopts" wherever it appears and inserting in lieu thereof "parragraphs (a) and (b) of §117 adopt".

Par. 3. The first sentence of paragraph (c)(1) of §1.117-4 is amended by inserting the phrase "and §1.117-5" after "§1.172-2".

Par. 4. A new §1.117-5 is added to read as set forth below.

§1.117-5. Federal grants requiring future service as a federal employee.

(a) *In general.* Under section 117(c), amounts received by an individual under a federal program as a scholarship or grant for qualified tuition and expenses at an institution of higher education are excluded from the gross income of the recipient even though the recipient is required to perform future service as a federal employee. See paragraph (c) of this section for the definition of the terms "qualified tuition and expenses" and "institution of higher education."

(b) *Exception for uniformed services scholorship programs.* The requirements of this section do not apply to amounts received before 1985 by a member of a uniformed service who entered training before 1981 under the Armed Forces Health Professions Scholarship Program. National Public Health Service Corps Scholarship Training Program, or other substantially similar federal programs requiring the recipient to work for a uniformed federal service after completion of studies. These awards are governed by section 4 of Pub. L. 93-483 as amended by Pub. L. 95-171, Pub. L. 95-600 and Pub. L. 96-167. See section 101(3) of title 37, United States Code for the definition of the term "uniformed service."

(c) *Definitions.* (1) *Qualified tuition and related expenses.* For purposes of section 117(c) and this section, qualified tuition and related expenses are those amounts which under the terms of the federal program are required to be used and in fact are used for payment of:

(i) Tuition and fees that are required for the recipient's enrollment or attendance at an institution of higher education; and

(ii) Those amounts used for payment of fees, books, supplies and equipment required for courses of instruction at such an institution.

Incidental expenses are not considered related expenses and thus are not excludable from gross income under section 117(c). Incidental expenses include room and board at an institution of higher education, expenses for travel (including expenses for meals and lodging incurred during travel and allowances for travel of the recipient's family), research, clerical help, equipment and other expenses which are not required for enrollment at the institution or in a course of instruction at such institution.

(2) *Institution of higher education.* To qualify as an institution of higher education under this section, the institution must be a public or other nonprofit institution in any state which—

(i) Admits as regular students only individuals who have a certificate of graduation from a high school or the recognized equivalent of such a certificate;

(ii) Is legally authorized within the state to provide a program of education beyond high school; and

(iii) provides an educational program for which it awards a bachelor's or higher degree or which is acceptable for full credit towards such a degree, or which trains and prepares students for gainful employment in a recognized health profession. For purposes of this section, recognized health professions are thoe health professions which are supervised or monitored by appropriate state or federal agencies or governing professional associations and which require members to be currently licensed or certified in order to practice.

(3) *Service as a federal employee*—(i) *In general.* Except as otherwise provided in paragraph (c)(3)(ii) of this section, service as a federal employee refers to employment of the recipient by the federal government to work directly for the federal government. Thus, federal grants or scholarships which do not require the recipient to work directly for the federal government are not governed by the rules of this section.

(ii) *Service in a health manpower shortage area.* For purposes of this section an obligation under a grant for the recipient to serve in a health related field in a health manpower shortage area as designated by the Secretary of Health and Human Services according to the criteria of the Public Health Services Act (42 U.S.C. 254(e)) and the regulations promulgated thereunder (42 CFR 5.1-5.4) will be considered an obligation to serve as a federal employee.

(d) *Records required for exclusion from gross income.* To exclude amounts received under federal programs requiring future services as a federal employee, the recipient must maintain records that establish that the amounts received under such programs were used for qualified tuition and related expenses as defined in paragraph (c)(91) of this section. Qualifying uses may be established by providing to the Service, upon request, copies of relevant bills, receipts, cancelled checks or other convenient documentation or records which clearly reflect the use of the money received under the grant. The recipient must also submit, upon request, documentation establishing receipt of the grant and setting out the terms and requirements of the particular grant.

(e) *Applicability of rules of §§117(a) and 117(b).* Except where a different rule has been expressly provided in this section, amounts received under federal grants requiring future service as a federal employee, and which meet the requirements for exclusion from gross income under this section, are subject to the rules, limitations and definitions specified in §§117(a) and (b) of the Code and §§1.117-1 through 1.117-4.

(f) *Effective date.* Except as provided in paragraph (b) of this section, this section will apply to amounts received after December 31, 1980 under federal programs which meet the requirements of this section.

Par. 5. The authority citation for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 6. Section 602.101(c) is amended by inserting in the appropriate places in the table: "§1.117-5. . . 1545-0869".

[Approved by the Office of Management and Budget under control number 1545-0869]

This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917, 26 U.S.C. 7805).

ROSCOE L. EGGER, JR.,
Commissioner of
Internal Revenue.

Approved June 17, 1985.

RONALD A. PEARLMAN,
Assistant Secretary
of the Treasury.

(Filed by the Office of the Federal Register on July 1, 1985, 8:45 a.m., and published in the issue of the Federal Register for July 2, 1985, 50 F.R. 27231)

Section 132.—Certain Fringe Benefits

26 CFR 1.132-1T: Questions and answers relating to the exclusion from gross income of certain fringe benefits (temporary).

Q/A-4a, concerning an employee's working condition fringe, is removed. See T.D. 8060, page 90.

Part V.—Deductions for Personal Exemptions

Section 151.—Allowance of Deductions for Personal Exemptions

26 CFR 1.151-4: Amount of deduction for each exemption under section 151.

Adjusted personal exemption amount set forth for taxable years beginning in 1986. See Rev. Proc. 85-55, page 737.

Section 152.—Dependent Defined

26 CFR 1.152-1: General definition of a dependent.

Dependency exemption; child alive only momentarily; induced abortion expenses. Expenses incurred to induce an abortion do not qualify under section 152 of the Code as an item of support for a child born alive during the tax year. Rev. Rul. 73-156 clarified.

Rev. Rul. 85-118

ISSUE AND FACTS

Do expenses incurred to induce an abortion qualify under section 152 of the Internal Revenue Code as an item of support for a child born alive during the tax year?

LAW AND ANALYSIS

Section 151(e)(1)(B) of the Code provides for a dependency exemption for each dependent (as defined in section 152) who is a child of the taxpayer and who (i) has not attained the age of 19 at the close of the calendar year in which the taxable year of the taxpayer begins, or (ii) is a student.

Section 152(a)(1) of the Code provides that the term "dependent" means a son or daughter of the taxpayer, or a descendant of either, over half of whose support, for the calendar year in which the taxable year of the taxpayer begins, was received from the taxpayer.

Section 1.152-1(a)(2)(i) of the Income Tax Regulations provides that the term "support" includes food, shelter, clothing, medical and dental care, education, and the like.

Rev. Rul. 73-156, 1973-1 C.B. 58, holds that a parent may claim a dependency exemption under section 151 of the Code for a child born alive during the taxable year, even though the child lives only momentarily, provided state or local law treats the child as having been born alive and the live birth is evidenced by an official document, such as a birth certificate. The ruling assumes, for purposes of its holding, that the "support" test of section 152 of the Code has been met.

The question of whether a taxpayer has met the support test of section 152(a)(1) of the Code is a question of fact, and the taxpayer claiming the dependency exemption must show, under all the facts and circumstances, that over one-half of the child's support was received from the taxpayer. Expenses

attributable to the support of the child, such as medical expenses, qualify as items of support for purposes of meeting the support test. *See* section 1.152-1(a)(2)(i) of the regulations. Expenses for an induced abortion, however, are not incurred for the benefit of the child and do not qualify as an item of support.

HOLDING

Expenses incurred for an induced abortion do not qualify under section 152 as an item of support for a child born alive during the tax year.

EFFECT ON OTHER DOCUMENTS

Rev. Rul. 73-156 is clarified.

Section 163.—Interest

26 CFR 1.163-1: Interest deduction in general.

Interest; instruments issued by bank holding company. Certain instruments issued by a domestic bank holding company represent debt of the bank holding company for federal income tax purposes and, therefore, periodic payments by the bank holding company with respect to the instruments constitute interest for purposes of section 163 of the Code

Rev. Rul. 85-119

ISSUE

For federal income tax purposes, should the instruments described below be treated as debt, so that amounts to be paid periodically with respect thereto will be treated as interest for purposes of section 163 of the Internal Revenue Code, or should they be treated as equity?

FACTS

Corporation (HC) is a domestic bank holding company subject to regulation by the Federal Reserve Board (FRB). HC's stock is traded on a national securities exchange and is widely held. It owns 100 percent of the stock of a subsidiary engaged in the commercial banking business. HC proposes to issue for cash $100*x* of instruments (Notes) described below.

Under FRB guidelines, HC, as a bank holding company, must meet certain primary capital requirements. Under those guidelines, primary capital includes common and perpetual preferred stock, capital and undivided surplus, and a limited amount of "mandatory convertible debt." The guidelines further specify that a subordinated debt instrument that is issued by a bank holding company and that is payable in the issuer's common or perpetual preferred stock or redeemable with proceeds from the sale of such stock constitutes "mandatory convertible debt."

Notes will be issued in a public offering, will be widely held, and will not be held proportionately to HC's stock. They will be offered at 100 percent of their stated principal amount. Notes will be issued either in bearer or registered form, will be freely transferable, and will mature in 12 years. Noteholders will not be entitled to vote or to participate in the management of HC.

Under the terms of the Notes, amounts designated as interest are payable quarterly in cash at a floating rate comparable to the market rate on similar subordinated debt instruments payable in money at maturity. These amounts are payable without regard to HC's earnings. Regulatory and state corporate law restrictions generally applicable to the payment of dividends are not applicable to such payments. If HC defaults on its obligation to make these quarterly payments, Noteholders can sue to compel payment of the amounts then due.

Notes are unsecured and subordinated to all present and future claims of general creditors of HC. Payment of principal may be accelerated only upon the bankruptcy, insolvency, or reorganization of HC. Upon the occurrence of one of these events, Noteholders are entitled to payment in money, in an amount equal to the face amount of Notes plus periodic payments that have accrued but remain unpaid, before any payments are made to shareholders.

At maturity or at an earlier redemption date, HC is unconditionally obligated to issue, in exchange for Notes, its own common or perpetual preferred stock having an appraised fair market value equal to the principal amount of Notes. The class of stock to be exchanged for Notes is left largely to the discretion of HC, and is not determined until shortly before maturity or redemption. The stock will be registered with the Securities and Exchange Commission and will be publicly traded. Upon receipt of notice of maturity or redemption, Noteholders may elect to receive this stock as payment for their Notes. Under the terms of Notes, Noteholders who do not make the election will be deemed to have received such stock and to have appointed HC to sell such stock on their behalf in a secondary offering, with the proceeds to be delivered to the Noteholders on the maturity date. HC is unconditionally obligated to effect the secondary offering at its expense and to sell sufficient stock to result in the receipt by nonelecting Noteholders of net cash proceeds equal to the principal amount of Notes. Failure by HC to perform on its obligation to effect the secondary offering and to deliver cash equal to the principal amount of the Notes would constitute a breach of HC's obligation and would provide the Noteholders with a cause of action for money damages under state law.

HC generally has the option to redeem Notes for cash or to pay cash for Notes at maturity, without jeopardizing the status of Notes as mandatory con-

vertible debt under the FRB guidelines, provided that payment is made only with the proceeds from the sale by HC of its common or perpetual preferred stock. Payment from any other source must receive the approval of the FRB.

HC is not thinly capitalized. Whether the Notes constitute debt or equity, after their issuance HC will have a debt-equity ratio that is within the industry norm.

LAW AND ANALYSIS

Periodic payments made with respect to an instrument are deductible as interest under section 163 of the Code only if the instrument is a valid indebtedness of the payor. Whether an instrument represents indebtedness or an equity investment for federal income tax purposes depends on the facts and circumstances of each case. No particular fact is conclusive in making this determination. *John Kelley Co. v. Commissioner*, 362 U.S. 521 (1946), 1946-1 C.B. 191.

An analysis of all the terms and conditions of the instruments and all the facts and circumstances surrounding the issuance of the instruments indicates that HC and the purchasers of the instruments intend to create a debtor-creditor relationship, Rev. Rul. 68-54, 1968-1 C.B. 69; Rev. Rul. 73-122, 1973-1 C.B. 66, and that as a legal matter a debtor-creditor relationship will be created. Notes also contain many other attributes that are commonly treated as supporting debt characterization for federal income tax purposes. They are issued for cash at 100 percent of their face amount in a public offering, are widely held, are not held proportionately to HC's stock, and have been designated by the parties as debt. Amounts designated as interest are payable quarterly, irrespective of earnings, at a floating rate comparable to the market rate of interest on similar debt instruments payable in money. Any default on the payment of such amount or amounts results in a legally enforceable right in the Noteholders against HC for payment of the amount or amounts in default. The Notes remain outstanding for a limited 12-year term and do not contain any restrictions on transferability. In addition, HC is not thinly capitalized and its debt-to-equity ratio is within the industry norm. Noteholders are not entitled to vote or to participate in management. Finally, because the number of shares of stock to be issued at maturity in exchange for Notes is not fixed but is based on the face amount of Notes, Noteholders, during the term of the Notes, do not share in the increase or decrease in the market value of such HC stock. *Compare* Rev. Rul. 83-98, 1983-2 C.B. 40.

On the other hand, the subordination of the rights of Noteholders to the rights of general creditors as well as the provision for the issuance of stock in exchange for Notes at maturity are features indicating that Notes may constitute equity. Although Noteholders are subordinated to the rights of general creditors, on insolvency or bankruptcy Noteholders have the status of creditors and are entitled to priority, in payment of amounts denominated as principal and accrued but unpaid interest, over the claims of all shareholders. In form, Notes are payable at maturity in stock; however, for any Noteholder who does not elect to receive stock, HC is unconditionally obligated to effect a secondary offering of this stock and to deliver, at maturity, cash equal to the principal amount of Notes. Failure by HC to perform on its obligation to effect a secondary offering and to deliver cash equal to the principal amount of the Notes would constitute a breach of HC's obligation and would provide the Noteholders with a cause of action for money damages under state law. Accordingly, in substance, Notes are payable at the Noteholder's option in a fixed amount of cash or in stock of equivalent value.

HOLDING

Notes represent debt of HC for federal income tax purposes. Periodic payments with respect to Notes constitute interest deductible by HC under section 163 of the Code (provided the requirements contained therein are satisfied) and includible by Noteholders in income under Section 61.

No implication is intended as to the federal income tax treatment of any payments with respect to instruments issued under other facts and circumstances.

TITLE 26—INTERNAL REVENUE.—CHAPTER 1, SUBCHAPTER A, PART 1—INCOME TAX: TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; PART 35a—TEMPORARY EMPLOYMENT TAX REGULATIONS UNDER THE INTEREST AND DIVIDEND TAX COMPLIANCE ACT OF 1983

Registration Requirements With Respect to Certain Debt Obligations; Sanctions on Issuers of Registration-Required Obligations Not in Registered Form; and the Application of the Repeal of 30 Percent Withholding by the Tax Reform Act of 1984.

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document contains amendments to the temporary regulations issued under T.D. 7965 [1984-2 C.B. 38] and T.D. 7967 [1984-2 C.B. 329] and published in the Federal Register beginning at 49 FR 33228 and 49 FR 33239, respectively. These regulations relate to the definition of the term "registration-required obligation" with respect to certain obligations, the imposition of sanctions on issuers issuing registration-required obligations in bearer form, and the repeal of 30 percent withholding by the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1]. The regulations affect issuers of obligations held by foreign persons, issuers of certain other obligations, and payers and recipients of interest with respect to all such obligations. They provide the public with guidance necessary to comply with the Tax Equity and Fiscal Responsibility Act of 1982 [Pub. L. 97-248, 1982-2 C.B. 462] and the Tax Reform Act of 1984. The text of these temporary regulations also serve as the text for an amended notice of proposed rulemaking published * * * [on page 808, this Bulletin].

DATES: The temporary regulations under §1.163-5T(d) (pass-through certificates) generally apply to obligations issued after December 31, 1982. The temporary regulations which amend the regulations issued by T.D. 7965 (issuer sanctions) are generally effective with respect to obligations originally issued after September 21, 1984. The temporary regulations which amend the regulations issued by T.D. 7967 (repeal of 30 percent withholding) are generally effective for payments made after September 19, 1985 with respect to obligations issued after July 18, 1984.

FOR FURTHER INFORMATION CONTACT: P. Ann Fisher of the Legislation and Regulations Division of the Division of the Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (202-566-3289, not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

These temporary regulations amend existing temporary regulations issued previously relating to the definition of the term "registration-required obligation," the imposition of sanctions on issuers issuing registration-required obligations in bearer form and the repeal of 30 percent withholding.

NEED FOR AMENDMENT

The temporary regulations which are being amended did not specifically address the application of the definition of the term "registration-required obligation" under section 163(f)(2)(A) to pass-through certificates, such as mortgage pass-through certificates, the application of the sanctions on issuers of "registration-required obligations" not in registered form to the issuers of such certificates and the underlying obligations, or the application of the partial repeal of 30 percent withholding to these certificates.

The effective date provision of the temporary regulations issued on August 22, 1984, defining what obligations are described under section 163(f)(2)(B) (the "temporary foreign-targeting regulations"), applied these regulations to any obligation issued after September 21, 1984, including an obligation issued after September 21, 1984 either pursuant to the exercise of a warrant that was issued on or before September 21, 1984 or on the conversion of a convertible debt obligation issued on or before such date. The amendments provide that the temporary foreign-targeting regulations generally effective after September 21, 1984 do not apply to obligations issued either pursuant to the exercise of a warrant or the conversion of a convertible debt obligation that complied with earlier temporary regulations in effect when the warrant or convertible debt obligation was issued.

The temporary foreign-targeting regulations which are being amended do not clearly define the scope of the rule which states that a transfer to an account in the United States is considered to be a payment inside the United States, and these amendments more precisely define this scope.

Finally, the temporary regulations issued in question and answer form on the subject of the repeal of 30 percent withholding do not explain completely how the certification requirements for repeal apply to foreign-targeted registered obligations held by clearing organizations and by foreign branches of United States financial institutions, and these amendments provide a more complete explanation.

EXPLANATION OF PROVISIONS

Registration-required Obligations

This amendment provides that a pass-through or participation certificate evidencing an interest in a pool of mortgage loans which under Subpart E of Subchapter J of the Code is treated as a trust of which the grantor is the owner (or similar evidence of interest in a similar pooled fund or pooled trust treated as a grantor trust) ("pass-through certificate") is considered to be a "registration-required obligation" if the pass-through certificate is described in section 163(f)(2)(A), without regard to whether any obligation held by the fund or trust to which it relates is described in section 163(f)(2)(A). Also, a pass-through certificate is considered to satisfy the requirements of section 163(f)(2)(B) if it satisfies the requirements of section 163(f)(2)(B) without regard to the status of the underlying obligations. Mortgage pass-through certificates are therefore obligations to which section 163(f)(2)(A) or (B) may apply.

This amendment does not affect the determination of whether bearer obligations that are issued or guaranteed by the United States Government or backed by United States Government securities comply with the requirements of section 163(f)(2)(B) and the regulations thereunder.

The amendment is also contained in a cross-reference notice of proposed rulemaking and, in that regard, the Service is especially interested in receiving comments as to: (1) what should qualify as a similar pooled fund or pooled trust treated as a grantor trust for purposes of section 163(f)(2)(A) and (B) (see §1.163-5T(d)(1)) and (2) when the Commissioner's authority to characterize certificates (or similar evidences of interest in a pooled fund or pooled trust treated as a grantor trust) and obligations in accordance with the substance of the arrangement and to impose penalties as appropriate should be exercised (see §1.163-5T(d)(4)).

Issuer Sanctions

Under the temporary foreign-targeting regulations, an issuer of a bearer obligation that is otherwise a "registration-required obligation" is not subject to certain sanctions if the issuer complies with the requirements contained in the regulations, including the requirement that interest be paid outside the United States. The temporary regulations provide that interest paid by transfer into an account maintained by the payee of the United States is considered paid in the United States if it is paid on an obligation issued by a United States person, a controlled foreign corporation, or a foreign corporation if 50 percent or more of its gross income for the 3-year period preceding the original issuance of the obligation is effectively connected with the conduct of a trade or business within the United States. This rule does not apply to payments to persons described in section 165(j)(3)(A), (B), or (C) and the regulations thereunder. The purpose of this rule is to prevent United States persons (except those persons who are permitted to hold bearer obligations) from depositing interest or bearer obligations into their accounts maintained in the United States. The transfer of interest to a United States account of a financial institution should not be consid-

ered payment inside the United States if this transfer is merely a step in the clearance of funds and the interest is promptly credited to an account maintained outside the United States by the financial institution or by the person for which the financial institution has collected the interest. Therefore, this amendment provides an exception to permit a financial institution to have interest credited to an account it maintains in the United States if the payment is a step in the clearance of funds and the interest is promptly credited to an account maintained outside the United States by the financial institution or by the person for which the financial institution collected the interest.

This amendment also changes the effective date of the temporary foreign-targeting regulations. The prior effective date provision applied these regulations to an obligation issued after September 21, 1984. The amended effective date provision does not apply the temporary regulations issued on August 22, 1984 to an obligation issued after September 21, 1984 either purusant to the exercise of a warrant issue on or before September 21, 1984, or on the conversion of a convertible debt obligation issued on or before September 21, 1984. The amended effective date provision instead applies the rules provided in temporary regulation §5f.163-1(c), as in effect prior to its removal, to the determination of whether such as obligation issued after September 21, 1984 is described in section 163(f)(2)(B) and is therefore not required to be registered. However, an issuer who has substantially complied with the former proposed regulations provided in §1.163-5(c) (superseded on August 22, 1984 by the temporary foreign-targeting regulations issued on that date) will be considered to satisfy the requirements of section 163(f)(2)(B) with respect to an obligation issued after September 21, 1984 either pursuant to the exercise of a warrant issued on or before September 21, 1984 or on the conversion of a convertible debt obligation issued on or before September 21, 1984.

Repeal of 30 percent withholding

This amendment provides specific guidance on the application of the partial repeal of the 30 percent withholding tax to pass-through certificates. The amendment provides that interest paid to a holder of a pass-through certificate will qualify as portfolio interest under section 871(h)(2) or section 881(c)(2) if it is described in A-1 or A-8 of §35.9999-5, without regard to whether any obligations held by the fund or trust to which the pass-through certificate relates are described in A-1 or A-8. However, for purposes of A-1 and A-8 of §35a.9999-5 and section 127 of the 1984 Act, a pass-through certificate will be considered as issued after July 18, 1984 only to the extent that the obligations held by the fund or trust to which the pass-through certificate relates are issued after July 18, 1984.

This amendment also provides that a pass-through certificate is considered to be an obligation that would be a registration-required obligation but for the fact that it is described in section 163(f)(2)(B) if the pass-through certificate is not described in section 163(f)(2)(A)(i), (ii), or (iii) (without regard to whether any obligation held by the fund or trust to which it relates is so described) and if the pass-through certificate is described in section 163(f)(2)(B) (without regard to whether any obligation held by the fund or trust to which it relates is so described).

This amendment also provides additional guidance on the certification requirements applicable to foreign-targeted registered obligations and on the determination by a withholding agent that 30 percent withholding on a payment of interest on any registered obligation is not required because the payee is a United States person.

With respect to foreign-targeted registered obligations, this amendment clarifies that the certificate of non-United States beneficial ownership must always be given to the United States person who would otherwise be required to deduct and withhold tax. The certificate must generally relate to ownership of the obligation on interest payment dates during the preceding and forthcoming years. The amendment changes the frequency of filing the certificate from a filing within the period beginning 90 days prior to each interest payment date (an dending on that date) to a single annual filing during the period beginning on January 15 and ending on January 31 of each year for all foreign-targeted registered obligations that have been held at any time during the immediately past year and that will be acquired at any time during the forthcoming year by the person providing the certificate.

Withholding agents paying interest to beneficial owners that are neither financial institutions nor members of clearing organizations may accept a statement on a Form W-8 or substitute form that the beneficial owner is not a United States person. However, a withholding agent that is a foreign branch of a financial institution and a United States person need not receive a statement provided that the beneficial owner furnishes to the withholding agent documentary evidence, as defined in subdivision (iii) of Q & A 5 of §35a.9999-4T, to such effect.

The amendment provides that, if a United States person becomes a beneficial owner on an interest payment date, the withholding agent must be so notified within 30 days after such date. In such case the withholding agent is not required to withhold from the next interest payment if the withholding agent receives a Form W-9 (or a substitute form that is substantially similar) or a statement that the person who provides the notification of United States beneficial ownership is either a controlled foreign corporation or a corporation 50 percent or more of the gross income of which from the preceding 3 years was effectively connected with the conduct of a United States trade or business.

As noted, the amendment provides that the certificate provided to the withholding agent must relate only to ownership of the obligation on interest payment dates, not to any period between such dates. This is consistent with the provision under §1.1441-4(h) of the regulations, which states that tax is not required to be withheld on accrued interest paid by the buyer in connection with the sale of bonds between interest payment dates, even though the interest is subject to tax under section 871 or 881. The Internal Revenue Service is, however, studying the desirability of this provision. Any change with respect to the application of 30 percent withholding and any resulting change related to the exemption from 30 percent

withholding under sections 871(h) and 881(c), including applicable certification requirements, would be made in future regulations and would apply on a prospective basis only.

Although these admendments are generally effective for payments made after September 19, 1985, the certificate required to be filed with the withholding agent between January 15 and January 31, 1986, is not required to certify a foreign status of a beneficial owner of an obligation before the date of the certificate, and the certification requirements presently in effect will, with two exceptions, continue to apply to interest payments prior to the filing of the certificate between January 15 and January 31, 1986.

The first exception is that those provisions of the amendments relating to which persons are required to provide or receive certificates or statements will apply to interest payments beginning September 19, 1985. Thus, for example, the U.S. person who would otherwise be required to deduct and withhold tax on such interest payment must receive the certificate of non-United States beneficial ownership.

The second exception is that the provisions relating to the situation where the withholding agent pays interest directly to the beneficial owner will apply beginning on September 19, 1985.

Regulatory Flexibility Act and Executive Order 12291

The Commissioner of Internal Revenue has determined that this temporary regulation is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required. The Internal Revenue Service has concluded that the regulations adopted hereby are interpretative and that the notice and public procedure requirements of 5 U.S.C. §553 do not apply. Accordingly, these regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

Need for Temporary Regulations

There is a need for immediate guidance with respect to the provisions contained in this Treasury decision by reason of the continuous issuance of obligations to foreign persons and the repeal of 30% withholding on the interest on which obligations issued after July 18, 1984. For this reason, it is found impracticable to issue these temporary regulations with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

The Q&As are not intended to address comprehensively the issues raised by the repeal of 30 percent withholding. Taxpayers may rely on guidance on these Q&As, which the Internal Revenue Service will follow in resolving issues expressly raised herein arising under section 127 of the Tax Reform Act of 1984 and the information reporting and backup withholding rules affected thereby. No inference, however, should be drawn regarding questions not expressly raised and answered.

Drafting Information

The principal author of these temporary regulations is P. Ann Fisher of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance of style.

* * * * *

Adoption of Amendments to the Regulations

The following amendments to 26 CFR Parts 1, and 35a are hereby adopted:

Paragraph 1. The authority for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805 * * *

Par. 2. Section 1.163-5T is amended by revising paragraph (c)(2)(v) and (vi) and adding paragraph (d). The revised and added paragraphs read as follows:

§1.163-5T. Denial of interest deduction on certain obligations issued after December 31, 1982, unless issued in registered form.

* * * * *

(c) *Obligations issued to foreign persons after September 21, 1984.** * *

(2) *Rules for the application of this paragraph.** * *

(v) *Interest payable outside of the United States.* Interest will be payable only outside the United States and its posesssions if payment of such interest can be made only upon presentation of a coupon, or upon making of any other demand for payment, outside of the United States and its possessions to the issuer or a paying agent. The fact that payment is made by a draft drawn on a United States bank account or by a wire or other electronic transfer from a United States account does not affect this result. Interest payments will not be considered to be made outside of the United States if the payments are made by a transfer of funds into an account maintained by the payee in the United States or mailed to an address in the United States, if—

(A) The interest is paid on an obligation issued by either a United States person, a controlled foreign corporation as defined in section 957(a), or a foreign corporation if 50 percent or more of the gross income of the foreign corporation from all sources of the 3-year period ending with the close of its taxable year preceding the original issuance of the obligation (or for such part of the period that the foreign corporation has been in existence) was effectively connected with the conduct of a trade or business within the United States; and

(B) The interest is paid to a person other than—

(1) A person who may satisfy the requirements of section 165(j)(3)(A), (B), or (C) and the regulations thereunder; and

(2) A financial institution as a step in the clearance of funds and such interest in promptly credited to an account maintained outside the United States for such financial institution or for persons for which the financial institution has collected such interest.

Interest is considered to be paid within the United States and its possessions if a coupon is presented, or a demand for payment is otherwise made, to the issuer or a paying agent (whether a United States or foreign person) in the United States and its possessions even if the funds paid are credited to an account maintained by the payee outside the United States and its possessions. Interest will be considered payable only outside the United States and its possessions notwithstanding that such interest may become payable at the office of the issuer or its United States paying

agent under the following conditions: the issuer has appointed paying agents located outside the United States and its possession with the reasonable expectation that such paying agents will be able to pay the interest in United States dollars, and the full amount of such payment at the offices of all such paying agents is illegal or effectively precluded because of the imposition of exchange controls or other similar restrictions on the full payment or receipt of interest in United States dollars. A lawsuit brought in the United States or its possessions for payment of the obligation or interest thereon as a result of a default shall not be considered to be a demand for payment. For purposes of this subdivision (v), interest includes original issue discount as defined in section 1273(a). For purposes of determining the amount of original issue discount on an obligation described in paragraph (c)T(2)(i) which is part of an issue that neither is registered with the Securities and Exchange Commission nor is part of a privately placed issue, section 1273(a) shall apply as if the obligation were registered with the Securities and Exchange Commission.

(vi) *Rules relating to obligations issued on or before September 21, 1984.* Whether an obligation originally issued on or before September 21, 1984, or an obligation originally issued after September 21, 1984, pursuant to the exercise of a warrant or the conversion of a convertible obligation, which warrant or obligation (including conversion privilege) was issued on or before September 21, 1984, is described in section 163(f)(2)(B) shall be determined under the rules provides in §5f.163-1(c) as in effect prior to its removal. Notwithstanding the preceding sentence, an issuer will be considered to satisfy the requirements of section 163(f)(2)(B) with respect to an obligation issued on or before September 21, 1984 or after September 21, 1984 pursuant to the exercise of a warrant or the conversion of a convertible obligation, which warrant or obligation (including conversion privilege) was issued on or before September 21, 1984, if the issuer substantially complied with the proposed regulations provided in §1.163-5(c), which were published in the Federal Register on September 2, 1983 [48 FR 39953] and superseded by temporary regulations published in the Federal Register on August 22, 1984 [49 FR 33228].

(d) *Pass-through certificates.* (1) A pass-through or participation certificate evidencing an interest in a pool of mortgage loans which under Subpart E of Subchapter J of the Code is treated as a trust of which the grantor is the owner (or similar evidence of interest in a similar pooled fund or pooled trust treated as a grantor trust) ("pass-through certificate") is considered to be a "registration-required obligation" under section 163(f)(2)(A) and this section if the pass-through certificate is described in section 163(f)(2)(A) and this section, without regard to whether any obligation held by the fund or trust to which the pass-through certifiate relates is described in section 163(f)(2)(A) and this section. A pass-through certificate is considered to be described in section 163(f)(2)(B) and this section if the pass-through certificate is described in section 163(f)(2)(B) and this section, without regard to whether any obligation held by the fund or trust to which the pass-through certificate relates is described in section 163(f)(2)(B) and this section.

(2) An obligation held by a fund or trust in which ownership interests are represented by pass-through certificates is considered to be in registered form under section 103(j) and the regulations thereunder or to be described in section 163(f)(2)(A) or (B) if the obligation held by the fund or trust is in registered form under section 103(j) and the regulations thereunder or is described in section 163(f)(2)(A) or (B), respectively, without regard to whether the pass-through certificates are so considered.

(3) For purposes of section 4701, a pass-through certificate is considered to be issued solely by the recipient of the proceeds from the issuance of the pass-through certificate (hereinafter the "sponsor"). The sponsor is therefore liable for any excise tax under section 4701 that may be imposed with reference to the principal amount of the pass-through certificate.

(4) In order to implement the purpose of section 163 and this section, the Commissioner may characterize a certificate or other evidence of interest in a fund or trust which under Subpart E of Subchapter J of the Code is treated as a trust of which the grantor is the owner and any obligation held by such fund or trust in accordance with the substance of the arrangement they represent and may impose the penalties provided under sections 163(f)(1) and 4701 in the appropriate amounts and on the appropriate persons. This provision may be applied, for example, where a corporation issues obligations purportedly in registered form, contributes them to a grantor trust as its only assets, and arrange for the sale to investors of bearer certificates of interest in the trust which do not meet the requirements of section 163(f)(2)(B). If this provision is applied, the obligations held by the fund or trust will not be considered to be issued in registered form or to meet the requirements of section 163(f)(2)(B). The corporation will not be allowed a deduction for the payment of interest on the obligations held by the trust, and the exercise tax under section 4701, calculated with reference to the principal amount of the obligations held by the trust will be imposed on the corporation and may be collected from the corporation and its agents. This paragraph (d)(4) will not be applied so as to alter the tax consequences of transactions as to which rulings have been issued by the Internal Revenue Service prior to September 19, 1985.

(5) The rules set forth is this paragraph (d) apply solely for purposes of sections 4701, 163(f)(2)(A), 163(f)(2)(B), this section, and any other section that refers to this section for the definition of the term "registration-required obligation" (such as the regulations under sections 871(h) and 881(c)). The treatment of obligations described in this paragraph (d) for purposes of section 163(f)(2)(A) and (B) does not affect the determination of whether bearer obligations that are issued or guaranteed by the United States Government, a United States Government-owned agency, or a United States Government sponsored enterprise (within the meaning of §1.163-5T(c)(1)) or that are backed (as described in the Treasury Department News Release R-2835 of September 10, 1984 and Treasury Department News Release R-2847 of September 14, 1984) by obligations issued by the United States Government, a United States Government-owned agency, or a

United States Government sponsored enterprise comply with the requirements of section 163(f)(2)(B) and the regulations thereunder.

(6) *Example.* The provisions of this paragraph (d) may be illustrated by the following example:

Commercial Bank K forms a pool of 1000 residential mortgage loans, each made to a different individual homeowner, by assigning them to Commercial Bank L, an unrelated entity serving as trustee of the pool. Commercial Bank L immediately sells in a public offering certificates of interest in the trust of a maturity of 10 years in registered form. Commercial Bank L transfers the cash proceeds of the offering to Commercial Bank K. The certificates of interest in the trust are of a type offered to the public and are not described in section 163(f)(2)(B). Pursuant to paragraph (d)(1), the certificates of interest in the pool are registration-required obligations without regard to the fact that the obligations held by the trust are not registration-required obligations.

Par. 3. The authority for Part 35a continues to read in part:

Authority: 26 U.S.C. 871, 26 U.S.C. 881, 26 U.S.C. 1441, 26 U.S.C. 1442, and 26 U.S.C. 7805.

Par. 4. Section 35a.9999-5 is amended by—

1. Revising Q&As 10, 12, 14, and 15 of paragraph (b), and

2. Adding paragraph (d) consisting of Q&A 20. These revised and added provisions read as follows:

§35a.9999-5. Questions and answers relating to the repeal of 30 percent withholding by section 127 of the Tax Reform Act of 1984 and to the application of information reporting and backup withholding in light of such repeal.

* * * * *

(b) *Rules Concerning Obligations in Registered Form.** * *

Q-10. In the absence of the receipt of a certificate described in A-9 (or a certificate described in A-14 in the circumstances described in A-12) or a Form W-9 (or a substitute form that is substantially similar and completed under penalties of perjury), what United States persons are required to deduct and withhold tax under section 1441(a) or 1442(a) from interest otherwise qualifying as portfolio interest within the meaning of section 871(h)(2)(B) or 881(c)(2)(B)?

A–10. In general, any United States person who is otherwise a withholding agent for purposes of section 1441(a) or 1442(a) is required to deduct and withhold unless the certificate described in A-9 (or a certificate described in A-14 in the circumstances described in A-12) or a Form W-9 (or a substitute form that is substantially similar and completed under penalties of perjury) is received. However, a United States person is not required to withhold under section 1441(a) and 1442(a) regardless of whether the certificate is received under the following circumstances:

(i) The interest is paid to or collected on behalf of an exempt recipient at an address within the United States (other than an exempt recipient who is not a United States person); or

(ii) The interest is paid to a person at an address within the United States, and backup withholding is required with respect to that interest in accordance with the provisions of section 3406 (e.g., because neither a Form W-8 nor a Form W-9 has been received). For purposes of this A-10, an exempt recipient is a person described in §1.6049-4(c)(1)(ii).

* * * * *

Q-12. Is a United States person (including a foreign paying agent of an issuer who is a United States person) who is otherwise required to deduct and withhold tax in accordance with A-10 required to obtain the certificate described in A-9 with respect to interest on a registered obligation that has been targeted to foreign markets?

A-12. The certificate described in A-9 is not required with respect to interest paid on a registered obligation that is targeted to foreign markets (in accordance with the provisions of A-13) if the interest is paid by a United States person to a registered owner at an address outside the United States, provided that the registered owner is a financial institution described in section 871(h)(4)(B). In that case, the United States person otherwise required to deduct and withhold tax may treat the interest as portfolio interest if it does not have actual knowledge that the beneficial owner is a United States person and if it receives the certificate described in A-14 from a financial institution or member of a clearing organization, which member is the beneficial owner of the obligation, or the documentary evidence or statement described in A-14 from the beneficial owner, in accordance with the procedures described in A-15.

* * * * *

Q-14. What is the certificate or documentary evidence that may be provided in lieu of the Form W-8 (or substitute form) in the circumstances described in A-12?

A-14. No particular form is required for the certificate or documentary evidence in lieu thereof described in this A-14, but it must be described in either subdivision (i) or subdivision (ii). The certificate described in subdivision (i) is required if the United States person otherwise required to deduct and withhold tax (the "withholding agent") pays interest to a financial institution described in section 871(h) (4)(B) or to a member of a clearing orgnaization, which member is the beneficial owner of the obligation. The documentary evidence or statement described in subdivision (ii) is required if a withholding agent pays interest to a beneficial owner that is neither a financial institution described in section 871(h)(4)(B) nor a member of a clearing organization.

(i)(A) If the withholding agent pays interest to a financial institution described in section 871(h)(4)(B) or to a member of a clearning organization, which member is the beneficial owner of the obligation, the withholding agent must receive a certificate which states that, beginning at the time the last preceding certificate under this subdivision (i) was provided and while the financial institution or clearing organization member has held the obligation, with respect to each registered obligation that is targeted to foreign markets (in accordance with the provisions of A-13) which has been held by the person providing the certificate at any time since the provision of such last preceding certificate, either—

(1) The beneficial owner of the obligation has not been a United States person on each interest payment date; or

(2) If the person providing the certificate is a financial institution which is holding or has held an obligation on behalf of the beneficial owner, the beneficial owner of the obligation has been a United States person on one or more interest payment dates (identifying such date or dates), and the person making the certification has forwarded or will

forward the appropriate United States beneficial ownership notification to the withholding agent in accordance with the provisions of A-15.

The person providing the certificate need not state the foregoing where no previous cetificate has been required to be provided by the payee to the withholding agent under this subdivisiion (i).

(B) Whether or not a previous certificate has been required to be provided under this subdivision (i), each certificate under this subdivision (i) must further state that, with respect to each registered obligation that is targeted to foreign markets (in accordance with the provisions of A-13) held and every other such obligation to be acquired and held by the person providing the certificate during the period beginning on the date of the certificate and ending on the date the next certificate is required to be provided, the beneficial owner of the obligation will not be a United States person on each interest payment date while the financial institution or clearing organization member holds the obligation and that, if the person providing the certificate is a financial institution which is holding or will be holding the obligation on behalf of a beneficial owner, such person will provide a United States beneficial ownership notification to the withholding agent (and a clearing organization that is not a withholding agent where a member organization is required by this A-14 to furnish the clearing organization with a statement) in accordance with A-15 of this section in the event such certificate (or statement in the case of a statement provided by a member organization to a clearing organization that is not a withholding agent) is or becomes untrue with respect to any obligation. A clearing organization is an entity which is in the business of holding obligations for member organizations and transferring obligations among such members by credit or debit to the account of a member without the necessity of physical delivery of the obligation.

(C) The certificate described in subdivision (i)(A) and (B) must identify the obligations with respect to which it is given, except where the certification is given with respect to an obligation that has not been acquired at the time the certification is made. An obligation is identified if it or the larger issuance of which it is a part is described on a list (*e.g.*, $5 million principal amount of 12% debentures of ABC Savings and Loan Association due February 25, 1995, $3 million principal amount of 10% U.S. Treasury notes due May 28, 1990) of all registered obligations targeted to foreign markets held by or on behalf of the person providing the certificate and the list is attached to, and incorporated by reference into, the certificate. The certificate must identify and provide the address of the person furnishing the certificate.

(D) If the withholding agent pays interest to a depositary of a clearing organization, then the clearing organization must provide the certificate to the withholding agent.

(E) Any certificate that is provided by a clearing organization must state that the clearing organization has received a statement from each member which complies with this subdivision (i) of A-14 and with A-15 (as if the clearing organization were the withholding agent and regardless of whether the member is a financial institution described in section 871(h)(4)(B)).

(F) Subject to the requirements set out in A-15, a certificate or statement in the form described in this subdivision (i) of A-14, in conjunction with the next annual certificate or statement, will serve as the certificate that may be provided in lieu of a Form W-8 with respect to interest on all foreign-targeted registered obligations held by the person making the certification or statement and which is paid to such person within the period beginning on the date of the certificate and ending on the date the next certificate is required to be provided.

(ii) If the withholding agent pays interest to the beneficial owner of an obligation that is neither a financial institution described in section 871(h)(4)(B) nor a member of a clearing organization, then such owner must provide the withholding agent a Form W-8 (or substantially similar form completed under penalties of perjury) as set forth in A-9 of this section. However, a withholding agent that is a foreign branch of a financial institution described in section 871(h)(4)(B) and a United States person need not receive any statement or certificate from such beneficial owner, provided that the beneficial owner furnishes the withholding agent with documentary evidence as described in subdivision (iii) of Q-5 of §35a.9999-4T that the beneficial owner is not a United States person.

Q-15. What procedures apply with respect to the certificate described in A-14?

A-15. (i)(A) Where no previous certificate with respect to registered obligations that are targeted to foreign markets (in accordance with the provisions of A-13) has been provided to the withholding agent by the person providing the certificate under subdivision (i) of A-14, such certificate must be provided within the period beginning 90 days prior to the first interest payment date on which the person holds a foreign-targeted registered obligation. (The withholding agent may, in its descretion, withhold the tax under section 1441(a) or 1442(a) if the certificate is not received by the date 30 days prior to the interest payment.) Thereafter the certificate must be filed within the period beginning on January 15 and ending on January 31 of each year. If a certificate provided pursuant to the first sentence of this subdivision (i)(A) is provided during the period beginning on January 15 and ending on January 31 of any year, then no other certificate need be provided during such period in such year.

(B) If on any interest payment date after the obligation was acquired by the person making the certification the beneficial owner of the obligation is a United States person, then the person to whom the withholding agent pays interest must furnish the withholding agent with a United States beneficial ownership notification within 30 days after such interest payment date. A United States beneficial ownership notification must include a statement that the beneficial owner of the obligation has been a United States person on an interest payment date (identifying such date), that such owner has provided to the person providing the notification a Form W-9 (or a substitute form that is substantially similar to Form W-9 and completed under penalties of perjury), and that the person providing the notification has been and will be complying with the information reporting require-

ments of section 6049, if applicable.

(C) Where the person providing the notification described in subdivision (i)(B) of this A-15 is neither *(1)* a controlled foreign corporation within the meaning of section 957(a), nor *(2)* a foreign corporation 50 percent or more of the gross income of which from all sources for the three-year period ending with the close of the taxable year preceding the date of the statement was effectively connected with the conduct of trade or business in the United States, such person must attach to the notification a copy of the Form W-9 (or substitute form that is substantially similar to Form W-9 and completed under penalties of perjury) provided by the beneficial owner. When a person that provides the United States beneficial ownership notification does not attach to it a copy of such Form W-9 (or substitute form that is substantially similar to Form W-9 and completed under penalties of perjury), such person must state that it is *(1)* a controlled foreign corporation within the meaning of section 957(a), or *(2)* a foreign corporation 50 percent or more of the gross income of which from all sources for the three-year period ending with the close of its taxable year preceding the date of the statement was effectively connected with the conduct of a trade or business in the United States. A withholding agent that receives a Form W-9 (or a substitute form that is substantially similar to Form W-9 and completed under penalties of perjury) must send a copy of such form to the Internal Revenue Service Center, Cincinnati, OH. 45999, within 30 days after receiving it and must attach a statement that the Form W-9 or substitute was provided pursuant to this A-15 with respect to a United States person that has owned a foreign-targeted registered obligation on one or more interest payment dates.

(D) if either a Form W-9 (or a substitute form that is substantially similar to a Form W-9 and completed under penalties of perjury) or the statement described in subdivision (C) of this A-15 is not attached to the United States beneficial ownership notification provided pursuant to subdivision (i)(B) of this A-15, the withholding agent is required to withhold tax under section 871 or 881 on a payment of interest made after the withholding agent has received the notification unless such form or statement (or a statement that the beneficial owner of the obligation is no longer a United States person) is received before the interest payment date from the person who provided the notification (or transferee). If, during the period beginning on the next January 15 and ending on the next January 31, such person certifies as set out in subdivision (i)(A) and (B) of A-14 (except that such person does not certify under subdivision (i)(A)2 that it has forwarded all United States beneficial ownership notifications to the withholding agent in accordance with the provisions of A-15), then the withholding agent is not required to withhold tax during the year following such certification (unless such person again provides a United States beneficial ownership notification without attaching a Form W-9 or substitute form that is substantially similar to Form W-9 and completed under penalties of perjury or the statement described in subdivision (C) of this A-15).

(E) Within the period beginning 10 days before the end of the calendar quarter and ending on the last day of each calendar quarter, any clearing organization (including a clearing organization that is a withholding agent) relying on annual certificates or statements from its member organizations, as set forth in A-14 of this section, must send each member organization having submitted such certificate or statement a reminder that the member organization must give the clearing organization a United States beneficial ownership notification in the circumstances described in subsidivision (i)(B) of this A-15.

(F) The certificate described in subdivision (i) of A-14 must be retained in the records of the withholding agent for four years from the end of the calendar year in which it was received. The statement described in subdivision (i) of A-14 that is received by a clearing organization from a member organization must be retained in the records of the clearing organization for four years from the end of the calendar year in which it was received. The withholding agent who receives the certificate described in subdivision (i) of A-14 is not required to file Form 1042S to report payments of interest that are made with respect to foreign-targeted registered obligations held by the person providing the certificate and are made within the period beginning with the certificate date and ending on the last date for filing the next certificate.

(ii)(A) The documentary evidence (or Form W-8 or substantially similar form completed under penalties of perjury) described in subdivision (ii) of A-14 must be provided to the withholding agent within the period beginning 90 days prior to and ending on the first interest payment date on which the withholding agent pays interest to the beneficial owner. The withholding agent may, in its discretion, withhold the tax under section 1441(a) or 1442(a) if the documentary evidence (or Form W-8 or substantially similar form completed under penalties of perjury) is not received by the date 30 days prior to the interest payment. The beneficial owner must confirm to the withholding agent the continuing validity of the documentary evidence within the period beginning 90 days prior to the first day of the third calendar year following the provision of such evidence and during the same period every three years thereafter while the owner still owns the obligation. The withholding agent who receives the documentary evidence described in subdivision (ii) of A-14 is not required to file Form 1042S for payments of interest that are made with respect to foreign-targeted registered obligations held by the person who provides the documentary evidence and are made within the period beginning with the date on which the documentary evidence is provided and ending on the last date for confirming the validity of the documentary evidence. Where a Form W-8 (or substantially similar form completed under penalties of perjury) has been provided, it must be prepared, renewed, and retained in accordance with the procedures prescribed in §1.6049-5(b)(2)(iv) and must be attached to the form 1042S required to be filed with respect to the payment.

(B) If, on any interest payment date after the obligation was acquired by the person providing the documentary evidence (or Form W-8 or substantially similar form completed under penalties of perjury) described in subdivision (ii) of A-14, the beneficial owner of the

obligation is a United States person, then the beneficial owner must so inform the withholding agent within 30 days after such interest payment date and must provide a Form W-9 (or substitute form that is substantially similar completed under penalties of perjury) to the withholding agent. However, the beneficial owner is not required to provide another Form W-9 (or substitute form that is substantially similar and completed under penalties of perjury) if such person has already provided it to the withholding agent within the same calendar year.

(iii) In accordance with the provisions of section 871(h)(4), the Secretary may make a determination in appropriate cases that a certificate or statement by any person, or class of persons, does not satisfy the requirements of that section. Should that determination be made, all payments of interest that otherwise qualify as portfolio interest to that person would become subject to the 30 percent withholding tax.

(iv) Notwithstanding the foregoing requirements of A-14 and A-15 of this section,

(A) Any certificate that is required to be filed with the withholding agent during the period beginning on January 15 and ending on January 31, 1986 is not required to state that the beneficial owner of an obligation, prior to the date of the certificate, either was not a United States person or was a United States person if the obligation was acquired by the person providing the certificate on or before September 19, 1985; and

(B) All of the requirements of A-14 and A-15 of §35a.9999-5, as in effect prior to the effective date of these amendments, shall remain effective with respect to each interest payment prior to the filing of the certificate described in subdivision (A), except that *(1)* the provisions of A-14 relating to which persons are required to receive certificates or statements and *(2)* subdivisions (ii) of A-14 and (ii) of A-15 shall befcome effective with respect to each interest payment after September 19, 1985.

* * * * *

(d) *Application of the Repeal of 30 Percent Withholding to pass-through Certificates.*

Q-20. Will interest paid to a holder of a pass-through certificate as described in §1.163-5T(d)(1) qualify as portfolio interest for purposes of the exemption from 30 percent withholding under section 871(h)(2) or section 881(c)(2)?

A-20. (i) Interest paid to a holder of a pass-through certificate will qualify as portfolio interest under section 871(h)(2) or section 881(c)(2) for purposes of the exemption from 30 percent withholding if the interest satisfies the conditions described in A-1 or A-8 of this section. For purposes of A-1 and A-8 of this section and sections 871(h) and 881(c), interest is considered to be paid on or with respect to the pass-through certificate and not on or with respect to any obligations held by the fund or trust to which the pass-through certificate relates. Thus, except as set forth in the last sentence of this subdivision (i), interest paid to the holder of a pass-through certificate is portfolio interest if the pass-through certificate is described in A-1 or A-8 of this section, without regard to whether any obligation held by the fund or trust to which the pass-through certificate relates is described in A-1 or A-8 of this section. For example, a mortgage pass-through certificate in bearer form must meet the requirements set forth in A-1 of this section, but the obligations held by the fund or trust to which the mortgage pass-through certificate relates need not meet the requirements set forth in A-1 or A-8 of this section. However, for purposes of A-1 and A-8 of this section and section 127 of the Tax Reform Act of 1984, a pass-through certificate will be considered as issued after July 18, 1984 only to the extent that the obligations held by the fund or trust to which the pass-through certificate relates are issued after July 18, 1984.

(ii) Solely for purposes of A-1 of this section, a pass-through certificate is considered to be an obligation that would be a registration-required obligation within the meaning of section 163(f)(2)(A) but for the fact that it is described in section 163(f)(2)(B) if the pass-through certificate is not described in section 163(f)(2)(A)(i), (ii), or (iii) (without regard to whether any obligation held by the fund or trust to which the pass-through certificate relates is described in any of those subsections) and if the pass-through certificate is described in section 163 (f)(2)(B), without regard to whether any obligation held by the fund or trust to which the pass-through certificate relates is described in section 163(f)(2)(B).

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved August 13, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on August 16, 1985, 10:29 a.m., and published in the issue of the Federal Register for August 20, 1985, 50 F.R. 33522)

Whether state income taxes paid by a political organization are deductible in computing political organization taxable income for federal income tax purposes under sections 164 and 527 of the Code. See Rev. Rul. 85-115, page 172.

Section 165.—Losses

26 CFR 1.165-1: Losses.

Are loss deductions allowed on the concurrent transfers of mortgage loan portfolios by three unrelated savings and loan associations where the transfers had no purpose or utility apart from the anticipated tax consequences? See Rev. Rul. 85-125, page 180.

---

26 CFR 1.165-11: Election in respect of losses attributable to a disaster.

Losses; casualty; disaster areas; year of deduction. Disaster areas in which losses during 1985 qualify for special tax treatment under section 165(i) of the Code are listed.

Rev. Rul. 85-195

LAW AND ANALYSIS—HOLDING

Under section 165(i) of the Internal Revenue Code, if a taxpayer suffers a loss attributable to a disaster occurring in an area subsequently determined by the President of the United States to warrant assistance by the Federal Gov-

ernment under the Disaster Relief Act of 1974, sections 101 and 102, 42 U.S.C. sections 5121 and 5122 (1982), 1974-2 C.B. 414, then the taxpayer may elect to take a deduction for that loss on the taxpayer's federal income tax return for the taxable year immediately preceding the taxable year in which the disaster occurred.

The election to deduct for the preceding year must be made on or before the later of (1) the original due date of the taxpayer's income tax return for the year in which the disaster occurred, or (2) the due date of the preceding year's return (taking into account extensions of time for filing granted to the taxpayer). Section 1.165-11 of the Income Tax Regulations. This section of the regulations sets forth the procedures for making an election with respect to such losses.

The provisions of section 165(i) of the Code apply only to losses that are otherwise deductible under section 165(a). An individual taxpayer may deduct losses if they are incurred in a trade or business, if they are incurred in a transaction entered into for profit, or if they are casualty losses under section 165(c)(3).

As of November 30, 1985, the President had determined that the areas listed below have been adversely affected by disasters of sufficient severity occurring during 1985 to warrant disaster assistance by the Federal Government under the Disaster Relief Act of 1974.

There may be areas in which a disaster occurs during 1985 and which the President, after November 30, 1985, declares eligible for disaster assistance under the Disaster Relief Act of 1974. Information concerning these areas will be published in future issues of the Internal Revenue Bulletin, and these areas will be included in this revenue ruling when it is published in the Cumulative Bulletin.

Disaster Areas in 1985	Type of Disaster	Date Disaster Occurred or Began
Alabama		
Counties of Baldwin and Mobile	Hurricane Elena	September 2, 1985
California		
Counties of Los Angeles, Monterey, San Diego, San Luis, Obispo, Santa Clara, Santa Cruz, and Ventura	Grass, wildlands, and forest fires	June 26, 1985

Section 166.—Bad Debts

26 CFR 1.166-4: Reserve for bad debts.

An adjustment under section 481(a) of the Code is required when there is an integration under section 381(c)(4) of the bad debt reserve of a thrift institution, computed under section 593, into a reserve of an acquiring commercial bank, computed under section 585, because such action results in a change in method of accounting. See Rev. Rul. 85-171, page 148.

Section 167.—Depreciation

26 CFR 1.167(a)-1: Depreciation in general.

Increase in the optional standard mileage rate for deducting the costs of operating an automobile for business purposes. See Rev. Proc. 85-49 page 716.

Section 168.—Accelerated Cost Recovery System

26 CFR 1.168(j)-1T: Questions and answers concerning tax-exempt entity leasing rules.

T.D. 8033

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Tax-Exempt Entity Leasing

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document provides temporary regulations regarding tax-exempt entity leasing. Changes to the applicable tax law were made by the Tax Reform Act of 1984 ("TRA") [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1]. These regulations provide guidance to persons executing lease agreements involving tax-exempt entities under section 168(j) of the Internal Revenue Code of 1954. In addition, the text of the temporary regulations set forth in this document serves as the comment document for the notice of proposed rulemaking published * * * [on page 841, this Bulletin].

DATE: In general, the regulations apply to leases involving tax-exempt entities entered into after May 23, 1983, and to property placed in service by the taxpayer after May 23, 1983. The revision to the safe harbor lease reporting requirements is effective with respect to such lease agreements executed after June 30, 1985.

ADDRESS INQUIRIES TO: Robert Beatson (Attn: LR-124-84), Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (202-566-3590).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains temporary regulations regarding tax-exempt entity leasing under section 168(j) of the Internal Revenue Code of 1954, as enacted by section 31 of TRA [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1, 17]. Since the tax-exempt entity leasing provisions generally became effective with respect to certain lease agreements entered into after May 23, 1983, there is a need for immediate guidance relating to basic issues regarding these provisions so taxpayers leasing property to certain tax-exempt entities can comply with these new provisions. These regulations will remain in effect until superseded by final regulations on this subject.

EXPLANATION OF PROVISIONS

Section 31 of TRA enacts a number of limitations regarding cost recovery deductions and tax credits applicable to certain property leased (or provided under a similar arrangement) to a tax-exempt entity such as a State or local governmental unit, an organization exempt from Federal taxation under section 501(c), or a foreign person who is generally not subject to Federal taxation. These limitations are intended to ensure that tax-exempt entities do not indirectly receive investment tax incentives through a lease (in the form of lower rent) that they would be ineligible to receive if they owned such prop-

erty. These provisions are generally intended to eliminate the ability of tax-exempt entities to effectively gain the advantage of income tax deductions and credits while having no corresponding liability to pay any tax on income from such property.

TRA reduces the tax benefits of lease arrangements involving tax-exempt entities by providing that the portions of real property constituting "tax-exempt use property" as defined by TRA which are leased to such entities generally must be depreciated over at least 40 years, and by providing that the portion of personal property constituting "tax-exempt use property" must generally be depreciated over at least a period defined by its ADR class mid-point life. TRA also provides clarification regarding when property is provided pursuant to a service contract rather than a lease. A number of basic issues regarding the tax-exempt leasing provisions are discussed in the following temporary regulations. In addition, provisions regarding the manner and times for making certain elections with respect to these provisions were published in Treasury Decision 7976 in the FEDERAL REGISTER for September 10, 1984 (49 F.R. 35486) [1984-2 C.B. 315].

These temporary regulations, presented in question and answer format, are intended to provide guidelines upon which taxpayers may rely to resolve the basic questions specifically set forth herein. No inference should be drawn regarding issues involving this or other Code sections not raised herein or reasons certain questions, and not others, are included in these regulations.

This document also contains temporary regulations revising the information reporting requirements for safe harbor lease agreements (not only permissible for qualified mass commuting vehicles as defined in section 103(b)(9)) executed after June 30, 1985. Form 6793, pertaining to safe harbor lease agreements, is obsolete for lease agreements executed after that date.

NON-APPLICABILITY OF EXECUTIVE ORDER 12291

The Commission of Internal Revenue has determined that these temporary regulations are not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis therefore is not required.

REGULATORY FLEXIBILITY ACT

No general notice of proposed rulemaking is required by 5 U.S.C. 553(b) because these are temporary regulations, and there is a need to provide the public with immediate guidance. Accordingly, the Regulatory Flexibility Act does not apply and no Regulatory Flexibility Analysis is required for this rule.

PAPERWORK REDUCTION ACT

The collection of information requirements contained in this regulation have been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of these regulations is Robert Beatson of the Legislation and Regulations Division of the Office of the Chief Counsel, Internal Revenue Service. Personnel from other offices of the Internal Revenue Service and the Treasury Department participated, however, in developing the regulations on matters of both substance and style.

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before these proposed regulations are adopted, consideration will be given to any written comments that are submitted (preferably seven copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Parts 1 and 602 are amended as follows:

1. These regulations are issued under the authority contained in 26 U.S.C. 7805 and 26 U.S.C. 168(j)(10). The authority citation for Part 1 is amended by adding "§1.168(f)(8)-1T also added under section 112(c) of the Black Lung Benefits Revenue Act of 1981 (Pub. L. 97-119) [1982-1 C.B. 307, 310]; and §1.168(j)-1T also added under 26 U.S.C. 168(j)(10)."

2. A new §1.48-12T is added immediately following §1.48-10(j) to read as follows:

§1.48-12T Tax-exempt entity leasing.

In general. For certain investment tax credit consequences for property which is tax-exempt use property under section 168(j), see §1.168(j)-1T.

3. A new §1.168(f)(8)-1T is added immediately following §1.168-7 to read as follows:

§1.168(f)(8)-1T Safe-harbor lease information returns concerning qualified mass commuting vehicles.

In general. Form 6793, Safe Harbor Lease Information Return, is obsolete for safe harbor lease agreements executed after June 30, 1985. The parties to a safe harbor lease agreement under section 168(f)(8) executed after June 30, 1985 must file with their timely filed (including extensions) Federal income tax returns for the taxable year during which the lease term begins a statement containing the following information:

(a) The name, address, and taxpayer identification number of the lessor and the lessee;

(b) A description of the property with respect to which safe-harbor lease treatment is claimed;

(c) The date on which the lessee places the property in service, the date on which the lease begins, and the term of the lease;

(d) The recovery property class of the leased property under section 168(c)(2) (for example, 5-year);

(e) The terms of the payments between the parties to the lease transaction;

(f) The unadjusted basis of the property as defined in section 168(d)(1) and its adjusted basis as determined under §5c.168(f)(8)-6(b)(3); and

(g) If the lessor is a partnership or grantor trust, the name, address, and taxpayer identification number of the partners or beneficiaries and the service center at which the income tax return

of each partner or beneficiary is filed. The lessor's failure to file the above-described statement shall void such agreement as a safe-harbor lease under section 168(f)(8) as of the date of the execution of the lease agreement. For rules regarding extensions of time for filing elections, see §1.9100-1.

4. A new §1.168(j)-1T is added immediately following §1.168(f)(8)-1T to read as follows:

§1.168(j)-1T Questions and answers concerning tax-exempt leasing rules.

The following questions and answers concern tax-exempt entity leasing under section 168(j) of the Internal Revenue Code of 1954, as enacted by section 31 of the Tax Reform Act of 1984 ("TRA") (Pub. L. 98-369) [1984-3 C.B. (Vol. 1) 1, 17]:

Consequences of tax-exempt use status:

Q-1. If recovery property is subject to the tax-exempt entity leasing provisions of section 168(j), how must the taxpayer compute the property's recovery deductions?

A-1. The taxpayer must compute the property's recovery deductions in accordance with section 168(j)(1) and (2); that is, the taxpayer must use the straight line method and the specified recovery period. For property other than 18-year real property, the applicable recovery percentages for the specified recovery period are to be determined with reference to the tables contained in Prop. Treas. Reg. §1.168-2(g)(3)(iv)(A). For 18-year real property for which a 40-year recovery period is required, the applicable recovery percentages are to be determined under the following table:

40-Year Straight Line Method (Assuming Mid-Month Convention)

If the recovery year is:	And the month in the first recovery year the property is placed in service is:											
	1	2	3	4	5	6	7	8	9	10	11	12
	The applicable recovery percentage is:											
1	2.4	2.2	2.0	1.8	1.6	1.4	1.1	0.9	0.7	0.5	0.3	0.1
2	2.5	2.5	2.5	2.5	2.5	2.5	2.5	2.5	2.5	2.5	2.5	2.5

Q-2. If recovery property that was placed in service after Deccember 31, 1980 by a taxable entity subsequently becomes tax-exempt use property, how are such property's cost recovery deductions under section 168 affected?

A-2. A change to tax-exempt use property, as defined in section 168(j)(3), will cause the cost recovery deductions under the accelerated cost recovery system (ACRS) to be recomputed. The allowable recovery deduction for the taxable year in which the change occurs (and for subsequent taxable years) must be determined as if the property had originally been tax-exempt use property. Proper adjustment must be made under the principles of Prop. Treas. Reg. §1.168-2(j)(3)(i)(B) to account for the difference between the deductions allowable with respect to the property prior to the year of change and those which would have been allowable had the taxpayer used the recovery period and method for tax-exempt use property under section 168(j)(1) and (2). However, no adjustment is made pursuant to the provisions of this A-2 if section 168(j)(2)(C) applies, that is, if the taxpayer had selected a longer recovery period in the year the property was placed in service than the recovery period prescribed for such property under section 168(j)(1).

Example (1). On July 1, 1983, X, a calendar year taxpayer, places in service 5-year recovery property with an unadjusted basis of $100. For 1983, X's allowable deduction is $15 (*i.e.*, .15 × $100). In 1984, the property becomes tax-exempt use property. Under section 168(j), assume the prescribed recovery period is 12 years. For 1984 (and subsequent taxable years), X's allowable deduction is determined as if the property had been tax-exempt use property since 1983, that is, the year it was placed in service. Thus, taxable year 1984 is the property's second recovery year of its 12-year recovery period. Additionally, X must account for the excess allowable recovery deduction of $11 (*i.e.*, the difference between the recovery allowance for 1983 ($15) and the allowance for that year had the property been tax-exempt use property ($4)) in accordance with the principles of Prop. Treas. Reg. §1.168-2(j)(3)(i)(B). Thus, the recovery allowances in 1984 and 1985 are $7.97, determined as follows:

Unadjusted basis multiplied by the applicable recovery percentage for second recovery year ($100 × .09)	$9.00
Excess allowable recovery deduction multiplied by the applicable recovery percentage for second recovery year divided by the sum of the remaining unused applicable percentages for tax-exempt use property existing as of the taxable year of change (1984) (($11 × .09)/.96)	− 1.03
Difference—allowable deduction for 1984	$7.97
Unadjusted basis multiplied by the applicable recovery percentage for third recovery year ($100 × .09)	$9.00
Excess allowable recovery deduction multiplied by the applicable recovery percentage for third recovery year divided by the sum of the remaining unused applicable percentages for tax-exempt use property existing as of the taxable year of change (1984) (($11 × .09)/.96)	− 1.03
Difference—allowable deduction for 1985	$7.97

Additionally, X must make a similar adjustment for the taxable years 1986 through 1995, that is, his fourth through thirteenth recovery years.

Example (2). Assume the same facts as in *Example (1)* except that in 1983, X elected under section 168(b)(3) with respect to the 5-year property to use the optional recovery percentages over a 25-year recovery period. Based on these facts, the provisions of this A-2 do not apply.

Definition of tax-exempt use property

—Mixed leases of real and personal property:

Q-3. How is a mixed lease of real property and personal property (*e.g.*, a building with furniture) to be treated for purposes of applying the rules of section 168(j)(3) defining which property constitutes tax-exempt use property?

A-3. The general rule is that 18-year real property and property other than 18-year real property are tested separately to determine whether each constitutes tax-exempt use property. However, if a lease of section 1245 class property is incidental to a lease of 18-year real property, and the 18-year real property is not tax-exempt use property, then the section 1245 class property also does not constitute tax-exempt use property. A lease of section 1245 class property will be considered incidental if the adjusted basis of all section 1245 class property leased in the same transaction is 1 percent or less of the adjusted basis of all 18-year real property leased in such transaction.

—Buildings which are partially tax-exempt use property:

Q-4. If part of a building is leased to a tax-exempt entity in a disqualified lease and part of the building is leased other than to a tax-exempt entity in a disqualified lease, to what extent do the tax-exempt entity leasing rules apply to such building?

A-4. The taxpayer must determine the amount of the building's unadjusted basis that is properly allocable to the portion of the building that is
exempt use property; the section 16
rules apply to the allocated amou
Solely for purposes of determin
what percentage of the building's b
is subject to the tax-exempt entity l
ing rules, no part of the basis is a
cated to common areas.

Example. A constructs a 3-story buildin
1984 at a cost of $900,000. Each floor consist
30,000 square feet. The only common a
(10,000 square feet) in the building is on the
floor. A leases the first floor (other than the c
mon areas) to a firm that is not a tax-exe
entity. A leases the top two floors to a
exempt entity in a 25-year lease. The top
floors constitute tax-exempt use property.
sume that square footage is the appropri
method for allocating basis in this case. Thus
must allocate $675,000 of the $900,000 basis
the tax-exempt use portion, determined
follows:

square footage of building which is tax-exempt use property (excluding common areas)	60,000 sq.
= total square footage in the building (excluding common areas)	80,000 sq.
	= ¾
¾ × $900,000	= $675,000

A must compute his recovery deductions
this portion of the basis ($675,000) in acco
ance with the rules of section 168(j)(1)
(2).

—Requirement of a lease:

Q-5. Can the use of property b
party other than a tax-exempt entity
sult in the property being treated as t
exempt use property within the mea
ing of section 168(j)(3)?

A-5. Yes, if based on all the fa
and circumstances it is more approp
ate to characterize the transaction a
lease to a tax-exempt entity. A transa
tion can be characterized as a lease t
tax-exempt entity under secti
168(j)(6)(A), which provides that "
term 'lease' includes any grant o
right to use property"; or under
service contract rules of secti
7701(e). See Q & A #18 for rules
garding service contracts.

Example. A trust is executed on January
1984, to create a pooled income fund (P)
meets the requirements of section 642(c)(5).
university (U) that is tax-exempt under sect
501(c)(3) is the remainderman of the pooled
come fund. P's purpose is to construct and op
ate an athletic center on land adjacent to
campus. Construction of the atheletic cent
which has a 50-year useful life, was comple
and the center was placed in service on Febru
1, 1985. The athletic center is managed for a
by M, an unrelated taxable organization wh
operates athletic facilities open to the public.
fice space at the facility is occupied rent-free

both the U athletic department and M. Scheduling of activities at the center is handled jointly by members of U's athletic department and M. General operating expenses of the athletic center are paid by P. Although the athletic center is open to the public for a membership fee, the majority of members are U's students who pay membership fees as part of their tuition. These fees are remitted by U to P. This arrangement is in substance a grant to U of a right to use the facility, and therefore a lease to U under section 168(j)(6)(A). U, as remainderman, will have obtained title to the entire building when the last pooled income fund donor dies. This arrangement is a disqualified lease because either (1) U has the equivalent of a fixed price purchase option under section 168(j)(3)(B)(ii)(II) (if U receives title as remainderman before the end of the useful life of the building), or (2) the lease has a term in excess of 20 years under section 168(j)(3)(B)(ii)(III) (if U does not receive title as remainderman until 20 years have elapsed), or both. Therefore, the allowable recovery deductions (without regard to salvage value) must be computed in accordance with section 168(j)(1) and (2). In addition, because this arrangement is treated as a lease under section 168(j), the facility is used by U for purposes of section 48(a)(4), and thus no investment tax credit is permitted with respect to any portion of the facility. This arrangement also may be treated as a lease to U for all purposes of chapter 1 of the Internal Revenue Code under section 7701(e).

—"More than 35 percent of the property" test:

Q-6. How is the percentage of 18-year real property leased to a tax-exempt entity in a disqualified lease to be determined for purposes of the "more than 35 percent of the property" test of section 168(j)(3)(B)(iii)?

A-6. The phrase "more than 35 percent of the property" means more than 35 percent of the net rentable floor space of the property. The net rentable floor space in a building does not include the common areas of the building, regardless of the terms of the lease. For purposes of the "more than 35 percent of the property" rule, two or more buildings will be treated as separate properties unless they are apart of the same project, in which case they will be treated as one property. Two or more buildings will be treated as part of the same project if the buildings are constructed, under a common plan, within a reasonable time of each other on the same site and will be used in an integrated manner.

Q-7. Are disqualified leases to different tax-exempt entities (regardless of whether they are related) aggregated in determining whether 18-year real property is tax-exempt use property?

A-7. Yes.

Example. A tax-exempt entity participates in industrial development bond financing for the acquisition of a new building by a taxable entity. The tax-exempt entity leases 60 percent of the net rentable floor space in the building for 5 years. Sixty percent of the building is tax-exempt use property. If the same tax-exempt entity leased only 19 percent of the net rentable floor space in the building for 5 years, no portion of the building would be tax-exempt use property because not more than 35 percent of the property is leased to a tax-exempt entity pursuant to a disqualified lease. If such tax-exempt entity leased only 19 percent of the net rentable floor space in the building for 5 years and another tax-exempt entity leased 20 percent of the net rentable floor space in the building for a term in excess of 20 years (or a related entity leased 20 percent of the building for 5 years), 39 percent of the building would be tax-exempt use property. See A-4 regarding the determination of the amount of the building's unadjusted basis that is properly allocable to the portion of the building that is tax-exempt use property.

—"Predominantly used" test:

Q-8. What does the term "predominantly used" mean for purposes of the section 168(j)(3)(D) exception to the tax-exempt use property rules?

A-8. "Predominantly used" means that for more than 50 percent of the time used, as determined for each taxable year, the real or personal property is used in an unrelated trade or business the income of which is subject to tax under section 511 (determined without regard to the debt-financed income rules of section 514). If only a portion of property is predominantly used in an unrelated trade or business, the remainder may nevertheless be tax-exempt use property.

Q-9. How is the "predominantly used" test of section 168(j)(3)(D) to be applied to a building?

A-9. The "predominantly used" test is to be applied to a building in the following manner:

(i) Identify the discrete portions (excluding common areas) of the building which are leased to a tax-exempt entity in a disqualified lease under section 168(j)(3)(B)(ii). A discrete portion of a building is an area physically separated from other areas. An area is physically separated from other areas if separated by permanent walls or by partitions serving as room dividers if such partitions remain in place throughout the taxable year. A discrete portion can be the entire building, floors, wings, offices, rooms, or a combination thereof. For example, a building whose entire internal space consists of a single large room used as a gymnasium has only one discrete portion. On the other hand, if the building has 3 stories with 10 offices on each floor, each of the 30 offices is a discrete portion.

(ii) Determine whether each discrete portion is predominantly used in an unrelated trade or business subject to tax under section 511. See A-8 for the rules regarding how to make this determination.

(iii) Once the discrete portions of the building that constitute tax-exempt use property have been identified, an appropriate allocation of basis must be made to such discrete portions. See A-4 for rules regarding how to make such allocation.

(iv) The application of these rules is illustrated by the following example:

Example. A building, constructed in 1985, is leased in its entirety to a tax-exempt entity (E) pursuant to a 25-year lease. The building has 25,000 square feet of net rentable floor space and consists of an auditorium (15,000 square feet), a retail shop (10,000 square feet), plus common area of 5,000 square feet. E uses the auditorium 80 percent of the time in its exempt activity and 20 percent of the time in an unrelated trade or business subject to tax under section 511. The retail shop is used 90 percent of the time in an unrelated trade or business subject to tax under section 511 and 10 percent of the time in an exempt activity. Thus, the auditorium is tax-exempt use property; the retail shop is not. An appropriate allocation of basis to the auditorium must be made. See A-4.

Definition of tax-exempt entity:

Q-10. What elections must be made in order to avoid the "5-year lookback" rule of section 168(j)(4)(E)(i)?

A-10. Only organizations which were exempt from tax under section 501(a) as organizations described in section 501(c)(12) (and which are no longer tax-exempt) may avoid the 5-year lookback rule of section 168(j)(4)(E)(i). In order to avoid the 5-year lookback rule with respect to any property, two elections are required. First, the organization must elect not to be exempt from tax under section 501(a) during the tax-exempt use period (as defined in section 168(j)(4)(E)(ii)(II)) with respect to the property. Second, the organization must elect to be taxed on the exempt arbitrage profits as provided in section 341(g)(16) of the Tax Reform Act of

1984. See Temp. Treas. Reg. §5h.4(a) for the time and manner of making these elections. These elections, once made, are irrevocable.

Q-11. Does the term "tax-exempt entity" include tax-exempt plans of deferred compensation and similar arrangements?

A-11. Yes. For purposes of section 168(j), the term "tax-exempt entity" includes trusts or other entities that are tax-qualified under section 401(a), individual retirement accounts, simplified employee pensions, and other tax-exempt arrangements described in subchapter D of chapter 1 of the Internal Revenue Code.

Special rules for high technology equipment:

Q-12. What effect do the tax-exempt entity leasing provisions have on "qualified technological equipment"?

A-12. "Qualified technological equipment" which is leased to a tax-exempt entity for a term of 5 years or less shall not constitute tax-exempt use property. If "qualified technological equipment" which is leased to a tax-exempt entity for a term of more than 5 years constitutes tax-exempt use property (as defined in section 168(j)(3)) and is not used predominantly outside the United States, the rules of section 168(j)(1) and (2) apply except that the recovery period to be used for such equipment shall be 5 years regardless of the length of the lease term. For purposes of section 168(j)(5), "qualified technological equipment" means (1) any computer or peripheral equipment, (2) any high technology telephone station equipment installed on the customer's premises, and (3) any high technology medical equipment. For definitions of these terms, see A-13 through A-16.

Q-13. What is a "computer" as that term is used in section 168(j)(5)(C)(i)(I)?

A-13. Computers are electronically activated devices that are programmable by the user and that are capable of accepting information, applying prescribed processes to it, and supplying the results of those processes with or without human intervention. Computers consist of a central processing unit containing extensive storage, logic, arithmetic, and control capabilities. A computer does not include any equipment which is an integral part of property that is not a user-programmable device, any video games or other devices used by the user primarily for amusement or entertainment purposes, or any typewriters, calculators, adding or accounting machines, copiers, duplicating equipment, or similar equipment. A computer does not include any equipment that is not tangible personal property.

Q-14. What is "peripheral equipment" as that term is used in section 168(j)(5)(C)(i)(I)?

A-14. Peripheral equipment means tangible personal property such as auxiliary machines, whether on-line or off-line, that are designed to be placed under the control of the central processing unit of the computer. Some examples of peripheral equipment are: card readers, card punches, magnetic tape feeds, high speed printers, optical character readers, tape cassettes, mass storage units, paper tape equipment, keypunches, data entry devices, teleprinters, terminals, tape drives, disc drives, disc files, disc packs, visual image projector tubes, card sorters, plotters, and collators. Peripheral equipment does not include equipment not included in Asset Depreciation Range (ADR) 00.12 listed in section 3 of Rev. Proc. 83-35, 1983-1 C.B. 745, 746. Peripheral equipment also does not include any equipment that is an integral part of property that is not a user-programmable device, any video games or other devices used by the user primarily for amusement or entertainment purposes, or any typewriters, calculators, adding or accounting machines, copiers, duplicating equipment, or similar equipment.

Q-15. What does "high technology telephone station equipment" mean as that term is used in section 168(j)(5)(C)(i)(II)?

A-15. High technology telephone station equipment includes only tangible personal property described in asset depreciation range (ADR) class 48.13 listed in section 3 of Rev. Proc. 83-35, 1983-1 C.B. 745, 758 that has a high technology content and which, because of such high technology content, can reasonably be expected to become obsolete before the expiration of its physical useful life. For example, telephone booths and telephones which include only a standard dialing feature are not highly technology equipment. However, telephones with features such as an abbreviated dialing short program, an automatic callback, or conference call feature may qualify as high technology equipment. High technology telephone station equipment may include terminal equipment including such extra features but not terminal equipment used in conjunction with features offered through central office capacity. There are no current plans to utilize the regulatory authority provided in section 168(j)(5)(C)(iv).

Q-16. What is "high technology medical equipment" as that term is used in section 168(j)(5)(C)(i)(III)?

A-16. High technology medical equipment is any electronic, electromechanical, or computer-based high technology equipment which is tangible personal property used in the screening, monitoring, observation, diagnosis, or treatment of human patients in a laboratory, medical, or hospital environment. High technology medical equipment includes only equipment that has a high technology content and which, because of such high technology content, can reasonably be expected to become obsolete before the expiration of its physical useful life. High technology medical equipment may include computer axial tomography (C.A.T.) scanners, nuclear magnetic resonance equipment, clinical chemistry analyzers, drug monitors, diagnostic ultrasound scanners, nuclear cameras, radiographic and fluoroscopic systems, Holter monitors, and bedside monitors. Incidental use of any such equipment for other purposes, such as research, will not prevent it from qualifying as high technology medical equipment. There are no current plans to utilize the regulatory authority provided in section 168(j)(5)(C)(iv).

Lease term:

Q-17. What is included in determining the length of a lease term?

A-17. (i) The lease term starts when the property is first made available to the lessee under the lease. The lease term includes not only the stated duration, but also any additional period of time which is within the "realistic contemplation of the parties at the time the property is first put into service."

Hokanson v. Commissioner, 730 F.2d 1245, 1248 (9th Cir. 1984). A subsequent period of time is included in the term of the original lease if the circumstances indicate that the parties, upon entering into the original lease, had informally agreed that there would be an extension of the original lease.

(ii) With respect to personal property, the lease term includes all periods for which the tax-exempt lessee or a related party (as defined under section 168(j)(7)) has a legally enforceable option to renew the lease, or the lessor has a legally enforceable option to compel its renewal by the tax-exempt entity or a related party. This is true regardless of the renewal terms of the lease agreement or whether the lease is in fact renewed.

(iii) With respect to real property, the lease term includes all periods for which the tax-exempt lessee or a related party (as defined under section 168(j)(7)) has a legally enforceable option to renew the lease, or the lessor has a legally enforceable option to compel its renewal by the tax-exempt entity or a related party, unless the option to renew is at fair market value, determined at the time of the renewal. The *Hokanson* facts and circumstances test (see (i) above) may cause the term of a fair market value renewal option to be treated as part of the original lease term.

(iv) Successive leases that are part of the same transaction or a series of related transactions concerning the same or substantially similar property shall be treated as one lease. This rule applies if at substantially the same time or as part of one arrangement the parties enter into multiple leases covering the same or substantially similar property, each having a different term. If so, then the original lease term will be treated as running through the term of the lease that has the last expiration date of the multiple leases. The multiple lease rule will not apply merely because the parties enter into a new lease at fair market rental value at the end of the original lease term.

(v) The application of the above rules is illustrated by the following examples:

Example (1). On December 30, 1984, X, a taxable corporation, and Y, a tax-exempt entity, enter into a requirements contract for a period of 3 years. The requirements contract sets the terms and conditions under which X and Y will do business on those occasions when X actually leases items of personal property to Y. The requirements contract imposes no obligation on either party to actually enter into a lease agreement. Pursuant to this requirements contract, on January 1, 1985, X and Y enter into three separate leases. Under the leases, Y obtained the use of three identical items of personal property, each for a term of six months beginning on January 1, 1985. On March 1, 1985, Y entered into a fourth lease for the use of a fourth item of personal property substantially similar to the other three items for a term of 20 months beginning on that date. The mere fact that all 4 leases were entered into pursuant to the same requirements contract and involved the same or substantially similar property does not require aggregation of the terms of such leases under section 168(j)(6)(B).

Example (2). Assume the same facts as in Example (1) except that, instead of the 4 leases entered into in Example (1), on January 1, 1985, pursuant to the requirements contract, X and Y enter into a lease for an item of personal property for one year. On January 10, 1986, after the end of the one-year lease term, X and Y enter into a second lease with respect to the same or substantially similar equipment. Assuming that the requirements contract itself is not a lease and assuming that the parties did not have any informal or implicit understanding (other than the general expectation of doing some business in the future) to enter into the second lease when the first lease was entered into, these two leases are not aggregated. The mere fact that the parties entered into two leases under the requirements contract does not result in the application of the section 168(j)(6)(B) rules for successive leases.

Example (3). The facts are the same as in *Example (2)* except that the parties did have an understanding, informal or otherwise, at the time of the first lease that they would enter into a second lease of the same personal property. The terms of the leases are aggregated.

Example (4). The fact are the same as in *Example (2)* except that, instead of the leases entered into in Example (2), on January 1, 1985, X and Y enter into two separate leases, each for a term of one year. One lease is for the period beginning on January 1, 1985 and ending on December 31, 1985. The other lease is for the period beginning on January 1, 1986 and ending on December 31, 1986. Both leases involve the same or substantially similar personal property. Under the successive lease rule, the terms of both leases are aggregated for purposes of determining the term of either lease under section 168(j)(6)(B). This result occurs because the two leases were entered into as part of the same transaction, and they relate to the same or substantially similar personal property.

Service contract issues:

Q-18. How is the treatment of service contracts affected by the service contract rules set forth in section 7701(e)?

A-18. If a contract which purports to be a service contract is treated as a lease under section 7701(e), such contract is to be treated as a lease for all purposes of Chapter 1 of the Internal Revenue Code (including , for example, section 168(j) and section 48(a)(4) and (5)).

Q-19. Does a contract to provide heating, maintenance, etc. services in low-income housing come within the low-income housing exception in section 7701(e)(5) to the service contract rules set forth in section 7701(e)?

A-19. No. Although certain low-income housing operated by or for an organization described in paragraphs (3) or (4) of section 501(c) is not subject to the service contract rules in section 7701(e), a contract, for instance, to provide heating services to low-income housing units, such as by installing and operating a furnace, does not constituent "low-income housing" within the meaning of section 7701(e)(5). Thus, the rules of section 7701(e) apply to such contracts in determining whether they are properly treated as leases.

Partnership issues:

Q-20. Do the provisions applicable to property leased to partnerships, set forth in section 168(j)(8), and the provisions applicable to property owned by partnerships, set forth in section 168(j)(9), apply to pass-through entities other than partnerships?

A-20. Yes. Rules similar to those provided in paragraphs (8), (9)(A), (9)(B), and (9)(C) of section 168(j) and those provided in Q & A's 21-26 apply to pass-through entities other than partnerships.

Q-21. What rules apply to property owned by a partnership in which one or more partners is a tax-exempt entity?

A-21. If property is owned by a partnership having both taxable and tax-exempt entities as partners, and any allocation to a tax-exempt entity partner is not a "qualified allocation" under section 168(j)(9)(B), then such entity's proportionate share of the property is to be treated as tax-exempt use property for all purposes. However, the property will not be tax-exempt use property if it is predominantly used by the partnership in an activity which, with respect to the tax-exempt entity, is an unrelated trade or business. An activity is an unrelated trade or business with respect to a tax-exempt entity if such entity's distributive share of the partnership's gross income from the activity is in-

cludible in computing its unrelated business taxable income under section 512(c) (determined without regard to the debt-financed income rules of section 514). A tax-exempt entity partner's proportionate share of property of a partnership equals such partner's share of that item of the partnership's income or gain (excluding income or gain allocated under section 704(c)) in which the tax-exempt entity has the highest share. If the tax-exempt entity partner's share of any item of income or gain (excluding income or gain allocated under section 704(c)) may vary during the period it is a partner, the previous sentence shall be applied with reference to the highest share of any such item that it may receive at any time during such period. The application of these rules is illustrated by the following example:

Example. A partnership (P) operates a factory, which consists of a building and various items of machinery. P has one tax-exempt entity (E) as a partner, and E's proportionate share is 10 percent (*i.e.*, 10 percent is the largest share of any item of income or gain that E may receive during the time E is a partner). Unless P's allocations to E are qualified under section 168(j)(9)(B), 10 percent of each item of partnership property (including the building) is tax-exempt use property, notwithstanding the 35 percent threshold test of section 168(j)(3)(B)(iii) that is otherwise applicable to 18-year real property. However, the property will not be tax-exempt use property if it is predominantly used by the partnership in an activity which, with respect to E, is an unrelated trade or business (determined without regard to the debt-financed income rules of section 514).

Q-22. What constitutes a "qualified allocation" under section 168(j)(9)(B)?

A-22. (i) A "qualified allocation" means any allocation to a tax-exempt entity which is consistent with such entity's being allocated the same share (*i.e.*, the identical percentage) of each and every item of partnership income, gain, loss, deduction, credit, and basis during the entire period such entity is a partner. Except as provided in A-23, an allocation is not qualified if it does not have substantial economic effect under section 704(b). However, for purposes of the two preceding sentences, items allocated under section 704(c) (relating to contributed property) are not taken into account. An allocation is not a "qualified allocation" under section 168(j)(9)(B) if the partnership agreement provides for, or the partners have otherwise formally or informally agreed to, any change (regardless of whether such change is contingent upon the happening of one or more events) in the tax-exempt entity's distributive share of income, gain, loss, deduction, credit, or basis at any time during the entire period the tax-exempt entity is a partner.

(ii) A change in a tax-exempt entity's distributive share of income, gain, loss, deduction, credit, or basis which occurs as a result of a sale or redemption of a partnership interest (or portion thereof) or a contribution of cash or property to the partnership shall be disregarded in determining whether the partnership allocations are qualified, provided that such transaction is based on fair market value at the time of the transaction and that the allocations are qualified after the change. For this purpose the consideration determined by the parties dealing at arm's length and with adverse interests normally will be deemed to satisfy the fair market value requirement. In addition, a change in a tax-exempt entity's distributive share which occurs as a result of a partner's default (other than a prearranged default) under the terms of the partnership agreement will be disregarded, provided that the allocations are qualified after the change, and that the change does not have the effect of avoiding the restrictions of section 168(j)(9). Any of the above-described transactions between existing partners (and parties related to them) will be closely scrutinized.

Example (1). A, a taxable entity, and B, a tax-exempt entity, form a partnership in 1985. A contributes $800,000 to the partnership; B contributes $200,000. The partnership agreement allocates 95 percent of each item of income, gain, loss, deduction, credit, and basis to A; B's share of each of these items is 5 percent. Liquidation proceeds are, throughout the term of the partnership, to be distributed in accordance with the partner's capital account balances, and any partner with a deficit in his capital account following the distribution of liquidation proceeds is required to restore the amount of such deficit to the partnership. Assuming that these allocations have substantial economic effect within the meaning of section 704(b)(2), they are qualified because B's distributive share of each item of income, gain, loss, deduction, credit, and basis will remain the same during the entire period that B is a partner. The fact that the liquidation proceeds may be distributed in a ratio other than 95 percent/5 percent does not cause the allocations not to be qualified.

Example (2). A, B, and E are members of a partnership formed on July 1, 1984. On that date the partnership places in service a building and section 1245 class property. A and B are taxable entities; E is a tax-exempt entity. The partnership agreement provides that during the first 5 years of the partnership, A and B are each allocated 40 percent of each item of income, gain, loss, deduction, credit, and basis; E is allocated 20 percent. Thereafter, A, B, and E are each allocated 33 1/3 percent of each item of income, gain, loss, deduction, credit, and basis. Assume that these allocations meet the substantial economic effect test of section 704(b)(2) and E's distributive share of the partnership's income is not unrelated trade or business income subject to tax under section 511. The allocations to E are not qualified allocations under section 168(j)(9)(B) because E's distributive share of partnership items does not remain the same during the entire period that E is a partner in the partnership. Thus, 33 1/3 percent of the building and 33 1/3 percent of the section 1245 class property are tax-exempt use property from the time each is placed in service by the partnership and are thus subject to the cost recovery rules of section 168(j)(1) and (2). In addition, no investment tax credit is allowed for 33 1/3 percent of the section 1245 class property because of section 48(a)(4).

Q-23. In determining whether allocations constitute qualified allocations, what rules are applied to test allocations that are not governed by the substantial economic effect rules?

A-23. A-22 provides the general rules to be used in determining whether an allocation is a qualified allocation, including the rule that the allocation must have substantial economic effect. However, certain allocations are not governed by the substantial economic effect rules (*e.g.*, an allocation of basis of an oil and gas property is generally governed by section 613A(c)(7)(D), rather than section 704(b)), and other allocations cannot satisfy the substantial economic effect rules (*e.g.*, allocations of credits, allocations of deduction and loss attributable to nonrecourse debt, and allocations of percentage depletion in excess of basis). Since allocations in either of these categories cannot be tested under the substantial economic effect test, these allocations, in order to be qualified, must comply with the relevant Code or regulation section that governs the particular allocation (*e.g.*, in the case of an allocation of basis of an oil and gas property, section 613A(c)(7)(D)).

Q-24. Will the Internal Revenue Service issue letter rulings on the issue of whether an allocation is a "qualified allocation" for purposes of section 168(j)(9)?

A-24. The Internal Revenue Service will accept requests for rulings on the question of whether an allocation is a "qualified allocation" for purposes of

section 168(j)(9). Such requests should be submitted in accordance with the appropriate revenue procedure. One requirement of a qualified allocation is that such allocation must have substantial economic effect under section 704(b)(2). Currently, the Service will not rule on the question of whether an allocation has substantial economic effect under section 704(b)(2). Therefore, unless and until this policy is changed, a ruling request regarding a qualified allocation must contain a representation that the subject allocation has substantial economic effect (or complies with A-23, if applicable).

Q-25. Do priority cash distributions which constitute guaranteed payments under section 707(c) disqualify an otherwise qualified allocation?

A-25. Priority cash distributions to partners which constitute guaranteed payments will not disqualify an otherwise qualified allocation if the priority cash distributions are reasonable in amount (*e.g.*, equal to the Federal short-term rate described in section 1274(d)) and are made in equal priorities to all partners in proportion to their capital in the partnership. Other guaranteed payments will be closely scrutinized and, in appropriate cases, will disqualify an otherwise qualified allocation.

Example. A and B form Partnership AB to operate a manufacturing business. A is a tax-exempt entity; B is a taxable person. A contributes $500,000 to the partnership; B contributes $100,000. The partnership agreement provides that A and B are each entitled to cash distributions each year, in equal priority, in an amount equal to 8 percent of their capital contribution. Assume that these payments are reasonable in amount and constitute guaranteed payments under section 707(c). Without taking into consideration the guaranteed payments, all allocations constitute qualified allocations under section 168(j)(9)(B) and A-22. These guaranteed payments will not disqualify such allocations.

Q-26. Can property be treated as tax-exempt use property under both the general rule of section 168(j)(3) and the partnership provisions of section 168(j)(9)?

A-26. Yes. For example, a tax-exempt entity may be a partner in a partnership that owns a building 60 percent of which is tax-exempt use property because it is leased to an unrelated tax-exempt entity under a 25-year lease. The status of the remaining 40 percent depends on whether or not allocations under the partnership agreement are qualified under section 168(j)(9). If the allocations are not qualified under section 168(j)(9), the tax-exempt entity's proportionate share (as determined under section 168(j)(9)(C)) of the remaining 40 percent will be tax-exempt use property. For example, if the tax-exempt entity's proportionate share is 30 percent, then 12 percent of the remaining 40 percent (*i.e.*, .30 times .40) is tax-exempt use property and a total of 72 percent of the property (60 percent + 12 percent) is tax-exempt use property.

Effective date questions:

Q-27. Does an amendment to a lease (or sublease) to a tax-exempt entity of property which, pursuant to the effective date provisions of section 31(g) of TRA, is not subject to section 168(j) cause such property to be subject to the provisions of section 168(j)?

A-27. An amendment to such a lease (or sublease) does not cause such property to be subject to the provisions of section 168(j) unless the amendment increases the term of the lease (or sublease). However, if the amendment increases the amount of property subject to the lease, the additional property must be tested independently under the effective date provisions of section 31(g) of TRA. See A-31 for special rules regarding improvements to property.

Example. On May 1, 1983, X, a taxable entity, and E, a tax-exempt entity, enter into a lease whereby X will lease to E the top 4 floors of a ten-story building for a lease term of 25 years. In 1985, the lease is amended to provide that E will lease an additional floor for the balance of the lease term. At that time the annual rent due under the lease is increased. Pursuant to the provisions of section 31(g)(2)(A) of TRA, section 168(j) does not apply to the lease to E of the top 4 floors of the building. Assuming that no other provision of section 31(g) of TRA provides otherwise, the floor added to the lease in 1985 is subject to the provisions of section 168(j).

Q-28. If property which is not subject to section 168(j) by virtue of the effective date provisions of section 31(g) of TRA is sold, subject to the lease to the tax-exempt entity, what are the consequences?

A-28. Property to which section 168(j) does not apply by virtue of the effective date provisions set forth in section 31(g)(2),(3), and (4) of TRA will not become subject to section 168(j) merely by reason of a transfer of the property subject to the lease by the lessor (or a transfer of the contract to acquire, construct, reconstruct, or rehabilitate the property), so long as the lessee (or party obligated to lease) does not change. For purposes of the preceding sentence, the term "transfer" includes the sale-leaseback by a taxable lessor of its interest in the property, subject to the underlying lease to the tax-exempt entity. However, if property is transferred to a partnership or other pass-through entity after the effective date of section 168(j)(9) (see section 31(g) of TRA), such property is subject to the provisions of section 168(j)(9).

Q-29. Can property which was leased to a tax-exempt entity after May 23, 1983 and acquired by a partnership before October 22, 1983 be tax-exempt use property.

A-29. Yes. Because the property was leased to a tax-exempt entity after May 23, 1983 it may be tax-exempt use property under section 168(j)(3) and section 31(g)(1) of TRA. However, if the partnership included a tax-exempt entity as a partner, section 168(j)(9) wold be inapplicable under section 31(g)(3)(B) of TRA because the partnership acquired the property before October 22, 1983.

Q-30. What is a binding contract for purposes of the transitional rules in section 31(g) of TRA?

A-30. (i) A contract is binding only if it is enforceable under State law against the taxpayer or a predecessor and does not limit damages to a specified amount, as for example, by a liquidated damages provision. A contract that limits damages to an amount equal to at least 5 percent of the total contract price will not be treated as limiting damages for this purpose. In determining whether a contract limits damages, the fact that there may be little or no damages because the contract price does not significantly differ from fair market value will not be taken into account. For example, if a taxpayer entered into an irrevocable contract to purchase an asset for $100 and the contract contained no provision for liquidated damages, the contract is considered binding notwithstanding the fact that the property had a fair market value of $99 and under local law the seller would only recover the difference

in the event the purchaser failed to perform. If the contract provided for a refund of the purchase price in lieu of any damages allowable by law in the event of breach or cancellation, the contract is not considered binding.

(ii) A contract is binding even if subject to a condition, so long as the condition is not within the control of either party or a predecessor in interest. A contract will not be treated as ceasing to be binding merely because the parties make insubstantial changes in its terms or because any term is to be determined by a standard beyond the control of either party. A contract which imposes significant obligations on the taxpayer (or a predecessor) will be treated as binding notwithstanding the fact that insubstantial terms remain to be negotiated by the parties to the contract.

(iii) A binding contract to acquire a component part of a larger piece of property will not be treated as a binding contract to acquire the larger piece of property. For example, if a tax-exempt entity entered into a binding contract on May 1, 1983 to acquire a new aircraft engine, there would be a binding contract to acquire only the engine, not the entire aircraft.

Q-31. If an improvement is made to a property that is "grandfathered" (*i.e.*, property that is not subject to section 168(j) because of the effective date provisions of section 31(g) of TRA), to what extent will such improvement be grandfathered?

A-31. Section 31(g)(20)(B) provides that a "substantial improvement" to property is treated as a separate property for purposes of the effective date provisions of section 31(g) of TRA. As a result, a "substantial improvement" will not be grandfathered unless such "substantial improvement" is grandfathered under a provision other than section 31(g)(20)(B). A property that is grandfathered will not become subject to section 168(j) merely because an improvement is made to such property, regardless of whether the improvement is a "substantial improvement". If an improvement other than a "substantial improvement" is made to property (other than land) that is grandfathered, that improvement also will be grandfathered. The determination of whether new construction constitutes an improvement to property or the creation of a new separate property will be based on all facts and circumstances. Furthermore, any improvement to land will be treated as a separate property.

Example. On January 3, 1983, T, a taxable entity, entered into a lease of a parking lot to E, a tax-exempt entity. On January 1, 1985, T begins construction of a building for use by E on the site of the parking lot. The building is completed and placed in service in November 1985. The building is treated as a separate property, and is thus subject to the provisions of section 168(j), unless the building is grandfathered under a provision other than section 31(g)(20)(B) of TRA.

Q-32. What is "significant official governmental action" for purposes of the section 31(g)(4) transitional rule of TRA?

A-32. (i) "Significant official governmental action" involves three separate requirements. First, the action must be an official action. Second, the action must be specific action with respect to a particular project. Third, the action must be taken by a governmental entity having authority to commit the tax-exempt entity to the project, to provide funds for it, or to approve the project under State or local law.

(ii) The first requirement of official action means that the governing body must adopt a resolution or ordinance, or take similar official action, on or before November 1, 1983. The action qualifies only if it conforms with Federal, State, and local law (as applicable) and is a proper exercise of the powers of the governing body. Moreover, the action must not have been withdrawn. There must be satisfactory written evidence of the action that was in existence on or before November 1, 1983. Satisfactory written evidence includes a formal resolution or ordinance, minutes of meetings, and binding contracts with third parties pursuant to which third parties are to render services in furtherance of the project.

(iii) The second requirement of specific action is directed at the substance of the action taken. The action must be a specific action with respect to a particular project in which the governing body indicates an intent to have the project (or the design work for it) proceed. This requires that a specific project have been formulated and that the significant official action be a step toward consummation of the project. If the action does not relate to a specific project or merely directs that a proposal or recommendation be formulated, it will not qualify. The following set of actions with respect to a particular project constitute specific action: the hiring of bond counsel or bond underwriters necessary to assist in the issuance and sale of bonds to finance a particular project or the adoption of an inducement resolution relating to bonds to be issued for such a project; applying for an Urban Development Action Grant on behalf of the project described in the application, receiving such a grant concerning the project, or the recommendation of a city planning authority to proceed with a project; the enactment of a State law authorizing the sale, lease, or construction of the property; the appropriation of funds for the property or authorization of a feasibility study or a development services contract with respect to it; the approval of financing arrangements by a regulatory agency; the enactment of a State law designed to provide funding for a project; the certification of a building as a historic structure by a State agency and the Department of the Interior; or the endorsement of the application for a certification of need with respect to a medical facility by a regulatory agency other than the agency empowered to issue such a certificate.

(iv) The third requirement for significant official governmental action is that the action must be taken by a Federal, State, or local governing body having authority to commit the tax-exempt entity to the project, to provide funds for it, or to approve the project under applicable law. If the chief executive or another representative of a governing body has such authority, action by such representative would satisfy the requirement of this (iv). A governing body may have the authority to commit the tax-exempt entity to a project notwithstanding the fact that the project cannot be consummated without other governmental action being taken. For example, a city council will be treated as having authority to commit a city to do a sale-leaseback of its city hall notwithstanding the fact that State law needs to be amended to permit such a transaction. Similarly, if a local project cannot be completed without Federal approval, either legislative or administrative, the obtaining of such

approval satisfies the requirements of this (iv).

(v) Routine governmental action at a local level will not qualify as significant official governmental action. Routine governmental action includes the granting of building permits or zoning changes and the issuance of environmental impact statements.

(vi) In order to qualify under the transitional rule of TRA section 31(g)(4), a sale and leaseback pursuant to a binding contract entered into before January 1, 1985 must be part of the project as to which there was significant official governmental action. Except as provided in the following sentence, where there has been significant official governmental action on or before November 1, 1983 with respect to the construction, reconstruction, or rehabilitation of a property, the sale and leaseback of such property pursuant to a binding contract entered into before January 1, 1985 will be treated as part of the project which was the subject of the significant official governmental action. However, if the construction, reconstruction or rehabilitation was substantially completed prior to January 1, 1983, the sale and leaseback of such property will be treated as a separate project, unless the sale and leaseback was contemplated at the time of the significant official governmental action. Nevertheless, where the sale and leaseback is treated as a separate project, section 31(g)(4) may apply if there was significant official governmental action on or before November 1, 1983, with respect to such sale and leaseback. The application of this provision is illustrated by the following example:

Example. In the summer of 1927, the Board of Aldermen of City C passed a resolution authorizing the design and construction of a new city hall and appropriated the funds necessary for such project. Construction was completed in 1928. At the time of the significant official governmental action, City C had no plan to enter into a sale-leaseback arrangement with respect to the facility. On December 15, 1984, City C entered into a binding sale-leaseback arrangement concerning the city hall. This transaction will not qualify for exclusion from section 168(j) under section 31(g)(4) of TRA since construction of the facility in question was substantially completed before January 1, 1983. If, however, there had been significant official governmental action on or before November 1, 1983 with respect to the sale-leaseback project, then the transitional rule of section 31(g)(4) of TRA would apply.

OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT (26 CFR Part 602)

5. The authority citation for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

6. Section 602.101(c) is amended by inserting in the appropriate place in the table "§1.168(f)(8)-1T . . . 1545-0923".

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved June 19, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Register on June 28, 1985, 9:46 a.m., and published in the issue of the Federal Register for July 2, 1985, 50 F.R. 27222)

Section 170.—Charitable, Etc. Contributions and Gifts

26 CFR 1.170A-1: Charitable etc., contributions and gifts, allowance of deduction.

Charitable contribution; valuation; donor-imposed restriction on use. When a donor places a restriction on the use of property, the amount of the charitable contribution deduction is the fair market value of the property at the time of the contribution determined in light of the restriction.

Rev. Rul. 85-99

ISSUE

Under the described conditions, is the amount of a charitable contribution deduction affected by a restriction placed by the donor on the use of the donated property?

FACTS

An agricultural college sought to acquire a certain parcel of land to use in connection with its operations in farming research and development of new farming techniques. The college is an organization described in section 501(c)(3) and 170(c) of the Internal Revenue Code. In 1982, the owner of the property, an individual, gave 50 acres of a 100 acre parcel of land to the college under a deed of gift that carried a restrictive convenant providing that the land be used for agricultural purposes only. The donor retained the remaining 50 acres but retained no interest in the donated property. Use of the land for agricultural purposes would not result in a special benefit to the donor. The highest and best use of the land was for a more valuable use than agricultural purposes.

LAW AND ANALYSIS

Section 170(a) of the Code provides that there shall be allowed as a deduction any charitable contribution (as defined in subsection (c)) payment of which is made in the taxable year.

Section 1.170A-1(c) of the Income Tax Regulations provides that if a charitable contribution is made in property other than money, the amount of the contribution is the fair market value of the property at the time of the contribution reduced as provided by section 170(e)(1) of the Code and section 1.170A-4(a) of the regulations.

Although the highest and best use of the contributed property, if unencumbered, would be for a more valuable use than as agricultural land, the deed of gift to the land carried a restrictive covenant providing that the land be used solely for agricultural purposes.

The value of property contributed under section 170 is the price that a reasonably knowledgeable willing buyer would pay a reasonably knowledgeable willing seller for the property subject to any restrictions imposed at the time of the contribution. See section 1.170A-1(c) of the regulations. Property otherwise intrinsically more valuable that is encumbered by some restriction or condition limiting its marketability or use, must be valued in the light of such limitation. See *Cooley v. Commissioner*, 33 T.C. 223, 225 (1959), aff'd per curiam, 238 F.2d 945 (2d Cir. 1960); *Deukmejian v. Commissioner*, T.C.M. 1981-24; *Silverman v. Commissioner*, T.C.M. 1968-216; *Klopp v. Commissioner*, T.C.M. 1960-185; *Dresser v. Commissioner*, T.C.M. 1956-54.

HOLDING

Subject to the reductions imposed by section 170(e)(1) of the Code, the amount of the taxpayer donor's charitable contribution deduction is the fair market value of the property at the time

of the contribution determined in the light of the restriction placed by the donor on the use of the property.

---

26 CFR 1.170A-1: Charitable, etc., contributions and gifts; allowance of deduction.

Charitable contributions; utility bills; emergency energy program. Utility customers, who pay additional amounts on their utility bills to a utility company acting as agent for a charitable organization that assists individuals with emergency energy needs, are entitled to a charitable deduction for the additional amount in the year paid.

Rev. Rul. 85-184

ISSUE

Whether customers who pay additional amounts on their utility bills to a utility company acting as an agent for a charitable organization that assists individuals with emergency energy needs, are allowed a charitable contribution deduction for such added amounts under section 170(a) of the Internal Revenue Code.

FACTS

O, a local chapter of a national charitable organization described in section 170(c) of the Internal Revenue Code, established a program designed to provide financial assistance to elderly and handicapped individuals in meeting their emergency energy related needs. *O* entered into an agreement with *X*, a local utility company, to facilitate the collection of charitable contributions made by customers of *X* and others. Under the agreement, *O* designated *X* as its authorized agent to collect contributions to the program on *O*'s behalf. Customers of *X* are given the opportunity of making contributions to *O*'s financial assistance program for the elderly and handicapped when making payments for utility services. Provided a customer pays his monthly bill in full, an additional amount may be paid to *X* and designated, in a space provided on the bill, as being earmarked for *O*'s financial assistance program. Such earmarked amounts collected by *X* are transferred to *O* on a weekly basis. During the period between receipt of such amounts and their subsequent transfer to *O*, they are segregated from *X*'s own funds. Further, *X* does not exercise any dominion or control over the earmarked funds and does not draw upon them to cover expenses incurred by *X* in connection with the program.

All determinations with respect to a person's eligibility to receive assistance under the program including the existence of an individual's emergency energy related needs are solely within the discretion of *O*.

LAW AND ANALYSIS

Section 170(a) of the Code provides, subject to certain limitations, a deduction for charitable contributions and gifts to or for the use of organizations described in section 170(c), payment of which is made within the taxable year.

Section 1.170A-1(b) of the Income Tax Regulations provides that, ordinarily, a contribution is made at the time delivery is effected.

Rev. Rul. 55-192, 1955-1 C.B. 294, holds that the portion of the membership dues earmarked for distribution to qualified charities and paid by individual members to the treasurer of a social club, acting also as a collecting agent for certain charitable organizations, is deductible under section 170 of the Code for the year in which the contributions are paid to the treasurer.

In the instant case, *X* is acting as *O*'s collection agent in receiving certain amounts in excess of monthly fees billed to *X*'s customers that are earmarked for use by *O*. Further, *X* exercises no dominion and control over such amounts. Therefore, delivery of such amounts to *X* constitutes delivery to *O* for purposes of section 1170 of the Code.

HOLDING

A customer of *X* who makes a contribution under the program by adding an amount to the customer's utility bill will be entitled to a deduction for such amount in the manner and to the extent provided by section 170 of the Code in the taxable year the contribution is paid to *X*. A customer who pays no more than the amount of the utility bill, but nevertheless designates a portion of the payment as being earmarked for *O*'s financial assistance program, will not be entitled to a deduction because *X* does not segregate such amounts and pay them to *O*, but retains the amounts as payment of the customer's utility bill.

---

26 CFR 1.170A-1: Charitable, etc., contributions and gifts; allowance of deduction.

Increase in the optional standard mileage rate for computing the allowable deduction for the cost of operating an automobile for transportation in connection with rendering gratuitous services to a charitable organization. See Rev. Proc. 85-49, page 716.

Section 174.—Research and Experimental Expenditures

26 CFR 1.174-3: Treatment as expenses. (Also Section 111; 1.111-1.)

Research and experimental expenditures. Research or experimental costs previously deducted pursuant to section 174(a) of the Code are not subject to recapture upon the subsequent sale of the resulting technology. Rev. Rul. 72-528 revoked.

Rev. Rul. 85-186

ISSUE

Whether "tax benefit" recapture as ordinary income of research or experimental expenditures previously deducted pursuant to section 174(a) of the Internal Revenue Code is required upon subsequent sale of the resulting technology.

FACTS

The principal business activity of the taxpayer is the manufacture and sale of consumer products. Since commencing trade or business activity in 1960, the taxpayer has engaged in extensive in-house research and experimental activities directed at the development of patented and unpatented technology to be used in the manufacture of products sold in the ordinary course of taxpayer's trade or business. The taxpayer has consistently deducted all qualifying research or experimental expenditures pursuant to section 174(a) of the Code, and no portion of these deductions failed to effect a reduction of the taxpayer's federal income tax liability. In 1985, the taxpayer decided to discontinue a product line to better conform its product offerings to its marketing strategy. As a result of the decision, the taxpayer sold certain patented and unpatented technology that had resulted from qualifying expenditures properly deducted in prior tax years pursuant to

section 174(a) of the Code.

LAW AND ANALYSIS

Section 174(a) of the Code and section 1.174-3(a) of the Income Tax Regulations provide that a taxpayer may treat research or experimental expenditures that are paid or incurred during the tax year in connection with the taxpayer's trade or business as expenses that are not chargeable to capital account. Section 1.174-2(a)(1) of the regulations provides that the term "research or experimental expenditures" as used in section 174 means expenditures incurred in connection with the taxpayer's trade or business that represent research and development costs in the experimental or laboratory sense.

The tax benefit rule requires the inclusion in income of certain amounts that were deducted in a prior tax year and that generated a tax benefit to the taxpayer through a reduction in the amount of tax liability in the prior tax year. *See generally, Estate of Block v. Commissioner*, 39 B.T.A. 338 (1939), *aff'd sub nom. Union Trust Co. v. Commissioner*, 111 F.2d 60 (7th Cir.), *cert. denied*, 311 U.S. 658 (1940); Rev. Rul. 68-104, 1968-1 C.B. 361. In appropriate circumstances, if a deduction reduces ordinary income in the year the amount is paid or incurred, and if an event in a subsequent taxable year triggers application of the tax benefit doctrine, the amount of the prior deduction will be included in gross income and characterized as ordinary income. *See Merchant National Bank v. Commissioner*, 199 F.2d 657 (5th Cir. 1952). In *Hillsboro National Bank v. Commissioner*, 460 U.S. 370 (1983), 1983-1 C.B. 50, the United States Supreme Court stated that, in order for the tax benefit doctrine to be invoked, an event must occur in a subsequent year that is "fundamentally inconsistent" with the premise or premises on which the prior year deduction was based. The *Hillsboro* standard requires an analysis of whether the prior year deduction would have been allowed if the subsequent year event had occurred in the prior year, considering the purpose and the function of the provision allowing the prior year deduction.

To determine the applicability of the tax benefit doctrine to previously deducted research or experimental expenditures, *Hillsboro* requires a determination of the purpose and the function of the provision permitting the prior year deduction. The legislative history of section 174 of the Code indicates two purposes for enacting section 174(a): (1) to encourage research and experimental activities and (2) to eliminate the uncertainty as to the tax treatment of research or experimental expenditures. H.R. Rep. Ho. 1337, 83rd Cong., 2d Sess. 28 (1954).

To encourage research or experimental activities, section 174(a) permits the deduction of research or experimental expenditures during the tax year such expenditures are paid or incurred. This rule of section 174(a) represents a deviation from the general rules governing the deductibility of expenditures. Under the general rules, expenditures otherwise deductible under section 162 are not deductible to the extent attributable to the acquisition or creation of assets having a useful life extending substantially beyond the tax year. *See* sections 1.263(a)-2(a) and 1.461-1(a) of the regulations. However, section 174(a) allows a current deduction for research or experimental expenditures even though such expenditures may lead to the creation of assets having a useful life that extends substantially beyond the tax year.

To eliminate uncertainty as to the tax treatment of research or experimental expenditures, section 174(a) relieves taxpayers of the obligation, imposed by the rules that ordinarily govern the deductibility of expenditures, to allocate costs between amounts currently deductible and amounts required to be capitalized.

In the present situation, both purposes underlying section 174(a) were accomplished by allowing the taxpayer a current deduction for the research or experimental expenditures paid or incurred. The legislative purpose of encouraging research or experimental activity was accomplished in the year of the deduction because that is the year the research or experimental expenditures were paid or incurred. The legislative purpose of relieving the taxpayer of the obligation to allocate costs between amounts currently deductible and amounts required to be capitalized was accomplished in the year of the deduction because the taxpayer was allowed a deduction in that year for all research or experimental expenditures paid or incurred. It would be inconsistent with this legislative purpose to relieve the taxpayer of the obligation to allocate costs in the year of the deduction only to impose the obligation in the year of disposition of the resulting technology.

Because the two legislative purposes for enacting section 174(a) were accomplished in the year of the deductions, the subsequent sale of the resulting technology had independent significance and was not fundamentally inconsistent with the prior section 174(a) deductions. Accordingly, the tax benefit doctrine as articulated in *Hillsboro* does not apply to the research or experimental expenditures previously deducted by the taxpayer pursuant to section 174(a).

HOLDING

Under the facts set forth above, disposition of the technology resulting from previously deducted section 174(a) expenditures is not fundamentally inconsistent with the prior year deduction of such expenditures. Accordingly, under these facts, the tax benefit doctrine does not apply to the disposition of the resulting technology.

EFFECT ON OTHER RULINGS

Rev. Rul. 72-528, 1972-2 C.B. 481, involves a "pilot model" of a machine that had been constructed for use in the taxpayer's product development program. The taxpayer claimed and was allowed a section 174(a) deduction for the entire amount of the costs incurred on the "pilot model." The "pilot model" was totally destroyed in a succeeding tax year by an explosion and fire, and the taxpayer subsequently was reimbursed by its insurance carrier for the loss suffered. Rev. Rul. 72-528 holds that the tax benefit doctrine applies to the receipt of insurance proceeds. Because the holding of Rev. Rul. 72-528 is inconsistent with the holding of this Revenue Ruling, Rev. Rul. 72-528 is revoked.

Part VII.—Additional Itemized Deductions for Individuals

Section 212.—Expenses for Production of Income

Section 212

26 CFR 1.212-1: Nontrade or nonbusiness expenses.

Whether expenses incurred by an individual that are attributable to the punitive damage portion of the amount the individual received in settlement of a libel suit for injury to personal reputation are deductible as nonbusiness expenses. See Rev. Rul. 85-98, page 51.

Section 213.—Medical, Dental, Etc., Expenses

26 CFR 1.213-1: Medical, dental, etc. expenses.

Standard mileage rate for the cost of operating an automobile in connection with transportation for medical care. See Rev. Proc. 85-49, page 716.

Section 216.—Deduction of Taxes, Interest, and Business Depreciation by Cooperative Housing Corporation Tenant-Stockholder

26 CFR 1.216-1: Amounts representing taxes and interest paid to cooperative housing corporation.

Cooperative housing corporation; housetrailers. The requirements of section 216(b)(10(B) of the Code are satisfied if housetrailers and the land on which they are permanently located are owned by a cooperative housing corporation, the tenant-stockholders are entitled to occupy for dwelling purposes the housetrailers by reason of stock ownership, and the housetrailers contain independent living facilities for one family including permanent provisions for sleeping, eating, cooking, and sanitation.

Rev. Rul. 85-147

FACTS

Situation 1

X corporation purchased a trailer park, consisting of 20 housetrailers and the land on which the housetrailers were permanently located. *X* corporation sold shares of stock to individuals each of whom, by virtue of ownership thereof, was entitled to occupy one of the housetrailers owned by *X* corporation and the land on which the housetrailer is located. Each of the housetrailers contains independent living facilities for one family including permanent provisions for sleeping, eating, cooking, and sanitation.

Situation 2

The facts are the same as in *Situation 1*, except that *X* corporation does not own the 20 housetrailers, but only the land on which the housetrailers are located. The housetrailers are individually owned by stockholders of *X* corporation. Each stockholder is entitled, by reason of stock ownership, to occupy only the land on which the stockholder's housetrailer is located.

LAW AND ANALYSIS

Section 216(b)(1)(B) of the Code defines a cooperative housing corporation, in part, to mean a corporation each of the stockholders of which is entitled, solely by reason of the stockholder's ownership of stock in such corporation, to occupy for dwelling purposes a house, or an apartment in a building, owned or leased by such corporation.

For purposes of section 216(b)(1)(B) of the Code, the term house means a residential unit providing complete, independent living facilities for one family including permanent provisions for sleeping, eating, cooking and sanitation. *See* Rev. Rul. 74-241, 1974-1 C.B. 68, which similarly defines the term apartment for purposes of section 216(b)(1)(B).

Section 1.216-1(d)(2) of the Income Tax Regulations provides that in order for a corporation to qualify as a "cooperative housing corporation," each stockholder of the corporation, whether or not the stockholder qualifies as a tenant-stockholder under section 216(b)(2) of the Code and section 1.216-1(e) of the regulations, must be entitled, to occupy for dwelling purposes an apartment in a building or a unit in a housing development owned or leased by such corporation.

Since the housetrailers have sleeping, eating, cooking, and sanitation facilities in *Situations 1 and 2*, each housetrailer constitutes a house within the meaning of section 216(b)(1)(B) of the Code. Further, the requirements of section 216(b)(1)(B) are satisfied in *Situation 1* because the housetrailers are owned by *X* corporation and each stockholder of *X* corporation is entitled, solely by reason of the stockholder's ownership of stock in *X* corporation, to occupy one of the housetrailers owned by *X* corporation. However, the requirements of section 216(b)(1)(B) are not satisfied in *Situation 2* because *X* corporation does not own the housetrailers that its stockholders occupy. Instead, each stockholder in *Situation 2* is entitled to occupy the housetrailer owned by the stockholder by reason of such ownership and not by reason of the stockholder's ownership of the stock of *X* corporation.

HOLDING

Although each housetrailer in *Situations 1 and 2* constitutes a house within the meaning of section 216(b)(1)(B) of the Code, the requirements of section 216(b)(1)(B) are satisfied only in *Situation 1*, but not in *Situation 2*.

Section 217.—Moving Expenses

26 CFR 1.217-2: Deduction for moving expenses paid or incurred on taxable years beginning after December 31, 1969.

Simplified, optional method that may be used for computing deductions for the costs of operating a passenger automobile for moving expense purposes. See Rev. Proc. 85-49, page 716.

Part VIII.—Special Deductions for Corporations

Section 243.—Dividends Received by Corporations

26 CFR 1.243-4: Qualifying dividends.

Dividends received; affiliated group; reorganization; 100 percent deduction. A cash distribution by a previously unaffiliated corporation to a currently affiliated corporation, subsequent to a transaction qualifying as a mere change in form under section 1.243-4(a)(5)(i)(b) of the regulations, qualifies for the 100 percent dividends-received deduction permitted by section 243 of the Code.

Rev. Rul. 85-144

ISSUE

Does the distribution described below qualify for the 100-percent dividends-received deduction permitted by section 243 of the Internal Revenue Code?

FACTS

X was an unaffiliated corporation that had conducted a business since 1965. The board of directors of *X* determined that a holding company structure would best serve the business activities of *X*. To accomplish this, *X* caused corporation P to be organized. Immediately thereafter, P formed S as its wholly owned subsidiary.

Pursuant to a plan of reorganization and agreement of merger, and before *P* or *S* conducted any business, *S* was merged into *X* under applicable state law. Under the merger agreement, all *X* shares were converted to *P* shares and all *S* shares were converted to *X* shares. Accordingly, the former shareholders of *X* now own all the shares of *P*, and *P* owns all the shares of *X*. The merger of *S* into *X* qualifies as a reorganization within the meaning of section 368(a)(1)(A) of the Code by reason of section 368(a)(2)(E).

After the reorganization and not in connection with it, *X* distributed cash to *P* out of *X*'s earnings and profits that had arisen before the reorganization.

LAW AND ANALYSIS

Section 243(a)(3) of the Code provides that, in the case of a corporation, there shall be allowed as a deduction 100 percent of the amount received as qualifying dividends from a domestic corporation.

Section 243(b)(1) of the Code defines the term "qualifying dividends" to mean dividends received by a corporation while a member of the same affiliated group of corporations as the distributing corporation, if, among other requirements, such dividends are distributed out of earnings and profits of a taxable year of the distributing corporation on each day of which the distributing corporation and the corporation receiving the dividends were members of the same affiliated group.

Section 1.243-4(a)(5)(i)*(b)* of the Income Tax Regulations provides, for purposes of meeting the condition that the distributing corporation and the receiving corporation must have been members of the same affiliated group, that the group in existence during the taxable year out of the earnings and profits of which the dividend is distributed shall not be considered as a different group from that in existence on the day on which the dividend is received merely because a newly organized corporation (the "acquiring corporation") has acquired substantially all of the outstanding stock of the common parent corporation (the "acquired corporation") solely in exchange for stock of such acquiring corporation, and the stockholders (immediately before the acquisition) of the acquired corporation, as a result of owning stock of the acquired corporation, own (immediately after the acquisition) all of the outstanding stock of the acquiring corporation. In such a transaction, the acquiring corporation shall be treated as having been a member of the affiliated group for the entire period during which the acquired corporation was a member of such group.

If *X* were the common parent of an affiliated group, section 1.243-4(a)(5)(i)*(b)* of the regulations would apply because the acquisition described therein would also describe this transaction. Consequently, the dividend from *X* and *P* would qualify for the 100-percent dividends-received deduction of section 243(a)(3) of the Code. *See* Rev. Rul. 72-274, 1972-1 C.B. 97.

The requirement of section 243(b)(1) of the Code that qualifying dividends be distributed out of earnings and profits of a taxable year of the distributing corporation on each day of which such corporation and the recipient corporation were members of the same affiliated group is satisfied, however, whether or not *X* was a single corporation or the parent of an affiliated group because the transaction described above is the practical equivalent of the type of reorganization described in section 1.243-4(a)(5)(i)*(b)* of the regulations. In satisfying the requirement of section 243(b)(1), it is the relationship of *X* and *P* that is determinative.

HOLDING

The distribution from *X* to *P* qualifies for the 100-percent dividends-received deduction permitted by section 243 of the Code.

Part IX.—Items Not Deductible

Section 265.—Expenses and Interest Relating to Tax-Exempt Income

26 CFR 1.265-1: Expenses relating to tax-exempt income.
(Also Sections 107, 163, 164, 7805; 1.107-1, 1.163-1, 1.164-1, 301.7805-1.)

Deductions; expenses and interest relating to tax-exempt income; ministers. Deductions by a minister of the gospel for mortgage interest and real property tax costs will not be disallowed under Rev. Rul. 83-3 if such costs are paid or incurred before January 1, 1987, and if section 1052 of the Tax Reform Act of 1984 would have applied to those costs had they been paid or incurred before January 1, 1986. Rev. Rul. 83-3 modified.

Rev. Rul. 85-96[1]

Rev. Rul. 83-3, 1983-1 C.B. 72, holds, in part, that a minister may not deduct interest and property taxes that are allocable to a rental allowance excluded from gross income under section 107 of the Internal Revenue Code. This holding is based on section 265(1) of the Code, which provides, in part, that no deduction is allowed for any amount that is otherwise deductible but that is allocable to one or more classes of income (other than interest) wholly exempt from income tax. Section 7805(b) of the Code grants the discretion for any revenue ruling to be applied without retroactive effect. Under the authority contained in section 7805(b), Rev. Rul. 83-3 states that if a minister owned and occupied a home before January 3, 1983 (or before January 3, 1983, had a contract to purchase a home and subsequently owns and occupies that home), there will be no disallowance of deductions for interest and property taxes until the earlier of the date on which the minister no longer occupies the home or January 1, 1985.

Section 1052 of the Tax Reform Act of 1984, Pub. L. 98-369, provides that with respect to any mortgage interest or real property tax costs paid or incurred before January 1, 1986, by any minister of the gospel who owned and occupied a home before January 3, 1983 (or had a contract to purchase a home before such date and subsequently owned and occupied such home), the application of section 265(1) of the Code to such costs will be determined without regard to Rev. Rul. 83-3 (and without regard to any other regulation, ruling, or decision reaching the same result, or a result similar to the result, set forth in Rev. Rul. 83-3).

The Internal Revenue Service has decided, under the authority of section 7805(b), to grant further relief to taxpayers who may have relied on Rev. Rul. 62-212, 1962-2 C.B. 41, which was revoked by Rev. Rul. 83-3. Accordingly, deductions for mortgage in-

[1]Also released as New Release IR-85-63, dated July 2, 1985

terest and real property tax costs will not be disallowed under Rev. Rul. 83-3 if such costs are paid or incurred before January 1, 1987, and if section 1052 of the Tax Reform Act of 1984 would have applied to those costs had they been paid or incurred before January 1, 1986.

HOLDING

The second sentence of the next-to-the-last paragraph of Rev. Rul. 83-3 is amended to read as follows:

> Further, if the minister described in *Situation 2* owned and occupied a home before January 3, 1983, (or had a contract to purchase a home before January 3, 1983, and subsequently owns and occupies that home), the revenue ruling will not be applied to that minister so as to disallow deductions for mortgage interest or real property tax costs paid or incurred before January 1, 1987, or before such date as the minister ceases to occupy that home, whichever is earlier.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 83-3 is hereby modified.

Section 274.—Disallowance of Certain Entertainment, Etc., Expenses

26 CFR 1.274-2: Disallowance of deductions for certain expenses for entertainment, amusement, or recreation.

T.D. 8051

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, PART I—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Disallowance of Deductions for Expenditures Incurred With Respect to Facilities Used in Connection With Entertainment

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to the disallowance of deductions for expenditures incurred with respect to facilities, other than clubs, used in connection with entertainment. Changes to the applicable tax law were made by the Revenue Act of 1978 [Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1] and the Technical Corrections Act of 1979 [Pub. L. 96-222, 1980-1 C.B. 499]. The regulations provide the necessary guidance to the public to comply with the law.

DATES: These regulations are effective after December 31, 1978 and apply to expenses paid or incurred after that date.

FOR FURTHER INFORMATION CONTACT: Stuart G. Wessler of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3297).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains amendments to the Income Tax Regulations (26 CFR Part 1) under section 274(a) of the Internal Revenue Code of 1954. These amendments conform the regulations to the amendments made to section 274(a) by section 361 of the Revenue Act of 1978 (92 Stat. 2847) and section 103(a)(10) of the Technical Corrections Act of 1979 (94 Stat. 212). These regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

These final regulations amend paragraphs (a)(2) and (e)(1) of §1.274-2 to deny a deduction for expenditures paid or incurred after December 31, 1978 with respect to a facility, other than a club, used in connection with entertainment. Expenditures paid or incurred with respect to clubs are not affected by the regulations.

On September 26, 1983, proposed regulations were published in the FEDERAL REGISTER (48 FR 43698) [LR-203-78, 1983-2 C.B. 647]. Only one comment was received in response to the proposed regulations.

The proposed regulations provided that dues or fees paid to any social, athletic, or sporting club, although treated as items with respect to facilities, are deductible if certain tests are met. The commenter suggested that the regulations define the term "club" in order to prevent confusion by taxpayers and tax auditors. This suggestion was not adopted in the final regulations. For purposes of these regulations, the term "club" is given its generally understood meaning.

A public hearing was not requested, and therefore, a public hearing was not held. The proposed regulations are adopted without change by the Treasury decision.

REGULATORY FLEXIBILITY ACT

No general notice of proposed rulemaking is required by 5 U.S.C. §553(b) for interpretative regulations. Accordingly, the Regulatory Flexibility Act does not apply and no Regulatory Flexibility Analysis is required for this rule.

NON-APPLICABILITY OF EXECUTIVE ORDER 12291

The Treasury Department has determined that this regulation is not subject to review under Executive Order 12291. Accordingly, a regulatory impact analysis is not required.

DRAFTING INFORMATION

The principal author of these regulations is Donald W. Stevenson of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other officers of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, the following amendments are hereby adopted.

Paragraph 1.

Section 1.274-2 is amended by revising paragraph (a)(2), by revising paragraph (a)(3)(iii), by revising the heading of paragraph (e), and by revising paragraph (e)(1). The amended and revised provisions read as follows:

§1.274-2 Disallowance of deductions for certain expenses for entertainment, amusement, or recreation.

(a) *General rules.* * * *

(2) *Entertainment facilities*—(i) *Expenditures paid or incurred after December 31, 1978, and not with respect to a club.* Except as provided in this section with respect to a club, no de-

duction otherwise allowable under hapter 1 of the Code shall be allowed or any expenditure paid or incurred af- er December 31, 1978, with respect to facility used in connection with ntertainment.

(ii) *Expenditures paid or incurred efore January 1, 1979, or with respect o a club.* Except as provided in this ection, no deduction otherwise allowa- le under chapter 1 of the Code shall e allowed for any expenditure paid or ncurred before January 1,1979, with espect to a facility used in connection ith entertainment or at any time with espect to a club used in connection ith entertainment, unless the taxpayer stablishes—

(a) That the facility or club was used rimarily for the furtherance of the tax- ayer's trade or business, and

(b) That the expenditure was directly elated to the active conduct of that rade or business.

The deduction shall not exceed the ortion of the expenditure directly re- ated to the active conduct of the tax- ayer's trade or business.

(3) *Cross references.*

(iii) "Expenditures paid or incurred efore January 1, 1979, with respect ot ntertainment facilities or at any time ith respect to clubs", see paragraph e) of this section, and

* * * * *

(e) *Expenditures paid or incurred efore January 1, 1979, with respect to ntertainment facilities or any time with espect to clubs*—(1) *In general.* Any xpenditure paid or incurred before anuary 1, 1979, with respect to a facil- ty, or paid or incurred at anytime with espect to a club, used in connection ith entertainment shall not be allowed s a deduction except to the extent it neets the requirements of paragraph a)(2)(ii) of this section.

* * * * *

Par. 2 Section 1.274–5(c)(6)(iii) is mended by revising the first two sen- ences thereof to read as follows:

1.274-5 Substantiation requirements.

* * * * *

(c) *Rules for substantiation.* * * *

(6) *Special rules.* * * *

(iii) *Primary use of a facility.* Sec- on 274(a)(1)(B) and (2)(C) denies a eduction for any expenditure paid or ncurred before January 1, 1979, with respect to a facility, or paid or incurred at any time with respect to a club, used in connection with an entertainment activity unless the taxpayer establishes that the facility (including a club) was used primarily for the furtherance of his trade or business. A determination whether a facility before January 1, 1979, or a club at any time was used primarily for the furtherance of the taxpayer's trade or business will depend upon the facts and circumstances of each case. * * *

* * * * *

Par. 3. Section 1.274-6 is revised to read as follows:

§1.274-6 Expenditures deductible without regard to trade or business or other income producing activity.

The provisions of §§1.274-1 through 1.274-5, inclusive, do not apply to any deduction allowable to the taxpayer without regard to its connection with the taxpayer's trade or business or other income producing activity. Examples of such items are interest, taxes such as real property taxes, and casualty losses. Thus, if a taxpayer owned a fishing camp, the taxpayer could still deduct mortgage interest and real property taxes in full even if deductions for its use are not allowable under section 274(a) and §1.274-2. In the case of a taxpayer which is not an individual, the provisions of this section shall be applied as if it were an individual. Thus, if a corporation sustains a casualty loss on an entertainment facility used in its trade or business, it could deduct the loss even though deductions for the use of the facility are not allowable.

Par. 4. Section 1.274-8 is revised to read as follows:

§1.274-8 Effective date.

Except as provided in §1.274-2(a) and (e), §§1.274-1 through 1.274-7 apply with respect to taxable years ending after December 31, 1962, but only in respect of periods after such date.

This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917, 26 U.S.C. 7805).

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved August 5, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on September 6, 1985, 8:45 a.m., and published in the issue of the Federal Register for September 9, 1985, 50 F.R. 36575)

---

26 CFR 1.274-5: Substantiation requirements. (Also Section 162; 1.162-17.)

Travel expenses; reimbursement; mileage allowances. With respect to expenses paid or incurred after 1984, mileage allowances not exceeding 21 cents per mile for transportation paid by employers to employees will satisfy the substantiation and adequate accounting requirements of sections 1.162-17(b) and 1.274-5 of the regulations. Rev. Rul. 80-62 as modified by Rev. Ruls. 80-203 and 84-51, is further modified.

Rev. Rul. 85-155[1]

This revenue ruling modifies Rev. Rul. 80-62, 1980-1 C.B. 63, as modified by Rev. Rul. 80-203, 1980-2 C.B. 101 and Rev. Rul. 84-51, 1984-1 C.B. 90, with respect to the mileage allowance for transportation paid by employers to employees.

The sixth paragraph of Rev. Rul. 80-62, which paragraph was modified by Rev. Rul. 80-203 and Rev. Rul. 84-51, is further modified as follows:

If a fixed mileage allowance not exceeding 21 cents a mile is used by an employer in payment of an employee's ordinary and necessary expenses of transportation while traveling away from home, and the elements of time, place, and business purpose of the travel are substantiated in accordance with paragraphs (b)(2) and (c) (other than subparagraph (2)(iii)(a) thereof) of section 1.274-5 of the Income Tax Regulations, such an allowance will be deemed as satisfying, with respect to such travel amounts, the substantiation requirements of section 1.274-5(c) of the regulations and the adequate accounting requirements of section 1.274-5(e). Also, if an employer grants an allowance not exceeding 21 cents a mile to an employee for ordinary and necessary transportation expenses not

[1]Also released as News Release IR-85-95, dated September 19, 1985.

involving travel away from home, such an arrangement will be considered to be an accounting to the employer within the meaning of section 1.162-17(b). However, an employer may grant an additional allowance for the parking fees and tolls attributable to the traveling and transportation expenses as separate items.

This modification is effective with respect to expenses paid or incurred after December 31, 1984.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 80-62, as modified by Rev. Rul. 80-203 and Rev. Rul. 84-51, is further modified.

26 CFR 1.274-5T: Substantiation with respect to listed property for taxable years beginning after 1984.
(Also Section 132; 1.132-1T.)

T.D. 8060

TITLE 26—INTERNAL REVENUE.—CHAPTER 1, SUBCHAPTER A, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Removal of Certain Temporary Regulations on Substantiation and the Taxation of Fringe Benefits

AGENCY: Internal Revenue Service, Treasury.

ACTION: Withdrawal of temporary regulations.

SUMMARY: This document provides a Treasury decision that removes certain temporary regulations contained in T.D. 7986 [1984-2 C.B. 64] and T.D. 8009 [1985-1 C.B. 82], relating to the substantiation requirements of section 274(d), and removes a portion of other temporary regulations contained in T.D. 8009 relating to the taxation of fringe benefits. A change to the applicable tax law was made by Public Law 99-44, Repeal of Contemporaneous Recordkeeping Requirements [page 350, this Bulletin]. This Treasury decision is necessary to respond to the Congressional amendments made by Public Law 94-44.

DATES: The removal of temporary regulations by this Treasury decision is generally effective for taxable years beginning after December 31, 1984.

FOR FURTHER INFORMATION CONTACT: Michel A. Dazé (202-566-3829) or Annette J. Guarisco (202-566-3918) of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Ave., N.W., Washington, D.C. 20224, (Attention: CC:LR:T).

SUPPLEMENTARY INFORMATION:

BACKGROUND

Substantiation

Prior to the Tax Reform Act of 1984 (the 1984 Act) [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1], taxpayers were required under section 274(d) of the Internal Revenue Code of 1954 (the Code) to substantiate by adequate records or sufficient evidence corroborating the taxpayers' own statements any deduction for expenses incurred for (1) travel away from home (including meals and lodging), (2) entertainment, amusement, or recreation activities or the use of a facility in connection with those activities, or (3) business gifts. Before amendment by the 1984 Act, section 274(d) did not apply to vehicles when used in local travel. Instead, the more general substantiation standards under section 162 of the Code were applicable.

Section 179(b) of the 1984 Act amendment section 274(d) to require that any deduction or credit claimed for expenses incurred while traveling away from home, for entertainment, for business gifts, and for "listed property" be substantiated by adequate contemporaneous records. Listed property, as defined in section 280F(d)(4) of the code, generally includes any passenger automobile, any other property used as a means of transportation, any property used for entertainment, recreation, or amusement, and any computer and peripheral equipment.

Temporary and proposed income tax regulations relating to the requirement of section 274(d) (as amended by the 1984 Act) that any deduction or credit with respect to "listed property" be substantiated with "adequate contemporaneous records" were published in the FEDERAL REGISTER for October 24, 1984 (49 FR 42701) [T.D. 7986, 1984-2 C.B. 64]. These temporary regulations were amended in part and supplemented by additional temporary and proposed regulations that were published in the FEDERAL REGISTER for February 20, 1985 (50 FR 7038) [T.D. 8009, 1985-1 C.B. 82] (the February regulations). The February regulations provided certain safe harbors for satisfying the adequate contemporaneous record requirement with respect to the use of vehicles. Adequate contemporaneous records were generally not required if: (1) a vehicle was regularly used directly in connection with a taxpayer's farming business and the taxpayer's income from farming exceeded 70 percent of gross income from all sources ("farming" safe harbor); (2) a vehicle was not used for personal purposes and the vehicle was kept on the employer's premises ("no personal use" safe harbor); (3) the only personal use of an employer-provided vehicle by employees was commuting, the requirements of §1.61-2T were met, and $3.00 per day was included in the income of the employee using the vehicle ("commuting only" safe harbor); or (4) an owner, employer, or employee spent most of a normal business day using a vehicle to make several stops in connection with the owner's or employer's business ("multiple stop" safe harbor). Taxpayers who would have been eligible to use either the "farming" or the "multiple stop" safe harbor could have treated 80 percent of the use of a vehicle designed for commercial purposes, or 70 percent of the use of any other vehicle, as business use without maintaining adequate contemporaneous records. Alternatively, these taxpayers could have kept track of total annual mileage and personal miles driven ("personal miles" safe harbor).

Section 1(a) of Public Law 99-44 (Repeal of Contemporaneous Recordkeeping Requirement) [page 350, this Bulletin] amended section 274(d) and section 1(c) of the same law rescinded any regulations issued to carry out certain of the amendments made by the 1984 Act. This document, therefore, removes the regulatory provisions so issued under section 274(d) as amended by the 1984 Act.

For taxable years beginning in 1985 or before, the recordkeeping requirements of sections 162 and 274(d) apply as in effect before the 1984 Act. Under sectio 274(d), any deduction claimed for (1) expenses incurred while traveling away from home, (2) business-related entertainment expenses, and (3) business-related gifts is disallowed unless substantiated by adequate records or sufficient corroborating evidence. The more general substantiation requirements of section 162 apply to local travel and to listed property, such as a computer, not previously subject to the substantiation requirements of section 274(d). Section 162 requires a taxpayer to prove eligibility for, and the amount of, any deduction claimed for business expenses.

For taxable years beginning after 1985, adequate records or sufficient corroborating evidence are also required to substantiate any deduction or credit claimed for expenses with respect to local travel and listed property. New temporary regulations under section 274 applicable to taxable years beginning after 1985 are published * * *. These regulations will provide taxpayers with guidance for substantiating under section 274(d) any deductions or credits claimed for business expenses.

Fringe benefits

Section 61 of the Code provides that gross income includes "all income from whatever source derived", unless specifically excluded by another provision of the Code. Section 61 also specifies that gross income includes compensation for services. Section 531 of the 1984 Act clarified that fringe benefits are included in income as compensation for services and subject to income and employment taxes. Section 531 also provided an exclusion from gross income for the value of certain fringe benefits (no-additional-cost services, qualified employee discounts, working condition fringes, and de minimis fringes).

Temporary and proposed regulations that provide guidance concerning the taxation of fringe benefits were published in the FEDERAL REGISTER for January 7, 1985 (50 FR 747) [T.D. 8004, 1985-1 C.B. 23] (the January regulations). These regulations provide special rules that may be used to value certain fringe benefits such as the availability of an employer-provided automobile, the use of an employer-provided vehicle for commuting, personal flights on employer-provided airplanes, and taxable flights on commercial airlines. The January regulations also provide guidance concerning income and employment tax withholding and reporting on the value of the benefits. Under these regulations, employers were permitted to deem the value of noncash fringe benefits provided in a calendar quarter as paid no later than the last day of the calendar quarter.

The January regulations were amended in part and supplemented by additional temporary and proposed regulations published in the FEDERAL REGISTER for February 20, 1985 (50 FR 7038) [T.D. 8009, 1985-1 C.B. 82] (the February regulations). The February regulations clarified that the recordkeeping requirements provided in section 274(d) of the Code (and the regulations thereunder) applied to the determination of the amount of a working condition fringe exclusion. The February regulations also provided that recipients of fringe benefits may use the special recordkeeping safe harbors to substantiate the business use of an employer-provided vehicle.

The repeal of the contemporaneous recordkeeping requirement had the effect of also repealing the "farming" and "multiple stop" safe harbors promulgated in the February regulations. Thus, these safe harbor rules are not presently in effect and may not be used to exclude from gross income 70 or 80 percent (whichever would be applicable) of the value of the use of a vehicle without maintaining records. Public Law 99-44 also had the effect of repealing the "personal miles" safe harbor. The commuting-only safe harbor and the nonpersonal use safe harbor, as modified by the Conference Report, are still in effect and may be used to determine the value of the fringe benefit includible in income.

In a letter to Senator Robert Dole, Assistant Secretary of the Treasury Ronald A. Pearlman indicated that the Service will revise the January regulations relating to the valuation of personal flights on employer-provided aircraft (131 Cong. Rec. S6369 (daily ed. May 16, 1985)). The letter set forth safe harbor values that may be used to value personal flights on employer-provided aircraft. The letter also set forth a special rule under which the value of a personal flight taken on an employer-provided aircraft may be deemed to have no value. When 50 percent or more of the regular passenger seating capacity on the aircraft as used by the employer is occupied by individuals whose flights are primarily for the employer's business and whose flights are thus excludable from income, a personal flight by an employee, the employee's spouse, or the employee's dependent children in any of the remaining seats is deemed to have no value. The Treasury Department intends to issue regulations during 1985 that implement the rules outlined in the letter.

Public law 99-44 did not affect general valuation rules or any special valuation rule, such as the Annual Lease Value safe harbor, provided in the January regulations. Many comments were received on these rules, including suggestions that a cents-per-mile formula be used to value the personal use of employer-provided vehicles. Where appropriate, the Service will revise the temporary and proposed regulations when the final regulations are published to take into account comments received.

The January regulations also provide a special valuation rule that, under certain circumstances, may be used to value taxable flights on commercial airlines. The regulations provide that these flights may be valued at 50 percent of the highest unrestricted coach fare available on the flight. Although Public Law 99-44 did not affect this valuation rule, the 50 percent value may be reduced in the revised regulations.

Fringe benefits withholding

Public law 99-44 and the Conference Report that accompanied the law provide new rules for withholding and reporting on taxable noncash fringe benefits. On July 19, 1985, the Service issued a news release and an announcement that provide guidelines on the new rules (*see* Announcement 85-113, 1985-31 I.R.B. 31, August 5, 1985). The Service announced that the

guidelines may be relied upon until the issuance of new regulations.

The announcement provides that employers may treat the value of fringe benefits provided in a calendar year as paid on a pay period, quarterly, semiannual, annual, or other basis provided that the benefits are treated as paid no less frequently than annually. The employer may make a reasonable estimate of the fringe benefits on the date or dates it elects to treat the benefits as paid for purposes of meeting the timely tax deposit requirements. The estimated deposit amount is determined by calculating the amount the employer would be required to deposit had the employer paid cash wages equal to the estimated value of the fringe benefits provided on the date or dates selected and withheld taxes from those cash wages. If the employer underestimates the value of the fringe benefits and thereby makes an underdeposit of the amount required to be deposited (that is, the amount the employer would be required to deposit if the employer had withheld the applicable taxes), the employer may be subject to the failure to deposit penalty. If the employer overestimates the value and deposits more than the amount required, the employer may claim a refund or elect to have the overpayment applied to the employer's next employment tax return.

Under the general income tax and reporting rule, the employer must determine the actual value of the fringe benefits provided in a calendar year by January 31 of the following calendar year. If the benefit is the personal use of a highway motor vehicle, the employer may either determine the actual value for the calendar year or determine the actual value as if the entire usage of the vehicle for the year by the employee is personal (100 percent income inclusion). If the employer includes 100 percent of the value of the vehicle in the employee's income, the employee may calculate the value of his or her business use of the vehicle on Form 2106, Employee Business Expenses, and deduct this amount on Form 1040, Individual Income Tax Return.

For the administrative convenience of employers, a special accounting rule is available as an alternative to the general rule. Under the special accounting rule, the employer may treat the value of the benefits provided during the last two months of the calendar year or any shorter period as paid during the subsequent calendar year. Thus, the employer may treat the value of the benefits provided in the period beginning January 1, 1985, and ending October 31, 1985, as the value of the benefits provided in 1985. For years subsequent to 1985, the value of the benefits actually provided in the last two months of the previous calendar year is treated as provided in the current calendar year together with the value of the benefits provided in the first 10 months of the current calendar year.

Use of the special accounting rule is optional. An employer may use the rule for determining the value of some fringe benefits but not others and the period for which it is used need not be the same for each fringe benefit. However, an employer that uses the rule for a particular benefit must use the rule with respect to all employees who receive that fringe benefit. If the employer uses the special accounting rule, the employee must use the special accounting rule and must use it for the same period as the employer. In addition, since the employee must use the special accounting rule for all purposes, deductions (other than actual out-of-pocket expenses) with respect to a fringe benefit provided in a calendar year are allowable in that calendar year only to the extent that the employer includes the value of the fringe benefit in the employee's income for that calendar year.

Section (3) of Public Law 99-44 provides that an employer may elect not to withhold income taxes on the value of the use of an employer-provided highway motor vehicle provided the employer notifies the affected employee and includes the value of the use of the vehicle on the employee's Form W-2. If the election is to apply to 1985, the employer must notify the affected employee of its decision by September 1, 1985.

NON-APPLICABILITY OF EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this temporary rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis is not required.

REGULATORY FLEXIBILITY ACT

Because no notice of propsed rulemaking is required for this rule, a regulatory flexibility analysis is not required.

DRAFTING INFORMATION

The principal authors of this Treasury decision are Michel A. Dazé and Annette J. Guarisco of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing this Treasury decision, on matters of both substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Parts 1 and 602 are amended as follows:

PART 1—[AMENDED]

Paragraph 1. The authority for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Section 1.132-1T also issued under 26 U.S.C. 1322.

Par. 2. The following paragraphs and sections are removed:

1. Section 1.132-1T Q/A-4a
2. Section 1.274-5T
3. Section 1.274-6T

PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Par. 3. The authority citation for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 4. Section 602.101(c) is amended by removing from the table "§1.274-5T ... 1545-0074" and "§1.274-6T ... 1545-0074."

This Treasury decision removes the regulations issued to conform to statutory provisions that have been repealed. For this reason, it is found impracticable and unnecessary to issue this Treasury decision with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

JAMES I. OWENS,
Commissioner of Internal Revenue.

Approved August 30, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

TITLE 26—INTERNAL REVENUE.—CHAPTER 1, SUBCHAPTER A, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Temporary Regulations Relating to the Revised Recordkeeping Requirements With Respect to Listed Property; Taxation of Fringe Benefits

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document contains temporary income tax regulations relating to the requirement that any deduction or credit with respect to certain business-related expenses be substantiated with adequate records or sufficient evidence corroborating a taxpayer's own statement. This document also amends other temporary income tax regulations relating to the limitations on cost recovery deductions and the investment tax credit for "listed property" and temporary income tax regulations relating to the taxation of fringe benefits. In addition, the text of the temporary regulations set forth in this document serves as the text of proposed regulations for two notices of proposed rulemaking published * * * [on pages 809 and 810, this Bulletin]. This action is necessary to conform the income tax regulations to recent legislation and to provide the public with guidance necessary to comply with the law.

EFFECTIVE DATES: The amendments to §1.61-2T are generally effective with respect to the commuting use of employer-provided vehicles that occurs after December 31, 1985. The amendments to §1.132-1T are generally effective with respect to noncash fringe benefits received after December 31, 1984. The amendments to §1.162-25T, relating to certain deductions with respect to noncash fringe benefits, are effective as of January 1, 1985. The temporary regulations relating to the substantiation requirements of section 274(d) (§§1.274-5T and 1.274-6T) are generally effective for taxable years beginning after December 31, 1985. Section 1.274-5T(d)(2) and (3) applies to taxable years beginning after December 31, 1984. The amendments to the temporary regulations relating to the limitations on the investment tax credit and cost recovery deductions have the following effective dates: §1.280F-3T (d)(3), as amended, applies to listed property placed in service after June 18, 1984, beginning with the first taxable year in which section 274(d) applies to that property; the amendments to §§1.280F-1T and 1.280F-5T are generally effective for passenger automobiles leased after April 2, 1985; the amendment to §1.280F-6T(b)(2)(ii) is effective for vehicles placed in service after December 31, 1985; and the amendment to §1.280F-6T(b)(3) is effective for property placed in service after June 18, 1984.

FOR FURTHER INFORMATION CONTACT: Michel A. Dazé, with respect to the provisions under sections 162, 274, and 280F (202-566-6456), or Annette J. Guarisco, with respect to the taxation of fringe benefits (202-566-3918), of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T.

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document adds new temporary regulations to the Income Tax Regulations (26 CFR Part 1) under section 274 of the Internal Revenue Code of 1954 (Code), relating to the substantiation requirements with respect to certain "listed property." Section 179 of the Tax Reform Act of 1984 [Pub. L. 98-369, 1985-3 C.B. (Vol. 1) 1, 221] (the 1984 Act) amended Code section 274 to provide that no deduction or credit shall be allowed with respect to "listed property" (as defined in section 280F(d)(4)), unless the taxpayer substantiated any deduction or credit with "adequate contemporaneous records." Temporary regulations were published in the FEDERAL REGISTER on October 24, 1984, and February 20, 1985 (49 FR 42701 and 50 FR 7038) [T.D. 7986, 1984-2 C.B. 64 and T.D. 8009, 1985-1 C.B. 82], providing guidance for taxpayers affected by the requirement to maintain adequate contemporaneous records for taxable years beginning after December 31, 1984. Section 1 of the Repeal of Contemporaneous Recordkeeping Requirements (the 1985 Act) amended section 274 to provide that any deduction or credit with respect to listed property must be substantiated by adequate records or sufficient corroborative evidence and repealed any regulations issued to carry out the amendments made to section 274 by the 1984 Act. This document provides temporary regulations under section 274 to clarify the types of records that are generally necessary to substantiate any deduction or credit with respect to listed property.

Section 531 of the 1984 Act (98 Stat. 877) [1984-3 C.B. (Vol. 1) 1, 385] made various amendments to Code sections 61, 3121, 3231, 3306, 3401, and 3501 and added new Code sections 132 and 4977, relating to the taxation of fringe benefits. Temporary regulations were published in the FEDERAL REGISTER on January 7, 1985 (50 FR 747) [T.D. 8004, 1985-1 C.B. 23] to provide guidance on the treatment of taxable and nontaxable fringe benefits, including the valuation of taxable fringe benefits for purposes of income and employment tax withholding. Where necessary, to clarify the interaction between the section 274 substantiation requirements and the section 132 regulations, these regulations were amended in the FEDERAL REGISTER on February 20, 1985 (50 FR 7038). To reflect the changes made by the 1985 Act to section 274 and the effect on the section 132 regulations, this document amends those temporary regulations.

Section 179 of the 1984 Act also

added a new Code section 280F to provide limitations on the investment tax credit and depreciation with respect to "listed property" when such property is used for both business and personal purposes. "Listed property" includes a passenger automobile or any other property used as a means of transportation. The 1985 Act amended section 280F to lower the limitations on the amount of the investment tax credit and annual cost recovery deductions allowable for passenger automobiles placed in service after April 2, 1985. This document amends the temporary regulations under section 280F, which were also published in the FEDERAL REGISTER on October 24, 1984 (49 FR 42701).

The temporary regulations contained in this document relating to both substantiation and the taxation of fringe benefits serve as the text of proposed regulations for two notices of proposed rulemaking published * * * [on pages 809 and 810, this Bulletin].

EXPLANATION OF PROVISIONS

SUBSTANTIATION REQUIREMENTS

Introduction

As enacted in 1962, section 274(d) required a taxpayer to substantiate any deduction claimed for certain ordinary and necessary business expenses with adequate records or sufficient evidence corroborating the taxpayer's own statement. The three categories of expenses subject to these substantiation requirements are expenses incurred (1) while traveling away from home, including meals and lodging, (2) for entertainment, amusement, or recreation activities or the use of a facility in connection with those activities, or (3) for business-related gifts. Section 274(d) provides that a deduction for the expenses listed above is disallowed unless substantiated by adequate records or sufficient corroborative evidence.

Regulations under section 274(d) were first issued in 1962 (*see* §1.274-5). Under those regulations, a taxpayer was required to prove certain elements of an expenditure, for example, the amount, time, place, and business purpose of an expenditure for travel away from home. The regulations also described the types of evidence that constitute an adequate record or that may be corroborative of each element of an expenditure. To minimize duplication of records, the regulations provided special rules for certain employees who adequately account to their employers for expenses incurred in the employer's behalf, or independent contractors who adequately account to clients for reimbursements or expense allowances.

After amendment by the 1984 Act and the 1985 Act, section 274(d) disallows any deduction or credit claimed for the expenses listed above and for expenses incurred with respect to "listed property" unless substantiated by adequate records or sufficient corroborative evidence. Listed property, as defined in Code section 280F(d)(4), generally includes any passenger automobile, any other property used as a means of transportation, any property used for entertainment, recreation, or amusement, and any computer and peripheral equipment.

Existing §1.274-5 of the income tax regulations serves as the basis for the temporary regulations under section 274(d) that are contained in this Treasury decision. The temporary regulations contain additional provisions to reflect the application of section 274(d) to deductions or credits claimed with respect to listed property, and the exemption from the requirements of section 274(d) for "qualified nonpersonal use vehicles" under section 274(i).

Application to listed property

As set forth in §1.274-5T(b)(6), the elements of an expenditure with respect to listed property that a taxpayer must prove are (i) the amount, (ii) the date, and (iii) the business purpose of an expenditure or use. The amount of an expenditure may be the cost of acquisition (i.e., the basis of the property), a lease payment, the cost of maintenance and repairs, or the cost of capital improvements. The amount of use is the ratio of business use to total use of the property for a period of time, determined on the basis of mileage for automobiles and other vehicles and time for other listed property.

Section 274(d) contemplates that a taxpayer will maintain and produce records or other evidence that will constitute proof of the elements of an expenditure or use. As explained in §1.274-5T(c)(1), written evidence has more probative value than oral evidence alone, and the value of written evidence is greater the closer in time it relates to the expenditure or use. A contemporaneous log is not required by the temporary regulations, but a record of the elements of an expenditure or of a business use made at or near the time of the expenditure or use when there is generally accurate recall would constitute the best evidence to satisfy the substantiation requirements of section 274(d).

A taxpayer may satisfy the adequate records requirement by maintaining an account book, diary, log, statement of expense, trip sheets, or similar record prepared at or near the time of an expenditure or use, and documentary evidence which, in combination, are sufficient to establish each element of an expenditure. Information in an account book, etc. need not duplicate information contained in documentary evidence, such as a receipt, as long as the two forms of evidence complement each other in an orderly manner. The information required must be recorded at or near the time of the expenditure or use when the taxpayer has full present knowledge of each element of the expenditure or use. For example, a taxpayer may substantiate the business use of an automobile for a period with a journal in which the taxpayer records at the end of each week each element of the business uses of the automobile during the week.

The temporary regulations provide that the level of detail required in an adequate record to establish the element of the business use of property may vary depending on the facts and circumstances. If the taxpayer's use of property follows a regular pattern, the taxpayer may not need to record as much information as would be required if business use were sporadic. *See* §1.274-5T(c)(2)(ii) for an example.

If a taxpayer fails to maintain an adequate record, then the taxpayer must establish the elements of an expenditure or use by a written or oral statement and other corroborative evidence sufficient to establish the elements. For example, a taxpayer may maintain an adequate record for portions of a taxable year and use that record to substantiate

the business/investment use of listed property if the taxpayer can demonstrate by other evidence that the periods for which the adequate record is maintained are representative of the taxable year. *See* §1.274-5T(c)(3)(ii).

Generally, a taxpayer must substantiate the elements of each separate expenditure or use to which section 274(d) applies. However, the taxpayer may substantiate concurrent or repetitious expenditures or uses as a single item in certain cases. As provided in §1.274-5T(c)(6)(i)(B), amounts expended in connection with the use of listed property, such as for gasoline or repairs for an automobile, may be aggregated. If these expenses are aggregated, the taxpayer need not prove the business purpose of each expense, but may prorate the expenses based on the total business use of the property. Similarly, a taxpayer may consider a round trip or an uninterrupted period of business use as a single use (*see* §1.274-5T(c)(6)(i)(C)).

Tax return information

As required by the conference report to the 1985 Act (H.R. Rep. No. 99-67, 99th Cong., 1st Sess. 10 (1985)) [page 359, this Bulletin], §1.274-5T(d)(2) and (3) of the temporary regulations provides that taxpayers must include certain information on their tax returns about the business use of vehicles and other listed property. On returns for taxable years beginning after December 31, 1984, taxpayers that claim a deduction or credit with respect to any vehicle are required to provide the date that the vehicle was placed in service, information about the number of miles driven for various purposes, the percent of business use, whether evidence to support the business use is available, and whether that evidence is written. It is expected that an employer who provides the use of a vehicle to an employee will obtain information from the employee sufficient to complete the employer's tax return. As provided by §1.274-5T(d)(2)(ii), however, certain employers need not include all the information collected from employees on their tax returns and other employers need not obtain any information from employees. With respect to other types of listed property, taxpayers are required to provide the date that the property was placed in service, the percent of business use, whether evidence is available to support the amount of business use, and whether that evidence is written.

Listed property provided to employees

Section 1.274-5T(e) provides new rules for the substantiation of the business use of listed property made available by an employer for use by an employee. Generally, an employee may not exclude from gross income as a working condition fringe any amount of the value of the availability of listed property provided by an employer to the employee, unless the employee substantiates for the period of availability the amount of the exclusion with adequate records or sufficient corroborative evidence. If the employer provides the use of a vehicle to an employee and includes the value of the availability of the vehicle in the employee's gross income without taking into account any exclusion for a working condition fringe, the employee must substantiate any deduction claimed for the business use of the vehicle with adequate records or sufficient corroborative evidence.

An employer substantiates its business use of listed property provided to employees by showing either (1) that, based on adequate records maintained by the employees or on other evidence corroborating the employees' statements, all or a portion of the use of the listed property is by employees in the employer's trade or business, and that if any employee used the property for personal purposes, the employer included an appropriate amount in the employee's income, or (2) in the case of an employer-provided automobile, that the employer treats all use by employees as personal use and includes an appropriate amount in the employees' incomes.

For purposes of substantiating the business use of employer-provided listed property under §1.274-5T(e), an employer may rely on adequate records maintained by its employee or on the employee's own statement if corroborated by other sufficient evidence unless the employer knows or has reason to know that they are not accurate. Alternatively, the employer may rely on a statement submitted by the employee that provides sufficient information to allow the employer to determine the business use of the property unless the employer knows or has reason to know that the statement is not based on adequate records or sufficient corroborative evidence.

Employee business expenses

The provisions of §1.274-5T(f) of the temporary regulations are derived from existing §1.274-5(e) with only minor amendments. Section 1.274-5T(f) applies to employees who are reimbursed for deductible business expenses that they incur in connection with the performance of services as employees. If the employee makes an adequate accounting (*i.e.*, provides adequate records) to the employer of the expenses incurred and receives reimbursements equal to the expenses, the employee need not report either the reimbursements or the expenses on a tax return. If the amount of the reimbursements exceeds the amount of deductible expenses incurred by the employee, the employee must include the excess in income. If the employee's deductible expenses exceed any reimbursement received from the employer, the employee must be able to substantiate any deduction for the excess in accordance with the requirements of section 274(d).

An employee who is not required to make an adequate accounting to the employer, or who is required and fails to do so, must submit, as part of his tax return, the appropriate form issued by the Internal Revenue Service for claiming deductions for employee business expenses (for 1985, Form 2106) and provide the information requested on that form. In addition, the employee must be able to substantiate any deduction for business expenses in accordance with the requirements of section 274(d).

Any employee, whether required to make an adequate accounting to the employer or not, who claims any deduction or credit with respect to listed property, must submit the appropriate form issued by the Internal Revenue Service to provide the necessary information about the use of that property, as discussed above.

Reimbursement arrangements and mileage allowances

Under §1.274-5T(g) of the temporary regulations, which is similar to existing §1.274-5(f), the Commissioner is authorized to prescribe rules under which reimbursement arrangements or per diem allowances covering ordinary and necessary expenses of traveling away from home, or mileage allowances providing for ordinary and necessary expenses of local travel or transportation while traveling away from home, will be regarded as equivalent to substantiation by adequate records or other sufficient evidence. (*See*, for example, Rev. Rul 80-62, 1980-1 C.B. 63, as modified by Rev. Rul. 80-203, 1980-2 C.B. 101, Rev. Rul. 84-51, 1984-1 C.B. 90, and Rev. Rul. 85-155, page 89, this Bulletin.) A mileage allowance for use of a vehicle may be paid to the owner of the vehicle.

For example, an employer may pay an employee a fixed mileage allowance for use of the employee's own automobile in connection with the employer's trade or business. If a fixed mileage allowance not exceeding the prescribed standard mileage rate (*see* Rev. Proc. 85-49, page 716, this Bulletin) is used in payment of an employee's ordinary and necessary expenses of transportation, whether for travel away from home or local travel, and the elements of time, place, and business purpose are substantiated in accordance with the requirements of section 274(d), the mileage allowance is deemed to substantiate the amount of the transportation expenses.

Rev. Rul. 84-127, 1984-2 C.B. 246, provides that an employer is not required to report as wages on Form W-2 reimbursements of amounts equal to or less than the standard mileage rate, but is required to report amounts of reimbursement to an employee exceeding that rate. In theory, the reimbursement equal to or less than the standard mileage rate would be for otherwise deductible expenses incurred by the employee and need not be reported as income. Because the standard mileage rate includes a component for depreciation, the limitations on the investment tax credit and cost recovery deductions imposed by section 280F(d)(3) and §1.280F-6T(a) affect the holding of Rev. Rul. 84-127.

Under §1.280F-6T(a)(1), employee use of the employee's own automobile (or other listed property) in connection with the employer's trade or business is not treated as business use for purposes of determining the amount of any investment credit or cost recovery deduction unless the use is for the convenience of the employer and required as a condition of employment. Whether use of an employee's own automobile is for the convenience of the employer and required as a condition of employment is determined by applying the same principles for determining whether the value of any meals or lodging furnished by an employer to an employee are excluded under section 119 from the employee's gross income. If either requirement is not met and the employee has no other business use of the automobile, the employee is not entitled to any investment credit or cost recovery deduction with respect to that automobile. Under those circumstances, a reimbursement for transportation expenses at the standard mileage rate would exceed the employee's deductible expenses by the amount of the depreciation component. The reimbursement, therefore, must be reported by the employer as income on Form W-2.

Business expenses of independent contractors

Similar to existing §1.274-5(g), §1.274-5T(h) provides rules for the reporting and substantiation of certain expenses for travel, entertainment, gifts, or with respect to listed property paid or incurred by an independent contractor in connection with services performed for a client or customer under a reimbursement or other expense allowance arrangement. Unless an independent contractor substantiates each element of an expenditure in accordance with the requirements of section 274(d) or makes an adequate accounting of that expenditure to a client or customer, the independent contractor must include any reimbursement for that expenditure in income. If the independent contractor accounts to the client or customer for any expenses with adequate records or other sufficient evidence, the client or customer must be prepared to substantiate each element of the expenditure as required by section 274(d).

Qualified nonpersonal use vehicles

Section 2 of the 1985 Act also amended section 274(d) to provide that the substantiation requirements of that section do not apply to any qualified nonpersonal use vehicle. As defined in section 274(i), a qualified nonpersonal use vehicle is any vehicle which, by reason of its nature, is not likely to be used more than a de minimis amount for personal purposes. Section 1.274-5T(k) of the temporary regulations contains a list of these vehicles to which section 274(d) does not apply. Under §1.274-5T(k)(2)(ii)(S), the Commissioner may rule that other vehicles are qualified nonpersonal use vehicles. Comments are, therefore, invited concerning other vehicles that may be designated as qualified nonpersonal use vehicles.

Business use of automobiles and certain other vehicles

A taxpayer whose use of an automobile or certain other vehicles meets certain requirements during a taxable year or shorter period may use, for the relevant period, one of the methods prescribed in §1.274-6T to satisfy the substantiation requirements of section 274(d). Two types of written policy statements, in conjunction with other evidence, if initiated and kept by an employer to implement a policy of no personal use, or no personal use except for commuting, of a vehicle provided by the employer to an employee, may qualify as sufficient evidence corroborating the employer's or employee's own statement regarding the amount of business use of that vehicle. Methods of satisfying the substantiation requirements are also provided for vehicles used in connection with the business of farming and for automobiles provided to employees by employers who treat all use by the employees as personal use. For taxable years beginning in 1985, the methods prescribed in §1.274-6T will also satisfy the requirements of section 162.

As provided in §1.274-6T(b), for a vehicle used in connection with the business of farming, an employer may determine any deduction or credit with respect to the vehicle as if the amount of business use were 75 percent plus that percentage attributable to an amount included in an employee's income to reflect any personal use of the vehicle by the employee. Unlike the

special rule for farm vehicles contained in the repealed temporary regulations that were published in the FEDERAL REGISTER for Feburary 20, 1985, §1.274–6T(b) does not provide separate percentages of business uses for vehicles designed for commercial use and for other vehicles. Only one percentage is considered appropriate because section 274(i) exempts most vehicles designed for commercial use from the section 274(d) substantiation requirements.

TEMPORARY REGULATIONS UNDER SECTION 280F

As added to the Code by the 1984 Act and amended by the 1985 Act, section 280F generally imposes limitations on the amount of investment tax credit and annual depreciation deductions allowed for an automobile placed in service or leased after June 18, 1984. Section 280F also requires the Internal Revenue Service to issue regulations that impose on lessees of passenger automobiles limitations "substantially equivalent" to the limitations imposed on similarly situated owners of passenger automobiles. On October 19, 1984, pursuant to this requirement, the Service issued §1.28F-5T of the temporary regulations. The 1985 Act further limits the amount of investment tax credit and annual depreciation deductions allowable for passenger automobiles placed in service after April 2, 1985.

Limitations applicable to automobiles leased after April 2, 1985, were issued on August 20, 1985, in Announcement 85-127 (also published in 1985-35 I.R.B. 40, September 3, 1985). Section 1.280F-5T of the temporary regulations is amended to incorporate the provisions of that announcement. An error in paragraph (d)(2) of the announcement is also corrected: §1.280F-5T(e)(5)(ii) clarifies that, for any passenger automobile that has a fair market value greater than $32,400, the limitation in the form of an income inclusion in the seventh and subsequent taxable year during which the automobile is leased is only six percent of the amount prescribed by the announcement. One comment on the temporary regulations issued in October, 1984, was that the limitations applicable to leased automobiles did not account for situations when a lessor elects under section 48(d) to treat the lessee as having acquired the automobile allowing the lessee to claim the investment credit. The Internal Revenue Service plans to issue an announcement in the near future that will provide a separate set of limitations applicable to lessees to whom lessors have passed through the investment credit.

Additionally, as issued on October 19, 1984, §1.280F-6T(b)(3) provided that one category of listed property, property of a type generally used for purposes of entertainment, recreation, or amusement, includes photographic, phonographic, communication, and video recording equipment. That section is amended to exclude that equipment in general from the definition of listed property if it is used exclusively at a regular business establishment or in connection with a taxpayer's principal trade or business. If any equipment is not listed property, it is not subject to the substantiation requirements imposed by section 274(d)(4).

FRINGE BENEFITS

Section 61 of the Code provides that gross income includes "all income from whatever source derived," unless specifically excluded by another provision of the Code. In addition, section 61 specifies that gross income includes compensation for services. Section 531 of the 1984 Act clarified that fringe benefits are included in gross income as compensation for services and subject to income and employment taxes. Section 531 also provided an exclusion from gross income for the value of certain fringe benefits (such as no-additional-cost services, qualified employee discounts, working condition fringes, and de minimis fringes).

The temporary regulations under section 61 contain a special rule that may be used to value the commuting use of an employer-provided vehicle. As issued in January 1985, the temporary regulations provided that the special rule could not be used to value the commuting use of an employer-provided vehicle by an officer or five-percent owner of the employer. In February 1985, this restriction was amended to provide that the special rule could not be used to value commuting use (that occurs after March 22, 1985) by an officer or one-percent owner of the employer. This document simplifies the temporary regulations to provide that, for any commuting use that occurs during 1985, the special rule may not be used to value the commuting use of an employer-provided vehicle by an officer or five-percent owner of the employer.

For commuting use occurring after December 31, 1985, the temporary regulations provide that the special rule may not be used to value the commuting use of an employer-provided vehicle by a control employee. However, if a control employee is provided the commuting use of an employer-provided vehicle that is not an automobile (as defined in the regulations), the control employee may use the special rule. The regulations define a control employee separately for government and non-government employers. The Service and Treasury are interested in comments concerning the definition of control employee, especially the treatment of state and local executive officers as control employees. The definition of control employee prescribed for purposes of valuing the commuting use of an employer-provided vehicle will not apply to the valuation of flights on employer-provided aircraft.

The temporary regulations under section 132 clarify the relationship between the section 274 substantiation requirements and a section 132 working condition fringe. The regulations provide that neither an employer nor an employee may exclude the value of property or services from an employee's income as a working condition fringe unless the substantiation requirements of either section 162 or 274 (whichever is applicable) are satisfied. In addition, the section 132 regulations provide that the special substantiation safe harbor rules provided in §1.274-6T may be used by both employers and employees.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this temporary rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis is not required.

A notice of proposed rulemaking is not required by 5 U.S.C. 553(d) for temporary regulations. Accordingly, the temporary regulations do not constitute regulations subject to the Regula-

tory Flexibility Act (5 U.S.C. Chapter 6).

The collection of information requirements contained in these regulations have been submitted to the Office of Management and Budget in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal authors of these temporary regulations are Michel A. Dazé and Annette J. Guarisco of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from the other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations on matters of both substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR parts 1 and 602 are amended as follows:

PART 1—[AMENDED]

Paragraph 1. The authority for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C 7805. * * * Section 1.132-1T also issued under 26 U.S.C. 132; section 1.280F-5T also issued under 26 U.S.C. 280F(c).

Par. 2. Section 1.61-2T is amended by removing the heading immediately preceding Q/A-20, Q/A-20, and Q/A-21.

Par. 3. Section 1.61-2T is amended by adding a new heading immediately preceding Q/A-20, new Q/A-20, Q/A-20a, Q/A-20b, and Q/A-21 immediately after Q/A-19 to read as follows:

§1.61-2T Questions and answers relating to the taxation of fringe benefits (temporary).

* * * * *

Use of Employer-Provided Vehicles for Commuting

Q-20: Is there a special rule that taxpayers may use to value employer-provided vehicles which are not available for personal purposes other than commuting?

A-20: A special rule may be used to compute commuting value if the following criteria are met by employers and employees with respect to an employer-provided vehicle:

(a) The vehicle is owned or leased by the employer and is provided to one or more employees for use in connection with the employer's trade or business and is used in the employer's trade or business,

(b) For bona fide noncompensatory business reasons, the employer requires the employee to commute to and/or from work in the vehicle,

(c) The employer has established a written policy under which neither the employee, nor any individual whose use would be taxable to the employee, may use the vehicle for personal purposes, other than for commuting or de minimis personal use (such as a stop for a personal errand on the way between a business delivery and the employee's home),

(d) Except for de minimis personal use, neither the employee nor any individual whose use would be taxable to the employee uses the vehicle for any personal purpose other than commuting, and

(e) The employee required to use the vehicle for commuting is not a control employee of the employer (as defined in Q/A-20b of this section).

If the vehicle is a chauffeur-driven vehicle, the special rule of this Q/A-20 may not be used to value the commuting use of any passenger who commutes in the vehicle. The rule may be used, however, to value the commuting use of the chauffeur. For purposes of Q/A-20 through Q/A-22 of this section, the term "vehicle" means any motorized wheeled vehicle manufactured primarily for use on public streets, roads, and highways. Except as otherwise provided in Q/A-20a and Q/A-20b of this section, the term "vehicle" includes an automobile as defined in Q/A-11 of this section. For purposes of this section, the term "personal use" has the same meaning as prescribed in §1.274-6T(e)(5).

Q-20a: What special effective dates apply to the criteria provided in Q/A-20 of this section?

A-20a: Notwithstanding anything in Q/A-20 of this section to the contrary—

(a) *Written policy not required in 1985.* The policy described in Q/A-20(c) of this section prohibiting personal use need not be written provided the commuting use being valued under the special rule occurs prior to January 1, 1986; and

(b) *Commuting during 1985.* For commuting use that occurs after December 31, 1984, but before January 1, 1986, Q/A-20(e) of this section shall be applied by substituting "an employee who is an officer or a five-percent owner of the employer" in lieu of "control employee." If the vehicle in which the employee is required to commute is not an automobile as defined in Q/A-11 of this section, neither the restrictions of Q/A-20(e) of this section (relating to control employees) nor the restrictions of this Q/A-20a(b) (relating to officers and five-percent owners) apply. For purposes of determining who is a five-percent owner, any individual who owns (or is considered as owning) five or more percent of the fair market value of an entity (the "owned entity") is considered a five-percent owner of all entities which would be aggregated with the owned entity under the rules of section 414(b), (c), or (m).

Q-20b: Who is a "control employee" for purposes of determining the value of the availability of an employer-provided vehicle for commuting?

A-20b: (a) *Non-government employer.* For purposes of Q/A-20 of this section, a control employee of a non-government employer is any employee—

(1) Who is a Board- or shareholder-appointed, confirmed, or elected officer of the employer,

(2) Who is a director of the employer, or

(3) Who owns a one-percent or greater equity, capital, or profits interest in the employer.

For purposes of determining who is a one-percent owner under paragraph (a)(3) of this Q/A-20b, any individual who owns (or is considered as owning under section 318(a) or principles similar to section 318(a) for entities other than corporations) one percent or more of the fair market value of an entity (the "owned entity") is considered a one-percent owner of all entities which would be aggregated with the owned entity under the rules of section 414(b), (c), (m), or (o).

(b) *Government employer.* For purposes of Q/A-20 of this section, a control employee of a government employer is any—

(1) Elected official,

(2) Federal employee who is appointed by the President and confirmed by the Senate, or

(3) State or local executive officer comparable to individuals described in paragraph (b)(1) and (2) of this Q/A-20b.

For purposes of this Q/A-20b, the term "government" includes any Federal, state, or local governmental unit, and any agency or instrumentality thereof.

(c) *Control employee exception.* Notwithstanding anything in this section to the contrary, an employee who is a control employee may use the special valuation rule of Q/A-20 of this section if the criteria of Q/A-20 are satisfied (except for the condition in Q/A-20(e) of this section) and the vehicle in which the control employee is required to commute is not an automobile as defined in Q/A-11 of this section.

Q-21: If the requirements of Q/A-20 of this section are satisfied, what is the special rule for valuing the commuting use of an employer-provided vehicle?

A-21: Under the special rule, the commuting use is valued at $1.50 per one-way commute (e.g., from home to work or from work to home). If there is more than one employee who commutes in the vehicle, such as in the case of an employer-sponsored car pool, the amount includible in the income of each such employee is $1.50 per one-way commute. Thus, the amount includible for each round-trip commute is $3.00 per employee.

Par. 4. Section 1.132-1T is amended by adding new Q/A-4a and Q/A-4b immediately after Q/A-4 to read as follows:

§1.132-1T Questions and answers relating to the exclusion from gross income of certain fringe benefits (temporary).

* * * * *

Working Condition Fringe

* * * * *

Q-4a: Do section 162 and section 274(d) and the regulations thereunder apply in determining the amount, if any, of an employee's working condition fringe with respect to employer-provided property or services?

A-4a: Yes, as provided below.

(a) *In general.* The value of property or services provided to an employee by an employer may not be excluded from the employee's gross income as a working condition fringe, by either the employer or the employee, unless the substantiation requirements of either section 162 or section 274(d) (whichever is applicable) and the regulations thereunder are satisfied.

(b) *Listed property.* With respect to listed property (as defined in section 280F(d)(4)), the substantiation requirements of section 274(d) and the regulations thereunder do not apply to the determination of an employee's working condition fringe exclusion prior to the first taxable year of the employer beginning in 1986. For example, if an employer's first taxable year beginning in 1986 begins on July 1, the substantiation requirements of section 274(d) apply to the employee as of that date. The substantiation requirements of section 274(d) apply generally to an employee regardless of whether the requirements of section 274 apply to the employee's employer (such as when the employer is a tax-exempt organization); in these cases, the requirements of section 274(d) apply to the employee as of January 1, 1986.

In general, the substantiation requirements of section 274(d) are satisfied by adequate records or sufficient evidence corroborating the employee's own statement. Thus, such records or evidence provided by the employee, and relied upon by the employer to the extent permitted by the regulations promulgated under section 274(d), will be sufficient to substantiate a working condition fringe exclusion.

(c) *Safe harbor rules.* Section 1.274-6T provides that the substantiation requirements of section 274(d) and the regulations thereunder may be satisfied, in certain circumstances, by using one or more of the safe harbor rules prescribed in §1.274-6T. If the employer uses one of the safe harbor rules prescribed in §1.274-6T during a period with respect to a vehicle (as defined in §1.61-2T Q/A-20), that rule must be used by the employer to substantiate a working condition fringe exclusion with respect to that vehicle during the period. An employer that is exempt from Federal income tax may still use one of the safe harbor rules (if the requirements of that section are otherwise met during a period) to substantiate a working condition fringe exclusion with respect to the same vehicle during the period. If the employer uses one of the methods prescribed in §1.274-6T during a period with respect to an employer-provided vehicle, that method may be used by an employee to substantiate a working condition fringe exclusion with respect to the same vehicle during the period, as long as the employee includes in gross income the amount allocated to the employee pursuant to §1.274-6T and this section. If, however, the employer uses the same harbor rule prescribed in §1.274-6T(a)(2) or (3) and the employee without the employer's knowledge uses the vehicle for purposes other than de minimis personal use (in the case of the rule prescribed in §1.274-6T(a)(2)), or for purposes other than de minimis personal use and commuting (in the case of the rule prescribed in §1.274-6T(a)(3)), then the employee has additional gross income.

The rules prescribed in this Q/A-4a assume that the safe harbor rules prescribed in §1.274-6T are used for a one-year period. Accordingly, references to the value of the availability of a vehicle, amounts excluded as a working condition fringe, etc., are based on a one-year period. If the safe harbor rules prescribed in §1.274-6T are used for a period of less than a year, the amounts referenced in the previous sentence must be adjusted accordingly. For purposes of this section, the term "personal use" has the same meaning as prescribed in §1.274-6T(e)(5).

(d) *vehicles not available to employees for personal use.* For a vehicle described in §1.274-6T(a)(2) (relating to certain vehicles not used for personal purposes), the working condition fringe exclusion is equal to the value of the availability of the vehicle if the employer uses the method prescribed in §1.274-6T(a)(2).

(e) *Vehicles not available to employees for personal use other than commuting.* For a vehicle described in §1.274-6T(a)(3) (relating to certain vehicles not used for personal purposes

other than commuting), the working condition fringe exclusion is equal to the value of the availability of the vehicle for purposes other than commuting if the employer uses the method prescribed in §1.274-6T(a)(3). The rule applies only if the special rule for valuing commuting use, as prescribed in Q/A-20 through Q/A-22 of §1.61-2T, is used and the amount determined under the special rule is included in the employee's income (or the employee reimburses the employer for such amount).

(f) *Vehicles used in connection with the business of farming that are available to employees for personal use.* For a vehicle described in §1.274-6T(b) (relating to certain vehicles used in connection with the business of farming), the working condition fringe exclusion is calculated by multiplying the value of the availability of the vehicle by 75 percent.

If the vehicle is available to more than one individual, the employer must allocate the gross income attributable to the vehicle (25 percent of the value of the availability of the vehicle) among the employees (and other individuals whose use would not be attributed to an employee) to whom the vehicle was available. This allocation must be done in a reasonable manner to reflect the personal use of the vehicle by the individuals. Amounts that would be allocated to individuals who are not employees (such as a sole proprietor) reduce the amount that may be allocated to employees but are otherwise to be disregarded for purposes of this Q/A-4a.

For purposes of this Q/A-4a(f), the value of the availability of a vehicle may be calculated as if the vehicle had been available to only one employee continuously and without regard to any working condition fringe exclusion.

The following examples illustrate a reasonable allocation of gross income with respect to an employer-provided vehicle between two employees:

Example (1). Assume that two farm employees share the use of a vehicle which for a calendar year is regularly used directly in connection with the business of farming and qualifies for use of the rule in §1.274-6T(b). Employee A uses the vehicle in the morning directly in connection with the business of farming and employee B uses the vehicle in the afternoon directly in connection with the business of farming. Assume further that employee B takes the vehicle home in the evenings and weekends. The employer should allocate all the income attributable to the availability of the vehicle to employee B.

Example (2). Assume that for a calendar year, farm employees C and D share the use of a vehicle that is regularly used directly in connection with the business of farming and qualifies for use of the rule in §1.274-6T(b). Assume further that the employees alternate taking the vehicle home in the evening and alternate the availability to use the vehicle for personal purposes on weekends. The employer should allocate the income attributable to the availability of the vehicle for personal use (25 percent of the value of the availability of the vehicle) equally between the two employees.

Example (3). Assume the same facts as in example (2) except that C is the sole proprietor of the farm. Based on these facts, C should allocate the same amount of income to D as was allocated to D in example (2). No other income attributable to the availability of the vehicle for personal use should be allocated.

Q-4b: What special rule applies with respect to the use of qualified nonpersonal use vehicles?

A-4b: Effective January 1, 1985, one hundred percent of the value of the use of a qualified nonpersonal use vehicle (as described in §1.274-5T(k)) is excluded from gross income as a working condition fringe, provided that, in the case of vehicles described in paragraph (k)(3) through (7) of that section, the use of the vehicles conforms to the requirements of that paragraph.

Par. 5. Section 1.162-25T is revised to read as follows:

§1.162-25T Deductions with respect to noncash fringe benefits (temporary).

(a) *Employer.* If an employer includes the value of a noncash fringe benefit in an employee's gross income, the employer may not deduct this amount as compensation for services, but rather may deduct only the costs incurred by the employer in providing the benefit to the employee. The employer may be allowed a cost recovery deduction under section 168 or a deduction under section 179 for an expense not chargeable to capital account, or, if the noncash fringe benefit is property leased by the employer, a deduction for the ordinary and necessary business expense of leasing the property.

(b) *Employee.* If an employer provides the use of a vehicle (as defined in §1.61-2T Q/A-20) to an employee as a noncash fringe benefit and includes the entire value of the benefit in an employee's gross income without taking into account any exclusion for a working condition fringe allowable under section 132 and the regulations thereunder, the employee may deduct, for purposes of determining adjusted gross income, that value multiplied by the percentage of the total use of the vehicle that is in connection with the employer's trade or business. If the employer determines the value of the noncash fringe benefit under a special accounting rule that allows the employer to treat the value of benefits provided during the last two months of the calendar year or any shorter period as paid during the subsequent calendar year, then the employee must determine the deduction allowable under this paragraph (b) without regard to any use of the benefit during those last two months or any shorter period. The employee may not use a cents-per-mile valuation method to determine the deduction allowable under this paragraph (b).

(c) *Examples.* The following examples illustrate the provisions of this section.

Example (1). On January 1, 1986, X Company owns and provides the use of an automobile with a fair market value of $20,000 to E, an employee, for the entire calendar year. Both X and E compute taxable income on the basis of the calendar year. Seventy percent of the use of the automobile by E is in connection with X's trade or business. If X uses the special rule provided in §1.61-2T for valuing the availability of the automobile and takes into account the amount excludable as a working conditon fringe, X would include $1,680 ($5,600, the Annual Lease Value, less 70 percent of $5,600) in E's gross income for 1986. X may not deduct the amount included in E's income as compensation for services. X may, however, determine a cost recovery deduction under section 168, subject to the limitations under section 280F, for taxable year 1986.

Example (2). The facts are the same as in example (1), except that X includes $5,600 in E's gross income, the value of the noncash fringe benefit without taking into account the amount excludable as a working condition fringe. X may not deduct that amount as compensation for services, but may determine a cost recovery deduction under section 168, subject to the limitations under section 280F. For purposes of determining adjusted gross income, E may deduct $3,920 ($5,600 multiplied by the percent of business use).

Par. 6. New §1.274-5T is added in the appropriate place and reads as follows:

§1.274-5T Substantiation requirements (temporary).

(a) *In general.* For taxable years beginning on or after January 1, 1986, no

deduction or credit shall be allowed with respect to—

(1) Traveling away from home (including meals and lodging),

(2) Any activity which is of a type generally considered to constitute entertainment, amusement, or recreation, or with respect to a facility used in connection with such an activity, including the items specified in section 274(e),

(3) Gifts defined in section 274(b), or

(4) Any listed property (as defined in section 280F(d)(4) and §1.280F-6T(b)),

unless the taxpayer substantiates each element of the expenditure or use (as described in paragraph (b) of this section) in the manner provided in paragraph (c) of this section. This limitation supersedes the doctrine founded in *Cohan v. Commissioner*, 39 F.2d 540 (2d Cir. 1930). The decision held that, where the evidence indicated a taxpayer incurred deductible travel or entertainment expenses but the exact amount could not be determined, the court should make a close approximation and not disallow the deduction entirely. Section 274(d) contemplates that no deduction or credit shall be allowed a taxpayer on the basis of such approximations or unsupported testimony of the taxpayer. For purposes of this section, the term "entertainment" means entertainment, amusement, or recreation, and use of a facility therefor; and the term "expenditure" includes expenses and items (including items such as losses and depreciation).

(b) *Elements of an expenditure or use*—(1) *In general.* Section 274(d) and this section contemplate that no deduction or credit shall be allowed for travel, entertainment, a gift, or with respect to listed property unless the taxpayer substantiates the requisite elements of each expenditure or use as set forth in this paragraph (b).

(2) *Travel away from home.* The elements to be proved with respect to an expenditure for travel away from home are—

(i) *Amount.* Amount of each separate expenditure for traveling away from home, such as cost of transportation or lodging, except that the daily cost of the traveler's own breakfast, lunch, and dinner and of expenditures incidental to such travel may be aggregated, if set forth in reasonable categories, such as for meals, for gasoline and oil, and for taxi fares;

(ii) *Time.* Dates of departure and return for each trip away from home, and number of days away from home spent on business;

(iii) *Place.* Destinations or locality of travel, described by name of city or town or other similar designation; and

(iv) *Business purpose.* Business reason for travel or nature of the business benefit derived or expected to be derived as a result of travel.

(3) *Entertainment in general.* The elements to be proved with respect to an expenditure for entertainment are—

(i) *Amount.* Amount of each separate expenditure for entertainment, except that such incidental items as taxi fares or telephone calls may be aggregated on a daily basis;

(ii) *Time.* Date of entertainment;

(iii) *Place.* Name, if any address or location, and designation of type of entertainment, such as dinner or theater, if such information is not apparent from the designation of the place;

(iv) *Business purpose.* Business reason for the entertainment or nature of business benefit derived or expected to be derived as a result of the entertainment and, except in the case of business meals described in section 274(e)(1), the nature of any business discussion or activity;

(v) *Business relationship.* Occupation or other information relating to the person or persons entertained, including name, title, or other designation, sufficient to establish business relationship to the taxpayer.

(4) *Entertainment directly preceding or following a substantial and bona fide business discussion.* If a taxpayer claims a deduction for entertainment directly preceding or following a substantial and bona fide business discussion on the ground that such entertainment was associated with the active conduct of the taxpayer's trade or business, the elements to be proved with respect to such expenditure, in addition to those enumerated in paragraph (b)(3)(i), (ii), (iii), and (v) of this section are—

(i) *Time.* Date and duration of business discussion;

(ii) *Place.* Place of business discussion;

(iii) *Business purpose.* Nature of business discussion, and business reason for the entertainment or nature of business benefit derived or expected to be derived as the result of the entertainment;

(iv) *Business relationship.* Identification of those persons entertained who participated in the business discussion.

(5) *Gifts.* The elements to be proved with respect to an expenditure for a gift are—

(i) *Amount.* Cost of the gift to the taxpayer;

(ii) *Time.* Date of the gift;

(iii) *Description.* Description of the gift;

(iv) *Business purpose.* Business reason for the gift or nature of business benefit derived or expected to be derived as a result of the gift; and

(v) *Business relationship.* Occupation or other information relating to the recipient of the gift, including name, title, or other designation, sufficient to establish business relationship to the taxpayer.

(6) *Listed property.* The elements to be proved with respect to any listed property are—

(i) *Amount*—(A) *Expenditures.* The amount of each separate expenditure with respect to an item of listed property, such as the cost of acquisition, the cost of capital improvements, lease payments, the cost of maintenance and repairs, or other expenditures, and

(B) *Uses.* The amount of each business/investment use (as defined in §1.280F-6T(d)(3) and (e)), based on the appropriate measure (i.e., mileage for automobiles and other means of transportation and time for other listed property, unless the Commissioner approves an alternative method), and the total use of the listed property for the taxable period.

(ii) *Time.* Date of the expenditure or use with respect to listed property, and

(iii) *Business or investment purpose.* The business purpose for an expenditure or use with respect to any listed property (*see* §1.274-5T(c)(6)(i)(B) and (C) for special rules for the aggregation of expenditures and business use and §1.280F-6T(d)(2) for the distinction between qualified business use and business/investment use).

See also §1.274-5T(e) relating to the substantiation of business use of employer-provided listed property and

§1.274-6T for special rules for substantiating the business/investment use of certain types of listed property.

(c) *Rules of substantiation*—(1) *In general.* Except as otherwise provided in this section and §1.274-6T, a taxpayer must substantiate each element of an expenditure or use (described in paragraph (b) of this section) by adequate records or by sufficient evidence corroborating his own statement. Section 274(d) contemplates that a taxpayer will maintain and produce such substantiation as will constitute proof of each expenditure or use referred to in section 274. Written evidence has considerably more probative value than oral evidence alone. In addition, the probative value of written evidence is greater the closer in time it relates to the expenditure or use. A contemporaneous log is not required, but a record of the elements of an expenditure or of a business use of listed property made at or near the time of the expenditure or use, supported by sufficient documentary evidence, has a high degree of credibility not present with respect to a statement prepared subsequent thereto when generally there is a lack of accurate recall. Thus, the corroborative evidence required to support a statement not made at or near the time of the expenditure or use must have a high degree of probative value to elevate such statement and evidence to the level of credibility reflected by a record made at or near the time of the expenditure or use supported by sufficient documentary evidence. The substantiation requirements of section 274(d) are designed to encourage taxpayers to maintain the records, together with documentary evidence, as provided in paragraph (c)(2) of this section.

(2) *Substantiation by adequate records*—(i) *In general.* To meet the "adequate records" requirements of section 274(d), a taxpayer shall maintain an account book, diary, log, statement of expense, trip sheets, or similar record (as provided in paragraph (c)(2)(ii) of this section), and documentary evidence (as provided in paragraph (c)(2)(iii) of this section) which, in combination, are sufficient to establish each element of an expenditure or use specified in paragraph (b) of this section. It is not necessary to record information in an account book, diary, log, statement of expense, trip sheet, or similar record which duplicates information reflected on a receipt so long as the account book, etc. and receipt complement each other in an orderly manner.

(ii) *Account book, diary, etc.* An account book, diary, log, statement of expense, trip sheet, or similar record must be prepared or maintained in such manner that each recording of an element of an expenditure or use is made at or near the time of the expenditure or use.

(A) *Made at or near the time of the expenditure or use.* For purposes of this section, the phrase "made at or near the time of the expenditure or use" means the elements of an expenditure or use are recorded at a time when, in relation to the use or making of an expenditure, the taxpayer has full present knowledge of each element of the expenditure or use, such as the amount, time, place, and business purpose of the expenditure and business relationship. An expense account statement which is a transcription of an account book, diary, log, or similar record prepared or maintained in accordance with the provisions of this paragraph (c)(2)(ii) shall be considered a record prepared or maintained in the manner prescribed in the preceding sentence if such expense account statement is submitted by an employee to his employer or by an independent contractor to his client or customer in the regular course of good business practice. For example, a log maintained on a weekly basis, which accounts for use during the week, shall be considered a record made at or near the time of such use.

(B) *Substantiation of business purpose.* In order to constitute an adequate record of business purpose within the meaning of section 274(d) and this paragraph (c)(2), a written statement of business purpose generally is required. However, the degree of substantiation necessary to establish business purpose will vary depending upon the facts and circumstances of each case. Where the business purpose is evident from the surrounding facts and circumstances, a written explanation of such business purpose will not be required. For example, in the case of a salesman calling on customers on an established sales route, a written explanation of the business purpose of such travel ordinarily will not be required. Similarly, in the case of a business meal described in section 274(e)(1), if the business purpose of such meal is evident from the business relationship to the taxpayer of the persons entertained and other surrounding circumstances, a written explanation fo such business purpose will not be required.

(C) *Substantiation of business use of listed property*—(1) *Degree of substantiation.* In order to constitute an adequate record (within the meaning of section 274(d) and this paragraph (c)(2)(ii)), which substantiates business/investment use of listed property (as defined in §1.280F-6T(d)(3)), the record must contain sufficient information as to each element of every business/investment use. However, the level of detail required in an adequate record to substantiate business investment use may vary depending upon the facts and circumstances. For example, a taxpayer who uses a truck for both business and personal purposes and whose only business use of a truck is to make deliveries to customers on an established route may satisfy the adequate record requirement by recording the total number miles driven during the taxable year, the length of the delivery route once, and the date of each trip at or near the time of the trips. Alternatively, the taxpayer may establish the date of each trip with a receipt, record of delivery, or other documentary evidence.

(2) Written record. Generally, an adequate record must be written. However, a record of the business use of listed property, such as a computer or automobile, prepared in a computer memory device with the aid of a logging program will constitute an adequate record.

(D) *Confidential information.* If any information relating to the elements of an expenditure or use, such as place, business purpose, or business relationship, is of a confidential nature, such information need not be set forth in the account book, diary, log, statement of expense, trip sheet, or similar record, provided such information is recorded at or near the time of the expenditure or use and is elsewhere available to the district director to substantiate such element of the expenditure or use.

(iii) *Documentary evidence.* Documentary evidence, such as receipts, paid bills, or similar evidence sufficient to support an expenditure shall be required for—

(A) Any expenditure for lodging while traveling away from home, and

(B) Any other expenditure of $25 or more, except, for transportation charges, documentary evidence will not be required if not readily available,

provided, however, that the Commissioner, in his discretion, may prescribe rules waiving such requirements in circumstances where he determines it is impracticable for such documentary evidence to be required. Ordinarily, documentary evidence will be considered adequate to support an expenditure if it includes sufficient information to establish the amount, date, place, and the essential character of the expenditure. For example, a hotel receipt is sufficient to support expenditures for business travel if it contains the following: name, location, date, and separate amounts for charges such as for lodging, meals, and telephone. Similarly, a restaurant receipt is sufficient to support an expenditure for a business meal if it contains the following: name and location of the restaurant, the date and amount of the expenditure, the number of people served, and, if a charge is made for an item other than meals and beverages, an indication that such is the case. A document may be indicative of only one (or part of one) element of an expenditure. Thus, a cancelled check together with a bill from the payee, ordinarily would establish the element of cost. In contrast, a cancelled check drawn payable to a named payee would not by itself support a business expenditure without other evidence showing that the check was used for a certain business purpose.

(iv) *Retention of written evidence.* The Commissioner may, in his discretion, prescribe rules under which an employer may dispose of the adequate records and documentary evidence submitted to him by employees who are required to, and do, make an adequate accounting to the employer (within the meaning of paragraph (f)(4) of this section) if the employer maintains adequate accounting procedures with respect to such employees (within the meaning of paragraph (f)(5) of this section).

(v) *Substantial compliance.* If a taxpayer has not fully substantiated a particular element of an expenditure or use, but the taxpayer establishes to the satisfaction of the district director that he has substantially complied with the "adequate records" requirements of this paragraph (c)(2) with respect to the expenditure or use, the taxpayer may be permitted to establish such element by evidence which the district director shall deem adequate.

(3) *Substantiation by other sufficient evidence*—(i) *In general.* If a taxpayer fails to establish to the satisfaction of the district director that he has substantially complied with the "adequate records" requirements of paragraph (c)(2) of this section with respect to an element of an expenditure or use, then, except as otherwise provided in this paragraph, the taxpayer must establish such element—

(A) By his own statement, whether written or oral, containing specific information in detail as to such element; and

(B) By other corroborative evidence sufficient to establish such element.

If such element is the description of a gift, or the cost or amount, time, place, or date of an expenditure or use, the corroborative evidence shall be direct evidence, such as a statement in writing or the oral testimony of persons entertained or other witnesses setting forth detailed information about such element, or the documentary evidence described in paragraph (c)(2) of this section. If such element is either the business relationship to the taxpayer of persons entertained, or the business purpose of an expenditure, the corroborative evidence may be circumstantial evidence.

(ii) *Sampling*—(A) *In general.* Except as provided in paragraph (c)(3)(ii)(B) of this section, a taxpayer may maintain an adequate record for portions of a taxable year and use that record to substantiate the business/investment use of listed property for all or a portion of the taxable year if the taxpayer can demonstrate by other evidence that the periods for which an adequate record is maintained are representative of the use for the taxable year or a portion thereof.

(B) *Exception for pooled vehicles.* The sampling method of paragraph (c)(3)(ii)(A) of this section may not be used to substantiate the business/investment use of an automobile or other vehicle of an employer that is made available for use by more than one employee for all or a portion of a taxable year.

(C) *Examples.* The following examples illustrate this paragraph (c)(3)(ii).

Example (1). A, a sole proprietor and calendar year taxpayer, operates an interior decorating business out of her home. A uses an automobile for local business travel to visit the homes or offices of clients, to meet with suppliers and other subcontractors, and to pick up and deliver certain items to clients when feasible. There is no other business use of the automobile but A and other members of her family also use the automobile for personal purposes. A maintains adequate records for the first three months of 1986 that indicate that 75 percent of the use of the automobile was in A's business. Invoices from subcontractors and paid bills indicate the A's business continued at approximately the same rate for the remainder of 1986. If other circumstances do not change (e.g., A does not obtain a second car for exclusive use in her business), the determination that the business/investment use of the automobile for the taxable year is 75 percent is based on sufficient corroborative evidence.

Example (2). The facts are the same as in example (1), except that A maintains adequate records during the first week of every month, which indicate that 75 percent of the use of the automobile is in A's business. The invoices from A's business indicate that A's business continued at the same rate during the subsequent weeks of each month so that A's weekly records are representative of each month's business use of the automobile. Thus, the determination that the business/investment use of the automobile for the taxable year is 75 percent is based on sufficient corroborative evidence.

Example (3). B, a sole proprietor and calendar year taxpayer, is a salesman in a large metropolitan area for a company that manufactures household products. For the first three weeks of each month, B uses his own automobile occasionally to travel within the metropolitan area on business. During these three weeks, B's use of the automobile for business purposes does not follow a consistent pattern from day to day or week to week. During the fourth week of each month, B delivers to his customers all the orders taken during the previous month. B's use of his automobile for business purposes, as substantiated by adequate records, is 70 percent of the total use during that fourth week. In this example, a determination based on the records maintained during that fourth week that the business/investment use of the automobile for the taxable year is 70 percent is not based on sufficient corroborative evidence because use during this week is not representative of use during other periods.

(iii) *Special rules.* See §1.274-6T for special rules for substantiation by sufficient corroborating evidence with respect to certain listed property.

(4) *Substantiation in exceptional circumstances.* If a taxpayer establishes that, by reason of the inherent nature of the situation—

(i) He was unable to obtain evidence with respect to an element of the expenditure or use which conforms fully to the "adequate records" requirements of paragraph (c)(2) of this section,

(ii) He is unable to obtain evidence with respect to such element which conforms fully to the "other sufficient evidence" requirements of paragraph (c)(3) of this section, and

(iii) He has presented other evidence, with respect to such element, which possesses the highest degree of probative value possible under the circumstances, such other evidence shall be considered to satisfy the substantiation requirements of section 274(d) and this paragraph.

(5) *Loss of records due to circumstances beyond control of the taxpayer.* Where the taxpayer establishes that the failure to produce adequate records is due to the loss of such records through circumstances beyond the taxpayer's control, such as destruction by fire, flood, earthquake, or other casualty, the taxpayer shall have a right to substantiate a deduction by reasonable reconstruction of his expenditures or use.

(6) *Special rules*—(i) *Separate expenditure or use*—(A) *In general.* For the purposes of this section, each separate payment or use by the taxpayer shall ordinarily be considered to constitute a separate expenditure. However, concurrent or repetitious expenses or uses may be substantiated as a single item. To illustrate the above rules, where a taxpayer entertains a business guest at dinner and thereafter at the theater, the payment for dinner shall be considered to constitute one expenditure and the payment for the tickets for the theater shall be considered to constitute a separate expenditure. Similarly, if during a day of business travel a taxpayer makes separate payments for breakfast, lunch, and dinner, he shall be considered to have made three separate expenditures. However, if during entertainment at a cocktail lounge the taxpayer pays separately for each serving of refreshments, the total amount expended for the refreshments will be treated as a single expenditure. A tip may be treated as a separate expenditure.

(B) *Aggregation of expenditures.* Except as otherwise provided in this section, the account book, diary, log, statement of expense, trip sheet, or similar record required by paragraph (c)(2)(ii) of this section shall be maintained with respect to each separate expenditure and not with respect to aggregate amounts for two or more expenditures. Thus, each expenditure for such items as lodging and air or rail travel shall be recorded as a separate item and not aggregated. However, at the option of the taxpayer, amounts expended for breakfast, lunch, or dinner, may be aggregated. A tip or gratuity which is related to an underlying expense may be aggregated with such expense. In addition, amounts expended in connection with the use of listed property during a taxable year, such as for gasoline or repairs for an automobile, may be aggregated. If these expenses are aggregated, the taxpayer must establish the date and amount, but need not prove the business purpose of each expenditure. Instead, the taxpayer may prorate the expenses based on the total business use of the listed property. For other provisions permitting recording of aggregate amounts in an account book, diary, log, statement of expense, trip sheet, or similar record, see paragraphs (b)(2)(i) and (b)(3) of this section (relating to incidental costs of travel and entertainment).

(C) *Aggregation of business use.* Uses which may be considered part of a single use, for example, a round trip or uninterrupted business use, may be accounted for by a single record. For example, use of a truck to make deliveries at several different locations which begins and ends at the business premises and which may include a stop at the business premises in between two deliveries may be accounted for by a single record of miles driven. In addition, use of a passenger automobile by a salesman for a business trip away from home over a period of time may be accounted for by a single record of miles traveled. De minimis personal use (such as a stop for lunch on the way between two business stops) is not an interruption of business use.

(ii) *Allocation of expenditure.* For purposes of this section, if a taxpayer has established the amount of an expenditure, but is unable to establish portion of such amount which is att utable to each person participatin the event giving rise to the expendit such amount shall ordinarily be a cated to each participant on a pro basis, if such determination is mate Accordingly, the total number of sons for whom a travel or entert ment expenditure is incurred mus established in order to compute portion of the expenditure allocabl each such person.

(iii) *Primary use of a facility.* S tion 274(a)(1)(B) and (2)(C) deny a duction for any expenditure paid incurred before January 1, 1979, respect to a facility, or paid or incu at any time with respect to a club, u in connection with an entertainment tivity unless the taxpayer establis that the facility (including a club) used primarily for the furtherance the taxpayer's trade or business. A termination whether a facility bef January 1, 1979, or a club at any ti was used primarily for the furthera of the taxpayer's trade or business depend upon the facts and circu stances of each case. In order to es lish that a facility was used prima for the furtherance of his trade or b ness, the taxpayer shall maintain ords of the use of the facility, the of using the facility, mileage or equivalent (if appropriate), and s other information as shall tend to es lish such primary use. Such record use shall contain—

(A) For each use of the faci claimed to be in furtherance of the payer's trade or business, the eleme of an expenditure specified in pa graph (b)(3) of this section, and

(B) For each use of the facility no furtherance of the taxpayer's trad business, an appropriate description such use, including cost, date, num of persons entertained, nature of en tainment and, if applicable, informat such as mileage or its equivalent. A tation such as "personal use" or "fam use" would, in the case of such use, sufficient to describe the nature entertainment.

If a taxpayer fails to maintain adeq records concerning a facility whic likely to serve the personal purpose the taxpayer, it shall be presumed the use of such facility was prima

personal.

(iv) *Additional information.* In a case where it is necessary to obtain additional information, either—

(A) To clarify information contained in records, statements, testimony, or documentary evidence submitted by a taxpayer under the provisions of paragraph (c)(2) or (c)(3) of this section, or

(B) To establish the reliability or accuracy of such records, statements, testimony, or documentary evidence,

the district director may, notwithstanding any other provision of this section, obtain such additional information by personal interview or otherwise as he determines necessary to implement properly the provisions of section 274 and the regulations thereunder.

(7) *Specific exceptions.* Except as otherwise prescribed by the Commissioner, substantiation otherwise required by this paragraph is not required for—

(i) Expenses described in section 274(e)(2) relating to food and beverages for employees, section 274(e)(3) relating to expenses treated as compensation, section 274(e)(8) relating to items available to the public, and section 274(e)(9) relating to entertainment sold to customers, and

(ii) Expenses described in section 274(e)(5) relating to recreational, etc., expenses for employees, except that a taxpayer shall keep such records or other evidence as shall establish that such expenses were for activities (or facilities used in connection therewith) primarily for the benefit of employees other than employees who are officers, shareholders or other owners (as defined in section 274(e)(5)), or highly compensated employees.

(d) *Disclosure on returns*—(1) *In general.* The Commissioner may, in his discretion, prescribe rules under which any taxpayer claiming a deduction or credit for entertainment, gifts, travel, or with respect to listed property, or any other person receiving advances, reimbursements, or allowances for such items, shall make disclosure on his tax return with respect to such items. The provisions of this paragraph shall apply notwithstanding the provisions of paragraph (f) of this section.

(2) *Business use of passenger automobiles and other vehicles.* (i) On returns for taxable years beginning after December 31, 1984, taxpayers that claim a deduction or credit with respect to any vehicle are required to answer certain questions providing information about the use of the vehicle. The information required on the tax return relates to mileage (total, business, commuting, and other personal mileage), percentage of business use, date placed in service, use of other vehicles, after-work use, whether the taxpayer has evidence to support the business use claimed on the return, and whether or not the evidence is written.

(ii) Any employer that provides the use of a vehicle to an employee must obtain information from the employee sufficient to complete the employer's tax return. Any employer that provides more than five vehicles to its employees need not include any information on its return. The employer, instead, must obtain the information from its employees, indicate on its return that it has obtained the information, and retain the information received. Any employer—

(A) That can satisfy the requirements of §1.274-6T(a)(2), relating to vehicles not used for personal purposes,

(B) That can satisfy the requirements of §1.274-6T(a)(3), relating to vehicles not used for personal purposes other than commuting, or

(C) That treats all use of vehicles by employees as personal use

need not obtain information with respect to those vehicles, but instead must indicate on its return that it has vehicles exempt from the requirements of this paragraph (d)(2).

(3) *Business use of other listed property.* On returns for taxable years beginning after December 31, 1984, taxpayers that claim a deduction or credit with respect to any listed property other than a vehicle (for example, a yacht, airplane, or certain computers) are required to provide the following information:

(i) The date that the property was placed in service,

(ii) The percentage of business use,

(iii) Whether evidence is available to support the percentage of business use claimed on the return, and

(iv) Whether the evidence is written.

(e) *Substantiation of the business use of listed property made available by an employer for use by an employer*—(1) *Employee*—(i) *In general.* An employee may not exclude from gross income as a working condition fringe any amount of the value of the availability of listed property provided by an employer to the employee, unless the employee substantiates for the period of availability the amount of the exclusion in accordance with the requirements of section 274(d) and either this section or §1.274-6T.

(ii) *Vehicles treated as used entirely for personal purposes.* If an employer includes the value of the availability of a vehicle (as defined in §1.61-2T Q/A-20) in an employee's gross income without taking into account any exclusion for a working condition fringe allowable under section 132 and the regulations thereunder with respect to the vehicle, the employee must substantiate any deduction claimed under §1.162-25T for the business/investment use of the vehicle in accordance with the requirements of section 274(d) and either this section or §1.274-6T.

(2) *Employer*—(i) *In general.* An employer substantiates its business/investment use of listed property by showing either—

(A) That, based on evidence that satisfies the requirements of section 274(d) or statements submitted by employees that summarize such evidence, all or a portion of the use of the listed property is by employees in the employer's trade or business and, if any employee used the property for personal purposes, the employer included an appropriate amount in the employee's income, or

(B) In the case of a vehicle, the employer treats all use by employees as personal use and includes an appropriate amount in the employees' income.

(ii) *Reliance on employee records.* For purposes of substantiating the business/investment use of listed property that an employer provides to an employee and for purposes of the information required by paragraph (d)(2) and (3) of this section, the employer may rely on adequate records maintained by the employee or on the employee's own statement if corroborated by other sufficient evidence unless the employer knows or has reason to know that the statement, records, or other evidence are not accurate. The employer must retain a copy of the adequate rec-

ords maintained by the employee or the other sufficient evidence, if available. Alternatively, the employer may rely on a statement submitted by the employee that provides sufficient information to allow the employer to determine the business/investment use of the property unless the employer knows or has reason to know that the statement is not based on adequate records or on the employee's own statement corroborated by other sufficient evidence. If the employer relies on the employee's statement, the employer must retain only a copy of the statement. The employee must retain a copy of the adequate records or other evidence.

(f) *Reporting and substantiation of expenses of certain employees for travel, entertainment, gifts, and with respect to listed property*—(1) *In general.* The purpose of this paragraph is to provide rules for reporting and substantiation of certain expenses paid or incurred by employees in connection with the performance of services as employees. For purposes of this paragraph, the term "business expenses" means ordinary and necessary expenses for travel, entertainment, gifts, or with respect to listed property which are deductible under section 162, and the regulations thereunder, to the extent not disallowed by sections 262, 274(c), and 280F. Thus, the term "business expenses" does not include personal, living, or family expenses disallowed by section 262, travel expenses disallowed by section 274(c), or cost recovery deductions and credits with respect to listed property disallowed by section 280F(d)(3) because the use of such property is not for the convenience of the employer and required as a condition of employment. Except as provided in paragraph (f)(2), advances, reimbursements, or allowances for such expenditures must be reported as income by the employee.

(2) *Reporting of expenses for which the employee is required to make an adequate accounting to his employer*—(i) *Reimbursements equal to expenses.* For purposes of computing tax liability, an employee need not report on his tax return business expenses for travel, transportation, entertainment, gifts, or with respect to listed property, paid or incurred by him solely for the benefit of his employer for which he is required to, and does, make an adequate accounting to his employer (as defined in paragraph (f)(4) of this section) and which are charged directly or indirectly to the employer (for example, through credit cards) or for which the employee is paid through advances, reimbursements, or otherwise, provided that the total amount of such advances, reimbursements, and charges is equal to such expenses.

(ii) *Reimbursements in excess of expenses.* In case the total of the amounts charged directly or indirectly to the employer or received from the employer as advances, reimbursements, or otherwise, exceeds the business expenses paid or incurred by the employee and the employee is required to, and does, make an adequate accounting to his employer for such expenses, the employee must include such excess (including amounts received for expenditures not deductible by him) in income.

(iii) *Expenses in excess of reimbursements.* If an employee incurs deductible business expenses on behalf of his employer which exceed the total of the amounts charged directly or indirectly to the employer and received from the employer as advances, reimbursements, or otherwise, and the employee makes an adequate accounting to his employer, the employee must be able to substantiate any deduction for such excess with such records and supporting evidence as will substantiate each element of an expenditure (described in paragraph (b) of this section) in accordance with paragraph (c) of this section.

(3) *Reporting of expenses for which the employee is not required to make an adequate accounting to his employer.* If the employee is not required to make an adequate accounting to his employer for his business expenses, or, though required, fails to make an adequate accounting for such expenses, he must submit, as a part of his tax return, the appropriate form issued by the Internal Revenue Service for claiming deductions for employee business expenses (e.g., Form 2106, Employee Business Expenses, for 1985) and provide the information requested on that form, including the information required by paragraph (d)(2) and (3) of this section if the employee's business expenses are with respect to the use of listed property. In addition, the ployee must maintain such records supporting evidence as will substan each element of an expenditure or (described in paragraph (b) of this tion) in accordance with paragraph of this section.

(4) *Definition of an "adequate counting" to the employer.* For poses of this paragraph an adequate counting means the submission to employer of an account book, di log, statement of expenses, trip sh or similar record maintained by the ployee in which the information a each element of an expenditure or (described in paragraph (b) of this tion) is recorded at or near the tim the expenditure or use, together supporting documentary evidence, manner which conforms to all the " quate records" requirements of p graph (c)(2) of this section. An quate accounting requires that employee account for all amounts ceived from his employer during taxable year as advances, reimbu ments, or allowances (including t charged directly or indirectly to the ployer through credit cards or ot wise) for travel, entertainment, g and the use of listed property. methods of substantiation allowed der paragraph (c)(4) or (c)(5) of section also will be considered to b adequate accounting if the employe cepts an employee's substantiation establishes that such substantia meets the requirements of such p graph (c)(4) or (c)(5). For purpose an adequate accounting, the metho substantiation allowed under parag (c)(3) of this section will not permitted.

(5) *Substantiation of expenditure certain employees.* An employee makes an adequate accounting to employer within the meaning of paragraph will not again be require substantiate such expense accoun formation except in the follow cases:

(i) An employee whose business penses exceed the total of amo charged to his employer and amo received through advances, reimbu ments or otherwise and who clai deduction on his return for such exc

(ii) An employee who is relate his employer within the meanin

section 267(b), but for this purpose the percentage referred to in section 267(b)(2) shall be 10 percent, and

(iii) Employees in cases where it is determined that the accounting procedures used by the employer for the reporting and substantiation of expenses by such employees are not adequate, or where it cannot be determined that such procedures are adequate. The district director will determine whether the employer's accounting procedures are adequate by considering the facts and circumstances of each case, including the use of proper internal controls. For example, an employer should require that an expense account be verified and approved by a reasonable person other than the person incurring such expenses. Accounting procedures will be considered inadequate to the extent that the employer does not require an adequate accounting from his employees as defined in paragraph (f)(4) of this section, or does not maintain such substantiation. To the extent an employer fails to maintain adequate accounting procedures he will thereby obligate his employees to substantiate separately their expense account information.

(g) *Substantiation by reimbursement arrangements or per diem, mileage, and other traveling allowances.* The Commissioner may, in his discretion, prescribe rules under which—

(1) Reimbursement arrangements covering ordinary and necessary expenses of traveling away from home (exclusive of transportation expenses to and from destination),

(2) Per diem allowances providing for ordinary and necessary expenses of traveling away from home (exclusive of transportation costs to and from destination), and

(3) Mileage allowances providing for ordinary and necessary expenses of local travel and transportation while traveling away from home,

will, if in accordance with reasonable business practice, be regarded as equivalent to substantiation by adequate records or other sufficient evidence for purposes of paragraph (c) of this section of the amount of such expenses and as satisfying, with respect to the amount of such expenses, the requirements of an adequate accounting to the employer for purposes of paragraph (f)(4) of this section. If the total allowance received exceeds the deductible expenses paid or incurred by the employee, such excess must be reported as income on the employee's return. A mileage allowance provided under paragraph (g)(3) of this section is available only to the owner of a vehicle. *See* paragraph (j) of this section relating to the substantiation of meal expenses while traveling away from home.

(h) *Reporting and substantiation of certain reimbursements of person other than employees*—(1) *In general.* The purpose of this paragraph is to provide rules for the reporting and substantiation of certain expenses for travel, entertainment, gifts, or with respect to listed property paid or incurred by one person (hereinafter termed "independent contractor") in connection with services performed for another person other than an employer (hereinafter termed "client or customer") under a reimbursement or other expense allowance arrangement with such client or customer. For purposes of this paragraph, the term, "business expenses" means ordinary and necessary expenses for travel, entertainment, gifts, or with respect to listed property which are deductible under section 162, and the regulations thereunder, to the extent not disallowed by sections 262 and 274(c). Thus, the term "business expenses" does not include personal, living, or family expenses disallowed by section 262 or travel expenses disallowed by section 274(c), and reimbursements for such expenditures must be reported as income by the independent contractor. For purposes of this paragraph, the term "reimbursements" means advances, allowances, or reimbursements received by an independent contractor for travel, entertainment, gifts, or with respect to listed property in connection with the performance by him of services for his client or customer, under a reimbursement or other expense allowance arrangement with his client or customer, and includes amounts charged directly or indirectly to the client or customer through credit card systems or otherwise. *See* paragraph (j) of this section relating to the substantiation of meal expenses while traveling away from home.

(2) *Substantiation by independent contractors.* An independent contractor shall substantiate, with respect to his reimbursements, each element of an expenditure (described in paragraph (b) of this section) in accordance with the requirements of paragraph (c) of this section; and, to the extent he does not so substantiate, he shall include such reimbursements in income. An independent contractor shall so substantiate a reimbursement for entertainment regardless of whether he accounts (within the meaning of paragraph (h)(3) of this section) for such entertainment.

(3) *Accounting to a client or customer under section 274(e)(4)(B).* Section 274(e)(4)(B) provides that section 274(a) (relating to disallowance of expenses for entertainment) shall not apply to expenditures for entertainment for which an independent contractor has been reimbursed if the independent contractor accounts to his client or customer, to the extent provided by section 274(d). For purposes of section 274(e)(4)(B), an independent contractor shall be considered to account to his client or customer for all expense paid or incurred under a reimbursement or other expense allowance arrangement with his client or customer if, with respect to such expense for entertainment, he submits to his client or customer adequate records or other sufficient evidence conforming to the requirements of paragraph (c) of this section.

(4) *Substantiation by client or customer.* A client or customer shall not be required to substantiate, in accordance with the requirements of paragraph (c) of this section, reimbursements to an independent contractor for travel and gifts, or for entertainment unless the independent contractor has accounted to him (within the meaning of section 274(e)(4)(B) and paragraph (h)(3) of this section) for such entertainment. If an independent contractor has so accounted to a client or customer for entertainment, the client or customer shall substantiate each element of the expenditure (as described in paragraph (b) of this section) in accordance with the requirements of paragraph (c) of this section.

(i) [Reserved].

(j) *Authority for an optional method of computing meal expenses while traveling away from home.* The Commissioner may establish a method under which a taxpayer may elect to use a

specified amount or amounts for meals while traveling away from home in lieu of substantiating the actual cost of meals. The taxpayer would not be relieved of substantiating the actual cost of other travel expenses as well as the time, place, and business purpose of the travel. See paragraphs (b)(2) and (c) of this section.

(k) *Exceptions for qualified nonpersonal use vehicles*—(1) *In general.* The substantiation requirements of section 274(d) and this section do not apply to any qualified nonpersonal use vehicle (as defined in paragraph (k)(2) of this section).

(2) *Qualified nonpersonal use vehicle*—(i) *In general.* For purposes of section 274(d) and this section, the term "qualified nonpersonal use vehicle" means any vehicle which, by reason of its nature (i.e., design), is not likely to be used more than a de minimis amount for personal purposes.

(ii) *List of vehicles.* Vehicles which are qualified nonpersonal use vehicles include the following—

(A) Clearly marked police and fire vehicles (as defined and to the extent provided in paragraph (k)(3) of this section),

(B) Ambulances used as such or hearses used as such,

(C) Any vehicle designed to carry cargo with a loaded gross vehicle weight over 14,000 pounds,

(D) Bucket trucks ("cherry pickers"),

(E) Cement mixers,.

(F) Combines,

(G) Cranes and derricks,

(H) Delivery trucks with seating only for the driver, or only for the driver plus a folding jump seat,

(I) Dump trucks (including garbage trucks),

(J) Flatbed trucks,

(K) Forklifts,

(L) Passenger buses used as such with a capacity of at least 20 passengers,

(M) Qualified moving vans (as defined in paragraph (k)(4) of this section),

(N) Qualified specialized utility repair trucks (as defined in paragraph (k)(5) of this section),

(O) Refrigerated trucks,

(P) School buses (as defined in section 4221(d)(7)(C)),

(Q) Tractors and other special purpose farm vehicles,

(R) Unmarked vehicles used by law enforcement officers (as defined in paragraph (k)(6) of this section) if the use is officially authorized, and

(S) Such other vehicles as the Commissioner may designate.

(3) *Clearly marked police or fire vehicles.* A police or fire vehicle is a vehicle, owned or leased by a governmental unit, or any agency or instrumentality thereof, that is required to be used for commuting by a police officer or fire fighter who, when not on a regular shift, is on call at all times, provided that any personal use (other than commuting) of the vehicle outside the limit of the police officer's arrest powers or the fire fighter's obligation to respond to an emergency is prohibited by such governmental unit. A police or fire vehicle is clearly marked if, through painted insignia or words, it is readily apparent that the vehicle is a police or fire vehicle. A marking on a license plate is not a clear marking for purpose of this paragraph (k).

(4) *Qualified moving van.* The term "qualified moving van" means any truck or van used by a professional moving company in the trade or business of moving household or business goods if—

(i) No personal use of the van is allowed other than for travel to and from a move site (or for de minimis personal use, such as a stop for lunch on the way between two move sites),

(ii) Personal use for travel to and from a move site is an irregular practice (i.e., not more than five times a month on average), and

(iii) Personal use is limited to situations in which it is more convenient to the employer, because of the location of the employee's residence in relation to the location of the move site, for the van not to be returned to the employer's business location.

(5) *Qualified specialized utility repair truck.* The term "qualified specialized utility repair truck" means any truck (not including a van or pickup truck) specifically designed and used to carry heavy tools, testing equipment, or parts if—

(i) The shelves, racks, or other permanent interior construction which has been installed to carry and store such heavy items is such that it is unlikely that the truck will be used more than de minimis amount for personal pu poses, and

(ii) The employer requires the em ployee to drive the truck home in ord to be able to respond in emergency si uations for purposes of restoring maintaining electricity, gas, telephon water, sewer, or steam utility service

(6) *Unmarked law enforcemen vehicles*—(i) *In general.* The substant ation requirements of section 274(d and this section do not apply to offi cially authorized uses of an unmarke vehicle by a "law enforcement officer' To qualify for this exception, any pe sonal use must be authorized by th Federal, State, county, or local gover mental agency or department that own or leases the vehicle and employs th officer, and must be incident to law enforcement functions, such as bein able to report directly from home to stakeout or surveillance site, or to a emergency situation. Use of a unmarked vehicle for vacation or recr ation trips cannot qualify as an autho ized use.

(ii) *Law enforcement officer.* Th term "law enforcement officer" mean an individual who is employed on full-time basis by a governmental un that is responsible for the prevention investigation of crime involving injur to persons or property (including appr hension or detention of persons fo such crimes), who is authorized by la to carry firearms, execute search wa rants, and to make arrests (other tha merely a citizen's arrest), and who re ularly carries firearms (except when is not possible to do so because of th requirements of undercover work). Th term "law enforcement officer" may in clude an arson investigator if the inve tigator otherwise meets the requir ments of this paragraph (i)(6)(ii), b does not include Internal Revenu Service special agents.

(7) *Trucks and vans.* The substanti tion requirements of section 274(d) an this section apply generally to an pickup truck or van, unless the truck van has been specially modified wi the result that it is not likely to be use more than a de minimis amount fo personal purposes. For example, a va that has only a front bench for seatin in which permanent shelving that fil most of the cargo area has been i

stalled, that constantly carries merchandise or equipment, and that has been specially painted with advertising or the company's name, is a vehicle not likely to be used more than a de minimis amount for personal purposes.

(8) *Examples.* The following examples illustrate the provisions of paragraph (k)(3) and (6) of this section:

Example (1). Detective C, who is a "law enforcement officer" employed by a state police department, headquartered in city M, is provided with an unmarked vehicle (equipped with radio communication) for use during off-duty hours because C must be able to communicate with headquarters and be available for duty at any time (for example, to report to a surveillance or crime site). The police department generally has officially authorized personal use of the vehicle by C but has prohibited use of the vehicle for recreational purposes or for personal purposes outside the state. Thus, C's use of the vehicle for commuting between headquarters or a surveillance site and home and for personal errands is authorized personal use as described in paragraph (k)(6)(i) of this section. With respect to these authorized uses, the vehicle is not subject to the substantiation requirements of section 274(d) and the value of these uses is not included in C's gross income.

Example (2). Detective T is a "law enforcement officer" employed by city M. T is authorized to make arrests only within M's city limits. T, along with all other officers on the force, is ordinarily on duty for eight hours each work day and on call during the other sixteen hours. T is provided with the use of a clearly marked police vehicle in which T is required to commute to his home in city M. The police department's official policy regarding marked police vehicles prohibits personal use (other than commuting) of the vehicles outside the city limits. When not using the vehicle on the job, T uses the vehicle only for commuting, personal errands on the way between work and home, and personal errands within city M. All use of the vehicle by T conforms to the requirements of paragraph (k)(3) of this section. Therefore, the value of that use is excluded from T's gross income as a working condition fringe and the vehicle is not subject to the substantiation requirements of section 274(d).

(l) *Definitions.* For purposes of section 274(d) and this section, the terms "automobile" and "vehicle" have the same meanings as prescribed in §1.61-2T Q/A-11 and §1.61-2T Q/A-20, respectively. Also, for purposes of section 274(d) and this section, the terms "employer," "employee," and "personal use" have the same meanings as prescribed in §274-6T(e).

(m) *Effective date.* Section 274(d), as amended by the Tax Reform Act of 1984 and Public Law 99-44, and this section (except as provided in paragraph (d)(2) and (3) of this section) apply with respect the taxable years beginning after December 31, 1985. Section 274(d) and this section apply to any deduction or credit claimed in a taxable year beginning after December 31, 1985, with respect to any listed property, regardless of the taxable year in which the property was placed in service. However, except as provided in §1.132-1T Q/A-4b with respect to qualified nonpersonal use vehicles, the substantiation requirements of section 274(d) and this section do not apply to the determination of an employee's working condition fringe exclusion or to the determination under §1.162-25T(b) of an employee's deduction before the date that those requirements apply, under this paragraph (m), to the employer, if the employer is taxable.

Par. 7. New §1.274-6T is added immediately after §1.274-5T and reads as follows:

§1.274-6T Substantiation with respect to certain types of listed property for taxable years beginning after 1985 (temporary).

(a) *Written policy statements as to vehicles*—(1) *In general.* Two types of written policy statements satisfying the conditions described in paragraph (a)(2) and (3) of this section, if initiated and kept by an employer to implement a policy of no personal use, or no personal use except for commuting, of a vehicle provided by the employer, qualify as sufficient evidence corroborating the taxpayer's own statement and therefore will satisfy the employer's substantiation requirements under section 274(d). Therefore, the employee need not keep a separate set of records for purposes of the employer's substantiation requirements under section 274(d) with respect to use of a vehicle satisfying these written policy statement rules. A written policy statement adopted by a governmental unit as to employee use of its vehicles is eligible for these exceptions to the section 274(d) substantiation rules. Thus, a resolution of a city council or a provision of state law or a state constitution would qualify as a written policy statement, as long as the conditions described in paragraph (a)(2) and (3) of this section are met.

(2) *Vehicles not used for personal purposes*—(i) *Employers.* A policy statement that prohibits personal use by an employee satisfies an employer's substantiation requirements under section 274(d) if all the following conditions are met—

(A) The vehicle is owned or leased by the employer and is provided to one or more employees for use in connection with the employer's trade or business,

(B) When the vehicle is not used in the employer's trade or business, it is kept on the employer's business premises, unless it is temporarily located elsewhere, for example, for maintenance or because of a mechanical failure,

(C) No employee using the vehicle lives at the employer's business premises,

(D) Under a written policy of the employer, neither an employee, nor any individual whose use would be taxable to the employee, may use the vehicle for personal purposes, except for de minimis personal use (such as a stop for lunch between two business deliveries), and

(E) The employer reasonably believes that, except for de minimis use, neither the employee, nor any individual whose use would be taxable to the employee, uses the vehicle for any personal purpose.

There must also be evidence that would enable the Commissioner to determine whether the use of the vehicle meets the preceding five conditions.

(ii) *Employees.* An employee, in lieu of substantiating the business/investment use of an employer-provided vehicle under §1.274-5T, may treat all use of the vehicle as business/investment use if the following conditions are met—

(A) The vehicle is owned or leased by the employer and is provided to one or more employees for use in connection with the employer's trade or business,

(B) When the vehicle is not used in the employer's trade or business, it is kept on the employer's business premises, unless it is temporarily located elsewhere, for example, for maintenance or because of a mechanical failure,

(C) No employee using the vehicle lives at the employer's business

premises.

(D) Under a written policy of the employer, neither the employee, nor any individual whose use would be taxable to the employee, may use the vehicle for personal purposes, except for de minimis personal use (such as a stop for lunch between two business deliveries), and

(E) Except for de minimis personal use, neither the employee, nor any individual whose use would be taxable to the employee, uses the vehicle for any personal purpose.

There must also be evidence that would enable the Commissioner to determine whether the use of the vehicle meets the preceding five conditions.

(3) *Vehicles not used for personal purposes other than commuting*—(i) *Employers.* A policy statement that prohibits personal use by an employee, other than commuting, satisfies an employer's substantiation requirements under section 274(d) if all the following conditions are met—

(A) The vehicle is owned or leased by the employer and is provided to one or more employees for use in connection with the employer's trade or business and is used in the employer's trade or business,

(B) For bona fide noncompensatory business reasons, the employer requires the employee to commute to and/or from work in the vehicle,

(C) The employer has established a written policy under which neither the employee, nor any individual whose use would be taxable to the employee, may use the vehicle for personal purposes, other than for commuting or de minimis personal use (such as a stop for a personal errand on the way between a business delivery and the employee's home),

(D) The employer reasonably believes that, except for de minimis personal use, neither the employee, nor any individual whose use would be taxable to the employee, uses the vehicle for any personal purpose other than commuting,

(E) The employee required to use the vehicle for commuting is not a control employee (as defined in §1.61-2T Q/A-20b) required to use an automobile (as defined in §1.61-2T Q/A-11), and

(F) The employer accounts for the commuting use by including in the employee's gross income the commuting value provided in §1.61-2T Q/A-21 (to the extent not reimbursed by the employee).

There must be evidence that would enable the Commissioner to determine whether the use of the vehicle met the preceding six conditions.

(ii) *Employees.* An employee, in lieu of substantiating the business/investment use of an employer-provided vehicle under §1.274-5T, may substantiate any exclusion allowed under section 132 for a working condition fringe by including in income the commuting value of the vehicle (determined by the employer pursuant to §1.61-2T Q/A21) if all the following conditions are met:

(A) The vehicle is owned or leased by the employer and is provided to one or more employees for use in connection with the employer's trade or business and is used in the employer's trade or business,

(B) For bona fide noncompensatory business reasons, the employer requires the employee to commute to and/or from work in the vehicle,

(C) Under a written policy of the employer, neither the employee, nor any individual whose use would be taxable to the employee, may use the vehicle for personal purposes, other than for commuting or de minimis personal use (such as a stop for a personal errand on the way between a business delivery and the employee's home),

(D) Except for de minimis personal use, neither the employee, nor any individual whose use would be taxable to the employee, uses the vehicle for any personal purpose other than commuting,

(E) The employee required to use the vehicle for commuting is not a control employee (as defined in §1.61-2T Q/A-20b) required to use an automobile (as defined in §1.61-2T Q/A-11), and

(F) The employee includes in gross income the commuting value determined by the employer as provided in §1.61-2T Q/A-21)to the extent that the employee does not reimburse the employer for the commuting use).

There must also be evidence that would enable the Commissioner to determine whether the use of the vehicle met the preceding six conditions.

(b) *Vehicles used in connection with the business of farming*—(1) *In general.* If, during a taxable year or shorter period, a vehicle, not otherwise described in section 274(i), §1.274-5T (k), or paragraph (a)(2) or (3) of this section, is owned or leased by an employer and used during most of a normal business day directly in connection with the business of farming (as defined in paragraph (b)(2) of this section), the employer, in lieu of substantiating the use of the vehicle as prescribed in §1.274-5T(b)(6)(i)(B), may determine any deduction or credit with respect to the vehicle as if the business/investment use (as defined in §1.280F-6T(d)(3)(i)) and the qualified business use (as defined in §1.280F-6T(d)(2)) of the vehicle in the business of farming for the taxable year or shorter period were 75 percent plus that percentage, if any, attributable to an amount included in an employee's gross income. If the vehicle is also available for personal use by employees, the employer must include the value of that personal use in the gross income of the employees, allocated among them in the manner prescribed in §1.132-1T Q/A-4a(f).

(2) *Directly in connection with the business of farming.* The phrase "directly in connection with the business of farming" means that the vehicle must be used directly in connection with the business of operating a farm (i.e., cultivating land or raising or harvesting any agricultural or horticultural commodity, or the raising, shearing, feeding, caring for, training, and management of animals) or incidental thereto (for example, trips to the feed and supply store).

(3) *Substantiation by employees.* If an employee is provided with the use of a vehicle to which this paragraph (b) applies, the employee may, in lieu of substantiating the business/investment use of the vehicle in the manner prescribed in §1.274-5T, substantiate any exclusion allowed under section 132 for a working condition fringe as if the business/investment use of the vehicle were 75 percent, plus that percentage, if any, determined by the employer to be attributable to the use of the vehicle by individuals other than the employee, provided that the employee includes in gross income the amount determined by

the employer as includible in the employee's gross income. *See* §1.132-1T Q/A-4a (f) for examples illustrating the allocation of use of a vehicle among employees.

(c) *Vehicles treated as used entirely for personal purposes.* An employer may satisfy the substantiation requirements under section 274(d) for a taxable year or shorter period with respect to the business use of a vehicle that is provided to an employee by including the value of the availability of the vehicle during the relevant period in the employee's gross income without any exclusion for a working condition fringe with respect to the vehicle and, if required, by withholding any taxes. Under these circumstances, the employer's business/investment use of the vehicle during the relevant period is 100 percent. The employer's qualified business use of the vehicle is dependent upon the relationship of the employee to the employer (*see* §1.280F-6T(d)(2)).

(d) *Limitation.* If a taxpayer chooses to satisfy the substantiation requirements of section 274(d) and §1.274-5T by using one of the methods prescribed in paragraphs (a)(2) or (3), (b), or (c) of this section and files a return with the Internal Revenue Service for a taxable year consistent with such choice, the taxpayer may not later use another of these methods. Similarly, if a taxpayer chooses to satisfy the substantiation requirements of section 274(d) in the manner prescribed in §1.274-5T and files a return with the Internal Revenue Service for a taxable year consistent with such choice, the taxpayer may not later use a method prescribed in paragraph (a)(2) or (3), (b), or (c) of this section. This rule applies to an employee for purposes of substantiating any working condition fringe exclusion as well as to an employer. For example, if an employee excludes on his federal income tax return for a taxable year 90 percent of the value of the availability of an employer-provided automobile on the basis of records that allegedly satisfy the "adequate records" requirement of §1.274-5T(c)(2), and that requirement is not satisfied, then the employee may not satisfy the substantiation requirements of section 274(d) for the taxable year by any method prescribed in this section, but may present other corroborative evidence as prescribed in §1.274-5T(c)(3).

(e) *Definitions*—(1) *In general.* The definitions provided in this paragraph (e) apply for purposes of section 274(d), §1.274-5T, and this section.

(2) *Employer and employee.* The terms "employer" and "employee" include the following:

(i) A sole proprietor shall be treated as both an employer and employee,

(ii) A partnership shall be treated as an employer of its partners, and

(iii) A partner shall be treated as an employee of the partnership.

(3) *Automobile.* The term "automobile" has the same meaning as prescribed in §1.61-2T Q/A-11.

(4) *Vehicle.* The term "vehicle" has the same meaning as prescribed in §1.61-2T Q/A-20.

(5) *Personal use.* "Personal use" by an employee of an employer-provided vehicle includes use in any trade or business other than the trade or business of being the employee of the employer providing the vehicle.

(f) *Effective date.* This section is effective for taxable years beginning after December 31, 1985.

Par. 8. Section 1.280F-1T is amended by adding a new paragraph (c)(3) to read as follows:

§1.280F-1T Limitations on investment tax credit and recovery deductions under section 168 for passenger automobiles and certain other listed property; overview of regulations (temporary).

* * * * *

(c) *Effective dates*—* * *

(3) *Leased passenger automobiles.* Section 1.280F-5T(e) generally applies to passenger automobiles leased after April 2, 1985, in taxable years ending after that date. Section 1.280F-5T(e) does not apply to any passenger automobile that is leased pursuant to a binding contract, which is entered into no later than April 2, 1985, and which is in effect at all times thereafter, but only if the automobile is used under the lease before August 1, 1985. If §1.280F-5T(e) does not apply to a passenger automobile, *see* paragraph (c)(1) and (2) of this section.

Par. 9. Section 1.280F-3T is amended by revising the first sentence of paragraph (d)(3) to read as follows: "A taxpayer must be able to substantiate the use of any listed property, as prescribed in section 274(d)(4) and §1.274-5T or §1.274-6T, for any taxable year for which recapture under section 280F(b)(3) and paragraph (d)(1) and (2) of this section may occur even if the taxpayer has fully depreciated (or expensed) the listed property in a prior year."

Par. 10. Section 1.280F-5T is amended as follows:

1. The Caption of paragraph (d) and the first sentence of paragraph (d)(1) are revised to read as set forth below.

2. The first sentence of paragraph (d)(2)(i) is amended by adding after the words "passenger automobile" the clause ", which is leased after June 18, 1984, and before April 3, 1985,".

3. Paragraph (d)(2)(ii) is amended by removing the words "paragraph (g)(2)" and "paragraph (g)(3)" wherever they appear and by adding in their places the words "paragraph (h)(2)" and "paragraph (h)(3)", respectively. Paragraph (d)(2)(ii) is further amended by removing the words "paragraph (d)(3)(iii)" and "paragraph (d)(3)(iv)" and by adding in their places the words "paragraph (d)(2)(iii)" and "paragraph (d)(2)(iv)", respectively.

4. Paragraphs (e), (f), (g), and (h) are redesignated as paragraphs (f), (g), (h), and (i).

5. A new paragraph (e) is added immediately after paragraph (d) and reads as set forth below.

6. Paragraph (f) as redesignated is amended by removing from paragraph (f)(2)(i) the words "paragraph (g)(2)" and by adding in their place the words "paragraph (h)(2)", by removing from paragraph (f)(2)(ii) the words "paragraph (g)(3)" and by adding in their place the words "paragraph (h)(3)", and by removing from paragraph (f)(2)(iii) the words "paragraph (e)(3)" and by adding in their place the words "paragraph (f)(3)".

7. The first sentence of paragraph (g) as redesignated is revised to read as set forth below.

8. Paragraph (g)(2) as redesignated is amended by removing the words "paragraph (f)(2)" and by adding in their place the words "paragraph (g)(2)".

9. The sentence of paragraph (h)(3) as redesignated is amended by

removing the words "paragraph (f)(1)" and by adding in their place the words "paragraph (g)(1)".

10. Example (3) of paragraph (i) as redesignated is amended by removing from the fourth sentence the words "paragraphs (e)(1) and (f)(1)", "paragraph (f)(3)", and "paragraph (e)(3)(ii)", and by adding in their places the words "paragraphs (f)(1) and (g)(1)", "paragraph (g)(3)", and "paragraph (f)(3)(ii)", respectively.

11. Example (4) of the paragraph (i) as redesignated is amended by removing from the third sentence the words "paragraphs (e)(1) and (f)(1) and (2)", "paragraph (f)(3)", and "paragraph (e)(3)(i)", and by adding in their places the words "paragraphs (f)(1) and (g)(1) and (2)", "paragraph (g)(3)", and "paragraph (f)(3)(i)", respectively.

12. Paragraph (i) as redesignated is further amended by adding after example (4) two new examples to read as set forth below.

13. The new and revised provisions read as follows:

§1.280F-5T Leased property (temporary).

* * * * *

(d) *Inclusions in income of lessees of passenger automobiles leased after June 18, 1984, and before April 3, 1985*—(1) *In general.* If a taxpayer leases a passenger automobile after June 18, 1984, but before April 3, 1985, for each taxable year during which the taxpayer leases the automobile, the taxpayer must include in gross income an inclusion amount (prorated for the number of days of the lease term included in that taxable year), determined under this paragraph (d)(1), and multiplied by the business/investment use (as defined in §1.280F-6T(d)(3)(i)) for the particular taxable year. * * *

(e) *Inclusions in income of lessees of passenger automobiles leased after April 2, 1985*—(1) *In general.* For any passenger automobile that is leased after April 2, 1985, the inclusion amount for each taxable year during which an automobile is leased is based on the rules set forth in this paragraph (e). Additional inclusion amounts when a passenger automobile is not used predominantly in a qualified business use during a taxable year are determined under paragraph (e)(6) of this section. *See* paragraph (h)(2) of this section for the definition of fair market value.

(2) *Fair market value not greater than $50,000: years one through three.* For any passenger automobile that has a fair market value not greater than $50,000, the inclusion amount for each of the first three taxable years during which the automobile is leased is determined as follows:

(i) For the appropriate range of fair market values in the table in paragraph (e)(2)(iv) of this section, select the dollar amount from the column for the quarter of the taxable year in which the automobile is first used under the lease.

(ii) Prorate the dollar amount for the number of days of the lease term included in the taxable year, and

(iii) Multiply the prorated dollar amount by the business/investment use for the taxable year.

(iv) *DOLLAR AMOUNTS: YEARS 1–3*

Fair Market Value		*Taxable year quarter*			
		Fourth	*Third*	*Second*	*First*
Greater than	But not greater than				
$11,250	$11,500	$ 8	$ 7	$ 6	$ 6
11,500	11,750	24	21	19	17
11,750	12,000	40	35	32	29

(3) *Fair market value not greater than $50,000: years four through six.* For any passenger automobile that has a fair market value greater than $18,000, but not greater than $50,000, the inclusion amount for the fourth, fifth, and sixth taxable years during which the automobile is leased is determined as follows:

(i) for the appropriate range of fair market values in the table in paragraph (e)(3)(iv) of this section, select the dollar amount from the column for the taxable year in which the automobile is used under the lease,

(ii) Prorate the dollar amount for the number of days of the lease term included in the taxable year, and

(iii) Multiply this dollar amount by the business/investment use for the taxable year.

49,000	50,000	1890	1602	1314

(4) *Fair market value greater than $50,000: years one through six.* (i) For any passenger automobile that has a fair market value greater than $50,000, the inclusion amount for the first six taxable years during which the automobile is leased is determined as follows:

(A) Determine the dollar amount by using the appropriate formula in paragraph (e)(4)(ii) of this section,

(B) Prorate the dollar amount for the number of days of the lease term included in the taxable year, and

(C) Multiply this dollar amount by the business/investment use for the taxable year.

(ii) The dollar amount is computed as follows:

(A) If the automobile is first used under the lease in the fourth quarter of a taxable year, the dollar amount for each of the first three taxable years during which the automobile is leased is the sum of—

(1) $124, and

(2) 11 percent of the excess of the automobile's fair market value over $13,200.

(B) If the automobile is first used under the lease in the third quarter of a taxable year, the dollar amount for each of the first three taxable years during which the automobile is leased is the sum of—

(1) $110, and

(2) 10 percent of the excess of the automobile's fair market value over $13,200.

(C) If the automobile is first used under the lease in the second quarter of a taxable year, the dollar amount for each of the first three taxable years during which the automobile is leased is the sum of—

(1) $100, and

(2) 9 percent of the excess of the automobile's fair market value over $13,200.

(D) If the automobile is first used under the lease in the first quarter of a taxable year, the dollar amount for each of the first three taxable years during which the automobile is leased is the sum of—

(1) $90, and

(2) 8 percent of the excess of the automobile's fair market value over $13,200.

(E) For the fourth taxable year during which the automobile is leased, the dollar amount is 6 percent of the excess of the automobile's fair market value over $18,000.

(F) For the fifth taxable year during which the automobile is leased, the dollar amount is 6 percent of the excess of the automobile's fair market value over $22,800.

(G) For the sixth taxable year during which the automobile is leased, the dollar amount is 6 percent of the excess of the automobile's fair market value over $27,600.

(5) *Seventh and subsequent taxable years.* (i) For any passenger automobile that has a fair market value less than or equal to $32,400, the inclusion amount for the seventh and subsequent taxable years during which the automobile is leased is zero.

(ii) For any passenger automobile that has a fair market value greater than $32,400, the inclusion amount for the seventh and subsequent taxable years during which the automobile is leased is 6 percent of—

(A) The excess (if any) of the automobile's fair market value, over

(B) The sum of—

(1) $13,200 and

(2) $4,800 multiplied by the number of taxable years in excess of three years.

(6) *Additional inclusion amount when less than predominant use in a qualified business use.* (i) If a passenger automobile, which is leased after April 2, 1985, is not predominantly used in a qualified business use during a taxable year, the lessee must add to gross income in the first taxable year that the automobile is not so used (and only in that year) an inclusion amount determined under this paragraph (e)(6). This inclusion amount is in addition to the amount required to be included in gross income under paragraph (e)(2), (3), (4), and (5) of this section.

(ii) If the fair market value (as defined in paragraph (h)(2) of this section) of the automobile is greater than $11,250, the inclusion amount is determined by multiplying the average of the business/investment use (as defined in paragraph (h)(3) of this section) by the appropriate dollar amount from the table in paragraph (e)(6)(iii) of this section. If the fair market value of the automobile is $11,250 or less, the inclusion amount is the product of the fair market value of the automobile, the average business/investment use, and the applicable percentage from the table in paragraph (e)(6)(iv) of this section.

(iii) The dollar amount is determined under the following table:

If a passenger automobile is not predominantly used in a qualified business use during—	*The dollar amount is: Lease Term (years)*			
	1	*2*	*3*	*4 or more*
The first taxable year of the lease term	$350	$700	$1150	$1500
The second taxable year of the lease term	—	150	700	1200
The third taxable year of the lease term	—	—	250	750

(iv) The applicable percentage is determined under the following table:

If a passenger automobile is not predominantly used in a qualified business use during—	*The applicable percentage Lease Term (years)*			
	1	*2*	*3*	*4 or more*
The first taxable year of the lease term	3.0	6.0	10.2	13.2
The second taxable year of the lease term		1.25	6.2	10.4
The third taxable year of the lease term			2.25	6.5
The fourth taxable year of the lease term				1.7
The fifth taxable year of the lease term				0.5

* * * * *

(g) *Special rules applicable to inclusions in income of lessees.* This paragraph (g) applies to the inclusions in gross income of lessees prescribed under paragraphs (d)(2), (e)(6), or (f) of this section.

* * * * *

(i) *Examples.* * * *

Example (5) On July 15, 1985, A, a calendar year taxpayer, leases and places in service a passenger automobile with a fair market value of $45,300. The lease is for a period of 5 years, during which A uses the automobile exclusively in a trade or business. Under paragraph (e)(2) and (3) of this section, for taxable years 1985 through 1990, A must include the following amounts in gross income:

Taxable year	*Dollar amount*	*Proration*	*Business use*	*Inclusion*
1985	$3327	170/365	100%	$1550
1986	3327	365/365	100%	3327
1987	3327	365/365	100%	3327
1988	1650	366/366	100%	1650
1989	1362	365/365	100%	1362
1990	1074	196/365	100%	577

Example (6) The facts are the same as in example (1), except that A uses the automobile only 45 percent in a trade or business during 1987 through 1990. Under §1.280F-5T(e)(6), A must include in gross income for taxable year 1987, the first taxable year in which the automobile is not used predominantly in a trade or business, an additional amount based on the average business/investment use for taxable years 1985 through 1987. For taxable years 1985 through 1990, A must include the following amounts in gross income:

Taxable year	*Dollar amount*	*Proration*	*Business use*	*Inclusion*
1985	$3327	170/365	100%	$1550
1986	3327	365/365	100%	3327
1987	3327	365/365	45%	1497
	750		81.67%	612
1988	1650	366/366	45%	743
1989	1362	365/365	45%	613
1990	1074	196/365	45%	260

Par. 11. Section 1.280F-6T is amended by revising paragraphs (b)(2)(ii) and (b)(3) to read as follows:

§1.280F-6T Special rules and definitions (temporary).

* * * * *

(b) * * *

(2) * * *

(ii) *Exception.* The term "listed property" does not include any vehicle that is a qualified nonpersonal use vehicle as defined in section 274(i) and §1.274-5T(k).

(3) *Property used for entertainment, etc.*—(i) *In general.* Property of a type generally used for purposes of entertainment, recreation, or amusement includes property such as photographic, phonographic, communication, and video recording equipment.

(ii) *Exception.* The term "listed property" does not include any photographic, phonographic, communication, or video recording equipment of a taxpayer if the equipment is used either exclusively at the taxpayer's regular business establishment or in connection with the taxpayer's principal trade or business.

(iii) *Regular business establishment.* The regular business establishment of an employee is the regular business establishment of the employer of the employee. For purposes of this paragraph (b)(3), a portion of a dwelling unit is treated as a regular business establishment if the requirements of section 280A(c)(1) are met with respect to that portion.

PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Par. 12. The authority citation for Party 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 13. Section 602.101(c) is amended by inserting in the appropriate places in the table

"§1.61-2T Q/A-20 . 1545-0771",

"§1.274-5T ..... 1545-0771", and

"§1.274-6T ..... 1545-0771".

There is a need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue this Treasury decision with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved October 29, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

Section 280F.—Limitation on Investment Tax Credit and Depreciation for Luxury Automobiles; Limitation Where Certain Property Used for Personal Purposes

26 CFR 1.280F-1T: Limitations on investment tax credit and recovery deductions under section 168 for passenger automobiles and certain other listed property; overview of regulations (temporary).

Effective dates for limitations on investment tax credit and depreciation for leased passenger automobiles. See T.D. 8061, page 93.

Section 280G.—Golden Parachute Payments

What are the applicable federal rates to be used for purposes of section 280G? See Rev. Rul 85-170, page 186.

Subchapter C.—Corporate Distributions and Adjustments
Part I.—Distributions by Corporations
Subpart A.—Effects on Recipients

Section 302.—Distributions in Redemption of Stock

26 CFR 1.302-2: Redemptions not taxable as dividends.

Redemption of stock; effect of retained common stock on redemption of nonvoting preferred stock. When a trust directly and by attribution holds common stock and preferred stock and is one of three shareholders capable of forming a control group, a redemption of a portion of the trust's nonvoting preferred stock fails to qualify as a redemption that is not essentially equivalent to a dividend within the meaning of section 302(b)(1) of the Code.

Rev. Rul. 85-106

ISSUE

Is a redemption of nonvoting preferred stock not essentially equivalent to a dividend within the meaning of section 302(b)(1) of the Internal Revenue Code when there is no reduction in the percentage of voting and nonvoting common stock owned by the redeemed shareholder, and when the redeemed shareholder continues to have an undiminished opportunity to act in concert with other shareholders as a control group, under the circumstances described below?

FACTS

Corporation *X* had outstanding three classes of stock consisting of 100 shares of voting common stock, 100 shares of nonvoting common stock, and 50 shares of nonvoting 9 percent cumulative preferred stock. The fair market value of each share of common stock was approximately half the fair market value of each share of preferred stock. The voting common stock was held as follows:

Shareholders	*Shares*
A	19
B	19
C	18
Minority shareholders	44
Total	100

None of the minority shareholders owned more than five shares. None of the holders of the voting common stock were related within the meaning of section 318(a) of the Code. The combined voting power of *A*, *B*, and *C* was sufficient to elect a majority of the board of directors of *X*.

The nonvoting common stock and the preferred stock were held (directly and indirectly) in approximately the same proportions as the common stock. *C* held no nonvoting common stock or preferred stock directly, but was the sole remaining beneficiary of a trust, *T*, which owned 18 percent of both the nonvoting common stock and the preferred stock.

The trustees of *T* decided that it would be in the best interests of that trust if most of the *X* preferred stock held by *T* could be converted into cash. After negotiation, *X* redeemed six shares of preferred stock for its fair market value of 6x dollars. Following this redemption, *T* continued to hold three shares of preferred stock, and 18 percent of the nonvoting common stock. Under section 318(a)(3)(B) of the Code, *T* is also considered to own the voting common stock owned by its sole beneficiary, *C*.

LAW AND ANALYSIS

Section 302(a) of the Code provides, in part, that if a corporation redeems its stock, and if section 302(b)(1), (2), (3), or (4) applies, such redemption will be treated as a distribution in part or full payment in exchange for the stock.

Section 302(b)(1) of the Code provides that section 302(a) will apply if the redemption is not essentially equivalent to a dividend. Section 302(b)(2) provides that section 302(a) will apply if (in addition to other requirements) the redemption substantially reduces the voting power of the shareholder. Section 302(b)(3) provides that section 302(a) will apply if the redemption completely terminates the shareholder's interest in the corporation. Section 302(b)(4) does not deal with the type of redemption under consideration. Section 302(c)(1) provides, with an exception not here relevant, that the constructive ownership rules of section 318(a) apply in determining the ownership of stock for purposes of section 302.

The lack of any reduction in *T*'s 18 percent vote prevented this redemption from qualifying under section 302(b)(2) of the Code, and the lack of complete termination of interest prevented it from qualifying under section 302(b)(3). The question remains whether the redemption should be considered not essentially equivalent to a dividend so as to qualify under section 302(b)(1). Under section 1.302-2(b) of the Income Tax Regulations, this determination depends upon the facts and circumstances of each case.

In United States v. Davis, 397 U.S. 301 (1970), 1970-1 C.B. 62, the Supreme Court of the United States held that in order to qualify under section 302(b)(1) of the Code, a redemption must result in a meaningful reduction of the shareholder's proportionate interest in the corporation, and that, for this purpose, the attribution rules of section 318 apply.

In determining whether a reduction in interest is "meaningful", the rights inherent in a shareholder's interest must be examined. The three elements of a shareholder's interest that are generally considered most significant are: (1) the right to vote and thereby exercise control; (2) the right to participate in cur-

rent earnings and accumulated surplus; and (3) the right to share in net assets on liquidation. Rev. Rul. 81-289, 1981-2 C.B. 82.

In applying the above principles, it is significant that (as a result of section 318(a)(3)(B) of the Code) the redemption did not reduce *T*'s percentage of the vote in *X*. It is true that *T* reduced its percentage interest in current earnings, accumulated surplus, and net assets upon liquidation, and reduced the fair market value of its ownership in *X*. However, when the redeemed shareholder has a voting interest (either directly or by attribution), a reduction in voting power is a key factor in determining the applicability of section 302(b)(1) of the Code. *Johnson Trust v. Commissioner*, 71 T.C. 941, 947, 948 (1979). Rev. Rul. 78-401, 1978-2 C.B. 127; Rev. Rul. 77-218, 1977-1 C.B. 81; Rev. Rul. 7-502, 1975-2 C.B. 111; Rev. Rul. 75-512, 1975-2 C.B. 112.

It is also true that *T* was not the largest shareholder. *A* and *B* each held slightly larger voting interests, and larger interests measured by fair market value. *T*, however, was not in the position of a minority shareholder isolated from corporate management and control. Compare Rev. Rul. 75-512, where the majority of the redeeming corporation's voting stock was held by a shareholder unrelated (within the meaning of section 318(a)) to the redeemed trust. Also compare Rev. Rul. 76-385, 1976-2 C.B. 92, where the redeemed shareholder's total interest was *de minimis*.

In the present situation, a significant aspect of *T*'s failure to reduce voting power is the fact that the redemption leaves unchanged *T*'s potential (by attribution from *C*) for participating in a control group by acting in concert with *A* and *B*. Compare Rev. Rul. 76-364, 1976-2 C.B. 91, where a reduction in voting interest was found meaningful in itself when it caused the redeemed shareholder to give up a potential for control by acting in concert with one other shareholder. In addition, the Tax Court has indicated significance for this factor of potential group control (*Johnson Trust*, at 947). See also *Bloch v. United States*, 261 F. Supp. 597, 611-612 (S.D. Tex. 1966), *aff'd per curiam*, 386 F. 2d 839 (5th Cir. 1967), where, in finding that "the distributions in question were essentially equivalent to a dividend," the court noted that there was no change in the redeemed shareholder's potential for exercising control "by aligning himself with one or more of the other stockholders."

Although there was a reduction of *T*'s economic interest in *X*, such reduction was not sufficiently large to result in a meaningful reduction of *T*'s interest. The absence of any reduction of *T*'s voting interest in *X* (through *C*) and *T*'s potential (through *C*) for control group participation are compelling factors in this situation.

In *Himmel v. Commissioner*, 338 F.2d 815 (2d Cir. 1964), dealing with a similar question, a decision was reached permitting the applicability of section 302(b)(1) of the Code. That case, however, was decided prior to the decision of the Supreme Court in *Davis*. Thus, *Himmel* fails to reflect the development in the law represented by the *Davis* limitation on section 302(b)(1) applicability where there is no meaningful reduction of the shareholder's proportionate interest in the corporation. Thus, pursuant to *Davis*, it is proper to view *Himmel* as incorrect to the extent it conflicts with the position contained in this revenue ruling.

HOLDING

The redemption of nonvoting preferred stock held by *T* does not qualify as a redemption under section 302(b)(1) of the Code, under the facts of this ruling when there is no reduction in the percentage of voting and nonvoting common stock owned by *T*, and when *T* continuous to have an undiminished opportunity to act in concert with other shareholders as a control group. Since the redemption does not otherwise qualify under section 302(b), it is not a distribution in part or full payment for the stock under section 302(a). Consequently, under section 302(d), the redemption will be treated as a distribution of property to which section 301 applies.

Section 351.—Transfer to Corporation Controlled by Transferor

How does corporation that uses dollar-value last-in, first-out (LIFO) inventory method and that transfers a portion of its inventories in a nontaxable exchange under section 351 compute its basis in the inventories transferred. See Rev. Rul. 85-176, page 159.

---

26 CFR 1.351-1: Transfer to corporation controlled by transferor.
(Also Sections 358, 1223; 1.358-2, 1.1223-1.)

Controlled corporation; transfers of property with varying bases and holding periods. The aggregate basis of different assets transferred to a controlled corporation in an exchange that meets the requirements of section 351 of the Code is allocated among the stock and the securities received in the exchange in proportion to the fair market values of the stock and the securities, under sections 1.358-1 and 1.358-2(b)(2) of the regulations. The stock and the securities have split holding periods for purposes of determining long-term or short-term capital gain or loss. Rev. Ruls. 62-140 and 68-55 amplified.

Rev. Rul. 85-164

ISSUE

May a transferor determine the bases and holding periods of stock and securities received in a transfer under section 351 of the Internal Revenue Code by designating the specific property to be exchanged for particular stock or securities?

FACTS

A, an individual, was engaged in a business as a sole proprietor. The assets of the sole proprietorship consisted of trade accounts receivable with an adjusted basis of zero and a fair market value of 60*x* dollars, machinery with an adjusted basis of 5*x* dollars and a fair market value of 10*x* dollars, and real estate (land and building) with an adjusted basis of 25*x* dollars and a fair market value of 30*x* dollars. *A* had held the real estate and machinery for over one year. Both the real estate and machinery were property described in section 1231 of the Code.

In order to limit personal liability, *A* transferred all of the assets associated with the sole proprietorship to a new

corporation, *Y*, in exchange for all of *Y*'s stock and securities. *A* transfered the accounts receivable to *Y* in exchange for 100 shares of common stock, the fair market value of which was 60*x* dollars. *A* transferred the machinery and real estate to *Y* in exchange for the securities, which had a principal amount and a fair market value of 40*x* dollars. The selection of specific items for exchange was made to allocate assets with a high basis and long-term holding period to the securities.

LAW AND ANALYSIS

Section 351(a) of the Code provides that no gain or loss will be recognized if property is transferred to a corporation by a person solely in exchange for stock or securities in such corporation and immediately after the exchange such person is in control (as defined in section 368(c)) of the corporation.

Section 358(a)(1) of the Code and section 1.358-1 of the Income Tax Regulations provide that in the case of an exchange to which section 351 applies in which only non-recognition property is received, the basis of all of the stock and securities received in the exchage shall be the same as the basis of all property exchanged therefor. Section 358(b)(1) directs that, under regulations prescribed by the Secretary, the basis determined under subsection (a)(1) shall be allocated among the properties permitted to be received without the recognition of gain or loss.

Section 1.358-2(a) of the regulations prescribes rules for the allocation of basis among nonrecognition property received in corporate reorganization exchanges governed by sections 354, 355, 356 and 371(b). In general, these rules allow limited tracing of the basis of old stock or securities into new only with respect to (i) persons who owned stock or securities of more than one class, or both stock and securities, before the exchange and (ii) corporate recapitalizations under section 368(a)(1)(E). In all other cases, including exchanges under section 351, section 1.358-2(b)(2) provides that the basis of property transferred shall be allocated among all the stock and securities received in proportion to the fair market values of the stock of each class and the securities of each class.

Section 1223(1) and section 1.1223-1(a) of the regulations require that, in determining the period for which a taxpayer has held property received in an exchange, there shall be included the period for which he held the property exchanged if (i) in the taxpayer's hands the property received has the same basis in whole or in part as the property exchanged and (ii) for exchanges after March 1, 1954, the property exchanges was at the time of exchange a capital asset as defined in section 1221 or property used in a trade or business as described in section 1231.

Rev. Rul. 62-140, 1962-2 C.B. 181, holds that a share of stock received in exchange for a debenture and a cash payment had a split holding period. The portion of each share received attributable to ownership of the debenture was treated as including the period for which the taxpayer held the debenture and the portion of each share received attributable to the cash payment was treated as held beginning with the data following the date of acquisition.

Rev. Rul. 68-55, 1968-1 C.B. 140, holds that when property is transferred to a corporation under section 351(a) of the Code each asset must be considered transferred separately in exchange for a proportionate share of each of the various categories of the total consideration received.

In the instant case, *A* formed *Y* by transferring all of the business assets of the sole proprietorship to *Y* in exchange solely for all of *Y*'s stock and securities. *Y* will continue to carry on the business that *A* conducted, and *A* will remain in control of *Y*. The transfer, therefore, is subject to section 351 of the Code, with the bases and holding periods of the *Y* stock and securities in the hands of *A* determined under sections 358 and 1223 of the Code respectively.

HOLDING

A may not determine the bases and holding periods of the *Y* stock and securities received by designating specific property to be exchanged for particular stock or securities. Under sections 1.358-1 and 1.358-2(b)(2) of the regulations, the aggregate basis of the property transferred is allocated among the stock and the securities received in proportion to the fair market values of each class. The holding period of the *Y* stock and securities received by *A* is determined by referring to the assets deemed exchanged for each portion of the stock and securities. The aggregate basis of the property transferred was 30*x* dollars. Since the stock and securities *A* received had fair market values of 60*x* dollars and 40*x* dollars, respectively, a basis of 18*x* dollars (60*x*/100*x* × 30*x*) is allocated to the *Y* stock received by *A*, and a basis of 12*x* dollars (40*x*/100*x* × 30*x*) is allocated to the *Y* securities received. In addition, each share of *Y* stock and each security received by *A* has a split holding period and a split basis for purposes of determining long-term or short-term capital gain or loss. That fraction of each share of *Y* stock or security attributable to the real estate and machinery (40*x*/100*x*) is traded as including the period (over one year) for which *A* held the real estate and machinery and has a basis solely attributable to the real estate and machinery (*e.g.*, the 40*x*/100*x* of each share of stock attributable to the real estate and machinery will have a basis of .18*x* dollars (18*x*/100 shares)). The fraction of each share of *Y* stock or security attributable to the accounts receivable (60*x*/100*x*) has a holding period beginning on the day after the exchange and has a zero basis. If part or all of the stock or securities received in the exchange is disposed of at a time when the split holding period is relevent in determining tax liability, the same fractions will be applied to apportion the amount realized among the above components of the stock or security.

This holding would be unaffected if *A* were to make a transfer in exchange for securities at separate times, and the transfers were part of a single integrated transaction.

EFFECT ON OTHER REVENUE RULINGS

Rev. Ruls. 68-55 and 62-140 are amplified.

Subpart B—Effects on Shareholders and Security Holders

Section 355.—Distribution of Stock and Securities of a Controlled Corporation

26 CFR 1.355-2: Limitations.

Controlled corporation; stock distribution; business purpose. The busi-

ness purpose requirement under section 355 of the Code is met if an unprofitable ski resort is separated from a profitable golf and tennis resort in order to meet the recommendation of the securities underwriter who plans to market debentures of the profitable golf and tennis resort.

Rev. Rul. 85-122

ISSUE

Is the business purpose requirement of section 1.355-2(c) of the Income Tax Regulations met when stock of a controlled corporation is distributed under the circumstances described?

FACTS

P is a closely held corporation that owns and operates a golf and tennis resort in State *A*. *P* has for more than 5 years owned all the stock of *S*, a corporation that owns and operates a ski resort in State *B*. The golf and tennis resort operated by *P*, although profitable, is in need of substantial amounts of additional working capital to finance operation adequately. Due to various factors, including poor weather conditions, the ski resort operated by *S* has been experiencing significant losses for several years, and *S* is nearly bankrupt.

It is desired to sell *P* debentures in order to obtain additional working capital for *P*. *P* has approached an underwriter to explore debt financing through a private placement of its debentures. Except for this effort to sell *P* debentures, the underwriter has no relationship with *P* or *P's* shareholders. The underwriter has considerable experience in dealing with debt financing in situations of this type. The underwriter has advised *P* that potential investors could decline to invest in *P* because *P*'s balance sheet would divulge its holding of *S*, and raise fears that the funds invested in *P* would be diverted to improve *S*'s financial position. The underwriter has stated that, even if sufficient interest could be stimulated among potential investors, the terms and conditions of the debentures would be significantly more burdensome to *P*, if *P* remains associated with *S*. Finally, the underwriter has stated that a holding company structure in which *P* and *S* would both be first tier subsidiaries of a new parent company would not solve *P*'s problem, as potential investors would take into account *S*'s performance in evaluating the group's financial statements.

The underwriter has engaged in informal preliminary discussions of *P*'s situation with persons who frequently purchase the underwriter's offerings. Even though the underwriter has attempted to explain that *P* (as *S*'s shareholder) is not liable to *S*'s creditors, the underwriter encountered reluctance to invest in *P* as long as *P* and *S* are associated. Based on prior experience with similar situations, and on the result of these informal preliminary discussions, the underwriter has recommended that all the *S* stock be distributed to the *P* shareholders. This would permit *P* to prepare financial statements without reflecting the results and conditions of *S*'s operation. The underwriter will then put together a syndicate of investors to purchase the *P* debentures. The amount of capital to be raised is considered adequate to meet the needs of *P*'s operations.

In accordance with the underwriter's recommendation that *P* divest itself of *S*, *P* will distribute the *S* stock pro rata to the *P* shareholders. Except for the question here at issue regarding business purposes, distribution of the *S* stock to the *P* shareholders will meet all the requirements of section 355 of the Internal Revenue Code and the regulations thereunder.

LAW AND ANALYSIS

Section 355 of the Code provides that under certain circumstances a corporation may distribute stock or securities in a corporation it controls to its shareholders or its security holders in a transaction that is nontaxable to such shareholders or security holders. Section 1.355-2(c) of the regulations states that a distribution by a corporation of stock or securities of a controlled corporation to its shareholders with respect to its own stock will not qualify under section 355 of the Code when carried out for purposes not germane to the business of the corporations. This rrequirement is intended to limit the application of section 355 to those readjustments of corporate structure that are requied by business exigencies.

The distribution by *P* of the *S* stock is for purposes germane to the business of *P* within the meaning of section 1.355-2(c) of the regulations, since it is the result of a recommendation by an independent and experienced underwriter who, from both prior experience and present contacts, has concluded that any relationship between *P* and *S* will have a significant adverse affect on investor perception of *P* debentures, and since it is reasonable to expect that the distribution of the *S* stock will be of significant help to *P* in securing needed additional capital.

HOLDING

The business purpose requirement of section 1.355-2(c) of the regulations is met when the *S* stock is distributed under the circumstances described.

---

26 CFR. 1.355-2: Limitations.

Controlled corporation; stock distribution; business purpose. The business purpose requirement under section 355 of the Code is met if a corporation transfers one of its two active businesses to a new corporation for all of the stock and then splits off the subsidiary in order to retain the services of a key employee-shareholder of the split-off business.

Rev. Rul. 85-127

ISSUE

Is the business purpose requirement of section 1.355-2(c) of the Income Tax Regulations met by a distribution of stock of a controlled corporation, under the circumstances described below?

FACTS

X corporation has two divisions, *Division I* and *Division II*, each of which has been engaged in the active conduct of a trade or business for each of the past 5 years. *X* has outstanding 500 shares of common stock, which are held 400 shares by individual *A* and 100 shares by individual *B*.

The value of the *X* stock has increased substantially in recent years largely as a result of the efforts of *B*, a key employee and manager of *X*'s *Division II*. *B* is seriously considering terminating employment with *X*, if not offered the opportunity to acquire a controlling equity interest in the busi-

ness of *Division II*. However, *B* lacks the funds to purchase any additional equity.

In order to retain *B*'s services for *Division II*, *X* proposes to undertake the following two steps. *X* will transfer to *Y*, a newly formed corporation, the assets, subject to liabilities, associated with the business of *Division II* solely in exchange for 500 shares of *Y*'s common stock. Then, *X* will distribute 300 shares of this *Y* common stock to *B* in exchange for all of *B*'s 100 shares of *X* common stock, and *X* will distribute the remaining 200 shares of *Y* common stock to *A*, without *A* surrendering any *X* stock. The value of the *Y* stock received by *B* will be equal to the value of the *X* stock surrendered by *B*.

Except for the business purpose issue, the distribution of the *Y* stock to *A* and *B*, as described above, will meet all the requirements of sections 368(a)(1)(D) and 355 of the Internal Revenue Code and the regulations thereunder.

LAW AND ANALYSIS

Section 368(a)(1)(D) of the Code provides that a reorganization includes a transfer by a corporation of all or a part of its assets to another corporation if immediately after the transfer the transferor, or one or more of its shareholders, is in control of the corporation to which the assets are transferred; but only if, in pursuance of the plan , stock or securities of the corporation to which the assets are transferred are distributed in a transaction which qualifies under section 354, 355, or 356.

Section 355 of the Code provides that under certain circumstances a corporation may distribute stock or securities in a corporation it controls to its shareholders or security holders in a transaction that is not taxable to those shareholders or security holders. Section 1.355-2(c) of the regulations states that a distribution by a corporation of stock or securities of a controlled corporation to its shareholders with respect to its own stock will not qualify under section 355 of the Code when carried out for purposes not germane to the business of the corporations. This provision is intended to limit the application of section 355 to those readjustments of corporate structure that are required by business exigencies.

The transfer of the *Division II* business to *Y* and the distribution by *X* of the *Y* stock will be carried out for purposes germane to the business of *X* within the meaning of section 1.355-2(c) of the regulations, since this transfer and distribution will enable the business to retain a key employee.

HOLDING

The distribution of the *Y* stock is supported by a valid business purpose within the meaning of section 1.355-2(c) of the regulations. Since all other requirements of section 355 of the Code and regulations thereunder have been met, the distribution qualifies under section 355. The transfer by *X* of part of its assets to *Y* in exchange for *Y* stock is a reorganization as defined in section 368(a)(1)(D) of the Code.

Section 358.—Basis to Distributees

26 CFR 1.358-2: Allocation of basis among nonrecognition property.

Whether a taxpayer may, in a section 351 exchange, allocate transferred low-basis property to stock received in exchange and allocate transferred high-basis property to securities received in exchange. See Rev. Rul. 85-164, page 117.

Subpart D.—Special Rules; Definitions

Section 368.—Definitions Relating to Corporate Reorganizations

26 CFR 1.368-1: Purpose and scope of exception of reorganization exchanges.

Reorganizations; continuity of business enterprise. The merger of a holding company into its wholly owned operating subsidiary qualifies as a tax-free reorganization because the continuity of business enterprise requirement of section 1.368-1(d) of the regulations is satisfied.

Rev. Rul. 85-197

ISSUE

Whether the continuity of business enterprise requirement stated in section 1.368-1(d) of the Income Tax Regulations is satisfied under the facts described below.

FACTS

P is a holding company whose only asset consists of all the stock of an operating subsidiary, *S*. *P* merges into *S* and the *P* shareholders exchange their *P* stock for *S* stock.

LAW AND ANALYSIS

Section 1.368-1(b) of the regulations states that requisite to a reorganization under the Internal Revenue Code is a continuity of the business enterprise under modified corporate form.

Section 1.368-1(d)(3) of the regulations states that the continuity of business enterprise requirement is satisfied if the acquiring corporation continues the historic business of the acquired corporation. Section 1.68-1(d)(2) of the regulations states that:

The application of this general rule to certain transactions, such as mergers of holding companies, will depend on all facts and circumstances. The policy underlying this general rule, which is to ensure that reorganizations are limited to readjustments of continuing interests in property under modified corporate form, provides the guidance necessary to make these facts and circumstances determinations.

In the instant case, the policy enunciated in section 1.368-1(d)(2) of the regulations is satisfied. For purposes of the continuity of business enterprise requirement, the historic business of *P* is the business of *S*, its operating subsidiary. Therefore, after the merger, *S* continues to conduct *P*'s historic business.

HOLDING

The continuity of business enterprise requirement is satisfied when a holding company is merged into its wholly owned operating subsidiary.

---

26 CR 1.368-1: Purpose and scope of exception of reorganization exchanges.

Reorganizations; bank holding company; continuity of business enterprise. The continuity of business enterprise requirement of section 1.368-1(d) of the regulations is satisfied and the merger of bank holding companies qualifies as a tax-free reorganization when the business of the former subsidiary of the merged bank holding company is carried on in the same manner and form indirectly, through a second tier subsidiary, of the surviving bank holding company.

Rev. Rul. 85-198

ISSUE

Whether the continuity of business enterprise requirement set forth in section 1.368-1(d) of the Income Tax Regulations is satisfied under the facts described below.

FACTS

P is a bank holding company with a number of wholly owned banking subsidiaries. *T* is a bank holding company with one banking subsidiary, *S1*. *T* owns all of the stock of *S1*. *S1* owns all of the stock of *S2*, a mortgage banking company. The value of the *S2* stock represents a substantial percentage of the value of *S1*. In order to acquire the existing mortgage banking business of *S2*, *P* will acquire *T*. Pursuant to a single overall plan, *T* will merge with and into *P*. *P* will then cause *S1* to distribute all of the stock of *S2* to *P*. *P* will transfer the *S2* stock to one of its wholly-owned banking subsidiaries and, for valid business reasons, *P* will sell *S1* to an unrelated purchaser.

LAW AND ANALYSIS

Section 1.368-1(b) of the regulations states that requisite to a reorganization under the Internal Revenue Code is a continuity of the business enterprise under modified corporate form.

Section 1.368-1(d)(2) of the regulations states that a continuity of business enterprise requires that the acquiring corporation either continue the historic business of the acquired corporation or use a significant portion of the acquired corporation's historic business assets in a business. The same section states that:

The application of this general rule to certain transactions, such as megers of holding companies, will depend on all facts and circumstances. The policy underlying this general rule, which is to ensure that reorganizations are limited to readjustments of continuing interests in property under modified corporate form, provides the guidance necessary to make these facts and circumstances determinations.

Also, section 1.368-1(d)(3)(ii) states that if the acquired corporation has more than one line of business, the acquiring corporation need only continue a significant line of business.

In the instant case, the policy enunciated in section 1.368-1(d)(2) of the Regulations is satisfied. *T* indirectly operates two significant businesses through its wholly owned subsidiaries, *S1* and *S2*. After the merger *P* will continue to operate, indirectly, one of the two significant businesses through *S2*, now *P*'s second tier subsidiary. *See* section 1.368-1(d)(5), Ex. 1 of the Regulations.

HOLDING

The continuity of business enterprise requirement is satisfied.

---

26 CFR 1.368-1: Purpose and scope of exception of reorganization exchanges.

A statutory merger qualifying as a reorganization under section 368(a)(1)(A) of the Code does not terminate the surviving corporation's election to be treated as a possessions corporation pursuant to section 936. See Rev. Rul. 85-124, page 179.

---

26 CFR 1.368-2: Definition of terms.

Reorganizations; "solely for voting stock" requirement. An acquiring corporation's pre-existing stock ownership interest in an acquired corporation will not prevent the application of section 368(a)(1)(D) of the Code to a transaction that otherwise qualifies under that section. Rev. Rul. 54-396 distinguished.

Rev. Rul. 85-107

ISSUES

Whether Rev. Rul. 54-396, 1954-2 C.B. 147, and the decision in *Bausch & Lomb Optical Co. v. Commissioner*, 30 T.C. 602 (1958), *aff'd*, 267 F.2d 75 (2d Cir.), *cert. denied*, 361 U.S. 835 (1959), are applicable to a transaction that otherwise qualifies as a reorganization under the provisions of section 368(a)(1)(D) of the Internal Revenue Code of 1954.

FACTS

P corporation owned 50 percent of the outstanding stock of *T* corporation and 80 percent of the outstanding stock of *S* corporation. The remaining 50 percent of the outstanding stock of *T* was owned by *S*. *P*, *S*, and *T* do not make a consolidated return. The *T* stock was acquired by *P* and *S* for cash more than 20 years ago.

Pursuant to a plan of reorganization and for valid business reasons, *T* transferred all its properties to *S* in exchange for *S* voting stock and the assumption by *S* of the liabilities of *T*. *S*'s 50 percent stock interest in *T* was cancelled. The *S* stock received by *T* was distributed to *P* in exchange for its *T* stock, and *T* was dissolved. Except for the question here at issue with respect to the application of Rev. Rul. 54-396 and the *Bausch & Lomb* doctrine, the transaction met all the requirements of section 368(a)(1)(D) of the Code.

LAW AND ANALYSIS

Section 368(a)(1)(C) of the Code provides that the term "reorganization" includes the acquisition by one corporation, in exchange solely for all or a part of its voting stock, of substantially all of the properties of another corporation.

Section 368(a)(1)(D) of the Code provides that the term "reorganization" includes a transfer by a corporation of all its assets to another corporation if immediately after the transfer the transferor, or its shareholders, is in control of the corporation to which the assets are transferred, provided that the stock of the transferee corporation is distributed in a transaction which qualifies under section 354.

For purposes of nondivisive transactions under section 368(a)(1)(D) of the Code, section 368(c)(2), through reference to section 304(c), provides that the term "control" means ownership of stock possessing at least 50 percent of the total combined voting power of all classes of stock entitled to vote, or at least 50 percent of the total value of shares of all classes of stock of the corporation.

Under the provisions of section 354(b) of the Code, the general nonrecognition provisions of section 354(a) apply to a section 368(a)(1)(D) reorganization so long as the transferee corporation acquires substantially all the assets of the transferor and the stock received by such transferor (as well as any other property still held by the transferor) is distributed in pursuance of the plan of reorganization.

In Rev. Rul. 54-396, *M* corporation, owning 79 percent of the stock of *N* corporation, acquired all the assets of *N* in exchange for *M* voting stock. *N* was then liquidated and the *M* stock was

distributed to the *N* shareholders. Rev. Rul. 54-396 holds that the acquisition by *M* of all the assets of *N* in exchange for the *M* stock, followed by the liquidation of *N*, did not constitute a reorganization under section 112(g)(1)(C) of the Internal Revenue Code of 1939 (the predecessor to section 368(a)(1)(C) of the 1954 Code) since *M*, in substance, obtained only 21 percent of *N*'s assets in exchange for *M* stock, the balance being acquired as a liquidating distribution in exchange for *M*'s 79 percent stock interest in *N*. The transaction therefore did not satisfy the "solely for voting stock" requirement of section 112(g)(1)(C) of the 1939 Code.

The position taken in Rev. Rul. 54-396 was sustained under similar facts in *Bausch & Lomb Optical Co. v. Commissioner*, decided under the 1939 Code. In *Bausch & Lomb*, the acquiring corporation owned a majority (but less than 80 percent) of the stock of the acquired corporation. The acquired corporation transferred its assets to the acquiring corporation for voting stock of the acquiring corporation and then went out of existence. The "solely for voting stock" requirement of section 112(g)(1)(C) of the 1939 Code was held not to be satisfied because the effect of the transaction was the acquisition by the acquiring corporation of the assets of the acquired corporation in exchange for voting stock of the acquired corporation held by the acquiring corporation. The *Bausch & Lomb* opinion on appeal suggests that in a statutory merger in which the acquiring corporation owned stock of the acquired corporation, the pre-existing stock ownership would not prevent the transaction from qualifying as a reorganization described in section 112(g)(1)(A) of the 1939 Code (the predecessor of section 368(a)(1)(A) of the 1954 Code). *See also Grede Foundries, Inc. v. United States*, 202 F. Supp. 263 (E.D. Wis. 1962), decided under the 1954 Code. Similarly, in the present situation, since the definition contained in section 368(a)(1)(D) of the Code does not include a "solely for voting stock" requirement, the *Bausch & Lomb* rationale does not apply in determining whether the acquisition of the *T* assets by *S* meets the requirements of section 368(a)(1)(D).

HOLDING

Rev. Rul. 54-396 and the decision in *Bausch & Lomb Optical Co. v. Commissioner* do not apply to a reorganization which otherwise qualifies under the provisions of section 368(a)(1)(D) of the Code.

EFFECT ON
OTHER DOCUMENTS

Rev. Rul. 54-396 distinguished.

---

26 CFR 1.368-2: Definition of terms.

Reorganizations; solely for voting stock; stock purchased in preconceived plan. The acquisition of substantially all of the properties of a corporation by a wholly owned subsidiary of a parent corporation is not considered to be in exchange solely for voting stock so as to qualify as a reorganization where stock of the acquired corporation was previously purchased for cash by another wholly owned subsidiary of that parent corporation pursuant to an overall plan of reorganization.

Rev. Rul. 85-138

ISSUE

Whether the acquisition of substantially all the properties of *X* by *S1* under the facts described below meets the requirements of a reorganization pursuant to section 368(a)(1)(C) of the Internal Revenue Code.

FACTS

Corporation *P* owned all the stock of corporation *S1* and corporation *S2*. It was *P*'s desire that *S1* acquire substantially all the properties of *X*, a corporation unrelated by stock ownership to *P*, *S1* or *S2*. In order to eliminate any possible adverse minority interest in *X*, and pursuant to a plan adopted by *P*, *P* caused *S2* to purchase with *S2*'s own cash some of the shares of outstanding voting stock of *X*. *S2*, along with the other shareholders of *X*, then approved an agreement between *P* and *X* under which *X* transferred substantially all its properties to *S1* in exchange for voting stock of *P* and the assumption by *S1* of all of *X*'s liabilities. The liabilities assumed by *S1* were in excess of twenty percent of the fair market value of *X*'s assets. Subsequent to this exchange, *X* was dissolved and the *P* stock was distributed to the shareholders of *X* (including *S2*) in exchange for the surrender and cancellation of all the *X* stock.

LAW AND ANALYSIS

Section 368(a)(1)(C) of the Code provides that the term "reorganization" means the acquisition by one corporation, in exchange solely for all or a part of its voting stock (or in exchange solely for all or part of the voting stock of a corporation which is in control of the acquiring corporation), of substantially all the properties of another corporation, but in determining whether the exchange is solely for stock, the assumption by the acquiring corporation of a liability of the other, or the fact that property acquired is subject to a liability, shall be disregarded.

Section 368(a)(2)(B) of the Code provides that if (i) one corporation acquires substantially all of the properties of another corporation, (ii) the acquisition would qualify under section 368(a)(1)(C) but for the fact that the acquiring corporation exchanges money or other property in addition to voting stock, and (iii) the acquiring corporation acquires, solely for voting stock described in section 368(a)(1)(C), property of the other corporation having a fair market value which is at least 80 percent of the fair market value of all of the property of the other corporation, then such acquisition will (subject to section 368(a)(2)(A)) be treated as qualifying under section 368(a)(1)(C). Soley for the purpose of determining whether clause (iii) of the preceding sentence applies, the amount of any liability assumed by the acquiring corporation, and the amount of any liability to which any property acquired by the acquiring corporation is subject, will be treated as money paid for the property. Thus, if nonqualifying consideration such as cash is furnished by the acquiring corporation, liabilities of the acquired corporation assumed by the acquiring corporation are added to cash paid in order to determine whether 80 percent of the fair market value of the assets of the acquired corporation are exchanged solely for voting stock. In the instant case, *S1*'s assumption of *X* liabilities in excess of 20 percent of the fair market value of *X* assets effectively precludes the application of the boot relaxation rule of section 368(a)(2)(B) of the Code. As a result, if *S1* is deemed

to have exchanged partly *P* voting stock and partly cash for substantially all the assets of *X*, the transaction will not qualify as a reorganization under section 368(a)(1)(C) of the Code.

In Rev. Rul. 69-48, 1969-1 C.B. 106, corporation *P* purchased for cash nineteen percent of the stock of corporation *X* and acquired an option to purchase an additional thirty percent as part of a plan for *P*'s wholly-owned subsidiary, *S*, to acquire the assets of *X*.

Under the option agreement, *P* was able to vote the optioned stock as well as the stock it had purchased outright. Twenty-two months later, *P* voted for the transfer of *X*'s assets to *S* in exchange for *P* voting stock and the assumption by *S* of *X*'s liabilities. After the transfer of its assets, *X* was liquidated. Rev. Rul. 69-48 concludes that *P*'s cash purchase of *X* stock violated the "solely for voting stock" requirement of section 368(a)(1)(C) because it was an integral step in the plan to acquire substantially all of *X*'s assets.

In the present case, *S2*'s prearranged cash purchase of *X* shares was an integral step in the plan for *S1* to acquire substantially all the assets of *X*. Therefore, as in Rev. Rul. 69-48, the consideration for the acquisition of *X*'s properties by *S1* is deemed to consist of cash in addition to the voting stock of *P* and the assumption of liabilities by *S1* permitted under section 368(a)(1)(C) of the Code.

HOLDING

The transaction does not qualify as a reorganization defined in section 368(a)(1)(C) of the Code. Compare Rev. Rul. 85-139 wherein the same conclusion is reached in a purported reorganization under section 368(a)(1)(B).

---

26 CFR 1.368-2: Definition of terms.

Reorganizations; solely for voting stock; cash purchases of stock. The "solely for voting stock" requirement of section 368(a)(1)(B) of the Code is not met if the acquiring corporation exchanges its voting stock for 90 percent of the acquired corporation's outstanding stock and the acquiring corporation causes its wholly owned subsidiary to purchase 10 percent of the acquired corporation's outstanding stock for cash.

Rev. Rul. 85-139

ISSUE

Whether the transaction described below qualifies as a reorganization under section 368(a)(1)(B) of the Internal Revenue Code.

FACTS

P corporation owned all the stock of *S* corporation. *P* desired to obtain control of *X* corporation by acquiring all the shares of the one outstanding class of stock of *X* solely in exchange for *P* voting stock. Certain shareholders of *X*, owning ten percent of its stock, insisted, however, on receiving cash for their stock. Since *P* wanted to eliminate any possible adverse minority interest in *X*, and pursuant to one overall plan to acquire the stock of *X*, *P* acquired ninety percent of the stock of *X* solely in exchange for *P* voting stock, and *P* caused *S* to purchase for cash the remaining ten percent of the *X* stock. The cash paid by *S* for *X*'s stock was not obtained directly or indirectly from *P*. *S* retained ownership of the *X* stock it had purchased.

LAW AND ANALYSIS

Section 368(a)(1)(B) of the Code provides that the term "reorganization" means the acquisition by one corporation, in exchange solely for all or a part of its voting stock (or in exchange solely for all or part of the voting stock of a corporation which is in control of the acquiring corporation), of stock of another corporation, if, immediately after the acquisition, the acquiring corporation has control of such other corporation (whether or not such acquiring corporation had control immediately before the acquisition).

Section 1.368-2(c) of the Income Tax Regulations illustrates the application of the "solely for voting stock" requirement under section 368(a)(1)(B) as follows:

If, for example, corporation X in one transaction exchanges nonvoting preferred stock or bonds in addition to all or a part of its voting stock in the acquisition of stock of corporation Y, the transaction is not a reorganization under section 368(a)(1)(B).

The "solely for voting stock" requirement applies to the entire transaction in which stock of a corporation is acquired, not just to the acquisition of a block of stock constituting control. Therefore, the acquisition by a corporation of eighty percent of the stock of a corporation in exchange for its voting stock and the remaining twenty percent in exchange for cash violates "solely for voting stock." Rev. Rul. 75-123, 1975-1 C.B. 115; *Chapman v. Commissioner*, 618 F.2d 856 (1st Cir. 1980), *cert. dism.* 451 U.S. 1012 (1981); *Heverly v. Commissioner*, 621 F.2d 1227 (3d Cir. 1980, *cert. dism.* 451 U.S. 1012 (1981); *Commissioner v. Turnbow*, 286 F.2d 669 (9th Cir. 1960), *aff'd on other issues*, 368 U.S. 337 (1961).

Accordingly, if *P* had acquired all the stock of *X* in exchange for its voting stock and cash, the acquistion would not have qualified as a reorganization under section 368(a)(1)(B). *P*'s structuring of the transaction to have its wholly owned subsidiary acquire some of the *X* stock for cash does not produce a different result. Compare Rev. Rul. 69-48, 1969-1 C.B. 106, which holds that the purchase for cash by *P* of stock of corporation *X* as part of a plan for *P*'s wholly-owned subsidiary, *S*, to acquire substantially all the assets of *X* for *P* voting stock, violates the "solely for voting stock" requirement of section 368(a)(1)(C).

HOLDING

The purchase by *S* of ten percent of *X*'s stock for cash violates the "solely for voting stock" requirement of section 368(a)(1)(B) of the Code. Compare Rev. Rul. 85-138, wherein it was held that a similar transaction does not qualify as a reorganization under section 368(a)(1)(C).

T.D. 8059

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Statutory Merger Using Voting Stock of the Corporation Controlling the Merged Corporation

AGENCY: Internal Revenue Service,

Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to the statutory merger of a controlled corporation into an acquiring corporation using the voting stock of the corporation controlling the merged corporation (reverse triangular merger). Changes to the applicable tax law were made by Public Law 91-693 [1971-1 C.B. 553]. These regulations affect corporations involved in reverse triangular mergers, and the shareholders and security holders of those corporations, and provide guidance needed to comply with the law.

DATES: These regulations are effective upon publication in the FEDERAL REGISTER. These regulations apply to statutory mergers occurring after December 31, 1970.

FOR FURTHER INFORMATION CONTACT: Andrew B. Pullman of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T (202-566-3458, not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

On January 2, 1981, the FEDERAL REGISTER published proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 368 of the Internal Revenue Code of 1954 (the "Code") (46 FR 114) [LR-1994, 1981-1 C.B. 706]. The amendments were proposed to conform the regulations to Public Law 91-693, which added section 368(a)(2)(E) to the Code. Because a public hearing was not requested, no public hearing was held. After consideration of all comments regarding the proposed amendments, those amendments are adopted as revised by this Treasury decision.

SUMMARY OF PUBLIC COMMENTS AND CHANGES TO PROPOSED REGULATIONS

Control requirement

Section 368(a)(2)(E)(ii) of the Code requires that, in the transaction, former shareholders of the surviving corporation (hereinafter "T") exchange, for voting stock of the controlling corporation (hereinafter "P"), an amount of stock which constitutes control of T (as defined in section 368(c) of the Code). Section 1.368-2(j)(3)(i) of the proposed regulations provides that the amount of T stock surrendered in the transaction by T shareholders in exchange for P voting stock must itself constitute control. Accordingly, if P owns more than 20 percent of T, the transaction does not qualify under section 368(a)(2)(E). Example (3) of proposed §1.368-2(j)(7) illustrates that result. Numerous commenters suggested that, instead, the regulations provide that the requirement of section 368(a)(2)(E)(ii) is satisfied if, in the transaction, T shareholders surrender in exchange for P voting stock an amount of T stock which, when added to P's prior stock ownership in T, constitutes control.

After careful consideration, it is concluded that the statute does not permit the interpretation advanced by the commenters. Section 1.368-2(j)(3)(i) and example (4) of §1.368-2(j)(7) of the final regulations retain the rule set forth in the proposed regulations. Examples (6) and (7) of §1.368-2(j)(7) of the final regulations clarify, however, that the control requirement of section 368(a)(2)(E)(ii) may be satisfied despite the fact that, in the transaction, P contributes money or other property to T in exchange for additional T stock, or P receives T stock in exchange for its prior interest in the merged corporation (hereinafter "S"). However, as illustrated in example (9) of §1.368-2(j)(7) of the final regulations, the receipt of such T stock will not contribute to satisfaction of that control requirement.

Section 1.368-2(j)(3)(i) of the proposed regulations also provides that, for purposes of the control requirement, T's outstanding stock is measured immediately before the transaction. Further, as illustrated in examples (2) and (4) of proposed §1.368-2(j)(7), payments to T's shareholders other than P voting stock (such as cash payments to dissenters or payments in redemption of T stock), as part of the transaction, could prevent satisfaction of that requirement. Several commenters suggested that, similar to reorganizations under section 368(a)(1)(B), payments to T's shareholders could be disregarded for purposes of the control requirement, provided the consideration was furnished by T and not by P. In response, §1.368-2(j)(3)(i) of the final regulations, reflecting an interpretation of the statute which looks to the consideration furnished by P rather than that received by the T shareholders, provides that such payments by T and not by P may be disregarded for purposes of section 368(a)(2)(E)(ii). As with reorganizations under section 368(a)(1)(B), the facts and circumstances of each case will determine whether the payments came from T or P. Examples (2) and (3) of §1.368-2(j)(7) of the final regulations illustrate that result. However, §1.368-2(j)(3)(i) and (iii) also clarify that those payments are treated as a reduction of T's properties for purposes of section 368(a)(2)(E)(i), which requires that, after the transaction, T hold substantially all of its properties. In addition, receipt of consideration other than P stock by T shareholders in the transaction could prevent satisfaction of the continuity of interest requirement.

Section 1.368-2(j)(3)(i) of the proposed regulations defines control under section 368(c). Since current law is sufficiently clear as to the definition of control under section 368(c), the final regulations do not contain such a definition.

Section 1.368-2(j)(3)(ii) of the proposed regulations provides that P must acquire control of T in the transaction. Section 1.368-2(j)(3)(ii) of the final regulations clarifies this rule to provide that P must be in control of T immediately after the transaction. Thus, any disposition by P of the T stock acquired (other than a transfer described in section 368(a)(2)(C)), or any new issuance of stock by T to persons other than P, as part of the transaction, which causes P not to be in control of T will prevent the transaction from qualifying under section 368(a)(2)(E). Example (8) of §1.368-22(j)(7) of the final regulations illustrates this rule.

"Substantialy all" requirement

Section 368(a)(2)(E)(i) of the code requires generally that, after the transaction, T hold substantially all of its properties and substantially all of the properties of S. Section 1.368-2(j)(4) of the proposed regulations indicates that this requirement will not be

satisfied where, as part of the transaction, T transfers assets to a corporation controlled by T, notwithstanding section 368(a)(2)(C) of the Code. Several commenters suggested that section 368(a)(2)(C) permits assets of T to be transferred to a controlled corporation without violating the "substantially all" requirement. In response, §1.368-2(j)(4) of the final regulations provides that such transfers do not violate the "substantially all" requirement.

Section 1.368-22(j)(3)(iii)(E) of the final regulations clarifies that money transferred from P to S to satisfy minimum state capitalization requirements, which eventually is returned to P as part of the transaction, is not taken into account in applying the "substantially all" test to the assets of S.

Assumption of liabilities; exchange of securities

Section 1.368-2(j)(5) of the proposed regulations provides that P may assume liabilities of T without disqualifying the transaction under section 368(a)(2)(E). Commenters requested that the regulations clarify the treatment of such liability assumption by P. Accordingly, §1.368-2(j)(5) of the final regulations clarifies that liability assumption is a contribution to the capital of T by its shareholder P. In addition, §1.368-2(j)(5) of the final regulations clarifies that where, pursuant to the plan of reorganization, securities of T are exchanged for securities of P, or for other securities of T which, for example, are convertible into P stock, that exchange is subject to the otherwise applicable provisions of section 354 and 356.

Relation to section 368(a)(1)(B)

A few commenters suggested that the regulations confirm that a transaction which fails to qualify under section 368(a)(2)(E) may, under appropriate circumstances, qualify as a reorganization described in section 368(a)(1)(B), as in Rev. Rul. 67-448, 1967-2 C.B. 144. Examples (4) and (5) of §11.368-2(j)(7) of the final regulations confirm this result.

Merged corporation

Finally, in response to comments, §1.368-2(j)(6) of the final regulations clarifies that S can be an existing corporation as well as a corporation formed for purposes of the section 368(a)(2)(E) transaction.

REGULATORY FLEXIBILITY ACT AND EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this final rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required. Because the notice of proposed rulemaking for these regulations was filed with the Federal Register on December 29, 1980, no regulatory flexibility analysis is required.

DRAFTING INFORMATION

The principal author of these regulations is Andrew B. Pullman of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing these regulations, both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Part 1 is amended as follows:

Paragraph 1. The authority for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805.***

Par. 2. Section 1.368-2 is amended by adding paragraphs (b)(3), (i), and (j). These added provisions read as follows:

§1.368-2 Definition of terms.

* * * * *

(b) * * *

(3) For regulations under section 368(a)(2)(E), see paragraph (j) of this section.

* * * * *

(i) [Reserved]

(j)(1) This paragraph (j) prescribes rules relating to the application of section 368 (a)(2)(E). Section 368(a)(2)(E) applies to statutory mergers occurring after December 31, 1970.

(2) Section 368(a)(2)(E) does not apply to a consolidation.

(3) A transaction otherwise qualifying under section 368(a)(1)(A) is not disqualified by reason of the fact that stock of a corporation (the controlling corporation) which before the merger was in control of the merged corporation is used in the transaction, if the conditions of section 368(a)(2)(E) are satisfied. Those conditions are as follows:

(i) In the transaction, shareholders of the surviving corporation must surrender stock in exchange for voting stock of the controlling corporation. Further, the stock so surrendered must constitute control of the surviving corporation. Control is defined in section 368(c). The amount of stock constituting control is measured immediately before the transaction. For purposes of this subdivision (i), stock in the surviving corporation which is surrendered in the transaction (by any shareholder except the controlling corporation) in exchange for consideration furnished by the surviving corporation (and not by the controlling corporation or the merged corporation) is considered not to be outstanding immediately before the transaction. For effect on "substantially all" test of consideration furnished by the surviving corporation, see paragraph (j)(3)(iii) of this section.

(ii) Except as provided in paragraph (j)(4) of this section, the controlling corporation must control the surviving corporation immediately after the transaction.

(iii) After the transaction, except as provided in paragraph (j)(4) of this section, the surviving corporation must hold substantially all of its own properties and substantially all of the properties of the merged corporation (other than stock of the controlling corporation distributed in the transaction). The term "substantially all" has the same meaning as in section 368(a)(1)(C). The "substantially all" test applies separately to the merged corporation and to the surviving corporation. In applying the "substantially all" test to the surviving corporation, consideration furnished in the transaction by the surviving corporation in exchange for its stock is property of the surviving corporation which it does not hold after the transaction. In applying the "substantially all" test to the merged corporation, assets transferred from the controlling corporation to the merged corporation in pursuance of the plan of reorganization are not taken into account. Thus, for example, money

transferred from the controlling corporation to the merged corporation to be used for the following purposes is not taken into account for purposes of the "substantially all" test:

(A) To pay additional consideration to shareholders of the surviving corporation;

(B) To pay dissenting shareholders of the surviving corporation;

(C) To pay creditors of the surviving corporation;

(D) To pay reorganization expenses; or

(E) To enable the merged corporation to satisfy state minimum capitalization requirements (where the money is returned to the controlling corporation as part of the transaction).

(4) A transaction qualifying under section 368(a)(1)(A) by reason of the application of section 368(a)(2)(E) is not disqualified merely because part or all of the stock of the surviving corporation is transferred to a corporation controlled by the controlling corporation, or because part or all of the assets of the surviving corporation or the merged corporation are transferred to a corporation controlled by the controlling corporation. See section 368(a)(2)(C).

(5) The controlling corporation may assume liabilities of the surviving corporation without disqualifying the transaction under section 368(a)(2)(E). An assumption of liabilities of the surviving corporation by the controlling corporation is a contribution to capital by the controlling corporation to the surviving corporation. If, in pursuance of the plan of reorganization, securities of the surviving corporation are exchanged for securities of the controlling corporation, or for other securities of the surviving corporation, see sections 354 and 356.

(6) In applying section 368(a)(2)(E), it makes no difference if the merged corporation is an existing corporation, or is formed immediately before the merger, in anticipation of the merger, or after preliminary steps have been taken to otherwise acquire control of the surviving corporation.

(7) The following examples illustrate the application of this paragraph (j). In each of the examples, Corporation P owns all of the stock of Corporation S and, except as otherwise stated, Corporation T has outstanding 1,000 shares of common stock and no shares of any other class. In each of the examples, it is also assumed that the transaction qualifies under section 368(a)(1)(A) if the conditions of section 368(a)(2)(E) are satisfied.

Example (1). P owns no T stock. On January 1, 1981, S merges into T. In the merger, T's shareholders surrender 950 shares of common stock in exchange for P voting stock. The holders of the other 50 shares (who dissent from the merger are paid in cash with funds supplied by P. After the transaction, T holds all of its own assets and all of S's assets. Based on these facts, the transaction qualifies under section 368(a)(1)(A) by reason of the application of section 368(a)(2)(E). In the transaction, former shareholders of T surrender, in exchange for P voting stock, an amount of T stock (950/1,000 shares or 95 percent) which constitutes control of T.

Example (2). The facts are the same as in example (1) except that holders of 100 shares in corporation T, who dissented from the merger, are paid in cash with funds supplied by T (and not by P or S) and in the merger, T's remaining shareholders surrender 720 shares of common stock in exchane for P voting stock and 180 shares of common stock for cash supplied by P. The requirements of section 368(a)(2)(E)(ii) are satisfied since, in the transaction, former shareholders of T surrender, in exchange for P voting stock, an amount of T stock (720/900 shares or 80 percent) which constitutes control of T. The T stock surrendered in exchange for consideration furnished by T is not considered outstanding for purposes of determining whether the amount of T stock surrendered by T shareholders for P stock constitutes control of T.

Example (3). T has outstanding 1,000 shares of common stock, 100 shares of nonvoting preferred stock, and no shares of any other class. On January 1, 1981, S merges into T. Prior to the merger, as part of the transaction, T distributes its own cash in redemption of the 100 shares of preferred stock. In the transaction, T's remaining shareholders surrender their 1,000 shares of common stock in exchange for P voting stock. The requirements of section 368(a)(2)(E)(ii) are satisfied since, in the transaction, former shareholders of T surrender, in exchange for P voting stock, an amount of T stock (1,000/1,000 shares or 100 percent) which constitutes control of T. The preferred stock surrendered in exchange for consideration furnished by T is not considered outstanding for purposes of determining whether the amount of T stock surrendered by T shareholders for P stock constitutes control of T. However, the consideration furnished by T for its stock is property of T which T does not hold after the transaction for purposes of the substantially all test in paragraph (j)(3)(iii) of this section.

Example (4). On January 1, 1971, P purchased 201 shares of T's stock. On January 1, 1981, S merges into T. In the merger, T's shareholders (other than P) surrender 799 shares of T stock in exchange for P voting stock. Based on these facts, in the transaction, former shareholders of T do not surrender, in exchange for P voting stock, an amount of T stock which constitutes control of T (799/1,000 shares being less than 80 percent). Therefore, the transaction does not qualify under section 368(a)(1)(A). However, if S is a transitory corporation, formed solely for purposes of effectuating the transaction, the transaction may qualify as a reorganization described in section 368(a)(1)(B) provided all of the applicable requirements are satisfied.

Example (5). On January 1, 1971, P purchased 200 shares of T's stock. On January 1, 1981, S merges into T. Prior to the merger, as part of the transaction, T distributes its own cash in redemption of 1 share of T stock from a T shareholder other than P. In the merger, T's remaining shareholders (other than P) surrender 799 shares of T stock in exchange for P voting stock. Based on these facts, in the transaction, former shareholders of T do not surrender, in exchange for P voting stock, an amount of T stock which constitutes control of T (799/999 shares being less than 80 percent). Therefore, the transaction does not qualify under section 368(a)(1)(A). However, if S is a transitory corporation, formed for purposes of effectuating the transaction, the transaction may qualify as a reorganization described in section 368(a)(1)(B) provided all of the applicable requirements are satisfied.

Example (6). The stock of S has a value of $25,000. The stock of T has a value of $75,000. On January 1, 1984, S merges into T. In the merger, T's shareholders surrender all of their T stock in exchange for P voting stock. After the transaction, T holds all of its own assets and all of S's assets. Based on these facts, the transaction qualifies under section 368(a)(1)(A) by reason of the application of section 368(a)(2)(E). In the transaction, former shareholders of T surrender, in exchange for P voting stock, an amount of T stock (1,000/1,000 shares or 100 percent) which constitutes control of T. The stock of T received by P in exchange for P's prior interest in S is not taken into account for purposes of section 368(a)(2)(E)(ii) since the amount of T stock constituting control of T is measured before the transaction.

Example (7). The stock of T has a value of $75,000. On January 1, 1984, S merges into T. In the merger, T's shareholders surrender all of their T stock in exchange for P voting stock. As part of the transaction, P contributes $25,000 to T in exchange for new shares of T stock. None of the cash received by T is distributed or otherwise paid out to former T shareholders. After the transaction, T holds all of its own assets and all of S's assets. Based on these facts, the transaction qualifies under section 368(a)(1)(A) by reason of the application of section 368(a)(2)(E). In the transaction, former shareholders of T surrender, in exchange for P voting stock, an amount of T stock (1,000/1,000 shares or 100 percent) which constitutes control of T. The T stock received by P in exchange for its contribution to T is not taken into account for purposes of section 368(a)(2)(E)(ii) since the amount of T stock constituting control of T is measured before the transaction.

Example (8). The facts are the same as in example (7) except that, as part of the transaction, corporation R, instead of P, contributes $25,000 to T in exchange for T stock. Based on these facts, the transaction does not qualify under section 368(a)(1)(A) by reason of section 368(a)(2)(E) since P does not control T immediately after the transaction.

Example (9). T stock has a value of $75,000. P owns 500 shares (1/2) of that stock with a value of $37,500. The stock of S has a value of $125,000. On January 1, 1984, S merges into T. In the merger, T's shareholders (other than P) surrender their T stock in exchange for P voting stock. Based on these facts, in the transaction, former shareholders of T do not surrender, in exchange for P voting stock, an amount of T stock which constitutes control of T (500/1,000 shares being less than 80 percent). Therefore, the transaction does not qualify under section 368(a)(1)(A). The stock of T received by P in exchange for P's prior interest in S does not contribute to satisfaction of the requirement of section 368(a)(2)(E)(ii).

ROSCOE L. EGGER JR.,
Commissioner of Internal Revenue.

Approved September 24, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on October 21, 1985, 8:45 a.m., and published in the issue of the Federal Register for October 22, 1985, 50 F.R. 42688)

26 CFR 1.368-2: Definition of terms

The Service will resume issuing advance rulings or determination letters on the issue of whether the conversion of a financial institution from mutual to stock will qualify under section 368(a)(3)(D) of the Code without regard to whether the stock of the converted financial institution is acquired by a financial institution to which section 585 or section 593 of the Code applies. See Rev. Proc. 85-34, page 433.

Part V.—Carryovers

Section 381.—Carryovers in Certain Corporation Acquisitions

26 CFR 1.381(a)-1: General rule relating to carryovers in certain corporate acquisitions.

The election by the surviving corporation in a statutory merger that qualifies as a reorganization under section 368(a)(1)(A) of the Code to be treated as a possessions corporation pursuant to section 936 does not terminate. See Rev. Rul. 85-124, page 179.

---

26 CFR 1.381(c)(4)-1: Method of accounting.

An adjustment under section 481(a) of the Code is required when there is an integration under section 381(c)(4) of the bad debt reserve of a thrift institution, computed under section 593, into a reserve of an acquiring commercial bank, computed under section 585, because such action results in a change in method of accounting. See Rev. Rul. 85-171, page 148.

---

26 CFR 1.381(c)(26)-1: Credit for employment of certain new employees.

Carryovers and carrybacks of unused targeted jobs credit. See T.D. 8062, page 19.

Subchapter D.—Deferred Compensation, etc.
Part I.—Pension, Profit-Sharing, Stock Bonus Plans, etc.
Subpart A.—General Rule

Section 401.—Qualified Pension, Profit-Sharing, and Stock Bonus Plans

26 CFR 1.401-1: Qualified pension, profit-sharing, and stock bonus plans.

Procedure for determining whether an employer that establishes or maintains a qualified plan under this section is subject to the requirements of section 414(m) or 414(n) of the Code. See Rev. Proc. 85-43, page 501.

---

26 CFR 1.401-1: Qualified pension, profit-sharing and stock bonus plans.

Whether a defined benefit plan maintained by more than one employer provides definitely determinable benefits, with the meaning of section 1.401-1(b)(1)(i) of the Income Tax Regulations, if it provides benefits only for those years for which the participant's employer makes contributions. See Rev. Rul. 85-130, page 137.

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, PART 1—INCOME TAX—TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Notice, Election, and Consent Rules Under the Retirement Equity Act of 1984

AGENCY: Internal Revenue Service, Treasury

ACTION: Temporary regulations.

SUMMARY: This document provides temporary regulations relating to the notice, election and consent rules enacted by the Retirement Equity Act of 1984 [Pub. L. 98-397, 1984-2 C.B. 433]. The regulations will generally affect sponsors of, and participants in, pension, profit-sharing, and stock bonus plans, and they provide plan sponsors with guidance necessary to comply with the law.

In addition, the text of the temporary regulations set forth in this document also serves as the text of the notice of proposed rulemaking that appears * * * [on page 762, this Bulletin].

DATES: The regulations are effective June 19, 1985, and generally apply for plan years beginning after December 31, 1984, except as otherwise specified in the Retirement Equity Act of 1984.

FOR FURTHER INFORMATION CONTACT: Charles M. Watkins of the Employee Plans and Exempt Organizations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention CC:LR:T) (202-566-3903, not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains temporary regulations relating to the requirements for payment of survivor annuities and other rules relating to qualified employee plans, as enacted by Titles II and III of the Retirement Equity Act of 1984 ("REA '84") (P.L. 98-397, 98 Stat. 1436 et seq.).

Taxpayers may rely on these temporary regulations for guidance pending the issuance of final regulations. These temporary regulations do not, however, address comprehensively the issues raised by Titles II and III of REA '84, and no inferences should be drawn by reason of the fact that an issue is not addressed in this Treasury decision.

Under section 101 of Reorganization Plan No. 4 of 1978, (43 FR 47713), the Secretary of the Treasury has jurisdiction over the subject matter addressed in these regulations (except the definition of a qualified domestic relations order). Therefore, under section 104 of the Reorganization Plan, these regulations apply when the Secretary of Labor exercises authority under Title I of the Employee Retirement Income Security Act of 1974 [Pub. L. 93-406, 1974-3 C.B. 1] (as amended, including the amendments made by Title I of REA '84).

PLAN AMENDMENTS

Plan amendments required by the Retirement Equity Act of 1984 must, in general, be adopted not later than the end of the first plan year to which the statutory provisions apply.

NONAPPLICABILITY OF EXECUTIVE ORDER 12291

The Treasury Department has determined that this Regulation is not subject to review under Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required.

REGULATORY FLEXIBILITY ACT

No general notice of proposed rulemaking is required by 5 U.S.C. 553(b) for temporary regulations. Accordingly, this regulation does not constitute a regulation subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

PAPERWORK REDUCTION ACT

The collections of information contained in these regulations have been submitted to the Office of Management and Budget in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB under Control No. 1545-0928.

DRAFTING INFORMATION

The principal authors of these temporary regulations are William D. Gibbs and Charles M. Watkins, of the Employee Plans and Exempt Organizations Division of the Office of the Chief Counsel, Internal Revenue Service. Personnel from other offices of the Internal Revenue Service and Treasury Department also participated in developing the regulations, on matters of both substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Part 1 is amended as follows:

Paragraph 1. The authority citation for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805.

Paragraph 1a. Section 1.401(a)-11T is amended by adding the following Q & A's at the end thereof:

§1.401(a)-11T Requirement of qualified joint and survivor annuity and qualified preretirement survivor annuity (Temporary).

* * * * *

Q-23: If a participant's spouse consents to the participant's waiver of a survivor annuity form of benefit under section 417(a)(2)(A), is a subsequent spouse of the same participant bound by that consent?

A-23: No. A consent under section 417(a)(2)(A) by one spouse is binding only with respect to the consenting spouse.

Q-24: Does the spousal consent requirement of section 417(a)(2)(A) require that a spouse's consent be irrevocable?

A-24: No. A plan may preclude a spouse from revoking consent once it has been given. However, a plan may also permit a spouse to revoke a consent after it has been given, and thereby to render ineffective the participant's prior election not to receive a QPSA or QJSA.

Q-25: Does the spousal consent requirement of section 417(a)(2) apply with respect to a participant's affirmative election of a non-spouse beneficiary?

A-25: Yes. The spousal consent requirement of section 417(a)(2) applies to the participant's election of a nonspouse beneficiary. Thus, for example, if spouse B consents to participant A's election not to receive a QPSA, but instead to have any benefits payable upon A's death before the annuity starting date paid to A's children, A may not subsequently change beneficiaries without the consent of B. In addition, any consent must acknowledge the specific nonspouse beneficiary, including any class of beneficiaries or any contingent beneficiaries.

Q-26: Must the notice and rights required by section 417(a)(1) and (3) be provided to nonvested participants?

A-26: Yes.

Q-27: Are there special rules for certain participants who separated from service prior to August 23, 1984?

A-27: Yes. Section 303(e) of REA '84 provides special rules for certain participants who separated from service before August 23, 1984. Section 303(e)(1), which applies only to plans subject to section 401(a)(11) of the Code (as in effect on August 22, 1984), provides that participants whose annuity starting date did not occur before August 24, 1984, and who had one hour of service on or after September 2, 1974, but not after December 31, 1975, may elect to receive the benefits required to be provided under section 401(a)(11) of the Code (as in effect on August 22, 1984). Section 303(e)(2) provides that certain participants who had one hour of service on or after January 1, 1976, but not after August 22, 1984, may elect to be provided a QPSA under new sections 401(a)(11) and 417 in plans subject to these provisions. Section 303(e)(4)(A) requires plans to notify those participants of the provisions of section 303(e).

Q-28: When must a plan provide the notice required by section 303(e)(4)(A) of REA '84?

A-28: The notice required by section 303(e)(4)(A) must be provided no later than the earlier of:

(a) The date the first summary annual report provided after September 17, 1985 is distributed to participants; or

(b) September 30, 1985.

A plan will not fail to satisfy the preceding sentence if the plan provides the notice before January 1, 1987, and provides a fully subsidized qualified preretirement survivor annuity with respect to any participant described in section 303(e) who dies on or after July 19, 1985 and before the notice is received. For this purpose, an annuity payable to a nonspouse beneficiary elected by the participant, in lieu of a spouse, shall satisfy such survivor benefit. The notice required by this paragraph must be in writing and sent to the participant's last known address.

Q-29: Is there another time when plans must provide notice of the right, described in §303(e)(1) of REA '84, to elect a pre-REA '84 qualified joint and survivor annuity?

A-29: Yes. Notice of this right must also be provided to a participant at the time the participant applies for benefit payments.

Q-30: when must a plan provide the written explanation, required by section 417(a)(3)(B), of the QPSA to an individual who becomes a participant after age 32; or who was a participant on August 23, 1984, and, as of that date, had attained age 34?

A-30: (a) In the case of an individual who becomes a participant after age 32, the plan will satisfy the time requirement of section 417(a)(3)(B) if it provides the explanation by the end of the three-year period beginning with the first day of the first plan year for which the individual is a participant.

(b) In the case of an individual who

was a participant in the plan on August 23, 1984, and, as of that date, had attained age 34, the plan will satisfy the requirement of section 417(a)(3)(B) if it provides the explanation not later than December 31, 1985.

Q-31: When must a plan provide the written explanation, required by section 417(a)(3)(B), of the QPSA to a participant who separates from service before attaining age 32?

A-31: In the case of separation before age 32, a plan must provide the explanation at the time of separation or within one year after separation.

Q-32: what are the consequences of fully subsidizing the cost of either a qualified joint and survivor annuity (QJSA) or a qualified preretirement survivor annuity (QPSA), in accordance with section 417(a)(4)?

A-32: If a plan fully subsidizes a QJSA or QPSA (in accordance with section 417(a)(4)), it is not required to provide the written explanation required by section 417(a)(3)(A) or 417(a)(3)(B), respectively. Such a plan need not offer an election. However, if the plan offers an election, it must satisfy the election, consent, and notice requirements of section 417(a)(1), (2), and (3), even if it subsidizes the cost of the QJSA and QPSA in accordance with section 417(a)(4).

Q-33: What is a fully subsidized benefit?

A-33: A fully subsidized benefit is one under which no increase in cost, or decrease in benefits, to the participant may result from the participant's failure to elect another benefit. Thus, for example, if a plan provides a joint and survivor annuity and a lump sum option, the plan does not fully subsidize the joint and survivor annuity, even if the actuarial value of the joint and survivor annuity is greater than the amount of the lump sum payment, because the participant's benefit in the event of his early death would be less than the benefit that would have been received if the lump sum were elected.

Similarly, if a plan provides for a life annuity of $100 per month and a joint and 100% survivor benefit of $99 per month, the plan is not fully subsidizing the joint and survivor benefit. A QPSA would be fully subsidized if the participant's account is not reduced because of the QPSA coverage and if no charge to the participant is made for the coverage. Thus, the QPSA would be fully subsidized in a defined contribution plan because account balances are not reduced by the QPSA coverage and no charge is made against accounts for such coverage.

Par. 2. A new §1.402(f)-1T is added after §1.402(e)-1 to read as follows:

§1.402(f)-1T. Required explanation of rollovers, capital gains, and ten-year averaging tax treatment (Temporary).

(a) *General rules.* Section 402(f) requires plan administrators to give recipients of certain distributions a written explanation of the rules relating to the taxation of certain amounts as capital gains under section 402(a)(2), the separate tax on the ordinary income portion of lump-sum distributions under section 402(e), and the exclusion from gross income under section 402(a)(5) for amounts rolled over into eligible retirement plans. This notice must be provided to the recipient of any qualified total distribution or any partial distribution satisfying section 402(a)(5)(D)(i) that is made after December 31, 1985, not later than two weeks after the distribution is made.

(b) *Safe harbor notice.* The requirements of section 402(f)(1) may be satisfied by providing each recipient of a qualified total distribution or a partial distribution that satisfies the requirements of section 402(a)(5)(D)(i) a copy of the notice included in this paragraph. Additional information may be provided to distributees, except that such information may not be inconsistent with the following safe harbor notice:

SPECIAL TAX RULES

The Internal Revenue Code provides several complex rules relating to the taxation of the amounts you received in this distribution. This notice merely summarizes these rules. You should promptly consult a tax advisor in deciding what course to follow with respect to this distribution.

ROLLOVERS

The Internal Revenue Code permits you to avoid current taxation on any portion of the taxable amount of an eligible distribution by rolling over that portion into another qualified employer retirement plan that accepts rollover contributions or into an individual retirement arrangement (IRA). A tax-free rollover is accomplished by transferring the amount you are rolling over to the new plan or IRA *not later than 60 days* after you receive the amount from this plan and notifying the trustee or issuer of the new plan or IRA that you are making a rollover contribution. If you receive a series of distributions within a single year that would be treated as a lump sum distribution, the 60-day period does not expire until 60 days after the day you receive the last distribution in the series.

Not all plan distributions are eligible to be rolled over. A distribution must be either a "qualified total distribution" or a "partial distribution" in order to be rolled over. In general, a qualified total distribution is either a lump sum distribution or a distribution because of a plan termination. A lump sum distribution is the payment of all remaining benefits under a plan because of death or other separation from service or after the employee reach age 59 1/2. A partial distribution is payment of 50 percent or more of plan benefits that is not one of a series of periodic payments. A rollover of any portion of a partial distribution may disqualify a subsequent distribution from the same type of plan for capital gains treatment and 10-year averaging (described below). There are specific and technical qualifications and requirements set forth in section 402 of the Internal Revenue Code that must be satisfied in order for your plan distribution to be eligible to be rolled over.

CAPITAL GAINS TREATMENT AND 10-YEAR AVERAGING

If your distribution qualifies under section 402(e) of the Internal Revenue Code as a lump sum distribution, and no part of your distribution is rolled over, you may be able to elect to have the part of the distribution attributable to your participation in the plan before 1974 (if any) taxed as a long term capital gain, and the remainder taxed as ordinary income or under special 10-year averaging rules that may reduce the amount of income tax you will be required to pay on account of this distribution. Alternatively, you may elect to have the entire amount of the distribution taxed as ordinary income or under the 10-year averaging rules. In addi-

tion, 10-year averaging may not be elected unless the employee participated in the plan making the distribution for any part of at least five years.

Par. 2a. The authority citation for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 3. Section 602.101(c) is amended by inserting in the appropriate places in the table, "§1.401(a)-11T . . . 1545-0928" and "§1.402(f)-1T. . . . 1545-0928".

There is need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impractical to issue this Treasury decision with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917, 26 USC 7805).

JAMES I. OWENS,
Acting Commissioner of Internal Revenue.

Approved July 3, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on July 18, 1985, 8:45 a.m., and published in the issue of the Federal Register for July 19, 1985, 50 F.R. 29376)

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, PART 1—INCOME TAX—TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Effective Dates, Transitional Rules, Restrictions On Plan Distributions, and Other issues Arising Under the Retirement Equity Act of 1984.

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document contains temporary regulations relating to the effective dates, transitional rules, restrictions on distributions from employee plans, and other issues arising under the Retirement Equity Act of 1984 [Pub. L. 98-397, 1984-2 C.B. 433]. The regulations will generally affect sponsors of, and participants in, pension, profit-sharing, and stock bonus plans, and they provide plans sponsors with guidance necessary to comply with the law.

In addition, the text of the temporary regulations set forth in this document also serves as the text of the notice of proposed rulemaking that appears * * * [on page 761, this Bulletin].

DATES: The regulations are effective July 19, 1985, and generally apply for plan years beginning after December 31, 1984, except as otherwise specified in the Retirement Equity Act of 1984.

FOR FURTHER INFORMATION CONTACT: Charles M. Watkins of the Employee Plans and Exempt Organizations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention CC:LR:T) (202-566-3903, not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains temporary regulations relating to the requirements for payment of survivor annuities, to restrictions on payments under qualified employee plans, and other rules, as enacted by Titles II and III of the Retirement Equity Act of 1984 ("REA '84") (P.L. 98-397, 98 Stat. 1436 *et seq.*).

Taxpayers may rely on these temporary regulations for guidance pending the issuance of final regulations. These temporary regulations do not, however, address comprehensively the issues raised by Titles II and III of REA '84, and no inferences should be drawn by reason of the fact that an issue is not addressed in this Treasury decision.

Under section 101 of Reorganization Plan No. 4 of 1978 (43 FR 47713), the Secretary of the Treasury has jurisdiction over the subject matter addressed in these regulations (except the definition of a qualified domestic relations order). Therefore, under section 104 of the Reorganization Plan, these regulations apply when the Secretary of Labor exercises authority under Title I of the Employee Retirement Income Security Act of 1974 (as amended, including the amendments made by Title I of REA) ("ERISA"). Thus, the requirements also apply to employee plans subject to Title I of ERISA.

NEW REQUIREMENTS

Sections 411(a)(11) and 417(e) of the Internal Revenue Code restrict a plan's ability to distribute benefits to participants and, when applicable, spouses. Section 411(a)(11) treats as forfeitable, for purposes of section 411(a), any accrued benefit that may be distributed to a participant without the participant's consent when the present value of the participant's nonforfeitable accrued benefit in the plan exceeds $3,500. Section 417(e) prohibits any plan subject to section 401(a)(11) from distributing any portion of a qualified joint and survivor annuity (QJSA), or a qualified preretirement survivor annuity (QPSA), if the present value of such an annuity is greater than $3,500, without the consent of the participant and the participant's spouse. Under sections 411(a)(11) and 417(e), the present value of a participant's annuity benefit in a defined benefit plan is to be determined by reference to an interest rate that is not greater than the interest rate used by the Pension Benefit Guaranty Corporation (PBGC) in valuing immediate annuities on plan termination. Plans are required to use this PBGC interest rate for both determining whether the $3,500 floor is reached and valuing the accrued benefit.

Defined contribution plans, such as money purchase, profit-sharing, and stock bonus plans, whether or not subject to section 401(a)(11), are required to use interest rates that are not greater than the PBGC rates to calculate the amount to be distributed, even if such plans use an account balance to purchase an annuity.

The regulations provide that, for purposes of sections 401(a)(11), 411(a)(11), and 417, a participant's accrued benefit includes benefits attributable to both employer and employee contributions under the plan, excluding

deductible employee contributions described in section 72(o).

The regulations also provide two rules governing when a reduction in an accrued benefit to satisfy a participant's loan obligation to the plan is treated as a distribution from the plan. Such a reduction is generally subject to the applicable consent requirements of sections 411(a)(11) and 417(e). Alternatively, a plan may obtain the consent of the participant and the participant's spouse to a subsequent reduction in accrued benefits within the 90 day period before the making of a loan secured by an accrued benefit.

The Department of Labor has jurisdiction over the prohibited transaction rules of section 4975. It has indicated that a loan secured by an accrued benefit subject to REA '84 may not be adequately secured under section 4975(d)(1) if consent to a reduction in the accrued benefit is not obtained before such a loan is made, and, therefore, may be a prohibited transaction.

PLAN AMENDMENTS

Plan amendments required by the Retirement Equity Act of 1984 must, in general, be adopted not later than the end of the first plan year to which the statutory provisions generally apply.

NONAPPLICABILITY OF EXECUTIVE ORDER 12291

The Treasury Department has determined that this regulation is not subject to review under Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required.

REGULATORY FLEXIBILITY ACT

No general notice of proposed rulemaking is required by 5 U.S.C. 553(b) for temporary regulations. Accordingly, this regulation does not constitute a regulation subject to the Regulatory Flexibility act (5 U.S.C. chapter 6).

DRAFTING INFORMATION

The principal authors of these regulations are William D. Gibbs and Charles M. Watkins, of the Employee PLans and Exempt Organizations Division of the Office of the Chief Counsel, Internal Revenue Service. Personnel from other offices of the Internal Revenue Service and Treasury Department also participated in developing the regulations, on matters of both substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Part 1 is amended as follows:

Paragraph 1. The authority citation for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805.

Part 2. A new §1.401(a)-11T is added immediately after §1.401(a)-11 to read as follows:

§1.401(a)-11T Requirement of qualified joint and survivor annuity and qualified preretirement survivor annuity (Temporary).

Q-1: Are there new survivor annuity requirements added to the Code by the Retirement Equity Act of 1984 (REA '84) to protect spouses?

A-1: Yes. REA '84 replaced section 401(a)(11) with a new section 401(a)(11) must comply with the requirements of section 401(a)(11) and section 417 in order to remain qualified under section 401(a) or 403(a). In general, these plans must now provide both a qualified joint and survivor annuity (QJSA) and a qualified preretirement survivor annuity (QPSA) to remain qualified. These new survivor annuity requirements are applicable to any benefit payable under a plan, including benefits payable to a participant under a contract purchased by the plan and paid by a third party. Thus, an annuity contract purchased by a plan and distributed to or owned by the participant must comply with the new survivor annuity requirements as they would apply to the plan if the benefits were paid directly by the plan.

Q-2: What plans are subject to sections 401(a)(11) and 417?

A-2: Sections 401(a)(11) and 417 apply to any defined contribution plan that is subject to the minimum funding standards of section 412. These sections also apply to any participant under any other defined contribution plan unless—

(a) The plan provides that the participant's nonforfeitable accrued benefit is payable in full, upon the participant's death, to the participant's surviving spouse (unless the participant has elected, with spousal consent that satisfies the requirements of section 417(a)(2), that such benefit be provided instead to a designated beneficiary);

(b) Such participant does not elect the payment of benefits in the form of a life annuity; and

(c) With respect to the participant, the plan is not a transferee plan (see Q&As-7 and 8).

Section 401(a)(11)(C) provides that, for purposes of determining whether benefits under an employee stock ownership plan are subject to sections 401(a)(11) and 417, that portion of a participant's accrued benefit that is subject to section 409(h) is to be treated as though such benefit were provided under a defined contribution plan not subject to section 412.

Q-3: May a defined contribution plan not subject to section 412 that provides that a participant's nonforfeitable accrued benefit is payable in full to a surviving spouse use the rules set forth in section 417(d) for determining whether or not the participant is married at the time of death?

A-3: Yes.

Q-4: How do the survivor annuity requirements added by REA '84 apply to married participants?

A-4: Section 401(a)(11)(A) requires that upon the death of a married participant with vested benefits attributable to employer contributions, plan benefits with respect to such participant, except plan benefits the payment of which had commenced prior to the participant's death, must be paid in the form of a QPSA. A QPSA must be provided regardless of whether the participant separated from service before the date of death. Section 401(a)(11)(A) also requires that the plan benefits of a married participant who survives until commencement of payment of such benefits be provided in the form of a QJSA. The QPSA and the QJSA may be waived if the applicable notice, election, and spousal consent requirements of section 417 are satisfied. Thus, for example, in order for a money purchase pension plan to distribute any portion of a married participant's benefit to such participant—even if the distribution is merely an ad hoc distribution after the participant has attained the normal retirement age under the plan but

has not yet separated from service—the plan must distribute such portion in the form of a QJSA (unless the plan satisfies the applicable requirements of section 417(a) with respect to such portion of the participant's benefit). The plan still must satisfy the QPSA requirements with respect to any portion of the participant's benefits that has not been distributed, except any benefits the payment of which has commenced. However, if, prior to the commencement of a distribution of any benefits, the present value of such married participant's nonforfeitable accrued benefit is not more than $3,500, the requirements of section 417(a) need not be satisfied with respect to the payment of such participant's benefits. See §1.417(e)-1T.

Q-5: Must a plan subject to sections 401(a)(11) and 417 provide an annuity to participants who are not married?

A-5: Yes. Plans subject to the requirements of sections 401(a)(11) and 417 must satisfy those requirements with respect to participants who are not married. A QJSA for a participant who is not married is an annuity for the life of the participant, and thus, an unmarried participant must be provided such an annuity unless he elects another form of benefit.

Q-6: Must plans subject to new section 401(a)(11) meet other requirements?

A-6: Yes. Plans subject to new section 401(a)(11) must satisfy the requirements of section 417 (relating to minimum survivor annuity requirements).

Q-7: How do sections 401(a)(11) and 417 apply to transferee plans (certain defined contribution plans that are not subject to section 412)?

A-7: Although profit-sharing, stock bonus, and other defined contribution plans not subject to section 412 are generally not subject to sections 401(a)(11) and 417 with respect to their participants, these plans are subject to sections 401(a)(11) and 417 with respect to any participant if the plan is a transferee plan with respect to that participant. A defined contribution plan is a transferee plan with respect to a participant if the plan is a direct or indirect transferee, with respect to that participant, of benefits that were held, on or after January 1, 1985, by:

(a) A defined benefit plan;

(b) A defined contribution plan subject to section 412; or

(c) A defined contribution plan that is subject to sections 401(a)(11) and 417 with respect to that participant.

A transfer made before January 1, 1985, and any rollover contribution made at any time, is not a transfer that subjects a plan to the new survivor annuity rules with respect to a participant. If a plan is a transferee plan with respect to a participant, the section 417 requirements do not apply with respect to other plan participants solely because of the transfer. However, in order to prevent discrimination under section 401(a)(4), it may be necessary for the plan to provide QJSAs or QPSAs with respect to other participants.

Q-8: What benefits in a transferee plan are subject to the new survivor annuity requirements?

A-8: All accrued benefits held for a participant with respect to whom the plan is a transferee plan are subject to the new survivor annuity requirements unless there is an acceptable separate accounting between the transferred benefits and any other benefits under the plan. A separate accounting is not acceptable unless gains, losses, withdrawals, contributions, forfeitures, and other credits or charges are allocated between the accrued benefits subject ot the new survivor annuity requirements and other benefits on a reasonable and consistent basis. If there is an acceptable separate accounting between transferred benefits and any other benefits under the plan, only the transferred benefits are subject to the new survivor annuity requirements.

Q-9: Must annuity contracts purchased and distributed to a participant or spouse by a plan subject to sections 401(a)(11) and 417 satisfy the requirements of those sections?

A-9: Yes. No rights to accrued benefits, optional forms of payments, consents, or other privileges provided for by section 401(a)(11) or 417 may be eliminated or reduced because the plan uses annuity contracts to provide benefits or because such a contract is held by a participant or spouse instead of a plan trustee. Similarly, the protection provided by section 411(d)(6) may not be eliminated or reduced by the use of annuity contracts.

Q-10: If a plan would otherwise be subject to the survivor annuity requirements of new sections 401(a)(11) and 417, does the fact that it is frozen or terminated make a difference?

A-10: In general, benefits provided under a plan that is subject to the new survivor annuity requirements of sections 401(a)(11) and 417 must be provided in accordance with those requirements even if the plan is terminated or frozen. However, any plan that has a termination date prior to September 17, 1985 and that distributes all remaining assets as soon as administratively feasible after the termination date is not subject to the new survivor annuity requirements. The date of termination is determined under section 411(d)(3) and §1.411(d)-2(c).

Q-11: If a plan would otherwise be subject to the survivor annuity requirements of new sections 401(a)(11) and 417, does it make a difference that the Pension Benefit Guaranty Corporation (PBGC) is administering the plan?

A-11: No. Participants and spouses are entitled to the same protection irrespective of whether an employer or the PBGC is administering a plan.

Q-12: Do the new survivor annuity requirements apply to benefits derived from both employer and employee contributions?

A-12: Yes. The new survivor annuity benefit requirements apply to benefits derived from both employer and employee contributions.

Q-13: To what benefits do the new survivor annuity requirements apply?

A-13: (a) *Defined benefit plans.* Sections 401(a)(11) and 417 apply only to benefits in which a participant was vested immediately prior to death. They do not apply to benefits in which a participant becomes vested by reason of death or to the proceeds of a life insurance contract maintained by the plan for a participant to the extent such proceeds exceed the present value of the participant's nonforfeitable accrued benefits existing immediately prior to death.

(b) *Defined contribution plans.* Sections 401(a)(11) and 417 apply to all vested benefits, whether vested before or upon death, payable under the plan, including the proceeds of insurance contracts.

Q-14: What preretirement survivor annuity benefits must a defined contri-

bution plan provide?

A-14: A defined contribution plan that is subject to sections 401(a)(11) and 417 must provide an annuity whose actuarial equivalent is not less than 50 percent of the nonforfeitable account balance of the participant as of the date of the participant's death. For this purpose, the nonforfeitable account balance of the participant includes amounts attributable to nonforfeitable employer contributions and amounts attributable to employee contributions.

Q-15: In determining whether amounts attributable to employer contributions to a defined contribution plan are nonforfeitable under sections 401(a)(11) and 417, does the rule of section 411(a)(3)(A) (permitting forfeitures on account of death) apply?

A-15: No. Therefore, sections 401(a)(11) and 417 apply to benefits that were nonforfeitable immediately prior to death (determined without regard to section 411(a)(3)(A)), as well as to benefits that become nonforfeitable at death.

Q-16: Do sections 401(a)(11) and 417 apply to accumulated deductible employee contributions, as defined in section 72(o)?

A-16: No. Accumulated deductible employee contributions are not subject to the new survivor annuity rules even though such contributions are made to a defined benefit or defined contribution plan that is subject to sections 401(a)(11) and 417.

Q-17: When do the new survivor annuity requirements apply to plans?

A-17: New sections 401(a)(11) and 417 generally apply to plan years beginning after December 31, 1984. Sections 302 and 303 of REA '84 provide specific effective dates and transitional rules under which the QJSA or QPSA (or pre-REA '84 section 401(a)(11)) requirements may be applicable to particular plans or with respect to benefits provided to particular participants. In general, the new section 401(a)(11) survivor annuity requirements do not apply with respect to a participant who does not have at least one hour of service or one hour of paid leave under the plan after August 22, 1984.

Q-18: Are there special effective dates for plans maintained pursuant to collective bargaining agreements?

A-18: Yes. Section 302(b) of REA '84 provides a special deferred effective date for such plans. Whether or not a plan is described in section 302(b) will be determined under the principles applied under section 1017(c) of the Employee Retirement Income Security Act of 1974 [Pub. L. 93-406, 1974-3 C.B. 1, 101]. In addition, a plan will not be treated as maintained under a collective bargaining agreement unless the employee representative satisfies section 7701(a)(46) of the Internal Revenue Code after March 31, 1984. Nothing in section 302(b) shall deny a participant or spouse the rights set forth in sections 303(c)(2), 303(c)(3), 303(e)(1), and 303(e)(2) of REA '84.

Q-19: What is one hour of service or paid leave under the plan for purposes of the transition rules in section 303 of REA '84?

A-19: One hour of service or paid leave under the plan is one hour of service or paid leave recognized or required to be recognized under the plan for any purpose, *e.g.*, participation, vesting percentage, or benefit accrual purposes. For plans that do not compute hours of service, one hour of service or paid leave means any service or paid leave recognized or required to be recognized under the plan for any purpose.

Q-20: Must a plan be amended to provide for the QPSA required by section 303(c)(2) of REA '84, or for the survivor annuities required by section 303(e) of REA '84?

A-20: A plan will not fail to satisfy the qualification requirements of section 401(a) or 403(a) merely because it is not amended to provide the QPSA required by section 303(c)(2) or the survivor annuities required by section 303(e). The plan must, however, satisfy those requirements in operation. In addition, the plan must be amended to satisfy sections 401(a)(11) and 417 not later than the last day of the first plan year to which sections 401(a)(11) and 417 apply.

Q-21: Is a participant's election, or a spouse's consent to an election, with respect to a QPSA, made before August 23, 1984, valid?

A-21: No.

Q-22: Is spousal consent required for certain survivor annuity elections made by the participant after December 31, 1984, and before the first plan year to which new sections 401(a)(11) and 417 apply?

A-22: Yes. Section 303(c)(3) of REA '84 provides that any election by a participant, made after December 31, 1984, and before the date sections 401(a)(11) and 417 apply to the plan, not to take a QJSA is not effective unless the spousal consent requirements of section 417 are met with respect to such election. Unless the participant's annuity starting date occurred before January 1, 1985, the spousal consent required by section 417(a)(2) and (e) must be obtained even though the participant elected the benefit prior to January 1, 1985. By the end of the first plan year to which new sections 401(a)(11) and 417 apply, the plan must be amended to comply with the QJSA requirements.

Par. 3. A new §1.401(a)-13T is added immediately after §1.401(a)-13 to read as follows:

§1.401(a)-13T Assignment or alienation of benefits; special rules for qualified domestic relations orders (Temporary).

(a) *Definition.* The term qualified domestic relations order (QDRO) has the meaning set forth in section 414(p). For purposes of the Internal Revenue Code, a QDRO also includes any domestic relations order described in section 303(d) of the Retirement Equity Act of 1984, as provided in that section.

(b) *Plan amendments.* A plan will not fail to satisfy the qualification requirements of section 401(a) or 403(a) merely because it is not amended to require the plan to comply with a QDRO.

Par. 4. A new §1.410(a)-5T is added immediately after §1.410(a)-5 to read as follows:

§1.410(a)-5T Five consecutive 1-year breaks in service, transitional rules under the Retirement Equity Act of 1984 (Temporary).

Sections 410(a)(5)(D) and 411(a)(6)(D), as amended by the Retirement Equity Act of 1984 (REA '84), permit a plan to disregard years of service that were disregarded under plan provisions satisfying those sections (as in effect on August 22, 1984), as of the day before the amendments apply to the plan. Under section 302(a) of REA '84, the new break in service

rules generally apply to plan years beginning after December 31, 1984. Thus, for example, assume a plan has a calendar plan year and disregarded years of service as permitted by sections 410(a)(5)(D) and 411(a)(6)(D) as in effect on August 22, 1984. An employee completed two years of service in 1981 and 1982, and then incurred two consecutive 1-year breaks in service in 1983 and 1984. The plan may disregard the prior years of service, even though the employee did not incur five consecutive 1-year breaks in service. On the other hand, assume the employee completed three consecutive years of service beginning in 1980, and incurred two 1-year breaks in service in 1983 and 1984. Because, as of December 31, 1984, the years of service credited before 1983 could not be disregarded, whether the plan may subsequently disregard those years of service would be governed by the rules enacted by REA '84.

Par. 5. Section 1. 411(a)-7(d)(4)(iv)(B) is amended by adding at the end thereof the following sentence: "Notwithstanding the above sentence, no defined benefit plan or defined contribution plan may require that repayments be made earlier than the end of a period of 5 consecutive one-year breaks in service."

Par. 6. A new §1.410(a)-7T is added immediately after §1.410(a)-7 to read as follows:

§1.410(a)-7T Elapsed time method; maternity and paternity absence (Temporary).

(a) *General rule.* For purposes of applying the rules of §1.410(a)-7 (relating to the elapsed time method of crediting service) to absences described in sections 410(a)(5)(E) and 411(a)(6)(E) (relating to maternity or paternity absence), the severance from service date of an employee who is absent from service beyond the first anniversary of the first date of absence by reason of a maternity or paternity absence described in section 410(a)(5)(E)(i) or 411(a)(6)(E)(i) is the second anniversary of the first date of such absence. The period between the first and second anniversaries of the first date of absence from work is neither a period of service nor a period of severance. This rule applies to maternity or paternity absences beginning on or after the first day of the first plan year in which the plan is required to credit service under sections 410(a)(5)(E) and 411(a)(6)(E).

(b) *Example.* The rules of this section are illustrated by the following example:

Assume an individual works until June 30, 1986; is first absent from employment on July 1, 1986, on account of maternity or paternity absence; and on July 1, 1989, performs an hour of service. The period of service must include the period from employment commencement date until June 30, 1987 (one year after the date of separation for any reason other than a quit, discharge, retirement, or death). The period from July 1, 1987, to June 30, 1988, is neither a period of service nor a period of severance. The period of severance would be from July 1, 1988 to June 30, 1989.

Par. 7. A new §1.411(a)(11)-1T is added after §1.411(a)-9 to read as follows:

§1.411(a)(11)-1T. Restrictions and valuations of distributions (Temporary.)

(a) *Scope.* Section 411(a)(11) restricts the ability of a plan subject to section 411 to distribute any portion of a participant's accrued benefits without the participant's consent. Section 411(a)(11) applies in determining whether a plan satisfies the nonforfeitability requirements of section 411(a).

(b) *General rules*—(1) *New requirements.* If a plan does not satisfy the participant consent requirement with respect to the immediate distribution of any participant's nonforfeitable accrued benefit with a present value in excess of $3,500, the entire accrued benefit is forfeitable for purposes of determining whether section 411(a) is satisfied.

(2) *Additional requirements.* The requirements of section 411(a)(11) and this section are in addition to the requirements of sections 401(a)(9) (relating to required distributions), 401(a)(14) (relating to benefit commencement), and 417 (relating to survivor benefits). Notwithstanding any provision to the contrary in section 401(a)(14) or §1.401(a)-14, the failure of a participant to consent to a distribution while a benefit is immediately distributable is deemed to be an election to defer commencement of payment of any benefit sufficient to satisfy section 401(a)(14) and §1.401(a)-14.

(c) *Consent, etc. requirements*—(1) *General rule.* Section 411(a)(11) permits plans subject to that section to provide for the distribution of any portion of a participant's nonforfeitable accrued benefits only if either the applicable consent requirements are satisfied or such distribution is not immediately distributable.

(2) *Consent.* Written consent of the participant is required before the commencement of the distribution of any part of an accrued benefit if the present value of the nonforfeitable portion of such benefit is greater than $3,500.

(3) *Accrued benefit.* The term "accrued benefit" has the same meaning as such term has under section 417(e) and the regulations thereunder.

(4) *Immediately distributable.* An accrued benefit is immediately distributable for purposes of section 411(a)(11) and this section if any part of the benefit may be distributed to the participant before the later of the normal retirement age (as defined in section 411(a)(8)) or age 62.

(5) *Death of participant.* Section 411(a)(11) does not apply after the death of the participant.

Par. 8. Section 1.411(d)-3 is amended by removing the second sentence of paragraph (a)(1).

Par. 9. A new §1.411(d)-3T is added immediately after §1.411(d)-3, to read as follows:

§1.411(d)-3T Class year plans; plan years beginning after 1984 (Temporary).

In the case of a class year plan, the rights of an employee who separates from service prior to the time such rights become nonforfeitable may be forfeited only if there is a 5-year break-in-service. A 5-year break-in-service is a period of five consecutive plan years beginning with the plan year in which the employee separates from service during which the employee is not employed on the last day of each plan year. For purposes of the preceding sentence, any plan year in which an individual is absent from work on the last day of the plan year by reason of an absence described in section 411(a)(6)(E)(i) shall be disregarded.

Par. 10. A new §1.417(e)-1T is added to after §1.416-1 to read as follows:

§1.417(e)-1T Restrictions and

valuations of distributions from plans subject to section 401(a)(11) (Temporary).

(a) *Scope*—(1) *New requirements.* Section 417(e) restricts the ability of certain qualified plans to distribute any portion of a participant's accrued benefits without the consent of the participant and the participant's spouse. It also requires the present value of accrued benefits to be calculated using specified interest rates. Section 417(e) applies in determining whether certain plans satisfy the survivor annuity requirements of sections 401(a)(11) and 417. These requirements must be satisfied by pension plans with respect to all participants, and by profit-sharing and stock bonus plans with respect to participants to whom section 401(a)(11)(B) applies. Special rules are provided in section 401(a)(11)(C) for certain ESOP benefits. A plan does not satisfy the requirements of sections 401(a)(11) and 417 unless it satisfies the consent requirements, the determination of present value requirements and the other requirements set forth in this section. This section does not apply to payments to an alternate payee, defined in section 414(p)(8), except as provided in a qualified domestic relations order pursuant to section 414(p)(5).

(2) *Additional requirements.* The requirements of section 417(e) and this section are in addition to the requirements of sections 401(a)(9) (relating to required distributions), 401(a)(14) (relating to benefit commencement), and 411(a)(11) (relating to distributions). Notwithstanding any provision to the contrary in section 401(a)(14) or §1.401(a)-14, the failure of a participant or spouse to consent to a distribution while a benefit is immediately distributable is deemed to be an election to defer commencement of payment of any benefit sufficient to satisfy section 401(a)(14) and §1.401(a)-14.

(3) *Accrued benefit.* For purpose of this section, accrued benefit has the same meaning as specified in section 411(a)(7). The present value of an accrued benefit or annuity includes benefits attributable to both employee and employer contributions. Because section 401(a)(11) is not applicable to accumulated deductible employee contributions described in section 72(o), such accumulated contributions are not part of the accrued benefit. The value of an accrued benefit does not include any plan subsidy included in the present value of the qualified joint and survivor annuity (QJSA) or in the present value of the qualified preretirement survivor annuity (QPSA).

(b) *Consent, etc. requirements*—(1) *General rule.* Section 417(e) prohibits plans subject to that section from permitting the commencement of any distribution of any portion of a participant's accrued benefits unless—

(i) The applicable consent requirements are satisfied; or

(ii) (A) Such distribution is provided in the form of a qualified joint and survivor annuity (QJSA) or a qualified preretirement survivor annuity (QPSA); and

(B) Such benefit is not immediately distributable as described in paragraph (b)(3) of this section.

The consent requirement is applicable to accrued benefits that are immediately distributable.

(2) *Consent.* (i) Written consent of the participant and, if the participant is married at the time of the commencement of the distribution of benefits, the participant's spouse (or, if either the participant or the spouse has died, the survivor) is required before the commencement of the distribution of any part of an accrued benefit if the present value of the nonforfeitable accrued benefit is greater than $3,500. Such present value will be treated as greater than $3,500 at all times after the commencement of a distribution of benefits that was subject to this consent requirement. No consent is required before the commencement of the distribution of benefits if the present value of the nonforfeitable accrued benefit is not more than $3,500.

(ii) In determining the present value of the nonforfeitable accrued benefit, a defined benefit plan must use an interest rate not greater than the rate used by the Pension Benefit Guaranty Corporation (PBGC) to value immediate annuities for plans terminating as of either (A) the proposed distribution (or benefit commencement) date or (B) the first day of the plan year that contains the proposed distribution (or benefit commencement) date (the PBGC rate).

(3) *Immediately distributable.* An accrued benefit is immediately distributable if any part of the benefit could be distributed to the participant or beneficiary before that participant attains (or would have attained if not dead) the later of normal retirement age (as defined in section 411(a)(8)) or age 62.

(4) *Time of consent.* Written consent of the participant and the participant's spouse to the distribution must be obtained not more than 90 days before the commencement of the distribution of any part of an accrued benefit. See paragraph (d) of this section for a special rule for loans.

(5) *Other rules.* Except as provided in paragraphs (b)(2) and (d) of this section, the commencement of any distribution (including loans) permitted under section 417(e) and this section is subject to the election, spousal consent, and written explanation requirements of section 417(a).

(c) *Permitted distributions*—(1) *In general.* A plan may not require that a participant or surviving spouse begin to receive benefits without satisfying paragraph (b) of this section while such benefits are immediately distributable, as defined in paragraph (b)(3) of this section. Once benefits are no longer immediately distributable, all benefits must be provided in the form of a QJSA and QPSA unless the applicable written explanation, election, and consent requirements of section 417(a) are satisfied.

(2) *Special rule.* (i) In the case of a defined benefit plan, the plan must permit the surviving spouse to direct the commencement of payments under the QPSA no later than the month in which the participant would have attained the earliest retirement age under the plan. A plan may permit the commencement of payments at an earlier date.

(ii) In the case of a defined contribution plan, the plan must permit the surviving spouse to direct the commencement of payments under the QPSA within a reasonable time after the participant's death.

(3) *Unmarried participant.* In the case of a participant who is not married, the term "QJSA" means an annuity for the life of a participant.

(d) *Loans*—(1) *General rule.* (i) A loan from a plan to a participant shall not be treated as a distribution for purposes of this section. However, the re-

duction of an account balance or the present value of an accrued benefit to satisfy an obligation of a participant arising in connection with a loan from a plan to a participant is a distribution to the participant requiring the consent of the participant and spouse (if any) at the time of the reduction. The preceding sentence also applies to loans described in section 72(p)(4).

(ii) For purposes of satisfying the consent requirement with respect to a loan that is secured by a married participant's accrued benefit, a plan may require the participant and spouse to consent to the loan and the possible reduction in the accrued benefit within the 90-day period before the making of the loan. Thus, if spousal consent is obtained at the time of making a plan loan to a married participant, spousal consent is not required at the time of any setoff of the loan against the accrued benefit resulting from nonpayment, even though the participant is married to a different spouse at the time of the setoff. Similarly, in the case of an unmarried participant, the consent requirement may be satisfied by requiring the participant's consent to the loan and the possible reduction in the accrued benefit within the 90-day period before the making of the loan, even if the participant is married at the time of any setoff of the loan against the accrued benefit.

(iii) If the plan does not obtain consent of a current spouse at the time of a loan secured by some portion of the participant's accrued benefit, the plan will not be certain that it will be able to execute on the security by reducing the participant's accrued benefit without violating section 417(e). Thus the plan (depending upon whether there is other security for the loan) may have made a loan that is not adequately secured. See sections 401(a)(13) and 4975.

(2) *Renegotiation, etc.* For purposes of this paragraph (d), any renegotiation, extension, renewal, or other revision of a loan shall be treated as a new loan made on the date of the renegotiation, extension, renewal, or other revision.

(3) *Effective date.* This paragraph does not apply to loans made prior to August 19, 1985.

(e) *Present value requirement*—(1) *Interest rate.* For purposes of determining the present value of any accrued benefit and for purposes of determining the amount (subject to section 415) of any distribution, a defined benefit plan must use an interest rate not greater than the PBGC rate determined in the same manner and time as set forth in paragraph (b)(2)(ii). The same rate must be used for both purposes.

(2) *Other rules.* (i) In the case of a defined benefit plan that assumes a rate other than the PBGC rate, the rate producing the greater benefit (subject to section 415) must be used.

(ii) Any change in a rate described in subparagraph (1) is subject to section 411(d)(6).

(3) *Exceptions.* (i) Subparagraphs (1) and (2)(i) do not apply to a distribution under a non-decreasing annuity payable for a period not less than the life of the participant or, in the case of a QPSA, the life of the surviving spouse. A non-decreasing annuity includes an annuity that decreases merely because of the cessation or reduction of Social Security supplements or qualified disability payments (as defined in section 411(a)(9)).

(ii) Subparagraphs (1) and (2)(i) do not apply to any payment under a QJSA or QPSA.

(4) *Defined contribution plans.* Because the accrued benefit in a defined contribution plan equal the account balance, such plans are not subject to the interest rate requirements of this paragraph (e), even though they are subject to section 401(a)(11).

(f) *Special rules for annuity contracts*—(1) *General rule.* Any annuity contract purchased by a plan subject to section 401(a)(11) and distributed to or owned by a participant must provide that benefits under the contract are provided in accordance with the applicable consent, present value, and other requirements of this section applicable to the plan.

(2) *Effective date.* This paragraph does not apply to contracts distributed to or owned by a participant prior to September 17, 1985, unless additional contributions are made under the plan by the employer with respect to such contracts.

There is a need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impractical to issue this Treasury decision with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917, 26 USC 7805).

JAMES I. OWENS,
Acting Commissioner of Internal Revenue.

Approved July 3, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on July 18, 1985, 8:45 a.m., and published in the issue of the Federal Register for July 198, 1985, 50 F.R. 29371)

Section 402.—Taxability of Beneficiary of Employees' Trust

26 CFR 1.402(f)-1T: Required explanation of rollovers, capital grains, and ten-year averaging tax treatment (Temporary).

Plan administrators are required to give recipients of certain distributions written notice of the rules relating to the tax treatment of the distributions. See T.D. 8037, page 127.

Section 403.—Taxation of Employee Annuities

26 CFR 1.403(a)-1: Taxability of beneficiary under a qualified annuity plan.

Procedure for determining whether an employer that establishes or maintains a qualified plan under this section is subject to the requirements of section 414(m) or 414(n) of the Code. See Rev. Proc. 85-43, page 501.

Section 408.—Individual Retirement Accounts

26 CFR 1.408-1: General rules.

Procedure for determining whether an employer that establishes or maintains a simplified employee pension described in section 408(k) of the Code is subject to the requirements of section 414(m) or 414(n) of the Code. See Rev. Proc. 85-43, page 501.

Subpart B.—Special Rules

Section 410.—Minimum Participation Standards

26 CFR 1.410(a)-1: Minimum participation standards; general rules.

Procedure for determining whether an employer that establishes or maintains a qualified plan is subject to the requirements of section 414(m) or 414(n) of the Code and satisfies the minimum participation standards of this section. See Rev. Proc. 85-43, page 501.

---

26 CFR 1.410(a)-1: Minimum participation standards; general rules.

Whether a defined benefit plan properly credits years of service for purposes of participation under section 410 of the Code. See Rev. Rul. 85-130, this page.

---

26 CFR 1.410(a)-5T: Five consecutive 1-year breaks in service, transitional rules under the Retirement Equity Act of 1984 (Temporary).

Effective dates, transitional rules, restrictions on distributions, and other issues arising under the Retirement Equity Act of 1984. See T.D. 8038, page 130.

Section 411.—Minimum Vesting Standards

26 CFR 1.411(a)-1: Minimum vesting standards; general rules.

Procedure for determining whether an employer that establishes or maintains a qualified plan is subject to the requirements of section 414(m) or 414(n) of the Code and satisfies the minimum vesting standards of this section. See Rev. Proc. 85-43, page 501.

---

26 CFR 1.411(a)-5: Service included in determination of nonforfeitable percentage. (Also Sections 401, 410; 1.401-1, 1.410(a)-1.)

Qualification; vesting; credit for all years of service. A multiple employer defined benefit plan must credit employees for all years of service whether or not an employer makes the required contributions to the plan. A plan that does not credit all years of service does not provide definitely determinable benefits as required by section 1.401-1(b)(1)(i) of the regulations and does not satisfy the minimum participation and vesting standards of sections 410 and 411 of the Code.

Rev. Rul. 85-130

ISSUES

(1) Whether a plan that credits service as described below provides definitely determinable benefits as required by section 1.401-1(b)(1)(i) of the Income Tax Regulations.

(2) Whether the plan satisfies the requirements of sections 410 and 411 of the Internal Revenue Code.

FACTS

A multiple employer defined benefit plan provides that any service attributable to periods for which an employer did not make required contributions to the plan shall not be credited to the employer's employees for purposes of determining eligibility to participate, vesting, or benefit accruals.

LAW AND ANALYSIS

Section 1.401-1(b)(1)9i) of the regulations defines a qualified pension plan as a plan established and maintained by an employer to provide definitely determinable benefits to its employees.

Rev. Rul. 74-385, 1974-2 C.B. 130, provides that in the case of a defined benefit pension plan, benefits will be considered definitely determinable if the plan contains an express formula under which each participant's benefit can be computed and such formula is not subject to employer discretion.

Although the plan in this case contains a formula for determining participants' benefits, benefits are actually determined under that formula only to the extent that the employer, in its discretion, makes required contributions.

Sections 410 and 411 of the Code establish minimum participation, vesting, and benefit accrual standards. Under these sections, an employee's eligibility to participate, vesting, and benefit accruals are based on years of service.

Section 1.410(a)-1(b)(5) of the regulations (relating to minimum participation standards) provides that rules relating to years of service and breaks in service are found in Part 2530 of the Department of Labor Regulations (relating to minimum standards).

Section 1.411(a)-6 of the regulations (relating to vesting) and section 1.411(b)-1(f) (relating to benefit accruals) also refer to Part 2530 of the Department of Labor Regulations for the purpose of computing service for vesting and benefit accrual.

Section 2530.210(c) of the Department of Labor Regulations provides rules for determining years of service in a multiple employer plan. Section 2530.210(c)(3)(i) defines multiple employer plan to include a multi-employer plan as defined in section 414(f) of the Internal Revenue Code. Section 2530.210(c)(1) provides that, generally, for purposes of determining eligibility to participate and vesting, all service with the employer or employers maintaining the plan shall be taken into account. Section 2530.210(c)(2) provides that, generally, for benefit accrual purposes, all covered service with the employer or employers maintaining the plan shall be taken into account.

The minimum participation, vesting, and benefit accrual standards of sections 410 and 411 of the Code were generally designed to protect the employee-participants' pension benefits after many years of service with an employer. The years of service provisions of section 2530.210(c)(1) and (2) therefore require that the plan provide credit for all covered service with the employer or employers maintaining the plan. An employer that is required by the plan document or collective bargaining agreement to contribute to the plan is an employer maintaining the plan for purposes of determining an employee's years of service whether or not the required contributions are made. To conclude otherwise would enable the employer to effectively circumvent the minimum participation, vesting, and benefit accrual standard by merely failing to make a required plan contribution.

In this case, the plan does not credit service for years in which the employer fails to make the required contributions.

HOLDINGS

(1) This plan does not provide definitely determinable benefits as required by section 1.401-1(b)(1)(i) of the regulations.

(2) The crediting of service under this plan does not satisfy the requirements of sections 410 and 411 of the Code.

Effective dates, transitional rules, restrictions on distributions, and other issues arising under the Retirement Equity Act of 1984. See T.D. 8038, page 130.

Section 412.—Minimum Funding Standards

26 CFR 1.412(c)(3)-1: Reasonable funding methods.

Funding; unit credit method; allocation of liabilities. The allocation of liabilities under the unit credit (accrued benefit) method to past and future service must take into account the requirements of section 415 of the Code. A version of the unit credit method that did not take into account section 415 is not a reasonable funding method.

Rev. Rul. 85-131

ISSUE

Whether the version of the unit credit (accrued benefit) funding method described below, under which certain liabilities are allocated to the current plan year rather than to prior plan years, is a reasonable funding method under section 1.412(c)(3)-1 of the Income Tax Regulations?

FACTS

A defined benefit pension plan was established effective January 1, 1983. The taxable year of the employer and the plan year both coincide with the calendar year. The plan provides that a participant's normal retirement benefit (payable as a life annuity at age 65) is 50 percent of the participant's high three consecutive years' compensation. However, the plan also provides that the accrued benefit of a participant at any time is 50 percent of the participant's high three consecutive years' compensation at that time, subject to the maximum benefit limitation under section 415(b)(1) of the Internal Revenue Code (which is explicitly stated in the plan). This limitation prohibits the accrual of an annual benefit in excess of the lesser of 100 percent of a participant's high three consecutive years' compensation at such time or $90,000. Further, section 415(b)(5) of the Code provides that, for a participant with less than 10 years of service with the employer, the maximum benefit limitation determined under section 415(b)(1) of the Code is reduced to an amount equal to that limitation (before such reduction) multiplied by a fraction, the numerator of which is the number of years (or part thereof) of service with the employer and the denominator of which is 10.

A version of the unit credit (accrued benefit) funding method is used to determine plan costs for the 1983 plan year for purposes of sections 404 and 412 of the Code. The method determines the projected retirement benefit and allocates all of such benefit to the first year of participation in the plan. Because of this allocation, the normal cost of the plan for the 1983 plan year is the present value of the projected retirement benefits.

LAW

Section 412(c)(3) of the Code provides that all costs, liabilities, rates of interest, and other factors under a plan shall be determined on the basis of actuarial methods which are reasonable.

Section 1.412(c)(3)-1(c)(5) of the regulations provides that under a reasonable funding method that allocates liabilities among different elements of past and future service, the allocation of liabilities must be reasonable.

Section 1.412(c)(3)-1(e) of the regulations provides special rules for a funding method that determines normal cost as an amount equal to the present value of benefits accruing under the method for a particular plan year. The unit credit funding method is a method that determines normal cost in this manner.

Section 1.412(c)(3)-1(e)(3) of the regulations provides that, in determining a plan's normal cost and accrued liability for a particular plan year, the projected benefits of the plan must be allocated between past and future years. Except in the case of a career average pay plan, the allocation of projected benefits of the plan between past years and future years must be in proportion to the applicable rates of benefit accrual under the plan. Thus, the allocation to past years is effected by multiplying the projected benefit by a fraction, the numerator of which is the participant's credited years of service and the denominator of which is the participant's total credited years of service at the anticipated benefit commencement date. However, in formulating this fraction, adjustments are made to account for changes in the rate of benefit accrual.

ANALYSIS

For an employee who was hired on January 1, 1983, and commenced participation on that date, the benefit that accrues under the plan described above for the first plan year is the lesser of 10 percent (100 percent multiplied by 1/10) of high three consecutive years' compensation at such time or $9,000 ($90,000 multiplied by 1/10). If the plan provided a greater benefit accrual in such plan year, the plan would exceed the maximum benefit limitation described in section 415(b)(1) of the Code. Accordingly, for purposes of section 1.412(c)(3)-1(e) of the regulations and pursuant to the limitation under section 415(b)(5) of the Code, the plan is viewed as providing a rate of benefit accrual equal to 10 percent of compensation (subject to the dollar limitation of section 415(b)(1) of the Code) for each year of the participant's first five years of service.

For an employee with four years of service on January 1, 1983, the benefit that accrues under the plan described above in the first plan year (*i.e.*, the employee's fifth year of service) is the lesser of 50 percent (100 percent multiplied by 5/10) of high three consecutive years' compensation at such time or $45,000 ($90,000 multiplied by 5/10). Of this accrued benefit, the lesser of 40 percent of high three consecutive years' compensation as of the end of the first plan year or $36,000 is provided by the plan due to past years of service. Thus, for purposes of section 1.412(c)(3)-1(e) of the regulations, the initial accrued liability for this employee under the unit credit funding method (assuming 25 credited years of service at the anticipated benefit commencement date), after applying the fraction described in section 1.412(c)(3)-1(e)(3) of the regulations, is the present value of the lesser of 40 percent of high three consecutive years' compensation as of the anticipated benefit commencement date or $36,000. The 40 percent amount is calculated in the following manner:

$$\text{50 percent of compensation as of benefit commencement} \times \frac{(4 \times 10)}{(5 \times 10) + (20 \times 0)}.$$

See example (5) of section 1.412(c)(3)-1(g) of the regulations.

Similarly, for any employee with other than four years of service on January 1, 1983, any benefit that accrues under the plan described above in the first plan year in excess of the lesser of 10 percent of high three consecutive years' compensation as of such time or $9,000 is only on account of past service. Thus, for purposes of section 1.412(c)(3)-1(e) of the regulations, the maximum benefit that may be treated as accruing in the first plan year for such an employee is the lesser of 10 percent of higher consecutive years' compensation as of the anticipated benefit commencement date or $9,000.

Under the version of the unit credit funding method utilized for the plan described above, the normal cost is determined as the present value of benefits accruing during the plan year. Thus, the funding method used for such plan allocates a participant's entire projected retirement benefit to the 1983 plan year (the first plan year) and allocates no liabilities to previous years. Because the funding method used for the plan does not reasonably allocate liabilities between past and future service in proportion to the applicable rates of benefit accrual under the plan, as illustrated by the preceding analysis, such method does not satisfy the requirements of section 1.412(c)(3)-1(e) of the regulations.

HOLDING

The allocation of liabilities between past and future years of service under the version of the unit credit funding method used for the plan described above does not satisfy the requirements of section 1.412(c)(3)-1(e)(3) of the regulations. Thus, the actuarial cost method utilized for the plan is not reasonable under section 412(c)(3) of the Code.

Section 413.—Collectively Bargained Plans, Etc.

Ct. D. 2032

SUPREME COURT
OF THE
UNITED STATES
No. 85-2157

Central States, Southeast & Southwest Areas Pension Fund et al. v. Central Transport, Inc., et al.
[472 U.S.]

On Writ of Certiorari to the
United States
Court of Appeals
for the Sixth Circuit

[June 19, 1985]

Syllabus

Petitioners are multiemployer benefit plans governed by the Employee Retirement Income Security Act of 1974 (ERISA) [Pub. L. 93-406, 1974-3 C.B. 1]. The plans operate under trust agreements for the purpose of providing health, welfare, and pension benefits to employees performing work that is covered by collective-bargaining agreements negotiated between a labor union and respondent trucking companies. Under these collective-bargaining agreements, each employer must make weekly contributions to petitioners for each such employee, and each employer agrees to be bound by the trust agreements. Because they are so large, petitioners rely on employer self-reporting to determine the extent of an employer's contribution liability, and police this self-reporting system by conducting random audits of the participating employers' records. When respondents refused to allow petitioners' requested audit of respondents' payroll, tax, and personnel records, including records of employees whom respondents claimed were not plan participants, petitioners filed an action in Federal District Court seeking an order permitting the audit. The District Court granted summary judgment in favor of petitioners. The Court of Appeals reversed, holding that petitioners had to show "reasonable cause" to believe that a specific employee was covered by the plans before gaining a right of access to that employee's records.

Held: Respondents must allow petitioners to conduct the requested audit.

(a) Various provisions of the trust agreements granting the trustees power to enable them to administer the trusts properly, including a provision granting power to demand and examine pertinent employer records, support the right to audit claimed by petitioners. Moreover, petitioners' assertion that the required audit is highly relevant to the trust agreements' legitimate interests fully conform to generally accepted auditing standards.

(b) Petitioners' trustees' interpretation of the trust agreements as authorizing the requested audit is not inconsistent with ERISA, and indeed, is entirely reasonable in light of ERISA's policies. Rather than explicitly enumerating all of the powers and duties of trustees, Congress invoked the common law of trusts to define the scope of their authority and responsibility. Under the common law, trustees have all such powers as are necessary or appropriate for the carrying out of the trust purposes, and an examination of ERISA's structure in light of the common law leaves no doubt as to the validity and weight of the audit goals on which petitioners rely. Both the concerns of fully informing participants of their rights and status under a plan and for assuring the financial integrity of the plans by determining the class of potential benefit claimants and by holding employers to the full and prompt fulfillment of their contribution obligations are proper and weighty within ERISA's framework.

(c) A benefit plan should not have to rely on union monitoring of an employer's compliance with its trust obligations as an alternative to audits by the plans themselves. *Cf. Schneider Moving & Storage Co.* v. *Robbins*, 466 U.S.___. A trustee's duty extends to all participants and beneficiaries of a multiemployer plan, whereas a union's duty is confined to current employees employed in the bargaining unit in which it has representational rights. Nor would the Department of Labor's policing of employer compliance be an acceptable alternative. That Department has insufficient resources for such policing, and neither ERISA's structure nor its legislative history shows any congressional intent that benefit plans should rely primarily on centralized federal monitoring of employer contributions requirements.

(d) To rely on covered employees themselves to come forward to assure that employers make the required contributions would not be feasible. While ERISA's reporting requirements are designed to assure that participants receive information about their status and rights, they do so by placing a report-

ing duty *on the plans*. Thus, to give participants initial notice of their status, the plans would need to know the participants' identities, the very information that the requested audit here sought to verify.

(e) The fact that a benefit plan could bring an action against a delinquent employer as the employer's breaches of its obligations are discovered does not foreclose the plan from seeking to deter such breaches or discover them early. To suggest that a plan should be so foreclosed ignores the trustees' various fiduciary duties under ERISA and conflicts with ERISA's concern that plans should assure themselves of adequate funding by promptly collecting employer contributions.

698 F.2d 802, reversed.

MARSHALL, J., delivered the opinion of the Court, in which BRENNAN, WHITE, BLACKMUN, POWELL, and O'CONNOR, JJ., joined. STEVENS, J., filed an opinion concurring in part and dissenting in part, in which BURGER, C. J., and REHNQUIST, J., joined.

JUSTICE MARSHALL delivered the opinion for the Court.

The issue presented is whether an employer who participates in a multiemployer benefit plan that is governed by the Employee Retirement Income Security Act of 1974, 29 U.S.C. §1001 *eq seq.*, must allow the plan to conduct an audit involving the records of employees whom the employer denies are participants in the plan.

I

A

Petitioners are two large multiemployer benefit plans, the Central States, Southeast and Southwest Areas Pension Fund and the Central States, Southeast and Southwest Areas Health and Welfare Fund (hereinafter referred to collectively as "'Central States").[1] Governed by §302(c)(5) of the Labor Management Relations Act, of 1947, 29 U.S.C. §186(c)(5) and the Employee Retirement Income Security Act of 1974 (ERISA), 88 Stat. 829, 29 U.S.C. 1001 *et seq.*, as amended by the Multiemployer Pension Plan Amendments Act of 1980, Pub. L. 96-364, 94 Stat. 1208 [1980 2 C.B. 437], these plans operate as trusts for the purpose of providing specified health, welfare, and pension benefits to employees performing work that is covered by collective-bargaining agreements negotated by various affiliates of the International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America (Teamsters).

Respondents (hereinafter referred to collectively as "Central Transport") are 16 interstate trucking companies, each of which, either individually or through a multiemployer association, engages in collective bargaining with the Teamsters. Pursuant to that bargaining, each has become a signatory to the National Master Freight Agreement and supplemental, individual collective-bargaining agreements. Under these collective-bargaining agreements, each employer must make weekly contributions to Central States for each employee who performs work covered by the collective-bargaining agreements, and each employer agrees to be bound by the trust agreements that govern Central States.

Because the plans are so large—with thousands of participating employers—Central States relies principally on employer self-reporting to determine the extent of an employer's liability.[2] Central States policies this self-reporting system by conducting random audits of the records of participating employers.

B

On December 5, 1979, Central States contacted Central Transport to arrange an audit, which it described as part of a program of "'periodic reviews of participating employer contributions for the benefit of Plan Participants and their Beneficiaries."' 522 F. Supp. 658, 662 (ED Mich. 1981). The audit was to take place at Central Transport's offices and was to encompass, among other subjects, the "'[d]etermination of eligible Plan Participants covered by Collective Bargaining Agreements.'" *Ibid.* Among the documents the auditors requested access to were payroll, tax, and other personnel records of those employees whom the employer claimed were not plan participants.

Central States explained that access to these records would allow the auditors independently to determine the membership of the class entitled to participate in the plans, and thus to verify that Central Transport was making all required contributions.[3] Central Transport, however, insisted that 60% of its employees were not covered by the plans, and that Central States had no right to examine any records of noncovered employees. When Central Transport refused to allow the requested audit, Central States filed an action in Federal District Court seeking an "order permitting its auditors to conduct an independent verification of Central Transport's complete payroll records in order to determine whether the duties and status of each of its employees has been accurately reported by Central Transport." *Id.*at 660.[4]

The parties agreed that the facts of the case were not in dispute, and that the court should treat their pleadings as cross motions for summary judgment. The District Court granted summary judgment in favor of Central States. After examining Central States' contractual relationship with Central Transport and Central States' responsibilities under ERISA, the court concluded that

[1]As the Court of Appeals noted, "The record . . . indicates that the Funds are among the largest Taft-Hartley trust funds in the United States, that more than 13,000 employers participate and that they serve more than 500,000 employees whose job classifications are covered in thousands of collective bargaining agreements." 698 F. 2d 802, 811 (1983). See also *Schneider Moving & Storage Co.* v. *Robbins*, 466 U.S. ___, ___ n. 16 (1984).

[2]The District Court described this system as follows:

"Traditionally, the Central States Funds have operated on a self-reporting basis, which required the employer to initially establish a base group of employees entitled to weekly contributions and then to inform [Central States] monthly of any fluctuations in the employment status of individuals covered by the collective bargaining agreement. Central States relies upon the status reports of [Central Transport] to compute an invoice statement which it forwards to Central Transport. Thus, when the employer reports the termination or layoff of an individual formerly covered by the collective bargaining agreement, Central States will adjust its records and reduce the defendant's invoice to reflect the reported change. Conversely, when an employer reports the addition of new employees, Central States will increase the invoice by an amount which corresponds to the weekly contribution figure multiplied by the number of weekly hired employees." 522 F. Supp. 658, 662 (ED Mich. 1981).

[3]See *infra*, at 6-8.

[4]The action was filed pursuant to §301(a) of the Labor Managment Relations Act of 1947, 29 U.S.C. §185(a), and §502 of ERISA, 29 U.S.C. §1132.

ntral States had a right to conduct
e requested audit. The audit was a
asonable means of "independently
rify[ing] the status and duties of all
lividuals employed by Central Trans-
rt in order to insure that proper bene-
contribution payments are being
de." *Id.*, at 660. The court thus or-
red "that Central Transport provide
the audit representatives of Central
ates all of the documentation re-
ested and that the audit procedure
dertaken by Central States be al-
ved to continue." *Ibid.*[5]

The Court of Appeal for the Sixth
rcuit reversed. 698 F. 2d 802 (1983).
erpreting the collective-bargaining
reement and trust documents in light
ERISA, the Court of Appeals held
t Central States had to show "rea-
nable cause" to believe that a specific
ployee was covered by the plans be-
re gaining a right of access to that
ployee's records. *Id.*, at 809-812.
e granted certiorari, 467 U.S. ___
984), and we now reverse the judg-
nt of the Court of Appeals.

II

The documents governing Central
nsport's contractual relationship
h Central States include the
llective-bargaining agreements be-
een Central Transport and various af-
ates of the Teamsters Union and the
st agreements of the Central States
ns. Generally, the collective-
gaining agreements obligate Central
nsport to participate in the Central
tes plans and to be bound by Central
ates' trust agreements. The trust
reements, which have been signed by
ntral Transport, govern the operation
the plans.

These trust documents include a
mber of provisions that are highly
pportive of the right to audit claimed
Central States' trustees.

A

We note first that the Pension Fund trust agreement[6] places on each participating employer the responsibility to make "continuing and prompt payments to the Trust Fund as required by the applicable collective bargaining agreement." App. to Pet. for Cert. A-44 (Art. III, §1). The trustees are designated the recipients of all contributions and are "vested with all right, title and interest in and to such moneys." *Ibid.* (Art. III, §3).

The agreement contains various specific and general grants of power to the trustees to enable them to administer the trusts properly. Most generally, the agreements authorize the trustees to "do all acts, whether or not expressly authorized . . ., which [they] may deem necessary or proper for the protection of the property held [under the trust agreement]." *Id.*, at A-47 (Art. IV, §14(e)). The agreement also grants broad powers relating to the collection of employer contributions, such as the power "to demand and collect the contributions of the Employers to the Fund," *id.*, at A-45 (Art. III, §4), and the power to "take such steps . . . as the Trustees in their discretion deem in the best interest of the Fund to effectuate the collection or preservation of contributions . . . which may be owed to the Trust Fund." *Ibid.*

Among the more specific grants of trustee power is a power to demand and examine employer records:

"Production of Records—Each employer shall promptly furnish to the Trustees, upon reasonable demand the names and current addresses of its Employees, their Social Security numbers, the hours worked by each Employee and past industry employment history in its files and such other information as the Trustees may reasonably require in connection with the administration of the Trust. *The Trustees may, by their representatives, examine the pertinent records of each Employer at the Employer's place of busines whenever such examination is deemed necessary or advisable by the Trustees in connection with the proper administration of the Trust.*" *Id.*, at A-46 (Art. III, §5) (emphasis added).

B

Central States' trustees interpret these provisions as authorizing random field audits like the one at issue in this case. In particular, they argue that the records of not-concededly-covered employees are "pertinent records" because their examination is a "proper" means of verifying that the employer has accurately determined the class of covered employees. The plans have a substantial interest in verifying the employer's determination of participant status, the trustees argue, because an employer's failure to report all those who perform bargaining unit work may prevent the plans from notifying participants and beneficiaries of their entitlements and obligations under the plans and may create unfunded liabilities chargeable against the plans.[7] Moreover, an employer has an incentive to underreport the number of employees covered, because such underreporting would reduce his liability to the plans.

The reasonableness and propriety of the audit is confirmed, the trustees argue, by the accounting profession's generally accepted auditing standards, which articulate the elementary principle that for an auditor to verify a certain selection decision, he must refer to a universe broader than the selection itself:

"When planning a particular sample, the auditor should consider the specific audit objective to be achieved and should determine that the audit procedure, or combination of procedures to be applied will achieve that objective. The auditor should determine that the population from which he draws the sample is appropriate for the specific audit objective. *For example, an auditor would not be able to detect under-*

In reaching its decision, the District Court "mindful of the fact that Central States ha[d] eatedly stated that confidential payroll data uld] not be copied or removed from the Cen- Transport premises once the auditors have sfied themselves that particular indivuals are performing [bargaining] unit work." 522 F. p. at 664.

[6]The trust agreement governing the Pension Fund and the trust agreement governing the Health and Welfare Fund are identical in all pertinent respects. References will therefore be made only to the Pension Fund trust agreement.

[7]The consistent view of the Secretary of Labor is that, under ERISA's minimum participation, vesting, and benefit accrual standards for pension plans, 29 U.S.C. §§1052, 1053, 1054, a pension plan covered by ERISA *must* award credit "solely on the basis of service performed for a participating employer, regardless [of] whether that employer is required to contribute for such service or has made or defaulted on his required contributions." In the Secretary's judgment, "Any plan term or Trustees' resolution to the contrary is . . . unlawful and unenforceable." Department of Labor Advisory Op. No. 76-89 (Aug. 31, 1976) (reprinted in App. to Pet. for Cert. A70-A71); accord, Department of Labor Advisory Op. No. 78-28A (Dec. 5, 1978) (reprinted in App., to Pet. for Cert. A71-A74).

statements of an account due to omitted items by sampling the recorded items. An appropriate sampling plan for detecting such understatements would involve selecting from a source in which the omitted items are included." American Institute of Certified Public Accountants, Codification of Statements on Auditing Standards, AU §350.17, p. 223 (1985) (emphasis added).

The trustees' determination that the trust documents authorize their access to the records here in disspute has significant weight, for the trust agreement explicitly provides that "any construction [of the agreement's provisions] adopted by the Trustees in good faith shall be binding upon the Union, Employees and Employers." App. to Pet. for Cert. A-48 (Art. IV, §17).[8] There has been no evidence of a bad-faith motive behind the trustees' determination of the scope of their powers under the trust agreements or behind their determination of the auditing program's propriety. The trustees assert that the requested audit is highly relevant to the trust's legitimate interests, and this assertion fully conforms to generally accepted auditing standards. Thus, if our inquiry were merely an inquiry into the trust agreement, the trustees' right to conduct the audit in question would seem clear.

III

The Court of Appeals, nonetheless, rejected the Central States trustees' interpretation of their contractual power. In the court's view, such an auditing power would be unreasonable in light of the policies and protections embodied in ERISA. We agree with the Court of Appeals that trust documents cannot excuse trustees from their duties under ERISA, and that trust documents must generally be construed in light of ERISA's policies, see 29 U.S.C. §1104(a)(1)(D), but we find no inherent inconsistency between ERISA and the interpretation of the trust agreements offered by the Central States trustees. Indeed, we find the trustees' interpretation of their documents to be entirely reasonable in light of ERISA's policies.

An examination of the duties of plan trustees under ERISA, and under the common law of trusts upon which ERISA's duties are based, makes clear that the requested audit is highly relevant to legitimate trustee concerns.

A

This Court has on a number of occasions discussed the policy concerns behind ERISA. In *Nachman Corp.* v. *Pension Benefit Guaranty Corp.*, 446 U.S. 359, 361 (1980), we noted that Congress enacted ERISA after "almost a decade of studying the Nation's private pension plans" and other employee benefit plans.[9] Congress found that there had been a "rapid and substantial" growth in the "size, scope, and numbers" of employee benefit plans and "that the continued well-being and security of millions of employees and their dependents are directly effected by these plans." 29 U.S.C. §1001(a). But it also recognized that "owing to the inadequacy of [pre-ERISA] minimum standards, the soundness and stability of plans with respect to adequate funds to pay promised benefits may [have been] endangered." *Ibid.* We have recognized that one of ERISA's principal purposes was "to correct this condition by making sure that if a worker has been promised a defined pension benefit upon retirement—and if he has fulfilled whatever conditions are required to obtain a vested benefit—he actually will receive it." 446 U.S., at 375. One of the methods of accomplishing this was the provision of "minimum standards" that would "assur[e] the equitable character of [employee benefit plans] and their financial soundness." 29 U.S.C. §1001(a).

B

In general, trustees' responsibilities and powers under ERISA reflect Congress' policy of "assuring the equitable character" of the plans. Thus, rather than explicitly enumerating *all* of the powers and duties of trustees and other fiduciaries, Congress invoked the common law of trusts to define the general scope of their authority and responsibility.[10] Under the common law of trusts, as under the Central States trust agreements, trustees are understood to have all "such powers as are necessary or appropriate for the carrying out of the purposes of the trust." 3 A. Scott, Law of Trusts §186, p. 1496 (3d ed. 1967) (hereinafter Scott).[11]

The manner in which trustee powers may be exercised, however, is further defined in the statute through the provision of strict standards of trustee conduct, also derived from the common law of trusts—most prominently, a standard of loyalty and a standard of care. Under the former, a plan fiduciary "shall discharge his duties with respect to a plan solely in the interest of the participants and beneficiaries and . . . for the exclusive purpose of providing benefits to particpants and their beneficiaries; and . . . defraying reasonable expenses of administering the plan." 29 U.S.C. §1104(a)(A). See also §1103(c)(1); cf §186(c)(5). Under

[8]Similarly, the collective-bargaining agreement provides that each employer is deemed to have "ratif[ied] all action already taken or to be taken by [Trustee] within the scope of their authority." 522 F. Supp., at 661 (quoting National Master Freight Agreement, Art. 60) A trust "participation agreement" entered into by Central Transport is of similar effect, providing that Central Transport "assent[s] to . . . all of the actions of the Trustees in administering such Trust Fund in accordance with the Trust Agreement and rules adopted." *Ibid.* (quoting paragraph one of the Pension Fund participation agreement).

[9]Although most of ERISA's legislative history focused on pension plans, Congress also studied the operation of other employee benefit plans and developed a similar regulatory framework respecting these other plans. For example, ERISA's rules concerning reporting, disclosure, and fiduciary responsibility apply to all employee benefit plans. See 29 U.S.C. §§1021-1031, 1101-1114. See also 29 U.S.C. §1001(a) (stating congressional findings and policies with respect to "employee benefit plans"); 29 U.S.C. §1002(3) (defining "employee benefit plan" as including both "pension benefit plan[s]" and "welfare benefit plan[s]"). See generally, *Shaw* v. *Delta Air Lines, Inc.*, 463 U.S. 85, 91 (1983).

[10]See, *e.g.*, 29 U.S.C. §1103(a) ("assets of an employee benefit plan shall be held in trust"); S. Rep. No. 93-127, 29 (1973) ("The fiduciary responsibility section, in essence, codifies and makes applicable to these fiduciaries certain principles developed in the evolution of the law of trusts"); H.R. Rep. No. 93-533, p. 11 (1973) (identical language); cf. *NLRB* v. *Amax Coal Co.*, 453 U.S. 322, 329-334 (1981) (Congress intended that union welfare funds regulated by the Taft-Hartley Act, see 29 U.S.C. §186(c)(5), be operated under traditional trust law principles and this desire became explicit in ERISA).

[11]Accord, G. Bogert & G. Bogert, Law of Trusts and Trustees §551, p. 41 (2d rev.ed. 1980) (hereinafter Bogert) (trustee has the power to use all "ordinary and natural means" for accomplishing the trust's objective); Restatement (Second) of Trusts §186(b) (1959) (hereinafter Restatement) (trustee has all powers "necessary or appropriate to carry out the purposes of the trust.").

the latter, a fiduciary "shall discharge his duties with respect to a plan . . . with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent man acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims." §1104(a)(B).[12]

An examination of the structure of ERISA in light of the particular duties and powers of trustees under the common law leaves no doubt as to the validity and weight of the audit goals on which Central States relies. ERISA clearly assumes that trustees will act to ensure that a plan receives all funds to which it is entitled, so that those funds can be used on behalf of participants and beneficiaries, and that trustees will take steps to identify all participants and beneficiaries, so that the trustees can make them aware of their status and rights under the trust's terms.

C

One of the fundamental common-law duties of a trustee is to preserve and maintain trust assets, Bogert, *supra*, §582, at 346, and this encompasses "determin[ing] exactly what property forms the subject-matter of the trust [and] who are the beneficiaries." §583, at 348 (footnotes omitted). The trustee is thus expected to "use reasonable diligence to discover the location of the trust property and to take control of it without unnecessary delay." *Id.*, at 355.[13] A trustee is similarly expected to "investigate the identity of the beneficiary when the trust documents do not clearly fix such party" and to "notify the beneficiaries under the trust of the gifts made to them." *Id.*, at 348-349, n. 40.

The provisions of ERISA make clear that a benefit plan trustee is similarly subject to these responsibilities, not only as a result of the general fiduciary standards of loyalty and care, borrowed as they are from the common law, but also as a result of more specific trustee duties itemized in the Act. For example, the Act's minimum reporting and disclosure standards require benefit plans to furnish all participants with various documents informing them of their rights and obligations under the plan, see, *e.g.*, 29 U.S.C. §§1021, 1022, 1024(b),[14] a task that would certainly include the duty of determining who is in fact a plan participant.[15] The Act also requires that a benefit plan prevent participant employers from gaining even temporary use of assets to which the plan is entitled, see §1106(a)(1)(B) (prohibiting trustees from "caus[ing] the plan to engage in a transaction, if . . . such transaction constiutes a direct or indirect . . . extension of credit" to a participating employer), a requirement that would certainly create a trustee responsibility for assuring full and prompt collection of contributions owed to the plan.[16]

Moreover, that these trustee duties support the auditing authority claimed in this case is strongly suggested by the other provisions of ERISA as well as by the positions of the administrative agencies charged with the administration of the Act. For example, §209 of the Act supplements the benefit plans' duties to furnish reports to plan participants by requiring employers to maintain records on employees and to furnish to benefit plans the information needed for the plaas' fulfillment of their reporting duties. 29 U.S.C. §1059. The Secretary of Labor has explicitly interpreted the trustees' duty to prevent employer use of trust assets as creating a plan duty to verify employer determinations and requiring plans to adopt systems for policing employers. And the Secretary has endorsed the appropriateness of field auditing programs for this purpose. Thus, the Secretary notes that "many multiple employer plans have adopted written procedures for the orderly collection of delinquent employer contributions which involve reasonable, diligent and systematic methods for the review of employer contribution accounts by means of, for example, . . . field audits." In the Department's view, plans "which do not establish and implement [such] collection procedures" may "by failing to collect delinquent contributions" be found to have violated §406's prohibition of extensions of credit to employers. Prohibited Transaction Exemption 76-1, 41 Fed. Reg. 12740, 12741 (1976) [1976-1 C.B. 357]; accord, Department of Labor Advisory Op. No. 78-28A (Dec. 5, 1978) (reprinted at App. to Pet. for Cert. A71-A74).

In light of the general of the general policies behind ERISA as well as the particular provisions of the statute, we can only conclude that there is no conflict between ERISA and those concerns offered by Central States to justify its audit program. Both the concern for fully informing participants of their rights and status under a plan and the concern for assuring the financial integrity of the plans by determining the

---

[12]In light of ERISA's standards, Central Transport correctly argues that the audit request would be illegitimate under the standard of loyalty if it were actually an effort by plan trustees to expand plan coverage beyond the class defined in the plans' terms or to acquire information about the employers to advance union goals. It similarly argues that the audit would be imprudent if it were clearly wasteful of plan assets or unrelated to legitimate plan concerns.

Central Transport, however, has submitted no evidence that Central States' audit program's actual goal was to expand the trust's coverage beyond that provided in the applicable collective-bargaining agreements or to acquire information for union goals; nor did it submit any evidence that the audits were unjustifiably costly. Thus, whether the auditing power claimed by Central States is consistent with ERISA must be analyzed in terms of the goal upon which Central States has rested its audit, that of policing Central Transport's "'[d]etermination of eligible Plan participants covered by Collective Bargaining Agreements,'" 522 F. Supp., at 662 (quoting Central States' letter to Central Transport), so as to verify that Central Transport is indeed contributing all required amounts on behalf of all covered employees.

[13]See also Bogert, *supra*, at 355 (where the settlor retains possession of trust assets, "the trustee must hold the settlor to [his] obligation"); 2 Scott, *supra*, §175, at 1415 ("trustee is under a duty to take such steps as are reasonable to secure control of the trust property and to keep control of it").

[14]See also 29 CFR §§2520.104b-1-2520.104b-30 (1984).

[15]That the reporting requirements presuppose a plan's knowledge of participants' identities is highlighted by the Labor Department's determination that to comply with the minimum reporting standards a plan "must [send the precribed material] by a method or methods of delivery likely to result in full distribution." 29 CFR §2520.104b-1 (1984). Mail distribution is one of the suggested methods, and more importantly, the Department cautions that "in no case is it acceptable [for a plan] merely to place copies of the material in a location frequented by participants" as a means for complying with ERISA's reporting requirements). *Ibid.*

[16]See also 29 U.S.C. §1103(c)(1) (providing that "the assets of a plan shall never inure to the benefit of any employer"); §1145 (requiring employers to fulfill the contribution obligations in accordance with the terms of plan documents). For a more detailed discussion of Congress concern for assuring full and prompt compliance with contribution obligations, see Part IV-C, *infra*.

class of potential benefit claimants and holding employers to the full and prompt fulfillment of their contribution obligations are proper and weighty within the framework of ERISA.

IV

The Court of Appeals offered a number of reasons why the requested audit would nevertheless be improper as a matter of law. The Court of Appeals largely relied on the presence of alternative means of protecting a plan's interests to conclude that a plan's access to employee records could safely be limited to those instances where a plan shows "reasonable cause" to believe that a specific employee is a participant. The court speculated that "[t]he Funds enjoy a number of protections against being call upon to dispense benefits to a participant on whose behalf no contributions or insufficient contributions were made," 698 F. 2d, at 813, that the plans thus did not need primarily to rely on its own monitoring to safeguard its interests, and that therefore "the possibility of liability . . . on the part of . . . the Funds [could] not justify the broad audit [the trustees] seek." *Ibid.*

A

The Court of Appeals first noted that employer contributions could effectively be policed by interested unions or by the Secretary of Labor, thus diminishing the trustee's interests in independently monitoring employer compliance. Moreover, in the court's view, a plan's reliance on union or government oversight of an employer's contributions would be more consistent with federal policies in the pension and labor fields than would be a plan's reliance on the sort of audit at issue here.

(1)

The notion that federal policy favors union enforcement of an employer's collectively-bargained obligations to a benefit plan, to the exclusion of enforcement by the plan's trustees, simply did not survive last Term's decision in *Schneider Moving & Storage Co.* v. *Robbins*, 466 U.S. ___ (1984). In *Schneider*, we held that a benefit plan could bring an independent action for judicial enforcement of an employer's trust obligations, and we in large part relied on the proposition that there was no federal policy favoring trustee dependence on a union's use of a grievance and arbitration system for such enforcement.[17]

Of greatest significance here is this Court's conclusion that compelling benefit plans to rely on unions would erode the protections ERISA assures to beneficiaries, for the diminishment of trustee responsibility that would result would not necessarily be made up for by the union. ERISA places strict duties on trustees with respect to the interests of beneficiaries, and unions' duties toward beneficiaries are of a quite different scope.

A trustee's duty extends to all participants and beneficiaries of a multiemployer plan, while a local union's duty is confined to current employees employed in the bargaining unit in which it has representational rights. The breadth of the trustee's duty may result in a very different view of the pecial situations that may exist in any single unit, and, as we recognized in *Schneider*, a union's arrangements with a particular employer might compromise the broader interests of the plan as a whole:

"These are multiemployer trust funds. Each of the participating unions and employers has an interest in the prompt collection of the proper contribution from each employer. Any diminution of the fund caused by the arbitration requirements of a particular employer's collective-bargaining agreement would have an adverse effect on the other participants." 466 U.S., at ___ (footnotes omitted).

See also *Lewis* v. *Benedict Coal Co.*, 361 U.S. 459, 469 (1960). See generally *Schneider*, *supra*, at ___, n. 22 (the union's duty "runs only to the members of its collective-bargaining unit, and is coextensive with its statutory authority to act as the exclusive representative for all the employees within the unit").[18]

Similarly, a local union's duties t bargaining-unit workers is a gener duty to act in the group's interests r garding the overall terms and cond tions of employment. The trustees duty, in contrast, is to provide specifi benefits to those who are entitled t them in accordance with the terms of plan. That the general nature of union's duty may result in less than ful protection to individual entitlement has been well recognized in our cases and we have accordingly refrained fro making enforcement of such entitle ments rest primarily on union action See *Barrentine* v. *Arkansas-Bes Freight System, Inc.*, 450 U.S. 72 (1981) (union goal of maximizing over all compensation for the bargaining uni as a whole may prevent it from effect ively policing employer's payment t each employee of statutory minimun wages). In *Schneider*, we recognize that in the context of ERISA primar reliance on unions would allow "wid discretion and would provide only lim ited protection," 466 U.S., at ___, n 22, to those participant and beneficiar rights that the statute was designed t ensure:

"A primary union objective is 't maximize overall compensation of it members.' Thus, it may sacrifice par ticular elements of the compensatio package 'if an alternative expenditur of resources would result in increase benefits for workers in the bargainin unit as a whole'." *Ibid.* (citatio omitted).

See also *NLRB* v. *Amax Coal Co.*, 45 U.S. 322, 336 (1981) ("The atmos phere in which employee benefit tru fund fiduciaries must operate, as mar dated by [29 U.S.C. §186(c)(5)] an ERISA, is wholly inconsistent wit th[e] process of compromise and ecc nomic pressure [that characterizes co lective bargaining]").

The rationale in *Schneider* and ou other cases in this area thus precludes holding that a benefit plan must prima ily rely on union monitoring of an em ployer's compliance with its tru

[17]The benefit plans involved in *Schneider* were the same plans that are petitioners here, and the trust agreements at issue in *Schneider* are also the same as those here.

[18]This potential conflict was also discussed in *Allied Chemical & Alkalai Workers* v. *Pittsburgh Plate Glass Co.*, 404 U.S. 157, 171-175 (1971), where we recognized that the interests of retirees may substantially conflict with the interests of active workers. Because of the potential conflicts, we held that retirees cannot be considered part of a collective-bargaining unit represented by union and that retirees' benefits are not within t mandatory subjects of union-employer collecti bargaining. Retirees, as beneficiaries of a pensi plan, clearly are within the class to whom trus ees owe a duty.

obligations.[19]

(2)

There are also compelling reasons why the Department of Labor's power to police employer compliance must be rejected as an alternative to audits by the plans themselves. Indeed, the structure of ERISA makes clear that Congress did not intend for government enforcement powers to lessen the responsibilities of plan fiduciaries.

First, the Department of Labor denies that it has the resources for policing the day-to-day operations of each multi-employer benefit plan in the Nation. The United States, as *amicus*, informs us that approximately 900,000 benefit plans file annual reports with the Secretary of Labor, and that between 11,000 and 12,000 of these are multiemployer plans. As the petitioners' situations illustrate, some multiemployer plans can be quite large. See n.1, *infra*. It is therefore not surprising that the United States argues that "[i]t is thus wholly unrealistic to suggest that centralizing all auditing authority in the Secretary would provide protection to benefit plan participants comparable to that afforded by trustee audits." Brief for United States as *Amicus Curiae* 20, n. 11.

Second, although ERISA grants the Secretary of Labor broad investigatory powers, see, *e.g.*, 29 U.S.C. §1134, neither the structure of the Act nor the legislative history show any congressional intent that plans should rely primarily on centralized federal monitoring of employer contribution requirements. Indeed, Congress expressly withheld from the Secretary the authority to initiate actions to enforce an employer's contribution obligations. See 29 U.S.C. §§1132(b)(2), 1145. In contrast, as we have noted, trustees were given the authority to sue to enforce an employer's obligations to a plan. §1132.

B

The Court of Appeals also challenged Central States' need for the audit because of the likelihood that covered employees would themselves come froward to assure that employers are making required contributions on their behalf. The court emphasized that participants could become aware of their status through the Act's reporting provisions. 698 F.2d, at 813 (citing 29 U.S.C. §1021). But although the reporting requirements are designed to assure that participants receive information about their status and rights, they do so by placing a reporting duty *on the plans*. Thus, to give participants initial notice of their status, the plans need to know the identities of participants. See nn. 14-15, *supra*, and accompanying text. That is, of course, precisely the information that Central States sought to verify in its requested audit.[20]

C

The Court of Appeals' remaining reason for questioning Central States' interest in the audit focused on the fact that a benefit plan would have an action against a delinquent employer should any benefit claims ever be made by a participant who had never been the subject of contributions. We reject the notion that the plan's ultimate ability to remedy an employer's breach of its obligations forecloses the plan from seeking to deter such breaches or to discover them early. Such a suggestion ignores the trustees' fiduciary duty to inform participants and beneficiaries of their rights, to gain immediate use of trust assets for the benefit of the trust, to avoid the time and expense of litigation, and to avoid unfunded liabilities that might eventually prove uncollectable as a result of insolvencies. For a plan passively to allow an employer to create such unfunded liabilities would jeopardize the participants' and beneficiaries' interests as well as those of all participating employers who properly comply with their obligations. See *Schneider*, 466 U.S., at ___, and n. 17.

The Court of Appeals argument obviously conflicts with one of the principal congressional concerns motivating the passage of the Act, that plans should assure themselves of adequate funding by promptly collecting employer contributions.[21] In ERISA, Con-

[19]In *Schneider* we not only concluded that compelling benefit plan reliance on union enforcement of trust obligations would have significant costs to the protections of ERISA, we also concluded that compelling such reliance would produce few benefits in terms of federal labor policies. For example, such policies as the presumption in favor of arbitrability derive in large part from the desire to promote alternatives to strikes, lockouts, and other exercises of economic power. But that goal has little relevance to the field of trust administration, where disputes between plans and practicipating employers do not normally have such results. 466 U.S., at ___, and n. 13.

[20]The Court of Appeals also questioned the importance of the audit's goal, speculating that the plan might simply be able to deny benefit claims of participants who had been notified of their status through the reporting requirement but had nevertheless taken no action to assure that their employers properly contributed on their behalf. 698 F. 2d, at 813. Obviously, this "estoppel argument" has the same flaw as the argument that a participant, once notified of his status, will come forward to identify himself: Before the plan can notify a participant of his status, it must have identified him, and such identification was the purpose of the requested audit.

In addition, however, the argument has other major problems. First, we note that the Labor Department has consistently taken the position that any pension plan document language denying benefits to a participant because of an employer's failure to make required contributions would violate ERISA and would thus be unenforceable. See n.7, *supra*. At a minimum, this means that Central States is reasonable in operating its audit program under the assumption that it would be liable for pension claims regardless of an employers failure to make required contributions. Second, the Court of Appeals did not contend that the reports Central States send to participants inform them of a burden of verifying their employer's contributions, or that the plan documents deny benefits on the basis of an employer's failure to make proper contributions. Thus, even if ERISA allowed a plan to operate in one of these manners, there has been no finding that the plans at issue here have done so.

[21]See Part III-C, *supra*.

[22]In the floor debate on the Multiemployer Pension Plan Amendments Act of 1980, Pub. L. 96-364, 94 Stat. 1208 [1980-2 C.B. 437], which amended ERISA to further protect the funding of multiemployer plans, one of the floor managers explained the problems some employers create for multiemployer plans by not fully and promptly complying with their contribution obligations:

"Failure of employers to make promised contributions in a timely fashion imposes a variety of costs on plans. While contributions remain unpaid, the plan loses the benefit of investment income that could have been earned if the past due amounts had been received and invested on time. Moreover, additional administrative costs are incurred in detecting and collecting delinquencies. Attorneys' fees and other legal costs arise in connection with collection efforts.

"These costs detract from the ability of plans to formulate or meet funding standards and adversely affect the financial health of plans. Participants and beneficiaries of plans as well as employers who honor their obligation to contribute in a timely fashion bear the heavier cost of delinquencies in the form of lower benefits and higher contribution rates. Moreover, . . . uncollected delinquencies can add to the unfunded liability for all employers." 126 Cong. Rec. 23039 (1980) (statement of Rep. Thompson).

gress sought to create a pension system in which "[a]ll current accruals of benefits based on current service . . . [would] be paid for immediately." H.R. Rep. No. 93-533, p. 14 (1973) [1974-3 C.B. 210, 223]. See generally 29 U.S.C. §1082. As the Reports accompanying the bills declared,

"The pension plan which offers full protection to its employees is one which is funded with accumulated assets which at least are equal to the accrued liabilities, and with a contribution rate sufficient to maintain that status at all times." *Id.*, at 7; S. Rep. No. 93-127, pp. 9-10 (1973) [1974-3 C.B. (Supp.) 9-10] (identical language).[22]

V

Given Congress' vision of the proper administration of employee benefit plans under ERISA, we have little difficulty holding that the audit requested by Central States is well within the authority of the trustees as outlined in the trust documents. But we should also specify what we do not hold. First, we do not hold that under ERISA a benefit plan's interests in fully identifying participants and beneficiaries *requires* that it conduct the sort of audit in question. This case involves only the trustees' *right* to conduct this particular kind of audit program, not their *duty* to do so. Second, we have no occasion to determine whether ERISA would independently confer on the trustees a right to perform the sort of audit demanded in this case in the face of trust documents that explicitly limit the audit powers of trustees. Cf. 29 U.S.C. §1104(a)(1)(D). Last, we have no occasion in this case to analyze what sort of factual showing would be necessary to a claim that a particular auditing program was being conducted in a manner that violated ERISA's fiduciary duties of loyalty or care. Although we do not question the proposition that the auditing powers of a benefit plan are limited to prudent actions furthering the legitimate purposes of the plan, there is no reason in ERISA or the plan documents of this case why the kind of audit requested here should, as a matter of law, be considered outside the scope of proper plan administration.[23]

The judgment of the Court of Appeals is accordingly reversed.

It is so ordered.

Section 414.—Definitions and Special Rules

Procedure for issuing determination letters covering the qualified plans of employers that are members of an affiliated service group under section 414(m) or employers that use leased employees under section 414(n). See Rev. Proc. 85-43, page 501.

Section 415.—Limitations on Benefits and Contributions Under Qualified Plans

26 CFR 1.415-1: General rules with respect to limitations on benefits and contributions under qualified plans.

Procedure for determining whether an employer that establishes or maintains a qualified plan is subject to the requirements of section 414(m) or 414(n) of the Code and satisfies the requirements for limitations on contributions and benefits under this section. See Rev. Proc. 85-43 page 501.

Section 416.—Special Rules for Top-Heavy Plans

Procedure for determining whether an employer that establishes or maintains a qualified plan is subject to the requirements of section 414(m) or 414(n) of the Code and satisfies the requirements for top-heavy plans under this section. See Rev. Proc. 85-43, page 501.

Section 417.—Definitions and Special Rules for Purposes of Minimum Survivor Annuity Requirements

26 CFR 1.417(e)-1T: Restrictions and valuations of distributions from plans subject to section 401(a)(11) (Temporary).

---

[21]We note that in this case, Central States has agreed to various limits on its audit so as not to exceed what would be reasonably appropriate for the service of the audit's legitimate purposes. See n. 5, *supra*. Central States does not dispute that its right to demand access to employer records does not reach beyond what is appropriate for the proper administration of the plans, and of course, a court ordering an employer to comply with a particular audit demand could, upon a proper showing by the employer, limit the auditors accordingly. *Cf. Central States, Southeast and Southwest Areas Pension Fund* v. *Theut Products*, Civ. No. 82-71080 (ED Mich. Oct. 21, 1982) (Cohn, D.J.) (reprinted in App. to Pet. for Cert. A-96) (ordering an employer to comply with a benefit plan's audit request but allowing the employer to withhold specific information that was not relevant to the audit's purposes and allowing the employer to restrict the auditors' ability to copy or disclose information where the auditors' did not need to do so).

Effective dates, transitional rules restrictio on distributions, and other issues arising und the Retirement Equity Act of 1984. See T. 8038, page 130.

Subpart D.—Treatment of Welfare Benefit Funds

Section 419A.—Qualified Asset Account; Limitation on Additions to Account

26 CFR 1.419A-2T: Qualified asset account lim tation for collectively bargained fund (Temporary)

T.D. 8034

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, PART 1—TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX REFORM ACT OF 1984

Treatment of Funded Welfare Benefit Plans

AGENCY: Internal Revenue Servic Treasury

ACTION: Temporary Regulations

SUMMARY: This document contai temporary regulations relating to we fare benefit funds maintained pursua to a collective bargaining agreemen This action is necessary because changes to the applicable law made the Tax Reform Act of 1984 [Pub. 98-369, 1985-3 C.B. (Vol. 1) 1]. T regulations provide guidance concer ing limits on contributions to and serves of a welfare benefit fund mai tained pursuant to a collecti bargaining agreement. The text of t temporary regulations set forth in th document also serves as the text of t proposed regulations cross-referenc * * * [on page 761, this Bulletin].

DATES: The temporary regulations a ply to contributions paid or accrued a ter December 31, 1985.

FOR FURTHER INFORMATIO CONTACT: John T. Ricotta of t Employee Plans and Exempt Organiz tions Division, Office of Chief Cou sel, Internal Revenue Service, 11 Constitution Ave., N.W., Washingto D.C. 20224 (Attention: CC:EE) (20 566-4396 (not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains temporary regulations relating to limits on contributions to and the reserves of welfare benefit funds maintained pursuant to a collective bargaining agreement under section 419A(f)(5) of the Internal Revenue Code of 1954 (Code), as added to the Code by section 511 of the Tax Reform Act of 1985 (26 U.S.C. §419A) [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1, 362]. The temporary regulations will remain in effect until superseded by final regulations on this subject.

FORMAT

These temporary regulations are presented in the form of questions and answers. Taxpayers may rely on them for guidance pending the issuance of final regulations. No inference should be drawn regarding issues not expressly raised, or by the inclusion or exclusion of certain questions.

Written comments are requested regarding current funding practices and requirements of collectively bargained welfare benefit funds, and the need for special rules in selected situations, such as for collectively bargained funds maintained by employers in declining industries. In addition, comments by employers in declining industries. In addition, comments are requested regarding appropriate rules for allocating the assets of a welfare benefit fund between employees covered by a collective bargaining agreement and other employees.

NONAPPLICABILITY OF EXECUTIVE ORDER 12291

The Treasury Department has determined that this regulation is not subject to review under Executive Order 12291.

REGULATORY FLEXIBILITY ACT

No general notice of proposed rulemaking is required by 5 U.S.C. 553(b) for temporary regulations. Accordingly, the Regulatory Flexibility Act does not apply and a Regulatory Impact Analysis is not required for this rule.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Part 1 is amended as follows:

Paragraph 1. These amendments to Part 1 are issued under the authority contained in 26 U.S.C. §7805. The authority citation for Part 1 is unchanged.

Paragraph 2. A new §1.419A-2T is added immediately following §1.416-1 to read as follows:

§1.419A-2T Qualified asset account limitation for collectively bargained funds. (Temporary)

Q-1: What account limits apply to welfare benefit funds that are maintained pursuant to a collective bargaining agreement.

A-1: Contributions to a welfare benefit fund maintained pursuant to one or more collective bargaining agreements and the reserves of such a fund generally are subject to the rules of sections 419, 419A, and 512. However, neither contributions to nor reserves of such a collectively bargained welfare benefit fund shall be treated as exceeding the otherwise applicable limits of section 419(b), 419A(b), or 512(a)(3)(E) until the earlier of: (i) the date on which the last of the collective bargaining agreements relating to the fund in effect on, or ratified on or before, the date of issuance of final regulations concerning such limits for collectively bargained welfare benefit funds terminates (determined without regard to any extension thereof agreed to after the date of issuance of such final regulations), or (ii) the date 3 years after the issuance of such final regulations.

Q-2: What is a welfare benefit fund maintained pursuant to a collective bargaining agreement for purposes of Q&A-1?

A-2: (1) For purposes of Q&A-1, a collectively bargained welfare benefit fund is a welfare benefit fund that is maintained pursuant to an agreement which the Secretary of Labor determines to be a collective bargaining agreement and which meets the requirements of the Secretary of Treasury as set forth in paragraph 2 below.

(2) Notwithstanding a determination by the Secretary of Labor that an agreement is a collective bargaining agreement, a welfare benefit fund is considered to be maintained pursuant to a collective bargaining agreement only if the benefits provided through the fund were the subject of arms-length negotiations between employee representatives and one or more employers, and if such agreement between employee representatives and one or more employers satisfies section 7701(a)(46) of the Code. Moreover, the circumstances surrounding a collective bargaining agreement must evidence good faith bargaining between adverse parties over the welfare benefits to be provided through the fund. Finally, a welfare benefit fund is not considered to be maintained pursuant to a collective bargaining agreement unless at least 50 percent of the employees eligible to receive benefits under the fund are covered by the collective bargaining agreement.

(3) In the case of a collectively bargained welfare benefit fund, only the portion of the fund (as determined under allocation rules to be provided by the Commissioner) attributable to employees covered by a collective bargaining agreement, and from which benefits for such employees are provided, is considered to be maintained pursuant to a collective bargaining agreement.

(4) Notwithstanding the preceding paragraphs and pending the issuance of regulations setting account limits for collectively bargained welfare benefit funds, a welfare benefit fund will not be treated as a collectively bargained welfare benefit fund for purposes of Q&A-1 if and when, after July 1, 1985, the number of employees who are not covered by a collective bargaining agreement and are eligible to receive benefits under the fund increases by reason of an amendment, merger, or other action of the employer or the fund. In addition, pending the issuance of such regulations, for purposes of applying the 50 percent test of paragraph (2) to a welfare benefit fund that is not in existence on July 1, 1985, "90 percent" shall be substituted for "50 percent".

There is a need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue this Treasury decision with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

M. EDDIE HEIRONIMUS,
Acting Commissioner of Internal Revenue.

Approved June 28, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on July 1, 1985, 8:45 a.m., and published in the issue of the Federal Register for July 3, 1985, 50 F.R. 27427).

26 CFR 1.446-1(e): Requirement respecting the adoption or change of accounting method.
(Also Sections 166, 381, 585, 593; 1.166-4, 1.381(c)(4)-1, 1.585-1, 1.593-1.)

Accounting methods; change; bad debt reserves; section 481 adjustment. The integration under section 381(c)(4) of the Code of a distressed thrift institution's bad debt reserve computed under section 593 into an acquiring commercial bank's bad debt reserve computed under section 585 results in a change in method of accounting. Therefore, an adjustment under section 481(a) is required. Rev. Ruls. 75-445 and 79-123 distinguished.

Rev. Rul. 85-171

ISSUE

Does the integration under section 381(c)(4) of the Internal Revenue Code of a distressed thrift institution's bad debt reserve, computed under section 593, into an acquiring commercial bank's bad debt reserve, computed under section 585, result in a change in method of accounting, thereby necessitating a section 481(a) adjustment?

FACTS

BK is a commercial bank to which section 585 of the Code applies. *BK* maintains a bad debt reserve for its mortgage and other loans in accordance with section 585, making annual additions to the reserve as permitted by that section. *T* is a thrift institution to which section 593 applies. *T* maintains a bad debt reserve for its mortgage and other loans in accordance with section 593, making annual additions to the reserve as permitted by that section. On January 2, 1984, *T* merged into *BK*. The merger of *T* into *BK* qualified as a reorganization under section 368(a)(1)(G) and (a)(3)(D)(ii). After the reorganization, *BK*'s original business and that acquired from *T* were operated by *BK* as an integrated commercial bank business.

LAW AND ANALYSIS

Section 446(a) of the Code provides the general rule for methods of accounting. Section 1.446-1(a)(1) of the Income Tax Regulations states that the term "method of accounting" includes not only the over-all method of accounting of the taxpayer but also the accounting treatment of any item. Section 1.446-1(e)(2)(ii)*(a)* states that a change in the method of accounting includes a change in the overall plan of accounting for gross income or deductions or a change in the treatment of any material item used in such overall plan. Section 1.446-1(e)(2)(ii)*(a)* provides further that a "material item" is any item that involves the proper time for the inclusion of the item in income or the taking of a deduction. Section 1.446-1(e)(2)(ii)*(b)* states that a change in the method of accounting does not include an adjustment with respect to the addition to a reserve for bad debts.

Section 166(a) of the Code allows a deduction for any debt that becomes worthless during the taxable year. Section 166(c) states that in lieu of any deduction under subsection (a), there shall be allowed (in the discretion of the Secretary) a deduction for a reasonable addition to a reserve for bad debts. Section 166(g)(3) provides a cross reference to section 593 with respect to special rules for bad debt reserves of certain mutual savings banks, domestic building and loan associations, and cooperative banks, and section 166(g)(4) provides a cross reference to section 585 with respect to special rules for bad debt reserves of banks.

Section 585(b)(1) of the Code provides that, for purposes of section 166(c), the reasonable annual addition to the reserve for bad debts of any financial institution to which such section applies is computed by either the percentage method provided by section 585(b)(2) or the experience method provided by section 585(b)(3). The percentage method is based on "eligible loans" (as defined in the Code and regulations); the experience method is based on "loans outstanding" as so defined. For purposes of computing the reserve addition, there is no maximum reserve balance under the experience method; however, under the percentage method the maximum reserve is 1.2 percent of eligible loans in taxable years beginning after 1975 but before 1982; 1 percent of eligible loans for 1982; and .6 percent thereafter through 1987 (when use of the percentage method ceases).

Section 593(b) of the Code provides that, for purposes of section 166(c), the reasonable annual addition to the bad debt reserve shall be an amount equal to the sum of a reserve for nonqualifying loans plus a reserve for

qualifying real property loans. Section 593(b)(1)(A) provides that the allowable annual addition to the bad debt reserve for nonqualifying loans (loans other than qualifying real property loans) is determined under the experience method for banks provided by section 585(b)(3). The addition for qualifying real property loans, as defined in section 593(d), may be computed under either the experience method for banks provided by section 585(b)(3), the percentage method for banks provided by section 585(b)(2) as adjusted by section 593(b)(3), or the percentage of taxable income method for thrift institutions provided by section 593(b)(2). While section 593(b)(2)(A) provides that the applicable percentage for the percentage of taxable income method for 1979 and later years is 40 percent, section 593(b)(2)(D) provides that the maximum reserve balance under such method is 6 percent of qualifying real property loans outstanding at the close of the taxable year.

Section 381(c)(4) of the Code provides that the acquiring corporation in a reorganization to which section 368(a)(1) applies shall use the method of accounting used by the transferor corporation unless several transferors or the acquiring corporation and a transferor used different methods. In that event, the method or combination of methods shall be prescribed by regulations. Section 1.381(c)(4)-1(b)(2) of the regulations provides that if, after a reorganization, the businesses of the parties to the transaction are operated as separate and distinct businesses, then the method of accounting employed by each business shall be continued. But if, after the reorganization, any of the businesses is not operated as a separate and distinct business, to the extent that different methods of accounting were employed on the date of the reorganization, the principal method of accounting employed shall be used, provided it can be used and clearly reflects income. See section 1.381(c)(4)-1(b)(3) and (c).

Section 1.381(c)(4)-1(a)(1)(ii) of the regulations states that the acquiring corporation shall take into its accounts the dollar balances of those accounts of the transferor corporation that represent reserves in respect of which the transferor has taken a deduction. However, this same paragraph of the regulations also states that the amount of the adjustments necessary to reflect a change of accounting method, the manner in which they are to be taken into account, and the tax attributable thereto shall be determined under section 481 of the Code.

In the present situation, prior to the reorganization *BK* maintained a bad debt reserve in accordance with section 585 of the Code and *T* maintained a bad debt reserve in accordance with section 593. After the reorganization, *BK* continued to operate its business and that acquired from *T* as an integrated commercial bank business. Since *BK* is not qualified to conduct business as a thrift institution, *BK* is not permitted to use the bad debt reserve method provided by section 593. Hence, for the mortgage and other loans acquired from *T*, *BK* will be required, because of the change of business, to shift from computing bad debt reserves and additions under section 593 of the Code to computing them under section 585.

Section 1.381(c)(4)-1(c)(1) of the regulations provides that when an acquiring corporation must use a different method of accounting for an acquired business than its transferor did, the adjustments necessary to reflect such change and any resulting increase or decrease in tax are determined as if the transferor had initiated a change of accounting method, and any consequent increase or decrease in tax is taken into account by the acquiring corporation.

Rev. Rul. 75-445, 1975-2 C.B. 74, concludes that changing from the percentage method to the experience method within section 585 of the Code is not a change in method of accounting, but that the reserve method described in section 585 is a method of accounting. Rev. Rul. 79-123, 1979-1 C.B. 215, concludes that changing from the percentage of loans method to either the percentage of taxable income method or the experience method within section 593 of the Code are not changes in methods of accounting. However, the reserve method described in section 593 is a method of accounting.

Section 1.446-1(e)(2)(ii)*(a)* of the regulations provides that a change in the method of accounting includes a change in the overall plan of accounting for gross income or deductions or a change in the treatment of any material item used in such overall plan. This same regulation defines a "material item" as any item that involves the proper time for the inclusion of the item in income or the taking of a deduction.

A change from the method of estimating a reasonable addition to a bad debt reserve under section 593 of the Code (thrift) to the method of estimating that addition under section 585 (bank) is a change in the treatment of a material item and therefore is a change in method of accounting because it affects the proper time of taking a deduction. *See* section 1.446-1(e)(2)(ii) of the regulations. It affects the proper time of taking a deduction because it determines the amount of the deduction, both in the current year and in future years, and the amounts deductible under the two methods are not the same.

Section 1.446-1(e)(2)(ii)*(b)* of the regulations, which provides that a change of accounting method does not include an adjustment with respect to the addition to a reserve for bad debts, is not applicable in the present situation. That statement is made in the context of changes that do not alter the method of accounting itself (such as a change in the useful life of a depreciable asset) and relates only to an adjustment in computing the annual addition for bad debts that corrects differences between prior estimates of bad debt experience and actual bad debt experience. Such corrections have traditionally been treated as self-adjusting in the current year. *See* section 1.166-4(b)(2).

HOLDING

The integration under section 381(c)(4) of the Code of a distressed thrift institution's bad debt reserve computed under section 593 of the Code into an acquiring commercial bank's bad debt reserve computed under section 585 results in a change in method of accounting, thereby necessitating a section 481(a) adjustment.

EFFECT ON
OTHER DOCUMENTS

Rev. Rul. 75-445 and Rev. Rul. 79-123 are distinguished.

Subpart C.—Taxable Year for Which Deductions Taken

Section 465.—Deductions Limited to Amount at Risk

(Also Section 616; 26 CFR 1.616-1.)

Deductions; losses; amount at risk; mining development. An investor is not at risk for a note that may be satisfied by transferring to the creditor property derived from the mining activity without any obligation that the investor pay the difference if the value of the property is less than the amount due on the note.

Rev. Rul. 85-113

ISSUE

Is an investor at risk within the meaning of section 465 of the Internal Revenue Code for amounts borrowed under the circumstances described below?

FACTS

In 1983 *X* corporation offered to sell to investors the rights to mine units consisting of a specific number of cubic yards of ore which purportedly contained precious metals. The cost of the mining rights for each unit was 7*x* dollars plus 35 percent of the precious metals recovered from the ore.

Each investor could mine the investor's own unit of ore or hire *Z* to perform these services. *Z* offered to develop each ore site for a cost of 60*x* dollars and to mine and process the ore in return for 20 percent of each of the precious metals recovered from the ore.

In order to help investors finance the cost of the mining development, *X* arranged with its affiliate, *Y*, to lend each investor 52*x* dollars for each unit acquired. Each note is payable in 5 years with 14 percent interest. The note purports to make the investors personally liable for the payment of principal and interest on the note. Each investor, however, has the option to assign to *Y* a right to 22 percent of the precious metals extracted from the investor's unit in full payment of the note.

In the promotional materials, *X* represented that the units of ore contained commercially marketable quantities of various precious metals. During 1983 *A* paid *X* 7*x* dollars in partial consideration for the purchase of mining rights to one unit of ore. *A* borrowed 52*x* dollars from *Y* and used those funds together with 8*x* dollars of A's own money to pay *Z* for the mining development expenses. During 1983 *Z* notified *A* that the mining development on *A*'s site had been completed. *A* did not have any income from the mining activity during 1983. On *A*'s federal income tax return for 1983, *A* claimed a 60*x* dollar deduction for mining development expenditures under section 616(a) of the Code.

LAW AND ANALYSIS

Section 616(a) of the Code provides that except where the taxpayer elects otherwise as provided in section 616(b), there shall be allowed as a deduction in computing taxable income all expenditures paid or incurred during the taxable year for the development of a mine or other natural deposit (other than an oil or gas well) if paid or incurred after the existence of ores or minerals in commercially marketable quantities has been disclosed.

Section 465(a)(1) of the Code provides that in the case of an individual engaged in an activity to which the section applies, any loss from the activity for the taxable year shall be allowed only to the extent of the aggregate amount with respect to which the taxpayer is at risk (within the meaning of subsection (b)) for the activity at the close of the taxable year.

Section 465(b)(1) of the Code provides that the amounts for which a taxpayer is considered at risk for an activity include the amount of money and the adjusted basis of other property contributed by the taxpayer to the activity, and amounts borrowed with respect to the activity (as determined under section 465(b)(2)). Section 465(b)(2) provides that a taxpayer shall be considered at risk with respect to amounts borrowed for use in an activity to the extent that the taxpayer is personally liable for the repayment of the amounts or has pledged property, other than property used in the activity, as security for the borrowed amount (to the extent of the net fair market value of the taxpayer's interest in the property).

In the present situation *A* claims to be personally liable on the note to *Y*. *A*, however, has the option of completely satisfying all obligations on the note by transferring to *Y* a right to 22 percent of the precious metals extracted from *A*'s unit of ore. If the value of this right when the note becomes due is less than the balance due on the note, *A* will have no obligation to pay *Y* the difference. Under these circumstances, the note in reality is a nonrecourse obligation secured solely by a right to property derived from the activity. Thus, *A* is not at risk with respect to the 52*x* dollars borrowed from *Y*.

HOLDING

A is not at risk within the meaning of section 465 of the Code, for the 52*x* dollars borrowed from *Y*. *A*'s at risk amount at the end of 1983 is 15*x* dollars, representing the 7*x* dollars paid to *X* for the mining rights and the 8*x* dollars of *A*'s funds paid to *Z* for the mining development.

ul. 85-172

v a newly-formed corporation oods obtained in a bulk purchase diately after its incorporation as ng inventory if it elects the last-in, first-out (LIFO) method of valuing inventory?

FACTS

Corporation *X* was incorporated on June 27, 1982, and elected to use the calendar year as its annual accounting period. Immediately after its incorporation, *X* made a bulk purchase of inventory from an unrelated corporation. *X* elected to use the LIFO method to value all its inventory beginning with its first year of operation. In addition, *X* elected to value incremental increases by reference to most recent purchases.

LAW AND ANALYSIS

Section 472(a) of the Internal Revenue Code authorizes a taxpayer to use the LIFO method of inventory valuation described in section 472(b).

Section 472(b) describes the LIFO method, under which, in inventorying goods the taxpayer shall: (1) Treat those goods remaining on hand at the close of the taxable year as being: First, those included in the opening inventory of the taxable year (in the order of acquisition) to the extent thereof; and second, those acquired in the taxable year; (2) Inventory them at cost; and (3) Treat those included in the opening inventory of the taxable year in which such method is first used as having been acquired at the same time and determine their cost by the average cost method.

Section 1.472-2 of the Income Tax Regulations conditions the adoption and use of LIFO on certain requirements. Under section 1.472-2(b) the inventory must be taken at cost regardless of market value. Section 1.472-2(c) provides that goods of the specified type included in the opening inventory of the taxable year for which the method is first used shall be considered as having been acquired at the same time and at a unit cost equal to the actual cost of the aggregate divided by the number of units on hand. The actual cost of the aggregate shall be determined pursuant to the inventory method employed by the taxpayer under the regulations applicable to the prior taxable year, with the exception that restoration shall be made with respect to any writedown to market values resulting from the pricing of former inventories. Section 1.472-2(d) provides that goods of the specified type on hand as of the close of the taxable year, in excess of what were on hand as of the beginning of the taxable year, shall be included in the closing inventory, regardless of identification with specific invoices and regardless of specific cost accounting records, at costs dependent upon the character of the tax in which the taxpayer is engaged.

Section 1.472-2(d)(1)(i) of the regulations lists the methods taxpayers may use to determine the value of an incremental increase. An incremental increase occurs when the goods on hand at the close of a tax year exceed the opening inventory. An incremental increase may be valued by reference to (a) most recent purchases, (b) order of acquisition, (c) average cost, or (d) any other method which, in the opinion of the Commissioner, clearly reflects income. If corporation *X* had elected to value incremental increases by reference to the "order of acquisition" instead of the "most recent purchases," the cost of the bulk purchase would be the first cost included in any increment. However, since corporation *X* elected to value incremental increases by reference to the "most recent purchases," the cost of the bulk purchase will be the last cost included in any increment. Two examples of the differences that result from the application of the various methods of valuing in incremental increase are presented in section 1.472-2(d)(1)(i) of the regulations.

Rev. Rul. 70-564, 1970-2 C.B. 109, states that a newly-formed corporation receiving LIFO inventory in a transaction to which section 351 applies, shall treat such inventory as its opening inventory for LIFO purposes, and shall determine its cost using the average cost method pursuant to section 472(b)(3). Rev. Rul. 70-564 states that because the taxpayer received the inventory in a tax free transfer under section 351, section 362(a) is applicable. Under section 362(a)(1), the inventories acquired by the newly-formed corporation retain the same basis with that corporation that they had in the hands of the transferor corporation. The effect of Rev. Rul. 70-564 is to place the inventory transferred under section 351 to a newly-formed corporation in the category of opening inventory, rather than

categorizing it as an acquisition of inventory during the year.

Section 472(a)(1) of the Code and section 1.472-1(a) of the regulations distinguish between those goods in opening inventory and those acquired in the taxable year, stating that for purposes of the LIFO computation, inventory remaining on hand at the close of the taxable year shall be treated as being: first, those included in the opening inventory of the taxable year (in the order of acqui ition) to the extent thereof; and second, those acquired in the taxable year. This language is essentially the same as the language of the Committee on Finance in considering the 1939 amendments to section 472 (then section 22(d)). S. Rep. No. 648, 76th Cong., 1st Sess. 6-7 (1949), 1939-2 C.B. 524, 528. The report of the Committee on Finance further stated, parenthetically, their understanding that opening inventory constitutes the closing inventory of the previous year. Thus, as in the instant case, when there is no closing inventory in the previous year there is no opening inventory for the next year.

For purposes of LIFO computations all purchases of inventory in a taxable year are treated as acquisitions in the taxable year, and opening inventory constitutes the closing inventory of the previous year. Exceptions are provided, as in Rev. Rul. 70-564, where there are tax-free transfers instead of outright purchases.

In this case, *X* acquired inventory by a bulk purchase from an unrelated corporation rather than by a section 351 tax free transfer. This purchase is more than a mere change in the form of ownership and *X* does not retain the transferor's basis in the inventory. Thus, the rationale for having the ending inventory of the transferor treated as the opening inventory of the transferee in Rev. Rul. 70-564 is not present here.

HOLDING

A newly-formed corporation may not treat goods obtained in a bulk purchase immediately after its incorporation as opening inventory when it elects the LIFO method to value inventory, but must treat them as goods acquired in the taxable year.

EFFECT ON
OTHER DOCUMENTS

Rev. Rul. 70-564 is distinguished.

---

26 CFR 1.472-1: Last-in, first-out inventories

LIFO; price indexes; department stores. The March 1985 Bureau of Labor Statistics price indexes are accepted for use by department stores employing the retail inventory and last-in, first-out inventory methods for valuing inventories for tax years ended on, or with reference to, March 31, 1985.

Rev. Rul. 85-108

The following price indexes for March 1985 were issued by the Bureau of Labor Statistics on April 25, 1985, for use by department stores, and are accepted by the Internal Revenue Service, under section 1.472-1(k) of the Income Tax Regulations and Rev. Proc. 72-21, 1972-1 C.B. 745, for appropriate application of inventories of department stores employing the retail inventory and last-in, first-out inventory methods for tax years ended on, or with reference to, March 31, 1985.

Indexes are prepared on a national basis for the store total, for 20 major groups of departments, and for two special combinations—soft and durable goods. The store total index covers all departments, including some not listed separately, with the following exceptions: candy, foods, liquor, tobacco, paints, and wallpaper, as well as contract departments.

26 CFR 1.472-1: Last-in, first-out inventories

LIFO; price indexes; department stores. The April 1985 Bureau of Labor Statistics price indexes are accepted for use by department stores employing the retail inventory and last-in, first-out inventory methods for valuing inventories for tax years ended on, or with reference to, April 30, 1985.

Rev. Rul. 85-128

The following price indexes for April 1985 were issued by the Bureau of Labor Statistics on May 23, 1985, for use by department stores, and are accepted by the Internal Revenue Service, under section 1.472-1(k) of the Income Tax Regulations and Rev. Proc. 72-21, 1972-1 C.B. 745, for appropriate application to inventories of department stores employing the retail inventory and last-in, first-out inventory methods for tax years ended on, or with reference to, April 30, 1985.

Indexes are prepared on a national basis for the store total, for 20 major groups of departments, and for two special combinations—soft and durable goods. The store total index covers all departments, including some not listed separately, with the following exceptions: candy, foods, liquor, tobacco, paints , and wallpaper, as well as contract departments.

26 CFR 1.472-2: Requirements incident to adoption and use of LIFO inventory method.

LIFO; conformity requirements. A taxpayer may use the specific goods method of inventory pricing under the last-in, first-out (LIFO) inventory method for financial reporting purposes and the dollar-value method of pricing inventories under the LIFO inventory method for federal income tax purposes without violating the conformity requirements of section 472(c) and (e) of the Code.

Rev. Rul. 85-129

ISSUE

May a taxpayer using the last-in, first-out (LIFO) method to inventory goods use the dollar-value method to compute the value of its inventory for federal income tax purposes and the specific goods method to compute the value of its inventory for financial reporting purposes, without violating the conformity requirements of section 472(c) and 472(e) of the Internal Revenue Code?

FACTS

The taxpayer, a domestic corporation, has used the specific goods method of pricing inventories under the LIFO inventory method for a number of years. For the tax year ended December 31, 1981, the taxpayer received permission from the Commissioner of Internal Revenue to change its specific goods method of pricing to the dollar-value method of pricing under the LIFO inventory method.

The taxpayer, for its tax year ended December 31, 1981, used the specific goods method of pricing inventories under the LIFO inventory method for its financial statements issued as part of its annual report. The taxpayer used the dollar-value method of pricing inventories under the LIFO inventory method for federal income tax purposes for that year.

The issue is whether the use of t specific goods method for financial porting and the dollar-value method federal income tax purposes violat the conformity requirements of secti 472(c) and 472(e) of the Code.

LAW AND ANALYSIS

Section 472(b)(1) of the Code p vides that, in adopting the LIFO inv tory method, goods in the ending ventory shall be treated as compos first of goods included in the openi inventory (in the order of acquisitio to the extent thereof and then of goo acquired in the tax year. Secti 472(b)(3) provides that goods in t opening inventory for the tax year adoption shall be treated as havi been acquired at the same time a their costs determined under the av age cost method. Section 472(b)(2) quires a taxpayer to value its invento at cost. There are two methods for d termining the cost of inventories und

the LIFO inventory method; the specific goods method and the dollar-value method. The specific goods method is described in section 1.472-1 of the Income Tax Regulations and the dollar-value method is described in section 1.472-8.

Section 472(c) of the Code provides that a taxpayer must not have used any procedure other than the LIFO procedure in inventorying goods included within the LIFO election to ascertain the income, profit, or loss of the first tax year it uses the LIFO method for the purpose of reports to shareholders, proprietors, beneficiaries or creditors.

Section 472(e) of the Code imposes substantially the same requirements as section 472(c) on subsequent taxable years and authorizes the Secretary of the Treasury to require the taxpayer to change to another method of inventory identification and valuation when this requirement has not been met.

Section 1.472-2(e)(1) of the regulations requires that taxpayers must establish to the satisfaction of the Commissioner that the taxpayer, in ascertaining the income, profit, or loss for the tax year for which the LIFO inventory method is first used, or for any subsequent tax year, for credit purposes or for purposes of reports to shareholders, partners, or other proprietors, or to beneficiaries, has not used any inventory method other than that referred to in section 1.472-1 (LIFO inventory method) or at variance with the requirement referred to in section 1.472-2(c).

Section 1.472-2(e)(1) of the regulations describes in subparagraphs (i) through (viii) situations that are not considered at variance with the requirements of paragraph (e)(1). The subparagraph relevant to the taxpayer's situation is (vi). Section 1.472-2(e)(1)(vi) provides that a taxpayer may use a costing method or accounting method to ascertain income, profit, or loss for credit purposes or for purposes of financial reports if such costing method or accounting method is either inconsistent with the inventory method referred to in section 1.472-1 (LIFO inventory method) nor at variance with the requirement referred to in section 1.472-2(c), regardless of whether such costing method or accounting method is used by the taxpayer for federal income tax purposes. The specific goods method is the method referred to in section 1.472-1. Section 1.472-2(e)(1)(vi) refers to section 1.472-2(e)(8) for examples of such costing methods and accounting methods; however, the examples are not all-inclusive.

The conformity requirement of section 472 of the Code states that a taxpayer using the LIFO inventory method for federal income tax purposes may not use a method other than the LIFO method for financial reporting or other purposes. The taxpayer's continued use of the specific goods method of pricing for financial reporting purposes is the use of the LIFO method.

HOLDING

The taxpayer may use the dollar-value method of pricing under the LIFO inventory method for federal income tax purposes and continue to value its LIFO inventories on the specific goods method for financial reporting purposes without violating the conformity requirements of section 472(c) and 472(e) of the Code.

---

26 CFR 1.472-6: Change from LIFO inventory method.

Procedures are provided for taxpayers that use the LIFO inventory method of accounting and that issued nonconforming financial statements under section 472(g) of the Code to automatically discontinue the use of the LIFO inventory method for their first tax year beginning on or after July 18, 1984. See Rev. Proc. 85-54, page 734.

---

26 CFR 1.472-8: Dollar-value method of pricing LIFO inventories.
(Also Section 351.)

Inventories; LIFO; transferor corporation; basis. A corporation using the dollar-value LIFO inventory method that transfers a portion of its inventories to a subsidiary in a nontaxable transaction must compute its basis in the inventories transferred in accordance with the procedures established in section 1.472-8(g)(2) of the regulations.

Rev. Rul. 85-176

ISSUE

How does a corporation that uses the dollar-value last-in, first-out (LIFO) inventory method and that transfers a portion of its inventories in a nontaxable exchange under section 351 of the Internal Revenue Code compute its basis in the inventories transferred.

FACTS

X corporation, a calendar year taxpayer, manufactures product *A*. *X* elected, in 1976, to determine the cost of its entire inventory using the dollar-value LIFO method and one natural business unit pool.

On June 5, 1983, for valid business reasons, *X* transferred one-half of its production plant to *Y*, a newly organized subsidiary, in a nontaxable exchange under section 351(a) of the Code. Included in the assets transferred to *Y* was one-half of the inventories with respect to which *X* used the dollar-value LIFO inventory method. The question presented is whether the basis of the transferred LIFO inventory is determined by reference to the current year costs (horizontal slice), or on a pro rata basis (vertical slice) which takes into account a portion of the base-year layer and subsequent yearly increments.

LAW AND ANALYSIS

Section 472(a) of the Code authorizes taxpayers to use the LIFO method of inventorying goods. It also requires the promulgation of regulations to insure that use of the LIFO method will clearly reflect income.

Section 472(b)(1) of the Code requires taxpayers using the LIFO inventory method to treat goods "remaining on hand at the close of the taxable year as being: First, those included in the opening inventory of the taxable year (in the order of acquisition) to the extent thereof; and second, those acquired in the taxable year . . ." The LIFO method of pricing inventories is based upon an assumption about the flow of costs: the latest price paid for an item is reflected in the cost of goods sold.

Section 1.472-8 of the Income Tax Regulations defines the dollar-value method of valuing LIFO inventories. Under this method, inventories are grouped into pools and valued by using a base-year cost expressed in terms of total dollars rather than using the quantity and price of specific goods as the unit of measurement. Any taxpayer that elects the LIFO inventory method may also elect to determine the cost of its LIFO inventories under the dollar-value method, provided the dollar-value

method is used consistently and clearly reflects the income of the taxpayer in accordance with the rules of section 1.472-8.

Section 1.472-8(b) of the regulations provides guidelines for the use of natural business unit pools by manufacturers. A natural business unit ordinarily consists of the entire productive activity of the enterprise; that is, raw materials, goods in process, and finished goods.

Section 1.472-8(e)(2)(iv) of the regulations provides that to determine whether there is an increment or liquidation in a pool for a particularly taxable year, the end of the year inventory of the pool expressed in terms of base-year cost is compared with the beginning of the year inventory of the pool expressed in terms of base-year cost. If, at the end of a taxable year, the ending inventory of a pool is less than the opening inventory of the pool, a liquidation has occurred. The liquidation is reflected by reducing the most recent layer of increment by the excess of the beginning of the year inventory over the end of the year inventory of the pool. When the amount of the liquidation exceeds the amount of the most recent layer of increment, the preceding layers of increment in reverse chronological order are successively reduced by the amount of such excess until all the excess is absorbed.

Section 1.472-8(g)(2) of the regulations provides a procedure for combining or separating dollar-value pools. When dollar-value pools are separated, the base-year and LIFO layers of increment are separated on a pro rata basis. Thus, each yearly layer of increment in the divided pool is separately accounted for in the new pools, and any liquidation occurring in the new pools after their formation is treated as if the pools had existed from the date the taxpayer first adopted the LIFO method.

Section 351 of the Code provides that no gain or loss shall be recognized if property is transferred to a corporation solely in exchange for its stock or securities, and if the transferor or transferors control the corporation immediately after the exchange. The premise of section 351 is that a transfer of property to a corporation controlled by the transferor works a change of form only and is not an appropriate time for the transferor to recognize gain or loss on the transferred property. If a transaction qualifies under section 351, the basis of the stock received by a transferor is the same as the basis of the property given up, under section 358, and the transferee corporation's basis for the property is the same as was the transferor's, under section 362.

Rev. Rul. 70-565, 1970-2 C.B. 110, discusses the treatment of the basis of transferred LIFO inventory in a transaction that qualifies under section 351 of the Code when both transferor and transferee are using the LIFO inventory method. Rev. Rul. 70-565 holds that a corporation using the LIFO inventory method that acquires LIFO inventories in a nontaxable exchange under section 351(a) is required to integrate the basis of the LIFO inventories acquired into its own corresponding LIFO layers using the acquisition dates and costs of the transferor. The rationale for the holding is that, since the underlying purpose of the LIFO method of inventory accounting is to match current income with current costs, the inventory received through a nontaxable contribution to capital does not represent current costs to the transferee and the use of the date of transfer as the acquisition cost date would undercut the underlying assumption of the LIFO method. Therefore, the transferee is required to integrate the transferor's LIFO layers into its own corresponding layers. *See also, Commissioner v. Joseph E. Seagram & Sons, INc.*, 394 F.2d 738 (2nd Cir. 1968), *reversing* 46 T.C. 698 (1966).

In this case, the pro rata division of the base-year costs and subsequent yearly increments under the provisions of section 1.472-8(g)(2) of the regulations would be consistent with the underlying purpose of the LIFO inventory method. Thus, the concept of matching current income with current costs under the LIFO method of inventory accounting is satisfied. The use of any other method to compute the portion of inventories transferred in a nontaxable exchange under section 351 of the Code would inappropriately treat the nontaxable transaction as if it were another sale of goods out of inventory.

If the transferee, *(Y)* in this situation, desires to adopt the LIFO method for the acquired inventory, the transferee must file Form 970 and determine opening inventory by the average cost method. Rev. Rul. 70-564, 1970-2 C.B. 109.

HOLDING

A corporation that uses the dollar-value LIFO inventory method and transfers a portion of its inventories in a nontaxable exchange under section 351 of the Code must compute its basis in the inventories transferred using a pro rata (vertical) division of the base-year and subsequent yearly incremental costs in accordance with the procedures established in section 1.472-8(g)(2) of the regulations.

Part III.—Adjustments

Section 481.—Adjustments Required by Changes in Methods of Accounting

26 CFR 1.481-1: Adjustments in general. (Also Section 446; 1.446-1.)

Accounting methods; incorporation of partnership's business after change; treatment of unamortized section 481(a) adjustment. When one of the two trades or businesses of a partnership is incorporated, the partnership is required to accelerate the portion of an unamortized section 481(a) adjustment applicable to that trade or business. Rev. Ruls. 77-264 and 80-39 amplified.

Rev. Rul. 85-134

ISSUE

When one of the two trades or businesses of a partnership is incorporated, is the partnership *(PRS)* required to accelerate the portion of an unamortized adjustment under section 481(a) of the Internal Revenue Code applicable to that trade or business?

FACTS

PRS commenced business in 1965 and established two separate businesses, a "professional" business and a "technical" business. As a result of expansion, *PRS*'s accounts receivable and liabilities increased and *PRS* determined that the cash receipts and disbursements method of accounting no longer properly reflected its activities. Therefore, *PRS* applied for and received permission to change its method of accounting for federal income tax

purposes to an accrual method for its tax year ended March 31, 1980. The ruling letter issued by the Internal Revenue Service stated that the adjustment required under section 481(a) of the Code would be taken into account over a 10-year period beginning with the year of the change. The ruling also stated that if *PRS* ceased to be engaged in a trade or business with respect to which the change applied, the unamortized section 481(a) adjustment with respect to that trade or business would be taken into account in the year it ceased to be engaged in that particular trade or business. On April 1, 1982, the professional business of *PRS* was incorporated.

LAW AND ANALYSIS

Section 446(e) of the Code requires a taxpayer to secure the consent of the Commissioner before changing a method of accounting. Section 1.446-1(e)(3)(i) of the Income Tax Regulations states that in order to secure the consent of the Commissioner, the taxpayer must agree to the terms, conditions, and adjustments under which the change will be effected.

Section 481(a) of the Code provides that in computing a taxpayer's taxable income for the tax year for which there has been a change in method of accounting initiated by the taxpayer, there shall be taken into account those adjustments that are determined to be necessary solely by reason of the change in order to prevent amounts from being duplicated or omitted.

Rev. Rul. 77-264, 1977-2 C.B. 187, describes a situation in which the sole proprietor of a retail store obtained permission to effect a change in method of accounting, agreeing to take into account ratably over a 10-year period the adjustments required under section 481(a) of the Code and to include in income the balance of the adjustment determined under section 481(a) upon ceasing to engage in the trade of business. Three years later the sole proprietor incorporated the business. Rev. Rul. 77-264 holds that the taxpayer is no longer engaged in that particular trade or business and, therefore, the balance of the adjustment determined under section 481(a), to the extent not previously taken into account, must be taken into account in computing taxable income in the tax year in which the taxpayer ceased to engage in that particular trade or business.

Rev. Rul. 80-39, 1980-1 C.B. 112, describes a domestic corporation that carries out its business operations through several divisions. Each division is in a different trade or business, and each keeps a complete and separate set of books and records. The corporation seeks permission to change its method of accounting for the trade or business conducted by one of the divisions. Rev. Rul. 80-39 holds that, in granting a change in method of accounting, the Service will impose a condition that requires any balance of a section 481(a) adjustment applicable to the trade or business conducted by that division to be reported in the tax year in which the corporation ceases to engage in that trade or business.

Before April 1, 1982, *PRS* had two separate businesses. The ruling letter granting *PRS* permission to change to an accrual method of accounting provides that, "in the event your partnership ceases to engage in a trade or business with respect to which the change applies at any time prior to the expiration of the 10-year period, the balance of the adjustment with respect to that trade or business not previously taken into account in computing ordinary income shall be taken into account in such year." By incorporating the professional business on April 1, 1982, *PRS* ceased to engage in that particular trade or business as of that date. *See* Rev. Rul. 77-264 and *Shore v. Commissioner*, 69 T.C. 689 (1978), *aff'd*, 631 F.2d 624 (9th Cir. 1980). A portion of the section 481(a) adjustment resulting from the earlier change in method of accounting by *PRS* from the cash method to the accrual method is attributable to the professional business. To allow *PRS* to continue to report the section 481(a) adjustment applicable to the professional business over years subsequent to the time *PRS* ceases to engage in that particular trade or business would distort the income of *PRS* during the remaining adjustment period. *See* Rev. Rul. 80-39 and Section 5.09(2) of Rev. Proc. 84-74, 1984-2 C.B. 736.

HOLDING

PRS is required to accelerate the portion of the unamortized adjustment under section 481(a) of the Code applicable to the trade or business incorporated.

EFFECT ON OTHER DOCUMENTS

Rev. Ruls. 77-264 and 80-39 are amplified.

What are the applicable federal rates to be used for purposes of section 483? See Rev. Rul. 85-170, page 186.

Subpart F.—Exempt Organizations
Part 1.—General Rule

Section 501.—Exemption from Tax on Corporations, Certain Trusts, Etc.

26 CFR 1.501(c)(3)-1: Organizations organized and operated for religious, charitable, scientific, testing for public safety, literary, or educational purposes, or for the prevention of cruelty to children or animals.
(Also Sections 508, 4947; 1.508-3, 53.4947-1.)

Qualification; private foundation; governing instrument provision; dissolution requirements. Provisions in an organization's governing instrument that satisfy the requirements of section 508(e) of the Code, for purposes of qualification for exemption under section 501(a) as a private foundation, are not in themselves sufficient to meet the requirement of section 1.501(c)(3)-1(b)(4) of the regulations that, upon dissolution, the organization's assets be dedicated to an exempt purpose.

Rev. Rul. 85-160

ISSUE

Does an organization that would be classified as a private foundation if it were described in section 501(c)(3) of the Internal Revenue Code, satisfy the organizational test set forth in section 1.501(c)(3)-1(b)(4) of the Income Tax Regulations by virtue of having satisfied the governing instrument provision of section 508(e)?

FACTS

M seeks recognition of exemption under section 501(c)(3) of the Code and is an organization that would, if described in section 501(c)(3), be classified as a private foundation within the meaning of section 509(a). *M* does not have a provision in its articles of incorporation requiring the distribution of its assets for charitable purposes upon dissolution. The state nonprofit statute under which *M* incorporated has not been construed to operate in a manner that assures dedication of assets to charitable purposes.[1] However, *M*'s state of incorporation does have a statute that imposes the requirements of section 508(e) on all private foundations formed in that state, in accordance with section 1.508-3(d) of the Income Tax Regulations. See Rev. Rul. 75-38, 1975-1 C.B. 161, which lists those states that have been held by the Service to have adopted legislation satisfying the requirements of section 508(e).

LAW AND ANALYSIS

Section 501(c)(3) of the Code provides for the exemption from federal income tax of organizations organized and operated exclusively for charitable purposes.

Section 1.501(c)(3)-1(b)(4) of the regulations provides that:

Distribution of assets on dissolution. An organization is not organized exclusively for one or more exempt purposes unless its assets are dedicated to an exempt purpose. An organization's assets will be considered dedicated to an exempt purpose, for example, if, upon dissolution, such assets would, by reason of a provision in the organization's articles or by operation of law, be distributed for one or more exempt purposes, or to the federal government, or to a State or local government, for a public purpose, or would be distributed by a court to another organization to be used in such manner as in the judgment of the court will best accomplish the general purposes for which the dissolved organization was organized. However, an organization does not meet the organizational test if its articles or the law of the State in which it was created provide that its assets would, upon dissolution, be distributed to its members or shareholders.

Section 508(e) of the Code provides that a private foundation shall not be exempt from taxation under section 501(a) unless its governing instrument provides that it distribute its income annually to avoid tax under section 4942, not engage in any act of self-dealing as defined in section 4941(d), not retain any excess business holdings as defined in section 4943(c), not make any jeopardizing investments resulting in tax under section 4944, and not make any taxable expenditures as defined in section 4945(d).

Section 1.508-3(d)(1) of the regulations provides that:

Effect of State Law—In General. A private foundation's governing instrument shall be deemed to conform with the requirements of paragraph (a) of this section if valid provisions of State law have been enacted which:

(i) Require it to act or refrain from acting so as not to subject the foundation to the taxes imposed by section 4941 (relating to taxes on self-dealing), 4942 (relating to taxes on failure to distribute income), 4943 (relating to taxes on excess business holdings), 4944 (relating to taxes on investments which jeopardize charitable purpose), and 4945 (relating to taxable expenditures); or

(ii) Treat the required provisions as contained in the foundation's governing instrument.

Section 508(e) of the Code applies only to a private foundation. Section 509(a) defines the term private foundation as an "organization described in section 501(c)(3) . . ." An organization that does not meet the requirements of section 1.501(c)(3)-1(b)(4) of the regulations as to dissolution is not "described in section 501(c)(3)."

The legislative history of sections 508(e) and 509(a) of the Code makes it clear that the requirements set out in section 508(e) are additional to those found in section 501(c)(3). For example, see H.R. Rep. No. 91-413 (Part I), Committee Report to accompany the Tax Reform Act of 1969, 91st Cong., 1st Sess. 40 (1969), 1969-3 C.B. 200, 226, which, in regard to "effective assurance . . . that the assets and organizational structure dedicated to charity will in fact be used for charity," states that:

> the bill provides as an *additional condition of exemption for private foundations* the requirement that the governing instrument require current distributions of income (sec. 4942) and prohibit self-dealing (sec. 4941), retention of excess business holdings (sec. 4943), speculative investments (sec. 4944), and taxable expenditures . . . . Your committee intends and expects that this requirement will add to the enforcement tools available to State officials charged with supervision of charitable organizations. [emphasis added.]

See also S. Rep. No. 91-552, 91st Cong., 1st Sess. 56 (1969), 1969-3 C.B. 423, 460.

[1] See Rev. Proc. 82-2, 1982-1 C.B. 367, for a list of states having laws providing for distribution of assets upon dissolution of nonprofit trusts, corporations, and unincorporated associations, which laws satisfy section 1.501(c)(3)-1(b)(4) of the regulations.

HOLDING

M does not satisfy the organizational test with respect to dissolution requirements set forth in section 1.501(c)(3)-1(b)(4) of the regulations, by virtue of satisfying the governing instrument provisions applicable to private foundations under section 508(e).

This revenue ruling does not apply to nonexempt charitable trusts that are private foundations by virtue of section 4947(a)(1) because section 4947(a)(1) treats them as described in section 501(c)(3) regardless of the dissolution provision.

26 CFR 1.501(c)(9)-1: Voluntary employees' beneficiary associations, in general.

Qualification; voluntary employees' beneficiary association; one employee member. A trust created to provide life, sick, accident, and other benefits to only one employee does not qualify for exemption under section 501(c)(9) of the Code.

Rev. Rul. 85-199

ISSUE

Does a trust that provides life, sick, accident, and other benefits to one employee qualify for exemption from federal income tax under section 501(c)(9) of the Internal Revenue Code?

FACTS

The trust was created for the purpose of providing life, sick, accident, and other benefits to its members. All employees of a specified professional corporation are eligible to be members. However, the professional corporation has only one employee, a dentist, who is also a shareholder and an officer of the corporation. The trust's income is derived from contributions by the professional corporation and from investment income. Disbursements are for benefits and administrative costs.

LAW AND ANALYSIS

Section 501(c)(9) of the Code provides for the exemption from federal income tax of voluntary employees' beneficiary associations providing for the payment of life, sick, accident, or other benefits to the members of such association or their dependents or designated beneficiaries, if no part of the net earnings of such association inures (other than through such payments) to the benefit of any private shareholder or individual.

Section 1.501(c)(9)-1 of the Income Tax Regulations provides that to be described in section 501(c)(9) of the Code an organization must be an employees' association.

Section 1.501(c)(9)-2(a)(1) of the regulations provides that the membership of an organization described in section 501(c)(9) of the Code must consist of individuals who become entitled to participate by reason of their being employees and whose eligibility for membership is defined by reference to objective standards that constitute an employment-related common bond among such individuals.

In order to qualify for exemption as a voluntary employees' beneficiary association under section 501(c)(9) of the Code, an organization must be an employees' association, and its membership must consist of individuals sharing an employment-related common bond. The requirement that an organization be an employees' association indicates that the organization must be formed on behalf of employees who associate together to receive the benefits provided by the organization. An organization with only a single employee member does not meet this requirement.

HOLDING

A trust that provides life, sick, accident, and other benefits to one employee does not qualify for exemption from federal income tax as a voluntary employees' beneficiary association under section 501(c)(9) of the Code.

Section 503.—Requirements for Exemption

26 CFR 1.503(b)-1: Prohibited transactions.

Prohibited transaction; loan to employer; unrecorded deed of trust. A loan made by an exempt employees'

trust of a governmental plan to its employer-grantor evidenced by a note bearing a reasonable rate of interest, but secured only by a unrecorded deed of trust on real property owned by the grantor, was not adequately secured and constituted a prohibited transaction under section 503(b)(1) of the Code. Rev. Rul. 73-586 superseded.

Rev. Rul. 85-114

PURPOSE

The purpose of this revenue ruling is to restate the position in Rev. Rul. 73-586, 1973-2 C.B. 186, in view of the enactment of the Employee Retirement Income Security Act of 1974, Pub. L. 93-406, 1974-3 C.B. 1.

ISSUE

The issue in Rev. Rul. 73-586 is whether a loan made by an employees' trust, under the circumstances described below, constitutes a prohibited transaction within the meaning of section 503 of the Internal Revenue Code.

FACTS

An employees' trust that met the requirements of section 401(a) of the Code and was exempt from Federal income tax under section 501(a) was established as part of a governmental plan referred to in section 4975(g)(2). A loan was made to the employer-creator of the trust and was evidenced by a note bearing a reasonable rate of interest. It was secured only by a deed of trust on real property owned by the employer. However, the deed of trust was not recorded. Furthermore, the loan did not satisfy the conditions of section 503(e) or (f).

The law of the state in which the real property is located and the transaction occurred provides that "a deed of trust is not valid as against any class of persons with any kinds of rights, except between the parties thereto and such as have notice thereof, until the time such deed of trust is recorded."

LAW AND ANALYSIS

Section 503(a)(1)(B) of the Code states that an organization described in section 401(a) of the Code which is referred to in section 4975(g)(2) or (3) of the Code shall not be exempt from taxation under section 501(a) if it has engaged in a prohibited transaction after March 1, 1954.

Section 4975(g)(2) and (3) of the Code refers to governmental plans within the meaning of section 414(d) and church plans, within the meaning of section 414(e), with respect to which the election provided by section 410(d) has not been made.

Section 503(b)(1) of the Code provides that, for purposes of that section, the term "prohibited transaction" includes any transaction in which a qualified employees' trust subject to the provisions of that section lends any part of its income or corpus, without the receipt of adequate security and a reasonable rate of interest, to the creator of such organization. In this case, the creator of the section 401(a) organization was the employer.

Section 1.503(b)-1(b)(1) of the Income Tax Regulations defines the term "adequate security" to mean something in addition to and supporting a promise to pay, which is so pledged to the organization that it may be sold, foreclosed upon, or otherwise disposed of in default of repayment of the loan, the value and liquidity of which security is such that it may reasonably be anticipated that loss of principal or interest will not result from the loan.

Rev. Rul. 80-269, 1980-2 C.B. 191, holds that where a chattel mortgage was not recorded as soon as practicable, and the personal property was not specifically identified, the loan intended to be secured by the mortgage constituted a prohibited transaction. That revenue ruling points out that the chattel mortgage, until filed, is enforceable only between the parties; and the rights of intervening third parties without knowledge of the unrecorded mortgage may weaken the value of such security. It also states that it is necessary, in order to satisfy the requirements of the regulations, that the chattel mortgage be recorded as soon as practicable and the personal property be specifically identified.

In this case, as in Rev. Rul. 80-269, the rights of intervening third parties without knowledge of the unrecorded security may weaken the value of such security. Hence, the unrecorded deed of trust does not constitute adequate security for the loan.

HOLDING

The loan constitutes a prohibited transaction within the meaning of section 503(b)(1) of the Code.

EFFECT ON OTHER REVENUE RULINGS

Revenue Ruling 73-586 is superseded because the position stated therein is restated in this revenue ruling.

Part II.—Private Foundations

Section 508.—Special Rules With Respect To Section 501(c)(3) Organizations

26 CFR 1.508-1: Notices.
(Also Section 501; 1.501(c)(3)-1.)

Rulings; timely notification of application for exemption. An organization that has no gross receipts in its first two taxable years, but receives more than $15,000 in contributions from the general public in its third taxable year, meets the notice requirement of section 508(a) of the Code if it files for exemption under section 501(c)(3) within 90 days after the close of its third taxable year. It will be recognized as exempt as of the date of its organization. Rev. Rul. 80-113 modified.

Rev. Rul. 85-173

ISSUE

Whether an organization that has no gross receipts for its first two taxable years, but receives total support of more than $15,000 in contributions from the general public in its third taxable year, meets the requirements of section 508(a) of the Internal Revenue Code and therefore can be recognized as exempt from the date of its organization, by filing for exemption under section 501(c)(3) within 90 days after the close of its third taxable year.

FACTS

A nonprofit organization had no financial support for either its first taxable year consisting of less than eight months or its second taxable year. In its third year, it received total support of more than $15,000 in contributions from the general public. The organization applied for recognition of exemption under section 501(c)(3) of the

ode within 90 days after the close of e third taxable year.

AW AND ANALYSIS

Section 508(a) of the Code provides at an organization, other than one described in section 508(c), organized after October 9, 1969, shall not be eated as an organization described in ection 501(c)(3) unless it has given otice to the Secretary, in such manner the Secretary may be regulations escribe, that it is applying for recogtion of such status.

Section 1.508-1(a) of the Income ax Regulations provides, in part, that organization seeking exemption unr section 501(c)(3) of the Code must, ithin fifteen months from the end of e month in which it was organized, ve the Commissioner notice that it is pplying for exemption. If it fails to ve notice within this period, it will be eated as exempt, provided it otherise qualifies, only from the date it les its application constituting such otice.

Section 508(c)(1)(B) of the Code rovides that section 508(a) shall not pply to any organization which is not private foundation under section 509 d the gross receipts of which in each xable year are normally not more an $5,000.

Section 1.508-1(a)(3)(ii) of the regutions provides that the gross receipts f an organization are normally not ore than $5,000 if—

(a) During the first taxable year of e organization, the organization has eceived gross receipts of $7,500 or ss

(b) During its first two taxable years e aggregate gross receipts received by e organization are $12,000 or less; nd

(c) In the case of an organization hich has been in existence for at least ree taxable years, the aggregate gross ceipts received by the organization uring the immediately preceding two xable years plus the current year are 5,000 or less.

he regulations further provide that if n organization fails to meet the reuirements of (a), (b), or (c), then the rganization shall be required to file the otice described in section 508(a) of e Code within 90 days after the close f the period described in (a), (b), or (c) in lieu of within the period described in section 1.508-1(a)(2)(i) of the regulations.

Section 509 of the Code provides that an organization described in section 170(b)(1)(A) (other than in clauses (vii) and (viii)) is not a private foundation.

Section 1.170A-9(e)(5)(v)*(c)* of the regulations provides that if an organization's first taxable year consists of less than eight months, a computation period of three taxable years applies for the initial determination of the sources of support of the organization for purposes of determining whether it is an organization described in section 170(b)(1)(A)(vi).

Rev. Rul. 80-113, 1980-1 C.B. 58, holds that an organization with no financial support that seeks nonprivate foundation status under section 509(a)(1) and section 170(b)(1)(A)(vi) and that files the notice required by section 508(a) of the Code more than fifteen months after the end of the month in which it was organized, can only be recognized as exempt for the period beginning on the date that the notice is filed. Such an organization is not described in section 170(b)(1)(A) as other than a private foundation on the date of filing. Therefore, the section 508(c)(1)(B) exception to the notice requirement does not apply.

In the present case, the three year computation period of section 1.170A-9(e)(v)*(c)* of the regulations is applicable to the organization. In its first three taxable years it received total support of more than $15,000 in contributions from the general public, removing it from the definition of a private foundation. The organization applied for recognition of its exempt status within 90 days after the close of the taxable year in which it exceeded the $15,000 gross receipts limit of section 1.508-1(a)(3)(ii) of the regulations, thereby fulfilling the requirements of section 508(a) of the Code. Therefore, it can be recognized as exempt from the date of its organization.

HOLDING

An organization that has no gross receipts in its first taxable year consisting of less than eight months, no gross receipts in its second taxable year, and total support of more than $15,000 in contributions from the general public in its third taxable year, meets the requirements of section 508(a) of the Code if it files for exemption under section 501(c)(3) within 90 days after the close of its third taxable year. Therefore, it can be recognized as exempt as of the date of its organization.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 80-113, *supra*, is modified to indicate that should an organization described in that revenue ruling receive public support subsequent to its application date and prior to the expiration of the computation period provided in section 1.170A-9(e)(5) of the regulations, exemption would be recognized back to the date of organization.

---

26 CFR 1.508-3: Governing instruments.

Whether an organization, which otherwise qualifies as a private foundation, satisfies the organizational test set forth in section 1.501(c)(3)-1(b)(4) of the regulations by virtue of having satisfied the governing instrument provisions of section 508(e). See Rev. Rul. 85-160, page 162.

Part III.—Taxation of Business Income of Certain Exempt Organizations

Section 513.—Unrelated Trade or Business

26 CFR 1.513-1: Definition of unrelated trade or business.
(Also Section 501; 1.501(c)(3)-1.)

Unrelated income; hospital; laboratory services for private patients of staff physicians. The Service will not follow that portion of the decision in *St. Luke's Hospital of Kansas City v. U.S.* that held that a tax-exempt hospital's performance of laboratory testing upon referred specimens from private patients of the hospital's staff physicians is not unrelated trade or business because the services were performed for the convenience of the hospital's members. The Service disgrees with the court's characterization of staff physicians as members of the hospital.

Rev. Rul. 85-109

ISSUE

To what extent will the Internal Revenue Service follow the decision in *St. Luke's Hospital of Kansas City v.*

United States, 494 F. Supp. 85 (W.D. Mo. 1980), holding that a tax-exempt hospital's performance of diagnostic laboratory testing upon specimens of patients of the hospital's staff physicians is not unrelated trade or business under section 513(a) of the Internal Revenue Code?

FACTS

The hospital is exempt from federal income tax under section 501(c)(3) of the Code. Among its activities, it performs diagnostic laboratory testing upon tissue specimens from private office patients of its staff physicians. Staff physicians are those who have the privilege of admitting patients to the hospital and treating them there. Each staff physician collects specimens from the physicians's own private patients at the physician's office. This program is relatively small in size compared to the other activities of the pathology department, and business is not actively solicited through advertising or otherwise. The hospital sends an employee to pick up the specimens and to deliver them to the hospital. The hospital bills the patients of its staff physicians for its services. These patients do not themselves enter the hospital for diagnosis or treatment.

The hospital also is organized to operate a school for teaching residents, interns, medical students, and nurses. The school uses the tissue specimens from private patients of the hospital's staff physicians to assist in training its students. These specimens provide a supply in addition to those taken from the hospital's own patients.

The district court held that the hospital was not engaged in unrelated trade or business within the meaning of section 513 of the Code. The court found that the hospital needed the specimens to carry on its educational activities. As an independent basis for its holding, the court also stated that the hospital's staff physicians were "members" of the hospital within the meaning of section 513(a)(2) and that testing was performed by the hospital primarily for the convenience of the hospital's members.

LAW AND ANALYSIS

Section 501(c)(3) of the Code provides for the exemption from federal income tax of organizations organized and operated exclusively for charitable purposes.

Section 1.501(c)(3)-1(d)(2) of the Income Tax Regulations provides that the term "charitable" is used in section 501(c)(3) of the Code in its generally accepted legal sense.

In the general law of charity, the promotion of health is considered to be a charitable purpose. *Restatement (Second) of Trusts*, §§368, 372; *Bogart, Trusts and Trustees*, §374 (rev. 2d ed. 1977); *IV Scott on Trusts* §368, 372 (3rd ed. 1967). See also Rev. Rul. 69-545, 1969-2 C.B. 117.

Section 513(a) of the Code defines the term unrelated trade or business as any trade or business the conduct of which is not substantially related (aside from the need of an organization for income or funds or the use it makes of the profits derived) to the exercise or performance by an organization of the purposes or functions constituting the basis for its exemption under section 501. However, section 513(a)(2) further states that such term does not include any trade or business which is carried on by an organization described in section 501(c)(3) primarily for the convenience of its members, officers, patients, or employees. The patients of the hospital's staff physicians are not patients of the hospital. See Rev. Rul. 68-376, 1968-2 C.B. 246, and Rev. Rul. 85-110, this page, this Bulletin.

It is the position of the Service that the hospital's staff physicians are neither "members" nor "employees" of the hospital in their capacities as private practitioners of medicine. By providing laboratory testing services on tissue specimens referred by its staff physicians in their private capacities, the hospital is not carrying on an activity primarily for the convenience of its members, officers, or employees within the meaning of section 513(a)(2) of the Code.

However, because the facts show that the services provide a supply of specimens needed in the hospital's teaching program, they are substantially related to the exempt purposes of the hospital.

HOLDING

The Internal Revenue Service will follow that part of the decision in *St. Luke's Hospital of Kansas City v. United States*, 494 F. Supp. 85 (W.D. Mo. 1980), holding that a teaching hospital which conducted nonpatient laboratory testing on specimens needed for the conduct of its teaching activities was not engaged in an unrelated trade or business where the outside testing services contributed importantly and substantially to the hospital's teaching program. On the other hand, the Service will not follow that portion of the decision in the *St. Luke's Hospital* case holding that a tax-exempt hospital's performance of laboratory testing upon specimens obtained from private office patients of the hospital's staff physicians who are not patients of the hospital is not unrelated trade or business because the activity is performed primarily for the convenience of its members within the meaning of section 513(a)(2) of the Code.

See Rev. Rul. 85-110 for a discussion of the circumstances under which the provision by a nonteaching hospital of such laboratory services to nonpatients of the hospital will be considered related or unrelated trade or business.

---

26 CFR 1.513-1: Definition of unrelated trade or business.
(Also Sections 501, 6001, 6033; 1.501(c)(3)-1, 1.6001-1, 1.6033-2.)

Unrelated income; hospital; laboratory services for private patients of staff physicians. The performance of diagnostic laboratory testing on referred specimens from private patients of hospital staff physicians, by a hospital exempt under section 501(c)(3) of the Code, is unrelated trade or business if such services are otherwise available in the community.

Rev. Rul. 85-110

ISSUE

Under the circumstances described below, does the performance of diagnostic laboratory testing, by a hospital exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code, upon specimens from private office patients of the hospital's staff physicians constitute unrelated trade or business within the meaning of section 513?

FACTS

The hospital is located in a metropolitan area and is organized for the purpose of promoting community health. It is exempt from federal income tax under section 501(c)(3) of the Code and is described in section 170(b)(1)(A)(iii). Among its activities, the hospital performs diagnostic laboratory testing upon specimens from private office patients of its staff physicians and upon specimens from patients of medical clinics not connected with the hospital. These services are performed for a fee. Commercial laboratories that perform testing identical to that performed by the hospital are available in the area.

Specimens from private patients of the hospital's staff physicians are collected by the physician at the physician's office and transmitted to the hospital for analysis. Likewise, specimens from patients of medical clinics are transmitted by the clinics to the hospital. Patients of staff physicians and of the clinics do not themselves enter the hospital for diagnostic testing. Thus, referral of specimens to the commercial laboratories would not hinder or jeopardize the diagnosis or care of patients either of private physicians or of medical clinics. The diagnostic testing does not involve equipment or procedures unique to the hospital. Moreover, the commercial laboratories are sufficiently close by so that testing services can be provided on a timely basis.

LAW

Section 501(c)(3) of the Code provides for the exemption from federal income tax of organizations organized and operated exclusively for charitable purposes.

Section 1.501(c)(3)-1(d)(2) of the Income Tax Regulations provides that the term "charitable" is used in section 501(c)(3) of the Code in its generally accepted legal sense.

In the general law of charity, the promotion of health is considered to be a charitable purpose. *Restatement (Second) of Trusts*, §368, 372; *Bogert, Trusts and Trustees*, §374 (rev. 2d ed. 1977); *IV Scott on Trusts* §368, 372 (3rd ed. 1967). See also Rev. Rul. 69-545, 1969-2 C.B. 117.

Section 513(a) of the Code defines the term unrelated trade or business as any trade or business the conduct of which is not substantially related (aside from the need of an organization for income or funds or the use it makes of the profits derived) to the exercise or performance by an organization of the purposes or functions constituting the basis for its exemption under section 501. However, section 513(a)(2) further states that such term does not include any trade or business which is carried on by an organization described in section 501(c)(3) primarily for the convenience of its members, officers, patients, or employees.

Rev. Rul. 68-376, 1968-2 C.B. 246, provides six examples of persons considered "patients" of a hospital for purposes of section 513(a)(2) of the Code: 1) a person admitted to the hospital as an inpatient; 2) a person receiving general or emergency diagnostic, therapeutic, or preventive health services from outpatient facilities of a hospital; 3) a person directly referred to the hospital's outpatient facilities by his private physician for specific diagnostic or treatment procedures; 4) a person refilling a prescription written during the course of his treatment as a patient of the hospital; 5) a person receiving medical services as part of a hospital administered home care program; and 6) a person receiving medical care and services in a hospital-affiliated extended care facility.

Rev. Rul. 85-109, page 165, this Bulletin, holds that the Internal Revenue Service will not follow the decision in *St. Lukes Hospital of Kansas City v. United States*, 494 F. Supp. 85 (W.D. Mo. 1980), to the extent that it holds that a tax-exempt hospital's performance of diagnostic laboratory testing upon specimens of patients of the hospital's staff physicians is not unrelated trade or business because the activity is performed primarily for the convenience of the members of the hospital under section 513(a)(2) of the Code.

Section 1.513-1(d)(2) of the regulations provides that a trade or business is "related" to an organization's exempt purposes, in the relevant sense, only where the conduct of the business activities has a causal relationship to the achievement of its exempt purposes (other than through the production of income); and that it is "substantially related," for purposes of section 513 of the Code, only if the causal relationship is a substantial one. Thus, the conduct of trade or business is substantially related to the purposes for which exemption is granted only if the performance of the service provided in such trade or business contributes importantly to the accomplishment of those purposes. Whether an organization's business activities contribute importantly to the accomplishment of its exempt purposes depends in each case upon the facts and circumstances involved.

Section 1.513-1(b) of the regulations provides that for purposes of section 513 the term "trade or business" generally includes any activity carried on for the production of income from the performance of services. Section 513(c) of the Code provides that an activity does not lose its identity as a trade or business merely because it is carried on within a larger complex of other endeavors which may, or may not, be related to the exempt purposes of the organization. In Rev. Rul. 68-374, 1968-2 C.B. 242, *Situation 1*, a hospital pharmacy selling pharmaceuticals to the general public was held to be engaged in a trade or business unrelated to the hospital's exempt purposes. No sustantial causal relationship was found between the achievement of the hospital's exempt purposes and the sale of pharmaceuticals to members of the general public who did not otherwise avail themselves of the hospital's medical and diagnostic facilities. Such sales were also found not to be primarily for the convenience of patients of the hospital within the meaning of section 513(a)(2) of the Code. See also *Carle Foundation v. United States*, 611 F.2d 1192 (7th Cir. 1979).

ANALYSIS

The hospital receives gross income from its diagnostic laboratory testing upon specimens from members of the public who do not otherwise avail themselves of the hospital's medical or diagnostic facilities. This activity does not lose its identity as a trade or business merely because the hospital also provides medical and diagnostic services to its own patients in furtherance of its exempt purposes or for the convenience of its patients within the meaning of section 513(a)(2) of the Code. See also section 513(a) of the Code and section 1.513-1(b) of the reg-

ulations. Moreover, there is no substantial causal relationship between the achievement of the hospital's exempt purposes and the provision of such testing to nonpatients. See Rev. Rul. 68-374, *Situation 1*. Also see *Carle Foundation v. United States*.

Further, the hospital's provision of diagnostic laboratory testing services on specimens from persons who are not its patients is not an activity carried on primarily for the convenience of its patients within the meaning of section 513(a)(2) of the Code. The private office patients of the hospital's staff physicians are not the hospital's own patients; likewise, the patients of medical clinics unrelated to the hospital are not patients of the hospital. To determine which persons are "patients" of a hospital for purposes of section 513(a)(2), see Rev. Rul. 68-376.

In addition, because the physicians are not "members" of the hospital, the activity is not that one that is carried on primarily for the convenience of members of the hospital for purposes of section 513(a)(2). See Rev. Rul. 85-109. Even if the staff physicians were characterized as members of the hospital, the facts indicate that the convenience to them is in their capacity as private physicians rather than in their capacity as members of the hospital.

Although the general rule is that the providing of diagnostic laboratory testing services to nonpatients constitutes unrelated trade or business for a tax-exempt hospital, unique circumstances may exist whereby such services may further the exempt function of the hospital. For example, emergency laboratory diagnosis of blood samples from nonpatient drug overdose or poisoning victims in order to identify specific toxic agents is a necessary community service the absence of which would hinder or jeopardize the medical care of patients of other health care institutions lacking such diagnostic facilities. If referral of these specimens to other locations would be detrimental to the health of hospital nonpatients, a hospital may provide such emergency services in furtherance of its exempt function of promoting community health. Similarly, if other laboratories are not available within a reasonable distance from the area served by the hospital or are clearly unable or inadequate to conduct tests needed by hospital nonpatients, a hospital's testing services may further its exempt function of promoting community health. Whether such unique circumstances exist will be decided by the Internal Revenue Service on a case-by-case basis.

HOLDING

Under the circumstances described above, the performance of diagnostic laboratory testing, otherwise available in the community, by a hospital exempt from federal income tax under section 501(c)(3) of the Code, upon specimens from private office patients of the hospital's staff physicians constitutes an unrelated trade or business within the meaning of section 513.

RECORD KEEPING REQUIREMENTS

Under sections 6001 and 6033 of the Code and the regulations thereunder, a hospital providing diagnostic laboratory services on specimens of nonpatients of the hospital in the manner described above is required to keep records by patient and nonpatient classification in order to establish the portion of income subject to unrelated trade or business income tax under section 511.

---

26 CFR 1.513-3: Qualified convention and trade show activity.
(Also Section 501; 1.501(c)(5)-1, 1.501(c)(6)-1.)

Unrelated income; convention display space rental; trade show selling activity. Certain revenue rulings that hold that income from the rental of booth space at a show or convention is unrelated business taxable income are revoked. Certain rulings that imply that selling activity at a trade show would result in unrelated trade or business are obsoleted. Rev. Ruls. 75-517, 75-518, 75-519 and 75-520 revoked. Rev. Ruls. 67-219 and 75-516 obsoleted.

Rev. Rul. 85-123

PURPOSE

The purpose of this revenue ruling is to revoke Rev. Ruls. 75-517, 75-518, 75-519 and 75-520, 1975-2 C.B. 222-226 for taxable years beginning after October 4, 1976, because they are inconsistent with section 513(d) of the Internal Revenue Code and the regulations thereunder relating to the treatment of income from qualified convention and trade show activities. This revenue ruling also obsoletes Rev. Rul. 67-219, 1967-2 C.B. 210, and Rev. Rul. 75-516, 1975-2 C.B. 221 for taxable years beginning after October 4, 1976, because those ruling positions are covered in the regulations under section 513(d).

BACKGROUND AND LAW

Section 513(d) was added to the Code by section 1305 of the Tax Reform Act of 1976, 1976-3 C.B. (Vol. 1), 192. It excludes from the computation of unrelated business taxable income amounts received from certain convention and trade show activities. The legislation was prompted by dissatisfaction with revenue rulings that held income from trade shows where selling or order-taking is permitted resulted in unrelated business taxable income. These amendments regarding qualified convention and trade show activities are effective for taxable years beginning after October 4, 1976.

Rev. Rul. 67-219 describes certain trade shows conducted by organizations described in section 501(c)(6) of the Code. The trade shows described are those commonly conducted by associations in which members of an industry, and sometimes members of related industries, join in an exhibition of the products and services of their industries or lines of businesses. Their object is the promotion and stimulation of interest in, and demand for, the industries' products and services in general rather than the operation of a facility for making sales to persons attending the shows. While representatives of exhibitors are present to explain the products and services, they do not sell or take orders. Rev. Rul. 67-219 holds that income derived from the activities involved in presenting the show is from related trade or business and is not subject to the tax imposed by section 511.

Rev. Rul. 75-516 describes a membership organization exempt under section 501(c)(6) of the Code that derives income from the rental of display space at the organization's convention. The display space is made available to exhibitors to exhibit and demonstrate products and services used by the members in their businesses. The exhibits

are solicited on the basis of their potential informational value and on the understanding that exhibits would not be oriented to order-taking or selling. There is a "no-sales" clause in the contract with exhibitors and the organization vigorously enforces the clause to prevent selling and order-taking from occurring in the display area or within the convention facility. Rev. Rul. 75-516 holds that income derived from the rental of this space does not constitute unrelated business taxable income.

Rev. Rul. 75-517 describes an organization exempt under section 501(c)(6) of the Code that conducts a convention where its members participate in meetings concerning the general improvements and technical advances made in their industry. As part of the convention the organization conducts a display show and derives income from the rental of space to exhibitors who exhibit and demonstrate products and services used by the members in their businesses. The organization's rental contracts are silent on whether selling or order-taking is permissible at the show. However, the organization's promotional materials encourage selling and order-taking by emphasizing the convenience and economy of purchasing needed products and services at the convention facility. Rev. Rul. 75-517 holds that the rental of display space constitutes unrelated business taxable income because the facts indicate that the organization is regularly providing a sales facility.

Rev. Rul. 75-518 describes an organization exempt under section 501(c)(5) of the Code that derives income from the rental of display space at the organization's convention under circumstances similar to those described in Rev. Rul. 75-516 except that the "no-sales" contracts are not enforced. Rev. Rul. 75-518 holds that such income is derived from unrelated trade or business.

Rev. Rul. 75-519 describes an organization exempt under section 501(c)(6) of the Code that derives income from the rental of display space at its convention under circumstances similar to those described in Rev. Rul. 75-517 except that sales are specifically permitted within the space assigned. Rev. Rul. 75-519 holds that such income is from unrelated trade or business.

Rev. Rul. 75-520 describes an organization exempt under section 501(c)(6) of the Code that derives income from rental of display space at its trade show under contracts that permit sales as well as contracts that prohibit sales altogether. Rev. Rul. 75-520 holds that rental income derived from the contracts with the "no-sales" clauses is income from related trade or business. However, the income from the contracts permitting selling is unrelated business taxable income because providing a sales facility does not contribute importantly to the organization's exempt purposes.

Section 513(a) of the Code defines unrelated trade or business as any trade or business the conduct of which is not substantially related (aside from the need of such organization for income or funds or the use it makes of the profits derived) to the exercise or performance by the organization of its exempt purposes.

Section 513(d) of the Code states that the term unrelated trade or business does not include qualified convention and trade show activities of a qualifying organization. It defines the term "qualified convention and trade show activity" as a convention and trade show activity carried out by a qualifying organization in conjunction with an international, national, State, regional, or local convention, annual meeting, or show conducted by a qualifying organization if one of the organization's purposes in sponsoring the activity is the promotion and stimulation of interest in, and demand for, the products and services of that industry in general, and the show is designed to achieve such purpose throught the character of the exhibits and the extent of the industry products displayed.

Section 1.513-3(b) of the Income Tax Regulations provides that convention and trade show activities carried on by a qualifying organization in connection with a qualified convention and trade show will not be treated as unrelated trade or business.

A qualifying organization is defined in section 1.513-3(c)(1) of the regulations as an organization described in section 501(c)(5) or (6) of the Code which regularly conducts as one of its substantial exempt purposes a qualified convention or trade show.

Section 1.513-3(c)(4) of the regulations provides that convention and trade show activity means any activity of a kind traditionally carried on at shows.

Sections 1.513-3(c)(2)(ii) and (iii) of the regulations indicate that to be a qualified convention or trade show at least one purpose of the sponsoring organization in conducting the show must be the education of its members or the promotion and stimulation of interest in, and demand for, the products or services of the industry of the members of the qualifying organization, and the show must be designed to achieve either one of those purposes through the character of a significant portion of the exhibits or the character of conferences and seminars held at a convention or meeting.

Section 1.513-3(d) of the regulations states that the rental of display space to exhibitors (including exhibitors who are suppliers) at a qualified convention and trade show will not be considered unrelated trade or business even though the exhibitors who rent the space are permitted to sell or solicit orders.

HOLDINGS

Based on section 513(d) of the Code and the regulations thereunder, it is clear that under the facts of Rev. Ruls. 75-517, 75-518, 75-519, and 75-520 the rental of display space would no longer result in unrelated trade or business. Since the conclusion under present law is contrary to the conclusions reached in those revenue rulings, they are revoked for taxable years beginning after October 4, 1976.

The conclusions reached in Rev. Rul. 67-219 and Rev. Rul. 75-516 are not inconsistent with section 513(d),m but those revenue rulings imply that had there been selling at the show it could result in the receipt of unrelated business taxable income. Since that implication is no longer correct and since the positions of those revenue rulings are sufficiently covered in the regulations, Rev. Rul. 67-219 and Rev. Rul. 75-516 are obsoleted for taxable years beginning after October 4, 1976.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 67-219 and Rev. Rul. 75-516 are obsoleted for taxable years beginning after October 4, 1976.

Rev. Rul. 75-517, Rev. Rul. 75-518, Rev. Rul. 75-519, and Rev. Rul.

75-520 are revoked for taxable years beginning after October 4, 1976.

Rev. Rul. 58-224, 1958-1 C.B. 242, and Rev. Rul. 78-240, 1978-1 C.B. 170, are not affected by section 513(d) of the Code, section 1.513-3 of the regulations, or this revenue ruling and remain in full force and effect.

Part VI.—Political Organizations

Section 527.—Political Organizations

26 CFR 1.527-1: Political organizations: generally.

T.D. 8041

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, SUBCHAPTER H, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Designation of Principal Campaign Committee

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document provides final regulations relating to the designation of a principal campaign committee by a candidate for Congress. Changes to the applicable tax law were made by the Economic Recovery Tax Act of 1981 [Pub. L. 97-34, 1981-2 C.B. 256] and the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1]. These regulations provide candidates for Congress and their principal campaign committees with the guidance needed to comply with these Acts.

DATES: The amendments to the regulations are effective for taxable years beginning after December 31, 1981.

FOR FURTHER INFORMATION CONTACT: Susan Thompson Baker of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3294).

SUPPLEMENTARY INFORMATION:

BACKGROUND

On April 20, 1983, the FEDERAL REGISTER published proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 527 of the Internal Revenue Code of 1954 (48 FR 16911) [LR-243-81, 1983-1 C.B. 1013]. The amendments were proposed to conform the regulations to section 128 of the Economic Recovery Tax Act of 1981 (95 Stat. 172, 203). No written comments responding to this notice were received, and no public hearing was requested or held. This Treasury decision adopts these amendments as proposed, with certain clarifying changes, and conforms the regulations to a change made by section 722(c) of the Tax Reform Act of 1984 (98 Stat. 973).

EXPLANATION OF PROVISIONS

Section 128 of the Economic Recovery Tax Act of 1981 adds new section 527(h) to the Internal Revenue Code of 1954. That section provides that the political organization taxable income of a "principal campaign committee" of a candidate for Congress shall be taxed at the appropriate corporation rate specified in section 11(b) of the Code rather than at the highest rate specified in that section. The highest corporate rate of tax is the rate of tax applicable to other political organizations. In order to qualify for the more favorable rate of tax, a committee must be designated in writing as a "principal campaign committee" by a candidate for Congress. A copy of this written designation, which may be made on Federal Election Commission Form 2 or equivalent document, must be appended to the Form 1120-POL filed by the principal campaign committee for each taxable year for which the designation is effective. Only a candidate for Congress, and not a candidate for other Federal or State office, may make a designation of a principal campaign committee. A candidate for Congress may have only one designation under 527(h) in effect at any time. If, however, a candidate for Congress has only one campaign committee, no designation is required.

NON-APPLICATION OF EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this final rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis therefore is not required.

REGULATORY FLEXIBILITY ACT

Although a notice of proposed rulemaking that solicited public comment was issued, the Internal Revenue Service concluded when the notice was issued that the regulations are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 did not apply. Accordingly, the final regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

PAPERWORK REDUCTION ACT

The collection of information requirements contained in these regulations has been submitted to the Office of Management and Budget (OMB) in accordance with the requirement of Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of this regulation is Susan Thompson Baker of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Service and Treasury Department participated in developing the regulation, both substantively and stylistically.

* * * * *

Adoption of amendments to the regulations

Accordingly, the amendments to 26 CFR Part 1 and Part 602 are adopted as proposed, with certain clarifying changes. The amendments read as follows:

26 CFR Part 1 is amended as follows:

Paragraph 1. The authority for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Section 1.527-9 also issued under 26 U.S.C. 527(h)(2)(B)(i).

Par. 2. Section 1.527-1 is amended by removing the last sentence and adding a new sentence in its place to read as follows:

§1.527-1 Political organizations; generally.

Section 527 provides that a political organization is considered an organization exempt from income taxes for the purpose of any law which refers to organizations exempt from income taxes. A political organization is subject to tax only to the extent provided in section 527. In general, a political organization is an organization that is organized and operated primarily for an exempt function as defined in §1.527-2(c). Section 527 provides that a political organization is taxed on its political organization taxable income (see §1.527-4) which, in general, does not include the exempt function income (see §1.527-3) of the political organization. Furthermore, section 527 provides that an exempt organization, other than a political organization, may be subject to tax under section 527 when it expends an amount for an exempt function, see §1.527-6. The taxation of newsletter funds is provided under section 527(g) and §1.527-7. A special rule for principal campaign committees is provided under section 527(h) and §1.527-9.

Par. 3. Section 1.527-2 is amended by adding a new paragraph (e) immediately following paragraph (d). New paragraph (e) reads as follows:

§1.527-2 Definitions

* * * * *

(e) *Principal campaign committee.* A "principal campaign committee" is the political committee designated by a candidate for Congress as his or her principal campaign committee for purposes of section 302(e) o the Federal Election Campaign Act of 1971 (2 U.S.C. section 432(e)), as amended, and section 527(h) and §1.527-9.

Par. 4. Section 1.527-8(d) is revised to read as follows:

§1.527-8 Effective date; filling requirements; and miscellaneous provisions.

* * * * *

(d) *Effective date.* Except as provided in paragraph (b)(2) of §1.527-6 and in paragraph (a) of §1.527-9, the regulations under section 527 apply to taxable years beginning after December 31, 1974.

Par. 5. A new §1.527-9 is added immediately following §1.527-8. New §1.527-9 reads as follows:

§1.527-9 Special rule for principal campaign committees.

(a) *In general.* Effective with respect to taxable years beginning after December 31, 1981, the tax imposed by section 527(b) on the political organization taxable income of a principal campaign committee shall be computed by multiplying the political organization taxable income by the appropriate rates of tax specified in section 11(b). The political organization taxable income of a campaign committee not a principal campaign committee is taxed at the highest rate of tax specified in section 11(b). A candidate for Congress may designate one political committee to serve as his or her principal campaign committee for purposes of section 527(h)(1). If a designation is made, it shall be made in accordance with the requirements of paragraph (b) of this section. A candidate for Congress may have only one designation in effect at any time. Under 11 CFR 102.12, no political committee may be designated as the principal campaign committee of more than one candidate for Congress. Further, no political committee that supports or has supported more than one candidate for Congress may be designated as a principal campaign committee. No designation need be made where there is only one political campaign committee with respect to a candidate.

(b) *Manner of designation.* If a candidate for Congress elects to make a designation under section 527(h) and this section, he or she shall designate his or her principal campaign committee by appending a copy of his or her Statement of Candidacy (that is, the Federal Election Commission Form 2 or equivalent statement that the candidate filed with the Federal Election Commission under 11 CFR 101.1(a)), to the Form 1120-POL filed by the principal campaign committee for each taxable year for which the designation is effective. This designation may also be made by appending to the Form 1120-POL a statement containing the following information: The name and address of the candidate for Congress; his or her taxpayer identification number, his or her party affiliation and the office sought; the district and State in which the office is sought; and the name and address of the principal campaign committee. This designation shall be made on or before the due date (as extended) for filing Form 1120-POL. Only a candidate for Congress may make a designation in accordance with this paragraph.

(c) *Manner of revoking designation.* A designation of a principal campaign committee that has been filed in accordance with this section may be revoked only with the consent of the Commissioner. In general, the Commissioner will grant such consent in every case where the candidate for Congress has revoked his or her designation in compliance with the requirements of the Federal Election Commission by filing an amended Statement of Organization or its equivalent pursuant to 11 CFR 102.2(a)(2). In the case of the revocation of the designation of a principal campaign committee by a candidate followed by the designation of another principal campaign committee by such candidate, for purposes of determining the appropriate rate of tax under section 11(b) for a taxable year, the political organization taxable income of the first principal campaign committee shall be treated as that of the subsequent principal campaign committee. In a case where consent to revoke a designation of a principal campaign committee is granted and a new designation is filed, the Commissioner may condition his consent upon the agreement of the candidate for Congress to insure compliance with the preceding sentence.

Par. 6. The authority for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 7. Section 602.101(c) is amended by inserting in the appropriate places in the table "§1.527-9.... 1545-0129".

This Treasury decision is issued under the authority contained in section 527(h)(2)(B)(i) of the Internal Revenue Code of 1954 (95 Stat. 203; 26 U.S.C. 527(h)(2)(B)(i)) and section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved June 17, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on July 29, 1985, 8:45 a.m., and published in the issue of the Federal Register for July 30, 1985, 50 F.R. 30816)

---

26 CFR 1.527-4: Special rules for computation of political organization taxable income. (Also Section 164; 1.164-1.)

Political organizations; computation of taxable income. State income taxes paid by a political organization on its nonexempt function income are deductible in computing its taxable income.

Rev. Rul. 85-115

ISSUE

Are state income taxes paid by a political organization on its nonexempt function income deductible in computing political organization taxable income for federal income tax purposes under section 527 of the Internal Revenue Code?

FACTS

P, a political organization that is exempt from federal income tax under section 527 of the Code and that is located in state *ST*, received nonexempt function income during the taxable year. State *ST* imposed an income tax on *P*'s nonexempt function income for the taxable year, less deductions that were directly connected with the production of the nonexempt function income and with certain modifications not relevant here. For federal income tax purposes under section 527(c) of the Code, *P* proposes to deduct the state income taxes in determining its political organization taxable income for the taxable year in which such taxes are paid.

LAW AND ANALYSIS

Section 164(a)(3) of the Code allows a deduction for state, local, and foreign income taxes that are paid or accrued within the taxable year. Section 164 is contained in chapter one of the Code.

Section 527(a) of the Code provides that political organizations are subject to federal income taxation to the extent provided in section 527. Section 527(b) imposes a tax for each taxable year on the political organization taxable income of every political organization.

Section 527(c)(1) of the Code defines political organization taxable income as an amount equal to the excess (if any) of the gross income for the taxable year (excluding any exempt function income as defined in section 527(c)(3)), over the deductions, allowed by chapter one, that are directly connected with the production of the gross income (excluding exempt function income), computed with certain modifications not relevant here.

Section 1.527-4(c) of the Income Tax Regulations provides that to qualify as deductions in computing political organization taxable income, expenses, depreciation, and similar items must not only qualify as deductions allowed by chapter one of the Code, but must also be directly connected with the production of political organization taxable income, expenses, depreciation, and similar items must not only qualify as deductions allowed by chapter one of the Code, but must also be directly connected with the production of political organization taxable income. To be directly connected with the production of political organization taxable income, an item of deduction must have a proximate and primary relationship to the production of such income and must have been incurred in the production of such income. Deductible items attributable solely to items of political organization taxable income are approximately and primarily related to such income. Whether a deductible item is incurred in the production of political organization taxable income is determined on the basis of all of the facts and circumstances of each case.

State income taxes paid or accrued on nonexempt function income are attributable solely to items of political organization taxable income and, therefore, have a proximate and primary relationship to the production of nonexempt function income. In addition, the liability for state income taxes on nonexempt function income is incurred solely because of the production of such income. Therefore, state income taxes on nonexempt function income are directly connected with the production of such nonexempt function income.

A deduction for state income taxes paid is allowable in determining a political organization's taxable income only if the requirements of both sections 164 and 527 of the Code are met. Although, a deduction generally is allowable under section 164 for state income taxes paid, section 527(c)(1) precludes a political organization from taking a deduction for state income taxes paid that are attributable to exempt function income. Thus, only those state income taxes that are attributable to nonexempt function income may be deducted under section 527.

HOLDING

For federal income tax purposes under section 527(c) of the Code, state income taxes paid by *P* on its nonexempt function income are deductible in computing *P*'s taxable income for the taxable year in which such taxes are paid.

Subchapter G.—Corporations Used to Avoid Income Tax on Shareholders
Part II.—Personal Holding Companies

Section 542. Definition of Personal Holding Company

26 CFR 1.542-1: General rule.

Personal holding companies; domestic corporation wholly owned by nonresident alien; investment income. A domestic corporation, wholly owned by a nonresident alien, that makes investments in U.S. real estate and receives interest income from U.S. sources is subject to the personal holding company tax.

Rev. Rul. 85-140

ISSUE

Is a domestic corporation engaged in investment activities in the United States and wholly owned by a nonresident alien individual subject to the personal holding company tax under the facts described below?

FACTS

M is a domestic corporation wholly owned by *A*, a nonresident alien individual. 90 percent of *M*'s gross income consists of interest from loans to United States individuals and corporations. The remainder of *M*'s gross income is derived from buying, selling, and leasing U.S. real property. In 1983, *M*'s entire gross income consisted of rents and interest received from sources within the United States. *M* is not a lending or a finance com-

ıy for purposes of section 542(c)(6) the Internal Revenue Code.

.W AND ANALYSIS

Section 541 of the Code imposes, in lition to all other taxes imposed by apter 1 of the Code, a tax on every rsonal holding company equal to 50 rcent of its undistributed personal lding company income.

Section 542(a) of the Code provides t the term personal holding company eans any corporation (other than a rporation described in section 542(c))

(1) At least 60 percent of its adjusted linary gross income for the taxable ar is personal holding company in- me, and

(2) At any time during the last half the taxable year more than 50 per- nt in value of its outstanding stock is ned, directly or indirectly, by or for t more than 5 individuals.

Section 543(a)(1) of the Code pro- les that the term personal holding mpany income includes interest. Sec- n 543(a)(2) of the Code provides that term personal holding company in- me includes rents, under certain cumstances.

Section 542(c)(7) excepts from the rsonal holding company definition a reign corporation (other than a corpo- ion which has income to which sec- n 543(a)(7) applies for the taxable ar), if all of its stock outstanding ring the last half of the taxable year owned directly or indirectly by non- sident alien individuals.

Section 104(h) of The Foreign Inves- rs Tax Act of 1966, Pub. L. 89-809, 66-2 C.B. 656, 675, amended sec- n 542(c)(7) of the Code. The under- ng legislative history to the provision veals that Congress had concluded at there was no avoidance of the indi- dual income tax when nonresident al- ns formed a foreign corporation to ake investments that would yield ssive income such as dividends and erest. Instead, the sourcing rules of ction 861 would determine whether withholding tax described in sec- ns 881 and 882 would be applicable the foreign corporation and its share- lders. See H.R. Rep. No. 1450, 89th ng., 2d Sess. 30-31 (1966), 1966-2 B. 965, 988; S. Rep. No. 1707, 89th ng, 2d Sess. 36-37, 1966-2 C.B. 1055, 1084-1085.

However, Congress did not except from the definition of personal holding company a domestic corporation wholly owned by nonresident alien individuals. Thus, *M* does not qualify for the exception to personal holding company status contained in section 542(c)(7). In addition, *M* does not qualify for any of the other exceptions to personal holding status set forth in section 542(c).

HOLDING

M is subject to the personal holding company tax because it meets the income and stock ownership requirements specified in section 542(a) of the Code and because it does not qualify for an exception under section 542(c).

Subchapter H.—Banking Institutions
Part I.—Rules of General Application to Banking Institutions

Section 585.—Reserve for Losses on Loans of Banks

26 CFR 1.585-1: Reserve for losses on loans of banks.

An adjustment under section 481(a) of the Code is required when there is an integration under section 381(c)(4) of the bad debt reserve of a thrift institution, computed under section 593, into a reserve of an acquiring commercial bank, computed under section 585, because such action results in a change in method of accounting. See Rev. Rul. 85-171, page 148.

Part II.—Mutual Savings Banks, etc.

Section 593.—Reserve for Losses on Loans

26 CFR 1.593-1: Additions to reserve for bad debts.

An adjustment under section 481(a) of the Code is required when there is an integration under section 381(c)(4) of the bad debt reserve of a thrift institution, computed under section 593, into a reserve of an acquiring commercial bank, computed under section 585, because such action results in a change in method of accounting. See Rev. Rul. 85-171, page 148.

Subchapter I.—Natural Resources
Part I.—Deductions

Section 613.—Percentage Depletion

26 CFR 1.613-4: Gross income from the property in the case of minerals other than oil and gas.

Percentage depletion; china clay; shipping grade and form. The term "shipping grade and form" is to be determined on the basis of mining processes applied by the individual taxpayer to bring the quality or size of its mineral to the stage or stages at which the taxpayer ships its mineral to its customers or applies nonmining processes. Rev. Rul. 83-100 revoked.

Rev. Rul. 85-192

The purpose of this revenue ruling is to revoke Rev. Rul. 83-100, 1983-2 C.B. 101. Rev. Rul. 83-100 holds that fine pulverization and air separation of china clay are not mining processes under section 613(c)(4)(C) of the Internal Revenue Code when a substantial portion of the china clay mined by nonintegrated miners in the general geographic area of the taxpayer's mine is sold and shipped to customers without either fine pulverization or air separation. This conclusion was based upon a determination that the china clay mined by the taxpayer is in shipping grade and form before fine pulverization and air separation based upon industry practice rather than on the taxpayer's operation.

Section 1.613-4(f)(3) of the Income Tax Regulations discusses processes recognized as mining processes under section 613(c)(4)(C) of the Code. Section 1.613-4(f)(3)(iii) of the regulations states that to "bring to shipping grade and form" means to bring (by the application of mining processes at the mine or concentration plant) the quality or size of a mineral to the size or stages at which the mineral is shipped to a customer or used in a nonmining process (as defined in paragraph (g) of this section) by the taxpayer.

The term "shipping grade and form" is to be determined on the basis of mining processes applied by the individual taxpayer to bring the quality or size of its mineral to the stage or stages at which the taxpayer ships its mineral to its customers or applies nonmining processes. Rev. Rul. 83-100 is revoked.

Section 616.—Development Expenditures

26 CFR 1.616-1: Development expenditures.

Whether an investor is at risk for a note that may be satisfied by transferring to the creditor a percentage of the property derived from the mining activity. See Rev. Rul. 85-113, page 150.

Subchapter J.—Estates, Trusts, Beneficiaries and Decedents
Part I—Estates, Trusts, and Beneficiaries
Subpart A.—General Rules for Taxation of Estates and Trusts

Section 643.—Definitions Applicable to Subparts A, B, C, and D

26 CFR 1.643(a)-3: Capital gains and losses.

Whether any portion of a capital gain realized by a trust that is allocated to trust income under state law is deductible by the trust in the taxable year the gain is realized. See Rev. Rul. 85-116, below.

Subpart B.—Trusts Which Distribute Current Income Only

Section 651.—Deduction for Trusts Distributing Current Income Only

26 CFR 1.651(a)-1: Simple trusts; deduction for distributions; in general.
(Also Sections 643, 652; 1.643(a)-3, 1.652(a)-1.)

Trust; underproductive property. Where state law treats stock held by a simple trust as "underproductive property," the income beneficiary is entitled to a statutory portion of any capital gain associated with proceeds from the disposition of the stock and that amount is includible in the distributable net income of the trust.

Rev. Rul. 85-116

ISSUE

Under the circumstances below, is any portion of a capital gain realized by a trust that is allocated to trust income under state law deductible by the trust and includible by the income beneficiary of the trust in the taxable year the gain is realized?

FACTS

T is a trust established in 1977 under *A*'s will for the benefit of *A*'s family. The terms of the trust instrument require that all trust income be paid out currently to *A*'s child *B* for life. *A*'s grandchildren are the remaindermen. *T* was funded exclusively with all the shares of *X*, a closely held corporation that *A* founded. In 1979, *X* adopted a plan of liquidation and sold all of its assets. In 1980, the proceeds of the sale in the amount of 390*x* dollars were distributed to *T* in complete liquidation of *X*.

Under the law of state *V* which is applicable to *T*, a portion of the proceeds of any transaction with respect to underproductive property, that is, trust property that has not produced for more than a year an average net annual income of one percent of its cost or value when acquired by the trust, is treated as "delayed income" which, in the absence of trust provisions to the contrary, is allocated to trust income rather than principal. The portion of the proceeds that is treated as delayed income is the difference between the proceeds and the amount which, had it been invested at five percent annually during the time the property was underproductive, would have produced the proceeds, less any income received by the beneficiary during that time. The balance is treated as principal. The trust instrument is silent concerning the allocation of the sale proceeds to trust income or principal.

The trustee of *T* allocated the liquidating distribution from *X* to principal and petitioned the state surrogate's court for approval of that action. *T* made no distribution to any beneficiary in 1980. In 1981, the court ordered that a portion fo the liquidating distribution should be allocated to *T*'s income account as delayed income because the *X* stock was underproductive property. In that year, after appropriately adjusting the books of *T* to reflect the allocation, the trustee made a distribution to *B* in the amount of 91*x* dollars, which was the amount of delayed income ordered by the court to be allocated to *T*'s income account.

Both *T* and *B* file income tax returns on the calendar year basis. On its 1980 fiduciary income tax return, *T* reported a capital gain of 30*x* dollars as a result of the liquidation of *X*. *B* did not include any of the capital gain on *B*'s individual income tax return for 1980 or for 1981.

LAW AND ANALYSIS

Section 651 of the Internal Revenue Code provides that, in the case of any trust the terms of which (1) provide that all of its income is required to be distributed currently, and (2) do not provide that any amounts are to be paid, permanently set aside, or used for the purposes specified in section 642(c) (relating to the deduction for charitable, etc., purposes), there shall be allowed as a deduction in computing the taxable income of the trust the amount of the income for the taxable year which is required to be distributed currently. If the amount of the income required to be distributed currently exceeds the distributable net income of the trust for the taxable year, the deduction shall be limited to the amount of the distributable net income.

Section 652 of the Code provides that the amount of income for the taxable year required to be distributed currently by a trust described in section 651 shall be included in the gross income of the beneficiaries to whom the income is required to be distributed, whether distributed or not. If that amount exceeds the distributable net income of the trust, there shall be included in the gross income of each beneficiary an amount which bears the same ratio to distributable net income as the amount of income required to be distributed to that beneficiary bears to the amount of income required to be distributed to all beneficiaries. The amount which the beneficiary is required to include in gross income is based upon the amount of income of the trust for any taxable year or years of the trust ending within or with the beneficiary's taxable year.

Income received by a trust that is required to be distributed currently to a beneficiary is taxable to the beneficiary in the taxable year of the beneficiary ending within or with the taxable year of the trust in which the income is received, even though the beneficiary receives the income at a later time due to the trustee's erroneous belief that the receipt constituted corpus and not income. *DeBrabant v. Commissioner*, 90 F. 2d 433 (2d Cir. 1937). *See, Polt v. Commissioner*, 233 F. 2d 893 (2d Cir. 1956); *United States v. Higginson*, 238 F. 2d 439 (1st cir. 1956); Rev. Rul. 62-147, 1962-2 C.B. 151.

Section 643(a) of the Code defines distributable net income to mean the taxable income of the trust computed with the modifications set forth in section 643(a)(1) through (7). Section 643(a)(3) provides that gains from the sale or exchange of capital assets are excluded to the extent that such gains are allocated to corpus and are not (A) paid, credited, or required to be distributed to any beneficiary during the taxable year, or (B) paid, permanently set aside, or to be used for the purposes specified in section 642(c).

Section 1.643(a)-3(a)(1) of the Income Tax Regulations provides that gains from the sale or exchange of capital assets are not ordinarily considered as paid, credited or required to be distributed to a beneficiary unless they are (1) allocated to income under the terms of the governing instrument or local law by the fiduciary on its books or by notice to the beneficiary, (2) allocated to corpus and actually distributed to beneficiaries during the taxable year, or (3) utilized (pursuant to the terms of the governing instrument or the practice followed by the fiduciary) in determining the amount which is distributed or required to be distributed.

Section 643(b) of the Code provides that for purposes of subparts A through D of subchapter J of the Code (sections 641 through 668 of the Code), the term "income," when not preceded by the words "taxable," "distributable net," "undistributed net," or "gross," means the amount of income of the trust for the taxable year determined under the terms of the governing instrument and applicable local law.

In the present case, the trust realized a capital gain in 1980 on the liquidation of *X* corporation. Under applicable local law, the law of state *V*, 91*x* dollars of the amount received by *T* in 1980 was treated as income and, therefore, was "income" within the meaning of section 643(b) of the Code. Under the terms of the trust instrument, all trust income was required to be distributed currently to *B*. Accordingly, under section 651, *T* is allowed a deduction in computing its taxable income for 1980 for the amount of income required to be distributed currently to *B*, limited to the distributable net income of *T*. Under section 652, *B* is required to include in gross income for 1980 an amount equal to the amount deductible by the trust under section 651. This is so despite the fact that the 91*x* dollars was not distributed to *B* until 1981. *DeBrabant v. Commissioner*.

To the extent that capital gains are allocated to income, they are included in computing distributable net income for purposes of section 651 of the Code. Section 1.643(a)-3(a)(1) of the regulations. In this case, 91/390 of the proceeds received by *T* is allocated to income under the law of state *V*. Therefore, a proportionate part of the capital gain realized by *T*, 7*x* dollars (91/390 × 30*x* dollars), is considered allocated to income and hence includible in the computation of distributable net income. *See*, example 5 of section 1.643(a)-3(d), showing that where half the proceeds of the sale of stock by a trustee was distributed to a beneficiary, half the capital gain is considered allocable to the beneficiary.

HOLDING

The 91*x* dollars of delayed income constitutes trust income required to be distributed to *B* in 1980. The total amount of trust income required to be distributed to *B* in 1980 is included in *B*'s gross income for that year, and is allowed as a deduction to *T*, to the extent this amount does not exceed *T*'s distributable net income for 1980. *T*'s distributable net income for that year includes 7*x* dollars of the capital gain *T* realized on the liquidation of *X*.

Section 652.—Inclusion of Amounts in Gross Income of Beneficiaries of Trusts Distributing Current Income Only

26 CFR 1.652(a)-1: Simple trusts; inclusions of amounts in income of beneficiaries.

Whether any portion of a capital gain realized by a trust that is allocated to trust income under state law is includible in the beneficiary's gross income in the taxable year the gain is realized. See Rev. Rul. 85-116, page 174.

Subpart E.—Grantors and Others Treated as Substantial Owners

Section 671.—Trust Income, Deductions, and Credits Attributable to Grantors and Others as Substantial Owners

26 CFR 1.671-3: Attribution or inclusion of income, deductions, and credits against tax. (Also Sections 162, 677; 1.162, 1.677.)

Grantor trust; commodity exchange clearing house. A commodity futures exchange clearing house corporation that funds a trust to protect customers of the exchange from financial loss resulting from the insolvency of any clearing member is the grantor of the trust because the exchange requires that the clearing house assume all legal obligations arising out of any trade cleared. The clearing house cannot deduct contributions to the trust. It can deduct payments made by the trust in satisfaction of the clearing house's legal obligations when paid or incurred.

Rev. Rul. 85-158

ISSUE

Can a commodity futures exchange clearing house corporation that funds a trust for the purpose of protecting customers of the exchange from financial loss due to the insolvency of any of the clearing members be allowed a current deduction for contributions to the trust, under the circumstances described below?

FACTS

A commodity futures exchange regulated by the Commodity Futures Trading Commission provides a marketplace for buying and selling cash commodities and commodity futures contracts. *X*, a corporation established by the exchange and composed of certain exchange members, clears all trades occurring on the exchange at the end of each trading day.

The rules and regulations of the exchange require *X* to gurantee payment when clearing members default on contracts traded on the exchange. To meet this legal obligation, protect investors, and promote public confidence, *X* created an irrevocable trust, *T*, to provide funds to be used solely for the purpose of preventing or mitigating losses of public customers having claims against defaulting clearing members. The trustee of *T* has no beneficial interest in the trust.

The exchange, the clearing corporation, and the trust are calendar year taxpayers. During the first taxable year, the trust received a contribution of 100*x* dollars from *X* and made no payments to satisfy customer claims. On its federal income tax return for the year, *X* treated the contribution of 100*x* dollars as a current deduction.

LAW AND ANALYSIS

Section 677(a) of the Internal Revenue Code provides that a grantor is treated as the owner of any portion of a trust whose income (1) is distributed to the grantor without the approval or consent of any adverse party, or (2) in the discretion of the grantor or a nonadverse party or both, may be distributed to the grantor without the ap-

proval or consent of any adverse party.

Section 1.677(a)-1(d) of the Income Tax Regulations provides, in general, that a grantor is treated as the owner of a portion of a trust whose income (1) is applied in discharge of a legal obligation of the grantor, or (2) in the discretion of the grantor or a nonadverse party or both;, may be applied in discharge of a legal obligation of the grantor.

Section 671 of the Code provides that when the grantor is treated as the owner of any portion of a trust, the grantor's taxable income and credits include those items of the trust's income, deductions, and credits attributable to the portion of the trust that the grantor is treated as owning.

Section 1.671-2(c) of the regulations provides that an item of income, deduction, or credit included in computing a grantor's taxable income and credits is treated as if the grantor (whether or not an individual) had received or paid it directly.

Section 1.671-3(a)(1) of the regulations provides that if the grantor is treated as the owner of an entire trust, the grantor takes into account in computing income tax liability all items of income, deduction, and credit to which the grantor would have been entitled if the trust had not been in existence during the period the grantor is treated as the owner.

Section 1.671-2(e) of the regulations provides that the term "grantor" includes a corporation.

Section 672(a) of the Code defines an "adverse party" as any person having a substantial beneficial interest in a trust that would be adversely affected by the exercise or nonexercise of a power that the party possesses respecting the trust. Section 672(b) defines a "nonadverse party" as any person who is not an adverse party.

Section 162 of the Code allows as a deduction all the ordinary and necessary expenses paid or incurred during the tax year in carrying on any trade or business.

When a taxpayer pays another's debts because of a prior guarantee, the taxpayer guarantor may deduct the amount paid under section 162 of the Code if the taxpayer shows that the payment of the guarantee is an ordinary and necessary business expense. *F.M. Frazier*, T.C.M. 1975-220.

In the present case, because *T's* income and corpus may be used to discharge *X's* legal obligations arising out of the purchase or sale of any trade cleared and the trustee is not an adverse party, *X* is considered to be the owner of the entire trust under section 677(a) of the Code. Under section 671, *X* must include *T's* items of income, deduction and credit in computing its taxable income. *X* is not allowed a deduction at the time of the contribution to the trust. *X* is allowed a deduction under section 162 when liabilities to customers are paid or incurred, depending on the method of accounting used by *X*. See Rev. Rul. 57-390, 1957-2 C.B. 326, which concludes that the method of accounting used by a grantor trust is disregarded and gross income from the trust properties must be determined by the grantor as if the trust had not been created.

HOLDING

The 100*x* dollars contribution by X to *T* is not deductible under section 162 of the Code. *X* must include *T's* items of income, deduction, and credit in computing *X's* taxable income. *X* is allowed to deduct *T's* payments in satisfaction of *X's* legal obligations, when paid or incurred by *T*, depending on the method of accounting used by *X*.

Section 677.—Income for Benefit of Grantor

26 CFR 1.677: Income for benefit of grantor; general rule.

A commodity futures exchange clearing house corporation that funds a trust to protect customers of the exchange from financial loss resulting from the insolvency of any clearing member is considered to be the owner of the trust because the exchange requires that the corporation assume all legal obligations arising out of any trade cleared. See Rev. Rul. 85-158, page 175.

Part II.—Income In Respect of Decedents

Section 692.—Income Taxes Of Members Of Armed Forces On Death

26 CFR 1.692-1: Abatement of income taxes of certain members of the Armed Forces of the United States upon death.

Joint return; employees of the U.S.; death result of terroristic or military action. The proration formula of section 1.692-1(b) of the regulations must be applied in determining the portion of the joint income tax liability forgiven for military and civilian employees of the U.S. who die as a result of wounds or injury suffered after November 17, 1978, outside the U.S. in a terroristic or military action, as defined in section 692(c) of the Code. Rev. Rul. 78-1 amplified.

Rev. Rul. 85-103

Rev. Rul. 78-1, 1978-1 C.B. 199, holds that the proration formula of section 1.692-1(b) of the Income Tax Regulations must be applied, in determining the portion of the joint income tax liability forgiven for an Armed Forces member who died as a result of service in a combat zone, to a joint return filed for an earlier year by the surviving spouse and the executor or administrator after notification of the member's death, whether the return is an original joint return or an amended return filed with respect to a year for which either a joint return was filed or a separate return was filed by the member or the spouse or both.

Pub. L. No. 98-259, 1984-1 C.B. 313, as amended by the Tax Reform Act of 1984, Pub. L. No. 98-369, section 722(g), 98 Stat. 494, 1984-3 C.B. (Vol. 1) 1, 482, enacted section 692(c) of the Internal Revenue Code. Section 692(c)(1) of the Code provides that, in the case of any individual who dies while a military or civilian employee of the United States, if such death occurs as a result of wounds or injury incurred outside the United States while in a terroristic or military action, any tax imposed by subtitle A of the Code (income tax) shall not apply with respect to the taxable year in which falls the date of death and with respect to any prior taxable year in the period beginning with the last taxable year ending before the taxable year in which the wounds or injury were incurred.

Section 692(c)(2) of the Code defines "terroristic or military action" as any terroristic activity directed against the United States or any of its allies and any military action involving the Armed Forces of the United States and resulting from violence or aggression against the United States or any of its allies.

Consistent with the position on proration expressed in Rev. Rul. 78-1 and the subsequent enactment of section 692(c) of the Internal Revenue Code, the position on proration expressed in Rev. Rul. 78-1 is also applicable to military and civilian employees of the United States who die as a result of wounds or injury suffered after November 17, 1978, outside the United States in a terroristic or military action, as defined in section 692(c) of the Code.

EFFECT ON OTHER REVENUE RULING

Rev. Rul. 78-1 is amplified.

---

26 CFR 1.692-1: Abatement of income taxes of certain members of the Armed Forces of the United States upon death.

Procedures for having tax forgiven or for claiming refunds of tax for certain military and civilian employees of the United States dying as a result of injuries incurred outside the United States in a terroristic or military action. See Rev. Proc. 85-35, page 433.

Subchapter L.—Insurance Companies
Part III.—Other Insurance Companies

Section 832.—Insurance Company Taxable Income

26 CFR 1.832-5: Deductions.

Capital losses; dispositions to meet normal insurance losses. Losses on capital assets sold or exchanged to meet abnormal insurance losses in excess of capital gains are deductible in the year incurred to the extent of taxable income; to the extent such losses exceed taxable income they become a net capital loss carryback or carryforward. Such losses retain their character when carried back or forward and must first be offset against capital gains in the carryback or carryforward year before being deducted against taxable income.

Rev. Rul. 85-166

ISSUE

How are losses on capital assets sold or exchanged by an insurance company to meet abnormal insurance losses treated for federal income tax purposes when carried back or forward?

FACTS

Taxpayer is an insurance company that is taxable under section 831 of the Internal Revenue Code. Taxpayer uses the cash method of accounting and a calendar year tax period.

During its tax year ending December 31, 1981, the taxpayer sold at a loss stocks it was holding for investment. The taxpayer had no capital gains during 1981. The capital losses resulting from the sales are considered losses on sales to meet abnormal insurance losses under section 832(c)(5) of the Code. Taxpayer's abnormal insurance losses for the year exceeded its taxable income computed without regard to the abnormal insurance losses.

LAW AND ANALYSIS

Section 832(b)(1)(B) of the Code provides that, in the case of an insurance company subject to the tax imposed by section 831, gross income includes gain during the tax year from the sale or disposition of property.

Section 832(c)(5) of the Code allows an insurance company subject to the tax imposed by section 831 a deduction for capital losses to the extent provided in subchapter P (section 1201 and following, relating to capital gains and losses) plus losses from capital assets sold or exchanged in order to obtain funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders. Section 832(c)(5) further provides that in the application of section 1212 for purposes of section 832, the net capital loss for the taxable year is the amount by which losses for that year from sales or exchanges of capital assets exceed the sum of the gains from those sales or exchanges, and the lesser of: (A) the taxable income (computed without regard to gains or losses from sales or exchanges of capital assets), or (B) losses from the sale or exchange of capital assets sold or exchanged to obtain funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders.

The legislative history of section 207(b)(4)(F) of the 1939 Code, the predecessor of section 822(c)(6) of the Code, indicates that the purpose for enacting the abnormal insurance losses provision was as follows:

> Representations were made that insurance companies other than life frequently had no control over the timing of the sale of their assets, since in years of abnormal insurance losses they were forced to liquidate assets in order to be able to pay losses . . . Consequently losses on assets sold for this purpose might safely be allowed as a deduction from regular income without possibility of abuse . . . A special rule is set forth for the application of the 5-year capital loss carry-over provisions of section 117(e) for the purposes of this section in order to prevent capital losses actually used to reduce net income in any year from again being used in a future year as an offset against capital gains in that year. S. Rep. No. 1631, 77th Cong., 2d Sess. 153 (1942), 1942-2 C.B. 504, 618.

Under section 832(c)(10) of the Code, net operating losses under section 172 may be deducted in computing taxable income of an insurance company subject to the tax imposed by section 831.

Section 1.832-5(a) of the Income Tax Regulations provides that, for purposes of section 172 of the Code, "gross income" means gross income as defined in section 832(b)(1) and the allowable deductions are those allowed by section 832(c) with the exceptions and limitations set forth in section 172(d).

Section 832(d) provides that nothing in section 832 shall permit the same item to be deducted more than once.

In Rev. Rul. 68-60, 1968-1 C.B. 322, the Service considered the application of the alternative tax on capital gains in a situation involving abnormal insurance losses. It was concluded that section 832(c)(5) of the Code does not convert a capital loss into an ordinary loss but, instead, provides a current deduction against taxable income for capital losses that otherwise would be carried forward and treated as a short-term capital loss under section 1212.

As described above, section 832(c)(5) of the Code provides a specific rule for the carryback and carryforward of losses from capital assets sold or exchanged in order to obtain funds to meet abnormal insurance losses. This rule, which reduces the net capital loss for a taxable year, was enacted to prevent capital losses which were actually used to reduce taxable income in a given year from being used

again in a carryback or carryforward year. The net capital loss is not reduced either by capital losses which did not qualify as losses on sales to meet abnormal losses because such losses were in excess of the amount of abnormal losses (section 832(c)(5)(B)) or by capital losses which did qualify as losses on sales to meet abnormal losses but which did not reduce taxable income in the year of the loss (section 832(c)(5)(A)).

The allowance of a deduction under section 832(c)(5) of the Code for capital losses on sales to obtain funds to meet abnormal losses could be interpreted as having the effect of creating or increasing a net operating loss in taxable years in which such losses exceed the company's taxable income (computed without regard to gains or losses from sales or exchanges of capital assets). The allowance of a net operating loss carryback or carryforward deduction in addition to the capital loss carryback or carryforward deduction allowed by section 1212 would violate the double deduction prohibition of section 832(d). Thus the net operating loss deduction must be disallowed. To disallow the capital loss carryback or carryforward deduction rather than the net operating loss deduction would render meaningless the section 832(c)(5)(A) limitation, reverse the basic ordering rule of section 835(c)(5) that capital losses must first reduce capital gains for a taxable year before reducing ordinary income for that year, and conflict with the assumption of the legislative history that carryforwards of capital losses on sales to meet abnormal losses would be used in future years against capital gains and the holding of Rev. Rul. 68-60 that section 832(c)(5) does not convert a capital loss into an ordinary loss.

Although losses on sales to meet abnormal insurance losses in excess of taxable income do not create or increase a net operating loss, these losses should not lose their character as abnormal insurance losses when carried back or forward to other taxable years simply because these losses cannot be used against income in the year in which incurred. The special treatment provided for abnormal insurance losses, which would otherwise be treated as capital losses, occurs because of the lack of control over the timing of the sale of the assets. See S. Rep. No. 1631. Thus, although abnormal insurance losses are considered net capital losses in a carryover period, these net capital losses retain their character as abnormal insurance losses in the carryback or carryforward years.

HOLDING

Losses on capital assets sold or exchanged to meet abnormal insurance losses, as defined in section 832(c)(5) of the Code, in excess of capital gains are deductible in the year incurred to the extent of taxable income. Losses on sales to meet abnormal insurance losses in excess of taxable income become a net capital loss carryback or carryforward. Losses on sales to meet abnormal insurance losses retain their character when carried back or forward and must first be offset against capital gains in the carryback or carryforward year before being deducted against taxable income.

Subchapter M.—Regulated Investment Companies and Real Estate Investment Trusts
Part I.—Regulated Investment Companies

Section 851.—Definition of Regulated Investment Company

26 CFR 1.851-2: Limitations.

Regulated investment company; gains from real estate. For purposes of determining whether a corporation will continue to qualify as a regulated investment company under section 851 of the Code, gains from the sale or disposition of real estate are not reduced by losses from the sale or disposition of other property in computing gross income for purpose of section 851(b)(2). Because such gains represent 20 percent of the taxpayer's gross income, the taxpayer does not qualify as a regulated investment company.

Rev. Rul. 85-167

ISSUES

1) For purposes of determining whether a corporation will continue to qualify as a regulated investment company under section 851 of the Internal Revenue Code, are gains from the sale or disposition of property such as real estate reduced by losses from the sale or disposition of other property in computing gross income for purposes of section 851(b)(2)?

2) Does receipt of this gain prevent the taxpayer from qualifying as a regulated investment company under section 851 of the Code?

FACTS

The taxpayer is a management investment company registered under the Investment Company Act of 1940 that elected to be taxed as a regulated investment company under subchapter M (sections 851-855) of the Code in 1980. The taxpayer acquired two real estate properties for its investment business. Subchapter M does not prohibit the ownership of this type of property.

In 1982, the taxpayer sold one real estate property and realized a long-term capital gain of 20x dollars. The taxpayer also sold in 1982 the other real estate property and realized a long-term capital loss of 10x dollars. If the long-term capital gain is included in the taxpayer's gross income for purposes of section 851(b)(2) without taking into consideration the long-term capital loss, the gain would represent 20 percent of the taxpayer's gross income for its 1982 tax year.

LAW AND ANALYSIS

Section 851(b)(2) of the Code provides that a corporation shall not be considered a regulated investment company for any taxable year unless at least 90 percent of its gross income is derived from dividends, interest, payments with respect to securities loans (as defined in section 512(a)(5)), and gains from the sale or disposition of stock or securities.

Under section 61(a)(3) of the Code, gross income includes gains from dealings in property, except as otherwise provided, in subtitle A. Section 1.61-6(a) of the Income Tax Regulations generally defines gain realized on the sale of an item of property as the excess of the amount realized over the unrecovered cost or other basis of the item. The term "gross income" used in section 851(b) has the same meaning as the general definition of gross income contained in section 61.

Section 1.851-2(b)(1) of the regulations provides that in determining the gross income requirements under section 851(b)(2) and (3) of the Code, a loss from the sale or other disposition

of stock or securities does not enter into the computation.

Rev. Rul. 63-118, 1963-1 C.B. 121, holds that for purposes of section 851(b) of the Code the term "gross income" includes gains from the sale or other disposition of stock or securities undiminished by losses from such sales or other dispositions.

Neither the Code nor the regulations allows capital gains from the sale or disposition of property such as real estate to be offset by capital losses in determining gross income for purposes of section 61 of the Code. This general principle is reflected in section 1.851-2(b)(1) of the regulations, wherein it is provided that gains from the sale or disposition of stock or securities are included in gross income undiminished by losses from the sale or disposition of securities. *See also* Rev. Rul. 63-118.

The gain realized from the sale of real estate represents 20 percent of the taxpayer's gross income. The gain cannot be considered gross income derived from dividends, interest, or gains from the sale or disposition of stock or securities. To qualify as a regulated investment company under section 851 of the Code, section 851(b)(2) requires that 90 percent of a taxpayer's gross income must be derived from dividends, interest, or gains from the sale or disposition of stock or securities.

HOLDINGS

1) For purposes of determining whether a corporation will continue to qualify as a regulated investment company under section 851 of the Code, gains from the sale or disposition of property such as real estate are not reduced by losses from the sale or disposition of other property in computing gross income under section 851(b)(2).

2) The receipt of these gains, 20 percent of the taxpayer's gross income, prevents the taxpayer from qualifying as a regulated investment company under section 851 of the Code in 1982.

Subchapter N.—Tax Based on Income from Sources Within or Without the United States
Part III.—Income From Sources Without the United States
Subpart D.—Possessions of the United States

Section 936.—Puerto Rico and Possession Tax Credit

26 CFR 1.936-1: Election of possessions corporation credit
(Also Sections 368, 381; 1.368-1, 1.381(a)-1.)

Possession tax credit; Puerto Rico; election. In a statutory merger between two domestic corporations, each of which had previously elected to be treated as a possessions corporation under section 936 of the Code, the surviving corporation's section 936 election will not be terminated.

Rev. Rul. 85-124

ISSUE

As a result of a statutory merger between two domestic corporations, each of which had previously elected to be treated as a possessions corporation under section 936 of the Internal Revenue Code, is the surviving corporation's section 936 election terminated?

FACTS

P, a domestic corporation, together with its subsidiaries, manufactures and markets electronic equipment for domestic and foreign markets. *P* owns all of the stock of *S-1* and *S-2*, both of which are domestic corporations organized under the laws of State *A* that have each properly elected to be treated as a possessions corporation under section 936 of the Code. *S-1* and *S-2* manufacture different product lines in Puerto Rico. For valid business reasons, *P* desires to streamline its Puerto Rican operations. To accomplish this purpose, *S-2* will be merged into *S-1* under the law of State *A* in a transaction that will qualify as a reorganization under section 368(a)(1)(A). *P* will exchange all of its stock in *S-2* for shares of *S-1* on a one-for-one share basis. *S-1* will be the surviving corporation. *S-1* will be engaged in substantially the same business in Puerto Rico, formerly conducted by *S-1* and *S-2*. Neither *S-1* nor *S-2* made an election under section 936(h) prior to the merger.

LAW AND ANALYSIS

Section 936(a) of the Code generally provides that if a domestic corporation makes an election under section 936(a) and, if the conditions of section 936(a)(2) are satisfied, the corporation is allowed as a credit against its income tax an amount equal to the portion of the tax that is attributable to specified possession-source income.

In Rev. Rul. 69-566, 1969-2 C.B. 165, an electing small business corporation, as defined in section 1371(b) of the Code (before its amendment in 1982), acquired the assets of another (non-electing) corporation in a reorganization qualifying under section 368(a)(1)(A). The electing corporation was the sole surviving corporation. The Service held the reorganization in and of itself did not terminate the electing corporation's election under section 1372 (before its amendment in 1982).

Compare Rev. Rul. 80-168, 1980-1 C.B. 178, which holds that a change in the place of incorporation effected pursuant to a statutory merger and qualifying as a reorganization under section 368(a)(1)(F) of the Code does not terminate the election to be treated as a possessions corporation under section 936. See also Rev. Rul. 64-250, 1964-2 C.B. 333.

In the present situation, *S-1* made an election under section 936(a) of the Code prior to its statutory merger with *S-2* (which also had made a section 936 election). *S-1* will be engaged in the same business in Puerto Rico and will satisfy the conditions of section 936(a)(2) after the reorganization.

HOLDING

The statutory merger qualifying as a reorganization under section 368(a)(1)(A) of the Code does not terminate *S-1*'s election to be treated as a possessions corporation pursuant to section 936.

Subpart I.—Admissibility of Documentation Maintained in Foreign Countries
Part IV.—Domestic International Sales Corporations
Subpart A.—Treatment of Qualifying Corporations

Section 994.—Inter-Company Pricing Rules

26 CFR 1.994-1: Inter-company pricing rules for DISCs.

Procedures under which certain adjustments of accounts and reclassification of distributions will be made in cases in which intercompany prices paid by a DISC to its related supplier or commissions paid by a related supplier to a DISC have been redetermined by the Service. See Rev. Proc. 85-45, page 505.

Subchapter O.—Gain or Loss on Disposition of Property
Part I.—Determination of Amount of and Recognition of Gain or Loss

Section 1001.—Determination of Amount of and Recognition of Gain or Loss

Whether a parent corporation that is a dealer in personal property may treat the extension of credit by its subsidiary, a national bank, to the parent corporation's customers as equivalent to the parent corporation selling on the installment basis to its customers and then selling the installment obligations in a deferred intercompany transaction to its subsidiary. See Rev. Rul. 85-133, page 192.

---

26 CFR 1.1001-1: Computation of gain or loss. (Also Section 165; 1.165-1)

Losses; recognition; concurrent transfers of mortgage loan portfolios. Losses are not realized when three unrelated savings and loan associations enter into a series of concurrent transactions in which each party "sells" and "purchases," among themselves, a portion of their respective mortgage loan portfolios. Rev. Rul. 81-204 amplified.

Rev. Rul. 85-125

ISSUE

Do the taxpayers realize losses from concurrent transfers of a portion of their respective mortgage loan portfolios, under the circumstances described below?

FACTS

In 1980, *X*, *Y*, and *Z*, three unrelated federally chartered savings and loan associations entered into a series of concurrent transactions in which each party "sold" and "purchased", among themselves, a portion of their respective mortage loan portfolios (the "mortgage pools").

The mortgage pools "sold" and "purchased" by *X*, *Y*, and *Z* consisted of single-family residential, conventional mortgages with the same contract interest rates and the same stated terms to maturity. The average remaining lives as well as the aggregate unamortized principal balances and the aggregate fair market values of the mortgages in each of the mortgage pools were essentially the same at the time of each "sale" and "purchase". The underlying mortgages that made up the pools involved different mortgagors and different collateral, and some of the mortgages were transferred for mortgages located in other parts of the city, county, or state.

In these transactions, *X*, *Y*, and *Z* each transferred a mortgage pool of low-interest bearing mortgages for a substantially similar mortgage pool and paid and received substantially the same amount of cash with the result that there was no change in position. The cash received equalled the fair market value of the mortgage pools, which had substantially declined in value due to the increase in interest rates.

For federal income tax purposes, *X*, *Y*, and *Z* each claimed a loss deduction in 1980 in the amount of the difference between the cash proceeds received and the adjusted basis of its transferred mortgage pool. For financial reporting purposes, the appropriate regulatory agency did not require *X*, *Y*, and *Z* to record a loss.

LAW AND ANALYSIS

Section 1001(a) of the Internal Revenue Code provides that the gain from the sale or other disposition of property shall be the excess of the amount realized there from over the adjusted basis provided in section 1011 for determining gain, and the loss shall be the excess of the adjusted basis provided in such section for determining loss over the amount realized.

Section 1.1001-1(a) of the Income Tax Regulations provides that the gain or loss realized from the conversion of property into cash, or from the exchange of property for other property differing materially either in kind or in extent, is treated as income or as loss sustained.

Section 165(a) of the Code provides, generally, that there shall be allowed as a deduction any loss sustained during the taxable year and not compensated for by insurance or otherwise.

Section 1.165-1(b) of the regulations provides that to be allowable as a deduction under section 165(a), a loss must be evidenced by closed and completed transactions, fixed by identifiable events, and, except as otherwise provided in section 165(h) and section 1.65-1, relating to disaster losses, actually sustained during the taxable year. Only a bona fide loss is allowable. Substance and not mere form shall govern in determining a deductible loss.

Rev. Rul. 81-204, 1981-2 C.B. 157, holds that the exchange of mortgage pools among three unrelated savings and loan associations did not result in a loss because the requirements of section 1.1001-1(a) of the regulations have not been met. The mortgage loan portfolios ("pools") exchanged did not differ materially either in kind or extent. Instead, the mortgage pools exchanged constituted mass or indivisible assets that averaged out the unique characteristics and risks inherent in each constituent mortgage. The existence of different mortgagors and different collateral in the mortgages that made up the mortgage pools did not prevent the agregation of the mortgages into a mass or indivisible asset.

In this situation, as in Rev. Rul. 81-204, the mortgage pools "sold" and "purchased" by *X*, *Y*, and *Z* possessed sufficient economic correspondence to each other that the mortgage pools cannot be considered as differing materially either in kind or extent from each other, despite the differences in the identities of the individual mortgagors and in the underlying collateral. All three pools consisted of single family residential, conventional mortgages with the same contract interest rate and the same stated terms to maturity. The average remaining lives as well as the aggregate unamortized balances and the aggregate fair market values of the mortgages in each of the three mortgage pools "sold" and "purchased" were substantially the same at the time of the transfers.

The fact that the transactions were structured as "sales" and "purchases" as opposed to "mortgage swap" transactions within the factual setting of Rev. Rul. 81-204 does not alter this conclusion. Rather than separate and distinct transactions, the concurrent "sales" and "purchases" represent component parts of an integrated transaction in which the first step was to "sell" the mortgage pool and the second step was to "acquire" another matched mortgage pool. Thus, after the concurrent "sales" and "purchases" of the mortgage pools, *X*, *Y*, and *Z* were in substantially the same economic position as before these

transactions. The transfers of the mortgages and cash did not have independent adequacy. Each part of the transaction was dependent on every other part, and *X*, *Y*, and *Z* were in the same economic position before and after the transaction.

While each taxpayer may have had a business purpose for securing a different portfolio of mortgages, the facts indicate that the "sale" and "purchase" of mortgage pools had no economic purpose or utility apart from the anticipated tax consequences. In each case, the transfer was so hedged, in terms of economic reality, that it cannot be considered to be the closing out of a losing venture. An actual loss is not realized for tax purposes unless when the entire transaction is concluded, the taxpayer has sustained the loss claimed. *See Shoenberg* v. *Commission*, 77 F.2d 446 (8th Cir. 1935).

HOLDING

Under the circumstances described above, the taxpayers do not realize losses from concurrent transfers of a portion of their respective mortgage loan portfolios.

EFFECT ON OTHER DOCUMENTS

This revenue ruling amplifies Rev. Rul. 81-204 by extending the rationale and holding to a series of concurrent "sales" and "purchases" of mortgage pools by three unrelated savings and loan associations.

Part II.—Basis Rules of General Application

Section 1016.—Adjustments to Basis

26 CFR 1.1016-3: Exhaustion, wear and tear, obsolescence, amortization, and depletion for periods since February 28, 1913.

Automobiles used in a trade or business by employees or self-employed individuals. See Rev. Proc. 85-49, page 716.

26 CFR 1.1016-5: Miscellaneous adjustments to basis.

Reduction of basis in the case of an automobile on which gas guzzler tax was imposed. See T.D. 8036, page 208.

Section 1017.—Discharge Of Indebtedness

26 CFR 1.1017-2: Adjusted basis; discharge of indebtedness; special cases.

Conditions under which the Service will issue an advance ruling and enter into a closing agreement permitting a variation from the general rule of section 1.1017-1 of the regulations relating to the adjustment to basis of depreciable property resulting from a discharge of indebtedness under section 108 of the Code. See Rev. Proc. 85-44, page 504.

Part III.—Common Nontaxable Exchanges

Section 1031.—Exchange of Property Held for Productive Use or Investment

26 CFR 1.1031(a)-1: Property held for productive use in trade or business or for investment. (Also Sections 1033, 1071; 1.1033(a)-1, 1.1071-1.)

Sales or exchanges; like-kind; broadcast assets. The exchange of assets of two television stations for the assets in another television station qualifies for nonrecognition of gain or loss treatment as an exchange of like-kind property under section 1031(a) of the Code.

Rev. Rul. 85-135

ISSUE

Under the circumstances described below, will the corporate taxpayers' transfer and receipt of property constitute an exchange of property held for productive use in trade or business solely for property of a like kind to be held for productive use in trade or business pursuant to section 1031(a) of the Internal Revenue Code? Also, may Y treat the exchange of broadcast assets as an involuntary conversion under sections 1071 and 1033 or, alternatively, under section 1031?

FACTS

X corporation is engaged in the business of broadcasting, cablevision, and newspaper publishing. *X*'s television stations include *K* and *L*, both of which have been owned and operated by *X* for more than five years. *X* is in compliance with the Federal Communications Commission's (F.C.C.) policies concerning the cross-ownership of television stations and newspapers in the same community.

Y corporation, unrelated to *X*, owns and operates television station *H* and also owns *J*, a newspaper serving the same community as *H*. *H* and *J* are properties held for productive use in trade or business or for investment. Y has owned *J* for more than five years. The F.C.C. issued to *Y* the Tax Certificate described in section 1071 of the Code certifying that *Y*'s transfer of the assets of *H* is a sale or exchange necessary to effectuate the F.C.C.'s policies concerning the cross-ownership of television stations and newspapers whose areas of operation are wholly or partially overlapping.

In order to diversify their media markets, and consistent with the F.C.C.'s cross-ownership policies, *X* exchanged the assets of *K* and *L* in return for *Y*'s transfer of the assets of *H*. The property exchanged did not include stock in trade or other property held primarily for sale, nor stocks, bonds, notes, choses in action, certificates of trust or beneficial interest or other securities or evidences of indebtedness or interest. The exchange was contingent upon the F.C.C.'s grant of its consent to the assignment of the broadcast licenses of *K*, *L*, and *H*.

LAW AND ANALYSIS

Section 1031(a) of the Code provides that no gain or loss shall be recognized if property held for productive use in trade or business or for investment (not including stock in trade or other property held primarily for sale, nor stocks, bonds, notes, choses in action, certificates of trust or beneficial interest, or other securities or evidences of indebtedness or interest) is exchanged solely for property of a like kind to be held either for productive use in trade or business or for investment.

Section 1071 of the Code provides, in part, that if the sale or exchange of property is certified by the F.C.C. to be necessary or appropriate to effectuate a change in the policy of, or the adoption of a new policy by, the F.C.C. with respect to the ownership and control of radio broadcasting stations, such sale or exchange shall, if the taxpayer so elects, be treated as an involuntary conversion of such property within the meaning of section 1033.

Section 1033(a)(1) of the Code provides that if property is compulsorily or involuntarily converted into property similar or related in service or use to the property so converted, no gain shall be recognized.

Sections 1245(b)(4) and 1250(d)(4) of the Code provided that if section 1245 or 1250 property is disposed of

and gain (determined without regard to these sections) is not recognized in whole or part under section 1031, then the amount of gain taken into account by the transferor under sections 1245 or 1250 shall not exceed the amount of gain recognized on such disposition (determined without regard to these sections).

X has entered into an exchange with *Y* whereby *X* exchanged the assets of *K* and *L* in return for *Y*'s transfer of the assets of *H*. *X* and *Y* received property of a like kind to that transferred, assumed no liabilities in connection with the exchange, and will use the assets of *K*, *L*, and *H* in the continuing business of broadcasting after the exchange. *X* will not recognize gain or loss on the exchange pursuant to section 1031(a) of the Code.

Sections 1071 and 1033 of the Code will apply to the transaction to allow *Y*, if it so elects, to treat the exchange of broadcast assets as an involuntary conversion. If *Y* does not elect to use sections 1071 and 1033 or if it was not eligible to receive the tax certificate under section 1071, it would be allowed to defer recognition of gain or loss under section 1031. Since *X* is in compliance with the F.C.C.'s cross-ownership policies, *X* is not eligible to receive a certification under section 1071 similar to that received by *Y*. Section 1031 will apply, however, to allow *X* to defer the recognition of gain or loss.

HOLDING

X's transfer and receipt of property constitutes an exchange of property held for productive use in trade or business solely for property of a like kind to be held for productive use in trade or business, with the result that no gain or loss will be recognized by *X* on the transaction pursuant to section 1031(a).

Y, if it so elects, may treat the exchange of broadcast assets as an involuntary conversion under sections 1071 and 1033 of the Code. If, however, *Y* does not elect to use sections 1071 and 1033 of the Code, *X*'s and *Y*'s transfer and receipt of property constitutes an exchange of property held for productive use in trade or business solely for property of a like kind to be held for productive use in trade or business, with the result that no gain or loss will be recognized by *X* or *Y* on the transaction pursuant to section 1031(a).

Section 1033.—Involuntary Conversions

26 CFR 1.1033(a)-1: Involuntary conversions; nonrecognition of gain.

Whether a corporation that owns and operates a television station and a newspaper may treat an exchange of broadcast assets as an involuntary conversion under sections 1071 and 1033 of the Code. See Rev. Rul. 85-135, page 181.

Section 1034.—Rollover of Gain on Sale of Principal Residence

26 CFR 1.1034-1: Sale or exchange of residence.

Residence; replacement property; stock in cooperative housing corporation exchanged for condominium unit. A tenant-stockholder in a housing corporation, as defined in section 216 of the Code, will not recognize gain or loss upon the exchange of stock in a cooperative housing corporation for a condominium unit, subject to the limitations of section 1034(a) of the Code and section 1.1034-1 of the regulations.

Rev. Rul. 85-132

ISSUE

Will the exchange of stock in a cooperative housing corporation for legal title to a condominium unit and an undivided interest in the common elements, under the facts described below, result in nonrecognition of gain under section 1034 of the Internal Revenue Code?

FACTS

A resides in a building that contains residential units. Prior to January 1985, the building was owned and operated on a cooperative basis by *COOP*, a cooperative housing corporation, as that term is defined in section 216(b)(1) of the Code. *A* was a tenant-stockholder in *COOP* and used the apartment that *A* was entitled to occupy as such stockholder as *A*'s principal residence.

In January 1985, *A* and the other tenant-stockholders of *COOP* converted their equity interests from cooperative ownership to condominium ownership pursuant to the following plan: *COOP* recorded a condominium declaration under which each apartment comprised a separate condominium unit. Initially *COOP* owned legal title to all condominium units and to the common elements. Following recordation of the condominium declaration, *COOP* adopted a plan of complete liquidation. Under the plan, *A* and the other tenant-shareholders surrendered for cancellation all of their shares of *COOP* stock and, in exchange therefor, received only legal title to their respective condominium units and an undivided interest in the elements. *COOP* was then dissolved.

Pursuant to the plan *A* surrendered all of *A*'s shares of stock in *COOP* and received legal title to the condominium unit that *A* occupied and an undivided interest in the common elements. At the time, the value of the condominium unit and *A*'s undivided interest in the common elements exceeded the adjusted basis of *A*'s stock in *COOP*. *A* continues to occupy the unit as *A*'s principal residence.

A did not, within 2 years before the date of the exchange, sell at a gain other property used by *A* as *A*'s principal residence.

LAW AND ANALYSIS

Section 1034(a) of the Code provides that if property (the "old residence") used by the taxpayer as the taxpayer's principal residence is sold by the taxpayer and, within the period beginning 2 years before the date of such sale and ending 2 years after such date, property (the "new residence") is purchased and used by the taxpayer as the taxpayer's principal residence, gain (if any) from such sale shall be recognized only to the extent that the taxpayer's adjusted sales price of the old residence exceeds the taxpayer's cost of purchasing the new residence.

Section 1034(c)(1) of the Code provides that an exchange by the taxpayer of the taxpayer's residence for other property shall be treated as a sale of such residence, and that the acquisition of a residence on the exchange of property shall be treated as a purchase of such residence.

Section 1034(f) of the Code provides, in part, that for purposes of section 1034, references to property used by the taxpayer as the taxpayer's principal residence, and references to the residence of a taxpayer, shall include

stock held by a tenant-stockholder (as defined in section 216) in a cooperative housing corporation (as defined in section 216) if, in the case of stock sold, the house or apartment which the taxpayer was entitled to occupy as such stockholder was used by the taxpayer as the taxpayer's principal residence and, in the case of stock purchased, the taxpayer used as the taxpayer's principal residence the house or apartment which the taxpayer was entitled to occupy as such stockholder.

Rev. Rul. 64-31, 1964-1 (Part 1) C.B. 300, holds that an individual who sells a principal residence and uses the proceeds, within 1 year after the sale, to purchase an apartment in a condominium project which is used as the individual's new principal residence is entitled to the relief provided by section 1034(a) of the Code.

Under section 1034(f) of the Code, the *COOP* stock is considered to be *A*'s principal residence for purposes of section 1034(a). Furthermore, an exchange of the taxpayer's residence for other property constituting a residence is considered to be a sale of a residence and a purchase of another residence under section 1034(c)(1). Accordingly, the exchange of *COOP* stock for the condominium unit and an undivided interest in the common elements is considered to be a sale of the taxpayer's residence, and the receipt of the condominium unit and an undivided interest in the common elements for the stock is considered to be a purchase of a residence for purposes of section 1034.

HOLDING

Based on the facts and circumstances presented, the exchange of *A*'s shares of stock in *COOP* for legal title to the condominium unit occupied by *A* and an undivided interest in the common elements will qualify as a sale within the meaning of section 1034(a) of the Code, and no gain or loss will be recognized to *A* on such sale, subject to the limitations of section 1034(a) of the Code and section 1.1034-1 of the Income Tax Regulations.

Part V.—Changes to Effectuate F.C.C. Policy

Section 1071.—Gain from Sale or Exchange to Effectuate Policies of F.C.C.

26 CFR 1.1071-1: Gain from sale or exchange to effectuate policies of Federal Communication Commission.

Whether a corporation that owns and operates a television station and a newspaper may treat an exchange of broadcast assets as an involuntary conversion under sections 1071 and 1033 of the Code. See Rev. Rul. 85-135, page 181.

T.D. 8058

TITLE 26—INTERNAL REVENUE.—CHAPTER 1, SUBCHAPTER A, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Mixed Straddle Account Elections Under Section 1092(b)(2)

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document amends temporary regulations relating to the election to establish mixed straddle accounts. Changes in the applicable tax law were made by the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1]. These regulations provide Internal Revenue Service personnel who administer the Internal Revenue Code and members of the public with the guidance necessary to make the election and comply with the law.

DATE: The regulations apply to positions held on or after January 1, 1984, and are effective upon publication in the Federal Register.

FOR FURTHER INFORMATION CONTACT: Timothy J. McKenna of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T). Telephone 202-566-4336 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains amendments to the Temporary Income Tax Regulations (26 CFR Part 1) under section 1092(b) of the Internal Revenue Code of 1954 which were published in the FEDERAL REGISTER on January 24, 1985 (50 FR 3324) [T.D. 8008, 1985-1 C.B. 276]. A notice of proposed rulemaking cross-referencing these temporary regulations also was published in the same issue of the FEDERAL REGISTER (50 FR 3351) [LR-299-84, 1985-1 C.B. 663]. These amendments conform the regulations to section 103 of the Tax Reform Act of 1984 (Pub. L. 98-369, 98 Stat. 62) [1984-3 C.B. (Vol. 1) 1, 135]. The temporary regulations provided by this document will remain in effect until suspended by final regulations on this subject.

SUMMARY OF CHANGES IN TEMPORARY REGULATION

This document amends §1.1092(b)-4T(f), relating to the time for making a mixed straddle account election. Under the prior rules, a mixed straddle account election was effective for the year for which it was made and for all subsequent taxable years. The regulation also provided that the election could be revoked only with the consent of the Commissioner. The election was to be made by the due date (taking extensions into account) of the taxpayer's income tax return for the taxable year for which the mixed straddle account was established. The revised temporary regulations provide in §1.1092(b)-4T(f)(4) that an election will be effective only for the taxable year for which it is made. Section 1.1092(b)-4T(f)(1) of the revised temporary regulations provides that the election to establish one or more mixed straddle accounts for a taxable year must be made by the due date (without regard to extensions) of the taxpayer's income tax return for the immediately preceding taxable year. Section 1.1092(b)-4T(f)(2) of the revised temporary regulations prescribes that the election is to be made on Form 6781 and by attaching the Form and a statement designating with specificity the class of activities for which a mixed straddle account is established to the taxpayer's income tax return for the immediately preceding taxable year (or request for an automatic extension). Section 1.1092(b)-4T(f)(3) of the revised temporary regulations sets forth transitional rules for calendar and fiscal year

taxpayers. Under the revised regulations, calendar year taxpayers must make mixed straddle account elections for taxable years 1984 and 1985 by December 31, 1985. With respect to fiscal year taxpayers, the revised regulations provide that the deadline for making mixed straddle account elections for fiscal years ending before September 1, 1986 (or, in the case of a corporation, October 1, 1986), will not be earlier than December 31, 1985. The December 31, 1985 date for making the election represents an extension of time to make the election from the October 15, 1985 date set forth in IR-85-78, issued on August 8, 1985, and Announcement 85-112, published in I.R.B. 1985-33, dated August 19, 1985.

The news release also informed certain individuals, trusts, estates, and partnerships holding mixed straddles that they would be allowed an extension of time until October 15, 1985, to file their income tax returns. New temporary regulation §1.6081-1T is being added to reflect this extension. However, no extension of the October 15, 1985 date for filing these returns is provided in these regulations.

SPECIAL ANALYSIS

No general notice of proposed rulemaking is required by 5 U.S.C. 553(b) for temporary regulations. Accordingly, the Regulatory Flexibility Act (5 U.S.C. Chapter 6) does not apply, and no regulatory flexibility analysis is required for this rule.

The Commissioner of Internal Revenue has determined that this rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis is therefore not required.

DRAFTING INFORMATION

The principal author of these temporary regulations is Timothy J. McKenna of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Part 1 is amended as follows:

Paragraph 1. The authority for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Section 1.1092(b)-4T also issued under 26 U.S.C. 1092(b)(2).

Par. 2. Paragraph (f) of §1.1092(b)-4T is revised to read as follows:

§1.1092(b)-4T Mixed straddles; mixed straddle account (temporary).

* * * * *

(f) *Election*—(1) *Time for making the election.* Except as otherwise provided, the election under this section to establish one or more mixed straddle accounts for a taxable year must be made by the due date (without regard to automatic and discretionary extensions) of the taxpayer's income tax return for the immediately preceding taxable year (or part thereof). For example, an individual taxpayer on a calendar year basis must make the election by April 15, 1986, to establish one or more mixed straddle accounts for taxable year 1986. Similarly, a calendar year corporate taxpayer must make its election by March 15, 1986, to establish one or more mixed straddle accounts for 1986. If a taxpayer begins trading or investing in positions in a new class of activities during a taxable year, the election under this section with respect to the new class of activities must be made by the taxpayer by the later of the due date of the taxpayer's income tax return for the immediately preceding taxable year (without regard to automatic and discretionary extensions), or 60 days after the first mixed straddle in the new class of activities is entered into. Similarly, if on or after the date the election is made with respect to an account, the taxpayer begins trading or investing in positions that are includible in such account but were not specified in the original election, the taxpayer must make an amended election as prescribed in paragraph (f)(2)(ii) of this section by the later of the due date of the taxpayer's income tax return for the immediately preceding taxable year (without regard to automatic and discretionary extensions), or 60 days after the acquisition of the first of the positions. If an election is made after the times specified in this paragraph (f)(1), the election will be permitted only if the Commissioner concludes that the taxpayer had reasonable cause for failing to make a timely election. For example, if a calendar year taxpayer holds few positions in one class of activities prior to April 15 of a taxable year, and the taxpayer greatly increases trading activity with respect to positions in the class of activities after April 15, then the Commissioner may conclude that the taxpayer had reasonable cause for failing to make a timely election and allow the taxpayer to make a mixed straddle account election for the taxable year. See paragraph (f)(2) of this section for rules relating to the manner for making these elections.

(2) *Manner for making the election*—(i) *In general.* A taxpayer must make the election on Form 6781 in the manner prescribed by such Form, and by attaching the Form to the taxpayer's income tax return for the immediately preceding taxable year (or request for an automatic extension). In addition, the taxpayer must attach a statement to Form 6781 designating with specificity the class of activities for which a mixed straddle account is established. The designation must describe the class of activities in sufficient detail so that the Commissioner may determine, on the basis of the designation, whether specific positions are includible in the mixed straddle account. In the case of a taxpayer who elects to establish more than one mixed straddle account, the Commissioner must be able to determine, on the basis of the designations, that specific positions are placed in the appropriate account. The election applies to all positions in the designated class of activities held by the taxpayer during the taxable year.

(ii) *Elections for new classes of activities and expanded elections.* Amended elections and elections made with respect to a new class of activities that the taxpayer has begun trading or investing in during a taxable year, shall be made on Form 6781 within the times prescribed in paragraph (f)(1) of this section. A statement must be attached to the Form containing the information required in paragraph (f)(2)(i) of this section, with respect to the new or expanded designated class of

activities.

(iii) *Special rule.* The Commissioner may disregard a mixed straddle account election if the Commissioner determines, on the basis of all the facts and circumstances, that the principal purpose for making the mixed straddle account election with respect to a class of activities was to avoid the rules of §1.1092(b)-1T(a). For example, if a taxpayer holds stock that is not part of a straddle and that would generate a loss if sold or otherwise disposed of, and the taxpayer both acquires offsetting option positions with respect to the stock and makes a mixed straddle account election with respect to the stock and stock options near the end of a taxable year, the Commissioner may disregard the mixed straddle account election.

(3) *Special rule for taxable years ending after 1983 and before September 1, 1986.* An election under this section to establish one or more mixed straddle accounts for any taxable year that includes July 17, 1984, and any taxable year that ends before September 1, 1986 (or, in the case of a corporation, October 1, 1986), must be made by the later of—

(i) December 31, 1985, or

(ii) The due date (without regard to automatic and discretionary extensions) of the return for the taxpayer's taxable year that begins in 1984 if the due date of the taxpayer's return for such year (without regard to automatic and discretionary extensions) is after December 31, 1985.

The election shall be made by attaching Form 6781 together with a statement to the taxpayer's income tax return, amended return, or other appropriate form that is filed on or before the deadline determined in the preceding sentence. The attached statement must designate with specificity, in accordance with paragraph (f)(2)(i) of this section, the class of activities for which a mixed straddle account is established. For example, if a fiscal year taxpayer's return (for its taxable year ending September 30, 1985) is due (without regard to extensions) on January 15, 1986, and the taxpayer intends to obtain an automatic extension to file the return, the election under this section for any or all of the fiscal years ending in 1984, 1985 or 1986 must be made on or before January 15, 1986, with the request for an automatic extension. Similarly, a calendar year taxpayer (whether or not such taxpayer has obtained an automatic extension of time to file) who has filed its 1984 income tax return before October 15, 1985, without making a mixed straddle account election for either 1984 or 1985, or both, may make the mixed straddle account election under this section for either or for both of such years with an amended return filed on or before December 31, 1985. The mixed straddle account elected on this amended return will be effective for all positions in the designated class of activities even if the taxpayer had elected straddle-by-straddle identification as provided under §1.1092(b)-3T for purposes of the previously filed 1984 income tax return. For taxable years beginning in 1984 and 1985, the election under this paragraph (f)(3) is effective for the entire taxable year. For taxable years beginning in 1983, an election shall be effective for that part of the year beginning after December 31, 1983, for which the election under §§1.1256(h)-1T or 1.1256(h)-2T is made. See §1.6081-1T regarding an extension of time to file certain individual income tax returns.

(4) *Period for which election is effective.* For taxable years beginning on or after January 1, 1984, an election under this section, including an amendment to the election pursuant to paragraph (f)(1) of this section, shall be effective only for the taxable year for which the election is made. This election may be revoked during the taxable year for the remainder of the taxable year only with the consent of the Commissioner. An application for consent to revoke the election shall be filed with the service center with which the election was filed and shall—

(i) Contain the name, address, and taxpayer identification number of the taxpayer;

(ii) Show that the volume or nature of the taxpayer's activities has changed substantially since the election was made, and that the taxpayer's activities no longer warrant the use of such mixed straddle account; and

(iii) Any other relevant information.

If a taxpayer's election for a taxable year is revoked, the taxpayer may not make a new election for the same class of activities under paragraph (f)(1) of this section during the same taxable year.

Par. 3. A new §1.6081-1T is added immediately after §1.6081-1 to read as set forth below.

§1.6081-1T Extension of time to file return in case of taxpayers with mixed straddles (temporary).

The due date for the income tax return of trusts, estates, partnerships, and individual taxpayers filing their return for calendar year 1984 or for a fiscal year ending before February 1, 1985, shall be October 15, 1985, if—

(a) The taxpayer obtained an extension of time to file the return pursuant to §1.6081-1 or §1.6081-4, and the due date for the return (taking the extension into account) falls after August 7, 1985 and before October 16, 1985;

(b) The taxpayer did not file the return prior to August 8, 1985; and

(c) The taxpayer held one or more mixed straddles (within the meaning of section 1092(b)(2)) at any time after December 31, 1983, and before August 8, 1985.

There is need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impractable to issue it with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved October 10, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on October 11, 1985, 10:07 a.m., and published in the issue of the Federal Register for October 17, 1985, 50 F.R. 42012)

Subchapter P.—Capital Gains and Losses
Part III.—General Rules for Determining Capital Gains and Losses

Section 1223.—Holding Period of Property

26 CFR 1.1223-1 Determination of period for which capital assets are held.

Holding periods of stock and securities received in section 351 exchange when transferred property had varying holding periods. See Rev. Rul. 85-164, page 117.

Part V.—Special Rules for Bonds and Other Debt Instruments
Subpart A.—Original Issue Discount

Section 1274—Determination of Issue Price in the Case of Certain Debt Instruments Issued for Property

(Also Sections 467, 483, 7872; 1.483-1)

Federal short-term mid-term, and long-term rates. For purposes of section 1274(d) of the Code, relating to certain transactions in which a debt instrument is issued for property, a table sets forth the applicable federal short-term, mid-term, and long-term rates for December 1985.

Rev. Rul. 85-190

Section 1274(d) of the Internal Revenue Code, as amended by section 101(b)(1) of the 1985 imputed interest simplification act (the Act), Pub. L. No. 99-121, page 367, this Bulletin, provides that the applicable federal short-term, mid-term, and long-term rates shall be determined each month. Section 1274(d), as amended, is effective for sales and exchange transactions made after June 30, 1985.

The applicable federal rates are relevant under several Code provisions, including sections 1274 and 483. These sections relate to certain transactions in which a debt instrument is issued in exchange for property and, when applicable, they generally provide the minimum interest rate that must be stated in the debt instrument in order to avoid having interest imputed for federal income tax purposes at a higher rate than the stated rate.

Prior to the amendment of section 1274(d) of the Code by section 101(b)(1) of the Act, the applicable federal rates were determined semiannually, and monthly rates were computed under the alternate method provided by section 1.274-6T of the Temporary Income Tax Regulations. The method now prescribed by section 1274(d), as amended, reflects this prior alternate method. Accordingly, the published alternate rates for July 1985 and subsequent months may be used as the applicable federal rates under section 1274(d).

Under sections 1274 and 483 of the Code, the test and imputed interest rates generally are each equal to the applicable federal rate. Under section 1274(e), however, the rate for a sale-leaseback transaction is 110 percent of the applicable federal rate. Moreover, 110 percent of the applicable federal rate continues to be relevant under section 467 (relating to certain payments for the use of property or services) and 120 percent of the applicable federal rate continues to be relevant under section 280G (relating to golden parachute payments).

Pursuant to section 1274(d) of the code, the short-term, mid-term, and long-term applicable federal rates (AFR) for the month of December 1985 are as follows:

	Period for Compounding			
	Annual	*Semiannual*	*Quarterly*	*Monthly*
Short-Term				
AFR	8.59%	8.41%	8.32%	8.27%
110% AFR	9.46%	9.25%	9.15%	9.08%
120% AFR	10.34%	10.09%	9.97%	9.88%
Mid-Term				
AFR	9.91%	9.68%	9.57%	9.49%
110% AFR	10.93%	10.65%	10.51%	10.42%
120% AFR	11.96%	11.62%	11.46%	11.35%
Long-Term				
AFR	10.60%	10.33%	10.20%	10.11%
110% AFR	11.68%	11.36%	11.20%	11.10%
120% AFR	12.78%	12.40%	12.21%	12.09%

---

26 CFR 1.1274-3T: Adequate stated interest for certain debt instruments issued after February 28, 1985.
(Also Sections 280G, 467, 468, 483, 7872; 1.483-1.)

Rev. Rul. 85-170

For purposes of section 1274(d) of the Internal Revenue Code, the short-term, mid-term, and long-term applicable federal rates (AFR) for the six-month period, January 1, 1986 through June 30, 1986, are as follows:

	Period for Compounding			
	Annual	*Semiannual*	*Quarterly*	*Monthly*
Short-Term				
AFR	8.92%	8.73%	8.64%	8.58%
110% AFR	9.83%	9.60%	9.49%	9.41%
120% AFR	10.75%	10.48%	10.35%	10.26%
Mid-Term				
AFR	10.47%	10.21%	10.08%	10.00%
110% AFR	11.55%	11.23%	11.08%	10.98%
120% AFR	12.63%	12.25%	12.07%	11.95%
Long-term				
AFR	11.11%	10.82%	10.68%	10.58%
110% AFR	12.25%	11.90%	11.73%	11.62%
120% AFR	13.40%	12.98%	12.78%	12.64%

Section 1275.—Other Definitions and Special Rules

26 CFR 1.1275-3T: Original issue discount information reporting requirements (Temporary).

T.D. 8030

TITLE 26—INTERNAL REVENUE.—CHAPTER 1, SUBCHAPTER A, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Original Issue Discount Reporting Requirements

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document provides temporary regulations relating to reporting requirements for original issue discount on publicly offered debt instruments as prescribed by section 1275(c)(2) of the Internal Revenue Code of 1954, which was added by section 41 of the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1, 39]. The temporary regulations are necessary to provide issuers of debt instruments having original issue discount with the immediate guidance needed to meet the requirements of section 1275(c)(2). The regulations are also necessary to provide guidance to officers and employees of the Internal Revenue Service with respect to the requirements of that section.

DATES: The regulations under section 1275(c)(2) apply to publicly offered debt instruments having original issue discount that are issued after August 16, 1984 and are effective June 18, 1985.

FOR FURTHER INFORMATION CONTACT: Theresa E. Bearman of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (LR-125-84). Telephone (202-566-3459) (not a toll-free number).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document provides temporary regulations relating to reporting requirements for original issue discount on publicly offered debt instruments as prescribed by section 1275(c)(2) of the Internal Revenue Code of 1954, which was added by section 41 of the Tax Reform Act of 1984 (98 Stat. 494).

The Tax Reform Act of 1984 recodified and expanded the rules relating to the tax treatment of original issue discount as previously set forth in sections 1232, 1232A, and 1232B of the Internal Revenue Code of 1954. Section 1275(c)(2) of the Code requires the issuer of a publicly offered debt instrument having original issue discount to furnish the Secretary certain information with respect to such an issue.

NEW RULES

These temporary regulations require an issuer of a publicly offered debt instrument issued at a discount to furnish the Secretary with his name, address, and taxpayer identification number, the issue date, maturity date, and CUSIP number of the issue, the amount of original issue discount for the entire issue, the issue price, the stated redemption price at maturity, the stated interest rate and dates of interest payments, a description of the issue, the method selected for determining the amount of original issue discount allocable to a short accrual period, and such other information as may be required.

QUESTIONS RESERVED

The temporary regulations do not address the question of the proper method of determining the amount of original issue discount of a debt instrument which is part of a serial issue nor do they address, for purposes of section 1275(c)(2), the proper method for determining the issue price of a stripped bond or coupon. Additionally, the regulations do not address information reporting requirements under section 1275(c)(1). These questions are under active consideration by the Internal Revenue Service.

REGULATORY FLEXIBILITY ACT

A general notice of proposed rulemaking is not required by 5 U.S.C. 553 for temporary regulations. Accordingly, the temporary regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chpater 6).

NON-APPLICABILITY OF EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this temporary rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis therefore is not required.

PAPERWORK REDUCTION ACT

The collection of information contained in these regulations has been submitted to the Office of Management and Budget in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of these temporary regulations is Theresa E. Bearman of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, on matters of both substance and style.

* * * * *

Adoption of amendments to the regulations.

Accordingly, 26 CFR Part 1 and Part 602 are amended as follows:

PART 1
INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Paragraph 1. The authority citation for Part 1 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 2. A new §1.1275-3T is added immediately following §1.1274-6T. New §1.1275-3T reads as follows:

§1.1275-3T Original issue discount information reporting requirements (Temporary)

(a) [Reserved]

(b) *Information required to be reported to Secretary*—(1) *In general.* In the case of any issue of publicly offered debt instruments issued after August 16, 1984, that have original issue discount other than an issue of debt instruments described in section 1272(a)(2), the issuer must make an information return on Form 8281. The term "issuer" includes not only domestic issuers but also any foreign issuer who is otherwise subject to United States income tax law, unless the issue is neither listed on an established securities market (as defined in §1.453-3(d)(4)) in the United States nor offered for sale or resale in the United States in connection with its original issuance. In addition, any person who makes a public offering of stripped bonds or stripped coupons (as defined in section 1286(e)(2) and (e)(3), respectively) is treated as an issuer of publicly offered debt instruments having original issue discount.

(2) *Information required to be reported.* The following information shall be reported to the Secretary on Form 8281—

(i) The name, address, and taxpayer identification number of the issuer;

(ii) The issue date (as defined in section 1275(a)(2)), maturity date, and CUSIP number of the issue;

(iii) The amount of original issue discount for the entire issue (as defined in section 1273(a)(1));

(iv) The issue price (ad defined in section 1273(b)) expressed as a percentage of the principal amount;

(v) The stated redemption price at maturity of the entire issue, or of each debt instrument within the issue if in denominations of other than $1,000;

(vi) The stated interest rate and the interest payment dates;

(vii) A description of the debt instrument, or, in place of the description, a copy of the offering circular or prospectus, which description shall include a statement of any terms and conditions of the instrument that govern—

(A) Whether payments of principal may be made prior to maturity of the debt instrument;

(B) Whether the debt instrument is part of an investment unit;

(C) Whether the debt instrument is issued in an exchange described in section 368(a);

(D) Whether the debt instrument is part of a serial issue;

(E) Whether the debt instrument is a stripped bond or stripped coupon; and

(F) Whether the debt instrument is collateralized by United States Treasury bonds;

(viii) The method selected for computing the amount of original issue discount allocable to a short accrual period; and

(ix) Such other information as is required by the form.

(3) *Time and manner of filing of information return*—(i) The information return required by paragraph (b)(1) of this section shall be filed on Form 8281 with the Internal Revenue Service at the address specified on the form. This return must be made on Form 8281 regardless of whether other information returns are filed by use of electronic media.

(ii) Form 8281 shall be filed with respect to each issue of publicly offered debt instruments—

(A) For debt instruments issued after May 31, 1985, within 30 days after date of issuance; and

(B) For debt instruments issued after August 16, 1984, and before June 1, 1985, on or before July 1, 1985.

(4) *Penalty.* For rules relating to the penalty provided for failure to make an information return under paragraph (b) of this section, see section 6706(b) and the regulations under that section.

PART 602
OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Par. 3. The authority citation for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 4. Section 602.101(c) is amended by inserting in the appropriate places in the table "§1.1275-3T....1515-".

There is a need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue this Treasury decision with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved May 24, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on June 17, 1985, 8:45 a.m., and published in the

issue of the Federal Register for June 18, 1985, 50 F.R. 25219)

Subchapter S.—Tax Treatment of S Corporations and Their Shareholders
Part I.—In General

Section 1361.—S Corporation Defined

Small business S corporation; stock purchase agreement; second class of stock. A stock purchase agreement executed between a corporation and its shareholders, that does not affect the shareholders' rights in the corporation's profits and assets, will not create a second class of stock for purposes of section 1361(b)(1)(D) of the Code.

Rev. Rul. 85-161

ISSUE

Will the stock purchase agreement described below cause a corporation to be treated as having more than one class of stock within the meaning of Section 1361(b)(1)(D) of the Internal Revenue Code?

FACTS

Corporation *X* has two classes of stock issued and outstanding: voting common stock and nonvoting common stock. The nonvoting stock is held by *A*, *B*, and *C*, siblings, and by *D*, an unrelated individual who is an officer of the corporation. *A* and *B* own all the voting stock. The voting and nonvoting shares are identical other than with respect to voting rights and other than as provided in a shareholder's agreement described below.

X and all the shareholders of *X* have entered into an agreement with respect to the transfer of *D*'s stock. Under the agreement, *D* may transfer *D*'s stock only after obtaining the consent of the holders of voting stock in *X*. If such consent cannot be obtained, *D* may sell the stock only to the corporation or the other shareholders at book value. Other provisions of the agreement give *X* or the other shareholders the right to purchase *D*'s stock in the event of *D*'s termination of employment or disability and upon *D*'s death.

X filed an election to be an S corporation under section 1362 of the Code with respect to its taxable year beginning Januarry 1, 1984.

LAW AND ANALYSIS

Section 1361(b)(1)(D) of the Code provides that the term "small business corporation" means a corporation that does not have more than one class of stock.

Section 1361(c)(4) of the Code provides that for purposes of section 1361(b)(1)(D), a corporation will not be treated as having more than one class of stock solely because there are differences in voting rights among the shares of common stock.

Although there may be differences in voting rights among the shares of common stock, the outstanding shares of a corporation must be identical as to the rights of the holders in the profits and in the assets of the corporation. S. Rep. No. 97-640, 97th Cong., 2d Sess. 8 (1982), 1982-2 C.B. 718, 721.

In this case, all shares of *X*'s stock are equal with respect to rights to profits and rights in the assets of the corporation. The agreement restricting the transfer of *D*'s stock does not affect *D*'s interest in corporate profits or corporate assets while *D* is a shareholder. Therefore, *X* does not have more than one class of stock within the meaning of section 1361(b)(1)(D) of the Code.

HOLDING

The stock purchase agreement with respect to stock held by *D* will not cause the corporation to be treated as having more than one class of stock for purposes of section 1361(b)(1)(D) of the Code.

Chapter 3.—Withholding of Tax on Nonresident Aliens and Foreign Corporations
Subchapter A.—Nonresident Aliens and Foreign Corporations

Section 1441.—Withholding of Tax on Nonresident Aliens

26 CFR 1.1441-1: Requirement for withholding of tax on nonresident aliens, foreign partnerships, and foreign corporations.

Requirements and conditions under which Forms 1042S withholding information returns may be filed on magnetic tape. See Rev. Proc. 85-53, page 721.

---

26 CFR 1.1441-2: Income subject to withholding. (Also Section 1442; 1.1442-1.)

Withholding of tax on nonresidents; interest. Withholding of tax pursuant to sections 1441 and 1442 of the Code on interest paid to nonresident aliens and foreign corporations on obligations that are purchased between interest payment dates is based on the gross amount of interest paid on the interest payment date.

Rev. Rul. 85-193

ISSUE

Whether withholding of tax pursuant to sections 1441 and 1442 of the Internal Revenue Code on United States source interest paid to nonresident aliens and foreign corporations on obligations that are purchased between interest payment dates is based on the gross amount of interest paid on the interest payment date or on the amount of interest that has accrued from the date of purchase.

FACTS

X, a domestic bank, acts as a custodian for obligations which are in registered form and are owned by nonresident aliens and foreign corporations. *X*, as custodian, holds the obligations on account for its nonresident alien and foreign corporate customers and forwards United States source interest paid on the obligations to its customers. Some of the obligations held by *X* for its customers were purchased between interest payment dates at a price that reflected the principal value of the obligation plus interest accrued to the date of purchase.

The interest on the obligations held by *X* is not portfolio interest within the meaning of section 871(h) and 881(c) of the Code and is not effectively connected with the conduct of a trade or business within the United States.

LAW AND ANALYSIS

Section 1441(a) of the Code provides in general that all persons, in whatever capacity acting (including fiduciaries) having the control, receipt, custody, disposal, or payment of any of the items of income specified in section 1441(b) (to the extent that any of such items constitutes gross income from sources within the United States), of any nonresident alien individual or of any foreign partnership shall deduct and withhold from such items a tax equal to 30 percent thereof. The items

of income specified in section 1441(b) include interest (other than original issue discount as defined in section 1273) and other fixed or determinable annual or periodical gains, profits, and income. Section 1442(a) provides for withholding of tax in the same manner with respect to the same items of income in the case of foreign corporations.

Section 1.1441-2(a)(1) of the Income Tax Regulations provides that the gross amount of fixed or determinable annual or periodical income is subject to withholding and specifically includes interest in such items of income.

Section 1.1441-3(c)(3) of the regulations concerning exceptions and rules of special application provides that tax shall be withheld at the source on the gross amount of interest without regard to whether or not the payment constitutes a return of capital or the payment of income within the meaning of section 61. The section, by example, states that tax shall be withheld on the gross amount on interest payments upon bonds which were purchased flat at quotations representing the price of both the bonds and the defaulted matured interest coupons.

HOLDING

Withholding of tax pursuant to section 1441 and 1442 of the Code on United States source interest paid to nonresident aliens and foreign corporations on obligations that are purchased between interest payment dates is based on the gross amount of interest paid.

Accordingly, *X* must withhold tax pursuant to sections 1441 and 1442 of the Code on United States source interest paid by it on obligations that are purchased by its customers between interest payment dates, based on the gross amount of interest paid following the date of purchase.

Chapter 6.—Consolidated Returns
Subchapter A.—Returns and Payment of Tax

Section 1502.—Regulations

26 CFR 1.1502-13: Intercompany transactions. (Also Sections 453A, 1001; 1.453-1.)

Consolidated returns; intercompany transactions. A parent corporation that is a dealer in personal property may not treat the extension of credit by its subsidiary, a national bank, to the parent corporation's customers as equivalent to the parent corporation selling on the installment basis to its customers and then selling the installment obligations in a deferred intercompany transaction to its subsidiary.

Rev. Rul. 85-133

Under the circumstances described below, may *P* treat the extension of credit by *BK* to *P*'s customers and the sale of merchandise by *P* to these same credit customers as equivalent to *P* selling on the installment basis to its customers and then selling the installment obligations in a deferred intercompany transaction to *BK*?

FACTS

P is the common parent of an affiliated group of corporations that files consolidated federal income tax returns. *P* is a retailer providing merchandise and services to customers and is using the accrual method of accounting for federal income tax purposes.

P and *BK*, a national bank, is a member of *P*'s affiliated group.

P and *BK* have entered into an agreement in which *BK* extends credit to *P*'s customers by issuing credit cards that can only be used by *P*'s customers to purchase merchandise and services from *P*. The face amount of each purchase is paid by *BK* to *P*, reduced by a fee equivalent to a merchant discount. *BK* is entitled to any finance charge income. Under the terms of the credit agreement, the cardholder may make two or more payments for credit purchases of *P*'s merchandise.

For federal income tax reporting purposes *P* has returned the income from its credit sales on the installment

method as if it had originated the installment obligations and had "sold" the installment obligations to *BK* in a deferred intercompany transaction.

LAW AND ANALYSIS

Section 1.1502-13(a)(1)(i) of the regulations defines an "intercompany transaction" to be a transaction during a consolidated return year between corporations that are members of the same group immediately after such transaction. A "deferred intercompanay transaction" is defined by section 1.1502-13(a)(2) as the sale or exchange of property.

Section 1.1502-13(c) of the regulations provides that to the extent gain or loss is recognized under the Code for a consolidated return year, such gain or loss shall be deferred by the selling member according to specific rules set forth in section 1.1502-13(d), (e) and (f) governing restoration of such deferred gain or loss.

Section 1.1502-13(e)(1) of the regulations provides for the restoration of gain or loss on satisfaction of an installment obligation transferred in a deferred intercompany transaction.

Section 1.1502-17(a) of the regulations provides that the method of accounting to be used by *each* member of the group shall be determined in accordance with the provisions of section 446 *as if such member filed a separate return*. (Emphasis added).

Section 446(c) of the Internal Revenue Code provides that a taxpayer may compute its taxable income under any permissible method of accounting, provided that it is the basis upon which the taxpayer regularly computes its income in keeping its books and the method clearly reflects income.

Section 1.446-1(c)(1)(iii) of the regulations states that the installment method is a permissible method and cross-references section 453 of the Code.

The Installment Sales Revision Act of 1980, P.L. 96-471, 1980-2 C.B. 489, continued the existing law under section 453 of the Code with respect to dealers in personal property by adding section 453A of the Code. Section 453A(a)(1) and section 1.453-1(a) of the regulations provide that a person who regularly sells or otherwise disposes of personal property on the installment plan may return as income therefrom in any tax year that proportion of the installment payments actually received in that year which the gross profit, realized or to be realized when payment is completed, bears to the total contract price.

The provisions of section 1.1502-13 of the regulations set forth the general rules for intercompany transactions, including the sale or exchange of property, such as installment obligations, between members of the same consolidated group. In accordance with the specific language of section 1.1502-17(a), however, it is necessary first to determine whether the initial sale of merchandise by *P* under its arrangement with *BK* qualifies as an installment sale under section 453A and second, whether *P* has sold *BK* its installment obligations under section 1001, before the intercompany transaction provisions set forth in section 1.1502-13 can apply.

With respect to the first consideration, section 453(A) of the Code specifically allows dealers in personal property, that is, persons who regularly sell or otherwise dispose of personal property on the installment plan, to return the income from these sales on the installment method. Whether a dealer is regularly selling on the installment basis is determined by several factors, such as the number and frequency of installment sales made throughout the year, the ratio or proportion between installment sales and total sales, the period over which the installment sales are made and the general holding out to the public that such arrangements could be made. *Davenport Machine & Foundry Co. v. Commissioner*, 18 T.C. 39 (1952), *acq.*, 1952-2 C.B. 1; *Louis Greenspon v. Commissioner*, 23 T.C. 138 (1954), *aff'd* and *rev'd* on other grounds, 229 F.2d 947 (8th Cir. 1956).

In the instant situation, *P*'s selling practice within its own separate trade or business, rather than its arrangement with *BK*, is controlling to determine whether *P* regularly sells on the installment plan. Since *P* does not offer installment terms with respect to any items it sells throughout the year, the factors of frequency of installment sales, number of installment sales throughout the year and the general holding out to the public do not apply and *P* cannot be considered as selling on the installment basis. The fact that *BK*, a member of *P*'s consolidated group, advances credit to *P*'s customers does not alter the determination that section 453A of the Code does not apply to *P*'s sales. Each member of the consolidated group must determine its method of accounting as if it filed a separate return. *BK* would not be entitled to use the installment method because it is not a dealer in personal property. *See* section 1.1502-17 of the regulations and section 453A of the Code.

Generally, a seller is required to extend credit initially to its customers in order to be eligible for installment reporting. An exception to this general rule has been made in the case of an agent of the seller that extends credit to the seller's customers. *See* Rev. Rul. 76-269, 1976-2 C.B. 129, for example, in which the seller of condominium units is allowed to report income on the installment method even though a mortgage company acting as the seller's agent extends credit to the purchasers in the form of notes which the seller is obligated to purchase immediately following the making of each loan.

In the present situation, *BK* is operating as a separate and distinct entity within *P*'s consolidated group, *P* is fully paid by *BK* for the merchandise *P* sells to its credit customers, *P* is under no obligation to buy the installment obligation from *BK* immediately after the sale and *P* does not bear any risk of loss upon possible default of the credit customer. Accordingly, the exception set forth in Rev. Rul. 76-269 does not apply for *P*. Therefore, *P*'s initial sale of merchandise to its credit customers does not qualify for installment sale treatment.

With respect to the second consideration, there has been no sale or exchange of property between *P* and *BK*. The fact that *P* could have structured its arrangement with *BK* differently by regularly selling its merchandise on the installment plan and then selling the resulting installment obligations to *BK* does not alter this determination . In the instant situation, there has been no sale or exchange of property between *P* and *BK* within the meaning of section 1001 of the Code, as required by section 1.1502-13(a)(2) of the regulations,

and no series of hypothetical intermediate transactions are sufficient to satisfy the requirement of a sale or exchange when none has taken place. *See*, for example, *Hummel v. Commissioner*, T.C.M. 1970-341, and *Giberson v. Commissioner*, T.C.M. 1982-338, in which it was held that the form in which the taxpayer casts a transaction, and not a hypothetical series of transactions, controls for tax purposes, unless what occurred in substance differed from what the form indicates.

HOLDING

Under the circumstances described above, *P* may not treat, for federal income tax purposes, the extension of credit by *BK* to *P*'s customers and the sale of merchandise by *P* to these same credit customers as equivalent to *P* selling on the installment basis to its customers and then selling the installment obligations in a deferred intercompany transaction to *BK*.

---

26 CFR 1.1502-25: consolidated section 922 deduction.
(Also Section 1503; 1.1503-1.)

Consolidated returns; Western Hemisphere trade corporations. Under certain circumstances the Service will no longer require application of the fractional method without losses set forth in section 1.1502-25(c) of the regulations for purposes of determining the "portion of the consolidated taxable income" attributable to those members of an affiliated group that are Western Hemisphere trade corporations (WHTCs).

Rev. Rul. 85-136

The Internal Revenue Service will no longer litigate the issue considered by the United States Court of Claims in *American Standard, Inc. v. United States*, 602 F.2d. 256 (Ct. Cl. 1979), *Union Carbide Corporation v. United States*, 612 F.2d 558 (Ct. Cl. 1979), and *Allied Corporation v. United States*, 685 F.2d 396 (Ct. Cl. 1982). Specifically, the Service will no longer require application of the fractional method without losses set forth in section 1.1502-25(c) of the Income Tax Regulations for purposes of determining the "portion of the consolidated taxable income" attributable to those members of an affiliated group filing a consolidated return that are Western Hemisphere trade corporations (WHTCs). Such "portion of the consolidated taxable income" must be determined for purposes of computing the consolidated section 922 deduction, now repealed, under section 1.1502-25, and the foreign tax credit reduction under section 1503(b)(1) of the Internal Revenue Code, also now repealed.

The court in *American Standard* declared invalid the last sentence of section 1.1502-25(c)(2) of the regulations, which requires the exclusion of loss members of an affiliated group filing a consolidated return from a formula used to determine the portion of consolidated taxable income attributable to those members of a consolidated group that qualify as Western Hemisphere Trade Corporations (WHTCs) under repealed section 921 of the Code. Under section 1.1502-25(c) of the regulations, it is necessary to determine the portion of consolidated taxable income attributable to WHTCs in order to calculate the amount of the consolidated section 922 deduction allowed against income of the WHTCs. The taxpayer's method of computing the consolidated section 922 deduction on its return was to include loss members in the fraction used to compute the portion of consolidated taxable income attributable to WHTCs, in order to calculate the amount of the consolidated section 922 deduction allowed against income of the WHTCs.

The court in *Union Carbide Corporation* declared the last sentence of section 1.1502-25(c)(2) of the regulations to be invalid for purposes of computing the foreign tax credit reduction required by repealed section 1503(b)(1) of the Code for affiliated groups with WHTC members. Although the court agreed with the Government that the phrase "portion of consolidated taxable income attributable to such [Western Hemisphere trade] corporation" in section 1503(b)(1) has the same meaning as it does in section 1.1502-25 of the regulations, the court held that the method of computing such amount for purposes of the consolidated section 922 deduction upheld in *American Standard* also applied to computing the foreign tax credit reduction required by section 1503(b)(1).

In *Allied Corporation* the court considered three cases, all of which involved the proper method of computing the section 922 deduction granted WHTCs when consolidated returns are filed. The court reaffirmed its decision in *American Standard*, and as to one of the taxpayers it held that the appropriate method by which a WHTC's net operating losses were to be carried back was the method found in section 1.1502-79(a) of the regulations.

In light of the fact that these cases were decided in a court of national jurisdiction and that the statutory provisions have been repealed, the Service will follow these decisions, in cases presenting the same facts, and subject to the conditions set forth herein, as a basis for disposing of this issue in determining the consolidated section 922 deduction, as well as the section 1503(b)(1) foreign tax credit reduction.

The *American Standard* opinion rejected the Service's argument that the fractional method with losses was unreasonable because it permitted "the portion of consolidated taxable income attributable to" the WHTCs to be greater than the whole. In so doing, the *American Standard* opinion relied by analogy on section 1.1502-27 of the regulations, stating that:

Under the *aggregate method with losses*, the "portion of the consolidated taxable income" attributable to the corporation to which the deduction is given by section 922 or section 247 is the actual net taxable income contributed by the group, and, therefore, can be greater than actual consolidated taxable income. Defendant's argument questions, in effect, the reasonableness of section 1.1502-27. We conclude, however, that utilizing the actual net taxable income of the subgroup for which the deduction is intended, complies fully with section 922, section 247, and the consolidated return statutes.

The phrase "portion of the consolidated taxable income" is not found in section 1.1502-27 of the regulations, as it is in section 1.1502-25 and section 1503(b)(1) of the Code. Moreover, in the *American Standard* case (and the Court of Claims cases following *American Standard*), the consolidated taxable income was in fact greater than the portion of the consolidated taxable in-

come determined to be attributable to the WHTCs. Accordingly, the quoted statement was dictum, and it is the Service's position that it is erroneous.

Although the Service will follow *American Standard, Union Carbide* and *Allied Corporation* in cases having the same factual pattern as the decided cases, the Service will adhere to its position that the portion of the consolidated taxable income attributable to the members of the affiliated group that are WHTCs cannot exceed the total consolidated taxable income.

The Service will not take adverse action against those taxpayers who have relied upon, and consistently applied, section 1.1502-25(c) of the regulations. However, a taxpayer will not be permitted to choose from year to year either the method prescribed in section 1.1502-25(c) or the method approved in this ruling, whichever is more favorable.

Section 1503.—Computation and Payment of Tax

26 CFR 1.1503-1: Computation and payment of tax.

Computation of the foreign tax credit reduction under section 1503(b)(1) of the Code (now repealed) for Western Hemisphere trade corporations when consolidated returns are filed. See Rev. Rul. 85-136, page 194.

Subtitle B.—Estate and Gift Taxes
Chapter 11.—Estate Tax
Subchapter A.—Estate of Citizens or Residents
Part I.—Tax Imposed

Section 2001.—Imposition and Rate of Tax

T.D. 8044

TITLE 26—INTERNAL REVENUE.—CHAPTER 1, SUBCHAPTER B, SUBCHAPTER H, PART 27—TEMPORARY ESTATE, GIFT AND GENERATION-SKIPPING TRANSFER TAX REGULATIONS UNDER THE TAX REFORM ACT OF 1984; PART 602—REPORTING AND RECORDKEEPING REQUIREMENTS

Reports of Transfers of Public Housing Bonds

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document contains temporary estate, gift and generation-skipping transfer tax regulations relating to the reporting requirements for certain transfers of public housing bonds under the Tax Reform Act of 1984 [1984-3 C.B. (Vol. 1) 1]. The regulations provide Internal Revenue Service personnel who administer the Internal Revenue Code and members of the public with the guidance necessary to comply with the law.

DATES: The regulations apply to transfers of public housing bonds made after December 31, 1983, and before June 19, 1984.

FOR FURTHER INFORMATION CONTACT: Fred E. Grundeman of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) 202-566-3287, not a toll-free call.

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains temporary estate, gift and generation-skipping transfer tax regulations relating to certain reporting requirements involving public housing bonds. These amendments reflect section 642 of the Tax Reform Act of 1984 (the 1984 Act) (Pub. L. 98-369, 98 Stat. 939). This document adds a new Part 27, Temporary Estate, Gift and Generation-Skipping Transfer Tax Regulations under the Tax Reform Act of 1984, to Title 26 of the Code of Federal Regulations.

TRANSFERS OF PUBLIC HOUSING BONDS

In *Haffner v. United States*, 585 F. Supp. 354, affd. 757 F. 2nd 920, it was held that the value of public housing bonds issued under section 11(b) of the Housing Act of 1937 is not includible in a decedent's gross estate and thus the bonds are exempt from Federal estate tax. Section 641 of the 1984 Act clarifies that transfers of such bonds made after June 18, 1984, are subject to Federal estate, gift and generation-skipping transfer tax. Section 642(a) of the 1984 Act requires that taxpayers who transfer such bonds after December 31, 1983, and before June 19, 1984, must report the amount and date of such transfers so that a determination of the tax and interest due can be made if it is ultimately determined that such transfers are subject to tax. Section 642(b) of the 1984 Act provides that a taxpayer who fails to provide the information required to be reported under section 642(a) and such regulations as are prescribed will be liable for a penalty. The amount of the penalty shall be 25 percent of the additional gift, estate or generation-skipping transfer tax that would be payable if such transfers were subject to tax. The regulation requires that in order to avoid the penalty such reports must be made, on the appropriate Federal tax form, by the later of (1) the due date for the tax return covering the period when the transfer was made (including extensions); or (2) December 31, 1985.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this temporary regulation is not a major rule as defined in Executive Order 12291. Accordingly, a regulatory impact analysis is not required.

A general notice of proposed rulemaking is not required by 5 U.S.C. 553(b) for temporary regulations. Accordingly, the temporary regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

PAPERWORK REDUCTION ACT

The collection of information requirements contained in this regulation have been submitted to OMB for review under the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of these regulations is Fred E. Grundeman, of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, a new Part 27, Temporary Estate, Gift and Generation-Skipping Transfer Tax Regulations under the Tax Reform Act of 1984 is added to Title 26 of the Code of Federal Regulations, and 26 CFR Part 602 is amended as follows:

Paragraph 1. A new Part 27 is adopted as set forth below.

PART 27—TEMPORARY ESTATE, GIFT AND GENERATION-SKIPPING TRANSFER TAX REGULATIONS UNDER THE TAX REFORM ACT OF 1984.

Sec. 27.642-1 Reports of transfers of public housing bonds.

Authority: 26 U.S.C. 7805; §27.642-1 also issued under 26 U.S.C. 2001, note, Pub. L. 98-369, §642.

§27.642-1 Reports of transfers of public housing bonds.

(a) *In general.* If a donor or a decedent transfers bonds issued under section 11(b) of the United States Housing Act of 1937 (public housing bonds) after December 31, 1983, and before June 19, 1984, the taxpayer shall report the date and amount of such transfer in the time and manner provided in this section.

(b) *Manner of reporting*—(1) *Transfers from decedents.* The fair market value of public housing bonds transferred by a decedent dying after December 31, 1983, and before June 19, 1984, that are not reported for Federal estate tax purposes as part of the total value of the gross estate of the decedent shall be reported (along with sufficient information to identify the type of bonds) by the executor of the estate on Form 706 (or 706NA), United States Estate Tax Return, or on a statement attached to such return.

(2) *Transfers from donors.* The fair market value of public housing bonds transferred for less than full and adequate consideration in money or money's worth after December 31, 1983, and before June 19, 1984, that are not reported as part of the total amount of gifts made by a donor during the calendar year 1984 shall be reported by the donor along with the date of the transfer (and sufficient information to identify the type of bonds) on Form 709 (or Form 709A), United States Gift Tax Return, or on a statement attached to such return.

(3) *Generation-skipping transfers.* The fair market value of public housing bonds transferred in a generation-skipping transfer (as defined in section 2611(a)) occurring after December 31, 1983, and before June 19, 1984, and not reported as a generation-skipping transfer under chapter 26 of the Internal Revenue Code of 1954 shall be reported by the trustee of the generation-skipping trust (or trust equivalent) along with the date of the transfer (and sufficient information to identify the type of bonds) on form 706-B, Generation-skipping Transfer Tax Return, or on a statement attached to such return.

(c) *Time for reporting.* If a taxpayer must report transfers of public housing bonds as provided in paragraph (b) of this section, the date and amount of such transfer shall be disclosed in an appropriate schedule on the appropriate return or in a statement attached to the return on or before the later of (1) the due date of the return (including extensions); or (2) December 31, 1985. If the taxpayer has previously filed Form 709, 709A or 706B without reporting such transfers the taxpayer shall file an amended Form disclosing the transfer. Where the executor of an estate has previously filed Form 706 or 706NA without reporting such transfers the executor must file a statement reporting the required information along with a copy of the first page of the previously filed return for association with that return.

(d) *Penalty for failure to report.* Except as provided below, any taxpayer failing to provide the amount and date of any transfer of public housing bonds as required in this section shall be liable for a penalty equal to 25 percent of the excess of (1) the estate tax, the 1984 gift tax, or the 1984 generation-skipping transfer tax that would be payable assuming such transfers are subject to tax, over (2) the applicable tax payable assuming such transfers are not subject to tax. This section shall not apply to any taxpayer if the total value of the taxpayer's transfers (including the value of the public housing bonds) is less than the minimum filing requirement for the appropriate Federal transfer tax return.

Par. 2. The authority citation for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 3. Section 602.101(c) is amended by inserting in the appropriate place in the table:

"§27.642-1 1545-0020"

There is need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue this Treasury decision with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved July 19, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on August 7, 1985, 8:45 a.m., and published in the issue of the Federal Register for August 8, 1985, 50 F.R. 32010)

Part II.—Credits Against Tax

Section 2013.—Credit for Tax on Prior Transfers

26 CFR 20.2013-4: Valuation of property transferred.

Credits against tax; prior transfers; valuation; termination of life interest upon remarriage. A remarriage contingency will not result in disallowance of the credit for tax or prior transfers. It is a valuation factor to be taken into account in determining the value of the income interest transferred.

Rev. Rul. 85-111

ISSUE

Does the contingency of termination of a life income interest upon remarriage require disallowance of the credit for tax on prior transfers under section 2013 of the Internal Revenue Code?

FACTS

D received a life income interest in a trust created under the will of *D*'s spouse *S* who died in 1980. The trust provided that *D* was to receive all the net income of the trust, in quarter-annual installments, until *D*'s death or

remarriage, whichever occurred first. This income interest did not qualify for the marital deduction in *S*'s estate; consequently, part of the federal estate tax paid by *S*'s estate was attributable to the life income interest. *D* died in 1984.

LAW AND ANALYSIS

Section 2013 of the Code provides for allowance of a credit against the federal estate tax of a present decedent for the federal estate tax paid on the transfer of property to the present decedent from another decedent who died within ten years before, or two years after, the present decedent's death. Section 20.2013-4 of the Estate Tax Regulations provides that the value of the property transferred to the present decedent is the value used for purposes of determining the federal estate tax of the prior decedent (taking into account the effect of any death taxes, encumbrances, and any marital or charitable deduction allowed).

Section 2013 of the Code requires that the credit for tax or prior transfer is available only if the transferee's interest is susceptible of valuation as of the date of the transferor's death. Section 20.2013-4 of the regulations.

If the flow of income to a life income transferee is subject to interruption through the exercise of a trustee's uncontrolled discretion, the transferee beneficiary's interest cannot be valued according to recognized valuation methods. Rev. Rul. 67-53, 1967-1 C.B. 265, holds that under such circumstances, since the transferee beneficiary's interest is not susceptible of valuation as of the date of the transferor's death, the credit for tax on prior transfers under section 2013 is not allowable, notwithstanding that such income was actually paid to the transferee. *See also Estate of Wraith v. United States*, 575 F.2d 1288 (9th Cir. 1978), which held that because of broad discretionary powers of the trustees, a life income interest was incapable of valuation under recognized valuation principles for purposes of section 2013.

The possibility of termination of a survivor's annuity upon the remarriage of the annuity beneficiary is taken into account as a valuation factor in determining the value of the annuity includible in a decedent's gross estate under section 2039 of the Code. Rev. Rul. 74-557, 1974-2 C.B. 301. Thus, a remarriage contingency in these circumstances does not render a lifetime interest incapable of valuation for purposes of sections 2039 or 2013 of the Code.

HOLDING

The contingency of termination of a life income interest upon remarriage does not require disallowance of the credit for tax on prior transfers under section 2013 of the Code. The remarriage contingency is a valuation factor to be taken into account in determining the value of the income interest transferred.

Part III.—Gross Estate

Section 2032.—Alternate Valuation

26 CFR 20.2032-1: Alternate valuation.

Whether an annuity qualifies for the marital deduction under section 2056(a) of the Code, if another person's contingent interest therein will be extinguished before the alternate valuation date under section 2032 of the Code. See Rev. Rul. 85-100, page 200.

Section 2032A.—Valuation of Certain Farm, etc., Real Property

Valuation; special use. For purposes of the 25 percent test of section 2032A(b)(1)(B) of the Code, the aggregation of the adjusted value of real estate in different businesses is allowable and, for purposes of the 50 percent test of section 2032A(b)(1)(A), aggregation of the adjusted value of personalty is allowable if associated with real estate that otherwise meets the requirements of that test.

Rev. Rul. 85-168

ISSUE

Under the circumstances below, may a decedent's estate combine the adjusted values of property used in more than one trade or business for purposes of meeting the requirements of section 2032A(b)(1)(A) and (B) of the Internal Revenue Code?

FACTS

D, a citizen of the United States, died in 1984 owning a parcel of real estate located in state *X*. At the time of D's death, *D* was using the real estate as a farm for farming purposes and had owned and operated the farm for more than ten years immediately preceding that time. The adjusted value (as defined in section 2032A(b)(3) of the Code) of the real estate comprised 20 percent of the adjusted value of *D*'s gross estate. The adjusted value of the personal property devoted to farming use on the farm comprised 10 percent of the adjusted value of *D*'s gross estate.

On the date of *D*'s death, *D* also owned a building located in state *X*. At that time, *D* was using the building in a business other than farming. *D* had owned the building for a period of more than ten years preceding *D*'s death. At all times during that period, *D* used the building in the business and personally operated the business. The adjusted value of the building was 22 percent of the adjusted value of *D*'s gross estate.

Under *D*'s will, both the farm and the building passed to qualified heirs within the meaning of section 2032A of the Code.

LAW AND ANALYSIS

Section 2032A(a) of the Code provides that if the decedent was (at the time of the decedent's death) a citizen or resident of the United States and the executor elects the application of section 2032A and files the agreement referred to in section 2032A(d)(2), then, for purposes of the federal estate tax, the value of qualified real property will be its value for the use under which it qualifies, under section 2032A(b), as qualified real property. The aggregate decrease in the value of qualified real property which results from the application of section 2032A(a) with respect to any decedent may not exceed $750,000.

Section 2032A (b)(1) of the Code defines the term "qualified real property" to mean real property located in the United States which was acquired from or passed from the decedent to a qualified heir of the decedent and which, on the date of the decedent's death, was being used for a qualified use by the decedent or a member of the decedent's family, but only if—

(A) 50 percent or more of the adjusted value of the gross estate consists of the adjusted value of real or personal property which, on the date of the de-

cedent's death, was being used for a qualified use by the decedent or a member of the decedent's family, and was acquired from or passed from the decedent to a qualified heir of the decedent;

(B) 25 percent or more of the adjusted value of the gross estate consists of the adjusted value of real property which was acquired from or passed from the decedent to a qualified heir and which meets the requirements of section 2032A(b)(1)(C);

(C) during the 8-year period ending on the date of the decedent's death there were periods aggregating 5 years or more during which the real property was owned by the decedent or a member of the decedent's family and there was material participation by the decedent or a member of the decedent's family in the operation of the farm or other business; and

(D) the real property is designated in the agreement referred to in section 2032A(d)(2).

Section 2032A(b)(2) of the Code defines the term "qualified use" to mean the devotion of the property to any of the following: (A) use as a farm for farming purposes, or (B) use in a trade or business other than the trade or business of farming.

Section 2032A(b)(3) of the Code defines the term "adjusted value" to mean (A) in the case of the gross estate, the value of the gross estate for federal estate tax purposes (determined without regard to section 2032A), reduced by any amount allowable as a deduction under section 2053(a)(4) (relating to unpaid mortgages, etc.) or (B) in the case of any real or personal property, the value of the property (determined without regard to section 2032A), reduced by any amounts allowable as a deduction in respect of that property under section 2053(a)(4).

In the instant case, the real property used as a farm, the personal property used in farming operations, and the building passed to qualified heirs within the meaning of section 2032A of the Code. All the property, real and personal, was being used by *D* for a qualified use (as defined in section 2032A(b)(2)) on the date of *D*'s death. In addition, both the real estate used as a farm and the building were owned continuously by *D* and were used for a qualified use by *D* for at least five years during the eight-year period ending on the date of *D*'s death, and *D* had personally operated the farm and other business during that time. Therefore, if the adjusted value of the real estate used as a farm may be combined with the adjusted value of the building, then the requirements of section 2032A(b)(1)(B) are met since the combined adjusted value of the real property equals 42 percent of the adjusted value of *D*'s gross estate. Likewise, if the adjusted value of the real property used as a farm and the personal property used in farming operations may be combined with the adjusted value of the building, then the requirements of section 2032A(b)(1)(A) are met since the combined adjusted value of the real and personal property equals 52 percent of the adjusted value of *D*'s gross estate.

In *Estate of Geiger* v. *Commissioner*, 80 T.C. 484 (1983), the decedent died owning real estate used as a farm for farming purposes. The decedent also owned and operated a hardware business on leased real estate. The adjusted value of the farm, including personal property associated with the farm, was 42 percent of the adjusted value of the decedent's gross estate. The adjusted value of the farm property combined with the adjusted value of the personal property of the hardware business was 53 percent of the adjusted value of the gross estate. The court held that the adjusted value of the personal property of the hardware business could not be taken into account in determining whether the 50 percent test set forth in section 2032A(b)(1)(A) of the Code was met. The court believed that Congress did not intend section 2032A(b)(1)(A) to include personal property that was unconnected with real property that was being used for a qualifying use.

In the instant case, however, the personal property is connected with real property that meets the requirements of section 2032A(b)(1)(A) of the code. Thus, *Estate of Geiger* is distinguishable from the instant case. *D*'s estate may therefore combine the adjusted value of the personal property used for farming with the adjusted value of real property used in farming or in a separate trade or business for purposes of meeting the 50 percent requirement of section 2032(b)(1)(A) because the personal property is connected with qualifying real estate in the same enterprise.

HOLDING

For purposes of section 2032A(b)(1)(A) of the Code, *D*'s estate may combine the adjusted value of the real property used as a farm and personal property used in farming operations with the adjusted value of the building used in the separate business. Likewise, for purposes of section 2032A(b)(1)(B), the adjusted value of the real property used as a farm may be combined with the adjusted value of the building.

---

26 CFR 20.2032A-4: Method of valuing farm real property.

Special use value; farms; interest rates. The interest rates to be used in computing the special use value of farm real property for which an election is made under section 2032A of the Code are listed. The rates may be used by estates that value farmland under section 2032A as of a date in 1985.

Rev. Rul. 85-92

This revenue ruling contains a list of the average annual effective interest rates on new Federal Land Bank loans. Under section 2032A(e)(7)(A)(ii) of the Internal Revenue Code, rates on new Federal Land Bank loans are used in computing the special use value of real property used as a farm for which an election is made under section 2032A. This revenue ruling also contains a list of the states within each land bank district. The rates in this revenue ruling may be used by estates that value farmland under section 2032A as of a date in 1985.

Average annual effective interest rates (appearing at the top of page 199), calculated in accordance with section 2032A(e)(7)(A) of the Code and section 20.2032A-4(e) of the Estate Tax Regulations, are to be used under section 2032A(e)(7)(A)(ii).

Rev. Rul. 81-170, 1981-1 C.B. 454, which sets forth rates for several prior years, contains an illustrative computation of an average annual effective interest rate. The rates applicable in the case of valuations for 1982 are listed in Rev. Rul. 82-104, 1982-1 C.B. 129.

The rates applicable in the case of valuations for 1983 are listed in Rev. Rul. 83-71, 1983-1 C.B. 227, and for valuations in 1984 in Rev. Rul. 84-119, 1984-2 C.B. 193.

26 CFR 20.2032A-8. Election and agreement to have certain property valued under section 2032A for estate tax purposes.

Special use valuation; election and agreement; perfection. An executor may perfect an election to specially value qualifying real property under section 2032A of the Code, where the only imperfection is the failure to sign the agreement by the spouse who has only an inchoate dower interest.

Rev. Rul. 85-148

ISSUES

Are the requirements for electing special use valuation of qualified real property under section 2032A of the Internal Revenue Code satisfied if a spouse of an heir to whom the property is devised has an inchoate dower interest and has not signed the agreement required to be filed under section 2032A(a)(1)(B)?

May an estate perfect a section 2032A election that is incomplete because a spouse who has no more than an inchoate dower interest in the qualified real property has not signed the agreement required under section 2032A(a)(1)(B)?

FACTS

D died on February 1, 1984, survived by three adult children, *A*, *B*, and *C*, all qualified heirs within the meaning of section 2032A(e)(1) of the Code. At the time of *D*'s death *B* and *C* were married. Included in *D*'s estate were three separate parcels of farm land that had been actively farmed by *D* for several years. Parcel I was devised to *A*, Parcel II to *B*, and Parcel III to *C*. The executor of *D*'s estate filed an estate tax return on November 1, 1984, and attempted to elect special use valuation for the three parcels of farm land under section 2032A. Under the facts in this case, in order to satisfy the percentage requirements set forth in section 2032A(b)(1) for qualified real property, all three parcels together must be specially valued. The executor attached to the return the notice of election to specially value all three parcels of property and the agreements described in section 2032A(d) of the Code. The notice of election contained all the required information, and the agreements had been signed by *A*, *B*, and *C*. However, the executor did not have the wife of *B* or the husband of *C* sign the agreements that were signed by *B* and *C*, re-

spectively. All other information necessary to qualify for special use valuation was filed with the estate tax return. Under State *X* law the spouse of *B* had an inchoate dower interest in the property by reason of the interest devised to *B*. In order to convey marketable title, it would be necessary for *B*'s spouse to consent to the sale of the property and sign the deed. However, State *X* law provides no dower, curtesy, or similar interest for *C*'s huband in the property devised to *C*.

Shortly after filing the estate tax return, the executor was advised by the Internal Revenue Service that, because *B*'s agreement had not been signed by *B*'s spouse, the estate had not complied with all the requirements for electing special use valuation. Upon learning of the problem, the executor promptly obtained the signature of *B*'s spouse and filed the corrected agreement with the Service.

LAW AND ANALYSIS

Section 2032A of the Internal Revenue Code provides that real property used on a farm may be included in the decedent's gross estate at its value for use as a farm rather than at its fair market value.

Section 2032A(a)(1)(B) of the Code provides that, to receive this benefit, the executor must elect the application of special use valuation and must file the agreement described in section 2032A(d)(2) of the Code.

Section 2032A(d)(2) requires that the agreement be in writing and signed by each person who has an interest in the property to be specially valued. Under the agreement, all interested parties consent to the imposition of an additional estate tax if the qualified heir disposes of any interest in the specially valued property or ceases to use the property as a farm for farming purposes within a designated period of the decedent's death.

Section 2032A(d)(3) allows the executor a reasonable period of time (not exceeding 90 days after notification) to perfect an election or agreement that does not include all the required information. However, the notice of election must have initially been attached to the estate tax return, and the estate must have substantially complied with the requirements for electing special use valuation.

Section 20.2032A-8(c) of the Estate Tax Regulations requires that all parties who have any interest in the property being specially valued execute an agreement required under section 2032A(d)(2). An interested party is described as a person in being at the death of the decedent who has any interest in the property, whether present or future, or vested or contingent, which, as of the date of the decedent's death, can be asserted under applicable local law so as to affect the disposition of the specially valued property by the estate.

Under the laws of State *X*, the spouse of *B* had an inchoate dower interest in Parcel II, which could affect a disposition by the estate of that property with marketable title. However, applicable state law provided *C*'s spouse with no assertable interest in Parcel III. The attempted election filed by the estate to specially value the three parcels was not complete as filed because *B*'s agreement included with the estate tax return was not signed by the spouse of *B*.

The notice of election and the agreements executed by *A*, *B*, and *C* were attached to the estate tax return. All the requirements for a complete agreement for Parcel I and Parcel III were satisfied. The requirements for a complete agreement for Parcel II were satisfied except for the failure of the executor to have *B*'s spouse sign *B*'s agreement. Because the interest of *B*'s spouse was merely an inchoate dower interest, the requirements for electing special use valuation for Parcel II were substantially complied with and the agreement may be perfected within a reasonable period of time not to exceed 90 days after notification by the Service. After learning of the need for an additional agreement, the executor filed the agreement by *B*'s spouse promptly, in an attempt to fully comply with the election requirements.

HOLDING

The requirements for electing special use valuation of qualifying real property under section 2032A of the Code are not satisfied by the executor of the decedent's estate where a spouse of an heir to whom the property is devised has an inchoate dower interest and has not signed the agreement required under section 2032A(a)(1)(B).

An election whose only imperfection is the failure to obtain the signature on the required agreement of a spouse who has no more than an inchoate dower interest in the qualifying real property that was devised to a qualified heir substantially complies with the regulations within the meaning of section 2032A(d)(3)(B). Accordingly, the executor may perfect the election because it was filed with the estate tax return and substantially complied with the requirements of section 2032A and the regulations thereunder.

Section 2039.—Annuities

26 CFR 20.2039-1: Annuities.

Whether an annuity qualifies for the marital deduction under section 2056(a) of the Code, if another person's contingent interest therein will be extinguished before the alternate valuation date under section 2032 of the Code. See Rev. Rul. 85-100, below.

Part IV.—Taxable Estate

Section 2056.—Bequests, Etc., To Surviving Spouse

26 CFR 20.2056(b)-1: Marital deduction; limitation in case of life estate or other "terminable interest".
(Also Sections 2032, 2039; 20.2032-1, 20.2039-1.)

Marital deduction; alternate valuation date; contingent interest. A surviving spouse's interest in property will not qualify for the marital deduction where another party has an interest in the property on the decedent's date of death but that interest is extinguished prior to the alternate valuation date as elected by the executor of the decedent's estate.

Rev. Rul. 85-100

ISSUE

Does an employee death benefit annuity qualify for the marital deduction under section 2056(a) of the Internal Revenue Code, if another person's contingent interest therein will be extinguished before the alternate valuation date of section 2032 of the Code?

FACTS

Decedent, *D* died on February 1, 1983, survived by a spouse, *S*, and a minor child, *C*. Prior to *D*'s death, *D* had the right to receive annuity pay-

ments for life. Under the terms of the annuity contract, at *D*'s death the payments would continue to *S* for life. If *S* died leaving minor children, the payments would continue to the minor children until the last surviving child of *D* and *S* reached age 18, at which time any remaining excess of the cost of the contract over the annuity payments already made would be refunded to the surviving children. If *S* died leaving no surviving minor children, the excess, if any, was to be refunded to *S*'s estate. *C* reached age 18 on June 5, 1983. Thus, had *S* died prior to June 5, 1983, *C* would have been entitled to payments on the annuity (and refund of the excess of the contract cost over the annuity payments). Because *S* survived until June 5, 1983, *S* became entitled to receive all of the payments of the annuity until *S*'s death and to have the excess of the cost of the contract over the sum of the annuity payments distributed to *S*'s estate.

The executor timely filed the estate tax return on November 1, 1983, and elected to value all the property included in *D*'s gross estate as of August 1, 1983, the alternate valuation date. No election was made to treat any property in *D*'s estate as qualified terminable interest property.

LAW AND ANALYSIS

Section 2032(a) of the Code states that the value of a decedent's gross estate may be determined, if the executor so elects, by valuing all the property included in the gross estate as of the date six months after the decedent's death for property which has not been distributed, sold, exchanged, or otherwise disposed of prior to that date (commonly referred to as the "alternate valuation date"). Under section 2032(a)(3), if such an election is made, any interest affected by a mere lapse of time will be included at its date of death value (instead of the alternate valuation date) with adjustment for any difference in its value as of the alternate valuation date not due to mere lapse in time.

Section 2056(a) of the Code allows a deduction from the value of the gross estate of the value of certain property interests that are included in the decedent's gross estate and that pass from the decedent to the surviving spouse.

Under section 2056(a)(1), however, no deduction is allowed for any property interest that passes to the surviving spouse and that may terminate or fail on the lapse of time or the occurrence or the failure to occur of some contingency, if (i) another interest in the same property has also passed from the decedent to some other person for less than an adequate and full consideration in money or money's worth, and (ii) by reason of the passing of such interest, such other person may possess or enjoy any part of the property after the termination of the spouse's interest.

Whether a property interest meets the requirements of section 2056(b) of the Code must be determined in light of events at the time of the decedent's death. *Allen v. United States*, 359 F.2d 151, 154 (2d Cir. 1966), *cert. denied*, 385 U.S. 832 (1966). See *Shedd's Estate v. Commissioner*, 237 F.2d. 345, 350-351 (9th Cir. 1956), *cert. denied*, 352 U.S. 1024 (1957). An election to value all property included in the gross estate as of the alternate valuation date under section 2032 does not affect the determination of whether a property interest meets the requirements of section 2056(b). Section 2032(b) provides that no deduction from the gross estate shall be allowed for any item if allowance of that item is in effect given by selection of the alternate valuation date under section 2032. With respect to the marital deduction, Senate Report No. 1013 (Part 2), 80th Cong., 2d Sess. 10 (1948), 1948-1 C.B. 338, states:

> The election of the executor to determine the value of the gross estate as of a date subsequent to the decedent's death, as provided in section 811(j) of the Code [the Internal Revenue Code of 1939, the predecessor to section 2032 of the Internal Revneue Code of 1954], does not extend to such later date the time for determining the character of the interest passing to the surviving spouse and its deductibility under [section 812(e)(1)(B) of the 1939 Code, the predecessor to section 2056(b) of the 1954 Code]. Section 811(j) relates only to valuation and applies only with respect to interests at the date of the decedent's death. . . .

In this case, the annuity received by *S* at *D*'s death constituted a terminable interest. Moreover, at the date of *D*'s death, *C* had a contingent right to the annuity payments if *S*, the surviving spouse, should die before *C* reached 18 years of age. Because *C* received an interest in the annuity at *D*'s death and could enjoy the interest after the termination of *S*'s interest, at *D*'s death *S*'s interest is a nondeductible terminable interest as described in section 2056(b) of the Code.

Therefore, as of the date of *D*'s death, the value of the annuity passing to *S* (to the extent includible in *D*'s gross estate) does not qualify for the marital deduction under section 2056(a) of the Code.

If *D* had died after *C* had reached age 18, the value of the annuity which passed to *S* would have been a deductible terminable interest under section 2056(a) of the Code because no other person would have had a right to possess or enjoy the property after the termination of *S*'s interest.

HOLDING

The value of the annuity does not qualify for the marital deduction under section 2056 of the Code, even though another person's contingent interest will be extinguished before the alternate valuation date under section 2032, as elected by the decedent's estate.

Chapter 12.—Gift Tax
Subchapter B.—Transfer

Section 2511.—Transfers in General

26 CFR 25.2511-1: Transfers in general.

Procedures are set forth for the valuation and reporting requirements for gifts resulting from low-interest and interest-free demand loans outstanding during 1984 and prior years. See Rev. Proc. 85-46, page 507.

Section 2512.—Valuation of Gifts

26 CFR 25.2512-1: Valuation of property; in general.

Procedures are set forth for the valuation and reporting requirements for gifts resulting from low-interest and interest-free demand loans outstanding during 12984 and prior years. See Rev. Proc. 85-46, page 507.

Section 2514.—Powers of Appointment

26 CFR 25.2514-3: Powers of appointment created after October 21, 1942.

Transfer in trust; "Crummey" powers; relinquishment of withdrawal powers. Multiple or successive

"Crummey" withdrawal powers possessed by a sole beneficiary of one trust or possessed by the beneficiary under the provisions of more than one trust are similarly required to be aggregated for purposes of the annual gift tax exemption.

Rev. Rul. 85-88

ISSUE

(1) For purposes of section 2514(e) of the Internal Revenue Code, does a taxable gift result from the successive lapses of two noncumulative powers to withdraw trust corpus held by a beneficiary of a trust in one calendar years?

(2) For purposes of section 2514(e) of the Internal Revenue Code, what is the amount of the taxable gift that results from the lapse of a general power of appointment held by the income beneficiary in each of two identical trusts created by the same grantor under the circumstances described below?

FACTS

Situation 1: In March 1982, *G* created an irrevocable trust under which *S* was granted the right to receive the trust income for S's life and *C* was granted the remainder interest. In addition, *S* was given the right under the trust to withdraw up to $5,000 from each contribution made by any donor to the trust.

The trust instrument required the trustee to provide *S* with notice immediately on receipt of a contribution. *S* had the right for a period of 60 days following receipt of a notice to exercise the right of withdrawal, after which the right lapsed.

G contributed $5,000 to the trust upon its creation. *S* was promptly notified of the contribution, but did not make a demand for withdrawal within the prescribed period. *G* made another $5,000 contribution in September 1982. Again, *S* was notified of the contribution, but the right of withdrawal subsequently lapsed within the year without *S* having exercised it.

Situation 2: In February 1982, *G* created two irrevocable trusts under which *S* was named the life income beneficiary and *C* was designated as the remainderman.

In addition to the life income interest, *S* was given a power in each trust to withdraw $5,000 of the contributions made by any donor in any calendar year. The powers given *S* were exercisable under the same conditions as the powers in Situation 1.

When the trusts were created, *G* contributed $5,000 to each. *S* was promptly notified of the contributions, but did not make a demand for withdrawal with respect to either contribution within the prescribed period. No further contributions were made to either trust in 1982. The two trusts were at all times administered in all respects as separate trusts.

LAW AND ANALYSIS

Section 2514(c) of the Code defines a general power of appointment as a power exercisable in favor of the possessor of the power, the possessor's estate, the possessor's creditors, or the creditors of the possessor's estate. Under section 2514(b) of the Code, the exercise or release of a general power of appointment created after October 21, 1942, is treated for federal gift tax purposes as a transfer of property by the individual possessing such power.

Under section 2514(e) of the Code, the lapse of a general power of appointment created after October 21, 1942, like the release of such a power, results in a transfer for federal gift tax purposes. With respect to any calendar year, however, this rule applies only to the extent the value of the property subject to the lapsed powers exceeds the greater of $5,000 or 5 percent of the aggregate value of the assets ("5 and 5 exemption") out of which the exercise of the lapsed powers could have been satisfied. See section 25.2514-3(c)(4) of the Gift Tax Regulations.

There is no indication in the legislative history of the predecessor of section 2514(e) (section 811(f)(4) of the 1939 Code) that Congress intended that the holder of multiple noncumulative general powers of appointment should receive more than one "5 and 5 exemption" in a calendar year. *See* S.Rep. No. 382, 82 Cong., 1st Sess. 6-7 (1951). Moreover, the language of section 2514(e), states that the exemption applies "with respect to the lapse of *powers* during any calendar year." (Emphasis added.) Thus, under these circumstances, only one 5 and 5 exemption under section 2514(e) is available for all lapses of powers of appointment in a single trust in a calendar year. Accordingly, the beneficiary is entitled to only one $5,000 exemption per calendar year.

The 5 percent test of section 2514(e) is stated in terms of "the aggregate value of the assets out of which, or the proceeds of which, the exercise of the lapsed powers could be satisfied." For example, where a power of appointment is limited to annual trust income, the 5 percent test is based on annual trust income, not the amount of trust corpus. *Fish v. United States*, 291 F. Supp. 59 (D. Ore. 968), *aff'd*, 432 F.2d 1278 (9th Cir. 1970). The 5 percent test is based on the value of the assets subject to the power at the time of the lapse of the power. See section 25.2514-3(c)(4) of the Gift Tax Regulations. Where the donee has more than one noncumulative withdrawal power in the same trust that lapse in a calendar year, the 5 percent test is based on the maximum amount subject to the donee's withdrawal power on the date of lapse of any such power during the calendar year. Where the donee has noncumulative powers to withdraw property from two or more trusts, the 5 percent test is applied by aggregating the amount determined pursuant to the preceding sentence for each such trust with respect to which the withdrawal power has lapsed during the calendar year.

For example, suppose *B* has the power to withdraw $20,000 from the corpus of one trust, and the power lapses on June 1, when the trust corpus is worth $300,000. If *B* has a second noncumulative power to withdraw $20,000 from the corpus of the same trust, and such power lapses on December 1, when the value of the trust corpus has appreciated to $400,000, then the maximum amount of trust assets subject to *B*'s withdrawal power at the time of any lapse during the calendar year would be $400,000, and the amount of *B*'s 5-and-5 exemption for the year would be $20,000 (5% × $400,000). On the other hand, if *B*'s second withdrawal power in the example is exercisable only with respect to a second, separate trust, *B*'s 5-and-5 exemption for the year would be $35,000 (5% × $700,000).

In *Situation 1*, *S*'s powers of withdrawal were limited to contributions to

the trust. Although each contribution creates a new withdrawal power and arguably provides a separate fund for the exercise of each such withdrawal power, only a single 5-and-5 exemption is available to *S* in 1982. Providing a separate 5-and-5 exemption for each contribution would undermine the statutory purposes to limit the exemption provided by section 2514(e). Moreover, section 2514(e) states the $5,000 and 5 percent tests in terms of the aggregate value of the assets out of which the exercise of the lapsed powers could be satisfied. Nothing is said concerning separate tests for each of the funds out of which the lapsed powers could have been exercised.

In *Situation 1*, $10,000 was contributed to the trust in 1982. *S* did not exercise the powers of withdrawal and both powers lapsed within the year. Once a power lapsed, *C* acquired a vested interest in the amount subject to the lapse. Therefore, *C* received a remainder interest in $10,000 in 1982 as a result of the lapsed powers. The gift tax does not apply to the $5,000 portion of the trust property in which *C* has a remainder interest and which is covered by *S*'s 5-and-5 exemption. However, to the extent of *C*'s remainder interest in the excess portion ($10,000 − $5,000 = $5,000) of that property, the gift tax does apply.

Accordingly, under section 2514(e) of the Code, *S* is treated as having made a gift to *C* of the excess $5,000 less the value of *S*'s retained interest in the excess $5,000. The value of the taxable gift from *S* to *C* is computed as the difference between the $5,000 excess and the value of the right in *S* to receive the income for life from the excess $5,000.

In *Situation 2*, the statutory purpose of section 2514(e) of the Code to provide a limited exemption to the general rule that lapses of powers of appointment carry the same transfer tax consequences as releases and exercises would be thwarted if multiple exemptions were allowed. The allowance of multiple 5-and-5 exemptions would be inconsistent with the purpose of the statute. Moreover, as discussed above section 2514(e) applies the 5-and-5 exemption to the aggregate value of the assets out of which the lapsed powers could have been satisfied. Permitting separate 5-and-5 exemptions for multiple trusts would elevate form over substance by providing more favorable treatment where a transfer to a trust is restructured as multiple transfers to separate trusts.

Thus, in *Situation 2*, *S* is allowed one $5,000 exemption for the two powers that lapsed in 1982. As in *Situation 1*, *S* is considered to have made a gift to *C* of *C*'s remainder interest in the $5,000 not covered by the exemption. In order to ensure that *C*'s multiple powers are not treated less favorably than a single power in one trust fund, in *Situation 2* the 5 percent test would be applied by aggregating the maximum amount in each trust subject to *C*'s withdrawal powers with respect to such trust on the date of lapse of such powers during the calendar year.

HOLDINGS

In both *Situations 1* and *2*, *S* is considered to have made a transfer for federal gift tax purposes as a result of the lapse of *S*'s power to withdraw to the extent that the aggregate amount subject to *S*'s powers exceeds the $5,000 exemption provided in section 2514(e) of the Code. In each situation, the amount taxable is $5,000 less the value of *S*'s retained interest in that amount.

Subtitle C.—Employment Taxes
Chapter 22.—Railroad Retirement Tax Act
Subchapter D.—General Provisions

Section 3231.—Definitions

26 CFR 31.3231(a)-1: Who are employers.

Railroad retirement; employer; subsidiary performing service for parent. In situations similar to that in *Railroad Concrete Crosstie Corp. v. Railroad Retirement Board*, 709 F. 2d 1404 (11th Cir. 1983), in which a wholly owned subsidiary manufacturers an item that is integral to the railroad operations of an employer affiliate and provides substantially all of its output to the employer affiliate, the taxes imposed by the Railroad Retirement Tax Act are applicable.

Rev. Rul. 85-177

ISSUE

Are the taxes imposed by the Railroad Retirement Tax Act (chapter 22, subtitle C, Internal Revenue Code) applicable in a situation similar to that in the case of *Railroad Concrete Crosstie Corp. v. Railroad Retirement Board*, 709 F. 2d 1404 (11th Cir. 1983), involving the applicability of the Railroad Retirement Act, 45 U.S.C. chapter 9 (1982) and the Railroad Unemployment Insurance Act, 45 U.S.C. chapter 11 (1982)?

FACTS, LAW AND ANALYSIS

In the decided case, Railroad Concrete Crosstie Corp. (RCC), a wholly owned subsidiary of a railroad, provided 90 percent of the concrete crossties it manufactured to the railroad. The nature of the relationship and the volume of sales between RCC and its parent established the economic dependence of the former upon the latter. Also, the product manufactured and sold by RCC was essential to the functioning of the railroad. Under these facts, RCC's provision of a "steady dependable supply" of its product was held to constitute the performance of a "service" for its parent. RCC was therefore held to be an employer for purposes of the Railroad Retirement Act and the Railroad Unemployment Insurance Act.

Section 3231(a) of the Code defines the term "employer" as any carrier within the meaning of section 3231(g), and any company that is directly or indirectly owned or controlled or under common control with one or more carriers and that operates any equipment or facility or performs any service, except trucking or casual service, in connection with the transportation of passengers or property by railroad, or the receipt, delivery, elevation, transfer in transit, refrigeration or icing, storage, or handling of property transported by railroad.

The definition of "employer" under the Code, the Railroad Retirement Act, and the Railroad Unemployment Insurance Act is, in all significant respects, the same.

HOLDING

In situations similar to that in *Railroad Concrete Crosstie Corp.*, in which a wholly owned subsidiary manufactures an item that is integral to the railroad operations of an employer affiliate and provides substantially all of

its output to the employer affiliate, the taxes imposed by the Railroad Retirement Tax Act are applicable.

26 CFR 35a.9999-3: Questions and answers concerning backup withholding.

Whether the Bureau of Public Debt may be required to deduct and withhold tax from interest on U.S. Treasury obligations paid to citizens of U.S. possessions. See Rev. Rul. 85-200, page 307.

Subtitle D.—Miscellaneous Excise Taxes
Chapter 31.—Retail Excise Taxes
Subchapter B.—Heavy Trucks and Trailers

Section 4051.—Imposition of Tax on Heavy Trucks and Trailers Sold at Retail

26 CFR 145.4051-1: Imposition of tax on heavy trucks and trailers sold at retail.

Exported truck subsequently imported; first retail sale. If a truck is sold by a U.S. manufacturer to a retail dealer for export, and the truck is thereafter exported, used in a foreign country, and imported into the U.S., the first retail sale of the truck after importation is subject to the retailers excise tax imposed by section 4051(a) of the Code.

Rev. Rul. 85-95

ISSUE

Does the retailers excise tax imposed by section 4051(a) of the Internal Revenue Code apply if a truck is sold by a United States manufacturer for export to a foreign country, is exported to, and used in, the foreign country, and is subsequently sold to a United States dealer who imports it into the United States and sells it at retail?

FACTS

X, a United States wholesaler and retailer of used trucks, purchased a used truck in a foreign country for resale in the United States. *X* sold it in the United States to a retail customer on February 4, 1984. The truck in question was originally manufactured in the United States. It was sold by the manufacturer on May 1, 1983 for export to a dealer in the foreign country who resold it at retail in the foreign country. The truck was used in the foreign country before *X* imported it into the United States. The chassis and body of the truck are of the type subject to the retailers excise tax imposed by section 4051(a) of the Code.

LAW AND ANALYSIS

Section 4051(a) of the Code imposes a 12 percent tax on the first retail sale of automobile truck chassis and bodies that are suitable for use with a vehicle which has a gross vehicle weight of more than 33,000 pounds. The sale of a truck is considered to be the sale of a chassis and body.

Section 4052(a)(1) of the Code defines the term "first retail sale" to mean the first sale, for a purpose other than for resale, after manufacture, production, or importation.

Section 4051(a) of the Code, which became effective April 1, 1983, as added by section 512(b)(1) of Pub. L. No. 97-424, 1983-1 C.B. 405, 408. The tax imposed by section 4051(a) replaced the tax formerly imposed under section 4061(a). Section 4061(a) imposed a tax on certain automotive articles sold by the manufacturer, producer, or importer. The section 4061(a) tax was held to apply to the first sale of a taxable article in the United States by the manufacturer, producer, or importer. *Smith v. United States*, 319 F.2d 776, 779 (5th Cir. 1963); *U.S. Truck Sales Co. v. United States*, 229 F.2d 693, 696 (6th Cir. 1956). *See, Indian Motocycle Co. v. United States*, 283 U.S. 570, 574 (1931), X-1 C.B. 439, 440 (1931). Articles imported into the United States that were used prior to importation were nevertheless subject to the section 4061(a) tax if the requirements of section 4061(a) were otherwise met. *Smith v. United States; Circle Discount Corporation v. United States*, 211 F. Supp. 743, 745 (D.D.C. 1962), *aff'd per curiam*, No. 17,633 (D.C. Cir. 1963); Rev. Rul. 58-297, 1958-1 C.B. 401. In this regard, the court in *Smith* stated that such a construction of the statute more fully comported with the legislative purpose to provide a comprehensive and convenient mode of reaching all first or initial sales while avoiding the possibility that the same article would be subject to the excise tax more than once.

The effect of the enactment of section 4051(a) of the Code was to shift the tax from the first sale by the manufacturer, producer, or importer to the first retail sale made by any person. *See*, H.R. Rep. No. 97-945, 97th Cong., 2d Sess. 14 (1982), 1983-1 C.B. 421, 427. The tax imposed by section 4051(a), like the section 4061(a) tax, applies to the first taxable sale of the article in the United States. *See, Smith; U.S. Truck Sales Co.* Likewise, articles imported into the United States that were used prior to importation are subject to the tax imposed by section 4051(a) if the requirements of section 4051(a) are otherwise met. *See, Smith; Circle Discount Corporation.*

In *U.S. Truck Sales Co.*, the court held that the tax imposed by the predecessor to section 4061(a) of the Code did not apply to the resale in the United States of trucks that had been originally sold tax free in the United States and shipped to a foreign country and used there prior to importation. The court reasoned that the tax could not be imposed on the second sale of an article which had already once been subject to the tax, even though that initial sale had been exempted from the tax under another provision of the Code.

However, articles otherwise taxable that are sold tax free by the manufacturer are subject to the manufacturers excise tax on resale in the United States if returned to the United States in an unused and undamaged condition. Section 48.4221-3d(a)(2) of the Manufacturers and Retailers Excise Tax Regulations. *See* Rev. Rul. 81-97, 1981-1 C.B. 498.

In this case, the sale of the used truck by *X* on February 4, 1984, was the first retail sale of the truck in the United States after importation. The retailers tax was not applicable to the original manufacturer's sale of the vehicle for export since the sale was not a sale at retail. No initial retail sale, taxable or tax-free, occurred prior to the exportation of the truck out of the United States. The first retail sale after the ve

hicle was subsequently imported into the United States presented the first, and only, opportunity to impose the tax.

HOLDING

The sale of the truck by *X* after importation into the United States is subject to the retailers excise tax imposed by section 4051(a) of the Code.

---

26 CFR 145-4051-1: Imposition of tax on heavy trucks and trailers sold at retail.
(Also Section 7805; 301.7805-1.)

Manufacturers; truck; gross vehicle weight; use of readily attachable components. The gross vehicle weight of a truck must be determined solely on the basis of the strength of the chassis frame and the axle capacity and placement. Readily attachable components may not be taken into account in making the determination.

Rev. Rul. 85-196

ISSUE

Whether readily attachable components may be taken into consideration in determining the gross vehicle weight of a vehicle pursuant to section 145.4051-1(e)(3) of the Temporary Excise Tax Regulations.

FACTS

A truck manufacturer or dealer sells a truck in a retail transaction in which the truck would normally be subject to the tax imposed by section 4051(a)(1) of the Internal Revenue Code if the truck has a gross vehicle weight of more than 33,000 pounds. The gross vehicle weight of the truck, if determined solely on the basis of the strength of the chassis frame and the axle capacity and placement, is more than 33,000 pounds. But the retail purchaser of the truck specifies to the manufacturer or dealer that the truck be equipped with tires (or other readily attachable components) which, if taken into account in determining the gross vehicle weight of the truck, will result in a gross vehicle weight rating for the truck of less than 33,000 pounds.

LAW AND ANALYSIS

Section 4051(a)(1) of the Internal Revenue Code imposes a 12 percent excise tax on the first retail sale of certain enumerated articles, including automobile truck chassis and bodies, truck trailer and semitrailer chassis and bodies, and tractors of the kind chiefly used for highway transportation in combination with a trailer or semitrailer. Under section 4051(a)(4), a sale of an automobile truck or truck trailer or semitrailer is considered a sale of a chassis and body described in section 4051(a)(1).

Section 4051(a)(2) of the Code provides that the tax imposed by section 4051(a)(1) does not apply to automobile truck chassis and bodies suitable for use with a vehicle which has a gross vehicle weight of 33,000 pounds or less (as determined under regulations prescribed by the Secretary).

Section 4051(a)(3) of the Code provides that the tax imposed by section 4051(a)(1) does not apply to truck trailer and semitrailer chassis and bodies suitable for use with a trailer or semitrailer which has a gross vehicle weight of 26,000 pounds or less (as determined under regulations prescribed by the Secretary).

Section 145.4051-1(e)(3)(i) of the Temporary Excise Tax Regulations provides that, for purposes of section 145.4051 of the temporary regulations, the term "gross vehicle weight" means the maximum total weight of a loaded vehicle. Generally, the maximum total weight is the gross vehicle weight rating of the article as specified by the manufacturer or established by the seller of the completed article, unless the Commissioner finds that that rating is unreasonable in light of the facts and circumstances in a particular case.

Section 145.4051-1(e)(3)(ii) of the temporary regulations provides that a seller must specify or establish a weight rating for each chassis, body, or vehicle sold on or after April 1, 1983, if the article requires no additional manufacture other than (A) the addition of readily attachable articles, such as tire or rim assemblies or minor accessories, (B) the performance of minor finishing operations, such as painting, or (C) in the case of a chassis, the addition of a body. If an article is specially equipped to the purchaser's specifications, those specifications may be used to establish the gross vehicle weight of the article.

Section 145.4051-1(e)(3)(v) of the temporary regulations provides that the seller's gross vehicle weight rating must take into account, among other things, the strength of the chassis frame and the axle capacity and placement. The Commissioner may exclude from the gross vehicle weight rating any readily attachable parts to the extent the Commissioner finds that the use of such parts in computing the gross vehicle weight rating is unreasonable.

In the case of heavy trucks and trailers intended to be subject to the tax imposed by section 4051(a)(1) of the Code, it is not uncommon for the user to specify the size and other characteristics of components such as tires that are readily attachable and that are to be installed on the truck or trailer by the manufacturer or other seller. If the characteristics of these components are used in computing the gross vehicle weight rating of a truck or trailer, the selection of these components could affect whether the truck or trailer is subject to the tax. Indeed, in many situations a user might be able to specify lighter duty components to avoid the tax and then to replace them with heavier duty components that more closely correspond to the strength of the chassis frame and the axle capacity and placement. Thus, use of these components in computing gross vehicle weight purposes of the tax would lead to administration of the tax in an arbitrary and non-uniform manner and would be unreasonable.

HOLDING

The Commissioner has determined that for purposes of computing the gross vehicle weight of a vehicle pursuant to section 145.4051-1(e)(3) of the temporary regulations, the seller may not take into account any readily attachable components of the vehicle. The gross vehicle weight of the truck under the facts above must be determined solely on the basis of the strength of the chassis frame and the axle capacity and placement.

NONRETROACTIVE APPLICATION

Under the authority contained in section 7805(b) of the Code, the conclusion in this revenue ruling will not be applied to sales before April 1, 1986.

Section 4052.—Definitions and Special Rules

26 CFR 145.4052-1: Special rules and definitions.

T.D. 8050

TITLE 26—INTERNAL REVENUE.—CHAPTER 1, SUBCHAPTER D, SUBCHAPTER H, PART 145—TEMPORARY EXCISE TAX REGULATIONS UNDER THE HIGHWAY REVENUE ACT OF 1982 (Pub. L. 97-424); PART 602—REPORTING AND RECORDKEEPING REQUIREMENTS

Excise Tax on Heavy Trucks, Truck Trailers and Semitrailers, and Tractors

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document provides temporary regulations relating to the excise tax imposed on the retail sale of heavy trucks, truck trailers and semitrailers, and tractors. Changes in the applicable tax law were made by the Highway Revenue Act of 1982 (Title V of the Surface Transportation Assistance Act of 1982) [Pub. L. 97-424, 1983-1 C.B. 405]. These regulations affect manufacturers, producers, importers, dealers, and retailers of these vehicles and will provide them with the guidance needed to comply with the law.

DATES: Generally, these regulations are effective for heavy trucks, truck trailers and semitrailers, and tractors sold on or after April 1, 1983.

FOR FURTHER INFORMATION CONTACT: John Broadbent of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T (202-566-3287, not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains amendments to the Temporary Excise Tax Regulations (26 CFR Part 145) under section 4052 of the Internal Revenue Code of 1954 (Code) relating to the excise tax on the sale of heavy trucks, truck trailers and semitrailers, and tractors. These amendments conform the regulations to section 512 of the Highway Revenue Act of 1982 (Title V of the Surface Transportation Assistance Act of 1982) (Pub. L. 97-424) [1983-1 C.B. 405]. The temporary regulations provided by this document will remain in effect until superseded by final regulations on this subject.

Temporary regulation §145.4052-1, relating to the excise tax on heavy trucks, truck trailers and semitrailers, and tractors, was published in the Federal Register on April 4, 1983 (T.D. 7882) (48 FR 14361) [1983-1 C.B. 274]. These regulations generally provided that the sale of a heavy vehicle to a purchaser who intends to lease the vehicle long term is not a first retail sale.

SUMMARY OF CHANGES IN TEMPORARY REGULATION

This document amends §145.4052-1(a), (b), and (f) by revising the rules relating to the definition of the first retail sale of a vehicle. Under the new rules, the distinction between long-term and short-term leasing has been eliminated.

If a lease is entered into by the manufacturer, producer, or importer of the vehicle, both the prior rules and the revised rules provide that the first retail sale occurs when the vehicle is leased. Under the revised rules, if a vehicle is sold by the manufacturer, producer, or importer, the sale is treated as the first retail sale unless either (a) the purchaser is not in the business of leasing and intends to resell the vehicle, or (b) the seller and the purchaser register under section 4222, and the purchaser certifies that it intends to resell the vehicle. If a vehicle is sold tax-free but is later leased by the purchaser, the leasing of the vehicle will be deemed to be the first retail sale.

No change has been made to the existing temporary regulations with respect to the event triggering liability for the tax. Under all circumstances, the entire tax is due at the time the first retail sale occurs.

These revised temporary rules apply to sales made on or after April 1, 1983, the effective date of section 4051, with specified transitional rules. In no case, under these transitional rules, will tax be imposed on a vehicle under both the existing temporary regulations and the revised temporary regulations.

In determining the tax base of a vehicle, the retail value of the tires on the vehicle is excluded under section 4052(b)(1)(B)(iii). Under both the existing and the revised regulations, this value is the lowest established price at which the retailer would sell the tires. The existing temporary regulations provide as a safe-harbor rule that if a vehicle retailer has no lowest established price for tires, a price is not unreasonable if it is no more than 50 percent of the tire manufacturer's suggested retail price. This rule permits the tax base to be affected by a price that has no bearing on the actual sales price of the tires and is subject to considerable variation among tire manufacturers. Accordingly, this safe-harbor rule is deleted in these revised temporary regulations, effective prospectively.

NEED FOR TEMPORARY REGULATIONS

There is need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue it with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

SPECIAL ANALYSES

No general notice of proposed rulemaking is required by 5 U.S.C. 553(b) for temporary regulations. Accordingly, the Regulatory Flexibility Act (5 U.S.C. Chapter 6) does not apply, and no regulatory flexibility analysis is required for this rule. This Commissioner of Internal Revenue has determined that this rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis is therefore not required.

PAPERWORK REDUCTION ACT

The collection of information requirements contained in these regulations have been submitted to the Office of Management and Budget for review under the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of these regulations is John Broadbent of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Reve-

nue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations on matters of both substance and style.

* * * * *

Adoption of amendments to the regulations

26 CFR Part 145 and part 602 are amended as follows:

PART 145—TEMPORARY EXCISE TAX REGULATIONS UNDER THE HIGHWAY REVENUE ACT OF 1982 (Pub. L. 97-424)

Paragraph 1. The authority citation for part 145 continues to read in part:

Authority: 26 U.S.C. 7805 * * * Section 145.4052-1 also issued under 26 U.S.C. 4052(d).

Par. 2. Section 145.4052-1 is amended as follows:

(a) Paragraph (a) is revised to read as set forth below.

(b) Paragraph (b) is revised to read as set forth below.

(c) The last sentence of paragraph (d)(2)(iii) is revised by adding at the beginning thereof, "For vehicles sold on or after April 1, 1983, and before October 15, 1985,".

(d) paragraph (f) is revised to read as set forth below.

§145.4052-1 Special rules and definitions.

(a) *First retail sale*—(1) *In general.* For purposes of §145.4051-1, the term "first retail sale" means the first sale of an article after manufacture, production or importation. The sale of an article to a purchaser who is not engaged in the business of leasing and who intends to resell the article, is not a first retail sale. In addition, the sale of an article to a purchaser who is engaged in the business of leasing to any extent will not be considered a first retail sale if the purchaser and the seller are registered under §48.4222(a)-1, and the seller in good faith accepts a proper certification, as provided in paragraph (a)(3) of this section, from the purchaser that the purchaser intends to resell the article. The first sale of an article following a tax-free sale of the article shall be considered the first retail sale of the article, unless the subsequent sale qualifies as a tax-free sale under either of the two preceding sentences or under section 4221. An intent to lease an article is not considered an intent to resell the article for purposes of this section. The fact that articles are sold in wholesale lots, or at wholesale prices, will not change the character of such sales as first retail sales if the purchaser is not engaged in the business of reselling such articles and acquires them for the purpose of using them rather than reselling them.

(2) *No installment payments of tax.* If the first retail sale is a lease, an installment sale, or another form of sale under which the sale price is paid in installments, then the liability for the entire tax arises at the time of the lease or installment sale. No portion of the tax is deferred by reason of the fact that the sales price is paid in installments.

(3) *Certificate.* A certificate signed by the purchaser, or an officer or employee authorized by the purchaser to sign the certificate, may be accepted by a seller in support of a tax-free sale to the purchaser. The certificates and proper records of invoices, orders, etc., relating to tax-free sales must be retained by the seller as provided in section 6001 and the regulations thereunder. The certificates shall be substantially in the following form:

EXEMPTION CERTIFICATE

I hereby certify that I am _____
(Title)
of _____
(Name of purchaser)
that I am authorized to execute this certificate, and that the vehicles specified in the accompanying order, or on the reverse side hereof, (or all orders placed by the purchaser of the two year period commencing ___) are purchased for resale and not for the purpose of leasing. I have filed Form 637 and have received registration number ___.

I understand that the fraudulent use of this certificate to secure exemption will subject me and all parties making such fraudulent use to a fine of not more than $10,000, or to imprisonment for not more than 5 years, or both, together with costs of prosecution.

_____
(Signature)

_____
(Address)

(4) *Registration.* Section 4222 and the regulations thereunder shall apply to tax-free sales made under this section.

(b) *Lease treated as first retail sale*—(1) *In general.* For purposes of this section and §145.4051-1, the leasing of an article before the first retail sale (within the meaning of paragraph (a) of this section) of the article shall be considered the first retail sale of the article. This rule applies without regard to the term of the lease. Thus, if a manufacturer leases an article prior to sale, or if a purchaser purchases an article tax free under paragraph (a)(1) of this section or section 4221 and then leases it, the leasing of the article will be deemed to be the first retail sale.

(2) *Computation of tax.* When a lease is treated as the first retail sale under paragraph (b)(1) of this section, the tax shall be computed on a constructive sales price established by the Commissioner as if such article were sold at retail on the date the lease is made.

* * * * *

(f) *Effective date*—(1) *In general.* The provisions of this section shall be effective for articles sold or leased on or after April 1, 1983. However, if a sale to a lessor before November 12, 1985, would have been tax free under §145.4052-1 of the temporary regulations contained in 26 CFR part 145 revised as of April 1, 1984, (the "prior regulations") and it was so treated by the parties, a subsequent sale or lease that was or would have been treated as the first retail sale of the vehicle under the prior regulations will be treated as the first retail sale for purposes of this section. For example, if a vehicle was sold to a purchaer who intended to lease it long term, the sale would have been tax free under the prior regulations. If such a sale was treated as tax free by the parties, and the purchaser later sells the vehicle or leases it long term, the sale or lease will be treated as the first retail sale of the vehicle.

(2) *Vehicle subject to tax only once.* In no case will tax be imposed on the first retail sale of a vehicle under both the prior regulations and this section. If, under the prior regulations, tax was properly paid on the first retail sale of a vehicle, and if the amount of the tax determined under the prior regulations is greater than the amount of tax that would be imposed upon the first retail sale of the vehicle as determined under this section, then the taxpayer shall be entitled to a refund of the difference. For example, if under the prior regulations a lessor treated a long-term lease of a vehicle as a first retail sale, and

paid tax upon making the lease, the taxpayer may claim a refund of any excess of the tax paid under the prior regulations (based on a constructive sales price) over the tax that would be imposed under this section (based on the sales price charged the lessor by the manufacturer or other seller). No additional tax would be payable under this section by a manufacturer that treated the sale of the vehicle to a lessor as a tax-free sale under the prior regulations.

PART 602—REPORTING AND RECORDKEEPING REQUIREMENTS

Par. 3. The authority citation for part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 4. Section 602.101(c) is amended by inserting in the appropriate place in the table:

"§145.4052-1 .... 1545-0745"

There is need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue it with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved August 30, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on September 12, 1985, 8:45 a.m., and published in the issue of the Federal Register for September 13, 1985, 50 F.R. 37350)

Chapter 32.—Manufacturers Excise Taxes
Subchapter A.—Automotive and Related Items
Part I.—Gas Guzzlers

Section 4064.—Gas Guzzler Tax

26 CFR 48.4064-1: Gas guzzler tax. (Also Sections 1016, 4217; 1.1016-5, 48.4217-1.)

T.D. 8036

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; SUBCHAPTER D, PART 48—MANUFACTURERS AND RETAILERS EXCISE TAXES; PART 138—TEMPORARY EXCISE TAX REGULATIONS UNDER THE ENERGY TAX ACT OF 1978; SUBCHAPTER H, PART 602—REPORTING AND RECORDKEEPING REQUIREMENTS

Gas Guzzler Tax

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to the gas guzzler tax, as provided by section 4064 of the Internal Revenue Code of 1954. Changes to the applicable tax law were made by the Energy Tax Act of 1978 [Pub. L. 95-618, 1978-3 C.B. (Vol. 2) 1]. These final regulations provide manufacturers of automobiles with the guidance needed to comply with that Act.

DATE: This Treasury decision applies to 1980 and later model year automobiles, and is effective July 23, 1985.

FOR FURTHER INFORMATION CONTACT: Robert H. Ginsburgh of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3297).

SUPPLEMENTARY INFORMATION:

BACKGROUND

On February 8, 1980, the FEDERAL REGISTER published proposed amendments to the Excise Tax Regulations (26 CFR Part 48) under sections 4064 and 4222 of the Code, as well as temporary regulations [T.D. 7674, 1980-1 C.B. 241] containing the same rules. A public hearing was held on June 19, 1980. After consideration of all comments regarding the proposed amendments, those amendments are adopted as revised by this Treasury decision. These regulations supersede the temporary regulations issued under §§138.4064-1 and 138.4222-1.

EXPLANATION OF PROVISIONS

The Energy Tax Act of 1978 imposes on the sale by a manufacturer of an automobile a tax determined in accordance with prescribed tables. The tax is applicable to model types of 1980 and later model year automobiles that have a fuel economy level below the applicable tax-free fuel economy level. A small manufacturer may apply to the Secretary for an alternate rate schedule by showing that it is not feasible for that manufacturer to meet the tax-free fuel economy level.

DETERMINATION OF FUEL ECONOMY

The proposed regulations provided for determination of fuel economy in accordance with testing and calculation procedures (weighted 55 percent urban cycle and 45 percent highway cycle) utilized by the Environmental Protection Agency Administrator. One comment requested that the urban fuel economy level be used for purposes of the tax. No change was made, however, since section 4064 clearly states that a weighted urban-highway figure should be used. Another comment noted that no provision dealt with the issue of how the fuel economy estimates calculated by the Environmental Protection Agency should be rounded for purposes of determining which model types are subject to the tax. It was suggested that the figures should be rounded to the nearest one-half mile per gallon increments since the tax is imposed in whole number of miles per gallon increments (*e.g.*, "at least 16 but less than 17" miles per gallon). The regulations were changed to provide that rounding is to be done to the nearest .1 mile per gallon, the rounding rule used by the Environmental Protection Agency. One comment expressed at the public hearing inquired as to the tax status of an automobile that is sold, under certain circumstances, before the time the Environmental Protection Agency has made a determination of fuel economy for the model type. The final regulations provide that the sale of such automobile will be taxable if it is ultimately determined that the fuel economy level of the model type of such automobile is within the taxable range.

The regulations on determining fuel economy value have also been revised to take into account the rule requiring recalculation of fuel economy values

that was promulgated by the Environmental Protection Agency.

ALTERNATE RATE SCHEDULE FOR SMALL MANUFACTURERS

Section 4064(d) allows a small manufacturer to apply to the Secretary for an alternate rate schedule upon a showing that it is not feasible for that manufacturer to meet the tax-free fuel economy level. The proposed regulations required a small manufacturer to establish not only that it was not economically feasible for that manufacturer to meet the tax-free fuel economy level, but also that the granting of an alternate rate schedule would serve a public policy purpose. The proposed regulations prescribed the public policy considerations that would be taken into account by the Secretary in deciding whether to grant an alternate rate schedule to a small manufacturer. One comment objected to the provision in the regulations that would make the availability of the alternate rate schedule dependent upon the public policy considerations. The comment pointed out that the small manufacturer provision provided in section 4064(d) was modeled after a similar provision provided in the Energy Policy and Conservation Act of 1975 ("EPCA"), which prescribes "fleet-wide average standards" and allows small manufacturers to seek an exemption from those standards. It noted that the National Highway Traffic Safety Administration ("NHTSA"), the agency administering EPCA, had interpreted the EPCA small manufacturer provision to allow an exemption from those standards without taking into account public policy considerations of the type prescribed in the proposed regulations under the gas guzzler tax. Although the small manufacturer provision provided in EPCA is similar to the provision provided in section 4064(d), it does not mean that those provisions must be given the same interpretation. EPCA and the Energy Tax Act of 1978 are different statutes that reflect different legislative concerns. In the case of the gas guzzler tax, the Ways and Means Committee Report (H.R. Rep. No. 95-496, Part III, 95th Cong., 1st Sess, 48-49 (1978)) [1978-3 C.B. (Vol. 2) 71, 111] made it clear that Congress was adopting the tax in addition to the existing EPCA system and that:

"The committee believes that it is important for the tax to be highly visible to indicate to consumers that there is a serious energy problem and that the Congress has taken action to deal with it. When the consumer sees the amount of the gas guzzler tax shown on the car invoice, he will realize he is paying a premium (which, in many cases, is substantial) to purchase an inefficient car. Thus, consumers would be provided with a financial and, perhaps, psychological incentive to purchase more fuel-efficient automobiles."

"The committee also feels that if individuals are to be permitted to purchase inefficient cars and detract from the conservation effort made by most others, they should as a matter of equity pay a considerable premium (in the form of a gas guzzler tax) for this privilege."

Although section 4064(d) grants the Secretary discretion to prescribe an alternate rate schedule, that discretion is to be exercised only within the boundaries of the policy guidelines prescribed in the legislative history of the tax. Accordingly, the provisions in the proposed regulations regarding small manufacturers have not been changed in the final regulations.

TAX-FREE SALES OF EMERGENCY VEHICLES

Finally, section 4064(b)(1)(C) provides that emergency vehicles are not included in the definition of automobile and, accordingly, are not subject to the gas guzzler tax. The proposed regulations required registration under section 4222 in order for those vehicles to be sold tax free. One comment suggested adopting a procedure in lieu of registration that would allow a manufacturer under certain circumstances to make tax-free sales of vehicles for resale by the purchaser (dealer) to a second purchaser for emergency use. That suggestion was not adopted because there is no statutory authority for extending tax-free sales of emergency vehicles to resales. Furthermore, such a rule would create administrative and compliance problems. The comment also complained that there was no method prescribed for credit or refund of the gas guzzler tax when a vehicle is sold tax paid and resold for emergency use. The final regulations retain the registration procedure to ensure that only proper sales of emergency vehciles are made. A provision was added, however, to the final regulations to make it clear that a refund or credit of the gas guzzler tax may be obtained if a vehicle is sold tax paid and resold for emergency use under section 4064(b)(1)(C).

SPECIAL ANALYSIS

The Commissioner of Internal Revenue has determined that a Regulatory Impact Analysis is not required because this final rule is not a major rule under Executive Order 12291. Because the notice of proposed rulemaking relating to this final rule was published prior to January 1, 1981, the provisions of the Regulatory Flexibility Act do not apply to this final rule.

PAPERWORK REDUCTION ACT

The collection of information requirements contained in this regulation has been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of this regulation in Robert H. Ginsburgh of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Parts 1, 48, 138, and 602 are amended as follows:

Paragraph 1. The authority citation for Part 138 continues to read as follows:

Authority: 26 U.S.C. 7805 and section 231(b) and (c) of the Energy Tax Act of 1978 (Pub. L. 95-618; 92 Stat. 3174).

Par. 2. Sections 138.4064-1 and 138.4222-1 are removed.

Par. 3. The authority citation for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 4. Section 602.101(c) is amended by inserting in the appropriate place in the table, "§48.4064-1(d)(5) and (6) ... 1545-0014."

Par. 5. The authority citation for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805. * * *

Par. 6. Section 1.1016-5 is amended by adding a new paragraph (u) at the end thereof to read as follows:

§1.1016-5 Miscellaneous adjustments to basis.

* * * * *

(u) *Gas guzzler tax.* In the case of an automobile upon which the gas guzzler tax was imposed, the basis shall be reduced as provided in section 1016(d).

Par. 7. The authority citation for Part 48 is amended by adding the following citation:

Authority: 26 U.S.C. 7805; * * * §48.4064-1(b)(3) also issued under 26 U.S.C. 4064(b)(1)(C)(iii); §48.4064-1(d)(3)(iii) also issued under 26 U.S.C. 4064(d)(1); §48.4064-1(d)(5) also issued under 26 U.S.C. 4064(d)(2).

Par. 8. The following new section is added immediately after §48.4063-3:

§48.4064-1 Gas guzzler tax.

(a) *General rule*—(1) *In general.* Section 4064 imposes on the sale by the manufacturer of an automobile a tax determined in accordance with the tables in section 4064(a)(1) through (7), and in paragraph (a)(2) of this section. The tax is applicable to model types of 1980 and later model year automobiles that have a fuel economy level below the applicable tax-free fuel economy level. Paragraph (b) of this section defines the following terms: sale, manufacturer, automobile, model year, model type, fuel economy, and fuel. Paragraph (c) of this section contains rules relating to the determination of fuel economy. Paragraph (d) of this section contains a special rule for certain small manufacturers. Paragraph (e) of this section contains rules relating to the tax-free sales of emergency vehicles.

(2) *Tables.* (i) In the case of a 1980 model year automobile:

If the fuel economy of the model type in which the automobile falls is:

	The tax is—
Miles per gallon:	
At least 15	0
At least 14 but less than 15	$200
At least 13 but less than 14	300
Less than 13	550

(ii) In the case of a 1981 model year automobile:

If the fuel economy of the model type in which the automobile falls is:

	The tax is—
Miles per gallon:	
At least 17	0
At least 16 but less than 17	$200
At least 15 but less than 16	350
At least 14 but less than 15	450
At least 13 but less than 14	550
Less than 13	650

(iii) In the case of a 1982 model year automobile:

If the fuel economy of the model type in which the automobile falls is:

	The tax is—
Miles per gallon:	
At least 18.5	0
At least 17.5 but less than 18.5	$ 200
At least 16.5 but less than 17.5	350
At least 15.5 but less than 16.5	450
At least 14.5 but less than 15.5	600
At least 13.5 but less than 14.5	750
At least 12.5 but less than 13.5	950
Less than 12.5	1,200

(iv) In the case of the 1983 model year automobile:

In the fuel economy of the model type in which the automobile falls is:

	The tax is—
Miles per gallon:	
At least 19	0
At least 18 but less than 19	$ 350
At least 17 but less than 18	500
At least 16 but less than 17	650
At least 15 but less than 16	800
At least 14 but less than 15	1,000
At least 13 but less than 14	1,250
Less than 13	1,550

(v) In the case of a 1984 model year automobile:

If the fuel economy of the model type in which the automobile falls is:

	The tax is—
Miles per gallon:	
At least 19.5	0
At least 18.5 but less than 19.5	$ 450
At least 17.5 but less than 18.5	600
At least 16.5 but less than 17.5	750
At least 15.5 but less than 16.5	950
At least 14.5 but less than 15.5	1,150
At least 13.5 but less than 14.5	1,450
At least 12.5 but less than 13.5	1,750
Less than 12.5	2,150

(vi) In the case of a 1985 model year automobile:

If the fuel economy of the model type in which the automobile falls is:

	The tax is—
Miles per gallon:	
At least 21	0
At least 20 but less than 21	$ 500
At least 19 but less than 20	600
At least 18 but less than 19	800
At least 17 but less than 18	1,000
At least 16 but less than 17	1,200
At least 15 but less than 16	1,500
At least 14 but less than 15	1,800
At least 13 but less than 14	2,200
Less than 13	2,650

(vii) In the case of a 1986 or later model year automobile:

In the fuel economy of the model type in which the automobile falls is:

	The tax is—
Miles per gallon:	
At least 22.5	0
At least 21.5 but less than 22.5	$ 500
At least 20.5 but less than 21.5	650
At least 19.5 but less than 20.5	850
At least 18.5 but less than 19.5	1,050
At least 17.5 but less than 18.5	1,300
At least 16.5 but less than 17.5	1,500
At least 15.5 but less than 16.5	1,850
At least 14.5 but less than 15.5	2,250
At least 13.5 but less than 14.5	2,700
At least 12.5 but less than 13.5	3,200
Less than 12.5	3,850

(3) *Liability for tax.* The tax imposed by section 4064 is payable by the manufacturer making the sale. An automobile sold before the time a determination of fuel economy is made for the model type (as defined in paragraph (b)(6) of this section) is subject to tax if it is subsequently determined that the fuel economy level of that model type of automobile is within the taxable range (see paragraph (a)(1) of this section).

(b) *Definitions*—(1) *Sale.* Sale includes the use (within the meaning of section 4218) or the first lease (within the meaning of section 4217(e)) of the automobile by the manufacturer.

(2) *Manufacturer.* The term "manufacturer" has the same meaning assigned to such term under §48.0-2(a)(4). The term "manufacturer" includes a producer or importer. An importer is a person who imports an automobile whether or not in connection with a trade or business.

(3) *Automobile.* The term "automobile" means any four-wheeled vehicle—

(i) Propelled by an engine powered by fuel;

(ii) Manufactured primarily for use on public streets, roads, and highways (except any vehicle operated exclusively on a rail or rails);

(iii) Rated at 6,000 pounds gross vehicle weight or less; and

(iv) Requiring no further manufacturing operations to perform its in-

tended function, other than the addition of readily attachable components, such as mirrors or tire and rim assemblies, or minor finishing operations, such as painting. For this purpose, gross vehicle weight means the value specified by the manufacturer as the maximum design loaded weight of a single vehicle. An automobile does not include a nonpassenger automobile as defined in regulations in effect on November 9, 1978 (49 CFR 523.5 (1978)), which were prescribed by the Secretary of Transportation for section 501 of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2001). In addition, an automobile does not include the following: any vehicle sold for use and used primarily as an ambulance or combination ambulance-hearse; any vehicle sold for use and used by the United States or by a State or local government primarily for police or other law enforcement purposes; or any vehicle sold for use and used primarily for firefighting purposes.

(4) *Model year.* The term "model year" means the manufacturer's annual production period (as determined by the Administrator of the Environmental Protection Agency) which includes January 1 of any particular calendar year. If the manufacturer has no annual production year, the model year is the calendar year.

(5) *Model type.* The term "model type" means a particular class of automobile, as determined by regulations in effect on November 9, 1978 (40 CFR 600.002.79(a)(19) (1978)), which were prescribed by the Administrator of the Environmental Protection Agency.

(6) *Fuel economy.* The term "fuel economy" means the average number of miles traveled by an automobile per gallon of fuel consumed, rounded to the nearest .1 mile per gallon. The fuel economy for any model type is determined by the Environmental Protection Agency (as determined in accordance with the procedures provided in paragraph (c) of this section). For this purpose, the fuel economy is a combined (urban-highway weighted average) mileage figure estimated in connection with the determination (or redetermination) of general label value (fuel economy information displayed on a sticker that is affired to new automobiles) mandated under section 506 of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2006) and regulations thereunder (40 CFR 600).

(7) *Fuel.* The term "fuel" means gasoline and diesel fuel.

(c) *Determination of fuel economy.* For purposes of this section, the fuel economy for any model type is determined (or redetermined) in accordance with the testing and calculation procedures utilized by the Environmental Protection Agency Administrator for model year 1975 (weighted 55 percent urban cycle and 45 percent highway cycle), or any other procedures (yielding comparable results) established by the Administrator. The Environmental Protection Agency's determination (or redetermination) of a model type's fuel economy is made at the time the general label fuel economy value is calculated (or recalculated). This determination (or redetermination) is conclusive for purposes of this section. A redetermination of a model type's fuel economy value shall be effective only with respect to those automobiles for which the manufacturer is required (or is permitted and chooses) under Environmental Protection Agency regulations to affix labels with the recalculated general label fuel economy value.

(d) *Special rule for small manufacturers*—(1) *In general.* A small manufacturer (as defined in subparagraph (2)(i) of this paragraph) may apply for a determination that it is not feasible for that manufacturer to meet the statutory tax-free fuel economy level for the model year, with respect to all automobiles produced by that manufacturer, or with respect to a particular model type. For this purpose, the Commissioner (or his delegate) will make a determination of maximum feasible fuel economy level with respect to the automobiles that are the subject of the determination, but only after consultation with the Secretary of Energy, the Secretary of Transportation, and the Administrator of the Environmental Protection Agency (or their delegates) to obtain their views. A finding that it is not feasible for the manufacturer to meet the statutory tax-free fuel economy level will be made by the Internal Revenue Service if the maximum feasible fuel economy level (as defined in subparagraph (3)(i) of this paragraph) of the automobiles that are the subject of the determination is lower than the statutory tax-free fuel economy level for those automobiles. If it is determined that it is not feasible for a small manufacturer to meet the statutory tax-free fuel economy level, the Secretary (or his delegate) has the discretion to grant to the manufacturer the alternate rate schedule prescribed in paragraph (d)(3)(iii) of this section in lieu of the applicable statutory tax table prescribed in section 4064(a). The decision whether to grant the alternate rate schedule shall be based on the consideration set forth in paragraph (d)(3)(ii) of this section. If a small manufacturer for which an alternate rate schedule under this paragraph (d) is applicable sells an automobile to an importer, the alternate rate schedule applies to the sale by the importer of such automobile if such automobile is of the model year and type to which such alternate schedule applies.

(2) *Definitions*—(i) *Small manufacturer.* A small manufacturer is any manufacturer who produced (whether or not in the United States) fewer than 10,000 automobiles in the second model year preceding the affected model year (the model year for which the determination under this paragraph is being made), and who can reasonably be expected to produce (whether or not in the United States) fewer than 10,000 automobiles in the affected model year.

(ii) *Manufacturer.* For purposes of this paragraph, the term "manufacturer" does not include a person who is only an importer, but does include a producer of automobiles outside the United States who is also an importer.

(iii) *Members of a controlled group.* For purposes of this paragraph, persons who are members of a controlled group of corporations (as defined in section 1563(a) of the Internal Revenue Code, except that "more than 50 percent" is substituted for "at least 80 percent" each place it appears in section 1563(a)) are treated as one manufacturer.

(3) *Basis for determination*—(i) *Maximum feasible fuel economy level.* For purposes of this paragraph, the maximum feasible fuel economy level is determined by taking into account the same factors used in determining

the maximum feasible fuel economy level under section 502(e) of the Motor Vehicle Information and Cost Savings Act (as amended) and the regulations thereunder in effect on November 9, 1978. (Those regulations for small manufacturers are prescribed in 49 CFR 525 (1978).) In making this determination, the Commission (or his delegate) will consult with the National Highway Traffic Safety Administration of the Department of Transportation.

(ii) *Decision to grant alternate rate schedule.* In deciding whether to grant an alternate rate schedule, the Secretary (or his delegate) will consider whether the use (in the United States) of the automobile serves an important public policy (*e.g.*, providing public transportation or transportation for the handicapped) that overrides the United States' need to conserve energy. The manufacturer has the burden of demonstrating that the public policy consideration involved overrides the United States' need to conserve energy. The Commissioner (or his delegate), after consultation with the Secretary of Energy, the Secretary of Transportation, and the Administrator of the Environmental Protection Agency (or their delegates), will review the information submitted by the manufacturer and report findings and recommendations to the Secretary (or his delegate).

(iii) *Alternate rate schedule and tax.* If an alternate rate schedule is granted, the maximum feasible fuel economy level shall be deemed to be the statutory tax-free fuel economy level. Accordingly, a tax is imposed only on automobiles sold that fail to meet the deemed tax-free fuel economy level. The alternate rate schedule shall be determined by substituting the maximum feasible fuel economy level for the tax-free fuel economy level in the applicable statutory tax table set forth in section 4064(a), and by substituting for the miles per gallon amount prescribed in that applicable table an amount that is the tax-free level decreased by one mile per gallon increments, while keeping the same corresponding tax amount prescribed in that applicable table. The rule for determining an alternate rate schedule may be illustrated by the following example:

Example. Manufacturer X, a small manufacturer of automobiles specifically designed to accommodate disabled passengers, applied for a determination that it is not feasible for X to meet the statutory tax-free fuel economy level for a particular model type of X's 1982 model year automobiles. It was determined that the maximum feasible fuel economy level for that model type was 15 miles per gallon. The Secretary decided to grant X an alternate rate schedule. The alternate rate schedule for the model type would be as follows:

If the fuel economy of the automobile is:	The tax is—
Miles per gallon:	
At least 15	0
At least 14 but less than 15	$ 200
At least 13 but less than 14	350
At least 12 but less than 13	450
At least 11 but less than 12	600
At least 10 but less than 11	750
At least 9 but less than 10	950
Less than 9	1,200

Thus, if X's 1982 automobiles of that model year and type attain only 12 miles per gallon (because X fails to modify them to reach the maximum feasible fuel economy level before they are sold), the tax imposed upon the sale of each automobile is $450 (instead of the $1,200 tax (see the applicable statutory tax table set forth in section 4064(a)(3)), which would have been imposed had no alternate rate schedule been prescribed).

(4) *Duration of determination.* A determination under this paragraph does not apply to more than three model years.

(5) *Requirements for application.* Each application for a determination under this section must—

(i) Identify the model year or years, and particular model type or types for which a determination is requested;

(ii)(A) In the case of an application for model year 1980, be submitted not later than May 8, 1980;

(B) In the case of an application for model year 1981, be submitted not later than 9 months before the beginning of that model year or March 10, 1980, whichever is later;

(C) In the case of an application for model year 1982 or any subsequent model year, be submitted not later than 9 months before that model year;

(iii) Be submitted in three copies to: Commissioner of Internal Revenue, Attention: Associate Chief Counsel (Technical), 1111 Constitution Avenue, N.W., Washington, D.C. 20224;

(iv) Be written in the English language;

(v) Set forth the full name, address, and title of the official responsible for preparing the application;

(vi) State whether the applicant is a member of a controlled group of corporations (as defined in paragraph (d)(2)(iii) of this section);

(vii) State the total number of automobiles manufactured (whether or not in the United States) by the applicant (or the controlled group of corporations in the case where the applicant is a member of the group) in the second model year immediately preceding each affected model year and the total number of automobiles likely to be manufactured in the affected model year;

(viii) Set forth the same information required by an application pursuant to section 502(c) of the Motor Vehicle Information and Cost Savings Act (as amended) and the regulations thereunder (see 49 CFR 525 (1978)) and state whether or not the applicant under this paragraph has also made an application pursuant to such Act; and

(ix) Set forth the reasons why an alternate rate schedule should be granted under paragraph (d)(3)(ii) of this section.

(6) *Update of application.* A manufacturer making an application under this section must update the application when a material change of circumstances occurs on material information not available at the time of applying becomes available. The manufacturer must also furnish any further information that may be required by the Internal Revenue Service.

(7) *Processing of applications.* If a manfacturer's application is found not to contain the information required by this paragraph, the applicant will be informed of the areas of insufficiency. The application will not receive further consideration until the required information is submitted. Each applicant will be informed in writing whether an application has been granted or denied.

(e) *Tax-free sales of emergency vehicles*—(1) *In general.* The tax imposed by section 4064(a) shall not apply to vehicles sold by a manufacturer for use and used (i) primarily as an ambulance or combination ambulance-hearse, (ii) by the United States or by a State or local government primarily for police or other law enforcement purposes, or (iii) primarily for fire-fighting purposes. A vehicle may be sold tax-free by the manufacturer under this paragraph only in those cases where the sale is made directly to a purchaser for an emergency use prescribed in this subparagraph. In order to effect a tax-free sale, the requirements of section 4222 and

the regulations thereunder must be met.

(2) *Credit or refund.* Where tax is paid on the sale of a vehicle, but the vehicle is used or resold for an emergency use prescribed in subparagraph (1) of this paragraph, a claim for refund of the tax paid on such sale may be filed by the manufacturer on Form 843, or a credit may be taken on a subsequent return, in accordance with the provisions of sections 6402(a) and 6416(a) and §48.6416(a)-1.

Par. 9. Section 48.4217-1 is amended by adding a new sentence at the end thereof to read as follows:

§48.4217-1 Lease considered as sale.

* * * However, in the case of the lease of an automobile the sale of which by the manufacturer would be taxable under section 4064, the term includes only the first lease (excluding any renewal or extension of the lease) of such automobile by the manufacturer.

Par. 10. Section 48.4217-2 is amended by adding a new paragraph (i) at the end thereof to read as follows:

§48.4217-2 Limitation on amount of tax applicable to certain leases.

* * * * *

(i) *Cross-reference.* In the case of the lease of an automobile the sale of which by the manufacturer would be taxable under section 4064, the foregoing provisions of this section shall not apply. See section 4217(e) for the rules relating to the payment of the gas guzzler tax.

Par. 11. Section 48.4221-1 is amended by adding a new sentence immediately before the flush material appearing immediately after paragraph (a)(5), to read as follows:

§48.4221-1 Tax-free sales; general rule.

(a) *In general.* * * *

(5) * * *

Subparagraphs (4) and (5) of this paragraph do not apply to the tax imposed by 4064. * * *

* * * * *

Par. 12. Paragraph (a) of the §48.4221-5 is amended by revising the first sentence to read as follows:

§48.4221-5 Tax-free sale of articles to State and local governments for their exclusive use.

(a) *In general.* An article (excluding an automobile subject to tax under section 4064) subject to tax under chapter 32 of the Code may be sold tax free by the manufacturer, pursuant to section 4221(a)(4) of this section, to a State or local government for the exclusive use of such State or local government. * * *

* * * * *

Par. 13. Paragraph (a) of §48.4221-6 is amended by revising the first sentence to read as follows:

§48.4221-6 Tax-free sales of articles to nonprofit educational organizations.

(a) *In general.* An article (excluding an automobile subject to tax under section 4064) subject to tax under chapter 32 of the Code may be sold tax free by the manufacturer, pursuant to section 4221(a)(5) of this section, to a nonprofit educational organization for its exclusive use. * * *

* * * * *

Par. 14. Paragraph (d) of §48.4222(d)-1 is revised to read as follows:

§48.4222(d)-1 Registration in the case of certain other exemptions.

* * * * *

(d) Tax-free sales on or after March 10, 1980, under section 4064(b)(1)(C) (relating to emergency vehicles). Both the vendor and vendee (other than a State or local government) must be registered.

* * * * *

Par. 15. Paragraph (b) of §48.6416(b)-2 is amended by adding a new sentence immediately after the first sentence to read as follows:

§48.6416(b)-2 Tax payments deemed to be overpayments by reason of certain uses, sales, or resales.

* * * * *

(b) *Uses, sales, and resales giving rise to right of refund or credit.* * * * However, subparagraphs (3) and (4) of this paragraph do not apply in the case of any tax paid under section 4064. * * *

* * * * *

(This Treasury decision is issued under the authority contained in sections 4064 and 7805 of the Internal Revenue Code of 1954 (92 Stat. 3175, 26 U.S.C. 4064; 68A Stat. 917, 26 U.S.C. 7805).)

Approved by the Office of Management and Budget under control number.

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved June 24, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on July 22, 1985, 8:45 a.m., and published in the issue of the Federal Register for July 23, 1985, 50 F.R. 29959)

Part II.—Tires

Section 4071.—Imposition of Tax [Manufacturers Excise Tax on Tires]

26 CFR 48.4071-1: Imposition and rates of tax.

T.D. 8057

TITLE 26—INTERNAL REVENUE.—CHAPTER 1, SUBCHAPTER D, PART 48—MANUFACTURERS AND RETAILERS EXCISE TAXES

Excise Tax Treatment of Sales of Retreaded Tires

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to the definition of manufacture of a new tire. Under the existing regulations, one retreading process, bead-to-bead retreading, constitutes manufacture of a new tire for purposes of the excise tax imposed on tire manufacturers by section 4071 of the Code, while retreading of tires by another process, shoulder-to-shoulder retreading, does not constitute manufacture of a new tire. Under the regulations as hereby amended, neither bead-to-bead nor shoulder-to-shoulder retreading constitutes manufacture of a new tire.

DATES: The regulations are effective for tires sold on or after January 1, 1984.

FOR FURTHER INFORMATION CONTACT: Neal E. Sheldon of the Interpretative Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:I) 202-566-3226, not a toll-free call.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On February 8, 1984, the FEDERAL REGISTER (49 FR 4790) published proposed amendments to the Excise Tax Regulations (26 CFR part 48) under section 4071 of the Internal Revenue Code of 1954 [I-99-82, 1984-1 C.B. 590]. The amendments were proposed to change the definition of manufacture of a new tire by excluding from such definition retreading of a tire by the bead-to-bead process. One comment was received with respect to the proposed amendment, and no public hearing was requested or held. After consideration of this comment, the proposed amendments are adopted by this Treasury decision without change.

This Treasury decision is issued under the authority contained in section 7805 of the Code (68A Stat. 917; 26 U.S.C. 7805).

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this final rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required. Although a notice of proposed rulemaking which solicited public comments was issued, the Internal Revenue Service concluded when the notice was issued that the regulations are interpretative and that the notice and public procedure requirement of 5 U.S.C. 533 did not apply. Accordingly, the final regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

DRAFTING INFORMATION

The principal author of these proposed regulations was Jane E. Wilson of the Interpretative Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and the Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Adoption of Amendments to the regulations.

Accordingly, 26 CFR Part 48 is amended as follows:

Paragraph 1. The authority citation for Part 48 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 2. Section 48.4071-1(d) is revised to read as set forth below:

§48.4071-1 Imposition and rates of tax.

* * * * *

(d) *Recapped or retreaded tires.* The recapping or retreading of a tire, whether from shoulder to shoulder or bead to bead, does not constitute manufacture of a taxable tire. The tax on tires imposed by section 4071 does not apply to the sale of a recapped or retreaded tire, except that a used tire or tire carcass not previously sold int he United States that is recapped or retreaded from shoulder to shoulder or bead to bead in a foreign country and imported into the United States is subject to the tax imposed by section 4071 when such tire is sold or used by the importer. This paragraph (d) is effective for recapped and retreaded tires sold on or after January 1, 1984.

* * * * *

This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved September 24, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER D, SUBCHAPTER H, PART 48—MANUFACTURERS AND RETAILERS EXCISE TAXES; PART 154—TEMPORARY REGULATIONS IN CONNECTION WITH THE AIRPORT AND AIRWAY REVENUE ACT OF 1970; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Manufacturers Excise Taxes on Sporting Goods and Firearms and Other Administrative Provisions of Special Application to Manufacturers and Retailers Excise Taxes.

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations which revise and update the regulations on manufacturers excise taxes on sporting goods and firearms and other administrative provisions especially applicable to manufacturers and retailers excise taxes. These amendments revise and update Part 48 to achieve greater clarity and conform the regulations to numerous amendments to the Internal Revenue Code of 1954 made after 1964. These regulations provide necessary guidance to the public for compliance with the law.

DATES: Except as otherwise provided the amendments made by this document are effective after December 31, 1954.

FOR FURTHER INFORMATIO

CONTACT: Ada S. Rousso of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Ave., N.W. Washington, D.C. 20224 (Attention: CC:LR:T: 202-566-4336, not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

On January 5, 1983, the FEDERAL REGISTER published proposed amendments to the Manufacturers and Retailers Excise Tax Regulations (26 CFR Part 48) under sections 4161, 4181, 4182, 6011, 6071, 6081, 6091, 6101, 6109, 6151, 6161, 6206, 6302, 6412, 6416, 6420, 6421, 6424, 6427 and 6675 [LR-2115, 1983-1 C.B. 846]. Subsequent to the publication of the proposed amendments, certain changes to the applicable law were made by the Highway Revenue Act of 1982 (96 Stat. 2181) [Pub. L. 97-424, 1983-1 C.B. 405] and the Tax Reform Act of 1984 (98 Stat. 494) [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1]. These final regulations have been revised to reflect those changes to the law. A public hearing was neither held nor requested. One comment was received which suggested that the proposed regulation provided that the customer who either reloads his own cartridges or has another person reload the cartridges for him would be liable for the excise tax on the reloaded cartridges. However, that was not the proper interpretation. The proposed regulation merely provided that the customer who has cartridges reloaded would be liable for excise tax only in the event that the customer thereafter sold the reloaded cartridge. The use by the customer is not subject to the tax because of the personal use exemption under section 4218.

The existing regulation provides that a price readjustment to the purchaser is made when the price of an article on which tax has been paid is later readjusted because the article or its covering or container is returned or repossessed, or a bona fide discount, rebate or allowance against the sales price is made. That part of the tax which is proportionate to the part of the price which is repaid or credited to the purchaser is considered to be an overpayment. Comments from within the Service indicated that the proposed regulation on the determination of a price readjustment was unclear after an example relating to a bona fide discount, rebate or allowance was deleted in the proposed regulation.

Since no change was intended with regard to a determination of price readjustment, *example (1)* of §48.6416(b)(1)-2(e)(1) is reinserted in the final regulation.

STATUTORY AMENDMENTS REFLECTED IN THE FINAL REGULATIONS

Many statutory changes enacted after 1964 have not previously been reflected in Part 48 of the regulations. The table set forth below enumerates the statutory changes reflected in these final regulations. The section numbers on the left margin list the sections of the Code to which the statutory changes relate.

4161:	1.	Section 201 of the Act of October 25, 1972, Pub. L. 92-558, 86 Stat. 1173 [1972-2 C.B. 701, 702], relating to the imposition of tax on bows and arrows. The amendments to the regulations made under section 201 shall apply with respect to articles sold by the manufacturer, producer, or importer on or after July 1, 1974.
6206:	1.	Section 207(d)(3) of the Airport and Airway Development Act of 1970, Pub. L. 91-258, 84 Stat. 219 [1970-1 C.B. 361, 367], relating to rules applicable to excessive claims. The amendments to the regulations made under section 207(d)(3) shall apply with respect to sales made on or after July 1, 1970.
	2.	Section 202(c)(2)(A) of the Excise Tax Reduction Act of 1965, Pub. L. 89-44, 79 Stat. 136 [1965-2 C.B. 568, 570], relating to special rules applicable to excessive claims. The amendments to the regulations made under section 202(c)(2)(A) shall apply only with respect to lubricating oil placed in use after December 31, 1965.
6412:	1.	Section 502(c) of the Federal Aid Highway Act of 1978, Pub. L. 95-599, 92 Stat. 2689 [1978-2 C.B. 403, 404], relating to floor stock refunds.
	2.	Section 303(b) of the Federal Aid Highway Act of 1976, Pub. L. 94-280 90 Stat 425 [1976-2 C.B. 518], relating to floor stock refunds.
6416:	1.	Sections 205(b)(3) and (4) and 207(d)(4) through (d)(7) of the Airport and Airway Revenue Act of 1970, Pub. L. 91-258, 84 Stat. 219 [1970-1 C.B. 361, 364, 367], allowing refund or credit of gasoline taxes when gasoline is used in the production of special fuels. The regulations under sections 205(b)(3) and (4) and 207(d)(4) through (d)(7) are effective after June 30, 1970.
	2.	Section 302 of the Excise, Estate and Gift Tax Adjustment Act of 1970, Pub. L. 91-614, 84 Stat. 1836 [1971-1 C.B. 533, 538], modifying the refund and credit provisions for the use of next tax-paid component parts in further manufacture. The regulations under section 302 are effective for claims filed after December

31, 1979, but only if the filing of the claim is not barred on January 1, 1971, any law or rule of law.

3. Sections 401(a)(3)(C) and 401(g)(6) of the Revenue Act of 1971, Pub. L. 92-1 85 Stat. 497 [1972-1 C.B. 443, 464] allowing a refund or credit for certain tr containers. The regulations under section 401(a)(3)(c) and 401(g)(6) are effect with respect to articles sold after December 10, 1971.

4. Sections 1904(b)(1) and (2), 1906(a)(24), 1906(b)(13)(A) and 2108 of the T Reform Act of 1976, Pub. L. 94-455, 90 Stat. 1520 [1976-3 C.B. (Vol. 1) 291, 303, 310, 380], eliminating numerous deadwood provisions and allowing fund or credit for certain truck parts and accessories. The regulations under s tions 1904(b)(1) and (2), 1906(a)(24)(A) and 1906(b)(13)(A) are effective af January 31, 1977. The regulations under section 1906(a)(24)(B)(i) are effecti with respect to uses or resales for use of liquids after December 1, 1976. The r ulations under 2108 are effective with respect to parts and accessories sold af October 4, 1976.

5. Section 2(b)(4) of the Black Lung Benefits Revenue Act of 1977, Pub. L. 95-22 92 Stat. 11 [1978-1 C.B. 494, 495], modifying the refund and credit provisio for the excise tax on coal. The regulations under section 2(b)(4) are effective w respect to sales after March 31, 1978.

6420: 1. Section 809(a) the Excise Tax Reduction Act of 1965, Pub. L. 89-44, 79 St 136 [1965-2 C.B. 568, 596], relating to income tax credit in lieu of payment w respect to gasoline used on farms. The regulations under section 809(a) are eff tive with respect to gasoline used on or after July 1, 1965.

2. Section 207(b) of the Airport and Airway Development Act of 1970, Pub. 91-258, 84 Stat. 219 [1970-1 C.B. 361, 367], relating to the time for filing clai under section 6420. The regulations under section 207(b) are effective with spect to taxable years ending after June 30, 1970.

3. Section 3(a) of the Act of October 14, 1978, Pub. L. 95-458, 92 Stat. 12 [1978-2 C.B. 367, 368], relating to entitlement of aerial applicators to refund gasoline tax in certain cases. The regulations under section 3(a) are effective gasoline used after March 31, 1979.

6421: 1. Section 809(b) of the Excise Tax Reduction Act of 1965, Pub. L. 89-44, 79 St 136 [1965-2 C.B. 568,596], relating to income tax credit in lieu of payment w respect to gasoline used for certain nonhighway purposes or by local transit s tems. The regulations under section 809(b) are effective with respect to gasol used after June 30, 1965.

2. Section 205(b)(1) of the Airport and Airway Development Act of 1970, Pub. 91-258, 84 Stat. 219 [1970-1 C.B. 361,363], relating to credit or refund of ga line used as a fuel in an aircraft (other than aircraft in noncommercial aviatio The regulations under section 205(b)(1) are effective after June 30, 1970.

3. Section 207(b) of the Airport and Airway Development Act of 1970, Pub. 91-258, 84 Stat. 219 [1970-1 C.B. 361, 367], relating to the time for filing cla under section 6421. The regulations under section 207(b) are effective for taxa years ending after June 30, 1970.

4. Section 222(a)(1) of the Energy Tax Act of 1978, Pub. L. 95-618, 92 Stat. 3 [1978-3 C.B. (Vol. 2) 1, 12], relating to refund or credit of tax on gasoline u in a qualified business use. The regulations under section 222(a)(1) are effec with respect to uses after December 31, 1978.

5. Section 233(a)(1) of the Energy Tax Act of 1978, Pub. L. 95-618, 92 Stat. 3 [1978-3 C.B. (Vol. 2) 1, 16], relating to repayment of tax on gasoline use intercity, local or school buses. The regulations under section 233(a)(1) are ef tive with respect to uses after November 30, 1978.

6. Section 108(c)(1) of the Technical Corrections Act of 1979, Pub. L. 96-222 Stat. 194 [1980-1 C.B. 499,516], relating to repayment of tax on gasoline use vessels employed in the fisheries or the whaling business. The regulations u section 108(c)(1) are effective with respect to uses after December 31, 1978

6424:

1. Section 202(b) of the Excise Tax Reduction Act of 1965, Pub. L. 89-44, 79 Stat. 136 [1965-2 C.B. 568, 570], relating to refund or credit of tax on lubricating oil not used in highway motor vehicles. The regulations under section 202(b) are effective with respect to lubricating oil placed in use after December 31, 1965.

2. Section 207(b) of the Airport and Airway Development Act of 1970, Pub. L. 91-258, 84 Stat. 219 [1970-1 C.B. 361, 367], relating to the time for filing claims under section 6424. The regulations under section 207(b) are effective for taxable years ending after June 30, 1970.

3. Section 233(b)(1) of the Energy Tax Act of 1978, Pub. L. 95-618, 92 Stat. 3174 [1978-3 C.B. (Vol. 2) 1, 17], relating to credit or refund of tax on lubricating oil used in a qualified business use or in a qualified bus.

6427:

1. Section 207(a) of the Airport and Airway Development Act of 1970, Pub. L. 91-258, 84 Stat. 219 [1970-1 C.B. 361, 366], relating to credit or refund of tax on gasoline and special fuels used for certain purposes. The regulations under section 207(a) are effective with respect to taxable years ending after June 30, 1970.

2. Section 3(b), of the Act of October 14, 1978, Pub. L. 95-458, 92 Stat. 1257 [1978-2 C.B. 367, 368], relating to entitlement of aerial applicators to refunds of special fuels tax in certain cases. The regulations under section 3(b) are effective for gasoline used after March 31, 1979.

6675:

1. Section 202(c)(3)(A) of the Excise Tax Reduction Act of 1965, Pub. L. 89-44, 79 Stat. 136 [1965-2 C.B. 568, 571], relating to civil penalty for excessive claims under section 6424 with respect to lubricating oil. The regulations under section 202(c)(3)(A) are effective with respect to oil used after December 31, 1965.

2. Section 207(d)(8) of the Airport and Airway Development Act of 1970, Pub. L. 91-258, 84 Stat. 219 [1970-1 C.B. 361, 367], relating to civil penalty for excessive claims under section 6427 with respect to fuels not used for taxable purposes. The regulations under section 207(d)(8) are effective after June 30, 1970.

STATUTORY AMENDMENTS NOT REFLECTED IN THE FINAL REGULATIONS

The table set forth below enumerates the post-1964 statutory changes relating to manufacturers and retailers excise taxes which are not reflected in these final regulations.

4161

1. Sections 1015 and 1017 of the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-1 C.B. (Vol. 1) 1, 525, 529] relating to taxes on the sale of sport fishing equipment and certain arrows. These amendments are expected to be the subject of another regulation project.

4162:

1. Section 1015(b) of the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol.1) 1, 525] relating to definitions of sport fishing equipment and the treatment of certain resales. This amendment will be the subject of another regulation project.

6302:

1. Section 1015(c) of the Tax Reform Act of 1984 [Pub. L.98-369, 1984-3 C.B. (Vol. 1) 1, 526] relating to the time for payment of manufacturers excise tax on sport fishing equipment. This amendment will be the subject of another regulation project.

6416:

1. Sections 201(c)(3), 232(b) and 233(c)(3) of the Energy Tax Act of 1978 [1978-3 C.B. (Vol. 2), 1, 10, 15, 18] relating to the refund and credit provisions for tread rubber, tires, inner tubes, and certain parts and accessories of automobile buses and light-duty trucks. These amendments are the subject of another regulation project.

2. Section 108(c)(2)(A-(2)(B) and (c)(3)-(c)(4) of the Technical Corrections Act of 1979 [Pub. L. 96-222, 1980-1 C.B. 499, 517] relating to the refund and credit provisions for lubricating oil, tires, and inner tubes. This amendment is the subject of another regulation project.

3. Sections 1(a)-(b)(2)(D) and 4(c) of the Act of December 24, 1980, P.L. 96-598, 94 Stat. 3485 [1980-2 C.B. 661], relating to the refund and credit provisions for tax paid on tread rubber used in recapping or retreading a tire. These amendments are the subject of another regulation project.

6427:

1. Section (1)(b) of the Act of October 17, 1976, P.L. 94-530, 90 Stat. 2487 [1976-2 C.B. 555], relating to credit or refund of tax on gasoline and special fuels used by certain aircraft museums. This Act expired on October 1, 1982. The tax was reinstituted by the Tax Equity and Fiscal Responsibility Act of 1982 [Pub. L. 97-248, 1982-2 C.B. 462]. This amendment is the subject of another regulation project.

2. Section 505(a) of the Highway Revenue Act of 1978 [Pub. L. 95-599, 1978-2 C.B. 403, 404], relating to credit or refund for certain taxicabs of excise taxes on gasoline and other motor fuels. [The provisions of section 505(a) are not expected to be the subject of another regulation project.]

3. Section 232(d)(1) of the Crude Oil Windfall Profit Tax Act of 1980 [Pub. L. 96-223, 1980-3 C.B. 1, 49], relating to refund of tax on gasoline used to produce certain alcohol fuels. This statutory change is expected to be the subject of another regulation project.

PAPERWORK REDUCTION ACT

The collection of information requirements contained in these regulations have been submitted to the Office of Management and Budget for review in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this final rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required. Although a notice of proposed rulemaking which solicited public comments was issued, the Internal Revenue Service concluded when the notice was issued that the regulations are interpretative and that the notice and public procedure requirement of 5 U.S.C. 553 did not apply. Accordingly, the final regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

DRAFTING INFORMATION

The principal author of this regulation is Ada S. Rousso of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Parts 48, 154, and 602 are amended as follows:

Paragraph 1. The authority citation for Part 48 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 2. Section 48.0-1 is revised to read as follows. Sections 48.0-3 and 48.0-4 are removed. Section 48.0-5 is redesignated as §48.0-3.

§48.0-1 Introduction.

The regulations in this part (Part 48, Subchapter D, Chapter I, Title 26, Code of Federal Regulations) are designated "Manufacturers and Retailers Excise Tax Regulations. "The regulations relate to the taxes imposed by sections 4041, 4042 and 4051 or by chapter 32 of the Internal Revenue Code of 1954, as amended, and to certain related administrative provisions of subtitle F of the Code. Section 4041 imposes taxes on certain sales or uses of the special fuels described in that section, and on certain sales or uses of gasoline as a fuel in aircraft engaged in noncommercial aviation. Section 4042 imposes taxes on liquids used as fuel in certain vessels in commercial waterway transportation. Section 4051 imposes taxes on heavy trucks, trailers and certain tractors sold at retail. Chapter 32 of the Code imposes taxes on the sale or use by the manufacturer, producer, or importer of articles specified in that chapter. References in the regulations in this part to the "Internal Revenue Code" or the "Code" are references to the Internal Revenue Code of 1954, as amended, unless otherwise indicated. References to a section or other provision of law are references to a section or other provision of the Internal Revenue Code, as amended, unless otherwise indicated.

Par. 3. Section 48.4161(a)-1 is amended by revising paragraph (c) to read as follows.

§48.4161(a)-1 Imposition and rate of tax; fishing equipment.

* * * * *

(c) *Liability for tax.* The tax imposed by section 4161(a) is payable by the manufacturer, producer, or importer making the sale. For determining who is the manufacturer, producer, or importer, see §48.0-2(a)(4).

Par. 4. Section 48.4161(a)-2 is amended by revising paragraph (d) to read as follows.

§48.4161(a)-2 Meaning of terms.

* * * * *

(d) *Artificial lures, baits, and flies.* The term "artificial lures, baits, and flies" includes all artifacts, of whatever materials made, that simulate an article considered edible by fish and are designed to be attached to a line or hook to attract fish so that they may be captured. Thus, the term includes such artifacts as imitation flies, blades, spoons, and spinners, and edible materials that have been processed so as to resemble a different edible article considered more attractive to fish, such as bread crumbs treated so as to simulate salmon eggs, and pork rind cut and dyed to resemble frogs, eels, or tadpoles.

Par. 5. Section 48.4161(a)-3 is amended by revising paragraph (b) to read as follows.

§48.4161(a)-3 Parts and accessories.

* * * * *

(b) *Essential equipment.* If taxable articles are sold by the manufacturer, producer, or importer thereof, without parts or accessories that are essential for their operation, or are designed directly to improve the performance or appearance of the articles, the separate sale of the parts or accessories to the same vendee will be considered, in the absence of evidence to the contrary, to have been made in connection with the sale of the basic article, even though the parts or accessories are shipped separately at the same time or on a different date.

Par. 6. Section 48.4161(b)-1 is amended by revising paragraph (c) to read as follows:

§48.4161(b)-1 Imposition and rates of tax; bows and arrows.

* * * * *

(c) *Liability for tax.* The tax imposed by section 4161(b) is payable by the manufacturer, producer, or importer making the sale. For determining who is the manufacturer, producer, or importer, see §48.0-2(a)(4).

Par. 7. Section 48.4181-2 is amended by revising paragraph (d) to read as follows.

§48.4181-2 Meaning of terms.

* * * * *

(d) *Shells and cartridges.* (1) The terms "shells" and cartridges" include any article consisting of a projectile, explosive, and container that is designed, assembled, and ready for use without further manufacture in firearms, pistols or revolvers.

(2) A person who reloads used shells or cartridges is a manufacturer of shells or cartridges within the meaning of section 4181 if such reloaded shells or cartridges are sold by the reloader. However, the reloader is not a manufacturer of shells or cartridges if, in return for a fee and expenses, the reloads shells or cartridges submitted by a customer and returns the identical shells or cartridges to that customer. Under such circumstances, the customer would be the manufacturer of the shells or cartridges and may be liable for tax on the sale of the articles. See section 4218 and §48.4218-2.

Par. 8. Section 48.4182-1 is amended by revising paragraph (b) to read as follows.

§48.4182-1 Exempt sales.

* * * * *

(b) *Sales to Defense Department or to U.S. Coast Guard*—(a) *Military department.* Section 4182(b) provides that the tax imposed by section 4181 shall not attach to the sale of firearms, pistols, revolvers, shells, or cartridges that are purchased with funds appropriated for a military department of the United States. For this purpose, the term "military department" means the Department of the Army, the Department of the Navy, and the Department of the Air Force. Included in the Department of the Navy are naval aviation and the Marine Corps and, when operating as a service in the Navy pursuant to the provisions of 14 U.S.C. 34, the Coast Guard.

(2) *Coast Guard.* (i) 14 U.S.C. 655, as added by sec. 5 of the Act of July 10, 1962. (Pub. L. 87-526, 76 Stat.142), provides as follows:

Sec. 655. *Arms and ammunition: immunity from taxation.* No tax on the sale or transfer of firearms, pistols, revolvers, shells, or cartridges may be imposed on such articles when bought with funds appropriated for the United States Coast Guard.

(ii) In view of the provisions of 14 U.S.C. 655, the tax imposed by section 4181 shall not attach to the sale of firearms, pistols, revolvers, shells, or cartridges that are purchased with funds appropriated for the U.S. Coast Guard whether or not the Coast Guard is operating as a service in the Navy pursuant to 14 U.S.C. 3.

(3) *Supporting evidence.* (i) Any manufacturer, producer, or importer claiming an exemption from the tax imposed by section 4181 by reason of section 4182(b) must maintain such records and be prepared to produce such evidence as will establish the right to the exemption. Generally, clearly identified orders or contracts of a military department or the Coast Guard signed by an authorized officer of the military department or the Coast Guard will be sufficient to establish the right to the exemption. In the absence of such orders or contracts, a statement, signed by an authorized officer of a military department or the Coast Guard, that the prescribed articles were purchased with funds appropriated for that military department or the Coast Guard will constitute satisfactory evidence of the right to the exemption.

(ii)(A) *In general.* Under 18 U.S.C. 922(b)(5), a manufacturer, dealer, or importer licensed under 18 U.S.C. 923 is required to record the name, age, and place of residence of an individual person, or the identity and principal and local places of business of a corporation or other business entity, to whom the licensee sells or delivers any firearm or ammunition. 18 U.S.C. 923(g) requires the licensee to maintain such records and to make them available for inspection.

(B) *Exception.* However, under section 4182(c) of the Internal Revenue Code, no person holding a license under 18 U.S.C. 933 shall be required to record the name, address, or other information about the purchaser of shotgun ammunition, ammunition suitable for use only in rifles generally available in commerce, or component parts for such ammunition.

Par. 9. Sections 48.6011(a)-1 and 48.6011(a)-2 are revised to read as follows.

§48.6011(a)-1 Returns.

(a) *In general.* (1) Liability for tax imposed under section 4041, 4042 or 4051 or chapter 32 of the Code shall be reported on Form 720. Except as provided in paragraph (b) of this section, a return on Form 720 shall be filed for a period of one calendar quarter.

(2) Every person required to make a return on Form 720 for the return period ended June 30, 1965, shall make a return for each subsequent calendar quarter, month, or semimonthly period (whether or not liability was incurred for any tax reportable on the return for the return period) until the person has filed a final return in accordance with §48.6011(a)-2.

(3) Every person not required to make a return on Form 720 for the return period ended June 30, 1965, shall make a return for the first calendar quarter thereafter in which he incurs liability for tax imposed under section

4041, 4042 or 4051 or chapter 32, and shall make a return for each subsequent calendar quarter, month, or semimonthly period until the person has filed a final return in accordance with §48.6011(a)-2.

(4) Each return required under the regulations in this part, together with any prescribed copies, records, or supporting data, shall be completed in accordance with the applicable forms, instructions, and regulations.

(b) *Monthly and semimonthly returns*—(1) *Requirement.* If the district director determines that any taxpayer who is required to deposit taxes under the provisions of §48.6302(c)-1 has failed to make deposits of those taxes, the taxpayer shall be required, if so notified in writing by the district director, to file a monthly or semimonthly return on Form 720. Every person so notified by the district director shall file a return for the calendar month or semimonthly period (as defined in §48.6302(c)-1(b)) in which the notice is received and for each calendar month or semimonthly period thereafter until the person has filed a final return in accordance with §48.6011(a)-2 or is required to file returns on the basis of a different return period pursuant to notification as provided in paragraph (b)(2) of this section.

(2) *Change of requirement.* The district director may require the taxpayer, by notice in writing, to file a quarterly or monthly return, if the taxpayer has been filing returns for a semimonthly period, or may require the taxpayer to file a quarterly or semimonthly return, if the taxpayer has been filing monthly returns.

(3) *Return for period change takes effect.* (i) If a taxpayer who has been filing quarterly returns receives notice to file a monthly or semimonthly return, or a taxpayer who has been filing monthly returns receives notice to file a semimonthly return, the first return required pursuant to the notice shall be filed for the month or semimonthly period in which the notice is received and all months or semimonthly periods which are not includible in an earlier period for which the taxpayer is required to file a return.

(ii) If a taxpayer who has been filing monthly or semimonthly returns receives notice to file a quarterly return, the last month or semimonthly period for which a return shall be filed is the last month or semimonthly period of the calendar quarter in which the notice is received.

(iii) If a taxpayer who has been filing semimonthly returns receives notice to file a monthly return, the last semimonthly period for which a return shall be made is the last semimonthly period of the month in which the notice is received.

§48.6011(a)-2 Final returns.

(a) *In general.* Any person who is required to make a return on Form 720 pursuant to §48.601(a)-1, and who in any return period ceases operations in respect of which the person is required to make a return on the form, shall make the return for that period as a final return. Each return made as a final return shall be marked "Final Return" by the person filing the return. A person who has only temporarily ceased to incur liability for tax required to be reported on Form 720 because of temporary or seasonal suspension of business or for other reasons, shall not make a final return but shall continue to file returns.

(b) *Statement to accompany final return.* Each final return shall have attached a statement showing the address at which the records required by the regulations in this part will be kept, the name of the person keeping the records, and, if the business of the taxpayer has been sold or otherwise transferred to another person, the name and address of that person and the date on which the sale or transfer took place. If no sale or transfer occurred or if the taxpayer does not know the name of the person to whom the business was sold or transferred, that fact should be included in the statement.

(c) An individual's signature on a return, statement, or other document made by or for a corporation or a partnership shall be prima facie evidence that the individual is authorized to sign the return, statement, or other document.

Par. 10. Section 48.6071(a)-1 is revised to read as follows:

§48.6071(a)-1 Time for filing returns.

(a) *Quarterly returns.* Each return required to be made under §48.6011(a)-1(a) for a return period of not les than one calendar quarter shall be file on or before the last day of the first cal endar month following the close of th period for which it is made. Howeve a return may be filed on or before th 10th day of the second calendar mont following the close of the period i timely deposits under section 6302(c of the Code and the regulations there under have been made in full paymer of the taxes due for the period. For th purposes of the preceding sentence, deposit which is not required by regula tions in respect of the return perio may be made on or before the last da of the first calendar month followin the close of the period, and the timel ness of any deposit made otherwis than by mail will be determined by th earliest date stamped on the Federa Tax Deposit form by an authorized f nancial institution or by a Federal Re serve bank. For determining the timel ness of a deposit made by mail, se section 7502(e) and §301.7502-1 c this chapter (Regulations on Procedu and Administration).

(b) *Monthly and semimonthl returns*—(1) *Monthly returns.* Each re turn required to be made unde §48.6011(a)-1(b) for a monthly perio shall be filed not later than the 15th da of the month following the close of th period for which it is made.

(2) *Semimonthly returns.* Each retu required to be made under §48.601 (a)-1(b) for a semimonthly period sha be filed not later than the 10th day the semimonthly period following th close of the period for which it made.

(c) *Last day for filing.* For provisio relating to the time for filing a retu when the prescribed due date falls on Saturday, Sunday, or legal holiday, s §301.7503-1 of this chapter (Regul tions on Procedure and Administr tion).

(d) *Late filing.* For additions to t tax in case of failure to file a retu within the prescribed time, s §301.6651-1 of this chapter (Regul tions on Procedure and Administr tion).

Par. 11. The following ne §48.6081(a)-1 is added immediately a ter §48.6071(a)-1.

§486081(a)-1 Extension of time for fi ing returns.

(a) *In general.* Ordinarily, no extension of time will be granted for filing any return statement or other document required with respect to the taxes imposed by section 4041, 4042 or 4051 or chapter 32, because the information required for the filing of those documents is under normal circumstances readily available. However, if because of temporary conditions beyond the taxpayer's control, a taxpayer believes an extension of time for filing is justified, the taxpayer may apply to the district director, or to the director of the service center for an extension. An extension of time for filing a return does not operate to extend the time for payment of the tax or any part of the tax unless so specified in the extension. For extensions of time for payment of the tax, see §48.6161(a)-1.

(b) *Application for extension of time.* The application for an extension of time for filing the return shall be addressed to the district director, or director of the service center, with whom the return is to be filed and must contain a full recital of the causes for the delay. It should be made on or before the due date of the return, and failure to do so may indicate negligence and constitute sufficient cause for denial. It should, where possible, be made sufficiently early to permit consideration of the matter and reply before what otherwise would be the due date of the return.

(c) *Filing the return.* If an extension of time for filing the return is granted, a return shall be filed before the expiration of the period of extension.

Par. 12. Section48.6091-1 is revised to read as follows.

§48.6091-1 Place for filing returns.

(a) *Persons other corporations.* The return of a person other than a corporations shall be filed with the district director for the internal revenue district in which is located the principal place of business or legal residence of the person. If the person has no principal place of business or legal residence in any internal revenue district, the return shall be filed with the District Director, Internal Revenue Service, Baltimore, MD 21202, except as provided in paragraph (c) of this section.

(b) *Corporations.* The return of a corporation shall be filed with the district director for the district in which is located the principal place of business or principal office or agency of the corporation, except as provided in paragraph (c) of this section.

(c) *Returns of taxpayers outside the United States.* The return of a person (including a United States citizen), other than a corporation, outside the United States having no legal residence or principal place of business in any internal revenue district, or the return of a corporation having no principal place of business or principal office or agency in any internal revenue district, shall be filed with the Director, Foreign Operations District, Internal Revenue Service, Washington, D.C. 20225. If, however, the principal place of business or legal residence of the person, or the principal place of business or principal office or agency of the corporation, is located in the Virgin Islands or Puerto Rico, the return shall be filed with the Director of International Operations, U.S. Internal Revenue Service, Hato Rey, Puerto Rico 00917.

(d) *Returns filed with service centers.* Notwithstanding paragraphs (a), (b), and (c) of this section, whenever instructions applicable to any returns provide that the returns shall be filed with a service center, the returns shall be so filed in accordance with the instructions.

(e) *Hand-carried returns.* Except as provided in paragraph (e)(3) of this section, and notwithstanding paragraphs (1) and (2) of section 6091(b) and paragraph (d) of this section, the following rules apply.

(1) *Persons other than corporations.* Returns of persons other than corporations which are filed by hand carrying shall be filed with the district director as provided in paragraph (a) of this section.

(2) *Corporations.* Returns of corporations which are filed by hand carrying shall be filed with the district director as provided in paragraph (b) of this section.

(3) *Exceptions.* This paragraph (e) shall not apply to returns of—

(i) Persons who have no legal residence, no principal place of business, or no principal office or agency in any internal revenue district.

(ii) Citizens of the United States whose principal place of abode for the period with respect to which the return is filed is outside the United States.

(iii) Persons who claim the benefits of section 911 (relating to income earned by individuals from sources without the United States), section 913 (relating to deduction for certain expenses of living abroad), section 931 (relating to income from sources within possessions of the United States), section 933 (relating to income from sources within Puerto Rico), or section 936 (relating to Puerto Rico and possession tax credit), and

(iv) Nonresident alien persons and foreign corporations.

(f) *Permission to file in district other than required district.* The Commissioner may permit the filing of any return required to be made under the regulations in this part in any internal revenue district, notwithstanding the provisions of paragraphs (1), (2),and (4) of section 6091(b) and paragraphs (a), (b), (c), (d), and (e) of this section.

(g) *Cross reference.* For definition of the term "hand carried", see §301.6091-1(c) of this chapter (Regulations on Procedure and Administration).

Par. 13. The following new §48.6101-1 is added immediately after §48.6091-1.

§48.6101 1 Period covered by returns or other documents.

The normal period for which returns are ordinarily required under this subpart is a calendar quarter. Under certain circumstances, however, the district director may require returns to be filed for monthly or semimonthly periods. For provisions relating to quarterly returns, see §48.6011(a)-1(a). For provisions relating to monthly and semimonthly returns, see §48.6011(a)-1(b).

Par. 14. Section 48.6109-1 is revised to read as follows:

§48.6109-1 Employer identification numbers.

(a) *Requirement of application*—(1) *In general.* An application on Form SS-4 for an employer identification number shall be made by every person who makes a sale or use of an article with respect to which a tax is imposed by section 4041, 4042 or 4051 or chapter 32 of the Code, but who has not earlier been assigned an employer identification number or has not applied

for one. The application and any supplementary statement accompanying it shall be prepared in accordance with the applicable form, instructions, and regulations and shall set forth fully and clearly the date therein called for. Form SS-4 may be obtained from any district director or director of a service center. The application shall be filed with the internal revenue officer designated in the instructions applicable to Form SS-4. The application shall be signed by (i) the individual if the person is an individual; (ii) the president, vice-president, or other principal officer, if the person is a corporation; (iii) a responsible and duly authorized member or officer having knowledge of its affairs, if the person is a partnership or other unincorporated organization; or (iv) the fiduciary, if the person is a trust or estate. An employer identification number will be assigned to the person in due course upon the basis of information reported on the application required under this section.

(2) *Time for filing Form SS-4.* The application for an employer identification number shall be filed on or before the seventh day after the date of the fist sale or use of an article with respect to which a tax is imposed by section 4041, 4042, or 4051 or chapter 32 of the Code.

(b) *Use of employer identification number.* The employer identification number assigned to a person liable for a tax imposed by section 4041, 4042, or 4051 or chapter 32 of the Code shall be shown in any return, statement, or other document submitted to the Internal Revenue Service by the person.

(c) *Cross references.* For the definition of the term "employer identification number", see §301.7701-12 of this chapter (Regulations on Procedure and Administration). For provisions relating to the penalty for failure to include the employer identification number in a returned statement, or other document, see §301.6676-1 of this chapter (Regulations on Procedure and Administration).

Par. 15. Section 48.6151-1 is revised to read as follows:

§48.6151-1 Time and place for paying tax shown on return.

The tax required to be reported on each tax return under this subpart is due and payable to the internal revenue officer with whom the return is filed at the time prescribed in §48.6071(a)-1 for filing such return. See the applicable sections in Part 301 of this chapter (Regulations on Procedure and Administration) for provisions relating to interest on underpayments, additions to tax, and penalties. For provisions relating to the use of Federal Reserve banks and authorized financial institutions in depositing the taxes, see §48.6302(c)-1.

Par. 16. The following new §48.6161(a)-1 is added immediately after §48.6151-1.

§48.6161(a)-1 Extension of time for paying tax shown on return.

(a) *In General.* (1) Ordinarily, no extensions of time will be granted for payment of any tax imposed by section 4041, 4042 or 4051 or chapter 32 of the Code, and shown or required to be shown on any return. However, if because of temporary conditions beyond the taxpayer's control a taxpayer believes an extension of time for payment is justified, the taxpayer may apply to the district director, or to the director of the service center, for an extension. The period of any extension shall not be in excess of 6 months from the date fixed for payment of the tax, except that if the taxpayer is abroad the period of the extension may be in excess of 6 months.

(2) The granting of an extension of time for filing a return does not operate to extend the time for the payment of the tax or any part of the tax unless so specified in the extension. See §48.6081(a)-1.

(b) *Undue hardship required for extension.* An extension fo the time for payment shall be granted only upon a satisfactory showing that payment on the due date of the amount with respect to which the extension is desired will result in an undue hardship. The extension will not be granted upon a general statement of hardship. The term "undue hardship" means more than an inconvenience to the taxpayer. It must appear that substantial financial loss, for example, loss due to the sale of property at a sacrifice price, will result to the taxpayer from making payment on the due date of the amount with respect to which the extension is desired. If a market exists, the sale of property at the current market price is not ordinarily considered as resulting in an undue hardship.

(c) *Application for extension.* An application for an extension of time for payment of the tax shown or required to be shown on any return shall be made on Form 1127 and shall be accompanied by evidence showing the undue hardship that would result to the taxpayer if the extension were refused. The application shall also be accompanied by a statement of the assets and liabilities of the taxpayer and an itemized statement showing all receipts and disbursements for each of the 3 months immediately preceding the due date of the amount to which the application relates. The application, with supporting documents, must be filed, on or before the date prescribed for payment of the amount with respect to which the extension is desired, with the internal revenue officer to whom the tax is to be paid. The application will be examined, and within 30 days, if possible, will be denied, granted, or tentatively granted subject to certain conditions of which the taxpayer will be notified. If an additional extension is desired, the request for it must be made on or before the expiration of the period for which the prior extension is granted.

(d) *Payment pursuant to extension.* If an extension of time for payment is granted, the payment shall be made on or before the expiration of the period of the extension without the necessity of notice and demand. The granting of an extension of time for payment of the tax does not relieve the taxpayer from liability for the payment of interest on the tax during the period of the extension. See section 6601 and §301.6601-1 of this chapter (Regulations on Procedure and Administration).

Par. 17. Section 48.6206-1 is revised to read as follows.

§48.6206-1 Assessment and collection of excessive payment and penalty.

(a) *Treatment of excessive amount as tax.* If any portion of a payment made under section 6420 (relating to gasoline used on farms), section 6421 (relating to gasoline used for certain nonhighway purposes or by local transit systems), section 6424 (relating to lubricating oil

sold prior to January 7, 1983, and not used in highway motor vehicles), or section 6427 (relating to special fuels not used for taxable purposes) constitutes an excessive amount as defined in section 6675(b) and §48.6675-1(b), the excessive amount and any civil penalty provided by section 6675 may be assessed and collected by the district director—

(1) As if the excessive amount and civil penalty were a tax imposed by section 4081 (relating to tax on the sale of gasoline), section 4091 (relating to tax on sale of lubricating oil prior to January 7, 1983), or section 4041 (relating to tax on sale of special fuels), as the case may be, and

(2) As if the person who made the claim for payment were liable for tax imposed by section 4081, 4091 or 4041, in that amount.

(b) *Assessment period.* The period within which the portion of a payment constituting an excessive amount and any civil penalty may be assessed shall be 3 years from the last date prescribed by section 6420, 6421, 6424 or 6427, as the case may be, for the filing of the claim in respect of which the excessive amount is attributable.

Par. 18. Section 48.6302(c)-1 is revised to read as follows:

§48.6302(c)-1 Use of Government depositaries.

(a) *Monthly deposits.* Except as provided in paragraph (b) of this section, if for any calendar month (other than the last month of a calendar quarter) any person required to file a quarterly excise tax return on Form 720 has a total liability under this part of more than $100 for all excise taxes reportable on that form, the amount of liability for taxes shall be deposited by the person with a Federal Reserve bank or authorized financial institution on or before the last day of the month following the calendar month.

(b) *Semimonthly deposits.* (1) If any person required to file an excise tax return on Form 720 for any calendar quarter has a total liability under this part of more than $2,000 for all excise taxes reportable on that form for any calendar month in the preceding calendar quarter, the amount of that liability for taxes under this part for any semimonthly period (as defined in paragraph (d)(1) of this section) in the succeeding calendar quarter shall be deposited by the person with a Federal Reserve bank or authorized financial institution on or before the depository date (as defined in paragraph (d)(2) of this section) applicable to the semimonthly period.

(2) A person will be considered to have complied with the requirements of paragraph (b)(1) of this section for a semimonthly period if—

(i)(A) The person's deposit for the semimonthly period is not less than 90 percent of the total amount of the excise taxes reportable by the person on Form 720 for the period, and

(B) If the semimonthly period occurs in a calendar month other than the last month in a calendar quarter, the person deposits any underpayment for the month by the 9th day of the second month following the calendar month; or

(ii)(A) The person's deposit for each semimonthly period in the calendar month is not less than 45 percent of the total amount of the excise taxes reportable by the person on Form 720 for the month, and

(B) If such month is other than the last month in a calendar quarter, the person deposits any underpayment for such month by the 9th day of the second month following the calendar month; or

(iii)(A) The person's deposit for each semimonthly period in the calendar month is not less than 50 percent of the total amount of the excise taxes reportable by the person on Form 720 for the second preceding calendar month, and

(B) If such month is other than the last month in a calendar quarter, the person deposits any underpayment for such month by the 9th day of the second month following the calendar month; or

(iv)(A) The requirements of paragraph (b)(2)(i)(A), (ii)(A), or (iii)(A) of this section are satisfied for the first semimonthly period of a calendar month after January 1971,

(B) If the person's deposit for the second semimonthly period of the calendar month is, when added to the deposit for the first semimonthly period, not less than 90 percent of the total amount of the excise taxes reportable by the person on Form 720 for the calendar month, and

(C) If the semimonthly periods occur in a calendar month other than the last month in a calendar quarter, the person deposits any underpayment for the month by the 9th day of the second month following the calendar month.

(3)(i) Paragraph (b)(2)(ii) and (iii) of this section shall not apply to any person who normally incurs in the first semimonthly period in each calendar month more than 75 percent of the person's total excise tax liability under this part for the month.

(ii) Persons who make their deposits in accordance with paragraph (b)(2)(ii), (iii), or (iv) of this section will find it unnecessary to keep their books and records on a semimonthly basis.

(c) *Deposit of certain excess undeposited amounts.* Notwithstanding paragraphs (a) and (b) of this section, if any person required to file an excise tax return on Form 720 for any calendar quarter beginning after March 31, 1968, has a total liability under this part of all excise taxes reportable on the form for the calendar quarter which exceeds by more than $100 the total amount of taxes deposited by the person pursuant to paragraph (a) or (b) of this section for the calendar quarter, the person shall, on or before the last day of the calendar month following the calendar quarter for which the return is acquired to be filed, deposit with a Federal Reserve bank or authorized financial institution the full amount by which the person's liability for all excise taxes reportable on the form for that calendar quarter exceeds the amount of excise taxes previously deposited by the person for that calendar quarter.

(d) *Definitions.* For purposes of this part—

(1) *Semimonthly period.* The term "semimonthly period" means the first 15 days of a calendar month or the portion of a calendar month following the 15th day of that month.

(2) *Depositary date.* (i) The term "depositary date" means, in the case of deposits for semimonthly periods beginning after January 31, 1971, the 9th day of the semimonthly period following the semimonthly period for which the taxes are reportable.

(ii) The term "depositary date" means, in the case of deposits for semimonthly periods ending before Febru-

ary 1, 1971, the last day of the semimonthly period following the semimonthly period for which the taxes are reportable.

(iii) The term "depositary date" means, in the case of deposits by qualified persons whose liability for tax under section 4081 arises after March 31, 1983, and is payable with respect to semimonthly periods, 14 days after the close of the semimonthly period if payment is made either by wire transfer to any government depositary authorized under section 6302 or by transfer between accounts in the same government depositary. See §145.3-1 (relating to extension of payment due date for certain fuel taxes) and section 518 of the Highway Revenue Act of 1982 (96 Stat. 2184).

(e) *Depositary forms and procedures*—(1) *In general.* A person required by this section to make deposits may make one or more remittances with respect to the amount required to be deposited. An amount of tax which is not otherwise required by this section to be deposited may, nevertheless, be deposited if the person liable for the tax so desires.

(2) *Deposits for 1968 and subsequent years.* Each remittance of amounts required to be deposited for periods subsequent to 1967 shall be accompanied by a Federal Tax Deposit form, which shall be prepared in accordance with the applicable instructions. The remittance, together with the Federal Tax Deposit form, shall be forwarded to a financial institution authorized as a depositary for Federal taxes in accordance with 31 CFR Part 214 or, at the election of the person making the remittance, to a Federal Reserve Bank. For procedures governing the deposit of Federal taxes at a Federal Reserve Bank, see 31 CFR Part 214.7. The timeliness of the deposit will be determined by the date it is received (or is deemed received under section 7502(e) and §301.7502-1 of this chapter (Regulations on Procedure and Administration)) by the Federal Reserve Bank or by the authorized financial institution. Amounts deposited pursuant to this paragraph (e)(2) shall be considered to be paid on the last day prescribed for filing the return in respect of the tax (determined without regard to any extension of time for filing the returns), or at the time deposited, whichever is later.

(3) *Information required.* Each person making deposits pursuant to this section shall report on the return for the period with respect to which the deposits are made information regarding the deposits in accordance with the instructions applicable to the return and pay (or deposit by the due date of the return) the balance, if any, of the taxes due for the period.

(4) *Procurement of prescribed forms.* Copies of the Federal Tax Deposit form will be furnished, so far as possible, to persons required to make deposits under this section. Such a person will not be excused from making a deposit, however, by the fact that no form has been furnished. A person not supplied with the form is required to apply for it in ample time to make the required deposits within the time prescribed, supplying with the application the person's name, identification number, address, and the taxable period to which the deposits will relate. Copies of the Federal Tax Deposit form may be obtained by applying for them with the distinct director or the director of a service center.

(f) *Nonapplication to certain taxes.* This section does not apply to taxes for (1) any month or semimonthly period in which the taxpayer receives notice from the district director pursuant to §48.6011(a)-1(b) to file Form 720 or (2) any subsequent month or semiannually period for which a return on Form 720 is required.

Par. 19. The following new §48.6302(c)-2 is added immediately after §48.6302(c)(1).

§48.6302(c)-2 Cross reference.

(a) *Failure to deposit.* For provisions relating to failure to make a deposit within the time prescribed, see §301.6656-1 of this chapter (Regulations on Procedures and Administration).

(b) *Saturday, Sunday, or legal holiday.* For regulations relating to the time for performance of acts when the last day for the performance falls on a Saturday, Sunday or legal holiday, see §301.7503-1 of this chapter (Regulations on Procedure and Administration). See §145.3-1(d) and section 518 of the Highway Revenue Act of 1982 (96 Stat. 2184) relating to the depositary date for persons required to make semimonthly deposits under section 4081 when the last day for performance falls on a Saturday, Sunday or legal holiday in the District of Columbia.

Par 20. The following new §§48.6402(a)-1, 48.6404(a)-1, 48.6412-1, 48.6412-2 and 48.6412-3 are added immediately after §48.63402(c)-2.

§48.6402(a)-1 Authority to make credits or refunds.

For provisions relating to credits and refunds of certain taxes on sales and services see section 6416 and the regulations thereunder. For regulations under section 6402 of general application in respect of credits or refunds, see §§301.6402-1, 301-6402-2, and 301.6402-4 of this chapter (Regulations on Procedure and Administration).

§48.6404(a)-(1) Abatements.

For regulations under section 6404 of general application in respect of abatements of assessments of tax, see §301.6404-1 of this chapter (Regulations on Procedure and Administration).

§48.6412-1 Floor stocks credit or refund.

(a) *In general.* This section sets forth the procedures to be followed in claiming the credit or refund authorized by section 6412 for manufacturers excise taxes paid in respect of certain articles held by dealers as floor stocks on October 1, 1988. See §48.6412-2 for definitions of the following terms when used in this section: "floor stocks", "inventory date", "dealer", "held by a dealer", "old rate", "new rate", "dealer request limitation date", "claim limitation," and "tax paid". See §48.6412-3 for determining the amount of tax paid on articles that are held as floor stocks. The manufacturers excise taxes for which credit or refund may be claimed under this section are those imposed by section 4071, relating to tires of the type used on highway vehicles; and section 4081, relating to gasoline. For definition of the term "highway vehicle", see §48.4061(a)-1(d).

(b) *Computation of the amount of floor stocks credit or refund.* the amount of floor stocks credit or refund which may be claimed by the manufac-

turer under section 6412(a)(1) may not exceed an amount equal the difference between the tax paid by the manufacturer on the sale of the article and the amount of tax made applicable to the article on the inventory date. No interest is allowable with respect to any amount of tax credited or refunded under section 6412 and this section. In applying the floor stocks credit or refund provisions, the date on which the manufacturer paid the tax with respect to the article held as floor stocks is not relevant. Thus, the period of limitations provided in section 6511 with respect to claims for credit or refund does not apply; however, see paragraph (f) of this section. For definition of the term "manufacturer", see §48.0-2(a)(4).

(c) *Limitation.* Except as provided in §48.6412-3, no credit or refund is allowable under this section for an amount paid as tax which may be credited or refunded under any provisions of law other than section 6412(a)(1), or which was allowable as a credit or refund under section 6412 with respect to an earlier inventory date.

(d) *Relationship between credits or refunds for floor stocks and credits or refunds for price readjustments.* the amount which may be credited or refunded for floor stocks and for price readjustments on an article may not in the aggregate exceed the tax paid in respect of the article. A credit or refund computed on the basis of the old tax rate will be allowed with respect to a price readjustment of an article on which a floor stock credit or refund was allowed, but only if the amount of the floor stock credit or refund otherwise allowable was reduced by taking into account such price readjustment, as determined under §48.6412-3(e). The manufacturer must keep readily available for inspection sufficient records to enable examining officers of the Internal Revenue Service to ascertain the correctness of any claim for credit or refund for a price readjustment of an article on which a floor stock refund was claimed.

(e) *Participation of dealers*—(1) *Request by dealer.* On or before the dealer request limitation date, a dealer may submit to a manufacturer a request with respect to a credit or refund allowable under this section for tax paid by the manufacturer with respect to articles held by the dealer as floor stocks. This request may be submitted directly to the manufacturer, or it may be submitted to him indirectly through another dealer in the distribution chain if the request is received by the manufacturer or an unauthorized agent of the manufacturer on or before the dealer request limitation date.

(2) *Requirements for claim by manufacturer.* No amount of credit or refund under this section may be claimed by a manufacturer with respect to articles held by a dealer as floor stocks unless—

(i) The claim for the amount is based upon a request submitted by the dealer to the claimant on or before the dealer request limitation date;

(ii) The amount is paid by the claimant to the dealer, or the dealer's written consent to allowance of the credit or refund has been received by the claimant, on or before the claim limitation date; and

(iii) The request by the dealer is supported by an inventory statement, made under the penalties of perjury and signed by the dealer or by the dealer's authorized representative, setting forth the following information:

(A) The name and address of the dealer and of the applicable manufacturer, (if the name and address of the applicable manufacturer is unknown to the dealer, these items may be added by any person in the chain of distribution);

(B) The identification number, if any, of the article, such as a serial stock, model, type, or class number, or some other suitable means of identification;

(C) A brief description of the article, such as its common name or designation; and

(D) The quality of articles held by the dealer as floor stocks on the inventory date.

(3) *Actual manufacturer unknown.* If a dealer addresses a request to the person, who from markings on the article the dealer presumes to be the manufacturer, the request may be treated as made to the actual manufacturer if the actual manufacturer accepts the dealer's request.

(4) *Payment to dealer by claimant.* Payment may be made directly to the dealer or to the dealer's authorized agent or representative by the claimant or by the claimant's authorized agent or representative. If a claimant pays a dealer through the claimant's agent or representative, the evidence must show that the dealer actually received the payment. If a dealer authorized the claimant to pay the dealer through the dealer's agent or representative, evidence showing receipt of the payment by the agent or representative will be accepted as proof of actual payment to the dealer. Payment shall be made, at the manufacturer's option, in cash, by check, or by credit to the dealer's account as maintained by the claimant. The amount of the payment which may be made by crediting the dealer's account may not exceed the undisputed debit balance due at the time the credit is made. However, payment may be made in merchandise at the dealer's option with the concurrence of the manufacturer.

(5) *Date of performance.* The date on which any act described in this paragraph (e) is performed by an agent or representative on behalf of a claimant or dealer is deemed to be the date on which the act is performed by the principal.

(6) *Record of inventories.* For provisions relating to the record of a dealer's inventories to be kept by the claimant, see paragraph (g) of this section.

(7) *Sample written consent.* No particular form is prescribed or required for the written consent of the dealer described in paragraph (e)(2)(ii) of this section. However, the following is an example of an acceptable consent statement by a dealer:

Consent Statement of Dealer

(For use by dealer in requesting manufacturer, producer, or importer to obtain credit under section 6412 of the Internal Revenue Code of 1954 with respect to floor stocks.)

I hereby consent to the allowance to the manufacturer, producer, or importer of the floor stocks credit or refund of the excise tax imposed by the Internal Revenue Code of 1954 with respect to the articles in my inventory on _____

_____

(Name)

By _____

(Signature of Officer)

_____

(Title)

_____

(Date)

(f) *Procedure for claiming credit or refund*—(1) *In general.* Each claim for

credit or refund under this section shall be filed on or before the applicable claim limitation date, in the manner and subject to the conditions stated in this section and in §301.6402-2 of this chapter (Regulations on Procedure and Administration). Either credit or refund, or a combination thereof, may be claimed, but the amount which may be claimed as a credit on a return shall not exceed the total tax liability shown on the return, reduced by the amount of any deposits made under §48.6302(c)-1 with respect to the return and by any amount of credit claimed on the return pursuant to any provision of law other than section 6412. If the total amount which may be claimed exceeds the amount that may be claimed as credit on a return, the excess amount may be claimed on or before the applicable claim limitation date either as a refund or as a credit on a subsequent return. If credit is claimed the amount of the credit shall be entered as a credit on a timely-filed return of tax. The statement described in paragraph (f)(2) of this section must show the amount and date of each previous and concurrent claim for credit or refund under this section and indicate whether any future claims are expected to be filed.

(2) *Supporting evidence to be submitted by the manufacturer.* No credit or refund shall be allowed under this section unless there is submitted, in support of the claim for credit or refund, a statement signed by the person making the claim, that describes in general terms the articles covered by the claim, sets forth the method of computing the amount claimed (including a description of any procedures used pursuant to §48.6412-3), and states that—

(i) The claimant paid to the district director or the director of the internal revenue service center the tax for which credit or refund is claimed;

(ii) The total amount claimed represents payments requested by dealers before the dealer request limitation date;

(iii) The total amount claimed either was paid by the claimant to the dealers, or the claimant received the written consent of the dealers to the allowance of the amount claimed;

(iv) The claimant has in his possession, and available for inspection by internal revenue officers, the evidence with respect to inventories required by paragraph (g)(2) of this section, and any written consents referred to in paragraph (f)(2)(iii) of this section; and

(v) No other claim for credit or refund under this section has been or will be made by the claimant with respect to any amount covered by the claim.

(g) *Evidence to be retained in the manufacturer's records.* Every person filing a claim for credit or refund pursuant to this section shall support the claim by keeping as part of the claimant's records—

(1) The dealer's inventory statements required by paragraph (e)(2)(iii) of this section, to the extent that the articles are covered by the claim;

(2) Records, in respect of the articles held by each dealer, showing—

(i) The name and address of the dealer,

(ii) The quantities of each article held by the dealer as floor stocks by taxable category, for example, by model or type number,

(iii) The amount of tax considered to be paid by the manufacturer with respect to each article held by the dealer, as determined under §48.6412-3,

(iv) The amount of tax, if any, which the claimant would pay on the sale of each article held by the dealer if the tax were computed at the new rate,

(v) The total amount of reimbursement due the dealer,

(vi) The date on which the claimant received from the dealer the request described in paragraph (e)(1) of this section, but only if payment was not made to the dealer before the dealer request limitation date, and

(vii) the date and amount of each payment to a dealer, or the date of receipt by the claimant from the dealer of a written consent, as set forth in paragraph (e)(2)(ii) of this section; and

(3) Any such written consent received from a dealer.

(h) *Special rules where the presumed manufacturer is the agent of the actual manufacturer.* For purposes of this section, if a manufacturer sells articles tax-paid to a second manufacturer for resale by the second manufacturer under its own brand name, the second manufacturer may perform any acts and keep any records which are a prerequisite to the first manufacturer's filing a claim for floor stocks credit or refund wit respect to the articles. If such a proce dure is followed, the claim filed by th first manufacturer shall include a state ment indicating the name and addres of the second manufacturer and th amount of its claim which relates to ar ticles sold to the second manufacturer

(i) *Effect on other claims for credi or refund.* If a claim for credit or re fund is made pursuant to section 641(and the regulations thereunder, relatin in part to returned sales, sales for ex port or for exempt use, sales to States etc., with respect to a tax imposed by section 4071 or section 4081, and if the claim is made with respect to articles sold by the claimant before the date on which the tax is reduced in rate or ter minated, the claim shall be based on the new rate of tax unless the claiman can establish that the tax was imposed at the old rate and that no refund o credit under this section was allowed with respect to the articles. See, how ever, paragraph (d) of this section.

(j) *Other applicable provisions.* Al provisions of law, including penalties applicable in respect of the taxes imposed by sections 4071, 4081 and shall, insofar as applicable and not in consistent with section 6412, apply in respect to the credits and refunds pro vided for in section 6412 to the same extent as if the credits or refunds con stituted overpayments of the taxes. Fo provisions under which timely mailing is treated as timely filing, and for pro visions applicable to the time for per formance of acts when the last day falls on Saturday, Sunday, or a legal holi day, see §§301.7502-1 and 301.7503-1, respectively, of this chap ter (Regulations on Procedure and Administration).

§48.6412-2 Definitions for purposes o floor stocks credit or refund.

For purposes of section 6412 and th regulations thereunder—

(a) *Floor stocks.* The term "floo stocks" means any article subject to th tax imposed by section 4071 or sectio 4081 which—

(1) Is sold by the manufacturer (ot erwise than in a tax-free sale) befor October 1, 1988,

(2) Is held by a dealer at the firs moment on October 1, 1988, and ha not been used, and

(3) Is intended for sale.

However, the term "floor stocks" does not include gasoline in retail stocks held at the place where intended to be sold at retail, nor with respect to gasoline held for sale by a producer or importer of gasoline.

(b) *Inventory date.* The term "inventory date" means the first moment on the date on which an article is treated as floor stocks within the meaning of paragraph (a) of this section.

(c) *Dealer.* The term "dealer" includes a wholesaler, jobber, distributor, or retailer.

(d) *Held by a dealer*—(1) *In general.* (i) An article is considered as "held by a dealer" if title to the article has passed to the dealer (whether or not delivery to the dealer has been made), and if, for purposes of consumption, title to or possession of the article has not at any time been transferred to any person other than a dealer.

(ii) Floor samples, demonstrators, and articles undergoing repair (whether or not on the dealer's premises) that are carried in stock to be sold as new articles, and articles purchased tax-paid by manufacturer or a sales subsidiary and held by the person on the inventory date for resale as such, will be considered as unused and held by a dealer, if title to or possession of the article has not at any time been transferred to any person for purposes of consumption.

(iii) Articles sold by a dealer to a consumer before the inventory date and thereafter repossessed by the dealer, and articles purchased tax-paid by a manufacturer for use in further manufacture within the meaning of section 4221(d)(6), will not be considered as held by a dealer.

(iv) The determination as to the time title or possession passes for purposes of consumption shall be made under applicable local law.

(2) *Examples.* The application of this paragraph (d) may be illustrated by the following examples:

Example (1). If, under local law, title to an article sold by a dealer under a conditional sales contract is in the dealer on the inventory date, but the consumer has physical possession fo the article on that date, the article is not considered as held by the dealer.

Example (2). If, under local law, title to an article is in the consumer on the inventory date because the article is specifically identified with a contract, but on that date the dealer still has physical possession fo the article, for example, in his will-call department, the article is not considered as held by the dealer on that date because title to the article has passed to the consumer for purposes of consumption.

Example (3). If, under local law, title to an article is in the consumer on the inventory date because the dealer transferred the article to a common carrier for delivery to the consumer, the article in transit is not considered as held by the dealer on that date because title has passed to the consumer for purposes of consumption, even though neither the dealer nor the consumer has physical possession fo the article.

Example (4). If under local law, title to an article is in the dealer on the inventory date and does not pass to the consumer until delivery by a common carrier, the article in transit shall be considered as held by the dealer on that date because neither the title nor possession has passed to the consumer for purposes of consumption.

Example (5). If an article has been mortgaged or otherwise hypothecated by a dealer as security for a loan and, under local law, title to the article is in the creditor on the inventory date, and physical possession is in the dealer, the article shall be considered as held by the dealer on that date because neither title nor possession has passed to the consumer for purposes of consumption.

(e) *Old rate.* The term "old rate" means the rate of tax in effect with respect to the sale of an article before the date designated in paragraph (a) or (b) of this section on which the tax is reduced in rate or is terminated.

(f) *New rate.* The term "new rate" means the rate of tax, if any, in effect with respect to the sale of an article on the date designated in paragraph (a) or (b) of this section on which the tax is reduced in rate or is terminated.

(g) *Dealer request limitation date.* The term "dealer request limiation date" is the date prescribed by section 6412(a)(1) before which the request on which the manufacturer's claim is based must be submitted to the manufacturer by the dealer who held the floor stocks on the inventory date. In the case of an article held by a dealer on October 1, 1988, the dealer request limitation date is January 1, 1989.

(h) *Claim limitation date.* The term "claim limitation date" means the last date prescribed by section 6412(a)(1) on which refund or credit with respect to floor stocks may be claimed by a manufacturer. In the case of an article held by a dealer on October 1, 1988, the claim limitation date is March 31, 1989.

(i) *Tax paid.* A tax is considered paid if it was paid or was offset by an allowable credit on the return on which it was reported.

§48.6412-3 Amount of tax paid on each article.

(a) *General rule.* For purposes of making the claim for credit or refund under §48.6412-1 in respect of floor stocks held by a dealer, the tax paid on each article must be separately computed. If desired, the procedures set forth in paragraphs (b) through (g) of this section may be used in making the computation. The procedure used in determining the tax paid on an article must also be used in determining the amount of tax, if any, made applicable to the article on the effective date of reduction of repeal of the tax involved. Prior approval of the Internal Revenue Service for the method of computation need not be obtained and should not be requested.

(b) *Selling price.* In determining the price of an article on which the tax paid is to be computed, the average of the gross selling prices of identical articles sold during a representative period may be used. For example, truck chassis of the same model that are sold by the manufacturer with the same equipment and accessories are identical articles whose selling prices may be computed on the basis of an average.

(c) *Transportation charges.* In determining the price of an article on which the tax paid is to be computed, the average of the exclusions authorized by section 4216(a) for transportation, delivery, insurance, installation, etc., for a reasonable category of articles during a representative period may be used.

(d) *Credits for tax paid on inner tubes.* The average of the credits authorized by section 6416(c) for tax paid on tires or inner tubes may be averaged for a reasonable category of articles during a representative period. The credits shall be subtracted from the gross excise tax to arrive at the net excise tax paid.

(e) *Price readjustments.* (1) In determining the price on which the tax paid is to be computed, there must be taken into account any price readjustments with respect to which the manufacturer has filed a claim for credit or refund under section 6416(b). Other price readjustments which have been, or are reasonably expected to be, made with respect to the article may, at the option of the manufacturer, be taken into account in computing the price of the article.

(2) Price readjustments which cannot be attributed to specific articles as of the inventory date (as, for example, a price readjustment of a flat dollar amount which is made to dealers who meet a sales quota) may be taken into account on the basis of an average of the adjustments which is computed for a reasonable category of articles over a representative period.

(3) Price readjustments related to specific items (as, for example, an automatic rebate of a specific percentage of the price of each unit sold to a dealer) may not be average, and in such a case only the actual price readjustment attributable to a particular article may be taken into account in computing the tax on that article.

(4) If, because of the facts in a case, a price readjustment can be attributed to specific articles for purposes of consumer refunds but cannot be attributed to specific articles for purposes of floor stocks credits or refunds, the price adjustment may be averaged for purposes of both consumer refunds and floor stocks credits and refunds.

(f) *Representative period.* A period will be considered a representative period if—

(1) It covers (i) at least four consecutive calendar quarters, the last of which ends with a period of six calendar months immediately preceding the effective date of the tax reduction or repeal involved or (ii) any other period of time which the taxpayer can demonstrate constitutes a representative period for the particular category, and

(2) The number of articles in the category involved sold by the manufacturer during the period either (i) equals or exceeds the number of articles in the category to which the average amount is to be applied or (ii) can be demonstrated by the taxpayer to be a representative quantity.

(g) *Reasonable category.* Examples of a reasonable category of articles are articles that are identified by a common stock or class number or which are of the same model, class, or line. For the purpose of averaging exclusions, another example of a reasonable category of articles is a grouping of articles that are shipped in the same container. If a manufacturer sells articles bearing his own trademark and also sells articles as private brands, separate computations of the two brands must be made under this section.

Par. 21. Section 48.6416(a)-1 is revised to read as follows:

§48.6416(a)-1 Claims for credit or refund of overpayments of taxes on special fuels and manufacturers taxes.

Any claims for credit or refund of an overpayment of a tax imposed by chapter 31 or chapter 32 shall be made in accordance with the applicable provisions of this subpart and the applicable provisions of §301.6402-2 of this chapter (Regulations on Procedure and Administration). A claim on Form 843 is not required in the case of a claim for credit, but the amount of the credit shall be claimed by entering that amount as a credit on a return of tax under this subpart filed by the person making the claim. In this regard, see §48.6416(f)-1.

Par. 22. The following new §§48.6416(a)-2 and 48.6416(a)-3 are added immediately after §48.6416(a)-1 to read as follows.

§48.6416(a)-2 Credit or refund of tax on special fuels.

(a) *Overpayments not described in section 6416(b)(2)*—(1) *Claims included.* This paragraph applies only to claims for credit or refund of an overpayment of tax imposed by section 4041(a)(1)(A) (relating to tax on the sale of diesel fuel), section 4041(a)(2)(A) (relating to tax on the sale of special motor fuels), section 4041(c)(1)(A) (relating to tax on the sale of fuel for use in noncommercial aviation), or section 4041(c)(2)(A) (relating to the tax on sale of gasoline for use in noncommercial aviation). It does not apply, however, to a claim for credit or refund of any overpayment described in paragraph (b) of this section which arises by reason of the application of section 6416(b)(2).

(2) *Supporting evidence required.* No credit or refund of any overpayment to which this paragraph (a) applies shall be allowed unless the person who paid the tax submits with the claim a written consent of the ultimate purchaser to the allowance of the credit or refund, or submits with the claim a statement, supported by sufficient available evidence, asserting that—

(i) The person has neither included the tax in the price of the fuel with respect to which it was imposed nor collected the amount of the tax from a vendee, and identifying the nature of the evidence available to establish these facts, or

(ii) The person has repaid the amount of the tax to the ultimate purchaser of the fuel.

(3) *Ultimate purchaser.* The term "ultimate purchaser", as used in paragraph (a)(2) of this section, means the vendee to whom the fuel was sold tax-paid by the person claiming credit or refund.

(b) *Overpayments determined under section 6416(b)(2)*—(1) *Claims included.* This paragraph applies only to claims for credit or refund of amounts paid as tax under section 4041(a)(1)(A) (relating to tax on the sale of diesel fuel) or section 4011(a)(2)(A) (relating to tax on the sale of special motor fuels) that are determined to be overpayments by reason of section 6416(b)(2) (relating to tax payments in respect of certain uses, sales, or resales of a taxable article).

(2) *Supporting evidence required.* No credit or refund of an overpayment to which this paragraph (b) applies shall be allowed unless the person who paid the tax submits with the claim a statement, supported by sufficient available evidence, asserting that—

(i) The person has neither included the tax in the price of the fuel with respect to which it was imposed nor collected the amount of the tax from the vendee and identifying the nature of the evidence available to establish the facts, or

(ii) The person has repaid, or agreed to repay, the amount of the tax to the ultimate vendor of the fuel, or

(iii) The person has secured, and will submit upon request of the Service, the written consent of the ultimate vendee to the allowance of the credit or refund.

(3) *Ultimate vendor.* The term "ultimate vendor", as used in paragraph (b)(2) of this section, means the seller making the sale which gives rise to the overpayment or which last precedes the exportation or use which gives rise to the overpayment.

(c) *Nonapplication to tax on use of special fuels.* This section shall not have any effect on overpayments of tax under section 4041(a)(1)(B) (relating

tax on the use of diesel fuel), section 4041(a)(2)(B) (relating to tax on the use of special motor fuels), section 4041(c)(1)(B) (relating to tax on the use of fuel other than gasoline in noncommercial aviation), section 4041(c)(2)(B) (relating to tax on the use of gasoline in noncommercial aviation), or section 4042 (relating to tax on fuel used in commercial transportation on inland waterways).

§48.6416(a)-3 Credit or refund of manufacturers tax under chapter 32.

(a) *Overpayments not described in section 6316(b)(3)(C) or (4) (prior to April 1, 1983) and section 6416(b)(2)*—(1) *Claims included.* This paragraph applies only to claims for credit or refund of an overpayment of manufacturers tax imposed by chapter 32. It does not apply, however, to a claim for credit or refund on any overpayment described in paragraph (b) of this section which arises by reason of the application of section 6416(b)(2), (3)(C), or (4).

(2) *Supporting evidence required.* No credit or refund of any overpayment to which this paragraph (a) applies shall be allowed unless the person who paid the tax submits with the claim a written consent of the ultimate purchaser to the allowance of the credit or refund, or submits with the claim a statement, supported by sufficient available evidence, asserting that—

(i) The person has neither included the tax in the price of the article with respect to which it was imposed nor collected the amount of the tax from a vendee, and identifying the nature of the evidence available to establish these facts, or

(ii) The person has repaid the amount of the tax to the ultimate purchaser of the article.

(3) *Ultimate purchaser*—(i) *General rule.* The term "ultimate purchaser", as used in paragraph (a)(2) of this section, means the person who purchased the article for consumption, or for use in the manufacture of other articles and not for resale in the form in which purchased.

(ii) *Special rule under section 6416(a)(3).* (A) *Conditions to be met.*—If tax under chapter 32 is paid in respect of an article and the Commissioner determines that the article is not subject to tax under chapter 32, the term "ultimate purchaser", as used in paragraph (a)(2) of this section, includes any wholesaler, jobber, distributor, or retailer who, on the 15th-day after the date of the determination, holds for sale any such article with respect to which tax has been paid, if the claim for credit or refund of the overpayment in respect of the articles held for sale by the wholesaler, jobber, distributor, or retailer is filed on or before the date on which the person who paid the tax is required to file a return for the period ending with the first calendar quarter which begins more than 60 days after the date of the determination by the Commissioner.

(B) *Supporting statement.*—A claim for credit or refund of an overpayment of tax in respect of an article as to which a wholesaler, jobber, distributor, or retailer is the ultimate purchaser, as provided in this paragraph (a)(3)(ii), must be supported by a statement that the person filing the claim has a statement, by each wholesaler, jobber, distributor, or retailer whose articles are covered by the claim, showing total inventory, by model number and quantity, of all such articles purchased tax-paid and held for sale as of 12:01 a.m. of the 15th day after the date of the determination by the Commissioner that the article is not subject to tax under chapter 32.

(C) *Inventory requirement.*—The inventory shall not include any such article title to which, or possession of which, has previously been transferred to any person for purposes of consumption unless the entire purchase price was repaid to the person or credited to the person's account and the sale was rescinded or any such article purchased by the wholesaler, jobber, distributor, or retailer as a component part of, or on or in connection with another article. An article in transit at the first moment of the 15th day after the date of the determination is regarded as being held by the person to whom it was shipped, except that if title to the article does not pass until delivered to the person the article is deemed to be held by the shipper.

(b) *Overpayments described in section 6416(b)(3)(C) or (4). (prior to April 1, 1983) and section 6416(b)(2)*—(1) *Claims included.*—This paragraph applies only to claims for credit or refund of amounts paid as tax under chapter 32 that are determined to be overpayments by reason of section 6416(b)(2) (relating to tax payments in respect of certain uses, sales, or resales of a taxable article), section 6416(b)(3)(C) (relating to tax-paid tires or inner tubes used for further manufacturer), or section 6416(b)(4) (relating to tires or inner tubes used by the manufacturer on another manufactured article).

(2) *Supporting evidence required.*—No credit or refund of an overpayment to which this paragraph (b) applies shall be allowed unless the person who paid the tax submits with the claim a statement, supported by sufficient available evidence, asserting that—

(i) The person neither included the tax in the price of the article with respect to which it was imposed nor collected the amount of the tax from a vendee, and identifying the nature of the evidence available to establish these facts, or

(ii) The person repaid, or agreed to repay, the amount of the tax to the ultimate vendor of the article, or

(iii) The person has secured, and will submit upon request of the Service, the written consent of the ultimate vendor to the allowance of the credit or refund.

(3) *Ultimate vendor.*—(i) *General rule.*—The term "ultimate vendor", as used in paragraph (b)(2) of this section, means the seller making the sale which gives rise to the overpayment or which last precedes the exportation or use which has given rise to the overpayment.

(ii) *Special rule under section 6416(a)(3)(B) prior to revision by the Highway Revenue Act of 1982.*—In the case of an overpayment determined under section 6416(b)(2)(F), (3)(C), or (4) in respect of tires or inner tubes, where the taxable article is used as a component part of, or sold on or in connection with or with the sale of, a second article which is exported, sold to a nonprofit educational organization for its exclusive use, sold to a State or local government for the exclusive use of a State or local government or used or sold for use as supplies for vessels or aircraft, the term "ultimate vendor", as used in paragraph (b)(2) of this section, means the ultimate vendor of the

second article. See §§48.6416(b)(2)-2(g), 48.6416(b)(3)-2(d), and 48.6416(b)(4)-1(b), respectively.

(c) *Overpayments not included.* This section does not apply to any overpayment determined under section 6416(b)(1) (relating to price readjustments), section 6416(b)(3)(A) (relating to certain cases in which refund or credits allowable to the manufacturer who uses, in the further manufacture of a second article, a taxable article purchased by the manufacturer tax-paid), section 6416(b)(3)(B) prior to April 1, 1983 (relating to parts or accessories taxable under section 4061(b) and used by a subsequent manufacturer or producer as material or a component part of any other article manufactured or produced by him), section 6416(b)(4) after march 31, 1983 (relating to tires), section 6416(b)(5) (relating to the return to the seller of certain installment accounts which the seller had previously sold) or section 6416(b)(6) (relating to truck chassis, bodies, and semi-trailers used for further manufacture). In this regard, see §§48.6416(b)(1)-1, 48.6416(b)(3)-1, and 48.6416(b)(5)-1.

Par. 23. Section 48.6416(b)-1 is removed, and the following new §§48.6416(b)(1)-1, 48.6416(b)(1)-2, 48.6416(b)(1)-3, and 48.6416(b)(1)-4 are added immediately after §48.6416(a)-3.

§48.6416(b)(1)-1 Price readjustments causing overpayments of manufacturers tax.

In the case of any payment of tax under chapter 32 that is determined to be an overpayment by reason of a price readjustment within the meaning of section 6416(b)(1) and §48.6416(b)(1)-2 or §48.6416(b)(1)-3, the person who paid the tax may file a claim for refund of the overpayment or may claim credit for the overpayment on any return of tax under this subpart which the person subsequently files. Price readjustments may not be anticipated. However, if the readjustment has actually been made before the return is filed for the period in which the sale was made, the tax to be reported in respect of the sale may, at the election of the taxpayer, be based either (a) on the price as so readjusted or (b) on the originals sale price and credit or refund claimed in respect of the price readjustment. A price readjustment will be deemed to have been made at the time when the amount of the readjustment has been refunded to the vendor or the vendor has been informed that the vendor's account has been credited with the amount. No interest shall be paid on any credit or refund allowed under this section. For provisions relating to the evidence required in support of a claim for credit or refund, see §301.6402-2 of this chapter (Regulations on Procedure and Administration), §48.6416(a)-3(a)(2), and §48.6416(b)(1)-4. For provisions authorizing the taking of a credit in lieu of filing a claim for refund, see section 6416(d) and §48.6416(f)-1.

§48.6416(b)(1)-2 Determination of price readjustments

(a) *In general.*—(1) *Rules of usual application.*—(i) *Amount treated as overpayment*—If the tax imposed by chapter 32 has been paid and thereafter the price of the article on which the tax was based is readjusted, that part of the tax which is proportionate to the part of the price which is repaid or credited to the purchaser is considered to be an overpayment. A readjustment of price to the purchaser may occur by reason of—

(A) The return of the article,

(B) The repossession of the article,

(C) The return or repossession of the covering or container of the article, or

(D) A bona fide discount, rebate, or allowance against the price at which the article was sold.

(ii) *Requirements of price readjustment.* A price readjustment will not be deemed to have been made unless the person who paid the tax either—

(A) Repays part or all of the purchase price in cash to the vendee,

(B) Credits the vendee's account for part or all of the purchase price, or

(C) directly or indirectly reimburses a third party for part or all of the purchase price for the direct benefit of the vendee.

In addition, to be deemed a price readjustment, the payment or credit must be contractually or economically related to the taxable sale that the payment or credit purports to adjust. Thus, commissions or bonuses paid to a manufacturer's own agents or salesperson for selling the manufacturer's taxable products are not price readjustments for purposes of this section, since those commissions or bonuses are not paid or credited either to the manufacturer's vendee or to a third party for the vendee's benefit. On the other hand, a bonus paid by the manufacturer to a dealer's salesperson for negotiating the sale of a taxable article previously sold to the dealer by the manufacturer is considered to be a readjustment of the price on the original sale of the taxable article, regardless of whether the payment to the salesperson is made directly by the manufacturer or to the salesperson through the dealer. In such a case, the payment is related to the sale of a taxable article and is made for the benefit of the dealer because it is made to the dealer's salesperson to encourage the sale of a product owned by the dealer. Similarly, payments or credits made by a manufacturer to a vendee as reimbursement of interest expense incurred by the vendee in connection with a so-called "free flooring" arrangement for the purchase of taxable articles is a price readjustment, regardless of whether the payment or credit is made directly to the vendee or to the vendee's creditor on behalf of the vendee.

(iii) *Limitation on credit or refu* The credit or refund allowable by reason of a price readjustment in respect of the sale of a taxable article may not exceed an amount which bears the same ratio to the total tax originally imposed and payable on the article as the amount of the tax-included readjustment bears to the original tax-included sale price of the article.

Example. A manufacturer sells a taxable article for $100 plus $10 excise tax, and reports and pays tax liability accordingly. Thereafter, the manufacturer credits the customer's account $11 (tax included) in readjustment of the original sale price. the overpayment of tax is $1, determined as follows:

$$\frac{\text{Tax-included readjustment}}{\text{Tax-included sale price}} \times \text{Original tax} = \text{Tax overpaid}$$

$$\frac{\$11}{\$110} \times \$10 = \$1 \text{ tax overpaid.}$$

(2) *Rules of special applicat* (i) *Constructive sale price.*—If, in case of a taxable sale, the tax imposed by chapter 32 is based on a constructive sale price determined under any paragraph of section 4216(b) and the regulations thereunder, as determined without reference to section 4218, the price readjustment made with re

the sale may be taken into account under this section only to the extent that the price readjustment reduces the actual sale price of the article below the constructive sale price.

Example. (A) A manufacturer sells a taxable article at retail for $110 tax included. Under section 4216(b)(1) the constructive sale price (tax included) of the article is determined to be $93. Thereafter, the manufacturer grants an allowance of $10 to the purchaser, which reduces the actual selling price (tax included) to $100. Since the readjustment price still exceeds the amounts of the constructive sale price, this readjustment is not recognized as a price readjustment under this section.

(B) Subsequently, the manufacturer extends to the purchaser an additional price allowance of $10, thereby reducing the actual sale price to $90. Since the actual sale price is now $3 less than the constructive sale price of $93, the manufacturer has overpaid by the amount of tax attributable to the $3. Assuming the tax rate involved is 10 percent, and the prices involved are tax-included, the overpayment of tax would be $0.27, determined as follows:

$$\frac{\text{percentage tax rate}}{\text{100 plus percentage tax rate}} \times \text{tax-included readjustment} = \text{tax overpayment}$$

$$\left(\frac{10}{110} \times \$3 = \$0.27\right).$$

(ii) *Price determined under section 4223(b)(2).*—If a manufacturer (within the meaning of section 4223(a)) to whom an article is sold or resold free of tax in accordance with the provisions of section 4221(a)(1) for use in further manufacture diverts the article to a taxable use or sells it in a taxable sale, and pursuant to the provisions of section 4223(b)(2) computes the tax liability in respect of the use of sale on the price for which the article was sold to the manufacturer or on the price at which the article was sold by the actual manufacturer, a reduction of the price on which the tax was based does not result in an overpayment within the meaning of section 6416(b)(1) or this section. Moreover, if a manufacturer purchases an article tax free and computes the tax in respect of a subsequent sale of the article pursuant to the provisions of section 4223(b)(2), an overpayment does not arise by reason of readjustment of the price for which the article was sold by the manufacturer except where the readjustment results from the return or repossession of the article by the manufacturer, and all of the purchase price is refunded by the manufacturer. See, however, paragraph (b)(4) of this section as to repurchased articles.

(b) *Return of an article.*—(1) *Price readjustment.*—If a taxable article is returned to the manufacturer who paid the tax imposed by chapter 32 on the sale of the article, a price readjustment giving rise to an overpayment results—

(i) If the article is returned before use, and all of the purchase price is repaid to the vendee or credited to the vendee's account, or

(ii) If the article is returned under an express or implied warranty as to quality or service, and all or a part of the purchase price is repaid to the vendee or credited to the vendee's account, or

(iii) If title is still in the seller, as, for example, in the case of certain installment sales contracts, and all or a part of the purchase price is repaid to the vendee or credited to the vendee's account.

(2) *Return of purchase price.*—For purposes of paragraph (b)(1) of this section, if all of the purchase price of an article has been returned to the vendee, except for an amount retained by the manufacturer pursuant to contract as reimbursement of expense incurred in connection with the sale (such as a handling or restocking charge), all of the purchase price is considered to have been returned to the vendee.

(3) *Taxability of subsequent sale or use.*—If, under any of the conditions described in paragraph (b)(1) of this section, an article is returned to the manufacturer who paid the tax and all of the purchase price is returned to the vendee, the sale is considered to have been rescinded. Any subsequent sale or use of the article by the manufacturer will be considered to be an original sale or use of the article by the manufacturer which is subject to tax under chapter 32 unless otherwise exempt. If under any such condition an article is returned to the manufacturer who paid the tax and only part of the purchase price is returned to the vendee, a subsequent sale of the article by the manufacturer will be subject to tax to the extent that the sale price exceeds the adjusted sale price of the first taxable sale.

(4) *Treatment of other transactions as repurchases.*—Except as provided in paragraph (b)(1) of this section, a price readjustment will not result when a taxable article is returned to the manufacturer who paid the tax on the sale of the article, even though all or a part of the purchase price is repaid to the vendee or credited to the vendee's account, since such a transaction will be considered to be a repurchase of the article by the manufacturer.

(c) *Repossession of an article.* If a taxable article is repossessed by the manufacturer who paid the tax imposed by chapter 32 on the sale of the article and all or a part of the purchase price is repaid to the vendee or credited to the vendee's account, a price readjustment giving rise to an overpayment will result. However, if the manufacturer later resells the repossessed article for a price in excess of the original adjusted sale price, the manufacturer will be liable for tax under chapter 32 to the extent that the resale price exceeds the original adjusted sale price.

(d) *Return or repossession of covering or container.* If the covering or container of a taxable article is returned to, or repossessed by the manufacturer who paid the tax imposed by chapter 32 on the sale of the article, and all or a portion of the purchase price is repaid to the vendee or credited to the vendee's account by reason of the return or repossession of the covering or container, a price adjustment giving rise to an overpayment will result. If a taxable article is considered to have been repurchased, as provided in paragraph (b)(4) of this section, and the covering or container accompanies the taxable article as part of the transaction, the covering or container will also be considered to have been repurchased.

(e) *bona fide discounts, rebates, or allowances*—(1) *In general.* Except as provided in §48.6416(b)(1)-3 (relating to readjustments in respect of local advertising), the basic consideration in determining, for purposes of this section, whether a bona fide discount, rebate, or allowance has been made is whether the price actually paid by, or charged against, the purchaser has in fact been reduced by subsequent transactions between the parties. Generally, the price will be considered to have been readjusted by reason of a bona fide discount, rebate, or allowance, only if the manufacturer who made the taxable sale repays a part of the purchase price in cash to the vendee, or credits the vendee's account, or directly

or indirectly reimburses a third party for part of all of the purchase price for the direct benefit of the vendee, in consideration of factors which, if taken into account at the time of the original transaction, would have resulted at that time in a lower sale price. For example, a price readjustment will be considered to have been made when a bona fide discount, rebate, or allowance is given in consideration of such factors as prompt payment, quantity buying over a specified period, the vendee's inventory of an article when new models are introduced, or a general price reduction affecting articles held in stock by the vendee as of a certain date. On the other hand, repayments made to the vendee do not effectuate price readjustments if given in consideration of circumstances under which the vendee has incurred, or is required to incur, an expense which, if treated as a separate item in the original transaction, would have been includible in the price of the article for purposes of computing the tax.

Examples. The provisions of paragraph (e)(1) of this section may be illustrated by the following examples:

Example (1). B, a manufacturer of fishing rods, bills its distributors in a specified amount per fishing rods purchased by them. Thereafter, B issues to each distributor a credit memorandum in the amount of X dollars for each demonstration by the distributor of the fishing rods at a sporting goods exhibition. The credit which B allows the distributor for demonstration of B's product does not effect a readjustment of price.

Example (2). C, a manufacturer of automobiles, bills its dealers in a specified amount per automobile purchased by them. Thereafter, C remits to the dealer X dollars of the original sale price for each automobile sold by the dealer in the last month of the model year. An additional amount of Y dollars is paid to the dealer upon a showing by the dealer that the dealer has paid Y dollars to the sales person who made the sale. In this case, the X dollars paid to the dealer by C constitutes a bona fide discount, rebate, or allowance since payment of such amount is in the nature of a price reduction by reason of the dealer's inventory when new models are introduced. In addition, the Y dollars paid to the dealer in reimbursement for the amount paid by the dealer to the salesperson who made the sale, also constitutes a bona fide discount, rebate, or allowance.

(2) *Inability to collect price.* A charge-off of an amount outstanding in an open account, due to inability to to collect, is not a bona fide discount, rebate, or allowance and does not, in and of itself, give rise to a price readjustment within the meaning of this section.

(3) *Loss or damage in transit.* If title to an article has passed to the vendee, the subsequent loss, damage, or destruction of the article while in the possession of a carrier for delivery to the vendee does not, in and of itself, affect the price at which the article was sold. However, if the article was sold under a contract providing that if the article was lost, damaged, or destroyed in transit, title would revert to the vendor and the vendor would reimburse the vendee in full for the sale price, then the original sale is considered to have been rescinded. The vender is entitled to credit or refund of the tax paid upon reimbursement of the full tax-included sale price to the vendee.

§48.6416(b)(1)-3 Readjustment for local advertising charges.

(a) *In general.* If a manufacturer has paid the tax imposed by chapter 32 on the price of any article sold by the manufacturer and thereafter has repaid a portion of the price to the purchaser or any subsequent vendee in reimbursement of expenses for local advertising of the article or any other article sold by the manufacturer which is taxable at the same rate under the same section of chapter 32, the reimbursement will be considered a price readjustment constituting an overpayment which the manufacturer may claim as a credit or refund. The amount of the reimbursement may not, however, exceed the limitation provided by section 4216(e)(2) and §48.4216(e)-2, determined as of the close of the calendar quarter in which the reimbursement is made or as of the close of any subsequent calendar quarter of the same calendar year in which it is made. The term "local advertising", as used in this section, has the same meaning as prescribed by section 4216(e)(4) and includes generally, advertising which is broadcast over a radio station or television station, or appears in a newspaper or magazine, or is displayed by means of an outdoor advertising sign or poster.

(b) *Local advertising charges excluded from taxable price in one year but repaid in following year*—(1) *Determination of price readjustments for year in which charge is repaid.* If the tax imposed by chapter 32 was paid with respect to local advertising charges that were excluded in computing the taxable price of an article so in any calendar year but are not repa to the manufacturer's purchaser or a subsequent vendee before May 1 of t following calendar year, the subseque repayment of those charges by the ma ufacturer in reimbursement of expens for local advertising will be consider a price readjustment constituting overpayment which the manufactur may claim as a credit or refund. T amount of the reimbursement may n however, exceed the limitation pr vided by section 4216(e)(2) a §48.4216(e)-(2), determined as of t close of the calendar quarter in whi the reimbursement is made or as of t close of any subsequent calendar qua ter of the same calendar year in whi it is made.

(2) *Redetermination of price rea justments for year in which charge w made.* If the tax imposed by chapter was paid with respect to local adverti ing charges that were excluded computing the taxable price of an ar cle sold in any calendar year but a not repaid to the manufacturer's pu chaser or any subsequent vendor bef May 1 of the following calendar ye the manufacturer may make redetermination, in respect of the cale dar year in which the charge was mad of the price readjustments constituti an overpayment which the manufa turer may claim as a credit or refun This redetermination may be made excluding the local advertising charg made in the calendar year that becan taxable as of May 1 of the followi calendar year.

§48.6416(b)(1)-4 Supporting eviden required in case of price readju ments.

No credit or refund of an overpa ment arising by reason of a price rea justment described in §48.6416(b)(1) or §48.6416(b)(1)-3 shall be allow unless the manufacturer who paid t tax submits a statement, supported sufficient available evidence—

(a) Describing the circumstanc which gave rise to the price readju ment.

(b) Identifying the article in resp of which the price readjustment w allowed.

(c) Showing the price at which t article was sold, the amount of tax p in respect of the article, and the date

which the tax was paid.

(d) Giving the name and address of the purchaser to whom the article was sold, and

(e) Showing the amount repaid to the purchaser or credited to the purchaser's account.

Par. 24. Section 48.6416(b)-2 is removed and the following new §§48.6416(b)(2)-1, 48.6416(b)(2)-2, 48.6416(b)(2)-3 and 48.6416(b)(2)-4 are added immediately after §48.6416(b)(1)-4.

§48.6416(b)(2)-1 Certain exportations, uses, sales, or resales causing overpayments of tax.

In the case of any payment of tax under section 4041(a)(1) or (a)(2) (diesel fuel and special fuels tax) or under chapter 32 (Manufacturers tax) that is determined to be an overpayment by reason of certain exportations, uses, sales, or resales described in section 6416(b)(2) and §48.6416(b)(2)-2, the person who paid the tax may file a claim for refund of the overpayment or, in the case of overpayments under chapter 32, may claim credit for the overpayment on any return of tax under this subpart which the person subsequently files. However, under the circumstances described in section 6416(c) and §48.6416(e)-1, the overpayments under chapter 32 may be refunded to an exporter or shipper. In the case of overpayments of tax under section 4041 resulting from certain nontaxable uses of tax-paid fuel after June 30, 1970, see also section 6427 and the regulations thereunder. No interest shall be paid on any credit or refund allowed under this section. For provisions relating to the evidence required in support of a claim for credit or refund under this section, see §301.6402-2 of this chapter (Regulations on Procedure and Administration) and §§48.6416(b)(2)-3 and 48.6416(b)(2)-4. For provisions authorizing the taking of a credit in lieu of filing a claim for refund, see section 6416(d) and §48.6416(f)-1.

§48.6416(b)(2)-2 Exportations, uses, sales, and resales included.

(a) *In general.* The payment of tax imposed by section 4041(a)(1) or (a)(2), or by chapter 32, as the case may be, on the sale of any article, other than coal taxable under section 4121, will be considered to be an overpayment by reason of any exportation, use sale, or resale described in any one of paragraphs (b) to (o), inclusive, of this section. This section applies only in those cases where the exportation, use, sale, or resale (or any combination thereof) referred to in any one or more of these paragraphs occurs before any other use. If any article is sold or resold for a use described in any one of these paragraphs and is not in fact so used, the paragraph is treated in all respects as inapplicable.

(b) *Exportation of tax-paid articles.* Subject to the limitation in section 6416(g) and §48.6416(g)-1 (applying to articles subject to the tax imposed by section 4061(a) prior to April 1, 1983), a payment of tax under chapter 32 on the sale of any article, or under section 4041(a)(1) or (a)(2) on the sale of diesel fuel or special motor fuel, will be considered to be an overpayment under section 6416(b)(2)(A) if the article or fuel is by any person exported to a foreign country or shipped to a possession of the United States. Except in the case of articles subject to the tax imposed by section 4061(a) prior to April 1, 1983, it is immaterial for purposes of this paragraph (b), whether the person who made the taxable sale had knowledge at the time of the sale that the article or fuel was being purchased for export to a foreign country or shipment to a possession of the United States. See §48.6316(e)-1 for the circumstances under which a claim for refund by reason of the exportation of an article may be claimed by the exporter or shipper, rather than by the person who paid the tax. For definition of the term "possession of the United States", see §48.0-2(a)(11).

(c) *Supplies for vessels or aircraft.* A payment of tax under chapter 32 on the sale of any article, or under section 4041(a)(1) or (a)(2) on the sale of diesel fuel or special motor fuel, will be considered to be an overpayment under section 6416(b)(2)(B) if the article or fuel is used by any person, or is sold by any person for use by the purchaser, as supplies for vessels or aircraft.

The term "supplies for vessels or aircraft", as used in this paragraph, has the same meaning as when used in sections 4041(g), 4221(a)(3), 4221(d)(3),and 4221(e)(1), and the regulations thereunder.

(d) *Use by State or local government.* A payment of tax under chapter 32 on the sale of any article, or under section 4041(a)(1) or (a)(2) on the sale of diesel fuel or special motor fuel, will be considered to be an overpayment under section 6416(b)(2)(C) if the article of fuel is sold by any person to a State, any political subdivision thereof, or the District of Columbia for the exclusive use of a State, any political subdivision thereof, or the District of Columbia. For provisions relating to tax-free sales to a State, any political subdivision thereof, or the District of Columbia, see section 4221(a)(4) and the regulations thereunder.

(e) *Use by nonprofit educational organization.* A payment of tax under chapter 32 on the sale of any article, or under section 4041(a)(1) or (a)(2) on the sale of diesel fuel or special motor fuel, will be considered to be an overpayment under section 6416(b)(2)(D) if the article or fuel is sold by any person to a nonprofit educational organization for its exclusive use. The term "nonprofit educational organization", as used in this paragraph (e), has the same meaning as when used in section 4221(a)(5) or (d)(5), whichever applies, and the regulations thereunder.

(f) *Tax-paid tires or inner tubes resold for use in further manufacturer.* A payment of tax under section 4071 on the sale of a tire or, prior to January 1, 1984, on the sale of an inner tube will be considered to be an overpayment under section 6416(b)(2)(E) if—

(1) The tire or inner tube is, after the original sale of the article by the manufacturer, resold by any person to another manufacturer,

(2) The other manufacturer sells the tire or inner tube on or in connection with, or with the sale of, any other article manufactured or produced by the other manufacturer, and

(3) That other article is by any person either—

(i) Exported to a foreign country or to a possession of the United States,

(ii) Sold to a State, any political subdivision thereof, or the District of Columbia for the exclusive use of a State, any political subdivision thereof, or the District of Columbia,

(iii) Sold to a nonprofit educational organization for its exclusive use, or

(iv) Used or sold for use as supplies for vessels or aircraft.

The overpayment described in this paragraph (f) is to be distinguished from the overpayment described in section 6416(b)(3)(C) prior to amendment by the Highway Revenue Act of 1982 and section 6416(b)(3) as amended by the Highway Revenue Act of 1982, and §48.6416(b)(3)-2(d) in that the overpayment here described arises from a "resale" for the use described in this paragraph, while the section 6416-(b)(3)(C) overpayment arises from the "use" of tires or inner tubes in the manufacture of other articles by a subsequent manufacturer who purchases tax-paid tires or tubes and disposes of finished articles on the basis of one of the exemptions set forth in section 6416(B)(3)(C). A manufacturer claiming a credit or refund under this paragraph (f) must have substantially the same information available in support of the claim as is required under §48.4221-7(c)(2) in support of exempt sales of tires or inner tubes under the provisions of section 4221(e)(2), except that none of the parties involved need be registered under section 4222.

(g) *Parts of accessories used on farm equipment.* A payment of tax under section 4061(b) prior to January 7,1983, on the sale of parts or accessories (other than spark plugs and storage batteries) will be considered to be an overpayment under section 6416-(b)(2)(F) if the parts or accessories are used by any person, or are sold by any person for use by the purchaser, as repair parts, replacement parts or accessories for farm equipment. The term "farm equipment," as used in this paragraph (g), does not include any article taxable under section 4061(a)(1) (relating to trucks, buses, tractors, etc.). The term "parts or accessories," as used in this paragraph (g), has the same meaning as in section 4061(b) and the regulations thereunder. This paragraph (g) does not apply to an overpayment of tax arising by reason of section 6416(b)(3) and §48.6416(b)-(3)-1, relating to articles purchased tax paid from a manufacturer by a subsequent manufacturer and used by the subsequent manufacturer in further manufacture of a taxable or nontaxable article.

(h) *Tread rubber used for certain purposes.* All references in this paragraph to sections 4071(a)(4), 6416(b)(2)(G) and 4072 and the regulations thereunder, are to the Internal Revenue Code prior to its revision by the Highway Revenue Act of 1982. A payment of tax under section 4071(a)(4) prior to January 1, 1984, on the sale of tread rubber which is used by any person, or which is sold by any person for use by the purchaser, otherwise than in the recapping or retreading or tires of the type used on highway vehicles, will be considered to be an overpayment under section 6416-(b)(2)(G). If the tread rubber is used in the recapping or retreading of tires, the type of vehicle on which the recapped or retreaded tire is be used and the actual or intended use of the recapped or retreaded tire are immaterial in determining whether an overpayment arises under this paragraph (h). The controlling factor is whether the tire resulting form the recapping or retreading is of a type which is not used on a highway vehicle. The term "tread rubber," "tires of the type used on highway vehicles", and "tires", as used in this paragraph (h) have the same meaning as in section 4072 and the regulations thereunder. This paragraph (h) does not apply to an overpayment arising by reason of section 6416(b)(3) and §48.6416(b)(3)-1, relating to articles purchased tax paid from a manufacturer by a subsequent manufacturer and used by the subsequent manufacturer in further manufacture of another article taxable under chapter 32.

(i) *Gasoline used in production of special fuels.* A payment of tax under section 4081 on the sale of gasoline will be considered to be an overpayment under section 6416(b)(2)(H) (section 6416(b)(2)(F) after March 31, 1983) if the gasoline is used by any person, or sold by any person for use by the purchaser, in the production of a special fuel. The term "special fuel", as used in this paragraph (i), has the same meaning as in section 4041 and the regulations thereunder.

(j) *Articles sold for use as trash containers.* All references in this paragraph are to the Internal Revenue Code of 1954 prior to its revision by the Highway Revenue Act of 1954. See section 4053(6) of the Internal Revenue Code of 1954 as amended by the Highway Revenue Act of 1982 for provisions relating to articles designed to be used as trash containers. A payment of tax under section 4061(a) on a sale prior to April 1, 1983, of any box, container, receptacle, bin, or other similar article will be considered to be an overpayment under section 6416(b)(2)(J) if the article is—

(1) Sold by any person to any purchaser for use by the purchaser as a trash container,

(2) Not designed for the transportation of freight other than trash, and

(3) Not designed to be permanently mounted on, or permanently affixed to, a chassis or body of an automobile truck, truck trailer, or truck semitrailer.

In addition, a payment of tax under section 4061(b) on parts or accessories for any such box, container, receptacle, etc., will be considered to be an overpayment under section 6416(b)(2)(J) if the part or accessory is designed primarily for use on, in connection with, or as a component part of, the box, container, receptacle, etc., and is installed on the box, container, receptacle, etc. at the time of sale or is sold with the article as an integral part of the container system. This paragraph (j) does not apply to parts or accessories sold for use as replacement parts or accessories, even if those parts or accessories are sold in connection with the sale of a box, container, receptacle, etc. Any term used in this paragraph (j) that is also used in section 4063(a)(7) or the regulations thereunder has the same meaning as in that section and the regulations thereunder.

(k) *Parts or accessories sold in connection with light-duty trucks.* All references in this paragraph are to the Internal Revenue Code of 1954 prior to its revision by the Highway Revenue Act of 1982. A payment of tax under section 4061(b) on the sale of parts or accessories will be considered to be an overpayment under section 6416-(b)(2)(K) if—

(1) The parts or accessories are sold on or in connection with the first retail sale of a light-duty truck as described in section 4061(a)(2) and the regulations thereunder, and

(2) The credit or refund of tax is not available under any other provisions of law.

The term "parts or accessories," as

used in this paragraph (k), has the same meaning as in section 4061(b) and the regulations thereunder. This paragraph (k) does not apply to an overpayment of tax arising by reason of section 6416(b)(2) and §48.6416(b)(3)-1, relating to articles purchased tax-paid from a manufacturer by a subsequent manufacturer and used by the subsequent manufacturer in further manufacture of a taxable or nontaxable article.

§48.6416(b)(2)-3 Supporting evidence required in case of manufacturers tax involving exportations, uses, sales, or resales.

(a) *Evidence to be submitted by claimant.* No claim for credit or refund of an overpayment, within the meaning of section 6416(b)(2) and §48.6416-(b)(2)-2, of tax under chapter 32 shall be allowed unless the person who paid the tax submits with the claim the evidence required by paragraph (b)(2) of §48.6416(a)-3 and a statement, supported by sufficient available evidence—

(1) Showing the amount claimed in respect of each category of exportations, uses, sales, or resales on which the claim is based and which give rise to a right of credit or refund under section 6416(b)(2) and §48.6416(b)(2)-1,

(2) Identifying the article, both as to nature and quantity, in respect of which credit or refund is claimed,

(3) Showing the amount of tax paid in respect of the article or articles and the dates of payment, and

(4) In the case of an overpayment determined under section 6416(b)(2)(A) and paragraph (b) of §48.6416(b)(2)-2 in respect of an article which was taxable prior to April 1, 1983, under section 4061(a), indicating that, pursuant to section 6416(g), the person claiming a credit or refund possessed at the time that person shipped the article or at the time title to the article passed to the vendee, whichever is earlier, evidence that the article was to be exported to a foreign country or shipped to a possession of the United States, or

(5) In the case of any overpayment other than an overpayment determined under section 6416(b)(2)(E) and paragraph (f) of §48.6416(b)(2)-2, indicating that the person claiming a credit or refund possesses evidence (as set forth in paragraph (b)(1) of this section) that the article has been exported, or has been used, sold, or resold in a manner or for a purpose which gives rise to an overpayment within the meaning of section 6416(b)(2) and §48.6416-(b)(2)-2, or

(6) In the case of an overpayment determined under section 6416(b)(2)(E) and paragraph (f) of §48.6416(b)(2)-2, relating to a tax-paid tire or inner tube sold on or in connection with, or with the sale of, a second article that has been manufactured, indicating that the person claiming credit or refund possesses (i) evidence (as set forth in paragraph (b)(2) of this section) that the second article has been exported, or has been used or sold as provided in §48.6416(b)(2)-2(f), and (ii) a statement, executed and signed by the ultimate purchaser of the tire or inner tube, that the ultimate purchaser purchased the tire or inner tube from a person other than the person who paid the tax on the sale of the tire or inner tube.

(b) *Evidence required to be in possession of claimant*—(1) *Evidence required under paragraph (a)(5)*—(i) *In general.* The evidence required to be retained by the person who paid the tax, as provided in paragraph (a)(5) of this section, must, in the case of an article exported, consist of proof of exportation in the form prescribed in the regulations under section 4221 or must, in the case of other articles sold tax-paid by that person, consist of a certificate, executed and signed by the ultimate purchaser of the article, in the form prescribed in paragraph (b)(1)(ii) of this section. However, if the article to which the claim relates has passed through a chain of sales form the person who paid the tax to the ultimate purchaser, the evidence required to be retained by the person who paid the tax may consist of a certificate, executed and signed by the ultimate vendor of the article, in the form provided in paragraph (b)(1)(iii) of this section, rather than the proof of exportation itself or the certificate of the ultimate purchaser.

(ii) *Certificate of ultimate purchaser.*

(A) The certificate executed and signed by the ultimate purchaser of the article to which the claim relates must identify the article, both as to nature and quantity; show the address of the ultimate purchaser of the article, and the name and address of the ultimate vendor of the article; and describe the use actually made of the article in sufficient detail to establish that credit or refund is due, except that the use to be made of the article must be described in lieu of actual use if the claim is made by reason of the sale or resale of an article for a specified use which gives rise to the overpayment.

(B) If the certificate sets forth the use to be made of any article, rather than its actual use, it must show that the ultimate purchaser has agreed to notify the claimant if the article is not in fact used as specified in the certificate.

(C) The certificate must also contain a statement that the ultimate purchaser understands that the ultimate purchaser and any other party may, for fraudulent use of the certificate, be subject under section 7201 to a fine or not more than $10,000, or imprisonment for not more than 5 years, or both, together with the costs of prosecution.

(D) A purchase order will be acceptable in lieu of a separate certificate of the ultimate purchaser if it contains all the information required by this paragraph (b)(1)(ii).

(iii) *Certificate of ultimate vendor.* Any certificate executed and signed by an ultimate vendor as evidence to be retained by the person who paid the tax, as provided in paragraph (a)(5) of this section, may be executed with respect to any one or more overpayments by the person which arose under section 6416(b)(2) and §§48.6416(b)(2)-2 by reason of exportations, uses, sales or resales, occurring within any period of not more than 12 consecutive calendar quarters, the beginning and ending dates of which are specified in the certificate.

The certificate must be in substantially the following form:

Statement of Ultimate Vendor

(For use in claiming credit or refund of overpayment determined under section 6416(b)(2) (other than section 6416(b)(2)(E) of the Internal Revenue Code.)

The undersigned or the

_____

(Name of ultimate vendor if other than undersigned) of which the undersigned is (Title), is the ultimate vendor of the article specified below or on the reverse side hereof.

The article was purchased by the ultimate vendor tax-paid and was thereafter exported, used, sold, or resold (as indicated below or on the reverse side hereof).

The ultimate vendor possesses

_____

(Proof of exportation in respect of the article, or a

certificate as to use executed by the ultimate purchaser of the article)
The _____
(Proof of exportation or certificate)
(1) is retained by the ultimate vendor, (2) will, upon request, be forwarded to
_____
(Name or person who paid the tax)
at any time within 3 years from the date of this statement for use by that person to establish that credit or refund is due in respect of the article, and (3) will otherwise be held by the ultimate vendor for the required 3-year period.

According to the best knowledge and belief of the undersigned, no statement in respect of the
_____
(Proof of exportation or certificate)
has previously been executed, and the undersigned understands that the fraudulent use of this statement may, under section 7201, subject the undersigned or any other party making such fraudulent use to a fine of not more than $10,000, or imprisonment for not more than 5 years, or both, together with the costs of prosecution.

(Date)

Vendor's invoice	Articles	Date of resale	Quantity	Exported or use made or to be made (specify)

(2) *Evidence required under paragraph (a)(6).*—(i) *In general.*—The evidence required to be retained by the person who paid the tax, as provided in paragraph (a)(6) of this section, must, in the case of an exportation of the second article, consist of proof of exportation of the second article in the form prescribed in the regulations under section 4221 or must, in other cases, consist of a certificate, executed and signed by the ultimate purchaser of the second article, in the form prescribed in paragraph (b)(2)(ii) of this section. However, the evidence required to be retained by the person who paid the tax may consist of a certificate, executed and signed by the ultimate vendor of the second article, in the form provided in paragraph (b)(2)(iii) of this section, rather than the proof of exportation itself or the certificate of the ultimate purchaser.

(ii) *Certificate of ultimate purchaser.*—The certificate of the ultimate purchaser of the second article must contain the same information as that required in paragraph (b)(1)(ii) of this section, except that the information must be furnished in respect of the second article, rather than the article to which the claims relates.

(iii) *Certificate of ultimate vendor.*—Any certificate executed and signed by an ultimate vendor as evidence to be retained by the person who paid the tax, as provided in paragraph (a)(6) of this section, may be executed with respect to any one of more overpayments by that person which arose under section 6416(b)(2)(E) and §48.6416(b)(2)-2(f) by reason of exportations, uses, sales, or resales of a second article occurring within any period of not more than 12 consecutive calendar quarters, the beginning and ending dates of which are specified in the certificate. The certificate must be in substantially the following form:

STATEMENT OF ULTIMATE VENDOR

(For use in claiming credit or refund of overpayment determined under section 6416(b)(2)(E) Internal Revenue Code involving tires or inner tubes sold on or with another article)
The undersigned or the
_____
(Name of ultimate vendor of second article if other than undersigned)
of which the undersigned is (Title), is the ultimate vendor of an article, specified below or on the reverse side hereof, on which or with which a tax-paid tire or inner tube was sold.
The ultimate vendor possesses
_____
(Proof of exportation in respect of the article on which or with which the tire or inner tube was sold, or a certificate as to use of the article executed by the ultimate purchaser of the article)
The
_____
(Proof of exportation or certificate) (1) is retained by the ultimate vendor, (2) will, upon request, be forwarded to
_____
(Name of person who paid the tax on the tire or inner tube)
at any time within 3 years from the date of this statement for use in establishing that credit or refund is due in respect of the tire or inner tube, and (3) will otherwise be held by the ultimate vendor for the required 3-year period.

According to the best knowledge and belief of the undersigned, no statement in respect of the
_____
(Proof of exportation or certificate)
has previously been executed, and the undersigned understands that the fraudulent use of this statement may, under section 7201, subject the undersigned or any other party making such fraudulent use to a fine of not more than $10,000, or imprisonment for not more than 5 years, or both, together with the costs of prosecution.

(3) *Repayment or consent of ultimate vendor.* If the person claiming credit or refund of an overpayment to which this section applies has repaid, or agreed to repay, the amount of the overpayment to the ultimate vendor or if the ultimate vendor consents to the allowance of the credit or refund, a statement to that effect, signed by the ultimate vendor, must be shown on, or made a part of, the evidence required under this section to be retained by the person claiming the credit or refund. In this regard, see §48.6416(a)-3(b)(2).

§48.6416(b)(2)-4 Supporting evidence required in case of special fuel tax involving exportations, uses, sales, or resales of special fuels.

(a) *Evidence to be submitted by claimant.* No claim for credit or refund of an overpayment, within the meaning of section 6416(b)(2) and §48.6416(b)(2)-2 of tax under section 4041(a)(1) or (a)(2) shall be allowed unless the person who paid the tax submits with the claim the evidence required by paragraph (b)(2) of §48.6416(a)-2 and a statement, supported by sufficient available evidence—

(1) Showing the amount claimed in respect of each category of exportations, uses, sales, or resales on which the claim is based and which give rise to right of credit or refund under section 6416(b)(2) and §48.6416(b)(2)-1,

(2) Identifying the fuel, both as to nature and quantity, in respect of which credit or refund is claimed,

(3) Showing the amount of tax paid

in respect of the fuel and the dates of payment, and

(4) Indicating that the fuel has been exported, or has been used, sold, or resold in a manner or for a purpose which gives rise to an overpayment within the meaning of section 6416(b)(2) and §48.6416(b)(2)-2.

(b) *Evidence required to be in possession of claimant.* (1) The evidence required to be retained by the person who paid the tax, as provided in paragraph (a)(4) of this section, must, in the case of fuel exported, consist of proof of exportation or must, in the case of other fuel sold tax-paid by that person, consist of a certificate, executed and signed by the person who purchased the fuel in a resale or for the use which gave rise to the overpayment.

(2) The certificate must identify the fuel, both as to nature and quantity, in respect of which credit or refund is claimed; show the address of the purchaser, show the name and address of the person from whom the fuel was purchased and the date or dates on which the fuel was purchased; and show that the fuel was purchased; and show that the fuel was resold and the date of the resale.

(3) If the claim is not based on resale of the fuel, the certificate must describe the use actually made of the fuel in sufficient detail to establish that credit or refund is due. However, the use to be made of the fuel must be described in lieu of actual use if the claim is made by reason of the sale of the fuel for a specified use which gives rise to an overpayment under §48.6416(b)(2)-2.

(4) If the certificate sets forth the use to be made of the fuel, rather than its actual use, it must show that the purchaser has agreed to notify the claimant if the fuel is not in fact used as specified in the certificate.

(5) The certificate must also contain a statement that the purchaser has not previously executed a certificate in respect of the fuel and understands that any part may, for fraudulent use of the certificate, be subject under section 7201 to a fine of not more than $10,000, or imprisonment for not more than 5 years, or both, together with the costs of prosecution.

Par. 25. Section 48.6416(b)-3 is removed and the following new §§48.6416(b)(3)-1, 48.6416(b)(3)-2, and 48.6416(b)(3)-3 are added immediately after 48.6416(b)(2)-4.

§48.6416(b)(3)-1 Tax-paid articles used for further manufacture and causing overpayments of tax.

In the case of any payment of tax under chapter 32 that is determined to be an overpayment under section 6416(b)(3) and §48.6416(b)(3)-2 by reason of the sale of an article (other than coal taxable under section 4121), directly or indirectly, by the manufacturer of the article to a subsequent manufacturer who uses the article in further manufacture of a second article or who sells the article with, or as a part of, the second article manufactured or produced by the subsequent manufacturer, the subsequent manufacturer may file claim for refund of the overpayment or may claim credit for the overpayment on any return of tax under this subpart subsequently filed. No interest shall be paid on any credit or refund allowed under this section. For provisions relating to the evidence required in support of a claim for credit or refund, see §301.6402-2 of this chapter (Regulations on Procedure and Administration) and §§48.6416(a)-3 and 48.6416(b)(3)-3. For provisions authorizing the taking of a credit in lieu of filing a claim for refund, see section 6416(d) and §48.6416(f)-1.

§48.6416(b)(3)-2 Further manufacture included.

(a) *In general.* The payment of tax imposed by chapter 32 on the sale of any article (other than coal taxable under section 4121) by a manufacturer of the article will be considered to be an overpayment by reason of any use in further manufacture, or sale as part of a second manufactured article, described in any one of paragraphs (b) through (f) of this section. This section applies in those cases where the exportation, use, or sale (or any combination of those activities) referred to in any one or more of those paragraphs occurs before any other use. For provisions relating to overpayments arising by reason of resales of tax-paid articles for use in further manufacture as provided in this section, see section 6416(b)(2)(E) and paragraph (f) of §48.6416(b)(2)-2.

(b) *Use of tax-paid articles in further manufacture described in section 6416(b)(3)(A).* A payment of tax under chapter 32 on the sale of any article (other than coal taxable under section 4121), directly or indirectly, by the manufacturer of the article to a subsequent manufacturer will be considered to be an overpayment under section 6416(b)(3)(A) if the article is used by the subsequent manufacturer as material in the manufacture or production of, or as a component part of, a second article manufactured or produced by the subsequent manufacturer which is—

(1) Taxable under chapter 32, or

(2) An automobile bus chassis or an automobile bus body.

For this purpose it is immaterial whether the second article is sold or otherwise disposed of, or if sold, whether the sale is a taxable sale. Any article to which this paragraph (b) applies which would have been used in the manufacture or production of a second article, except for the production of a second article, except for the fact that it was broken or rendered useless in the process of manufacturing or producing the second article, will be considered to have been used as a component part of the second article. This paragraph (b) does not apply to articles sold and used as provided in any of paragraphs (c) through (f) of this section.

(c) *Use of truck, bus, etc., parts or accessories.* A payment of tax under section 4061(b) on the sale prior to January 7, 1983, of any truck bus, etc., part or accessory, directly or indirectly, by the manufacturer of the article to a subsequent manufacturer will be considered to be an overpayment under section 6416(b)(3)(B) if the part or accessory is used by the subsequent manufacturer as material in the manufacture or production of or as a component part of, a second article manufactured or produced by the subsequent manufacturer. For this purpose it is immaterial whether the second article is or is not taxable under chapter 32. Any article to which this paragraph (c) applies which would have been used in the manufacture or production of a second article, except for the fact that it was broken or rendered useless in the process of manufacturing or producing the second article, will be considered to have been used as a component part of the second article.

(d) *Tax-paid tires or inner tubes used in further manufacture.* (1) A payment of tax under section 4071 on the sale prior to January 1, 1984, of a tire or inner tube, directly or indirectly, by the manufacturer of the article to a subsequent manufacturer will be considered to be an overpayment under section 6416(b)(3)(C) if the subsequent manufacturer sells the tire or inner tube on or in connection with, or with the sale of, any other article manufactured or produced by the subsequent manufacturer and if the other article is

(i) An automobile bus chassis or automobile bus body, or

(ii) By any person (A) exported to a foreign country or to a possession of the United States, (B) sold to a State, any political subdivision thereof, or the District of Columbia for the exclusive use of a State, any political subdivision thereof, or the District of Columbia, (C) sold to a nonprofit educational organization for its exclusive use, or (D) used or sold for use as supplies to vessels or aircraft. For tax-paid tires used in further manufacture after December 31, 1983, see section 6416(b)(3)(A) and the regulations thereunder.

(2) The overpayment in this paragraph (d) is to be distinguished from that overpayment described in section 6416(b)(2)(E) and §48.6416(b)(2)-2(f) in that this overpayment arises from the "use" described in this paragraph, whereas the overpayment under section 6416(b)(2)(E) arises from the "resale" of tax-paid tires or inner tubes by any person to a subsequent manufacturer who disposes of the articles on or in connection with, or with the sale of, a second article manufactured or produced by the subsequent manufacturer which is disposed of on the basis of one of the exemptions set forth in section 6416(b)(3)(C).

(3) If the second article is exported or shipped as provided in this paragraph (d), it is immaterial whether the subsequent manufacturer sold the article with the knowledge that it would be exported or shipped.

(4) An overpayment arises under paragraph (d)(1) of this section only if the tire or inner tube constitutes a part of, or is associated with, the second article at the time the second article is exported, shipped, sold, used, or sold for use, as prescribed in this paragraph.

(5) For definition of certain terms used in this paragraph, see section 4221 and the regulations thereunder.

(6) For provisions relating to overpayments arising by reason of tires or inner tubes sold tax-paid by the manufacturer of the same, on or in connection with, or with the sale of any article manufactured or produced by that manufacturer and exported, sold, or used or sold for use, as provided in this paragraph (d), see section 6416(b)(4) and §48.6416(b)(4)-1.

(7) For provisions relating to credit allowable in respect of tires and inner tubes sold on or in connection with, or with the sale of, another article taxable under chapter 32, prior to January 1, 1984, see section 6416(c) and §48.6416(c)-1.

(8) If a second article referred to in paragraph (d)(1) of this section is sold for a use described in that paragraph and is not so used, this paragraph (d) is in all respects inapplicable.

(e) *Use of bicycle tires or tubes in further manufacture.* A payment of tax under section 4071 on the sale, prior to January 1, 1984, of a bicycle or tricycle tire or inner tube, directly or indirectly, by the manufacturer of the same to a subsequent manufacturer will be considered to be an overpayment under section 6416(b)(3)(E) if the tire or tube is used by the subsequent manufacturer as material in the manufacture or production of, or as a component part of, a bicycle or tricycle manufactured or produced by the subsequent manufacturer which is not a rebuilt or reconditioned bicycle or tricycle. For definition of the term "bicycle tire", see section 4221(e)(4)(B) and the regulations thereunder.

(f) *Use of gasoline in further manufacture.* A payment of tax under section 4081 on the sale of gasoline, directly or indirectly, by the manufacturer of the same to a subsequent manufacturer will be considered an overpayment under section 6416(b)(3)(B) if the gasoline is used for nonfuel purposes by the subsequent manufacturer as a material in the manufacture or production of any other article manufactured or produced by the subsequent manufacturer. For this purpose it is immaterial whether the other article is or is not taxable under chapter 32. For provisions relating to the use of gasoline for nonfuel purposes, see section 4221 and the regulations thereunder.

§48.6416(b)(3)-3 Supporting evidence required in case of tax-paid articles used for further manufacture.

(a) *Evidence to be submitted by claimant.* No claim for credit or refund of an overpayment, within the meaning of section 6416(b)(3) and §48.6416(b)(3)-2 shall be allowed unless the subsequent manufacturer submits with the claim the evidence required by §48.6416(a)-3 *and* a statement, supported by sufficient available evidence—

(1) Showing the amount claimed in respect of each category of exportations, uses, or sales on which the claim is based and which give rise to a right of credit or refund under section 6416(b)(3) and §48.6416(b)(3)-1.

(2) Showing the name and address of the manufacturer, producer, or importer of the article in respect of which credit or refined is claimed,

(3) Identifying the article, both as to nature and quantity, in respect of which credit or refund is claimed,

(4) Showing the amount of tax paid in respect of the article by the manufacturer or producer of the article and the date of payment,

(5) Indicating that the article was used by the claimant as material in the manufacture or production of, or as a component part of, a second article manufactured or produced by the manufacturer or was sold on or in connection with, or with the sale of, a second article manufactured or produced by the manufacturer,

(6) Identifying the second article, both as to nature and quantity, and

(7) In the case of an overpayment determined under section 6416(b)(3)(C) as it existed prior to January 1, 1984, and paragraph (d)(1) of §48.6416(b)-(3)-2 in respect of a tire or inner tube taxable under section 4071, indicating that the manufacturer has evidence available (as set forth in paragraph (b) of this section) that the second article is an automobile bus chassis or automobile bus body, or has been exported, used, or sold as provided in section 6416(b)(3)(C)(ii) and §48.6416(b)(3)-2(d)(1)(ii).

(b) *Evidence required to be in pos-*

session of claimant.—(1) *In general.*—The evidence required to be retained by the person claiming credit or refund, as provided in paragraph (a)(7) of this section, must, in the case of an exportation of the second article, consist of proof of exportation of the second article in the form prescribed in the regulations under section 4221, or must, in other cases(except when the second article is an automobile bus chassis or automobile bus body), consist of a certificate, executed and signed by the ultimate purchaser of the second article, in the form prescribed in paragraph (b)(2) of this section. However, if the second article has passed through a chain of sales from the manufacturer of the second article to the ultimate purchaser of the second article, the evidence may consist of a certificate, executed and signed by the ultimate vendor of the second article, in the form provided in paragraph (b)(3) of this section, rather than the proof of exportation itself of the second article or the certificate of the ultimate purchaser of the second article.

(2) *Certificate of ultimate purchaser of second article.* The certificate executed and signed by the ultimate purchaser of the second article must contain the same information as that required in paragraph (b)(1)(ii) of §48.6416(b)(2)-3, except that the information must be furnished in respect of the second article, rather than the article to which the claim relates.

(3) *Certificate of ultimate vendor of second article.* Any certificate executed and signed by an ultimate vendor as evidence to be retained by the person claiming credit or refund must be executed in the same form and manner as that provided in paragraph (b)(2)(iii) and §48.6416(b)(2)-3.

(4) *Repayment or consent of ultimate vendor.* If the person claiming credit or refund of an overpayment to which the section applies has repaid, or agreed to repay, the amount of the overpayment to the ultimate vendor or if the ultimate vendor consents to the allowance of the credit or refund, a statement to that effect, signed by the ultimate vendor, must be shown on, or made a part of, the evidence required to be retained by the person claiming the credit or refund. In this regard, see §48.6416(a)-3(b)(2).

Par. 26. Section 48.6416(b)-4 is removed and the following new §48.6416(b)(4)-1 is added immediately after §48.6416(b)(3)-3.

§48.6416(b)(4)-1 Tax-paid tires or inner tubes used for further manufacture.

(a) *In general.* In the case of any payment of tax under section 4071 on the sale of tires or, prior to January 1, 1984, inner tubes that is determined to be an overpayment under section 6416(b)(4) and paragraph (b) of this section by reason of any exportation, use, or sale described in paragraph (b) of this section, the person who paid the tax may file a claim for refund of the overpayment or may claim a credit for the overpayment or any return of tax under this subpart subsequently filed. No interest shall be paid on any credit or refund allowed under this section. For provisions relating to the evidence required in support of a claim for credit or refund under this section, see §301.6402-2 of this chapter (Regulations on Procedure and Administrations) and paragraph (c) of this section. For provisions authorizing the taking of a credit in lieu of filing a claim for refund, see section 6416(d) and §48.6416(f)-1.

(b) *Conditions causing overpayment.* (1) The payment of tax under section 4071 on the sale of tire or inner tube by the manufacturer of the article will be considered to be an overpayment under section 6416(b)(4) if the tire or inner tube is sold by that manufacturer on or in connection with, or with the sale of, any other article manufactured or produced by that manufacturer and such other article—

(i) Is an automobile bus chassis or an automobile bus body, or

(ii) Is by any person (A) exported to a foreign country or shipped to a possession of the United States, (B) sold to a State, any political subdivision thereof, or the District of Columbia for the exclusive use of a State, any political subdivision thereof, or the District of Columbia, (C) sold to a nonprofit educational organization for its exclusive use, or (D) used or sold for use as supplies for vessels or aircraft.

(2) If the second article is exported or shipped as provided in this paragraph (b), it is immaterial whether the manufacturer sold the article with the knowledge that it would be exported or shipped.

(3) An overpayment arises under paragraph (b)(1) of this section only if the tire or inner tube constitutes a part of, or is associated with, the second article at the time the second article is exported, shipped, sold, used, or sold for use, as prescribed in this paragraph.

(4) Paragraph (b)(1) of this section applies only in those cases where the exportation, use, or sale (or any combination thereof) occurs before any other use.

(5) For definition of certain terms used in this paragraph (b), see section 4221 and the regulations thereunder.

(6) For provisions relating to overpayments arising by reason of the tax-paid sale of tires or inner tubes by the manufacturer of the same and their resale by any person to another manufacturer for use as provided in this paragraph, see section 6416(b)(2)(E) and §48.6416(b)(2)-2(f).

(7) For provisions relating to overpayments arising by reason of the tax-paid sale of tires or inner tubes, directly or indirectly, by the manufacturer of the same, to a subsequent manufacturer who uses them as provided in this paragraph (b), see section 6416(b)(3)(C) as it existed prior to January 1, 1984, and section 6416(b)(3)as amended by the Highway Revenue Act of 1982 and §48.6416(b)(3)-2(d).

(8) For provisions relating to the credit allowable in respect of tires or inner tubes sold on or in connection with, or with the sale of, another article taxable under chapter 32, see section 6416(c) as it existed prior to January 1, 1984, and §48.6416(c)-1.

(9) If a second article referred to in paragraph (b)(1)(ii) of this section is sold for a use described in that paragraph and is not so used, this paragraph (b) is in all respects inapplicable.

(c) *Evidence to be submitted by claimant.* (1) No claim for credit or refund of an overpayment prior to January 1, 1984, within the meaning of section 6416(b)(4) and paragraph (b) of this section, shall be allowed unless the person who paid the tax submits with the claim the evidence required by §48.6416(a)-3(b)(2) and a statement, supported by sufficient available evidence—

(i) Showing the amount claimed in

respect of each category of exportations, uses, or sales on which the claim is based and which give rise to a right of credit or refund under section 6416(b)(4),and paragraph (a) of this section.

(ii) Indicating that the person claiming the credit or refund is the manufacturer of the articles in respect of which credit or refund is claimed.

(iii) Identifying the article, both as to nature and quantity, in respect of which credit or refund is claimed,

(iv) Showing the amount of tax paid in respect of the article and the date of payment of the tax,

(v) Indicating that the person claiming the credit or refund sold the article on or in connection with, or with the sale of, or used the article as a component part of, a second article manufactured or produced by that person,

(vi) Identifying the second article both as to nature and quantity, and

(vii) Indicating that the person claiming the credit or refund has evidence available (as set forth in paragraph (b) of this section) that the second article is an automobile bus chassis or body, or has been exported, used, or sold as provided in section 6416(b)(4)(B)(ii) and paragraph (b)(1)(ii) of this section.

(2) No claim for credit or refund of an overpayment after December 31, 1983, within the meaning of section 6416(b)(4) and paragraph (b) of this section shall be allowed unless the person who paid the tax submits with the claim a statement supported by the evidence listed in paragraph (c)(1)(i) through (vii) of this section.

(d) *Evidence required to be in possession of claimant.*—(1) *In general.*—The evidence required to be retained by the person claiming credit or refund, as provided in paragraph (c)(1)(vii) of this section, must, in the case of an exportation of the second article, consist of proof of exportation of the second article in the form prescribed in the regulations under section 4221 or must, in other cases (except when the second article is an automobile bus chassis or automobile body) consist of a certificate, executed and signed by the ultimate purchaser of the second article, in the form prescribed in paragraph (d)(2) of this section. However, if the second article has passed through a chain of sales from the manufacturer of the second article to the ultimate purchaser of the second article, the evidence may consist of a certificate, executed and signed by the ultimate vendor of the second article, in the form prescribed in paragraph (d)(3) of this section, rather than the proof of exportation itself of the second article or the certificate of the ultimate purchaser of the second article.

(2) *Certificate of ultimate purchaser of second article.* The certificate executed and signed by the ultimate purchaser of the second article must contain the same information as that required in paragraph (b)(1)(ii) of §48.6418(b)(2)-3, except that the information shall be furnished in respect of the second article, rather than the article to which the claim relates.

(3) *Certificate of ultimate vendor of second article.* Any certificate executed and signed by an ultimate vendor as evidence to be retained by the person claiming credit or refund must be executed in the same form and manner as that provided in paragraph (b)(2)(iii) of §48.6416(b)(2)-3.

(4) *Repayment or consent oaf ultimate vendor.* If the person claiming credit or refund of an overpayment to which this section applies, has repaid, or agreed to repay the amount of the overpayment to the ultimate vendor or if the ultimate vendor consents to the allowance of the refund or credit, a statement to the effect, signed by the ultimate vendor, must be shown on, or made a part of, the evidence required to be retained by the person claiming refund or credit. In this regard, see §48.6416(a)-3(b)(2).

Par. 27. Section 48.6416(b)-5 is removed and the following new §48.6416(b)(5)-1 is added immediately after §48.6416(b)(4)-1.

§48.6416(b)(5)-1 Return of installment accounts causing overpayments of tax.

(a) *In general.* In the case of any payment of tax under section 4216(d)(1) in respect of the sale of any installment account that is determined to be an overpayment under section 6416(b)(5) and paragraph (b) of this section upon return of the installment account, the person who paid the tax may file a claim for refund of the overpayment or may claim credit for the overpayment on any return of tax under this subpart which that perso subsequently files. No interest shall b paid on any credit or refund allowe under this section. For provision relating to the evidence required in sup port of a claim for credit or refund un der this section, see §301.6402-2 o this chapter (Regulations on Procedur and Administration) and paragraph (c of this section. For provision authorizing the taking of a credit in lie of filing a claim for refund, see section 6416(d) and §48.6416(f)-1.

(b) *Overpayment of tax allocable t repaid consideration.* The payment o tax imposed by section 4216(d)(1) o the sale of an installment account b the manufacturer will be considered t be an overpayment under sectio 6416(b)(5) to the extent of the tax allo cable to any consideration repaid o credited to the purchaser of the install ment account upon the return of the ac count to the manufacturer pursuant t the agreement under which the accoun originally was sold, if the readjustmen of the consideration occurs pursuant t the provisions of the agreement. Th tax allocable to the repaid or credite consideration is the amount whic bears the same ratio to the total ta paid under section 4216(d)(1) with re spect to the installment account as th amount of consideration repaid or cred ited to the purchaser bears to the tota consideration for which the accoun was sold. This paragraph (b) does no apply where an installment account i originally sold pursuant to the order o or subject to the approval of, a court o competent jurisdiction in a bankruptc or insolvency proceeding.

(c) *Evidence to be submitted b claimant.* No claim for credit or refun of an overpayment, within the meanin of section 6416(b)(5) and paragraph (b of this section, of tax under sectio 4216(d)(1) shall be allowed unless th person who paid the tax submits wit the claim a statement supported by su ficient available evidence, indicating—

(1) The name and address of the pe son to whom the installment accoun was sold.

(2) The amount of tax due under se tion 4216(d)(1) by reason of the sale the installment account, the amount the tax paid under section 4216(d)(with respect to the sale, and the date payment.

(3) The amount for which the installment account was sold,

(4) The amount which was repaid or credited to the purchaser of the account by reason of the return of the account to the person claiming the credit or refund, and

(5)(i) The fact that the amount repaid or credited to the purchaser of the account was so repaid or credited pursuant to the agreement under which the account was sold, and

(ii) The fact that the account was returned to the manufacturer pursuant to that agreement.

Par. 28. Section 48.6416(c)-1 is revised to read as follows:

§48.6416(c)-1 Credit for tax paid on tires or, prior to January 1, 1984, inner tubes.

(a) *Allowance of credit against tax on sale of taxable article.* If tax has been paid under section 4071 on the sale, or under section 4218 on the use, of a tire or inner tube, and the manufacturer of another article taxable under chapter 32 sells the tire or inner tube on or in connection with the sale of that other article, a credit in respect of the tire or inner tube is allowable under section 6416(c) against the tax imposed on the sale of that other article. The amount of the credit is to be determined as provided in paragraph (b) or (c) of this section.

(b) *Tires or tubes purchased by manufacturer of the other article.* If the manufacturer of the other article purchased the tire or inner tube tax-paid, the amount of the credit shall be determined by applying to the purchase price of the tire or inner tube the percentage rate of tax applicable to the sale of the other article. For this purpose, the purchase price shall be determined by including any tax passed on to the manufacturer and, in the case of a tire, by excluding any part of the price attributable to the metal rim or rim base. For example, if the selling price of an automobile truck is $24,000, tax equivalent to 10 percent of the price (*i.e.*, $2,400) is imposed under section 4601(a) on the sale (before April 1, 1983) of the automobile truck. If the tires or inner tubes sold on or in connection with the automobile truck are purchased by the manufacturer of the automobile truck for $1,500 (computed as provided in this paragraph) a credit of $150 (10 percent of $1,500) is allowable against the tax imposed on the sale of the automobile truck.

(c) *Tires or tubes manufactured by manufacturer or other articles.* If the manufacturer of the other article is also the manufacturer of the tire or inner tube and incurs tax liability under section 4218 on the use by that manufacture of the tire or inner tube, the amount of the credit shall be determined by applying to the fair market price of the tire or inner tube, the percentage rate of tax applicable to the sale of the other article. For this purpose, the fair market price of the tire or inner tube shall be the price at which the same or similar tires or inner tubes are sold by manufacturers of tires or inner tubes in the ordinary course of trade, as determined by the Commissioner, and by excluding, in the case of a tire, any part of the price attributable to the metal rim or rim base. The determination of the Commissioner shall be made in the same manner as determinations made under section 4218.

(d) *Other applicable rules.* (1) for purposes of this section, the term "manufacturer" includes the original manufacturer of the other article and any succeeding purchaser of the article who further manufactures the article so as to become liable as a manufacturer of an article taxable under chapter 32. Therefore, the credit provided by section 6416(c) and this section is available both to the original manufacturer of the other article and also to every succeeding purchaser of that article who sells that article on or in connection with, or with the sale of, another article taxable under chapter 32.

(2) No interest shall be paid on any credit allowed under this section.

(3) If credit is not claimed under this section against the tax applicable to the sale of the other article, the manufacturer of the other article may claim refund of an amount equivalent to the credit or may claim credit on any return of tax under this subpart subsequently filed.

Par. 29. Section 48.6416(e)-1 is revised to read as follows.

§48.6416(e)-1 Refund to exporter or shipper.

(a) *In general.* Any payment of tax imposed by section 4041, 4051 or chapter 32 that is determined to be an overpayment within the meaning of section 6416(b)(2)(A) or (E), section 6416(b)(3)(C) (prior to January 7, 1983), or section 6416(b)(4) and the regulations thereunder, by reason of the exportation of any article may be refunded to the exporter or shipper of the article pursuant to section 6416(c) of this section, if—

(1) The exporter or shipper files a claim for refund of the overpayment, and

(2) The person who paid the tax waives the right to claim credit or refund of the tax.

No interest shall be paid on any refund allowed under this section. For provisions relating to the evidence required in support of a claim under this paragraph (a), see §301.6402 of this chapter (Regulations on Procedure and Administration) and paragraph (b) of this section.

(b) *Supporting evidence required.* No claim for refund of any overpayment of tax to which this section applies shall be allowed unless the exporter or shipper submits with that claim, proof of exportation in the form prescribed by the regulations under section 4221, and a statement, signed by the person who paid the tax, showing—

(1) That the person who paid the tax waives the right to claim credit or refund of the tax,

(2) In the case of an overpayment determined under section 6416(b)(2)(A) and paragraph (b) of §48.6416(b)(2)-2 in respect of a truck, bus, tractor, etc., taxable under section 4061(a), that, pursuant to section 6416(g), the person who paid the tax possessed at the time that person shipped the article or at the time title to the article passed to that person's vendee, whichever in earlier, evidence that the article was to be exported to a foreign country or shipped to a possession of the United States.

(3) The amount of tax paid on the sale of the article and the date of payment, and

(4) The internal revenue service office to which the tax was paid.

Par. 30. Section 48.6416(f)-1 is revised to read as follows:

§48.6446(f)-1 Credit on returns.

Any person entitled to claim refund

of any overpayment of tax imposed by section 4041, 4042, 4051 or chapter 32 may, in lieu of claimingrefund of the overpayment, claim credit for the overpayment on any return of tax under this subpart subsequently filed. Any such credit claimed on a return must be supported by the evidence prescribed in the applicable regulations in this subpart and §301.6402 of this chapter (Regulations on Procedure and Administration).

Par. 31. Section 48.6416(g)-1 is revised to read as follows:

§48.6416(g)-1 Intent to export trucks, buses, tractors, etc.

In the case of any payment of tax imposed by section 4061(a) in respect of the sale prior to April 1, 1983, of a truck, bus, tractor, etc., an overpayment of tax will not be considered to arise by reason of an exportation described in section 6416(b)(2)(A) and paragraph (b) of §48.6416(b)(2)-2 unless the manufacturer of the article possessed at the time the article was shipped or at the time title to the article passed to that manufacturer's vendee, whichever is earlier, evidence that the article was to be exported to a foreign country or shipped to a possession of the United States.

Par. 32. Section 48.6416(h)-1 is revised to read as follows:

§ 48.6416(h)-1 Accounting procedures for like articles.

(a) *Identification of manufacturer.* In applying section 6416 and the regulations thereunder, a person who has purchased like articles from various manufacturers may determine the particular manufacturer from whom that person purchased any one of those articles by a first-in-first-out (FIFO) method, by a last-in-first-out (LIFO) method, or by any other consistent method approved by the district director. For the first year for which a person makes a determination under this section, the person may adopt any one of the following methods without securing prior approval by the district director.

(1) FIFO method.

(2) LIFO method.

(3) Any method by which the actual manufacturer of the article is in fact identified.

Any other method of determining the manufacturer of a particular article must be approved by the district director before its adoption. After any method for identifying the manufacturer has been properly adopted, it may not be changed without first securing the consent of the district director.

(b) *Determining amount of tax paid.* In applying section 6416 and the regulations thereunder, if the identity of the manufacturer of any article has been determined by a person pursuant to a method prescribed in paragraph (a) of this section, that manufacturer of the article must determine the tax paid under chapter 32 with respect to that article consistently with the method used in identifying the manufacturer.

Par. 33. Section 48.6420(a)-1, 48.6420(b)-1, 48.6420(c)-1, 48.6420(d)-1, 48.6420(e)-1, 48.6420(f)-1, 48.6420(g)-1, 48.6420(h)-1, and 140.6420-1 are removed. The following new §§48.6420-1, 48.6420-2, 48.6420-03, 48.6420-4, 48.6420-5, 48.6420-6, and 48.6420-7 are added immediately after §48.6416(h)-1.

§48.6420-1 Credits or payments to ultimate purchaser of gasoline used on a farm.

(a) *In general.* If gasoline is used on a farm for farming purposes after June 30, 1965, a credit (under the circumstances described in paragraph (b) of this section) or a payment (under the circumstances described in paragraph (c) of this section) in respect of the gasoline shall be allowed or made to the ultimate purchaser of the gasoline in an amount determined by multiplying (1) the number of gallons of gasoline so used by (2) the rate of tax on gasoline under section 4081 that applied on the date the gasoline was purchased by the ultimate purchaser. No interest shall be paid on any payment, allowed under paragraph (c) of this section. However, interest may be paid on any overpayment (as defined by section 6401 arising from a credit allowed under paragraph (b) of this section. See section 34(a), relating to credit for certain uses of gasoline and special fuels (and lubricating oil used prior to January 7, 1983). See §48.6420-2 for the time within which a claim for credit or payment must be made. See section 4081 and the regulations thereunder for the rates of tax on gasoline. See §48.6420-2 for meaning of the terms "Used on a farm for farming purposes," "farm," "gasoline," "ultimate purchaser," and "taxable year."

(b) *Allowance of income tax credit in lieu of payment.* with respect to persons subject to income tax, repayment of the tax paid under section 4081 on gasoline used on a farm for farming purposes may be obtained only by claiming a credit for the amount of this tax against the income tax imposed by subtitle A of the Code. The amount of the credit shall be an amount equal to the payment which would be made under section 6420 with respect to gasoline used during the taxable year on a farm for farming purposes if section 6420(g)(1) and paragraph (c) of this section did not apply. See section 34(a)(1).

(c) *Allowance of payment.* Payments in respect of gasoline upon which tax was paid under section 4081 that is used on a farm for farming purposes shall be made only to—

(1) The United States or agency or instrumentality thereof, a State, a political subdivision of a State, or an agency or instrumentality of one or more States or political subdivisions of a State, or the District of Columbia, or

(2) An organization which is exempt from tax under section 501(a) and is not required to made a return of the income tax imposed under subtitle A for its taxable year.

(d) *Use of gasoline.* (1) The credit or payment described in paragraph (a) of this section is allowable only in respect of gasoline used on a farm in the United States for farming purposes. The credit or payment is not allowable with respect to gasoline used for nonfarming purposes, or gasoline used off a farm, regardless of the nature of the use. If a vehicle or other equipment is used both on a farm and off the farm, or if it is used on a farm both for farming and nonfarming purposes, the credit or payment is allowable only with respect to that portion of the gasoline which was "used on a farm for farming purposes" as defined in paragraph (a) of §48.6420-4. In determining if this requirement is met, neither the type of equipment or vehicle use nor its registration for highway use is material. However, the actual use of the equipment or vehicle and the place where it is used are material. For example, if a truck used on a farm for farming purposes is also used on the hig

ways, gasoline used in connection with operating the truck on the highways is not taken into account in computing the credit or payment.

(2) For purposes of determining the allowable credit or payment in respect of gasoline used on a farm for farming purposes, gasoline on hand shall be considered used in the order in which it was purchased. Thus, if the owner, tenant, or operator of a farm has on hand gasoline acquired in two purchases made at different times and subject to different rates of tax, in determining credit or payment for gasoline used on a farm for farming purposes, it will be assumed that the gasoline purchased first was the first gasoline used, and the rate applicable to that purchase will apply in determining the credit or payment, until all that gasoline is accounted for.

§48.6420-2 Time for filing claim for credit or payment.

(a) *In general.* A claim for credit or payment described in §48.6420-1 with respect to gasoline used after June 30, 1965, on a farm for farming purposes, shall cover only gasoline used during the taxable year on a farm for farming purposes. Therefore, gasoline on hand at the end of a taxable year as, for example, in fuel supply tanks of farm machinery or in storage tanks or drums, must be excluded from a claim filed for that taxable year (but may be included in a claim failed for a later taxable year if used during that later year on a farm for farming purposes). Gasoline used during a taxable year may be covered by a claim filed for that taxable year although the gasoline was not paid for at the time the claim is filed. For purposes of applying this section, a governmental unit or exempt organization described in §48.6420-1(c) is considered to have as its taxable year, the calendar year or fiscal year on the basis of which it regularly keeps its books; see paragraph (h) of this section.

(b) *Time for filing.* (1) A claim for credit with respect to gasoline used on a farm for farming purposes shall not be allowed unless it is filed no later than the time prescribed by section 6511 and the regulations thereunder for filing a claim for credit or refund of income tax for the particular taxable year.

(2) A claim for payment of a governmental unit or exempt organization described in §48.6420-1(c) must be filed no later than 3 years following the close of its taxable year. (See paragraph (h) of this section).

(3) See §301.7502-1 of this chapter (Regulations on Procedure and Administration) for provisions treating timely mailing as timely filing and §301.7502-1 of this chapter for time for performance of an act where the last day falls on Saturday, Sunday, or a legal holiday.

(c) *Limit of one claim per taxable year.* Not more than one claim may be filed under section 6420 by any person with respect to gasoline used during the same taxable year.

(d) *Form and content of claim.*—(1) *Claim for credit.* (i) The claim for credit with respect to gasoline used on a farm for farming purposes must be made by attaching a Form 4136 to the income tax return of an individual or a corporation. Form 4136 must be executed in accordance with the instructions prescribed for the preparation of the form. A partnership may not file Form 4136. When a partnership files Form 1065, U.S. Partnership Return of Income, it must include a statement showing how many gallons of gasoline are allocated to each partner and the use made of the gasoline.

(ii) If an individual dies during the taxable year, the claim for credit may be made only for that portion of the individual's taxable year ending with the date of death. If a sole proprietorship, a partnership or corporation is terminated or liquidated during the taxable year, the claim for credit may be made only for the portion of its year ending with the date of the termination or liquidation.

(2) *Claim for payment.* The claim for payment with respect to gasoline used on a farm for farming purposes by a governmental unit or exempt organization described in §48.6420-1(c) must be made on Form 843 in accordance with the instructions prescribed for the preparation of the form. The claim by such a unit or organization must be filed with the service center for the internal revenue region in which the principal place of business or principal office of the claimant is located.

§48.6420-3 Exempt sales; other payments or refunds available.

(a)*Exempt sales.* Credits or payments are allowable only for gasoline that was sold by the producer or importer in a transaction that was subject to tax under section 4081. No credit or payment shall be allowed or made under §48.6420-1 with respect to gasoline which was exempt from the tax imposed by section 4081. For example, a State or local government may not file a claim with respect to any gasoline which it purchased tax free from the producer, even through the State or local government used the gasoline on a farm for farming purposes. Similarly, payment may not be made with respect to gasoline purchased by a State tax free for its exclusive use, as provided in section 4221, which is used on a State prison farm for farming purposes.

(b) *Other payments or refunds available.* Any amount which, without regard to the second sentence of section 6420(d) and this paragraph (b), would be allowable as a credit or payable to any person under §48.6420-1 with respect to any gasoline is reduced by any other amount which is allowable as a credit or payable under section 6420, or is refundable under any other provision of the Code, to any person with respect to the same gasoline. Thus, a person who is the ultimate purchaser of gasoline may not file a claim for credit or payment with respect to that gasoline if another person is entitled to claim a payment, credit, or refund with respect to the same gasoline. For example, a State or local government may not file a claim for payment if it has executed, or intends to execute, a written consent to enable the producer to claim a credit or refund for the tax that was paid. See, for example, §§48.6416(a)-3(b)(2), 48.6416(b)(2)-2(d), and 48.6416(b)-(2)-3(b)(1).

§48.6420-4 Meaning of terms.

For purposes of the regulations under section 6420, unless otherwise expressly indicated—

(a) *Used on a farm for farming purposes.* The term "used on a farm for farming purposes" applies only to gasoline which is used (1) in carrying on a trade or business of farming, (2) on a farm in the United States, and (3) for farming purposes. Gasoline used in an aircraft will qualify if its use othewise satisfies these requirements. For the meaning of the term "trade or business

of farming." see paragraph (b) of this section. For the definition of the term "farm," see paragraph (c) of this section. For the definition of the term "farming purposes," see paragraphs (d) through (g) of this section. The term "United States" has the meaning assigned to it by section 7701(a)(9).

(b) *Trade or business of farming.* A person will be considered to be engaged in the trade or business of farming if the person cultivates, operates, or manages a farm for gain or profit, either as an owner or a tenant. A person engaged in forestry or the growing of timber is not thereby engaged in the trade or business of farming. A person who operates a garden plot, orchard, or farm for the primary purpose of growing produce for the person's own use is not considered to be engaged in the trade or business of farming. Generally, the operation of a farm does not constitute the carrying on of a trade or business if the farm is occupied by a person primarily for residential purposes or is used primarily for pleasure, such as for the entertainment of guests or as a hobby.

(c) *Farm.* The term "farm" is used in its ordinary and accepted sense, and generally means land used for the production of crops, fruits, or other agricultural products or for the sustenance of livestock or poultry. The term "livestock" includes cattle, hogs, horses, mules, donkeys, sheep, goats, and captive fur-bearing animals. The term "poultry" includes chickens, turkeys, geese, ducks, and pigeons. Thus, a farm includes livestock, dairy, poultry, fish, fruit, fur-bearing animal, and truck farms, plantations, ranches, nurseries, ranges, orchards, feed yards for fattening cattle, and greenhouses and other similar structures used primarily for the raising of agricultural or horticultural commodities. Greenhouses and other similar structures that are used primarily for purposes other than the raising of agricultural or horticultural commodities do not constitute farms, as, far example, structures that are used primarily for the display, storage, fabrication, or sale of wreaths, corsages, and bouquets. A fish farm is an area where fish are grown or raised, as opposed to merely caught or harvested.

(d) *Gasoline used in cultivating, raising, or harvesting.* Gasoline is used for "farming purposes" when it is used on a farm by the owner, tenant, or operator of the farm in connection with cultivating the soil, raising or harvesting any agricultural or horticultural commodity, or raising, shearing, feeding, caring for, training, or managing livestock, poultry, bees, or wildlife. Examples of operations which are considered to be operations for "farming purposes" within the meaning of this paragraph include plowing, seeding, fertilizing, weed killing, corn or cotton picking, threshing, combining, baling, silo filing, and chopping silage.

(e) *Gasoline used in handling, packing, or storing.* (1) Gasoline is used for "farming purposes" when it is used by the owner, tenant, or operator of the farm in handling, drying, packing, grading, or storing any agricultural or horticultural commodity in its unmanufactured state, but only if the owner, tenant, or operator produced more than one-half of the commodity which was so treated during tthe taxable year for which claim for credit or payment is filed.

(2) Gasoline used in connection with canning, freezing, packaging, or processing operations will not be considered to be used for farming purposes, even though these operations are performed on a farm. Thus, for example, although gasoline used on a farm in connection with the production or harvesting of maple sap or oleoresin from a living tree is considered to be used for farming purposes under paragraph (d) of this section, gasoline used in the processing of maple sap into maple syrup or maple sugar or used in the processing of oleoresin into gum spirits of turpentine or gum resin is not used for farming purposes, even though these processing operations are conducted on a farm.

(3) Gasoline used in connection with processing operations which change a commodity from its raw or natural state, or operations performed with respect to a commodity after its character has been changed from its raw or natural state by a processing operation, will not be considered to be used for farming purposes. For example, gasoline used for the extraction of juices from fruits or vegetables is used in a processing operation which changes the character of the fruits or vegetables from their raw or natural state and will no be considered to be used for "farming purposes."

(4) The term "commodity," as used in this paragraph (e), refers to a single agricultural or horticultural product. For example, all apples are treated as a single commodity while apples and peaches are treated as two separate commodities. Operations with respect to each commodity are to be considered separately in applying the "one-half" production test described in paragraph (e)(1) of this section.

(f) *Gasoline used in planting, cultivating, or caring for trees.* Gasoline is used "for farming purposes" when it is used by the owner, tenant, or operator of the farm in connection with the planting, cultivating, caring for, or cutting of trees that is incidental to the farming operations of the farm on which it is performed or incidental to the farming operations of the owner, tenant, or operator of the farm, or in connection with the preparation (other than milling) of trees for market that is incidental to these farming operations. These operations include the felling of trees and cutting them into logs or firewood but do not include sawing logs into lumber, chipping, or other milling operations. Operations of the prescribed character will be considered incidenial to farming operations only if they are of a minor nature in comparison with the total farming operations involved. Therefore, a tree farmer or timber grower may not claim credit or payment under §38.6420-1 with respect to gasoline used in connection with the trade or business of tree farming or timber growing.

(g) *Gasoline used in the maintenance of a farm or farm equipment.* Gasoline is used "for farming purposes" when it is used by the owner, tenant, or operator of a farm in connection with the operation, management, conservation, improvement, or maintenance of the farm and its tools and equipment. The activities included are those which contribute in any way to the conduct of the farm as such, as distinguished from an other enterprise in which the owner, tenant, or operator may be engaged. Examples of included operations are clearing land, repairing fences and farm, buildings, building terraces or irrigation ditches, cleaning tools or far

machinery, and painting farm buildings. Since the gasoline must be used by the owner, tenant, or operator of the farm to which the operations relate, gasoline used by an organization which contracts with a farmer to renovate his farm properties is not used for farming purposes. Gasoline used in a gasoline powered lawn mower for maintaining a lawn is not used for farming purposes.

(h) *Taxable year.* The "taxable year" of a governmental unit or tax-exempt organization described in §48.6420-1(c) is the calendar or fiscal year on the basis of which it regularly keeps its books. The "taxable year" of persons subject to income tax shall have the meaning as it has under section 7701(a)(23).

(i) *Gasoline.* The term "gasoline" has the same meaning given to this term by section 4082(b) and the regulations thereunder.

(j) *Ultimate purchaser.*—The term "ultimate purchaser" includes only a person who is an owner, tenant, or operator of a farm. A person who is an owner, tenant, or operator of a farm is an ultimate purchaser of gasoline only with respect to such gasoline as is purchased by the person and used for farming purposes on a farm of which the person is the owner, tenant, or operator. Thus the owner of a farm who purchases gasoline which is used on the farm by its owner, tenant, or operator for farming purposes is generally the ultimate purchaser of the gasoline. If, however, the cost of gasoline supplied by an owner, tenant, or operator of a farm, is by agreement or other arrangement borne by a second person who is an owner, or operator of the farm, the second person who bore the cost of the gasoline is considered to be the ultimate purchaser of the gasoline.

(k) *Certain farming use by persons other than the owner, tenant or operator.*—(1) *In general.* Except as provided in paragraph (l) of this section the owner, tenant, or operator of a farm on which gasoline is used by any other person for the purposes described in section 6420(c)(3)(A) and paragraph (d) of this section (relating to gasoline used in cultivating, raising, or harvesting) will be treated, for the purposes of §48.6420-1(a), as the ultimate purchaser who used the gasoline on the farm for farming purposes.

(2) *Example.* The rule of paragraph (k)(1) of this section may be illustrated by the following example.

Example. Farmer A hired custom operator B to cultivate the soil on A's farm. B used 200 gallons of gasoline which B had purchased in performing the work on A's farm. In addition, A hired Farmer C to do some plowing on A's farm, using C's own tractor and 50 gallons of gasoline which C had purchased. A is deemed to be the ultimate purchaser and user of the gasoline used on A's farm by B and C, and A is entitled to take a credit in respect of the gasoline. Accordingly, no credit in respect to the gasoline may be taken by either B or C.

(l) *Aerial applicators treated as ultimate purchasers.*—(1) *General rule.* Section 6420(c)(3)(A) provides that only the owner, tenant, or operator of a farm is entitled to be treated as a user and ultimate purchaser. Section 6420(c)(4) provides that, under section 6420(c)(3)(A), an aerial applicator is entitled to be treated as the user and ultimate purchaser of gasoline used by it on a farm for the purposes described in section 6420(c)(3)(A), but only if the owner, tenant, or operator who is otherwise entitled to treatment as the user and ultimate purchaser waives the right to credit or payment. See paragraph (l)(2) of this section.

(2) *Form and manner of waiver.* To waive the right to be treated as user and ultimate purchaser of gasoline which is used on a farm by an aerial applicator, the owner, tenant, or operator of a farm who is otherwise entitled to treatment as user and ultimate purchaser must execute an irrevocable written agreement (as here described) no later than the date on which the aerial applicator claiming the credit or payment files its return for the taxable year in which the gasoline is used. The agreement must identify the period for which the owner, tenant, or operator waives the right to credit or payment. The effective period of the waiver cannot extend beyond the last day of the taxable year of the owner, tenant, or operator of the farm on which the gasoline was used. If the owner, tenant, or operator's taxable year extends beyond the taxable year of the applicator, the applicator can only claim a credit or payment for periods included in the applicator's taxable year. Periods after the last day of the applicator's taxable year which are included under the agreement must be claimed on the applicator's return for the next succeeding taxable year. The waiver may be in the form shown under paragraph (l)(6) of this section or in any other form that meets the requirements of this paragraph and clearly states that the owner, tenant, or operator of the farm knowingly waives the right to receive the credit or payment.

(3) *Agreement included on aerial applicator's invoice.* The agreement waiving a right to receive a credit or payment under section 6420 may be a separate document or may appear on the voice for aerial application services or other unrelated document from the aerial applicator to the owner, tenant, or operator of the farm. If the waiver agreement appears on an invoice or other unrelated document, however, it must be printed in a section of the invoice or other document clearly set off from all other material contained in the invoice or other document, and it must be printed in type sufficiently large to put the owner, tenant, or operator of the farm on notice that the person has waived the right to receive a credit or payment under section 6420. Additionally, if the waiver agreement appears as part of any invoice or other unrelated document, it must be executed separately from any other item included in the invoice or other document which requires the owner, tenant, or operator's signature.

(4) *Copies of agreement waiving right to credit or payment.* No copies of any agreement waiving a right to credits or payments under section 6420 are to be submitted to the Internal Revenue Service unless a request is made by the Service to the taxpayer for the waivers. Aerial applicators must, however, retain copies of all waivers, and a copy of each waiver must be supplied by the aerial applicator to the owner, tenant, or operator of the farm who waives the right to receive a credit or payment. See regulations §148.6420-6 for general requirements for records to be kept.

(5) *Waiver on behalf of owner, tenant, or operator of farm.* An agent of the owner, tenant, or operator of a farm who is expressly authorized to act on behalf of and to bind the owner, tenant, or operator may waive that person's rights to a credit or payment under section 6420 by signing the waiver on the person's behalf.

(6) *Sample form of agreement.*

While no specific form is required for an effective waiver, an acceptable form waiving the right to receive a credit or payment under section 6420 follows:

I hereby waive my right as onwer/tenant/operator of a farm located at (address) to receive credit or payment from the United States for gasoline used by (aerial applicator) on the farm in connection with cultivating the soil, or the raising or harvesting of any agricultural or horticultural commodity. This waivers applies to gasoline used during the period , both dates inclusive. I understand that by signing this waiver, I give up my right to claim any credit or payment for gasoline used by the aerial applicator during the period indicated, and I acknowledge that I have not previously claimed any credit for that gasoline.

(Signature of Owner/Tenant/Operator)

§48.6420-5 Applicable laws.

(a) *Penalties, excessive claims, etc* All provisions of law, including penalties, applicable in respect of the tax imposed by section 4081 shall, to the extent applicable and consistent with section 6420, apply in respect of the payments provided for in section 6420 to the same extent as if these payments were refunds of overpayments of the tax imposed on the sale of gasoline under section 4081. For special rules applicable to the assessment and collection of amounts constituting excessive payments under section 6420, see section 6206 and the regulations thereunder. For the civil penalty assessable in the case of excessive Claims under section 6420, see section 6675 and the regulations thereunder. For the treatment as an overpayment of an amount allowable as an excessive credit under section 39 with respect to amounts payable under section 6420, see section 6401(b).

(b) *Examination of books and witnesses.* For the purpose of ascertaining (1) the correctness of any claim made under section 6420 or (2) the correctness of any credit or payment made in respect of the claim, the Commissioner shall have the same authority granted by paragraphs (1), (2), and (3) of section 7602, relating to examination of books and witnesses, as if the person claiming credit or payment under section 6420 were the person liable for tax.

(c) *Fractional part of a dollar.* Section 6420(e)(3) provides that section 7504, relating to fractional parts of a dollar, shall not apply with respect to the allowance of any amount as a credit or payment under section 6420. Accordingly, credits or payments authorized by section 6420 shall be made in the exact amount to which the claimant is entitled and shall not be rounded to the nearest whole dollar amount.

§48.6420-6 Records to be kept in substantiation of credits or payments.

(a) *In general.* Every person making a claim for credit or payment under section 6420 must keep records sufficient to enable the district director to determine whether the person is entitled to credit or payment under section 6420 and, if so, the amount of the credit or payment. No particular form is prescribed for keeping the records, but the records must include a copy of the income tax return or claim and a copy of any statement or document subsmitted with the return or claim. The records must also show with respect to the taxable year covered by the claim—

(1) The number of gallons of gasoline purchased and the dates of purchase,

(2) The name and address of each vendor from whom gasoline was purchased and the total number of gallons purchased from each,

(3) The number of gallons of gasoline purchased by the claimant and used during the taxable year for farming purposes on a farm of which the claimant is the owner, tenant, or operator.

(4) The number of gallons of gasoline used during the taxable year for the purposes described in section 6420(c)(3)(A) and §48.6420-4(d) (relating to cultivating, raising, or harvesting) by a person other than the owner, tenant, or operator on a farm of which the claimant is the owner, tenant, or operator, and

(5) Other information as necessary to establish the correctness of the claim.

(b) *Acceptable records.* (1) Evidence of purchases of gasoline, and the purposes for which it was used, to substantiate claims may include paid duplicate sales invoices or tickets from the gasoline dealer or other vendor, and detailed records of all fuel used which show the amount consumed on a farm for farming purposes and the amount used for other purposes.

(2) Records maintained for Federal or State income tax purposes, or to support claims for refund of a State tax on gasoline, may be used to the extent that they contain the information necessary to substantiate the accuracy of the claim for credit under section 6420. However, the records must show separately the number of gallons of gasoline used on a farm for farming purposes.

(3) If trucks or other vehicles are used both on and off the farm, an allocation of gasoline used in the vehicle will be required to show separately the number of gallons of gasoline used on a farm for farming purposes in respect of which the claim is made.

(4) If the owner, tenant, or operator is entitled under section 6420(c)(4)(A) to claim credit or payment in respect of gasoline used on the person's farm by another person other than an owner, tenant, or operator of the farm for a purpose described in section 6420(c)(3)(A) and §48.6420-4(d), the claimant must have records showing (i) the name and address of the person who performed the farming operation, (ii) a description of the type of work (such as plowing, threshing, combining, etc.) and the type of equipment used, (iii) the date or dates on which the work was done, and (iv) the number of gallons of gasoline so used on the claimant's farm.

(c) *Place and period for keeping records.* (1) All records required by this section must be kept by the claimant at a convenient and safe location within the United States which is accessible to internal revenue officers and shall during normal business hours be available for inspection by internal revenue officers. If the claimant has a principal place of business in the United States, the records must be kept at that place of business.

(2) Records required to substantiate a claim under section 6420 must be maintained for a period of at least 3 years from the last date prescribed for the filing of the claim for credit or payment.

§48.64220-7 Cross references.

(a) *Gasoline used by local transit systems or for certain nonhighway purposes other than farming.* For provisions with respect to payments to the ultimate purchaser of gasoline used for certain nonhighway purposes (other than farming) or by local transit systems, see section 6421 and the regulations thereunder.

(b) *Diesel fuel and special motor*

fuels used on a farm for farming purposes. For provisions with respect to exemption from tax in the case of diesel fuel and special motor fuels used on a farm for farming purposes, see section 4041(f) and the regulations thereunder. For credit or payment in respect of special fuels used after June 30, 1970, for farming purposes, see section 6427(c) and §48.6427-1.

Par. 34. Sections 48.6421(a)-1, 48.6421(b)-1, 48.6421(c)-1, 48.6421(d)-1, 48.6421(e)-1, 48.6421(f)-1 and 48.6421(g)-1 are removed and the following new §§48.6421-0, 48.6421-1, 48.6421-2, 48.6421-3, 48.6421-4, 48.6421-5, 48.6421-6, and 48.6421-7 are added immediately after §48.6420-7.

§48.6421-0 Off-highway business use.

For purposes of the regulations under section 6421, after March 31, 1983, the term "off-highway business use" is used in lieu of the term "qualified business use" and has the same meaning as "qualified business use" under §48.6421-4(b).

(a) *In general.* (1) If gasoline is used in qualified business use or as fuel in an aircraft (other than aircraft in noncommercial aviation), a credit (under the circumstances described in paragraph (b) of this section) or a payment (under the circumstances described in paragraph (c) of this section) in respect of the gasoline shall be allowed or made to the ultimate purchaser of the gasoline. For gasoline used in a qualified business use prior to April 1, 1983, the credit or payment under this section shall be an amount equal to 1 cent for each gallon of gasoline so used on which the tax was paid at the rate of 3 cents a gallon, and 2 cents for each gallon of gasoline so used on which the tax war paid at the rate of 4 cents a gallon. For gasoline used in an off-highway business use after March 31, 1983, the credit or payment under this section shall be an amount equal to the amount determined by multiplying the number of gallons so used by the rate at which tax was imposed on such gasoline under section 4081. For gasoline used as a fuel in a aircraft (other than aircraft in noncommercial aviation) the credit or payment under this section shall be an amount equal to the amount determined by multiplying the number of gallons so used by the rate at which tax was imposed on the gasoline under section 4081. No interest shall be paid on any payment allowed under paragraph (c) of this section. However, interest may be paid on any overpayment (as defined by section 6401) arising from a credit allowed under paragraph (b) of this section. See section 34(a), relating to credit for certain uses of gasoline and special fuel and lubricating oil used prior to January 7, 1983. See §48.6421-3 for the time within which a claim for credit or payment must be made under this section. See §48.6421-4 for the meaning of the terms "gasoline," "qualified business use," "noncommercial aviation," and "taxable year."

(2) For purposes of determining the allowable credit or payment in respect of gasoline used in a qualified business use or as fuel in an aircraft (other than aircraft in noncommercial aviation); gasoline on hand shall be considered used in the order in which it was purchased. Thus, if the ultimate purchaser has on hand gasoline acquired in two purchases made at different times and subject to different rates of tax, in determining credit or payment for the gasoline used in a qualified business use or as fuel in an Aircraft (other than aircraft in noncommercial aviation), it will be assumed that the gasoline first purchased was the first gasoline used, and the rate applicable to that purchase will apply in determining the credit or payment, until all that gasoline is accounted for.

(b) *Allowance of income tax credit in lieu of payment.* Except as provided in paragraph (c) of this section, repayment under this section of the tax paid under section 4081 on gasoline used in a qualified business use or as a fuel in an aircraft (other than aircraft in noncommercial aviation) by a person subject to income tax may be obtained only by claiming a credit for the amount of this tax against the tax imposed by subtitle A of the code. The amount of the credit shall be an amount equal to the payment which would be made under section 6421 with respect to gasoline used during the taxable year in a qualified business use or as a fuel in an aircraft (other than aircraft in noncommercial aviation) if section 6421(i) and paragraph (c) of this section did not apply. See section 34(a)92).

(c) *Allowance of payment.* Payments in respect of gasoline upon which tax was paid under section 4081 that is used in a qualified business use or as a fuel in an aircraft (other than aircraft in noncommercial aviation) shall be made only to—

(1) The United States or any agency or instrumentality thereof, a State, a political subdivision of a State, or an agency or instrumentality of one or more State political subdivisions of a State, or the District of Columbia.

(2) An organization which is exempt from tax under section 501(a) and is not required to make a return of the income tax imposed under subtitle A for its taxable year, or

(3) A person described in section 6421(c)(2) to whom $1,000 or more is payable (without regard to paragraph (b) of this section) under this section with respect to gasoline used during any of the first three quarters of the person's taxable year.

(d) *Dual use of gasoline.* (1) No credit or payment may be claimed in respect of gasoline used in a highway vehicle used in a trade or business or for the production of income solely by reason of the fact that the propulsion motor in the vehicle is also used for a purpose other than the propulsion of the vehicle. Thus, if the propulsion motor of a highway vehicle (used in a trade or business or for the production of income) also operates special equipment, such as a mixing unit on a concrete mixer truck or a pump for discharging fuel from a tank truck, by means of a power takeoff or power transfer, no credit or payment may be claimed in respect of the gasoline used to operate the special equipment, even though the special equipment is mounted on the highway vehicle.

(2) If a highway vehicle is equipped with a separate motor to operate the special equipment used in a trade or business or for the production of income, such as a refrigeration unit, pump, generator, or mixing unit, credit or payment may be claimed in respect of the gasoline used in the separate motor.

(3) If gasoline used in a separate motor is drawn from the same tank as the one which supplies gasoline for the propulsion of the highway vehicle, the

determination as to the quantity of gasoline used in the separate motor operating the special equipment must be based on operating experience and supported by records.

(4) Devices to measure the number of miles the highway vehicle has traveled, such as hubometers, may be used in making a preliminary determination of the number of gallons of gasoline used to propel the vehicle. In order to make a final determination of the number of gallons of gasoline used to propel the vehicle, there must be added to this preliminary determination the number of gallons of gasoline consumed while idling or warming up the motor preparatory to propelling the vehicle.

(e) *Gasoline lost or destroyed.* Gasoline lost or destroyed through spillage, fire, or other casualty is not considered to have been "used" in a qualified business use or as fuel in an aircraft (other than aircraft in noncommercial aviation) and, accordingly, credit or payment in respect of the gasoline may not be claimed.

(f) *Supporting evidence required.* Each claim under this section for credit or payment must include a statement showing—

(1) The total number of gallons of gasoline purchased and used during the period covered by the claim in a qualified business use multiplied by the rate of payment allowable in respect of the gasoline. (For the rate of payment allowable, see paragraph (a)(1) of this section.)

(2) The total number of gallons of gasoline purchased and used during the period covered by the claim for use as fuel in an aircraft (other than aircraft in noncommercial aviation) multiplied by the rate of payment allowable in respect of the gasoline.

(3) The purpose or purposes for which the gasoline was used, determined by reference to general categories, and the amount used for each purpose; and

(4) If a claim on Form 843 is being filed, the internal revenue district or service center with which the claimant last filed an income tax return (if any).

§48.6421-2 Credits or payments to ultimate purchasers of gasoline used in intercity, local, or school buses.

(a) *In general.* If gasoline is used in an intercity or local bus while engaged in furnishing (for compensation) passenger land transportation available to the general public or in a school bus engaged in the transportation of students or employees of schools, a credit (under the circumstances described in paragraph (b) of this section) or a payment (under the circumstances described in paragraph (c) of this section) in respect to the gasoline shall be allowed or made to the ultimate purchaser of the gasoline. The credit or payment under this section shall be an amount equal to the product of the number of gallons of gasoline so used multiplied by the rate at which tax was imposed on the gasoline by section 4081. No interest shall be paid on any payment allowed under paragraph (c) of this section. However, interest may be paid on an overpayment (as defined by section 6401) arising from a credit allowed under paragraph (b) of this section. See section 34(a) relating to credit for certain uses of gasoline and special fuels, (and lubricating oil used prior to January 7, 1983). See §48.6421-3 for the time within which a claim for credit or payment must be made under this section. See §48.6421-4 for the meaning of "gasoline." See section 4221(d)(7) and the regulations thereunder for the definition of "intercity bus," "local bus" and "school bus."

(b) *Allowance of income tax credit.* Except as provided in paragraph (c) of this section, repayment under this section of the tax paid under section 4081 of gasoline used while engaged in furnishing (for compensation) passenger land transportation available to the general public or in school bus transportation operations by a person subject to income tax may be obtained only by claiming a credit for the amount of this tax against the tax imposed by subtitle A of the Code. The amount of the credit shall be an amount equal to the payment which would be made under section 6421 with respect to gasoline used during the taxable year for this passenger land transportation or school bus operations if section 6421(i) and paragraph (c) of this section did not apply. See section 34(a)(2).

(c) *Allowance of payment.* Payments in respect of gasoline upon which tax was paid under section 4081 that is used while engaged in furnishing (for compensation) passenger land transportation available to the general public or in school bus transportation operations shall be made only to—

(1) The United States or any agency or instrumentality thereof, a State, or political subdivision of a State, or an agency or instrumentality of one of more States or political subdivisions of a State, or the District of Columbia.

(2) An organization which is exempt from tax under section 501(a) and is not required to make a return of the income tax imposed under subtitle A for its taxable year, or

(3) A person described in section 6421(c)(2) to whom $1,000 or more is payable (without regard to paragraph (b) of this section) under this section with respect to gasoline used during any of the first three quarters of the person's taxable year.

(d) *Supporting evidence required.* Each claim under this section for credit or payment must include a statement showing—

(1) The total number of gallons of gasoline purchased and used during the period covered by the claim for each intercity or local bus while engaged in furnishing (for compensation) passenger land transportation available to the general public multiplied by the rate at which tax was imposed on the gasoline by section 4081.

(2) The total number of gallons of gasoline purchased and used in each bus while engaged in school bus transportation operations multiplied by the rate at which tax was imposed on the gasoline by section 4081, and

(3) If a claim on Form 843 is being filed, the internal revenue district or service center with which the claimant last filed an income tax return (if any).

§§48.6421-3 Time for filling claim for credit or payment.

(a) *In general.* A claim for credit or payment described in §48.6421-1 with respect to gasoline used in a qualified business use or as a fuel in an aircraft (other than aircraft in noncommercial avaiation) or in §48.6421-2 with respect to gasoline used either in an intercity or local bus while engaged in furnishing (for compensation) passenger land transportation available to the general public or in school bus transportation operations, shall cover only gasoline used during the taxable year,

or when paragraph (b)(2) of this section applies, gasoline used during the calendar quarter. Therefore, gasoline on hand at the end of a taxable year, or, if applicable, a calendar quarter, such as gasoline in fuel supply tanks of vehicles or in storage tanks or drums, must be excluded from a claim filed for the taxable year or calendar quarter, as the case may be. However, this gasoline may be included in a claim filed for a later taxable year or a later calendar quarter if it is used during that later year or quarter in a qualified business use, as fuel in an aircraft (other than aircraft in noncommercial aviation), or in intercity, local, or school buses. Gasoline used during the taxable year or calendar quarter may be covered by the claim for that period although the gasoline was not paid for at the time the claim is filed. For purposes of applying this section, a governmental unit or exempt organization described in §48.6421-1(c) or §48.6421-2(c) is considered to have as its taxable year, the calendar year or fiscal year on the basis of which it regularly keeps its books; see §48.6421-(g).

(b) *Time for filing*—(1) *Annual claims.* (i) A claim under this section for credit or payment with respect to gasoline shall not be allowed unless it is filed no later than the time prescribed by section 6511 and the regulations thereunder for filing a claim for credit or refund of income tax for the particular taxable year.

(ii) A claim for payment of a governmental unit or exempt organization described in §48.6421-1(c) or §48.6421-2(c) must be filed no later than 3 years following the close of its taxable year (see §48.6421-4).

(2) *Quarterly claims.* A claim for payment of $1,000 or more in respect of gasoline used during any of the first three quarters of the taxable year, filed either under§48.6421-1(c)(3) in respect of gasoline used in a qualified business use or as a fuel in an aircraft (other than aircraft used in noncommercial aviation) or under §48.6421-2(c)(3) in respect of gasoline used while engaged in furnishing (for compensation) passenger land transportation available to the general public or in school bus operations, shall not be allowed unless the claim is filed on or before the last day of the first calendar quarter following the calendar quarter for which the claim is filed. No quarterly claim may be filed for the last calendar quarter of the taxable year. Amounts for which payment is disallowed under this paragraph (b)(2) merely because the claim was not filed on time may be included in an annual claim filed under paragraph (b)(1) of this section, but other amounts for which a claim for payment has been filed under this paragraph (b)(2) may not be included in an annual claim filed under paragraph (b)(1) of this section.

(3) *Other applicable rules.* See §301.7502-1 of this chapter (Regulations on Procedure and Administration) for provisions treating timely mailing as timely filing and §301.7503-1 of this chapter for time for performance of an act where the last day falls on Saturday, Sunday, or a legal holiday.

(c) *Limit on claims per taxable year.* Not more than one claim may be filed under §48.6421-1 or §48.6421-2 by any person with respect to gasoline used during any taxable year, except to the extent that quarterly claims may be filed under paragraph (b)(2) of this section with respect to any calendar quarter (other than the last calendar quarter) of the taxable year.

(d) *Form and content of claim*—(1) *Claim for credit.* The claim for credit to which this section applies must be made by attaching a Form 4136 to the income tax return of an individual or a corporation. Form 4136 must be executed in accordance with the instructions prescribed for the preparation of the form. A partnership may not file Form 4136. When a partnership files Form 1065, U.S. Partnership Return of Income, it must include a statement showing how many gallons of gasoline are allocated to each partner and the use made of the gasoline.

(2) *Claim for payment.* The claim for payment to which this section applies must be made on Form 843 in accordance with the instructions prescribed for the preparation of the form. Each form must designate the taxable year, or calendar quarter, for which it is filed. The form must be filed with the same service center where the income tax return was last filed or, in the case of a governmental unit or exempt organization described in §48.6421-1(c) or §48.6421-2(c), with the service center for the internal revenue region in which the principal place of business or principal office of the claimant is located.

(3) *Death or termination.* (i) If an individual dies, or if a sole proprietorship, partnership, or corporation is terminated or liquidated, during the taxable year, the claim for credit or payment may be filed in respect of gasoline used during the short taxable year in the same manner as is provided for gasoline used in a full taxable year. Those months which constitute a quarter of a full taxable year will constitute the quarter of the short taxable year. For example, if a corporation using the calendar year is liquidated on September 30, 1982, and is entitled to $900 under §48.6421-1 in respect of gasoline used in a qualified business use for the calendar quarters ending June 30 and September 30, it may file a claim for payment in respect of the gasoline used during the calendar quarters ending June 30, and September 30, 1981, and take a credit of $900 on its income tax return for the short taxable year in respect of the gasoline used during the calendar quarter ending March 31, 1982.

(ii) A claim for payment on behalf of a decedent may be filed by the decedent's executor, administrator, or any other person charged with responsibility for the decenent's affairs. Such a claim must be accompanied by copies of the letters testamentary, letters of administration, or, in the case of a claim filed by other than the executor or administrator, the information called for in Form 1310 (Statement of person Claiming Refund Due a Deceased Taxpayer). The claim may cover only gasoline in respect of which the decedent would have been entitled to claim payment. For example, if an individual dies on July 15, 1982, prior to claiming payment under §48.6421-1 or $1,000 or more applicable to gasoline purchased and used in a qualified business use during the calendar quarter ending June 30, 1982, the decedent's executor or other legal representative may file a claim for payment covering that calendar quarter, and take the credit provided by section 39(a)(2) against the decedent's income tax on the income tax return for the short taxable year in respect of gasoline purchased by the

decedent and so used during the period from July 1, 1982, to July 15, 1982, the date of death.

(e) *Restrictions on claims for credit or payment.* Credits or payments are allowable only in respect of gasoline that was sold by the producer or importer in a transaction that was subject to tax under section 4081. For example, a State or local government may not file a claim with respect to any gasoline which it purchased tax free from the producer, even though the State or local government used the gasoline as a fuel for the purposes described in paragraph (a) of this section. Similarly, a governmental unit or tax-exempt organization that is the ultimate purchaser of gasoline may not file a claim for payment if it is known that another person is entitled to claim credit, payment, or refund with respect to the same gasoline. For example, a State or local government may not file a claim for payment if it has executed, or intends to execute, a written consent, or other documentation, to enable the producer to claim credit or refund for the tax that was paid. See, for example, §§48.6416(a)-3 and 48.6416(b)(2)-3(b)(1).

§48.6421-4 Meaning of terms.

For purposes of the regulations under section 6421, unless otherwise expressly indicated—

(a) *Gasoline.* The term "gasoline" has the same meaning given to such term by section 4082(b) and regulations thereunder.

(b) *Qualified business use.* (1) The term "qualified business use" means any use by a person in a trade or business of the person or in an activity of the person described in section 212 (relating to production of income) otherwise than as a fuel in a highway vehicle—

(i) That at the time of the use is registered, or is required to be registered, for highway use under the laws of any state, the District of Columbia, or a foreign country, or

(ii) That, in the case of a highway vehicles owned by the United States, is used on the highway. The term "qualified business use" does not include any use in a motorboat, other than a vessel used in the fisheries or whaling business. See paragraph (c) of this section for the definition of "highway vehicle." See paragraph (d) of this section for the definition of "highway."

(2) Any highway vehicle operated under a dealer's tag, license, or permit will be considered to be registered. A highway vehicle is not considered to be "registered" solely because there has been issued a special permit for operation of the vehicle at particular times and under specified conditions. However, a highway vehicle that is required to be registered and that is also issued a special permit for operation of the vehicle under specified conditions, such as carrying an oversize load, is still considered to be "registered."

(3) Nonbusiness, off-highway use of gasoline by such vehicles and equipment as minibikes, snowmobiles, power lawn mowers, chain saws, and other yard equipment does not qualify as gasoline used a qualified business use.

(4) Examples of gasoline used in a qualified business use include (i) gasoline used (in a trade or business or for the production of income) in stationary engines to operate pumps, generators, compressors, and power saws; (ii) gasoline used (in a trade or business or for the production of income) for cleaning purposes; (iii) gasoline used (in a trade or business or for the production of income) in forklift trucks, bulldozers, and earthmovers; and (iv) gasoline used by a nonhighway vehicle in connection with the trade or business of construction, mining or logging.

(5) *Illustration.* The application of this paragraph (b) may be illustrated by the following example.

Example. M Corporation, a logging company files its income tax return on the basis of the calendar year. During 1982, the company used 20,000 gallons of gasoline in its logging business. Of this amount, 12,000 gallons were used as fuel in registered highway vehicles which were operated both on the public highways and on the company's private roads. Of the remaining 8,000 gallons, 6,000 were used in nonhighway vehicles, such as tractors and bulldozers, and 2,000 gallons were used in highway vehicles, such as heavy trucks which, at the time of use, were neither registered nor required to be registered under state law for highway use by reason of being operated entirely on the company's property. As the ultimate purchaser, M may take a credit on its income tax return for 1982 under this section in respect of the 6,000 gallons used in the nonhighway vehicles and the 2,000 gallons used in the unregistered highway vehicles. However, no credit may be allowed with respect to the 12,000 gallons used in the registered highway vehicles even though a portion of this gasoline was used in operating the vehicles on the company's own property.

(c) *Highway vehicle.* The term "highway vehicle" has the same meaning assigned to this term under §48.4061(a)-1(d).

(d) *Highway.* The term "highway" includes any road, whether a Federal highway, State highway, city street, or otherwise, in the United States which is not a private roadway.

(e) *Noncommercial aviation.* The term "non-commercial aviation" has the same meaning given to such term by section 4041(c)(4).

(f) *Calendar quarter.* The term "calendar quarter" means a period of three calendar months ending on March 31, June 30, and September 30, or December 31.

(g) *Taxable year.* The "taxable year" of a governmental unit or tax-exempt organization described in §48.6421-1(c) or §48.6421-2(c) is the calendar or fiscal year on the basis of which it regularly keeps its books. The "taxable year" of persons subject to income tax shall have the meaning it has under section 7701(a)(23).

§48.6421-5 Exempt sales; other payments or refunds available.

(a) *Exempt sales.* No credit or payment shall be allowed or made under §48.6421-1 or §48.6421-2 with respect to gasoline which was exempt from the tax imposed by section 4081. For example, credit or payment may not be allowed or made with respect to gasoline purchased tax free for use as supplies for certain, vessels and airplanes, or with respect to gasoline purchased by a State tax free for its exclusive use, as provided in section 4221.

(b) *Other payments or refunds available.* Any amount which, without regard to the second sentence of section 6421(e)(1) and this paragraph (b), would be allowable as a credit or payable to any person under §48.6421-1 or §48.6421-2 is reduced by any other amount which is allowable as a credit or payable under section 6421, or is refundable under any other provision of the Code, to any person with respect to the same gasoline.

(c) *Gasoline used on farms.* Payments with respect to gasoline used on a farm for farming purposes shall be claimed under section 6420 and §48.6420-1, and no claim in respect of

that gasoline may be made under section 6421 and the regulations thereunder.

§48.6421-6 Applicable laws.

(a) *Penalties, excessive claims, etc.* All provisions of law, including penalties, applicable in respect of the tax imposed by section 4081 shall, to the extent applicable and consistent with section 6421, apply in respect of the payments provided for in section 6421 to the same extent as if these payments were refunds of overpayments of the tax imposed on the sale of gasoline by section 4081. For special rules applicable to the assesment and collection of amount constituting excessive payments under section 6421, see section 6206 and the regulations thereunder. For the civil penalty assessable in the case of excessive claims under section 6421, see section 6675 and the regulations thereunder. For the treatment as an overpayment of an amount allowable as an excessive credit under section 34 (section 39 of the Internal Revenue Code of 1954 prior to its revision by the Tax Reform Act of 1984) with respect to amounts payable under section 6421, see section 6401(b).

(b) *Examination of books and witnesses.* For the purpose of ascertaining (1) the correctness of any claim made under section 6421 or (2) the correctness of any credit or payment made in respect of the claim, the Commissioner shall have the same authority granted by paragraphs (1), (2), and (3) of section 7602, relating to examination of books and witnesses, at if the person claiming credits or payment under section 6421 were the person liable for tax.

§48.6421-7 Records to be kept in substantiation of credits or payments.

(a) *In general.* Every person making a claim for credit or payment under section 6421 must keep records sufficent to enable the district director to determine whether the person is entitled to credit or payment under section 6421 and, if so, the amount of the credit or payment. No particular form is prescribed for keeping the records, but the records must include a copy of any statement or document submitted with the return or claim. The records must also show with respect to the period covered by the claim—

(1) The number of gallons of gasoline purchased and the dates of purchase,

(2) The name and address of each vendor from whom gasoline was purchased and the total number of gallons purchased from each.

(3) The number of gallons of gasoline purchased by the claimant and used during the period covered by the claim for nonhighway purposes or in intercity, local or school buses.

(4) Other information as necessary to establish the correctness of the claim.

(b) *Acceptable records.* (1) Evidence of purchases of gasoline, and the purposes for which it was used, to substantiate claims may include paid duplicate sales invoices or tickets from the gasoline dealer or other vendor,and detailed records of all fuel used which show the amount used for the prescribed purpose and the amount used for other purposes.

(2) Records maintained for Federal or State income tax purposes, or to support claims for refund of a State tax on gasoline, may be used to the extent that they contain the information necessary to substantiate the accuracy of the claim for credit under section 6421. However, the records must show separately the number of gallons of gasoline used for nonhighway purposes or in intercity, local, or school buses during the period covered by the claim.

(c) *Place and period of keeping records.* (1) All records required by this section must be kept by the claimant at a convenient and safe location within the United States which is accessible to internal revenue officers and shall during normal business hours be available for inspection by internal revenue officers. If the claimant has a principal place of business in the United States, the records must be kept at that place of business.

(2) Records required to substantiate a claim under section 6421 must be maintained for a period of at least 3 years from the last date prescribed for the filing of the claim for credit or payment.

Par. 35. The following new §§48.6424-0, 48.6424-1, 48.6424-2, 48.6424-3, 48.6424-4, 48.6424-5, and 48.6424-6 are added immediately following §48.6421-7.

§48.6424-0 Effective date.

All references in section 6424 apply to uses prior to January 7, 1983.

48.6424-1 Credits or payments to ultimate purchaser of lubricating oil used in a qualified business use or in a qualified bus.

(a) *In general.* If lubrication oil (other than cutting oils, as defined in section 4092 (b) and other than previously used oil) is used prior to January 7, 1983, in a qualified business use or in a qualified bus, a credit (under the circumstances described in paragraph (b) of this section) or a payment (under the circumstances described in paragraph (c) of this section) in respect of the lubricating oil shall be allowed or made to the ultimate purchaser of the lubricating oil in an amount equal to 6 cents for each gallon of lubricating oil so used on which tax was paid under section 4091. No interest shall be paid on any payment allowed under paragraph (c) of this section. However, interest may be paid on a overpayment (as defined by section 6401) of tax arising from a credit allowed under paragraph (b) of this section. See section 30(a) (prior to its revision by the Tax Reform Act of 1984). relating to credit for certain uses of gasoline, special fuels, and lubricating oil. See §48.6424-2 for the time within which a claim for credit or payment must be made under this section. See §48.6424-3 for the meaning of the terms "lubricating oil," "use in a qualified business use" "qualified bus," "calendar year," and "taxable year."

(b) *Allowance of income tax credit in lieu of payment.* Except as provided in paragraph (c) of this section, repayment under this section of the tax paid under section 4091 on lubricating oil used in a qualified business use or in a qualified bus by a person subject to income tax may be obtained only by claiming a credit for the amount of this tax against the tax imposed by subtitle A of the Code. The amount of the credit shall be an amount equal to the payment which would be made under section 6242 with respect to lubricating oil used dur-

ing the taxable year in a qualified business use or in a qualified bus if section 6424(f) and paragraph (c) of this section did not apply. See section 39(a)(3) (prior to its revision by the Tax Reform Act of 1984).

(c) *Allowance of payment.* Payments in respect of lubricating oil upon which tax was paid under section 4091 that is used in a qualified business use or a qualified bus shall be made only to—

(1) The United States or any agency or instrumentality thereof, a State, a political subdivision of a State, or an agency or instrumentality of one or more States or political subdivisions of a State, or the District of Columbia,

(2) An organization which is exempt from tax under section 501(a) and is not required to make a return of the income tax imposed under subtitle A for its taxable year, or

(3) A person described in section 6424(b)(2) to whom $1,000 or more is payable (without regard to paragraph (b) of this section) under this section with respect to lubricating oil used during any of the first three quarters of the person's taxable year.

(d) *Uses which qualify for credit or payment.* The use contemplated by section 6424 is a use of lubricating oil (previously unused) through which the oil is consumed or rendered unfit for further use as a lubricant or for sale as a lubricant. If previously unused lubricating oil is blended or mixed with previously used lubricating oil which has been reclaimed or rerefined, the unused oil is considered to have lost its identity and the resulting product will be treated as previously used. Thus, no credit or payment will be allowed under this section with respect to the use of such blended lubricating oil regardless of how this mixture is eventually used.

(e) *Dual use of lubricating oil.* (1) No credit or payment may be claimed in respect of lubricating oil used as a lubricant in a highway vehicle used in a trade or business or for the production of income solely by reason of the fact that the propulsion motor in the vehicle is also used for a purpose other than the propulsion of the vehicle. Thus, if the propulsion motor of a highway vehicle (used in a trade or business or for the production of income) also operates special equipment, such as a mixing unit on a concrete mixer truck, by means of a power takeoff or power transfer, no credit or payment may be claimed in respect of the lubricating oil used to operate the special equipment, even through the special equipment is mounted on the highway vehicle.

(2) If a highway vehicle is equipped with a separate motor to operate special equipment (used in a trade or business or for the production of income) such as a refrigeration unit, pump, generator, or mixing unit, the credit or payment may be claimed in respect of the lubricating oil used in the separate motor.

(f) *Lubricating oil lost or destroyed.* Lubricating oil lost or destroyed through spillage, fire, or other casualty is not considered to have been "used" in a qualified business use or in a qualified bus and, accordingly, credit or payment in respect of this lubricating oil may not be claimed.

(g) *Supporting evidence required.* Each claim under this section for credit or payment must include a statement showing—

(1) The total number of gallons of lubricating oil purchased and used in a qualified business or in a qualified bus during the period covered by the claim, multiplied by 6 cents;

(2) The purpose or purposes for which the lubricating oil was used, detemined by reference to general categories, and the amount used for each purpose; and

(3) If a claim on Form 843 is being filed, the internal revenue district or service center with which the claimant last filed an income tax return, if any.

§48.6424-2 Time for filing claim for credit or payment.

(a) *In general.* A claim for credit or payment described in §48.6424-1 with respect to lubricating oil used in a qualified business use or in a qualified bus shall cover only lubricating oil used during the taxable year, or when paragraph (b)(2) of this section applies, used during the clendar quarter, for these purposes. Therefore, lubricating oil on hand at the end of a taxable year, or, if applicable, a calendar quarter, such as lubricating oil in storage tanks or drums, must be excluded from a claim filed for the taxable year or calendar quarter, as the case may be. However, this lubricating oil may be included in a claim filed for a later taxable year or a later calendar quarter if it is used during that later year or quarter in a qualified business or in a qualified bus. Lubricating oil used during the taxable year or calendar quarter may be covered by the claim for that period although the lubricating oil was not paid for at the time the claim is filed. For purposes of applying this section, a governmental unit or exempt organization described in §48.6424-1(c) is considered to have as its taxable year, the calendar year or fiscal year on the basis of which it regularly keeps its books. See §48.6424-3(g).

(b) *Time for filing*—(1) *Annual claims.* (i) A claim under this section for credit or payment with respect to lubricating oil used during a taxable year, shall not be allowed unless it is filed no later than the time prescribed by section 6511 and the regulations thereunder for filing a claim for credit or refund of income tax for the particular taxable year.

(ii) A claim for payment of a governmental unit or exempt organization described in §48.6424-1(c) must be filed no later than 3 years following the close of its taxable year. See §48.64224-3(f).

(2) *Quarterly claims.* A claim for payment of $1,000 or more in respect of lubricating oil used during any of the first three quarters of the taxable year, filed under §48.6424-1(c)(3) in respect of lubricating oil used in a qualified business use or in a qualified bus, shall not be allowed unless the claim is filed on or before the last day of the first calendar quarter following the calendar quarter for which the claim is filed. No quarterly claim may be filed for the last calendar quarter of the taxable year. Amounts for which payment is disallowed under this paragraph (b)(2) merely because the claim was not filed on time may be included in an annual claim filed under paragraph (b)(1) of this section but other amounts for which a claim for payment has been filed under his paragraph (b)(2) may not be included in an annual claim filed under paragraph (b)(1) of this section.

(3) *Other applicable rules.* See §301.7502-1 of this chapter (Regulations on Procedure and Administration) for provisions treating timely mailing as timely filing and §301.7503-1 of this

chapter for time for performance of an act where the last day falls on Saturday, Sunday, or a legal holiday.

(c) *Limit on claims per taxable year.* Not more than one claim may be filed under §48.6424-1 by any person with respect to lubricating oil used during any taxable year, except to the extent that quarterly claims may be filed under paragraph (b)(2) of this section with respect to any calendar quarter (other than the last calendar quarter) of the taxable year.

(d) *Form and content of claim*—(1) *Claim for credit.* The claim for credit to which this section applies must be made by attaching a Form 4136 to the income tax return of an individual or a corporation. Form 4136 must be executed in accordance with the instructions prescribed for the preparation of the form. A partnership may not file Form 4136. When a partnership files Form 1065, U.S. Partnership Return of Income, it must include a statement showing how many gallons of lubricating oil are allocated to each partner and the use made of the lubricating oil.

(2) *Claim for payment.* The claim for payment to which this section applies must be made on Form 843 in accordance with the instructions prescribed for the preparation of the form. Each form must designate the taxable year, or calendar quarter, for which it is filed. The form must be filed with the same service center where the income tax return was last filed or, in the case of a governmental unit or exempt organization described in §48.6424-1(c) with the service center for the internal revenue region in which the principal place of business of principal office of the claimant is located.

(3) *Death or termination.* (i) If an individual dies, or if a sole proprietorship, partnership, or corporation is terminated or liquidated, during the taxable year, the claim for credit or payment may be filed in respect of lubricating oil used during the short taxable year in the same manner as is provided for lubricating oil used in a full taxable year. Those months which constitute a quarter of a full taxable year will constitute the same quarter of the short taxable year. For example, if a corporation using the calendar year is liquidated on September 30, 1982, and is entitled to $900 under §48.6424-1 in respect of lubricating oil used in a qualified business use of in a qualified bus for the calendar quarter ending March 31 and is also entitled to payments of $1,500 for each of the calendar quarters ending June 30 and September 30, it may file a claim for payment in respect of the lubricating oil used during the calendar quarters ending June 30, and September 30, 1982, and take a credit of $900 on the corporation's income tax return for the short taxable year in respect of the lubricating oil used during the calendar quarter ending March 31, 1982.

(ii) A claim for payment on behalf of a decedent may be filed by the decedent's executor, administrator, or any other person charged with responsibility for the decedent's affairs. Such a claim must be accompanied by copies of the letters testamentary, letters of administration, or, in the case of a claim filed by other than the executor or administrator, the information called for in Form 1310 (Statement of Person Claiming Refund Due a Deceased Taxpayer). The claim may cover only lubricating oil in respect of which the decedent would have been entitled to claim payment. For example, if an individual dies on July 15, 1982, prior to claiming payment under §48.6424-1 of $1,000 or more applicable to lubricating oil purchased and used in a qualified business use during the calendar quarter ending June 30, 1982, the decedent's executor or other legal representative may file a claim for payment covering that calendar quarter, and take the credit provided by section 39(a)(3) (prior to its revision by the Tax Reform Act of 1984) against the decedent's income tax on the income tax return for the short taxable year in respect of lubricating oil purchased by the decedent and so used during the period from July 1, 1982, to July 15, 1982, the date of death.

(e) *Restrictions on claims for credit or payment.* Credits or payments are allowable only in respect of lubricating oil that was sold by the manufacturer in a transaction that was subject to tax under section 4091. For example, a State or local government may not file a claim with respect to any lubricating oil which it purchased tax free from the manufacturer, even though the State or local government used the lubricating oil in a qualified business use or in a qualified bus. Similarly, a governmental unit or tax-exempt organization that is the ultimate purchaser of lubricating oil may not file a claim for payment of it if it is known that another person is entitled to claim a credit, payment, or refund with respect to the same lubricating oil. For example, a State or local government may not file a claim for payment if it has executed, or intends to execute, a written consent, or other documentation, to enable the producer to claim a credit or refund for the tax that was paid. See, for example, §§48.6416(a)-3(b)(2), 48.6416(b)(2)-2(d), and 48.6416(b)(2)-3(b)(1).

§48.6424-3 Meaning of terms

For purposes of the regulations under section 6424, unless otherwise expressly indicated—

(a) *Lubricating oil.* The term "lubricating oil" has the same meaning given to this term by the regulations under section 4091. It does not include cutting oil, as defined in section 4092(b) and the regulations thereunder, or any oil which has previously been used.

(b) *Qualified business use.* The term "qualified business use" means any use by a person in a trade or business of such person or in an activity of the person described in section 212 (relating to production of income).

Qualified business use does not include:

(1) use in a highway vehicle which is registered or required to be registered for highway use in any State or foreign country,

(2) use on the highway in a highway vehicle owned by the United States or

(3) use in a motor boat.

Lubricating oil in respect of which credit or payment may be claimed under section 6424 includes, for example, previously unused lubricating oil used—

(i) In stationary engines (used in a trade or business or for the production of income) to operate pumps, generators, compressors, or power saws; or

(ii) In forklift trucks, bulldozers, earthmovers, trench diggers, road graders, farm tractors, cotton pickers, and other motorized agricultural equipment of similar nature, if used in a trade or

business or for the production of income.

(c) *Qualified bus.* The term "qualified bus" has the same meaning assigned to this term by section 4221(d)(7) and the regulations thereunder.

(d) *Highway vehicle.* The term "highway vehicle" has the same meaning assigned to this term under §48.4061(a)-1(d).

(e) *Highway.* The term "highway" includes any road, whether a Federal highway, State highway, city, street, or otherwise, in the United States which is not a private roadway.

(f) *Calendar quarter.* The term "calendar quarter" means a period of three calendar months ending March 31, June 30, September 30, or December 31.

(g) *Taxable year.* The "taxable year" of a governmental unit or a tax-exempt organization described in §48.6424-1(c) is the calendar or fiscal year on the basis of which it regularly keeps its books. The "taxable year" of persons subject to income tax shall have the meaning it has under section 7701(a)(23).

§48.6424-4 Exempt sales; other payments or refunds available.

(a) *Exempt sales.* No credit or payment shall be allowed or made under §48.6424-1 with respect to lubricating oil which was exempt from the tax imposed by section 4091. For example credit or payment may not be allowed or made with respect to lubricating oil purchased tax free for use as supplies for certain vessels and airplanes, or with respect to lubricating oil purchased by a State tax free for its exclusive use, as provided in section 4221.

(b) *Other payments or refunds available.* Any amounts which, without regard to the second sentence of section 6424(c) and this paragraph (b), would be allowable as a credit or payable to any person under §48.6424-1 is reduced by any other amount which is allowable as a credit or payable under section 6424, or is refundable under any other provision of the Code, to any person with respect to the same lubricating oil.

§48.6424-5 Applicable laws.

(a) *Penalties, excessive claims, etc.* All provisions of law, including penalties, applicable in respect of the tax imposed by section 4091 shall, to the extent applicable and consistent with section 6424, apply in respect of the payments provided for in section 6424 to the same extent as if these payments were refunds of overpayments of the tax imposed on the sale of lubricating oil by section 4091. For special rules applicable to the assessment and collection of amounts constituting excessive payments under section 6424, see section 6206 and the regulations thereunder. For the treatment as an overpayment of an amount allowable as an excessive credit under section 39 with respect to amounts payable under section 6424, see section 6401(b).

(b) *Examination of books and witnesses.* For the purpose of ascertaining (1) the correctness of any claim made under section 6424 or (2) the correctness of any credit or payment made in respect of the claim, the Commissioner shall have the same authority granted by paragraphs (1), (2), and (3) of section 7602, relating to examination of books and witnesses, as if the person claiming credit or payment under section 6424 were the person liable for tax.

§48.6424-6 Records to be kept in substantiation of credit or payments.

(a) *In general.* Every person making a claim for credit or payment under section 6424 must keep records sufficient to enable the district director to determine whether the person is entitled to credit or payment under section 6424 and, if so, the amount of the credit or payment. No particular form is prescribed for keeping the records, but the records must include a copy of the income tax return or claim and a copy of any statement or document submitted with the return or claim. The records must also show with respect to the period covered by the claim—

(1) The number of gallons of lubricating oil purchased and the dates of purchase.

(2) The name and address of each vendor from whom lubricating oil was purchased and the total number of gallons purchased from each,

(3) The number of gallons of lubricating oil purchased by the claimant and used, during the period covered by the claim in a qualified business use or in a qualified bus, and

(4) Other information as nec
establish the correctness of the

(b) *Acceptable records.* (1) I
of purchases of lubricating oil,
purposes for which it was used
stantiate claims may include pa
cate sales invoices or tickets
dealer or other vendor, and
records of all lubricating oil use
show the amount used for
scribed purpose and the amo
for other purposes.

(2) Records maintained for
or State income tax purposes, o
port claims for refund of a Stat
lubricating oil, may be used t
tent that they contain the info
necessary to substantiate the
of the claim for credit under
6424.

(c) *Place and period for keep
ords.* (1) All records required
section must be kept by the cla
a convenient and safe locatio
the United States which is acce
internal revenue officers and s
ing normal business hours be
for inspection by internal reve
cers. If the claimant has a p
place of business in the Unite
the records must be kept at th
of business.

(2) Records required to subst
claim under section 6424
maintained for a period of a
years from the last date presc
the filing of the claim for c
payment.

Par. 36. The following §§48
48.6427-1, 48.6427-2, 48.
48.6427-4 and 48.6427-5 are a
mediately following new §48.

§48.6427-0 Off-highway busi
For purposes of the regulatio
section 6427, after March 3
the term "off-highway busi
is used in lieu of the term "
business use" and has th
meaning as "qualified busi
under §48.6421-1(b).

§48.6427-1 Credit or paym
purchaser of special fuels re
used for nontaxable, farm
other purposes.

(a) *Amount of repayme
Nontaxable or other uses.* (i) If
been paid under section 4041(
the sale of diesel fuel for use a

in a diesel-powered highway vehicle or under section 4041(a)(2) on the sale of special motor fuel for use as a fuel in a motor vehicle or a motorboat and the fuel is used by the purchaser for a nontaxable purpose or for a purpose taxable at a lower rate than the purposes for which sold, a credit (under the circumstances described in paragraph (b) of this section) or a payment (under the circumstances described in paragraph (c) of this section) in respect of the fuel shall be allowed or made to the purchaser of the fuel in an amount equal to—

(A) The amount of the tax imposed on the sale of the fuel to the purchaser if the purchaser resells the fuel, or

(B) If the purchaser uses the fuel, the amount of tax imposed on the sale of the fuel to the purchaser, less the amount of tax, if any, that would have been imposed on the purchaser's use of the fuel if no tax had been imposed on the sale of the fuel to the purchaser.

(ii) For purposes of paragraph (a)(1)(i) of this section, and for the regulations under section 6427 applying such paragraph, tax imposed on the sale of fuel will be treated as an overpayment by the purchaser if the person resells the fuel or uses it for a nontaxable purpose or for a purpose taxable at a lower rate than that for which sold to the purchaser. Thus, for example, special motor fuel which was sold tax paid to the purchaser for use otherwise than in a qualified business use in a motor vehicle will qualify for the payment under section 6427 if the purchaser uses it as a fuel in a qualified business use.

(2) *Used for farming purposes.* (i) If tax has been paid under section 4041(a)(1) on the sale of diesel fuel for use as a fuel in a diesel-powered highway vehicle, or under section 4041(a)(2) on the sale of special motor fuel for use as a fuel in a motor vehicle or a motor boat and the fuel is used on a farm for farming purposes, a credit (under the circumstances described in paragraph (b) of this section) or a payment (under the circumstances described in paragraph (c)(1) or (2) of this section) in respect of the fuel shall be allowed or made to the purchaser of the fuel in an amount equal to the amount of tax that was imposed under section 4041 on the sale of the fuel. The provisions of section 6420(c)(1), (2), and (3) and §48.6420-4 shall apply under this paragraph (a)(2) in determining whether the fuel is used on a farm for farming purposes.

(ii) The term "purchaser," as used in paragraph (a)(2)(i) of this section, includes only a person who is an owner, tenant, or operator of a farm. A person who is owner, tenant, or operator of a farm is a purchaser of fuel only with respect to such fuel as is purchased by the person and used for farming purposes on a farm of which the person is the owner, tenant, or operator. Thus the owner of a farm who purchases fuel which is used on the farm by its owner, tenant, or operator for farming purposes is generally the purchaser of the fuel. If, however, the cost of fuel supplied by an owner, tenant, or operator of a farm, is by agreement or other arrangement borne by a second person who is an owner, tenant, or operator of the farm, the second person who bore the cost of the fuel is considered to be the purchaser of the fuel.

(iii) Except as provided in paragraph (a)(2)(iv) of this section, if fuel is used or a farm by any person other than the owner, tenant, or operator for the purposes described in section 6420(c)(3)(A) and §48.6420-4(d) (relating to gasoline used in cultivating, raising, or harvesting), the owner, tenant, or operator (as the case may be) will be treated for the purposes of §48.6427-1(a)(2)(i) as the purchaser who used the fuel on the farm for farming purposes.

(iv) Section 6427(c) provides that an aerial applicator is entitled to be treated as the user and ultimate purchaser of fuel that the applicator uses on a farm for the purposes described in section 6420(c)(3)(A), but only if the owner, tenant, or operator of the farm who is otherwise entitled to be treated as the ultimate purchaser waives the right to credit or payment. The rules contained in section 6420 and the regulations under the section regarding waivers by owners, tenants, and operators of farms of their rights to payments under section 6420 for gasoline used by aerial applicators on a farm for farming purposes apply to waivers under this section.

(3) *Definitions, uses, and other rules.* (i) No interest shall be paid on any payment allowed under paragraph (c) of this section. However, interest may be paid on any overpayment (as defined by section 6401) arising from a credit. See section 34(a), relating to credit for certain uses of gasoline and special fuels. See section 39(a) of the Internal Revenue Code of 1954 prior to its revision by the Highway Revenue Act of 1982, relating to credit for certain uses of lubricating oil. See section 6611, relating to interest on overpayments.

(ii) See §48.6427-3 for the time within which a claim for credit or payment must be made under this section.

(iii) See §48.6420-4 for the meaning of the terms "used on a farm for farming purposes" and "farm." The term "gasoline" has the same meaning given to this term by section 4082(b) and the regulations thereunder. For the meaning of the terms "diesel fuel," "special motor fuel," "motor vehicle," "highway vehicle," and "registered" see section 4041 and the regulations thereunder. The term "fuel" means diesel fuel, special motor fuel, or gasoline, as the context requires. Where appropriate, the term "use" includes a resale. See §48.6421-4 for the meaning of "calendar quarter" and "taxable year".

(iv) For purposes of determining the allowable credit or payment in respect of fuel used for nontaxable purposes, on a farm for farming purposes, or for purposes taxable at a lower rate, fuel on hand shall be considered used in the order in which it was purchased. Thus, if the purchaser made purchases at different times and subject to different rates of tax, then in determining credit or payment for fuel used for a described purpose, it will be assumed that the fuel first purchased was the first fuel used, and the rate applicable to that purchase will apply in determining the credit of payment, until all of that fuel is accounted for.

(v) Fuel lost or destroyed through spillage, fire, or other casualty is not considered to have been "used" within the meaning of this section, and, accordingly, no credit or payment of the tax paid on the sale of the fuel may be made under this section.

(b) *Allowance of income tax credit in lieu of payment.* Except as provided in paragraph (c) of this section, repayment under this section of the tax paid under

section 4041 on fuel used by a person subject to income tax may be obtained only by claiming a credit for the amount of this tax against the tax imposed by subtitle A of the Code. The amount of the credit shall be an amount equal to the payment which would be made under section 6427 with respect to fuel used during the taxable year for nontaxable purposes on a farm for farming purposes, or for purposes taxable at a lower rate, if section 6427(i) and paragraph (c) of this section did not apply. See section 34(a)(3).

(c) *Allowance of payment.* Payments in respect of fuel upon which tax was paid under section 4041 that is used for nontaxable purposes, on a farm for farming purposes, or for purposes taxable at a lower rate, shall be made only to—

(1) The United States or any agency or instrumentality thereof, a State, a political subdivision of a State, or an agency or instrumentality of one or more States or political subdivisions of a State, or the District of Columbia.

(2) An organization which is exempt from tax under section 501(a) and is not required to make a return of the income tax imposed under subtitle A for its taxable year, or

(3) In the case of fuel used for nontaxable purposes to which section 6427(a) applies, to a person described in section 6427(g)(2) to whom $1,000 or more is payable (without regard to paragraph (b) of this section) under this section with respect to fuel used during any of the first three quarters of his taxable year.

(d) *Dual use of fuel.* The principles set forth in §48.4041-7, relating to dual use of fuel, for determining whether liability is incurred under section 4041 at the time of sale of the fuel, are equally applicable in determining whether a credit or payment is to be allowed under this section. Thus, if diesel fuel or special motor fuel used in a separate motor is drawn from the same tank as the one which supplies fuel for the propulsion of the vehicle, a reasonable determination of the quantity of the fuel used in the separate motor will be acceptable for purposes of computing the payment or credit under this section. The determination must be based, however, on the operating experience of the person using the fuel, and a statement, signed by the person, evidencing the operating experience must be maintained as a part of the records of the person claiming the payment or credit.

(e) *Supporting evidence required.* Each claim under this section for credit or payment must include a statement showing—

(1) The total number of gallons of fuel purchased and used for nontaxable or farming purposes during the period covered by the claim, multiplied by the rate of payment allowable under this section with respect to such fuel;

(2) The purpose or purposes for which the fuel was used, determined by reference to general categories, and the amount used for each of the purposes; and

(3) If a claim on Form 843 is being filed, the internal revenue district or service center with which the claimant last filed an income tax return, (if any).

(f) *Illustrations.* the application of this section may be illustrated by the following example:

Example. Special motor fuel was sold for use as fuel in a highway vehicle that was registered for highway use. Tax was imposed on the sale at the rate of 9 cents a gallon under section 4041(a)(2). The special motor fuel was eventually used by the purchaser in a qualified business use. The credit or payment of tax is to be computed as follows:

	Cents per gallon
Rate at which tax was paid	9
Less: Rate at which tax would have been imposed on a qualified business use under sec. 4041(b).	0
New credit or payment under sec. 6427(a)	9

§48.6427-2 Credits or payments to purchaser of diesel or special motor fuels used in intercity, local, or school buses.

(a) *In general.* (1) If tax has been paid under section 4041(a)(1) on the sale of diesel fuel for use as a fuel in a diesel-powered highway vehicle or under section 4041(a)(2) on the sale of special motor fuel for use as a fuel in a motor vehicle or a motorboat and the fuel is used by the purchaser in an intercity or local bus while engaged in furnishing (for compensation) passenger land transportation available to the general public or in a school bus in the transportation of students and employees of schools, a credit (under the circumstances described in paragraph (b) of this section) or a payment (under the circumstances described in paragraph (c) of this section) in respect of the fuel so used shall be allowed or made to the purchaser of the fuel. The credit or payment under this section shall be an amount equal to the product of the number of gallons of fuel so used multiplied by the rate at which tax was imposed on the fuel by section 4041(a)(1) or section 4041(a)(2), reduced as limited by section 6427(b)(2). No interest shall be paid on any payment allowed under paragraph (c) of this section. However, interest may be paid on any overpayment (as defined by section 6401) arising from a credit. See section 34(a), relating to credit for certain uses of gasoline and special fuels, (and lubricating oil prior to January 7, 1983). See section 6611, relating to interest on overpayments. See §48.6427-3 for the time within which a claim for credit or payment must be made under this section.

(2) The terms "diesel fuel" and meaning "special motor fuel" have the same meaning as in section 4041 and the regulations thereunder. The term "fuel" means diesel fuel and special motor fuel. See §46.6421-4 for the meaning of "calendar quarter" and "taxable year."

(b) *Allowance of income tax credit.* Except as provided in paragraph (c) of this section, repayment under this section of the tax paid under section 4041(a)(1) or section 4041(a)(2) on diesel or special motor fuel used while engaged in furnishing (for compensation) passenger land transportation available to the general public or in school bus transportation operations by a person subject to income tax may be obtained only by claiming a credit for the amount of this tax against the tax imposed by subtitle A of the Code. The amount of the credit shall be an amount equal to the payment which would be made under section 6427 with respect to fuel used during the taxable year for passenger land transportation or school bus operations if section 6427(i) and paragraph (c) of this section did not apply. See section 34(a)(3).

(c) *Allowance of payment.* Payments in respect of diesel or special motor fuel upon which tax was paid under

section 4041(a)(1) or section 4041(a)(2) that is used while engaged in furnishing (for compensation) passenger land transportation available to the general public or in school bus transportation operations shall be made only to—

(1) The United States or any agency or instrumentality thereof, a State, a political subdivision of a State, or an agency or instrumentality of one or more States or political subdivisions of a State, or the District fo Columbia,

(2) An organization which is exempt from tax under section 501(a) and is not required to make a return of the income tax imposed under subtitle A for its taxable year, or

(3) A person described in section 6427(g)(2) to whom $1,000 or more is payable (without regard to paragraph (b) of this section) under this section with respect to fuel used during any of the first three quarters of the person's taxable year.

(d) *Supporting evidence required.* Each claim under this section for credit or payment must include a statement showing—

(1) The total number of gallons of fuel purchased and used in each intercity or local bus while engaged in furnishing (for compensation) passenger land transportation available to the general public multiplied by the rate at which tax was imposed on the fuel by section 4041(a)(1) or section 4041(a)(2). See, however, section 6427(b)(2) with respect to the limitation on the amount of credit for buses other than qualified local buses.

(2) The total number of gallons of fuel purchased and used in each bus while engaged in school bus transportation operations multiplied by the rate at which tax was imposed on the fuel by subsection (a)(1) or (a)(2) of section 4041. See, however, section 6427(b)(2) with respect to the limitation on the amount of credit for buses other than qualified local buses.

(3) If a claim on Form 843 is being filed, the internal revenue district or service center with which the purchaser last filed an income tax return (if any).

§48.6427-3 Time for filing claim for credit or payment.

(a) *In general.* A claim for credit or payment described in §48.6427-1 with respect to fuel used for nontaxable, farming, or other purposes taxable at a lower rate or in §48.6427-2 with respect to fuel used either in an intercity or local bus while engaged in furnishing (for compensation) passenger land transportation available to the general public or in school bus transportation operations shall cover only fuel used during the taxable year, or when paragraph (b)(2) of this section applies, used during the calendar quarter. Therefore, fuel on hand at the end of a taxable year, or, if applicable, a calendar quarter, such as fuel in supply tanks of vehicles or in storage tanks or drums, must be excluded from a claim filed for the taxable year or calendar quarter, as the case may be. However, this fuel may be included in a claim filed for a later taxable year or a later calendar quarter if it is used during that later year or quarter for nontaxable or farming purposes, or in an intercity or local bus while engaged in furnishing (for compensation) passenger land transportation available to the general public or in school bus transportation operations. Fuel used during the taxable year or calendar quarter may be covered by the claim for that period although the fuel has not been paid for at the time the claim is filed. The purposes of applying this section, a governmental unit or exempt organization described in §48.6427-1(c) or §48.6427-2(c) is considered to have as its taxable year the calendar year or fiscal year on the basis of which it regularly keeps its books; see §48.6421-4.

(b) *Time for filing*—(1) *Annual claims.* (i) A claim under this section for credit or payment with respect to fuel used during a taxable year shall not be allowed unless it is filed no later than the time prescribed by section 6511 and the regulations thereunder for filing a claim for credit or refund of income tax for the particular taxable year.

(ii) A claim for payment of a governmental unit or exempt organization described in §48.6427-1(c) or unit or exempt organization described in §48.6427-2(c), must be filed no later than 3 years following the close of its taxable year. See §48.6421-4.

(2) *Quarterly claims.* A claim for payment of $1,000 or more in respect to fuel used during any of the first three quarters of the taxable year, filed either under §48.6427-1(c)(3) in respect of fuel used for nontaxable purposes or for purposes taxable at a lower rate, or under §48.6427-2(c)(3) in respect of fuel used while engaged in furnishing (for compensation) passenger land transportation available to the general public or in school bus transportation operations, shall not be allowed unless the claim is filed on or before the last day of the first calendar quarter following the calendar quarter for which the claim is filed. No quarterly claim may be filed for the last calendar quarter of the taxable year. Amounts for which payment is disallowed under this paragraph (b)(2) merely because the claim was not filed on time may be included in an annual claim filed under paragraph (b)(1) of this section, but other amounts for which a claim for payment has been filed under this paragraph (b)(2) may not be included in an annual claim filed under paragraph (b)(1) of this section.

(3) *Other applicable rules.* See §301.7502-1 of this chapter (Regulations on Procedure and Administration) for provisions treating timely mailing as timely filing and §301.7503-1 of this chapter for time for performance of an act where the last day falls on Saturday, Sunday, or a legal holiday.

(c) *Limit on claims per taxable year.* Not more than one claim may be filed under §48.6427-1 or §48.6427-2 by any person with respect to fuel used during any taxable year, except to the extent that quarterly claims may be filed under paragraph (b)(2) of this section with respect to any calendar quarter (other than the last calendar quarter) of the taxable year.

(d) *Form and content of claim.*—(1) *Claim for credit.* The claim for credit to which this section applies must be made by attaching a Form 4136, to the income tax return of an individual or a corporation. Form 4136 must be executed in accordance with the instructions prescribed for the preparation of the form. A partnership may not file Form 4136. When a partnership files Form 1065, U.S. Partnership Return of Income, it must include a statement showing how many gallons of fuel are allocated to each partner and the use made of the fuel.

(2) *Claim for payment.* The claim for payment to which this section applies

must be made on Form 848 in accordance with the instructions prescribed for the preparation of the form. Each form must designate the taxable year, or calendar quarter, for which it is filed. The form must be filed with the same service center where the income tax return was last filed or, in the case of a governmental unit or exempt organization described in §48.6427-1(c) or §48.6427-2(d), with the service center for the internal revenue region in which the principal place of business or principal office of the claimant is located.

(3) *Death or termination.* (i) If an individual dies, or if a sole proprietorship, partnership, or corporation is terminated or liquidated, during the taxable year, the claim for credit or payment may be filed in respect of fuel used during the short taxable year in the same manner as is provided for fuel used in a full taxable year. Those months which constitute a quarter of a full taxable year will constitute the same quarter of the short taxable year. For example, if a corporation using the calendar year is liquidated on September 30, 1982, and is entitled to $900 under §48.6427-1 in respect of fuel used for nontaxable purposes for the calendar quarter ending March 31 and is also entitled to payments of $1,500 for each of the calendar quarters ending June 30 and September 30, it may file a claim for payment in respect of the fuel used for nontaxable purposes during the calendar quarters ending June 30, and September 30, 1982, and take a credit of $900 on its income tax return for the short taxable year in respect of the fuel used during the calendar quarter ending March 31, 1982.

(ii) A claim for payment on behalf of a decedent may be filed by the decedent's executor, administrator, or any other person charged with responsibility for the decedent's affairs. Such a claim must be accompanied by copies of the letters testamentary, letters of administration, or in the case of a claim filed by other than the executor or administrator, the information called for in Form 1310 (Statement of Person Claiming Refund Due a Deceased Taxpayer). The claim may cover only fuel in respect of which the decedent would have been entitled to claim payments. For example, if an individual dies on July 15, 1982, prior to claiming payment under §48.6427-1 of $1,000 or more applicable to fuel purchased and used for nontaxable purposes during the calendar quarter ending June 30, 1982, the decedent's executor or other legal representative may file a claim for payment covering that calendar quarter, and take the credit provided by section 39(a)(3) against the decedent's income tax on the income tax return for the short taxable year in respect of fuel purchased by the decedent and so used during the period from July 1, 1982, to July 15, 1982, the date of death.

(e) *Restrictions on claims for credit or payment.* Credits or payments are allowable only in respect of fuel that was sold by the producer or importer in a transaction that was subject to tax under section 4041. For example, a State or local government may not file a claim with respect to any fuel which it purchased tax free from the producer, even though the State or local government used the fuel for the purposes described in paragraph (a) of this section. Similarly, a State or local government may not file a claim with respect to the use of fuel if it is known that another person is entitled to claim a payment, credit, or refund with respect to the same fuel. For example, a State or local government may not file a claim in respect of tax-paid fuel that has been resold by the purchaser to the State or local government.

§48.6427-4 Applicable laws.

(a) *Penalties, excessive claims, etc.* All provisions of law, including penalties, applicable in respect of the tax imposed by section 4041 shall, to the extent applicable and consistent with section 6427, apply in respect of the payments provided for in section 6427 to the same extent as if these payments constituted refunds of overpayments of the tax imposed on the sale of fuels by section 4041. For special rules applicable to the assessment and collection of amounts constituting excessive payments under section 6427, see section 6206 and the regulations thereunder. For the civil penalty assessable in the case of excessive claims under section 6427, see section 6675 and the regulations thereunder. For the treatment as an overpayment of an amount allowable as an excessive credit under section 34 with respect to amounts payable under section 6427, see section 6401(b).

(b) *Examination of books and witnesses.* For the purpose of ascertaining (1) the correctness of any claim made under section 6427 or (2) The correctness of any credit or payment made in respect of the claim, the Commissioner shall have the same authority granted by paragraphs (1), (2), and (3) of section 7602, relating to examination of books and witnesses, as if the person claiming credit or payment under section 6427 were the person liable for tax.

§48.6427-5 Records to be kept in substantiation of credits or payments.

(a) *In general.* Every person making a claim for credit or payment under section 6427 must keep records sufficient to enable the district director to determine whether the person is entitled to credit or payment under such section and, if so, the amount of the credit or payment. No particular form is prescribed for keeping the records, but the records must include a copy of the income tax return or claim and a copy of any statement or document submitted with the return or claim. The records must also show with respect to the period covered by the claim—

(1) The number of gallons of fuel purchased and the dates of purchase,

(2) The name and address of each vendor from whom fuel was purchased and the total number of gallons purchased from each,

(3) The number of gallons of fuel purchased by the claimant and used during the period covered by the claim for nontaxable purposes, farming purposes, for other purposes taxable at a lower rate, in local, intercity, or school buses, and

(4) Other information as necessary to establish the correctness of the claim.

(b) *Acceptable records.* (1) Evidence of purchases of fuel, and the purposes for which it was used, to substantiate claims may include paid duplicate sales invoices or tickets from the fuel dealer or other vendor, and detailed records of all fuel used which show the amount used the prescribed purposes and the amount used for other purposes.

(2) Records maintained for Federal or State income tax purposes, or to support claims for refund of a State tax on

fuel, may be used to the extent that they contain the information necessary to substantiate the accuracy of the claim for credit under section 6427. However, the records must show separately the number of gallons of fuel used for nontaxable purposes, farming purposes, other purposes taxable at a lower rate, or in intercity, local, or school buses during the period covered by the claim.

(c) *Place and period for keeping records.* (1) All records required by this section must be kept by the claimant at a convenient and safe location within the United States which is accessible to internal revenue officers and shall during normal business hours be available for inspection by internal revenue officers. If the claimant has a principal place of business in the United States, the records must be kept at the place of business.

(2) Records required to substantiate a claim under section 6427 must be maintained for a period of at least 3 years from the last date prescribed for the filing of the claim for credit or payment.

Par. 37. Section 48.6675-1 is revised to read as follows:

§48.6675-1 Excessive claims under section 6420, 6421, 6424, or 6427.

(a) *Civil penalty.* Any person making a claim for credit or payment under section 6420 (relating to gasoline used on farms), section 6421 (relating to gasoline used for certain non-highway purposes or by local transit systems), section 6424 (relating to lubricating oil used for certain nontaxable purposes prior to January 7, 1983), or section 6427 (relating to fuels not used for taxable purposes) for an excessive amount shall be liable, in addition to any criminal penalty provided by law, to penalty in an amount equal to the greater of either (1) two times the excessive amount or (2) ten dollars, unless the person shows that the making of the excessive claim was due to reasonable cause. For provisions relating to the assessment and collection of the civil penalty provided by section 6675, see section 6206 and the regulations thereunder.

(b) *Excessive amount defined.* For purposes of section 6675(a), the term "excessive amount" means the amount by which—

(1) The claim for credit or payment under section 6420, section 6421, section 6424 or section 6427 exceeds

(2) The amount of credit or payment under the section for the period covered by the claim.

Par. 38. The authority citation for Part 154 remains unchanged.

Par. 39. Paragraph (e) of §154.4-1 (Temporary Regulations in connection with the Airport and Airway Revenue Act of 1970) is removed.

PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Par. 40. The authority citation for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 41. Section 602.101(c) is amended as follows:

1. The following tabular entries are inserted in the appropriate places in the table:

"§48.0-1	1545-0723

6421(c)-1(a), (b), (c), (d)	1545-0024
6421(g)-1(a), (b), (c)	1545-0024."

This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917, 26 U.S.C. 7805).

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved July 18, 1985.

RONALD A. PEARLMAN,
Assistant Secretary
of the Treasury.

(Filed by the Office of the Federal Register on August 7, 1985, 8:45 a.m., and published in the issue of the Federal Register for August 8, 1985, 50 F.R. 32012)

---

26 CFR 48.4161(a)-2: Meaning of terms
(Also Section 4162.)

Manufacturers; sporting goods; fishing spear guns. Effective October 1, 1984, sales of spear guns designed for underwater deep sea fishing are subject to tax on sport fishing equipment imposed by section 4161 of the Code. Such sales continue to be exempt from the tax on firearms imposed by section 4181. Rev. Rul. 58-82 superseded.

Rev. Rul. 85-149

The Internal Revenue Service has reconsidered Rev. Rul. 58-82, 1958-1 C.B. 421, because of amendments made to the Internal Revenue Code by the Tax Reform Act of 1984, Pub. L. No. 98-369, 1984-3 (Vol. 1) C.B. 1, 525 (the Act). Rev. Rul. 58-82 held that a spear gun designed for underwater deep sea fishing and powered by rubber bands or rubber tubes was not subject to (1) the manufacturers excise tax on certain fishing equipment imposed by section 4161 of the Code, or (2) the manufacturers excise tax on firearms imposed by section 4181 of the Code.

Section 4161(a) of the Code, as amended by seciton 1015(a) of the Act, effective October 1, 1984, imposes a tax of 10 percent of the selling price on the sale of any sport fishing equipment by the manufacturer, producer, or importer.

Section 4162(a) of the Code, as added by section 1015(b) of the Act, effective October 1, 1984, defines the term "sport fishing equipment" and, in so doing, expands the types of fishing equipment subject to the tax imposed by section 4161(a). The term "sport fishing equipment" is defined in section 4162(a)(4) to include fishing spears, spear guns, and spear tips.

Accordingly, effective October 1, 1984, sales by the manufacturer, producer, or importer of the type of spear gun described above are subject to the tax imposed by section 4181.

EFFECT ON OTHER DOCUMENTS

Rev. Rul. 58-82 is superseded, effective October 1, 1984.

---

26 CFR 48.4161(a)-2: Meaning of terms.
(Also Section 4162.)

Manufacturers; sporting goods; fishing equipment. Effective October 1, 1984, sales of portable bait containers, fish hook extractors, fishing tackle boxes, gaff hooks, and landing nets are subject to the tax imposed by section 4161(a)(1) of the Code. Sales of casting nets, fish tank aerators, lure retrievers, retrieving lines and sinkers for nets, scent oil for bait, and wire minnow traps remain not subject to the tax. Rev. Rul. 58-606 modified and superseded.

Rev. Rul. 85-150

ISSUE

Whether sales of certain items related to fish and fishing are subject to the manufacturers excise tax on sport fishing equipment.

FACTS

The Internal Revenue Service has reconsidered Rev. Rul. 58-606, 1958-2 C.B. 805, because of amendments made to the Internal Revenue Code by the Tax Reform Act of 1984, Pub. L. No. 98-369, 1984-3 (Vol. 1) C.B. 1, 525 (the Act). Rev. Rul. 58-606 holds that sales by the manufacturer, producer, or importer of bait boxes, casting nets, fish hook extractors, fishing tackle boxes, fish tank aerators, gaff hooks, landing nets, lure retrievers, retrieving lines and sinkers for nets, scent oil for bait, and wire minnow traps are not subject to the manufacturers excise tax imposed by section 4161(a) of the Code, when sold either separately or with taxable articles.

LAW AND ANALYSIS

Section 4161(a)(1) of the Code, as amended by section 1015(a) of the Act, effective October 1, 1984, imposes a tax of 10 percent of the selling price on the sale of an article of sport fishing equipment by the manufacturer, producer, or importer.

Section 4162(a)(6) of the Code, as added by section 1015(b) of the Act, effective October 1, 1984, defines the term "sport fishing equipment" to include, among other items, tackle boxes, portable bait containers, landing nets, gaff hooks, and fishing hook disgorgers. As compared to prior law, this definition expands the types of fishing equipment subject to the tax imposed by section 4161(a).

HOLDING

Accordingly, sales of portable bait containers, fish hook extractors, fishing tackle boxes, gaff hooks, and landing nets are subject to the 10 percent manufacturers excise tax imposed by section 4161(a)(1) of the Code, effective October 1, 1984.

Sales of casting nets, fish tank aerators, lure retrievers, retrieving lines and sinkers for nets, scent oil for bait, and wire minnow traps remain not subject to the section 4161(a)(1) tax.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 58-606 is modified and, as modified, is superseded, effective October 1, 1984.

---

26 CFR 48.4161(a)-2: Meaning of terms.
(Also Section 4162.)

Manufacturers; sporting goods; fishing rods. Effective October 1, 1984, sales of the following articles enumerated in *Situations (1)* through *(4)* of Rev. Rul. 59-136 are subject to the tax imposed by section 4161(a)(1) of the Code. *Situation (1),* rod blanks; *Situation (2),* detachable rod handles; *Situation (3),* rod blanks with handles and reel seats affixed; *Situation (4),* fishing rod kits. The local distributor in *Situation (5)* of Rev. Rul. 59-136 is liable for the tax imposed by section 4161(a)(1). Rev. Rul. 59-136, as modified by Rev. Rul. 70-548, is further modified and, as modified, superseded.

Rev. Rul. 85-151

ISSUE

Whether certain components of fishing rods and poles are subject to the manufacturers excise tax on sport fishing equipment.

FACTS

The Internal Revenue Service has reconsidered Rev. Rul. 59-136, 1959-1 C.B. 342, as modified by Rev. Rul. 70-548, 1970-2 C.B. 265, because of amendments made to the Internal Revenue Code by the Tax Reform Act of 1984, Pub. L. No. 98-369, 1984-3 (Vol. 1) C.B. 1, 525 (the Act). In *Situation (1)* of Rev. Rul. 59-136, a manufacturer cut fiberglass rods, either solid or tubular, into sections of desired lengths and attached ferrules to the ends of some of the sections. The manufacturer then sold these fishing rod "blanks" to other companies, which produced complete fishing rods. The revenue ruling holds that the blanks have not reached a stage of manufacture at which they are suitable for fishing purposes and, thus, that they are not fishing rods subject to the manufacturers excise tax imposed by section 4161 of the Code.

In *Situation (2)* a manufacturer sold detachable handles that may be used on any type of fishing rod. Rev. Rul. 59-136 holds that the detachable handles are not subject to the manufacturers excise tax.

In *Situation (3)*, a manufacturer sold fishing rod blanks with handles and reel seats affixed. Some of the blanks had guides attached while some did not. The rod blanks with handles and reel seats affixed are held to be subject to the manufacturers excise tax.

In *Situation (4)*, a manufacturer sold a fishing rod kit, consisting of a rod blank, a handle and reel seat, thread, guides, and varnish. Rev. Rul. 59-136 holds that the kid is a fishing rod and is subject to the manufacturers excise tax. It holds further, however, that the sale of a kit consisting only of the guides, silk thread, and varnish is not subject to tax.

In *Situation (5)*, a local distributor purchased fishing rod blanks with ferrules, like those described in *Situation (1)*, and sent these blanks to a local shop to have handles and reel seats attached. The local shop returned the blanks to the local distributor and charged only for the material and labor involved in attaching the handles and reel seats. The local distributor sold them to customers. Rev. Rul. 59-136 holds that the distributor is a manufacturer and is liable for manufacturers excise tax on the sale of the fishing rods.

LAW AND ANALYSIS

Section 4161(a)(1) of the Code, as amended by section 1015(a) of the Act, effective October 1, 1984, imposes a tax on the sale of any sport fishing equipment by the manufacturer, producer, or importer.

Section 4162(a) of the Code, as added by section 1015(b) of the Act, effective October 1, 1984, defines the term "sport fishing equipment" to include fishing rods and poles (and component parts therefor). The Act thus expanded the types of fishing equipment subject to the tax imposed by section 4161(a).

The House and Senate reports both specifically state that component parts include rod handles, guides, reel seats, blank rods, tip-tops, ferrules, and any other devices which are designed to be attached to such poles or rods for use in fishing. S. Rep. No. 98-169, Vol. 1, 98th Cong., 2d Sess. 740 (1984); H.R. Rep. No. 98-133, Part 2, 98th Cong., 1st Sess. 6 (1983), 1984-3 (Vol. 2) C.B. 555, 560.

HOLDING

As a result of the inclusion of component parts of rods and poles in the class of taxable articles, effective October 1, 1984, sales by the manufacturer, producer, or importer of the rod blanks described in *Situation (1)*, the detachable rod handles described in *Situation (2)*, the rod blanks with handles and reel seats attached described in *Situation (3)*, and each of the fishing rod kits, including the kit consisting only of guides, silk thread, and varnish, described in *Situation (4)* of Rev. Rul. 59-136 are subject to the tax imposed by section 4161(a)(1) of the Code. The local distributor in *Situation (5)* of Rev. Rul. 59-136 is a manufacturer and is liable for the tax imposed by section 4161(a)(1) on the sale of the fishing rods.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 59-136, as modified by Rev. Rul. 70-548, is further modified and, as modified, is superseded.

---

26 CFR 48.4161(a)-2: Meaning of terms. (Also Section 4162.)

Manufacturers; sporting goods; fishing equipment. Effective October 1, 1984, sales of fishing tackle and artificial lures enumerated in *Situations (1)* and *(2)* of Rev. Rul. 60-225, except for the beads in *Situation (1)* when sold separately, are subject to the tax imposed by section 4161(a)(1) of the Code. Rev. Rul. 60-225 superseded.

Rev. Rul. 85-152

ISSUE

Whether certain items of terminal tackle and certain components of artificial lures are subject to the manufacturers excise tax on sport fishing equipment.

FACTS

The Internal Revenue Service has reconsidered Rev. Rul. 60-225, 1960-1 C.B. 489, because of amendments made to the Internal Revenue Code by the Tax Reform Act of 1984, Pub. L. No. 98-369, 1984-3 (Vol. 1) C.B. 1, 525 (the Act). In *Situation 1* of Rev. Rul. 60-225, a corporation manufactures and sells various articles that are designed for use by fishermen. Included among these articles are different sizes and styles of "blades." These blades are stamped from copper or brass sheets, after which they undergo a finishing process. After the blades are plated or lacquered, the manufacturer sells some of them separately, either to vendees for resale as such or to other manufacturers for use in further manufacture of other articles. In some instances, the manufacturer of the blades attaches to some of them certain other items, which include various combinations of plastic, glass, or fluorescent beads, fishhooks, shot (a type of sinker), swivels, or sinker assortments. The articles thus produced are then sold by the manufacturer. The corporation sometimes sells separately the beads, fish hooks, shot, swivels, or sinker assortments.

In *Situation 2*, another corporation produces and sells various articles of fishing equipment, including (1) spinners, (2) a "worm harness," consisting of a spinner and beads, (3) a "worm harness" equipped with a plastic worm, (4) a "fishing rig," which includes a spinner and a bead, (5) a lure which consists of a spoon, beads, a hook, and a leader, and which is designed to be used with live bait, (6) a clear plastic

float which is designed to look like a natural bubble in the water, and (7) a colored plastic float, the color and water action of which is said to bring fish within striking distance of a lure.

Rev. Rul. 60-225 holds that the beads, fish hooks, shot, swivels, and sinkers in *Situation 1*, when sold separately, are not artificial lures subject to the manufacturers excise tax imposed by section 4161(a) of the Internal Revenue Code, but that the blades, whether sold separately, or with the beads, fish hooks, shot, swivels, or sinkers attached, are artificial lures subject to the tax. The revenue ruling further holds that all of the items in *Situation 2*, with the exception of the clear plastic or colored plastic floats, are artificial lures subject to the tax. The floats are held to be not taxable.

LAW AND ANALYSIS

Section 4161(a)(1) of the Code, as amended by section 1015(a) of the Act, effective October 1, 1984, imposes a tax on the sale of any sport fishing equipment by the manufacturer, producer, or importer.

Section 4162(a)(5) of the Code, as added by section 1015(b) of the Act, effective October 1, 1984, defines the term "sport fishing equipment" to include items of terminal tackle, including—

(A) leaders,
(B) artificial lures,
(C) artificial baits,
(D) articial flies,
(E) fishing hooks,
(F) bobbers,
(G) sinkers,
(H) snaps,
(I) drayles [*sic*], and
(J) swivels,

but not including natural bait or any item of terminal tackle designed for use and ordinarily used on fishing lines over 130 pounds test. This definition expands the types of fishing equipment subject to the tax imposed by section 4161(a)(1).

All the items described in *Situations (1)* and *(2)* constitute "sport fishing equipment" under section 4162(a)(5) of the Code, except for the beads in *situation (1)* when sold separately by the manufacturer.

HOLDING

Effective October 1, 1984, sales by the manufacturer, producer, or importer of all the items described in *Situations (1)* and *(2)*, except for the beads in *Situation (1)* when sold separately, are subject to the manufacturers excise tax imposed by section 4161(a)(1) of the Code.

EFFECTIVE ON OTHER REVENUE RULINGS

Rev. Rul. 60-225 is superseded, effective October 1, 1984.

---

26 CFR 48.4161(a)-2: Meaning of terms. (Also Section 4162.)

Manufacturers; sporting goods; ice fishing tip-ups; spear fishing decoys. Effective October 1, 1984, sales of ice fishing tip-ups are subject to the tax imposed by section 4161(a)(1) of the Code. Sales of spear fishing decoys remain taxable under section 4161(a)(1). Rev. Rul. 78-108 modified and superseded.

Rev. Rul. 85-153

ISSUE

Whether ice fishing tip-ups and spear fishing decoys are subject to the manufacturers excise tax on sport fishing equipment.

FACTS

The Internal Revenue Service has reconsidered Rev. Rul. 78-108, 1978-1 C.B. 354, because of amendments made to the Internal Revenue Code by Section 1015 of the Tax Reform Act of 1984, Pub. L. No. 98-368, 1984-3 (Vol. 1) C.B. 1, 525 (the Act). The issue of Rev. Rul. 78-108 was whether certain ice fishing tip-ups and spear fishing decoys were subject to the manufacturers excise tax, which section 4161(a) of the Internal Revenue Code at that time imposed on certain sporting goods.

The ice fishing tip-up consists of a spool on a spindle and a spring mounted flag on opposite ends of a vertical pole that is attached to two horizontal cross members. The cross members rest on the rim of a hole cut in the ice and support the pole over the hole. When fixed in place, the spool is under the water and the flag is above the ice.

The spearing decoys are made from plastic or rubber and are designed to simulate small fish 4¾ to 10 inches long. The decoys are not used with hooks but each has a single eyelet for attachment to a line. The decoys are designed so that when they are placed in water and the line is pulled the decoys will move in a circular manner to attract fish.

Rev. Rul. 78-108 held that the spear fishing decoys are artificial lures subject to the manufacturers excise tax imposed by section 4161(a) of the Code, and that the ice fishing tip-up, was not a rod subject to the tax imposed by section 4161(a). The revenue ruling also held that the spool, which was a component of the tip-up, was not a reel subject to the tax.

LAW AND ANALYSIS

Section 4161(a)(1) of the Code, as amended by section 1015(a) of the Act, effective October 1, 1984, imposes a tax on the sale of any sport fishing equipment by the manufacturer, producer, or importer.

Section 4162(a) of the Code, as added by section 1015(b) of the Act, effective October 1, 1984, defines the term "sport fishing equipment" to include fishing tip-ups and tilts and articles of terminal tackle, including artificial lures. This definition expanded the types of fishing equipment previously subject to the tax imposed by section 4161(a).

HOLDING

Accordingly, effective October 1, 1984, sales by the manufacturer, producer, or importer of the ice fishing tip-ups described in Rev. Rul. 78-108, including the spool, are subject to the tax imposed by section 4161(a)(1) of the Code. The spear fishing decoy remains taxable as an artificial lure.

EFFECT ON OTHER DOCUMENTS

Rev. Rul. 78-108 is modified and, as modified, is superseded, effective October 1, 1984.

Section 4162.—Definitions; Treatment of Certain Resales

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER D, SUBCHAPTER H, PART 41—EXCISE TAX ON USE OF CERTAIN HIGHWAY MOTOR VEHICLES; PART 48—MANUFACTURERS AND RETAILERS EXCISE TAXES; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Heavy Vehicle Use Tax; Credits and Refunds of the Tax on the Sale of Diesel Fuel.

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to the imposition of the tax on the use of heavy vehicles and relating to credits and refunds of the tax imposed on the sale of diesel fuel. Changes to the applicable tax law regarding heavy vehicles were made by the Surface Transportation Assistance Act of 1982 [Pub. L. 97-424, 1983-1 C.B. 405] and the Tax Reform Act of 1984 [1984-3 C.B. (Vol. 1) 1]. Changes to the applicable tax law regarding credits and refunds of the diesel fuel tax were made by the Tax Reform Act of 1984. The regulations would affect owners of highway motor vehicles, State motor vehicle administrations, and users of diesel fuel and would provide them with the guidance needed to comply with those Acts.

DATES: Except as otherwise provided in this document, the amendments to the regulations are effective after June 30, 1984.

FOR FURTHER INFORMATION CONTACT: William A. Jackson of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T LR-31-83, (202-566-4336), not a toll free call.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On November 6, 1984, the FEDERAL REGISTER published proposed amendments to the Excise Tax Regulations (26 CFR Part 41) under sections 4481, 4482, and 4483 of the Internal Revenue Code of 1954 (Code) (49 FR 44300) [LR-31-83, 1984-2 C.B. 868]. These amendments were proposed to conform the regulations to section 513 of the Highway Revenue Act of 1982 (Title V of the Surface Transportation Assistance Act of 1982) (P.L. 97-424, 96 Stat. 2177) [1983-1 C.B. 405, 409] and sections 901, 902, and 903 of the Tax Reform Act of 1984 (Division A of the Deficit Reduction Act of 1984) (P.L. 98-369, 98 Stat. 1003) [1984-3 C.B. (Vol. 1) 1, 511] and are to be issued under the authority contained in sections 4482(b) (70 Stat. 390, 26 U.S.C. 4482(b)), 4483(d) (96 Stat. 2178, 26 U.S.C. 4483(d)), and 7805 (68A Stat. 917, 26 U.S.C. 7805) of the Code. That document also provided proposed amendments to the Excise Tax Regulations (26 CFR Part 41) to conform the regulations to section 143(a) of the Surface Transportation Assistance Act of 1982. Those amendments to the regulations were proposed to provide guidance regarding the proof of payment of the Federal heavy vehicle use tax that a State is required to receive as a condition for issuing a registration for a vehicle. In addition, that document contained proposed amendments to the Excise Tax Regulations (26 CFR Part 48) under section 6427(b)(2) of the Code relating to an exemption from the tax imposed by section 4041 of the Code in the case of fuel used in certain buses, and under section 6427(g) of the Code relating to an income tax credit or refund for original purchasers of diesel-powered automobiles and light trucks. These last two amendments were proposed to conform the regulations to sections 911(b), and 915 of the Tax Reform Act of 1984, respectively. A public hearing was held on December 14, 1984. After consideration of all comments regarding the proposed regulations, the amendments are adopted as revised by this Treasury decision.

SUMMARY OF REVISIONS

Canadian Vehicles
Used in the United States

The proposed regulations provided that the Federal heavy vehicle use tax is imposed on any highway motor vehicle that is registered in a Canadian province and is also proportionally registered in the United States under the International Registration Plan (IRP). Several commentators suggested that the imposition of the tax on Canadian vehicles should be suspended pending the completion of the trans-border trucking study by the Department of Transportation. This study was ordered by section 932 of the Tax Reform Act to study the significance of the heavy vehicle use tax on trans-border trucking

operations. The regulations have been revised to provide that for taxable periods beginning after June 30, 1985, a vehicle that is issued a "base plate" by a Canadian province will not be subject to the tax merely because it is proportionally registered in the United States under the IRP or similar agreement and is used on the public highways in the United States. Accordingly, Rev. Rul. 81-86 (1981-1 C.B. 504), which held that such vehicles are liable for the tax, will be revoked.

Taxable Gross Weight

Section 41.4482(b)-1(e) of the proposed regulations provided that the taxable gross weight of a highway motor vehicle shall be the highest gross weight at which the vehicle is registered in any State during the taxable period. Under the proposed regulations, if a vehicle were registered only in a state or states that register vehicles on the basis of the unladen weight of the vehicle, the taxpayer would declare the taxable gross weight of the vehicle based on its gross operating weight. Several commentators pointed out that certain states that register vehicles on the basis of gross weight have large registered weight brackets and the highest registered weight of a vehicle may be several thousand pounds higher than the actual gross weight declared for the vehicle for purposes of registration. This would have made it possible for two identical vehicles having the same declared gross weight to have different taxable gross weights in different states depending on the size of each state's registered weight brackets.

Under the final regulations, the taxable gross weight of a highway motor vehicle is the weight which is declared by the taxpayer on the basis of the definition of taxable gross weight in §41.4482(b)-1(a) regardless of whether or not the States in which the vehicle is registered register vehicles on the basis of the vehicle's unladen weight. Such declaration of taxable gross weight must be no less than the highest specific gross weight of the vehicle declared by the registrant at any time during the taxable period for any purpose including the registration of the vehicle in any State or the payment of any other fees or taxes. If no declaration by the registrant of a specific gross weight amount is required with respect to a vehicle, then the taxable gross weight must fall within the highest gross weight registration category for which such vehicle is registered if the vehicle is registered in any state that registers vehicles on the basis of gross weight.

Trucks Used in Logging

The final regulations clarify the requirement under §41.4483-6(b) that a vehicle must be registered as a highway motor vehicle used exclusively in the transportation of harvested forest products under the laws of the State where such vehicle is required to be registered in order to qualify for a 25 percent reduction in the heavy vehicle use tax. This clarification states that if a vehicle is registered as a vehicle used in the transportation of harvested forest products under a State statute or legally valid regulations then such vehicle will be considered to be so registered under the laws of the State. In addition, the final regulations clarify that no special license plate or tag identifying a vehicle as being used in the transportation of harvested forest products is required. The final regulations also clarify a similar State registration requirement under §41.4483-3(g)(1) regarding the 7,500 mile exemption for agricultural vehicles.

Proof of Payment

Section 41.6001-2 of the proposed regulations has been substantially revised in response to the many comments received regarding the proof of payment requirements. This section of the proposed regulations implemented section 143(a) of the Surface Transportation Assistance Act of 1982, which provided that a State must receive proof of payment of the Federal heavy vehicle use tax as a condition of registering a highway motor vehicle subject to the tax. Failure to require such proof of payment shall result in a reduction of that State's Federal-aid highway funds. In order to allow the State governments sufficient time to comply with the proof of payment requirements, the final regulations provide that the States will not be required to receive proof of payment as a condition of vehicle registration until October 1, 1985.

The final regulations under §41.6001-2(b)(1) provide generally that a State to which an application is made to register a highway motor vehicle must receive from the registrant proof of payment of the heavy vehicle use tax. Such proof of payment must be received by a "base state" when issuing an "apportioned plate" under the International Registration Plan (IRP) (or similar agreement) for a highway motor vehicle, but no proof of payment is required to be presented to the other states for which the vehicle is proportionally registered and which are listed on the IRP cab card issued by the base state. Further, no proof of payment is required to be received by a State with respect to the issuance of certain special temporary travel permits.

In the case of a State that registers vehicles on the basis of gross vehicle weight, §41.6001-2(b)(2)(i) of the final regulations provides that proof of payment is required to be received by such State with respect to any highway motor vehicle that has a declared gross weight in that State of 55,000 pounds or more. No proof of payment is required for any vehicle that has a declared gross weight in that State of less than 55,000 pounds. If no declaration of a specific gross weight is made with respect to a vehicle registered on the basis of gross weight, then the State must require proof of payment with respect to such vehicle if the minimum weight of the registered weight category for such vehicle is 55,000 pounds or more. In the case of a State that registers vehicles other than on the basis of gross vehicle weight, §41.6001-2(b)(2)(ii) of the final regulations provides that such State may register a highway motor vehicle without receiving proof of payment with respect to such vehicle if the State receives a written statement stating that during the taxable period which includes the date on which the State receives the application for registration, such vehicle had a taxable gross weight of less than 55,000 pounds. In addition, such State may register a highway motor vehicle without receiving either proof of payment or a written statement if such vehicle has an unladen weight of 8,000 pounds or less.

Generally, the final regulations provide that proof of payment with respect to a highway motor vehicle must be received by a State before such State is-

sues a registration for such vehicle. However, §41.6001-2(b)(3) of the final regulations is designed to allow States with computerized registration systems to implement a "suspension" registration system. Under the system provided in the final regulations, a State may register taxable highway motor vehicles without receiving proof of payment at the time the application for registration is received. Registration under a suspension system must be on the condition that the State receive proof of payment with respect to a taxable vehicle no later than 4 months after the beginning of the registration period. If the State does not receive the proof of payment within the required time then the State must suspend the registration of such vehicle until such time as proof of payment is received.

Section 41.6001-2(b)(6) of the final regulations provides that a description of the supporting documentation and records required by the Federal Highway Administration to verify compliance by the states of the proof of payment requirements is set forth in 23 CFR Part 669. The proposed regulations had provided that the States were not required to retain records of having received proof of payment. However, a lack of such records will make it difficult for the Federal Highway Administration to verify compliance by the States of the proof of payment requirements. For this reason, the final regulations have been revised to allow the Federal Highway Administration to prescribe rules stating what records it will require for its verification procedures.

The final regulations provide that in general, the vehicle identification numbers of the vehicles sought to be registered must appear on the proof of payment received by the State. However, §41.6001-2(c)(1)(ii) of the final regulations provides that if a receipted Schedule 1 is submitted as proof of payment for registering one or more highway motor vehicles and the total of the number of vehicles on such Schedule 1 for which the tax has not been suspended under §41.4483-3 exceeds 21 and the name of the taxpayer on such Schedule 1 is one of the names in which such vehicles are sought to be registered, then such Schedule 1 shall be accepted as proof of payment in support of the registration of a number of vehicles equal to or less than such total, and a list of the vehicle identification numbers is not required as part of the proof of payment. The same rule applies if the total of the number of vehicles on the Schedule 1 for which tax is suspended under §41.4483-3 exceeds 9. If a receipted Schedule 1 does not include a list of vehicles for which tax is being reported and the name of the taxpayer on such Schedule 1 is not one of the names in which a vehicle is sought to be registered, then such Schedule 1 may be accepted as proof of payment with respect to such vehicle if it is accompanied by a written statement executed by the taxpayer containing the vehicle identification number of the vehicle sought to be registered and a statement that the tax was paid on such vehicle.

Finally, the final regulations regarding proof of payment do not require a State to verify the correctness of the taxable gross weights for vehicles listed on the proof of payment. The proposed regulations had provided that proof of payment received by a State on or after September 1, 1985 (other than a Schedule 1 on which the vehicles are not required to be listed), shall only serve as valid proof of payment for a vehicle whose vehicle identification number appears on the Schedule 1 and which is being registered at a weight equal to or less than the taxable gross weight listed on the Schedule 1 for such vehicle. The requirement that such vehicle not be registered at a weight which is higher than the taxable gross weight shown on the Schedule 1 is deleted from the final regulations.

Computer Tape Proof of Payment Verification

Several commentators suggested that the states be allowed to satisfy the proof of payment requirement through the exchange of computer tape between the State and the Internal Revenue Service. Although no system of this type is provided for in these final regulations, the Internal Revenue Service is continuing to actively consider the implementation of a computer tape proof of payment system. Such a system, and the procedures for complying with it, would be provided by Revenue Procedure.

PAPERWORK REDUCTION ACT

The collection of information requirements contained in these final regulations have been submitted to the Office of Management and Budget (OMB) for review under section 3504(h) of the Paperwork Reduction Act. These regulations have been approved by OMB (control number 1545-0143).

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this final rule is not a major rule as defined in Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required. Although a notice of proposed rulemaking that solicited public comment was issued, the Internal Revenue Service concluded when the notice was issued that the regulations are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 did not apply. Accordingly, the final regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6)

DRAFTING INFORMATION

The principal author of these regulations is William A. Jackson of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Parts 41, 48, and 602 are amended as follows:

Part 41—[Amended]

Paragraph 1. The authority citation for Part 41 is revised to read as follows:

Authority: 26 U.S.C. 7805; §41.4482(b)-1 also issued under 26 U.S.C. 4482(b); §41.4483-3 also issued under 26 U.S.C. 4483(d).

Par. 2. Section 41.4481-1 is revised to read as set forth below:

§41.4481-1 Imposition of tax.

(a) *In general* (1) A tax is imposed under section 4481(a) of the Code for each taxable period beginning after June 30, 1984, on the first use on the public highways in the United States during such period of any highway motor vehicle that (together with the semitrailers and trailers customarily used in connection with highway motor vehicles of the same type as such highway motor vehicle) has a taxable gross weight of at least 55,000 pounds, at the rate specified in paragraph (b) of this section. The tax is imposed on the use of such a highway motor vehicle only if, at the time of the use of such vehicle, it is registered or required to be registered in the name of a person (whether or not such person is the person who uses the vehicle). See, however, §§41.4483-1, 41.4483-2, and 41.4483-3 relating, respectively, to exemptions from the tax in the case of highway motor vehicles used by a state or any political subdivision thereof, certain transit-type buses, and vehicles used for 5,000 or fewer miles (7,500 or fewer miles in the case of agricultural vehicles) on public highways. See §41.4483-6 relating to a reduction in tax in the case of certain trucks used in logging. For definitions of the terms "registered", "highway motor vehicle", "taxable gross weight", "taxable period", "use", and "customary use", see §§41.4481-4, 41.4482(a)-1, 41.4482(b)-1, and paragraphs (b), (c), and (d) of §41.4482(c)-1 respectively.

(2) For taxable periods beginning after June 30, 1985, any highway motor vehicle that is issued a base plate by a Canadian province under the International Registration Plan (IRP) or similar agreement and has a proportional registration under such agreement to satisfy the registration laws of any of the United States shall be exempt from the tax imposed by section 4481(a).

(b) *Rate of tax.* (1) For taxable periods after June 30, 1956, and before July 1, 1984, the tax is computed on each 1,000 pounds of taxable gross weight or fraction thereof for each highway motor vehicle the use of which at any time during the taxable period is subject to the tax. Thus, any fraction of 1,000 pounds of taxable gross weight is treated as 1,000 pounds for purposes of the computation of the tax. Following are the rates of tax in effect for taxable periods after June 30, 1956, and before July 1, 1984:

Period of vehicle use	Rate of tax per 1,000 pounds or fraction thereof of taxable gross weight
For each taxable year period commencing after June 30, 1956, and ending before July 1, 1961	$1.50
For each taxable year period commencing after June 30, 1961, and ending before July 1, 1984	3.00

(2) For taxable periods after June 30, 1984, the tax is computed on each 1,000 pounds of taxable gross weight or fraction thereof of each highway motor vehicle the use of which at any time during the taxable period is subject to the tax as set forth in paragraph (a)(1) of this section. Thus, any fraction of 1,000 pounds of taxable gross weight in excess of 55,000 pounds of taxable gross weight is treated as 1,000 pounds for purposes of the computation of the tax. Following are the rates of tax in effect for taxable periods after June 30, 1984:

Taxable gross weight	Rate of tax
At least 55,000 pounds but not over 75,000.	$100 per taxable period plus $22 for each 1,000 pounds (or fraction thereof) in excess of 55,000 pounds.
Over 75,000 pounds	$550.

For the taxable period beginning July 1, 1988, and ending September 30, 1988, the annual rate of tax shall be determined by substituting "$25" for "$100", "$5.50" for "$22", and "$137.50" for "$550", in the table in this paragraph (b)(2). However, if the tax imposed by section 4481(a) is extended to apply to use after September 30, 1988, the rate of tax for taxable periods after June 30, 1988, shall be as provided in section 4481(a).

(c) *Computation of tax.* (1) Except as provided in paragraph (c)(2) of this section, the tax on the use of a particular highway motor vehicle for taxable periods beginning after June 30, 1984, is computed as follows:

(i) For vehicles with a taxable gross weight of at least 55,000 pounds, but not over 75,000 pounds, add to $100 an amount equal to $22 for each 1,000 pounds (or fraction thereof) in excess of 55,000 pounds; and

(ii) For vehicles with a taxable gross weight over 75,000 pounds, the tax is $550.

(2) If the first taxable use of a particular highway motor vehicle is made after the first month of the taxable period, the tax on the use of such vehicle for such taxable period is computed by multiplying the amount of tax that would be due for a full taxable period as computed under paragraph (c)(1) of this section, by a fraction. Such fraction shall have as its numerator the number of months in the taxable period beginning with the month of first taxable use and as its denominator the number of months in the entire taxable period. For purposes of determining the fraction, any part of a month is counted as a full month. (See example (2) of paragraph (e) of this section.)

(3) If a Form 2290 has been filed for a taxable period for a highway motor vehicle based on a particular taxable gross weight, and such taxable gross weight increases during the same taxable period, then the taxpayer shall file a new Form 2290 and pay (either in full or by installments) any additional tax imposed as a result of the increased taxable gross weight. Such additional tax shall be equal to the amount calculated according to the following formula:

$$\left[\left(T_1 \times \frac{P}{12}\right) + \left(T_2 \times \frac{R}{12}\right)\right] - T_1$$

where:

- T_1 = Tax imposed for a full taxable period (or partial taxable period as determined under paragraph (c)(2) of this section) at the vehicle's previously reported taxable gross weight.
- T_2 = Tax imposed for the same taxable period as used in T_1 at the vehicle's increased taxable gross weight.
- P = The number of months in the taxable period during which the vehicle's taxable gross weight was as previously reported for such taxable period. This number does not include the month in which the vehicle's taxable gross weight increased.
- R = The number of months remaining in the taxable period including the month in which the vehicle's taxable gross weight was increased.

If tax was imposed for a partial taxable period as determined under paragraph (c)(2) of this section, the additional tax is determined by substituting the number of months in such partial taxable period for "12" in the above formula.

(4) If an any taxable period the taxable gross weight of a highway motor vehicle is decreased, the computation of tax is not affected and no right to credit or refund of any tax paid under section 4481 arises.

(5) If in any taxable period a highway motor vehicle is destroyed or stolen before the first day of the last month in the taxable period, and is not subsequently used during such taxable period, the tax shall be calculated proportionately from the first day of the month in the period in which the first taxable use of the highway motor vehicle occurs to and including the last day of the month in which the highway motor vehicle was destroyed or stolen. Any tax paid under section 4481(a) on such a highway motor vehicle in excess of the tax calculated in the preceding sentence, shall be an overpayment for which a credit or refund of tax may be claimed. For purposes of this paragraph (c)(5), a highway motor vehicle is destroyed if the vehicle is damaged due to an accident or other casualty to such an extent that it is not economical to rebuild.

(6) If the use of a highway motor vehicle during the taxable period is discontinued (for reasons other than destruction or theft as described in paragraph (c)(5) of this section) or is converted to a use which is exempt from the tax imposed by section 4481(a), the computation of the tax is not affected and no right to a credit or refund of any tax paid under section 4481 arises.

(d) *Credit or refund of tax under section 4481(a).* (1) Any claim for refund of an overpayment of tax under section 4481(a) due to destruction or theft of the vehicle shall be made in accordance with the applicable provisions of this section and §301.6402-2 (Regulations on Procedure and Administration) and shall be filed by the person in whose name the vehicle is registered or required to be registered when the vehicle is destroyed or stolen A claim for refund of the tax imposed by section 4481(a) is to be filed on Form 843 (Claim).

(2) Any person entitled to claim a refund of tax under paragraph (d)(1) of this section may, in lieu of claiming a refund of such tax, claim a credit for such tax on the next Form 2290 required to be filed.

(e) *Examples.* The application of this section may be illustrated by the following examples:

Example (1). In the taxable period beginning July 1, 1984, the first taxable use of a particular highway motor vehicle, a bus, having a taxable gross weight of 56,000 pounds, occurs on July 10, 1984, at which time the vehicle is registered in the name of X. A tax of $122 ($100 + $22) is imposed on X for the use of such vehicle for such taxable period.

Example (2). On July 1, 1984, X has registered in his name a highway motor vehicle having a taxable gross weight of 60,000 pounds. The vehicle is in "dead storage" until August 10, 1984, at which time X starts using the vehicle on the public highways in carrying on his trucking business. On August 10, 1984, the vehicle is still registered in X's name. Since the first taxable use of this highway motor vehicle during the taxable period occurred on August 10, 1984, X is required to pay a tax of $192.50 ([$100 + (5 × $22)] × 11/12) for such taxable period.

Example (3). On April 15, 1985, a vehicle with a taxable gross weight of 70,000 pounds and registered in the name of Y is completely destroyed. Y had purchased the vehicle from X who had paid the tax for the taxable period beginning July 1, 1984. Y is entitled to a refund of tax for those full months after destruction in the taxable period ending June 30, 1985. Thus, Y may file a claim for a refund of $71.67 − 2/12 of the total tax of $430 ($100 + (15 × $22)).

Par. 3. Section 41.4481-1T is removed.

Par. 4. Section 41.4481-1aT is redesignated as §41.4481-1T.

Par. 5. Section 41.4481-2 is amended as follows:

(a) Paragraph (a)(2) and the example contained therein are revised to read as set forth below.

(b) The material following the first sentence of paragraph (b) is revised to read as set forth below.

§41.4481-2 Persons liable for tax.

(a) * * *

(2) The application of paragraph (a)(1) of this section may be illustrated by the following example:

Example. In the taxable period beginning July 1, 1985, the first taxable use of a particular highway motor vehicle having a taxable gross weight of 60,000 pounds occurs on July 10, 1985, at which time the vehicle is registered in the name of Y. On September 1, 1985, Y sells the vehicle to X who registers and uses the vehicle before the end of such taxable period. Since the vehicle was registered in the name of Y at the time of its first taxable use, Y is liable for the total tax of $210 ($100 + (5 × $22)) imposed on the use of the vehicle for the taxable period. X is also liable for $210 tax or any part thereof, but only to the extent that Y does not pay it. To the extent that either X or Y pays the tax the other party is relieved of such liability.

(b) * * * Such person shall also obtain and keep as evidence a statement from the transferor as to whether there was in effect, at the time the vehicle was acquired, a suspension under §41.4483-3(a) of the tax imposed by section 4481(a). The evidence may take the form of a written statement, signed and dated by the person from whom the vehicle was acquired, showing whether there was or was not a prior taxable use of the vehicle and whether there was a suspension of tax in the taxable period. If the vehicle is acquired from a dealer in highway motor vehicles, the statement may be obtained from such dealer or from the person from whom the dealer acquired such vehicle. If evidence is not obtained showing whether there was or was not a prior taxable use of such vehicle and whether there was a suspension of tax in the taxable period, such person shall keep as a part of his records a written statement of the reason why he was unable to obtain such evidence.

* * * * *

Par. 6. Section 41.4482(b)-1 is amended as follows:

(a) Paragraph (a) is revised to read as set forth below.

(b) Paragraph (d) is amended by revising the heading to read as set forth below and by substituting "after June 30, 1969, and before July 1, 1984" for "beginning on or after July 1, 1969", at the end of the first sentence.

(c) New paragraphs (e) and (f) are aided to read as set forth below.

§41.4482(b)-1. Definition of taxable gross weight.

(a) *In general.* The tax imposed on the use of a highway motor vehicle (of a taxable gross weight of at least 55,000 pounds) is based on the taxable gross weight of such highway motor vehicle. Taxable gross weight of a highway motor vehicle is determined with reference to the sum of (1) the actual unloaded weight of such highway motor vehicle (fully equipped for serv-

ice); (2) the actual unloaded weight of any trailers or semitrailers (fully equipped for service) customarily used in combination with such highway motor vehicle; and (3) the weight of the maximum load customarily carried on such highway motor vehicle and on any trailers or semitrailers customarily used in combination with such highway motor vehicle. In order to determine the taxable gross weight of a particular vehicle for a particular taxable period, use the appropriate method described in either paragraphs (c), (d), or (e) of this section or §41.4482(b)-1T.

* * * * *

(d) *Schedule of taxable gross weights for taxable periods beginning after June 30, 1969, and ending before July 1, 1984.* * * *

(e) *Determination of taxable gross weight for taxable periods after June 30, 1985*—(1) *In general.* For purposes of the tax imposed by section 4481(a), the taxable gross weight of a highway motor vehicle shall be equal to the sum of the weights referred to in paragraph (a) of this section. The taxable gross weight of a highway motor vehicle shall be reported by the taxpayer on Form 2290 for any vehicle that has a taxable gross weight of 55,000 pounds or more. In the case of a highway motor vehicle that is registered in at least one State that requires a declaration of gross weight to be stated as a specific amount for any purpose (including proportional or prorate registration or the payment of any other fees or taxes), the taxable gross weight of such vehicle must be no less than the highest gross weight declaration (or combined gross weight declaration in the case of a tractor-trailer or truck-trailer combination) made by the registrant in any State with respect to such vehicle. If a highway motor vehicle is registered in at least one State that requires vehicles to register on the basis of gross weight and such vehicle is not registered in any State that requires a declaration of gross weight to be stated as a specific amount by the registrant, the taxable gross weight of such vehicle must fall within the highest gross weight category of such State for which such vehicle is registered during the taxable period.

Declarations of weight made in order to obtain special temporary travel permits which allow a vehicle to, (i) operate in a State in which the vehicle is not registered or prorated, (ii) operate at more than a State's maximum statutory weight limit, or (iii) operate at more than the weight that the vehicle is registered in a State, shall not be considered in determining the taxable gross weight of a vehicle.

(2) *Buses.* For purposes of the tax imposed by section 4481(a), the taxable gross weight of a bus shall be the sum of the weights referred to in paragraph (a) of this section except that "the weight of the maximum load customarily carried" on a bus shall be equal to 150 pounds times the number of units of seating capacity provided for passengers and driver.

(f) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). A is the owner of a truck-tractor. On January 1, 1985, A registers the truck-tractor in three states—X, Y, and Z. For purposes of registering the vehicle in State X, A declares the gross operating weight of his truck-tractor to be 60,000 pounds. The declaration of the gross weight of the vehicle at 60,000 pounds places A's truck-tractor in the State X registration category of 55,000 to 62,000 pounds gross weight. Thus, the registered weight of A's vehicle in State X is 62,000 pounds. At the same time as A registers the vehicle in State X, A also proportionally registers the vehicle under the IRP in State Y. A uses the same declared gross weight of 60,000 pounds for purposes of the State Y proportional registration. Registration in State Y at this declared gross weight places A's truck-tractor in the State Y gross weight registration category of 58,000 to 68,000 pounds. Finally, A registers the truck-tractor in State Z. Registration of vehicles in State Z is based on the unladen weight of the vehicle. During the taxable period beginning on July 1, 1985, A's truck-tractor is not registered in any other state. For the taxable period beginning on July 1, 1985, A must declare a taxable gross weight of no less than 60,000 pounds for purposes of the tax imposed by section 4481(a) because that is the highest declared gross weight for state registration or other purposes. Should A declare to any State agency a higher gross operating weight with respect to the truck-tractor during the same taxable period (except for a special temporary permit), A would then be liable for additional tax as determined under paragraph (c)(3) of §41.4481-1.

Example (2). Assume the same facts as in example (1), except that on one occasion during the taxable period, A was issued a special 2-day permit to use his truck-tractor in State Y to haul a load which would give A's unit a total gross weight of 80,000 pounds. A may still declare the taxable gross weight of his unit to be no less than 60,000 pounds because special permits to haul heavier loads on a temporary basis are not considered in determining the taxable gross weight of a vehicle.

Example (3). C owns and has registered in his name 2 trucks which are identical in all respects and which are used to carry the same type of load. The first vehicle is registered only in State X at a registered weight of 73,000 pounds based on a declared gross weight of 70,000 pounds. The second vehicle is registered only in State Y at a registered weight of 68,000 pounds based on a declared gross weight of 65,000 pounds. No other declarations of gross weight are made with respect to either vehicle. For purposes of the Federal heavy vehicle use tax, the taxable gross weight of the vehicles registered in State X may be declared at no less than 70,000 pounds and the taxable gross weight of the vehicle registered in State Y may be declared at no less than 65,000 pounds even though the vehicles are identical.

Par. 7. Section 41.4482(c)-1 is amended by substituting "1988" for "1979" every place it appears in paragraph (b) and by adding a new paragraph (d) immediatey after paragraph (c) to read as set forth below:

§41.4482(c)-1 Definition of State, taxable period, use and customary use.

* * * * *

(d) *Customary use.* For taxable periods beginning after June 30, 1984, the term "customary use" as used in the regulations in this part, means that a semitrailer or trailer shall be treated as customarily used in connection with a highway motor vehicle if the vehicle is equipped to tow such semitrailer or trailer.

Par. 8. Examples (1), (2), and (3) of §41.4483-2(f) are amended by substituting "1984" for "1962" wherever it appears, by substituting "1985" for "1963" wherever it appears, by substituting the phrase "at least 55,000 pounds" for "more than 26,000 pounds" wherever it appears, and by substituting the phrase "less than 55,000 pounds" for "26,000 pounds or less" wherever it appears.

Par. 9. Section 41.4483-2T is removed.

Par. 10. Section 41.4483-3 is redesignated as §41.4483-4, §41.4483-3T is removed and a new §41.4483-3 is inserted immediately after §41.4483-2 to read as set forth below:

§41.4483-3 Exemption for trucks used for 5,000 or fewer miles and agricultural vehicles used for 7,500 or fewer miles on public highways.

(a) *Suspension of tax.*—(1) *In general.* Liability for the tax imposed by

section 4481(a) is suspended during a taxable period if it is reasonable to expect that the vehicle will be used for 5,000 or fewer miles on public highways during such taxable period and the owner furnishes in the time and manner required the information required under paragraph (a)(2) of this section. See paragraph (g) of this section regarding special rules for agricultural vehicles. See §41.4482(c)-1(c) for the meaning of "use" on the public highways.

(2) *Information to be supplied in support of suspension of tax.* The owner of a highway motor vehicle who reasonably expects that the vehicle will be used for 5,000 or fewer miles on public highways during a taxable period shall furnish on the first Form 2290 (Heavy Vehicle Use Tax Return) filed during the taxable period for such motor vehicle, such information as is required by the Form in order to support the suspension of tax under paragraph (a) of this section.

(b) *Cessation of suspension from tax.* If a highway motor vehicle on which the tax under section 4481(a) is suspended for a particular taxable period under paragraph (a)(1) of this section is used for more than 5,000 miles on public highways during such taxable period, the owner of the vehicle shall pay the tax for the entire taxable period in accordance with section 4481(a). The tax shall be reported on a Form 2290, which must be filed on or before the last day of the month immediately following the month in which the use of the vehicle during the taxable period exceeds 5,000 miles. If such Form is filed within the time required by the preceding sentence, it shall be treated as timely filed.

(c) *Exemption.* If at the end of any taxable period during which the tax under section 4481(a) on a highway motor vehicle was suspended under paragraph (a)(1) of this section the vehicle has not been used for more than 5,000 miles on public highways, the vehicle shall be exempt from the tax for that taxable period. The owner of the vehicle shall verify that the vehicle was used for less than 5,000 miles in such ended taxable period on the first Form 2290 filed for the next taxable period.

(d) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). A is the owner of 6 highway motor vehicles, each of which has a taxable gross weight in excess of 55,000 pounds. None of these 6 vehicles are agricultural vehicles. The vehicles are placed in use during July 1984. Because of the nature of his business, A reports on the first Form 2290 filed after June 30, 1984, that he reasonably expects that none of the vehicles will be used for more than 5,000 miles on public highways. Accordingly, the tax imposed by section 4481(a) is suspended for A's 6 vehicles for the taxable period July 1, 1984, through June 30, 1985.

Example (2). Assume the same facts as in example (1) except that during the month of February 1985, the use of one of A's vehicles exceeds 5,000 miles on public highways. A is liable for the full tax for the taxable period July 1, 1984, through June 30, 1985, for that vehicle at the rate set forth in §41.4481-1(b), and must so report on a Form 2290 filed on or before March 31, 1985, the last day of the month following the month in which the use exceeds 5,000 miles.

(e) *Credit or refund of tax for highway motor vehicle used 5,000 or fewer miles.* (1) If a highway motor vehicle on which the tax imposed by section 4481(a) has been paid for a given taxable period is used for 5,000 or fewer miles on public highways during such taxable period, the person who paid the tax may file a claim for refund of an overpayment of the tax at the end of the taxable period. Claims for refunds of tax made under this paragraph (e) shall be filed in the same manner as claims for refunds filed under §41.4481-1(d). Refunds of tax made under this paragraph (e) shall be without interest.

(2) Any person entitled to claim a refund of tax under paragraph (e)(1) of this section may, in lieu of claiming a refund of such tax, claim credit for such tax on the first Form 2290 filed for the next taxable period.

(f) *Relief from liability for tax under certain circumstances.* If the tax imposed by section 4481(a) on a highway motor vehicle is suspended for any taxable period under paragraph (a) of this section and the vehicle is transferred while the suspension is in effect, the transferor will not be liable for any tax on such vehicle for such taxable period if such transferor furnishes a statement to the transferee on name, address and taxpayer identification number, the vehicle identification number, the date of transfer of the vehicle, the number of miles the vehicle has been used on the public highways during the taxable period, the odometer reading at the time of the transfer, and the name, address and taxpayer identification number of the transferee. The statement required in the preceding sentence shall be attached by the transferee to a Form 2290 which must be filed on or before the last day of the month following the month in which such vehicle is transferred. The suspension from tax under paragraph (a) continues until the vehicle is used on the public highways for more than 5,000 miles during the taxable period (including use by the transferor for the portion of the taxable period prior to the transfer). If the transferor has furnished the statement required in this paragraph (f), the transferee and not the transferor is liable for the entire tax under section 4481(a) for the taxable period in which the transfer was made. If the transferor has not furnished such statement to the transferee, then the transferor is also liable for the tax on the use of such vehicle for such taxable period to the extent that the tax or an installment payment of the tax has not been previously paid. See paragraph (b) of this section relating to cessation of suspension from tax.

(g) *Special rule for agricultural vehicles*—(1) *In General.* In applying the provisions of this section to an agricultural vehicle, "7,500" shall be substituted for "5,000" each place it appears in paragraphs (a) through (f) of this section.

(2) *Meaning of terms*—(i) *Agriculture vehicle.* An agricultural vehicle is any highway motor vehicle—

(A) Used (or expected to be used) primarily for farming purposes, and

(B) Registered (under the laws of the State or States in which such vehicle is required to be registered) as a highway motor vehicle used for farming purposes.

A highway motor vehicle is used primarily for farming purposes if more than one-half of such vehicle's use (determined on the basis of mileage) during the taxable period is for farming purposes. Further, the highway motor vehicle must be registered (under the laws of the State or States where such vehicle is required to be registered) as a highway motor vehicle used for farming purposes for the entire taxable period in order to qualify as an agricultural vehicle. See §41.4482(a)-(1) for the definition of "highway motor vehi-

cle". A vehicle will be considered to be registered under the laws of the State as a highway motor vehicle used for farming purposes if such vehicle is so registered under a state statute or legally valid regulations. In addition, no special tag or license plate identifying a vehicle as being used for farming purposes is required.

(ii) *Farming purposes.* For purposes of this section, "farming purposes" means the transporting of any farm commodity to or from a farm, or the use directly in agricultural production.

(iii) *Farm commodity.* A "farm commodity" is any agricultural or horticultural commodity, feed, seed, fertilizer, livestock, bees, poultry, fur-bearing animals, or wildlife. A farm commodity does not include a commodity which has been changed by a processing operation from its raw or natural state. For example, juice which has been extracted from fruits or vegetables is not a farm commodity for purposes of this paragraph (g).

(iv) *Farm.* The term "farm" includes stock (including feed yards for fattening cattle), dairy, poultry, fruit, fur-bearing animal, and truck farms, plantations, ranches, nurseries, ranges, orchards, and such greenhouses and other similar structures as are used primarily for the raising of any agricultural or horticultural commodity. Greenhouses and other similar structures used primarily for purposes other than the raising of agricultural or horticultural commodities (for example, display, storage, or fabrication of wreaths, corsages, and bouquets) do not constitute "farms".

(v) *Agricultural production*—(A) *In general.* A highway motor vehicle is considered to be used directly in agricultural production only if it is used as indicated in the following paragraphs.

(B) *Use of a highway motor vehicle in connection with cultivating, raising, and harvesting.* A highway motor vehicle is considered to be used directly in agricultural production if such vehicle is used in connection with cultivating the soil, or raising or harvesting any agricultural or horticultural commodity, including the raising, shearing, feeding, caring for, training and management of livestock, bees, poultry, and fur-bearing animals and wildlife. A highway motor vehicle which is used in connection with operations such as canning, freezing, packaging, or other processing operations will not be considered to be used directly in agricultural production.

(C) *Use of a highway motor vehicle in connection with planting, cultivation, caring for, cutting, etc. of trees.* A highway motor vehicle is used directly for agricultural production if it is used in connection with planting, cultivating, caring for, or cutting of trees, or in connection with the preparation (other than milling) of trees for market; but only if such operations are incidental to farming operations. These farming operations include felling trees and cutting them into logs or firewood, but do not include sawing logs into lumber, chipping, or other milling operations. The operations specified in this paragraph (g)(2)(v)(C) will be considered "incidental to farming operations" only if they are of a minor nature in comparison with the total farming operations involved. Therefore, a treefarmer or timbergrower may not claim that a highway motor vehicle used in that trade or business is used directly in agricultural production.

(D) *Use of a highway motor vehicle in connection with the operation, management, conservation, improvement, or maintenance of a farm.* A highway motor vehicle is used directly for agricultural production if it is used in connection with the operation, management, conservation, improvement, or maintenance of a farm and its tools and equipment. Examples of these operations include clearing land, repairing fences and farm buildings, building terraces or irrigation ditches, cleaning tools or farm machinery, painting, and other activities which contribute in any way to the conduct of a farm as such, as distinguished from any other enterprise in which the owner of the highway motor vehicle may be engaged.

(3) *Mileage on farm not counted toward 7,500 mile limit.* For purposes of this section, the number of miles which a highway motor vehicle is driven on a farm and not on the public highways shall not be taken into account when determining whether the vehicle's mileage is in excess of 7,500 miles. Accurate records should be kept by taxpayers of the number of miles that a highway motor vehicle is operated on a farm.

(h) *Owner.* For purposes of this section the term "owner", means, with respect to any highway motor vehicle, the person described in section 4481(b).

Par. 11. New §41.4483-5 and §41.4483-6 are added immediately after newly designated §41.4483-4 to read as set forth below:

§41.4483-5 Termination of exemptions.

The exemptions described in §§41.4483-1 and 41.4483-2 shall not apply on and after October 1, 1988.

§41.4483-6 Reduction in tax for trucks used in logging.

(a) *In general.* The tax imposed by section 4481 shall be reduced by 25 percent in the case of a truck used in logging.

(b) *Truck used in logging.* The term "truck used in logging" means any highway motor vehicle which—

(1) Is used exclusively during the taxable period for the transportation, to and from a point located on a forested site, of products harvested from such forested site, and

(2) Is registered (under the laws of the State or States in which such vehicle is required to be registered) as a highway motor vehicle used exclusively in the transportation of harvested forest products.

Products harvested from the forested site may include timber which has been processed for commercial use by sawing into lumber, chipping or other milling operations if such processing occurs prior to transportation from the forested site. A vehicle will be considered to be registered under the laws of a state as a highway motor vehicle used exclusively in the transportation of harvested forest products if such vehicle is so registered under a state statute or legally valid regulations. In addition, no special tag or license plate identifying a vehicle is being used in the transportation of harvested forest products is required.

Par. 12. Section 41.6001-1 is amended as follows:

(a) Paragraphs (a)(2), (a)(3), (a)(4), (a)(5), (a)(6), and (a)(7) are redesignated as paragraphs (a)(3), (a)(4), (a)(5), (a)(6), (a)(7), and (a)(8) respectively; a new paragraph (a)(2) is

added to read as set forth below; and the paragraph (a) introductory text, paragraph (a)(1), and newly designated paragraphs (a)(6) and (a)(7) are revised to read as set forth below.

(b) Paragraphs (c) and (d) are redesignated as paragraphs (d) and (e) respectively.

(c) A new paragraph (c) is inserted immediately after paragraph (b) to read as set forth below.

(d) Newly designated paragraph (e)(2) is revised to read as set forth below.

§41.6001-1 Records.

(a) *Records to be kept.* Every person in whose name a highway motor vehicle having a taxable gross weight of at least 55,000 pounds is registered or required to be registered at any time during the taxable period shall keep records sufficient to enable the district director to determine whether such person is liable for the tax and, if so, the amount thereof. See §41.4482(b)-1 for the definition of taxable gross weight. Such records shall show with respect to each such vehicle:

(1) A description of the vehicle (including serial number or manufacturer's number) in sufficient detail to permit positive identification of the vehicle.

(2) The weight of the loads carried by the vehicle in such form as is required under the laws of any State in which the vehicle is registered or required to be registered, in order to permit verification of such vehicle's taxable gross weight.

* * * * *

(6) In the case of any such vehicle disposed of otherwise than by sale or other transfer (including disposition by theft or destruction for taxable periods after June 30, 1984), the date and method of disposition of the vehicle.

(7) In the case of a secondhand highway motor vehicle acquired at any time in the taxable period, evidence showing whether there was a prior taxable use in such taxable period of the highway motor vehicle (see paragraph (b) of §41.4481-2) or, for taxable periods after June 30, 1984, whether there was a suspension of tax in effect (see §41.4483-3). For filing requirements of purchaser of second-hand vehicle, see paragraph (b) of §41.6011(a)-1.

* * * * *

(c) *Exemption for vehicles used 5,000 miles or less.* The owner of a highway motor vehicle who reasonably expects the vehicle to be exempt from the tax under section 4481(a) by reason of §41.4483-3(c) for a given taxable period shall keep records which indicate the reason that the use of the vehicle is not expected to exceed 55,000 miles on public highways.

* * * * *

(e) * * *

(2) Records required by paragraph (a) of this section shall be maintained for a period of at least 3 years after the date the tax becomes due or the date the tax is paid, whichever is the later. Records required by paragraphs (b) and (c) of this section shall be maintained for a period of at least 3 years after the end of the taxable period for which such exemption applies. Records required by paragraph (d) of this section (including any record required by paragraphs (a), (b), or (c) of this section which relates to a claim) shall be maintained for a period of at least 3 years after the date the claim is filed.

Par. 13. A new §41.6001-2 is inserted immediately after §41.6001-1 to read as follows:

§41.6001-2 Proof of payment for state registration purposes.

(a) *In general.* This section sets forth the circumstances under which a State must require proof of payment of the tax imposed by section 4481(a), and the required manner in which such proof of payment is to be received by the State as a condition of issuing a registration for a highway motor vehicle. A State must either comply with the provisions of this section or, in the alternative, comply with such other rules regarding the satisfaction of this proof of payment requirement as may be prescribed by the Commissioner (by Revenue Procedure or otherwise), in order to avoid a reduction of Federal-aid highway funds apportioned under 23 U.S.C. 104(b)(5). The rules of this section apply to highway motor vehicles for which applications for registration are received by a State on or after October 1, 1985. For purposes of this section, an application for registration which is mailed will be considered to be received by a State on the date on which it is postmarked.

(b) *Proof of payment required—* (1) *In general.* A State to which an application is made to register a highway motor vehicle must receive from the registrant proof of payment of the tax imposed by section 4481(a) (or proof of suspension of such tax under §41.4483-3) unless otherwise provided in this paragraph (b)(1), or paragraph (b)(2) or (5) of this section. See paragraph (c) of this section for the meaning of "proof of payment". Such proof of payment must be received by the State before the State issues a registration for such vehicle unless the State is using a system of registration provided in paragraph (b)(3) of this section. The term "proof of payment", when used in this section, shall be considered to refer in appropriate cases to proof of suspension of the tax imposed by section 4481(a). Except as provided in paragraph (b)(4) of this section, any proof of payment presented to a State must relate to tax paid (or suspended under §41.4483-3) for the taxable period which includes the date that the State receives the application for registration. A "base state" must be presented proof of payment when issuing an "apportioned plate" under the International Registration Plan (IRP) (or similar agreement) for a highway motor vehicle, but no proof of payment of the tax imposed by section 4481(a) is required to be presented to the other states for which the vehicle is proportionally registered and which are listed on the IRP cab card issued by the base state. Further, a State is not required to receive proof of payment in order to issue special temporary travel permits which allow a vehicle to, (i) operate in a State in which the vehicle is not registered (including proportional or prorate registration), (ii) operate at more than the State's maximum statutory weight limit, or (iii) operate at more than the weight that the vehicle is registered in a State. Further, a State may register a highway motor vehicle without proof of payment if the person registering the vehicle presents the original or a photocopy of sale (or other document evidencing transfer) indicating that the vehicle was purchased by the owner either as a new or used vehicle during the preceding 60 days before the date that

the State receives the application for registration of such vehicle.

(2) *States required to receive proof of payment with respect to vehicles subject to tax*—(i) *Registration in States that register vehicles on the basis of gross weight.* A State that registers vehicles on the basis of gross weight must require proof of payment with respect to any highway motor vehicle that has a declared gross weight in that State of 55,000 pounds or more. If no declaration of a specific gross weight is made with respect to a highway motor vehicles registered on the basis of gross weight, then the State must require proof of payment with respect to such vehicle if the minimum weight of the registered weight category for such vehicle is 55,000 pounds or more. No such proof of payment is required for any vehicle that does not have a declared gross weight in that state of 55,000 pounds or more.

(ii) *Registration in States that register vehicles other than on the basis of gross weight.* A State that registers vehicles other than on the basis of gross weight must require proof of payment in order to register a highway motor vehicle unless the State receives a written statement stating that during the taxable period which includes the date on which the State receives the application for registration, such vehicle had a taxable gross weight of less than 55,000 pounds. The written statement must state the number of vehicles being registered that have a taxable gross weight of less than 55,000 pounds and must be signed by the person registering the vehicles. A State may register a highway motor vehicle without receiving either proof of payment or a written statement as described above if such vehicle has an unladen weight of 8,000 pounds or less. However, the State must require proof of payment when issuing a "base plate" registration for a vehicle if a gross weight declaration of 55,000 pounds or more is made to the State with respect to such vehicle in order to proportionally register the vehicle in another State under the IRP.

(iii) *State may require additional proof.* Nothing contained in this section shall prohibit a State from refusing to register a highway motor vehicle without additional proof that the vehicle is not subject to tax under section 4481(a) even though the person registering the vehicle submits a written statement declaring that the taxable gross weight of such vehicle is less than 55,000 pounds.

(3) *Suspension registration system.* A State may issue a registration with respect to any or all highway motor vehicles subject to tax under section 4481(a) without receiving proof of payment if such vehicles are registered under a "suspension" registration system. Registration of a vehicle subject to tax under a suspension system must be on the condition that, (i) the State receive proof of payment with respect to such vehicle no later than 4 months (or any lesser time to be determined by the State) after the beginning of the vehicle's registration period, and (ii) the State's system provides for the automatic suspension (*e.g.* through the use of computer-generated notices) of such vehicle's registration if no proof of payment is received within the required time. Following such a suspension of registration, the State must not allow the vehicle to be registered until valid proof of payment is received. A State may either register all vehicles subject to tax under section 4481(a) in the manner described in this paragraph (b)(3) or adopt this manner of registration only in situations which the State deems appropriate. A State that registers vehicles other than on the basis of gross weight may also register vehicles not subject to tax under a suspension registration system for purposes of receiving the written statement described in paragraph (b)(2)(ii).

(4) *Registration during certain months.* In the case of a highway motor vehicle subject to tax under section 4481(a) for which a State receives an application for registration during the months of July, August or September, proof of payment for the immediately preceding taxable period may be used to verify payment of the tax imposed by section 4481(a).

(5) *Registration in a State several times during the taxable period.* A State is required to receive proof of payment with respect to a highway motor vehicle subject to tax under section 4481(a) only once during a taxable period. Thus, in the case of a State that allows a highway motor vehicle to be registered on a quarterly basis, rather than annually, proof of payment will be required to be presented to the State only once during the taxable period. The State may designate any one of the four quarterly registration periods as the time for submitting proof of payment.

(6) *Proof of payment records.* See 23 CFR Part 669 for a description of the supporting documentation and records that will be required by the Federal Highway Administration (FHWA) in order to allow the FHWA to verify that the State is in compliance with the rules of this section.

(c) *Proof of payment*—(1) *In general.* (i) The proof of payment required in paragraph (b) of this section shall consist of a receipted Schedule 1 (Form 2290) that is returned by the Internal Revenue Service to a taxpayer who files a return of tax under section 4481(a) and pays the amount of tax (or installment thereof) due with such return. A photocopy of such receipted Schedule 1 shall also serve as proof of payment. Such Schedule 1 shall serve as proof of suspension of such tax under §41.4483-3 for the number of vehicles entered in that part of the Schedule 1 designated for vehicles for which tax has been suspended. Except as provided in paragraph (c)(1)(ii) of this section, the vehicle identification number of the vehicle being registered must appear on the Schedule 1 (or an attached page) in order for the Schedule 1 to be a valid proof of payment for such vehicle.

(ii) If a receipted Schedule 1 is submitted as proof of payment for the registration of one or more highway motor vehicles and—

(A) *(1)* The total of the number of vehicles on such Schedule 1 for which tax has not been suspended under §41.4483-3 exceeds 21, or

(2) The total of the number of vehicles on such Schedule 1 for which tax has been suspended under §41.4483-3 exceeds 9, and

(B) The name of the taxpayer appearing on such Schedule 1 is one of the names in which such vehicles are sought to be registered,

such Schedule 1 shall be accepted as proof of payment in support of the registration of a number of vehicles equal to or less than such total and a list of the vehicles (or their vehicle identifica-

tion numbers) is not required as part of such proof of payment.

(iii) If a Schedule 1 which does not include a list of vehicle identification numbers is submitted as proof of payment for the registration of one or more highway motor vehicles and the name of the taxpayer appearing on such Schedule 1 is not one of the names in which such vehicles are sought to be registered than such Schedule 1 shall be accepted as proof of payment in support of the registration of a number of vehicles equal to or less than the total number of vehicles on such Schedule 1 provided the Schedule 1 is accompanied by a written statement executed by the taxpayer. Such written statement shall contain the vehicle identification numbers of the vehicles sought to be registered and a statement that the tax under section 4481(a) has been paid with respect to such vehicles for the taxable period. The statement must be signed by the taxpayer whose name appears on the Schedule 1.

(2) *Acceptable substitute for receipted Schedule 1.* For purposes of this section, a State shall accept as proof of payment a photocopy of the Form 2290 (with the Schedule 1 attached) which was filed with the Internal Revenue Service for the vehicle being registered with sufficient documentation of payment of tax due at the time the Form 2290 was filed (such as a photocopy of both sides of a cancelled check). This substitute proof of payment may be used to register a vehicle when, for example, the receipted Schedule 1 has been lost, or when at the time required for registration of a vehicle, a receipted Schedule 1 has not been received by a taxpayer who has filed a Form 2290 with respect to such vehicle. The rules of paragraph (c)(1)(ii) of this section regarding the circumstances in which a list of vehicle identification numbers is not required as part of a valid proof of payment, apply to a non-receipted Schedule 1 received by a State with a Form 2290 as a substitute proof of payment under the paragraph (c)(2).

(d) *Examples.* The application of this section may be illustrated by the following examples:

Example (1). A applies to register a 3-axle single unit truck in State R, a member of the International Registration Plan, on November 1, 1985. State R registers vehicles based on unladen weight. At the same time, A applies for a proportional registration under the IRP to use the truck in State S. State S does not register vehicles on the basis of unladen weight. For purposes of the proportional registration in State S, A declares the gross weight of his truck at 50,000 pounds. A does not register the truck in any other states. A's truck has a taxable gross weight, as determined under §41.4482(b)-1(e), of less than 55,000 pounds and therefore is not subject to tax under section 4481(a). A submits a written statement along with his application for registration in State R. The written statement states that A's vehicle has a taxable gross weight of less than 55,000 pounds and is signed by A. State R may register A's truck and issue a proportional registration for A to use his truck in State S without receiving proof of payment.

Example (2). Assume the same facts as an example (1) except that A applies for proportional registration under the IRP in State S and declares the truck to have a gross weight of 60,000 pounds. The taxable gross weight of A's truck, as determined under §41.4482(b)-1(e) is 60,000 pounds. State R may not register A's truck unless it receives proof of payment within the meaning of paragraph (c) of this section.

Example (3). On October 10, 1985, C applies to register 9 vehicles in State U and declares the gross weight of each vehicle to be 70,000 pounds. C has not applied for registration in any other states. At the time of applying for registration, C presents a photocopy of a receipted Schedule 1 (Form 2290) that shows a total of 9 vehicles which are subject to tax under section 4481(a) and for which tax is not suspended under §41.4483-3(a). The vehicle identification numbers of the vehicles that C is seeking to register must be listed on the Schedule 1 in order for State U to register the vehicles.

Example (4). On November 10, 1985, B applies to register 10 vehicles in State T jointly in the names of B and F (a fleet operator) and declares each to have a gross weight of 70,000 pounds. B submits along with the registration application, a photocopy of a receipted Schedule 1 (Form 2290) that shows a total of 100 vehicles which are subject to tax under section 4481(a). F is the taxpayer named on the Schedule 1. No vehicle identification numbers are listed on the Schedule 1 and no list of such numbers is attached. State T may consider the Schedule 1 as proper proof of payment under paragraph (c)(1)(ii) of this section and may register B's vehicles.

Par. 14. The authority citation for Part 48 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 15. Sections 48.6427-1T and 48.6427-2T are removed and new §§48.6427-2 through 48.6427-7 are inserted immediately after §48.6427-1 to read as follows:

§§48.6427-2 through 48.6427-5 [Reserved].

§48.6427-6 Limitation on credit or refund of tax paid on fuel used in intercity, local or school buses after July 31, 1984.

(a) *Limitation on amount of credit or refund*—(1) *In general.* In the case of fuel sold or used after July 31, 1984, on which tax was imposed under section 4041(a), the amount of credit or refund under section 6427(b)(1) shall not exceed 12 cents per gallon except where fuel is used in a bus while such bus is being operated as a "qualified local bus" in which case the credit or refund shall be the full amount of tax paid under section 4041(a) on such fuel.

(2) *Qualified local bus.* A bus is considered to be operated as a "qualified local bus" if such bus—

(i) Is engaged in furnishing (for compensation) intracity passenger land transportation that is available to the general public and is scheduled and along regular routes.

(ii) Has a seating capacity of at least 20 adults (not including the driver), and

(iii) Is under contract with (or is receiving more than a nominal subsidy from) any State or local government (as defined in section 4221(d)(4)) to furnish such transportation.

A company that operates qualified local buses is eligible for a full refund or credit only with respect to fuel used while such buses are operating as qualified local buses. For example, a company that operates its buses along subsidized intracity routes and also on intercity on unsubsidized intracity routes may obtain a full refund or credit only with with respect to fuel used while operating the subsidized intracity routes.

(b) *Meaning of terms*—(1) *Contract with a State or local government.* A bus is under contract with a state or local government only if the contract imposes a bona fide obligation on the operator of the bus to furnish the transportation to which the contract relates.

(2) *More than a nominal subsidy.* A subsidy is more than nominal if the subsidy is reasonably expected to exceed an amount equal to 3 cents multiplied by the number of gallons of fuel used while operating on subsidized routes.

(3) *Intracity passenger land transportation.* The term "intracity passenger and transportation" means the land transportation of passengers to and from points located within the same metropolitan area. The term includes

transportation along routes that cross State, city or county boundaries provided such routes remain within the metropolitan area.

§48.6427-7 Credit or refund of the increased diesel fuel tax to the original purchaser of a diesel-powered automobile or light truck.

(a) *In general.* A credit or refund of the diesel fuel differential amount may be claimed under section 6427(g) for a qualified diesel-powered highway vehicle purchased after January 1, 1985, and before January 1, 1988. A credit or refund of a fraction of the diesel fuel differential amount may be claimed for certain qualified diesel-powered highway vehicles held on January 1, 1985. Any person who is, or is treated as, an original purchaser of a qualified diesel-powered highway vehicle is eligible to claim a credit or refund of the diesel fuel differential amount (or fraction thereof). No interest is payable on the diesel fuel differential amount (or fraction thereof).

(b) *Original purchaser*—(1) *In general.* Generally, an original purchaser is the first person to purchase a new qualified diesel-powered highway vehicle after January 1, 1985 for a use other than resale. In addition, a person holding a qualified diesel-powered highway vehicle for a use other than resale at the end of January 1, 1985, is treated as an original purchaser. For purposes of determining the holder of the vehicle at the end of January 1, 1985, the owner of the vehicle for federal income tax purposes is treated as the holder of the vehicle. However, State or local governments (as defined in section 4221(d)(4)) or nonprofit educational organizations (as defined in section 4221(d)(5)), do not qualify as original purchasers or as holders who are treated as original purchasers.

(2) *Use other than resale*—(i) *Use of a vehicle by a dealer as a demonstrator.* The use of a new vehicle by a dealer as a demonstrator will not be treated as a use other than resale, nor will it cause the vehicle to be treated as other than new when sold by a dealer. Thus, a dealer may not claim a credit or refund under the section for a vehicle used as a demonstrator vehicle; rather, the first person to purchase the demonstrator vehicle for a use other than resale will qualify as the original purchaser of the vehicle.

(ii) *Treatment of leased vehicles.* The lease or rental of a vehicle is treated as a use other than resale both in the case of vehicles purchased after January 1, 1985, and vehicles held at the end of such date. Thus, for example, a person who purchases a qualified diesel-powered highway vehicle on January 15, 1985, and leases the vehicle under the either a long-term or short-term lease under which the leasee is not treated as the owner for Federal income tax purposes, is eligible to claim a credit or refund for the diesel fuel differential amount. In addition, a person who is the owner-lessor of a vehicle leased to a lessee under either a long-term or short-term lease in effect at the end of January 1, 1985, will be treated as the holder over at the end of January 1, 1985 (unless the lease is treated as a sale for Federal income tax purposes).

(3) *Vehicles subject to a lien.* If a person purchases a vehicle subject to a lien and registers the vehicle in the name of the lienholder, the purchaser is eligible to claim the credit or refund even if the lienholder holds nominal title to the vehicle.

(c) *Qualified diesel-powered highway vehicle.* A qualified diesel-powered highway vehicle is any diesel-powered highway vehicle (as defined in §48.4041-7(b)) which—

(1) Has at least 4 wheels,

(2) Has a gross vehicle weight rating (within the meaning of §48.406(a)-1(f)(3)) of 10,000 pounds or less, and

(3) Is registered for highway use in the United States under the laws of any State.

(d) *Diesel fuel differential amount*—(1) *In general.* The diesel fuel differential amount is $102 in the case of a vehicle other than truck or van and $198 in the case of a truck or van. A van for this purpose is a vehicle which has no body sections protruding more than 30 inches ahead of the lead edge of the windshield.

(2) *Amount of credit or refund.* The amount of credit or refund allowable to a person holding a qualified diesel-powered highway vehicle on January 1, 1985, depends upon the model year of the vehicle. The table below sets forth the applicable amounts:

Model year of qualified diesel-powered powered highway vehicle:	Amount: Other than truck or van:	Truck or van:
1984 or 1985	$102	$198
1983	85	165
1982	68	132
1981	51	99
1980	34	66
1979	17	33

No credit or refund is allowed in the case of a 1978 or earlier model year vehicle. The model year designated by the manufacturer for the vehicle is the model year for purposes of the table.

(e) *Reduction in basis.* For purposes of subtitle A of the Internal Revenue Code, the basis of any qualified diesel-powered highway vehicle is reduced (but not below zero) by the diesel fuel differential amount (or fraction thereof) allowable with respect to such vehicle. For example, if a qualified diesel-powered highway vehicle is purchased for business purposes by an original purchaser on January 2, 1985, the basis of such vehicle for purposes of determining depreciation, investment tax credit, and the amount of gain or loss to be recognized upon a disposition of the vehicle is reduced by $102 in the case a vehicle other than a truck or van, and $198 in the case of a truck or van. Such basis reduction shall be considered to occur on the date of purchase or, in the case of a vehicle held on January 1, 1985, on such date.

(f) *Deduction for business purposes.* The availability or claiming of the diesel fuel differential amount (or fraction thereof) as a credit or refund has no effect on the availability to the taxpayer of any otherwise allowable deduction for the cost of diesel fuel purchased by

the taxpayer.

(g) *Claiming the credit or refund*—(1) *One-time claim.* The diesel fuel differential amount (or fraction thereof) may be claimed only once for a qualified diesel-powered highway vehicle. The claim is made by the original purchaser or person treated as the original purchaser, and is claimed as an income tax credit, unless such person is eligible under section 6427(j) to file a claim for refund in lieu of an income tax credit.

(2) *Procedure for claiming the diesel fuel differential amount as an income tax credit.* The amount of credit determined under paragraph (d) of this section is entered on Form 4136 together with any other credits to be entered on such Form. The Form 4136 is then attached to the original purchaser's income tax return.

(3) *Time for claiming credit.* In case of a qualified diesel-powered highway vehicle purchased by an original purchaser after January 1, 1985, and before January 1, 1988, the credit is claimed on the income tax return for the taxable year during which the vehicle was purchased. In the case of a person who is treated as an original purchaser by reason of holding the vehicle at the end of January 1, 1985, the credit is claimed on the income tax return for the taxable year which includes December 31, 1984, *i.e.*, the tax return for 1984 in the case of a calendar year taxpayer.

(4) *Procedure for claiming the diesel fuel differential amount as a refund.* The diesel fuel differential amount may be claimed by the original purchaser or person treated as to the original purchaser or person treated as the original purchaser, as a refund by filing Form 843 (Claim) with the Internal Revenue Service.

Par. 16. The authority citation for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 17. Section 602.101(c) is amended by inserting in the appropriate places in the table:

"§41.4481-1	1545-0143"
"§41.4481-2(b)	1545-0143"
"§41.4483-3	1545-0143"
"§41.6001-1	1545-0143"
"§41.6001-2	1545-0143"
"§48.6427-7	1545-0143"

Chapter 42.– Private Foundations; Black Lung Benefit Trusts
Subchapter A.—Private Foundations

Section 4941.—Taxes on Self-Dealing

26 CFR 53.4941(d)-1: Definition of self-dealing.

Private foundations; self-dealing; incidental benefit to disqualified person. A loan program of a private foundation that provides financing to publicly supported organizations for construction projects in disadvantaged areas does not result in acts of self-dealing within the meaning of section 4941 of the Code merely because certain individuals involved in the construction projects have ordinary banking and business relationships with a bank that is a disqualified person.

Rev. Rul. 85-162

ISSUE

The Internal Revenue Service has been asked whether the loan program of a private foundation that provides financing to publicly supported organizations for construction projects in disadvantaged areas results in acts of self-dealing within the meaning of section 4941 of the Internal Revenue Code because some contractors and subcontractors involved in the contruction projects, their suppliers, and employees of those involved may have ordinary banking and business relationships with a bank that is a disqualified person.

FACTS

P is exempt from federal income tax under section 501(c)(3) of the Code, and is a private foundation within the meaning of section 509(a). *B* is a bank that is a disqualified person with respect to *P* within the meaning of section 4946.

In furtherance of its desire to support the revitalization of inner city areas suffering from blight and decay, *P* has entered into a master loan agreement with *C*, an organization that supports community development organization by furnishing assistance to them. *C* is exempt under section 501(c)(3) of the Code and is not a private foundation because it is described in section 170(b)(1)(A)(vi) and 509(a)(1).

Under the master loan agreement, *P* has extended an interest-free line of credit to *C*, which will re-lend the borrowed funds at substantially below-market interest rates to the community development organizations. Loans under this line of credit are program-related investments within the meaning of section 4944(c) of the Code. The master loan agreement requires that each community development organization must be described in section 501(c)(3) or 170(c)(1) of the Code, and must not be a private foundation under section 509.

Each community development organization uses the proceeds of its loan from *C* to purchase a certificate of deposit from a financial institution other than *B* or any disqualified person with respect to *P*. The purchase of the certificate of deposit facilitates acquisition of financing for construction of projects (primarily residential) in economically disadvantaged areas of the United States. The master loan agreement provides that no construction or permanent financing will be provided by a disqualified person with respect to *P*. The master loan agreement also provides that *P* must approve in advance all of *C*'s loans to community development organizations, and must disburse funds to *C* only as *C* disburses funds to

such organizations.

Each community development organization has sole control over the selection of general contractors, subcontractors, and suppliers for its projects. Neither *P* nor any disqualified person with respect to *P* participates in such selection. Furthermore, loan proceeds are not to be set aside for, directed to, or conditioned upon, the use of contractors or suppliers selected by *P* or by any disqualified person with respect to *P*.

Some general contractors, subcontractors, suppliers, or their employees, however, may have ordinary banking or business relationship with *B* or its affiliates. However, no preferential treatment is accorded by reason of these relationships.

LAW AND ANALYSIS

Section 4941 of the Code imposes a tax on each act of self-dealing between a disqualified person and a private foundation. Section 4941(d)(1)(E) provides that the term "self-dealing" includes any direct or indirect transfer to, or use by or for the benefit of, a disqualified person of the income or the assets of a private foundation.

Section 53.4941(d)-2(f)(2) of the Foundation Excise Tax Regulations provides that the fact that a disqualified person receives an incidental or tenuous benefit from the use of a foundation of its income or assets will not, of itself, make such use an act of self-dealing. This is illustrated by *Example* (1) of section 53.4941(d)-2(f)(4), which considers a grant by a private foundation to the governing body of a city for the purpose of alleviating the slum conditions that exist in a particular neighborhood of a city. A corporation that is a substantial contributor to the foundation, and thus a disqualified person with respect to the foundation, is located in the same area in which the grant is to be used. Although the general improvement of the area may constitute an incidental or tenuous benefit to the corporation, such benefit by itself will not constitute an act of self-dealing under section 4941 of the Code.

Rev. Rul. 80-310, 1980-2 C.B. 319, concerns a grant made by a private foundation to an exempt university to establish an educational program providing instruction in manufacturing engineering. A corporation that is a disqualified person with respect to the private foundation intends to hire graduates of the new program and encourage its employees to enroll, but will not receive preferential treatment in recruiting graduates or enrolling its employees. Rev. Rul. 80-310 holds that the grant does not constitute an act of self-dealing within the meaning of section 4941 of the Code because any benefit to the corporation is incidential.

In this case, as in the slum clearance program described in *Example* (1) of section 53.4941(d)-2(f)(4) of the regulations, and as in the grant described in Rev. Rul. 80-310, providing financing for alleviating conditions in disadvantaged areas is a program of broad public interest. The loan agreement prohibits the community development organizations from purchasing certificates of deposit from *B* or any other disqualified person with respect to *P*; prohibits disqualified persons with respect to *P* from providing construction or permanent financing; and provides that *P* and any disqualified person with respect to *P* will neither participate in the selection of contractors, subcontractors, or suppliers, nor influence such selection. Thus, if any benefit to *B* or some other disqualified person with respect to *P* would result from an ordinary banking and business relation with a contractor, subcontractor, supplier, or an employee of those parties in the described construction projects, such benefit would be incidental or tenuous within the contemplation of section 53.4941(d)-2(f)(2).

HOLDING

The loan program of a private foundation that provides financing to publicly supported organizations described in section 170(b)(1)(A)(vi) of the Code for construction projects in disadvantaged areas does not result in acts of self-dealing within the meaning of section 4941 merely because contractors and subcontractors involved have ordinary banking and business relationships with a bank that is a disqualified person with respect to such foundation.

Treatment of loans without interest. See T.D. 8045, page 343.

Section 4945.—Taxes On Taxable Expenditures

26 CFR 53.4945-4: Grants to individuals. (Also Section 501; 1.501(c)(3)-1.)

Private foundations; taxable expenditures; scholarships to relatives of trust's grantor. A private foundation trust that awards scholarships on a preferential basis to family members and relatives of the trust's grantor does not award such scholarships on an objective and nondiscriminatory basis as required by section 4945(g) of the Code.

Rev. Rul. 85-175

ISSUE

Whether scholarship grants awarded under a procedure that gives preference to family members and relatives of the trust's grantor are awarded on an objective and nondiscriminatory basis as required by section 4945(g) of the Internal Revenue Code.

FACTS

A trust described in section 501(c)(3) of the Code and classified as a private foundation under section 509(a) plans, as an insubstantial part of its activities, to create a scholarship program for the benefit of students residing in the United States. The scholarships awarded pursuant to this program will be subject to the provisions of section 117(a) and will be used for study at educational institutions described in section 170(b)(1)(A)(ii). Under this program, scholarships will be awarded on the basis of financial need and academic achievement. The trust's procedures for awarding scholarships provide that in the event the financial need and academic achievement of several scholarship candidates is substantially the same, preference may be given to those candidates who are family members and relatives of the trust's grantor.

LAW

Section 4945 of the Code imposes an excise tax on the taxable expenditures of a private foundation. Under section 4945(d)(3), the term "taxable expenditures" includes any amount paid or incurred by a private foundation as a

grant to an individual for travel, study, or other similar purposes by such individual, unless the grant satisfies the requirements of section 4945(g).

Section 4945(g) of the Code provides that section 4945(d)(3) shall not apply to certain individual grants awarded on an objective and nondiscriminatory basis pursuant to a procedure approved in advance by the Secretary or his delegate, and if the presence of any one of the three criteria set forth in subsections (1), (2), and (3) is demonstrated to the satisfaction of the Secretary.

Section 53.4945-4(b)(1) of the Foundation and Similar Excise Taxes Regulations provides that grants are not awarded on an objective and nondiscriminatory basis unless the grants are awarded in accordance with a program which, if it were a substantial part of the foundation's activities, would be consistent with the existence of the foundation's exempt status under section 501(c)(3) of the Code.

Section 53.4945-4(b)(2) of the regulations provides, in part, that ordinarily the selection of grantees on an objective and nondiscriminatory basis requires that the group from which the grantees are selected must be sufficiently broad so that the giving of grants to members of that group would be considered to fulfill a purpose described in section 170(c)(2)(B).

Section 53.4945-4(b)(3) of the regulations provides that, in order to be objective and nondiscriminatory within the meaning of section 4945(g), the criteria for selecting grant recipients from the group of potential grantees should be related to the purpose of the grant. Proper criteria might include (but are not limited to) prior academic performance; performance on tests designed to measure ability and aptitude for college work; recommendations from instructors; financial need; and the conclusions which the selection committee might draw from a personal interview as to the individual's motivation, character, ability and potential.

Section 501(c)(3) of the Code provides for the exemption from federal income tax of organizations organized and operated exclusively for educational and charitable purposes if no part of the net earnings inures to the benefit of any private shareholder or individual.

Section 1.501(c)(3)-1(d)(1)(ii) of the Income Tax Regulations provides that an organization is not organized or operated exclusively for one or more exempt purposes unless it serves a public rather than a private interest. Thus, it is necessary for an organization to establish that it is not organized or operated for the benefit of private interests, such as designated individuals, the creator or his family, shareholders of the organization, or persons controlled, directly or indirectly, by such private interests.

ANALYSIS

An organization's scholarships are not awarded on an objective and nondiscriminatory basis as required by section 4945(g) of the Code unless they are awarded in accordance with a program which, if it were a substantial part of the trust's activities, would be consistent with the trust's exempt status under section 501(c)(3). Likewise, under section 53.4945-4(b)(3) of the regulations, an organization's criteria for selecting grant recipients must be related to the purpose of the grant.

That part of the trust's grant program that gives preference to family members and relatives of the trust's grantor is not consistent with exempt status under section 501(c)(3) of the Code because it serves a private purpose of the grantor rather than a public purpose. If this program were a substantial part of its activities, the trust would not be described in section 501(c)(3). Moreover a preference accorded to family members and relatives is not a criterion, like financial need and academic achievement, that is related to the purpose of an educational grant. Consequently, the trust's grants are not awarded on an objective and nondiscriminatory basis as required by section 53.4945-4(b) of the regulations.

HOLDING

Scholarship grants awarded under a procedure giving preference to family members or relatives of the trust's grantor are not awarded on an objective and nondiscriminatory basis as required by section 4945(g) of the Code.

Whether an organization, which otherwise qualifies as a private foundation, satisfies the organizational test set forth in section 1.501(c)(3)-1(b)(4) of the regulations by virtue of having satisfied the governing instrument provisions of section 508(e). See Rev. Rul. 85-160, page 162.

Chapter 45.—Windfall Profit Tax on Domestic Crude Oil
Subchapter B.—Categories of Oil

Section 4993.—Incremental Tertiary Oil

26 CFR 150.4993-1: Incremental tertiary oil.

Windfall profit tax; incremental tertiary oil; tertiary recovery method. The injection of a nonhydrocarbon gas (nitrogen) into the gas cap of an oil reservoir is not an approved tertiary enhanced recovery method under section 4993(d)(1)(B) of the Code.

Rev. Rul. 85-141

ISSUE

Whether the injection of a nonhydrocarbon gas into the gas cap of an oil reservoir is an approved tertiary enhanced recovery method under section 4993(d)(1)(B) of the Internal Revenue Code.

FACTS

The taxpayer injected a nonhydrocarbon gas (nitrogen) into the gas cap of an oil reservoir, rather than into the oil zone, to displace oil.

LAW AND ANALYSIS

Section 4993(c)(2)(A) of the Code provides that for a project to qualify as a tertiary recovery project it must involve the application (in accordance with sound engineering principles) of one or more tertiary recovery methods which can reasonably be expected to result in more than an insignificant increase in the amount of crude oil which will ultimately be recovered.

Section 4993(d)(1) of the Code provides that the term "tertiary recovery method" means—

(A) any method which is described in subparagraphs (1) through (9) of section 212.78(c) of the June 1979 energy regulations, or

(B) any other to provide tertiary enhanced recovery which is approved by the Secretary for purposes of the windfall profit tax on domestic crude oil.

In the case of an immiscible nonhydrocarbon gas displacement method, the Secretary will approve under section 4993(d)(1)(B) of the Code as a tertiary enhanced recovery method, only a method that involves the injection of such gas into the oil zone of a reservoir to obtain a chemical or physical reaction (other than mere pressure) between the oil and the injectant.

HOLDING

The injection of a nonhydrocarbon gas into the gas cap of an oil reservoir is not an approved tertiary enhanced recovery method under section 4993(d)(1)(B) of the Code because that method does not utilize a process that acts directly on the oil zone of the reservoir.

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER D, PART 51—EXCISE TAX REGULATIONS UNDER THE CRUDE OIL WINDFALL PROFIT TAX ACT OF 1980; SUBCHAPTER H, PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Credit or Refund of Windfall Profit Tax Paid by a Trust

AGENCY: Internal Revenue Service, Treasury

ACTION: Final regulations.

SUMMARY: This document contains final regulations under sections 4994, 4997, and 6430 relating to a credit or refund of windfall profit tax paid by a trust with respect to royalty oil to certain beneficiaries of that trust. Changes to the applicable law were made by the Technical Corrections Act of 1982 [Pub. L. 97-448, 1983-1 C.B. 451]. These final regulations provide the public with guidance needed to comply with the law as amended by that Act.

DATE: These amendments are effective with respect to crude oil removed (or deemed removed) during calendar years beginning after December 31, 1981.

FOR FURTHER INFORMATION CONTACT: John G. Schmalz of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Ave., N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3516, not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

On November 20, 1984, the FEDERAL REGISTER published proposed regulations under section 6430 relating to a credit or refund of windfall profit tax paid by a trust with respect to royalty oil to certain trust beneficiaries. The amendments were proposed to conform the regulations to section 106(a)(4)(A) of the Technical Corrections Act of 1982 (96 Stat. 2388).

Two written comments on the proposed regulations were received. A public hearing was not requested.

EXPLANATION OF THE PROVISIONS

The final regulations essentially adopt the rules forth in the notice of proposed rulemaking without substantive change.

Under section 6430(a) and the final regulations, any portion of the windfall profit tax paid by a trust which is attributable to a qualified beneficiary is treated as an overpayment of windfall profit tax by such beneficiary. This overpayment is to be credited against any windfall profit tax imposed on the beneficiary or refunded to the beneficiary. An overpayment is attributable to a qualified beneficiary to the extent that windfall profit tax is paid by the trust, with respect to the qualified royalty production of the trust that is allocated, in accordance with rules contained in section 6430 and the final regulations, to such qualified beneficiary.

Under section 6430(b) and the final regulations, the amount under section 6430(a) is limited to an amount attributable to the beneficiary's unused exempt royalty limit for the calendar year. The final regulations also provide rules for allocating the qualified royalty production of the trust between the trust and its income beneficiaries and definitions for the terms "qualified beneficiary," "qualified royalty production" and "producer."

The final regulations provide that a qualified beneficiary shall treat a credit for, or refund of, windfall profit tax determined under section 6430 as an additional distribution to such beneficiary of distributable net income (DNI) of the trust. The beneficiary shall then include this additional distribution of DNI in income. This rule is designed to reflect the fact that taxes generating the overpayment are deductible by the trust against its income tax liability even though such taxes have been refunded to the trust's beneficiaries. If the trust had paid or incurred the net amount of windfall profit tax during the year (*i.e.*, net of the overpayment) and claimed the corresponding deduction for taxes, the trust would have had additional DNI to distribute to its beneficiaries. This additional DNI to the trust would then generate an additional deduction to the trust when distributed to the beneficiaries, and the beneficiaries would have included such distribution in gross income. Absent the rule described in this paragraph, the beneficiary would, in effect, be getting a distribution of DNI from the trust tax-free.

The final regulations also clarify that section 6430 is not available to the extent that the trust is a grantor trust (*i.e.*, a trust the income of which is taxed to a grantor, or other person, under subchapter J of the Code) since a grantor trust does not have adjusted distributable net income and since the grantor, rather than the trust, is generally the producer in the case of a grantor trust.

Under section 4994(f)(2)(C) and the final regulations, a qualified beneficiary may elect to increase the credit under section 6430 by reducing the royalty owner's exemption under section 4994(f).

The final regulations also contain an amendment to the regulations under section 4997 which would impose on a trust the requirement to furnish to each

qualified beneficiary a Form 6248.

PUBLIC COMMENTS

Two public comments were received. The first comment related to a requirement of Texas law that a trustee charge the income account for all windfall profit tax while reserving 27 ½ percent of the gross mineral proceeds for addition to principal. The commentator asked that the regulations be changed to provide that windfall profit tax paid by a trust with respect to the trust's share of production be treated as an overpayment of windfall profit tax under section 6430 if the tax is charged against the income beneficiaries' accounts even though the tax is not paid with respect to the beneficiaries' allocable trust production. However, section 6430 authorizes the treatment of windfall profit tax paid by a trust as an overpayment of tax by a trust beneficiary only if that tax is paid by the trust with respect to that beneficiary's allocable trust production. Therefore, this change was not made.

The second comment concerned the requirement in section 6430(c)(2)(A)(ii) and §51.6430-1(c)(2) that production be allocated between the trust and the income beneficiaries in accordance with their respective shares of the adjusted distributable net income for the calendar year. One commentator stated that it would be overly burdensome to require a fiscal year trust to compute adjusted distributable net income on a calendar year basis. Section 6430(c)(2)(A)(ii), however, speaks in terms of a calendar year calculation. As a result, no change was made.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this final rule is not subject to review under Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required. The Internal Revenue Service has concluded that the final regulations contained herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these final regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U:S.C. chapter 6).

PAPERWORK REDUCTION ACT

The collection of information requirements contained in this regulation have been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of these final regulations is John G. Schmalz of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing these regulations both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Parts 51 and 602 are amended * * * [as follows]:

Paragraph 1. The authority for Part 51 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Section 51.6430-1 also issued under 26 U.S.C. 6430(e).

Par. 2. Section 51.4994-1 is amended by revising paragraph (f)(4) as follows:

§51.4994-1 Definitions relating to exemptions.

* * * * *

(f) Exempt royalty oil. * * *

(4) *Royalty limit*—(i) *In general.* Except as provided in paragraph (f)(4)(iv) of this section, a qualified royalty owner's qualified royalty production is determined by applying section 4994(f)(2)(A).

(ii) *Production exceeds limitation* If a qualified royalty owner's qualified royalty production for any quarter exceeds the royalty limit in section 4994(f)(2)(A) for such quarter, the royalty owner may allocate the royalty limit for such quarter to any qualified royalty production that the royalty owner selects.

(iii) *Allocation of royalty limit among taxpayers.* For the purpose of allocating the royalty limit in section 4994(f)(2)(A) among taxpayers, section 6429(c)(2) through (4) will be applied except that the royalty limit determined under section 4994(f)(2)(A) is substituted in place of $2,500 each time it appears in section 6429(c)(2) thru (4).

(iv) *Election to increase section 6430 royalty credit by reducing the royalty owner's exemption.* Any qualified royalty owner who is a qualified beneficiary (within the meaning of section 6430 and §51.6430-1(d)(1)) for any quarter may elect, by way of a marginal notation on Form 6249, to reduce by any amount the qualified royalty owner's royalty limit determined under section 4994(f)(2)(A) for such quarter after applying paragraph (f)(4)(iii) of this section.

* * * * *

Par. 3. Paragraph (c) of §51.4997-2 is amended by adding at the end thereof a new paragraph (c)(7) to read as follows:

§51.4997-2 Certain information to be furnished by producers and others.

* * * * *

(c) *Yearly statement of windfall profit tax liability* * * *

* * * * *

(7) *Trusts with qualified royalty production.* In the case of any trust that is a producer (within the meaning of paragraph (b) of §51.4996-1), that has qualified royalty production for the calendar year (within the meaning of §51.6430-1(d)(2)) and that has beneficiaries who are qualified beneficiaries (within the meaning of §51.6430-1(d)(1)), such trust shall furnish to each qualified beneficiary, and file with the Internal Revenue Service, a Form 6248 in accordance with that form's instructions and the rules of this paragraph. A separate statement shall be furnished to, and a separate information return shall be filed for, each qualified beneficiary.

* * * * *

Par. 4. There is added immediately after §51.6402-1 the following new section:

§51.6430-1 Credit or refund of windfall profit tax to certain trust beneficiaries.

(a) *General rule.* Except as otherwise provided in paragraph (b) of this

section, that portion of the crude oil windfall profit tax imposed by section 4986 which is paid by any trust with respect to any qualified beneficiary's allocable trust production (within the meaning of paragraph (c) of this section) shall be treated as an overpayment of such tax by such qualified beneficiary. The overpayment described in this paragraph (a) is deemed to be made on the day that an overpayment by the trust would be deemed to be made if the trust's payment of such tax with respect to the same crude oil were an overpayment. Any such overpayment shall be credited against the crude oil windfall profit tax liability of such qualified beneficiary or shall be refunded to such qualified beneficiary. See paragraph (b) of this section for a rule that coordinates this credit or refund with the exemption for exempt royalty oil provided in section 4994(f) and which may require a reduction of the amount determined under this paragraph. See paragraph (d) of this section for definitions of the terms "qualified beneficiary", "qualified royalty production", and "producer".

(b) *Coordination with royalty exemption*—(1) *In general.* If the aggregate amount of the allocable trust production (as defined in paragraph (c) of this section) attributable to any qualified beneficiary exceeds such beneficiary's unused exempt royalty limit for such calendar year, then the amount treated as an overpayment under paragraph (a) of this section with respect to such qualified beneficiary shall be reduced by the amount of the overpayment attributable to such excess. The amount of this reduction is equal to the amount of the overpayment determined under paragraph (a) multiplied by a fraction the numerator of which is the amount of such excess and the denominator of which is the aggregate amount of the beneficiary's allocable trust production, and can be expressed by the following formula:

$$R = O \times \frac{E}{P}$$

Where:

R = The amount of the reduction;

O = the amount of the overpayment determined under paragraph (a) of this section;

E = the amount of the excess; and

P = the aggregate amount of the beneficiary's allocable trust production.

(2) *Unused exempt royalty limit.* The unused exempt royalty limit of any qualified beneficiary for any calendar year is the amount described in section 6430(b)(2) which can be expressed in terms of the following formula:

$$U = (D \times L) - Y$$

Where:

U = the unused exempt royalty limit;

D = the number of the days in such calendar year;

L = the limitation in barrels determined from the table contained in section 4994(f)(2)(A)(ii); and

Y = the amount of exempt royalty oil (within the meaning of section 4994(f)) with respect to which such qualified beneficiary is the producer, and which is removed from the premises during such calendar year.

(c) *Allocable trust production*—(1) *In general.* For purposes of this section, the term "allocable trust production" means, with respect to any qualified beneficiary, the qualified royalty production of any trust (as defined in paragraph (d)(2) of this section) which is removed (or deemed removed) from the premises during the calendar year, and is allocated to such qualified beneficiary under paragraph (c)(2) of this section.

(2) *Allocation of production*—(i) *In general.* The qualified royalty production of a trust for any calendar year shall be allocated between the trust and its income beneficiaries by first allocating to the trust an amount of production based on that portion of the trust income attributable to the qualified royalty production that is set aside under state law in any reserve for depletion for the calendar year, and by then allocating the remaining qualified royalty production between the trust and the income beneficiaries in accordance with their respective shares of the adjusted distributable net income for the calendar year attributable to the qualified royalty production. Adjusted distributable net income not attributable to qualified royalty production and income set aside in a depletion reserve not attributable to qualified royalty production shall not be considered for purposes of this calculation. Furthermore, the calculation must be done on the basis of a calendar year even though the trust's taxable year may be other than a calendar year. Thus, for purposes of this paragraph (c)(2), a fiscal year trust must compute its adjusted distributable net income for the calendar year and its reserve for depletion for the calendar year.

(ii) *Adjusted distributable net income.* The term "adjusted distributable net income" means the distributable net income (as defined in section 643) of the trust for the calendar year reduced by any excess in the amount of income added to any depletion reserve maintained by the trust for the calendar year (regardless of the trust's taxable year) over the depletion deduction allowable to the trust under section 611 with respect to the qualified royalty production of the trust for the calendar year.

(iii) *Allocation pro rata from each unit of production.* Each person's allocable share of the qualified royalty production of the trust is deemed to be a pro rata share of each unit (i.e., type and category, including each base price and removal price category) of oil in such qualified royalty production.

(iv) *Grantor trusts.* To the extent that a trust is a grantor trust (i.e., a trust the income of which is taxed to a grantor, or other person, under subchapter J of the Code), qualified royalty production shall not be allocated to a qualified beneficiary of the trust under this section because, to the extent that a trust is a grantor trust, the trust does not have adjusted distributable net income and the grantor rather than the trust is the producer of the crude oil. (See §51.4996-1(b)(2).)

(3) *Production from transferred Property*—(i) *In general.* The allocable trust production of any qualified beneficiary shall not include any production attributable to an interest in property which has been transferred after June 9, 1981, in a transfer (including changes in beneficiaries of the trust) which is described in section 613A(c)(9)(A), and is not described in section

613A(c)(9)(B).

(ii) *Exception.* Paragraph (c)(3)(i) of this section shall not apply in the case of any transfer so long as the transferor and the qualified beneficiary are required by section 6340(b)(3) to share the amount determined under section 6430(b)(2)(A). The preceding sentence shall apply to the transfer of any property only if the production attributable to the property was allocable trust production of the transferor.

(d) *Definition*—(1) *Qualified beneficiary.* The term "qualified beneficiary" means any individual or estate which is a beneficiary of any trust which is a producer.

(2) *Qualified royalty production of a trust.* The term "qualified royalty production of a trust" generally means, with respect to any trust, taxable crude oil (within the meaning of section 4991(a)) which is attributable to an economic interest of such trust other than an operating mineral interest (within the meaning of section 614(d)). However, such term does not include taxable crude oil attributable to any overriding royalty interest, production payment, net profits interest, or similar interest of the person which—

(A) Is created after June 9, 1981, out of an operating mineral interest in property which is proven oil or gas property (within the meaning of section 613A(c)(9)(A)) on the date such interest is created, and

(B) Is not created pursuant to a binding contract entered into before June 10, 1981.

(3) *Producer.* The term "producer" has the meaning given to such term by paragraph (b) of §51.4996-1.

(e) *Overpayment treated as additional distribution.* Any qualified beneficiary who claims a credit or refund as a result of an overpayment generated under section 6430 must treat the amount of such credit or refund as an additional distribution of distributable net income of the trust. Such distribution shall be in addition to any other amount of distributable net income distributed to such beneficiary, and shall be deemed to be paid or accrued on the date that the credit or refund under this section is paid or accrued.

(f) *Example.* The following examples illustrate the application of the rules of this paragraph:

Example (1). Assume that for the calendar year 1983, Trust A has 2,000 barrels of qualified royalty production, royalty income of $60,000, $10,000 of cash-expenses, and claims a percentage depletion deduction of $9,600 while setting aside $18,000 (2,000 barrels × 30 percent × $30/barrels) of royalty income in a reserve for depletion recognized under state law. Thus, the excess of the reserve for depletion for the year over the amount allowable as a deduction for depletion to the trust for the year is $8,400 ($18,000–$9,600). Assume further that A paid windfall profit tax on the royalty oil removed during the calendar year in the amount of $4,000 ($2 per barrel). Under these facts, the first 600 barrels (2,000 barrels × $18,000/$60,000) of A's qualified royalty production is allocated to A. In addition, A has distributable net income in the amount of $40,400 ($60,000–$10,000–$9,600) and adjusted distributable net income of $32,000 ($40,400–$8,400). If under the provisions of the trust document A distributes the $32,000 of income to the two beneficiaries, B and C, in the amounts of $22,857 and $9,143, respectively, the remaining 1,400 barrels of qualified royalty production (2,000 barrels–600 barrels allocated to the trust) must be allocated between B and C as follows:

1,000 barrels to B (1,400 × (22,857/32,000)) and 400 barrels to C (1,400 × (9,143/32,000)). Assume all of the qualified royalty production is removed from the same property. Under section 6430(a) and paragraph (a) of this section and before the application of section 6430(b) and paragraph (b) of this section, B would be treated as having made an overpayment of windfall profit tax during the calendar year in the amount of $2,000 ($2 × 1,000 barrels) and C would be treated as having made an overpayment in the amount of $800 ($2 × 400 barrels).

Example (2). Assume the same facts as in example (1), and assume that C claimed a royalty owner's exemption under section 4994(f) for the calendar year with respect to 500 barrels of oil held outside the trust. Under these facts, both B and C must reduce the overpayment determined under paragraph (a) of this section. B's unused royalty limit is 730 barrels (365 days × 2 barrels) and the excess of the number of barrels allocated to B in example (1) over the unused royalty limit is 270 barrels (1,000 barrels–730 barrels). C's unused royalty limit is 230 barrels (730 barrels–500 barrels) and the excess of the number of barrels allocable to C in example (1) over the unused royalty limit is 170 barrels (400 barrels–230 barrels). As a result, B must reduce the amount of the overpayment by $540 ($2,000 × (270 barrels/1,000 barrels)) and C must reduce the amount of the overpayment by $340 ($800 × (170 barrels/400 barrels)). Thus, B may claim a credit or refund in the amount of $1,460 ($2,000–$540) and must, if such credit or refund is claimed, treat the $1,460 as an additional distribution of distributable net income. C may claim a credit or refund in the amount of $480 ($800–$340) and must, if such credit or refund is claimed, treat the $480 as an additional distribution of distributable net income.

(g) *Overpayment credited against estimated tax liability.* See section 6654g(3)(B) for a rule that allows a taxpayer to offset the overpayment determined under this section against the taxpayer's liability to make estimated tax payments.

Par. 5. the authority for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 6. Section 602.101(c) is amended by adding in the appropriate places in the table "§51.4994-1(f)(4)(iv) . . . 1545-0224" and "§51.4997-2(c)(7) . . . 1545-0224".

JAMES I. OWENS,
Acting Commissioner of Internal Revenue.

Approved August 30, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on October 7, 1985, 8:45 a.m., and published in the issue of the Federal Register for October 8, 1985, 50 F.R. 40971)

26 CFR 51.4994-1: Definitions relating to exemptions.
(Also Sections 4995, 4996; 51.4995-2, 51.4996-1.)

T.D. 8056

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER D, PART 51—EXCISE TAX REGULATIONS UNDER THE CRUDE OIL WINDFALL PROFIT TAX ACT OF 1980; SUBCHAPTER H, PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Definitions Relating to Exemptions From the Windfall Profit Tax

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final Regulations.

SUMMARY: This document contains final Excise Tax Regulations under sections 4994, 4995, and 4996 relating to definitions of exempt oil for purposes of the windfall profit tax. Changes to the applicable law were made by the Crude Oil Windfall Profit Tax Act of 1980 [Pub. L. 96-223, 1980-3 C.B. 1], the Economic Recovery Tax Act of 1981 [Pub. L. 97-34, 1981-2 C.B. 256], and the Technical Corrections Act of 1982 [Pub. L. 97-448, 1983-1 C.B. 451]. The regulations would provide guidance concerning the requirements for qualifying for these exemp-

tion from the windfall profit tax.

DATE: These regulations are effective generally after February 29, 1980. However, the exemption under §51.4994-1(c)(1)(ii)(D) for economic interests held by qualified residential child care agencies is effective for taxable periods beginning after December 31, 1980, and the provisions under §51.4994-1(f) relating to exempt royalty oil are effective only for oil removed after December 31, 1981.

FOR FURTHER INFORMATION CONTACT: John G. Schmalz of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Ave., N.W., Washington, D.C. 20224, ATTN: CC:LR:T (202-566-3516, not a toll-free call).

SUPPLEMENTARY INFORMATION

BACKGROUND

On February 12, 1985, the FEDERAL REGISTER published proposed amendments to the Excise Tax Regulations (26 CFR part 51) under section 4994, 4995, and 4996 of the Internal Revenue Code of 1954 [LR-69-80, 1985-1 C.B. 629]. The amendments were proposed to conform the regulations to section 101(a)(1) of the Crude Oil Windfall Profit Tax Act of 1980 (94 Stat. 230) [Pub. L. 96-223, 1980-3 C.B. 1, 2], (which added section 4994 to the Internal Revenue Code) as amended by sections 601 and 604 of the Economic Recovery Tax Act of 1981 (95 Stat. 335, 338) [Pub. L. 97-34, 1981-2 C.B. 256, 341, 343] and section 201(f) of the Technical Corrections Act of 1982 (96 Stat. 2393) [Pub. L. 97-448, 1983-1 C.B. 451, 465]. They did not, however, reflect section 106 of the Technical Corrections Act of 1982 because regulations reflecting that section are to be published as part of another regulation project.

No public comments were received, and no public hearing was requested. The final regulations adopt the proposed rules without substantive change.

Evaluation of the effectiveness of the regulations after issuance will be based on comments received from offices within the Internal Revenue Service, the Treasury Department, other governmental agencies, State and local governments, and the public.

EXPLANATION OF THE PROVISIONS

DEFINITIONS RELATING TO EXEMPTIONS

Section 4991(b) provides that the term "exempt oil" (oil not subject to the windfall profit tax) means (1) crude oil from a qualified governmental interest; (2) crude oil from a qualified charitable interest; (3) exempt Indian oil; (4) exempt Alaskan oil; (5) exempt royalty oil; (6) exempt stripper well oil; and (7) exempt front-end oil. Section 4994 and the final regulations provide definitions of these categories of exempt oil, except that the definitions of front-end oil in section 4994(c) and exempt stripper well oil in section 4994(g) are not included as part of these final regulations because they are the subject of other regulation projects.

Section 4994(a) and the final regulations define the term "qualified governmental interest." The interest must be held by a governmental body or its agency or instrumentality and the net income from the interest in crude oil is required to be dedicated to a public purpose. The term "public purpose" is defined by reference to section 170(c)(1) (relating to a charitable contribution made exclusively for public purposes). The term "net income" is also defined.

Section 4994(b) and the final regulations define the term "qualified charitable interest." The interest must be held by an educational organization, an organization that provides medical care, education or research, or an organization operated for the benefit of a state university. The interest must have been held by the organization on January 21, 1980. Special rules are provided for churches and private foundations. In addition, the final regulations clarify the holding requirement.

Under the final regulations, trusts and estates with governmental or charitable beneficiaries may be entitled to exemption from tax liability and withholding.

Section 4994(d) and final regulations define the term "exempt Indian oil." The interest in crude oil must be held by a member of an Indian tribe, an Indian tribe, or an Indian tribal organization. The interest must have been held on January 21, 1980, and must be subject to a restriction on alienation. The final regulations define the term "Indian tribe" and provide special rules relating to native corporations organized under the Alaskan Native Claims Settlement Act.

Section 4994(e) and the final regulations define the term "exempt Alaskan oil." In connection with this definition, the proposed regulations define the term "divides of the Alaskan and Aleutian ranges," and give the longitude and latitude of peaks and elevations for defining the divide for purposes of the Aleutian Islands.

Section 4994(f) and the final regulations provide rules relating to "exempt royalty oil". This exemption is available only to qualifying individuals, estates, and family farm corporations that are producers of crude oil within the meaning of section 4996(a)(1). The exemption is not available to other corporations or to trusts. However, the final regulations contain a clarifying amendment to the regulations under section 4996(a)(1) defining the term "producer". In general, this rule makes it clear that in the case of grantor trusts the grantor, rather than the trust entity, is the producer. As a result, if the grantor is an individual, for example, such grantor may be entitled to claim the exemption under section 4994(f).

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this final rule is not subject to review under Executive Order 12291. The Internal Revenue Service has concluded that the final regulations contained herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these final regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

PAPERWORK REDUCTION ACT

The collection of information requirements contained in these regulations have been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of these final regulations is John G. Schmalz of the

Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing these regulations both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Part 51 and Part 602 are amended * * * [as follows]:

PART 51—[AMENDED]

Paragraph 1. The authority for Part 51 continues to read in part:

Authority: 26 U.S.C. 7805. * * *

Par. 2. Section 51.4994-1 is amended by revising the section heading and adding text to the section to read as follows:

§51.4994-1 Definitions relating to exemptions.

(a) *In general.* Section 4991(b) provides that the term "exempt oil" (oil not subject to the windfall profit tax) means—

(1) Any crude oil from a qualified governmental interest.

(2) Any crude oil from a qualified charitable interest,

(3) Any exempt Indian oil,

(4) Any exempt Alaskan oil,

(5) Any exempt front-end oil,

(6) Any exempt royalty oil, and

(7) Any exempt stripper well oil.

(b) *Qualified governmental interest*—(1) *In general.* Under section 4994(a)(1), a "qualified governmental interest" means an economic interest in crude oil if—

(i) Such interest is held by a State or political subdivision thereof or by an agency or instrumentality of a State or political subdivision thereof, and

(ii) Under the applicable State or local law, all of the net income received pursuant to such interest is dedicated to a public purpose.

(2) *Net income*—(i) *In general.* For purposes of this paragraph, the term "net income" means gross income reduced by production costs, and severance taxes of general application, allocable to the economic interest.

(ii) *Production costs.* For the purposes of paragraph (b)(2)(i) of this section, production costs means all current costs borne by the governmental interest attributable to the production of crude oil. It includes operating expenses, selling expenses, financial and administrative overhead, depreciation, cost depletion (determined on the basis that all intangible drilling costs are capitalized), taxes on the producing property, and interest on debt incurred to finance production. It does not, however, include intangible drilling and development costs (except as provided in the preceding sentence) or interest on any debt incurred to acquire the economic interest.

(3) *Public purposes requirement.* For purposes of this paragraph, the term "public purpose" has the same meaning as in section 170(c)(1). The requirement in paragraph (b)(1)(ii) of this section that all of the net income received be dedicated to a public purpose shall be treated as met if all such net income is either used for a public purpose or placed in a permanent fund 100 percent of the earnings of which are dedicated to a public purpose. Net income used to pay interest on or retire debt incurred to acquire the economic interest will not be considered to be dedicated to a public purpose. The extent to which a debt is incurred to acquire the economic interest shall be determined on the basis of the principles set forth in section 514(c).

(4) *Trusts and estates.* If legal title to an interest in crude oil is held in trust or by an estate, the character of the persons entitled to the income of the trust or the estate shall be imputed to the producer (the estate, the trust, or, in the case of a grantor trust, the grantor of the trust) to determine what portion, if any, of the interest is a qualified governmental interest. Also, for the purpose of this subparagraph, if the fiduciary maintains a reserve for depletion, or accumulates current income, the income set aside in such depletion reserve, or accumulated for future distribution, will be considered to be income of the fiduciary or of a beneficiary other than a qualifying governmental unit to the extent that such income can under any circumstances be distributed at some future time to a beneficiary that does not meet the requirements of section 4994(a). Accordingly, the share of the production of the trust or estate that is exempt under section 4994(a) is determined by dividing the sum of (i) the amount of income of the trust or estate attributable to crude oil for the year that is distributed to a qualified governmental unit, plus (ii) the amount of income from the crude oil production that is set aside that year in a reserve for depletion for the exclusive benefit of a qualified governmental unit, plus(iii) the amount of undistributed income for the year that is accumulated for the exclusive benefit of a qualified governmental unit by (iv) the total income for the year (whether distributed or not) attributable to crude oil.

(c) *Qualified charitable interest*—(1) *In general.* The term "qualified charitable interest" means an economic interest in crude oil if all of the following three requirements are met:

(i) The interest is held by an organization that is described in section 170(c)(2) relating to a corporation, etc., organized and operated exclusively for religious, charitable, etc., purposes).

(ii) The organization holding the interest is also described in one of the following sections:

(A) Section 170(b)(1)(A)(ii) (relating to an educational organization).

(B) Section 170(b)(1)(A)(iii) (relating to an organization that provides medical care, education, or research).

(C) Section 170(b)(1)(A)(iv) (relating to an organization operated for the benefit of a State college or university, or

(D) With respect to taxable periods beginning after December 31, 1980, section 4994(b)(1)(A)(ii) (reflecting to an organization organized and operated primarily for the residential placement, care, or treatment of delinquent, dependent, orphaned, neglected, or handicapped children).

(iii) The interest was held by the organization on January 21, 1980, and at all times thereafter before the last day of the taxable period.

(2) *Churches.* An economic interest is also a "qualified charitable interest" if all of the following four requirements are met:

(i) The interest is held by an organization described in section 170(b)(1)(A)(i) (relating to a church, convention or association of churches),

(ii) The organization holding the interest is also described in section 170(c)(2).

(iii) The interest is held for the benefit of one or more of the organizations described in paragraph (c)(1)(ii) of this section and in section 170(c)(2), and

(iv) The interest was held by the section 170(b)(1)(A)(i) organization on January 21, 1980, and at all times thereafter before the last day of the taxable period.

(3) *Trusts and estates.* (i) If legal title to an interest in crude oil is held in trust or by an estate, the character of the persons entitled to the income of the trust or estate attributable to the crude oil shall be imputed to the producer (the estate, the trust, or, in the case of a grantor trust, the grantor of the trust) to determine what portion, if any, of the interest is a qualified charitable interest. Also, for the purpose of this subparagraph, if the fiduciary maintains a reserve for depletion, or accumulates current income, the income set aside for such depletion reserve, or accumulated for future distribution, will be considered to be income of the fiduciary or of a beneficiary other than a qualifying charity to the extent that such income can under any circumstances be distributed at some future time to a beneficiary that does not meet the requirements of section 4994(b). Accordingly, the share of the production of the trust or estate that is exempt under section 4994(b) is determined by dividing the sum of (A) the amount of income of the trust or estate attributable to crude oil for the year that is distributed to a qualified beneficiary, plus (B) the amount of income from the crude oil production that is set aside that year in a reserve for depletion for the exclusive benefit of a qualified charity, plus (C) the amount of undistributed income for the year that is accumulated for the exclusive benefit of a qualified charity, by (D) the total income for the year (whether distributed or not) attributable to crude oil.

(ii) In applying paragraph (c)(3)(i) of this section, paragraph (c)(1)(iii) of this section will be applied both to the trust or the estate and to its beneficiaries. Accordingly, the trust or the estate must have held the interest for the benefit of a qualifying charity on January 21, 1980, and at all times thereafter before the last day of the taxable period. (See paragraph (c)(4) of this section for special rules relating to the holding requirement.) Furthermore, for the exemption to apply a charitable beneficiary must have had on January 21, 1980, and at all times thereafter before the last day of the taxable period, an unconditional right to receive, either presently or in the future, a fixed amount of the net income from the interest (*e.g.*, a specified dollar amount or an amount determined by a formula).

(4) *Section 509(a)(3) organizations.* An economic interest is also a "qualified charitable interest" if all of the following requirements are met:

(i) The interest is held by an organization described in section 509(a)(3),

(ii) The organization holding the interest is operated exclusively for the benefit of an organization described in—

(A) Section 4994(b)(1)(A)(ii) (relating to organizations organized and operated primarily for the residential placement, care, or treatment of delinquent, dependent, orphaned, neglected, or handicapped children).

(B) Section 170(b)(1)(A)(ii) (relating to educational organizations) which is also described in section 170(c)(2), and

(iii) The interest was held by the section 509(a)(3) organization on January 21, 1980, and at all times thereafter before the last day of the taxable period.

(5) *Holding requirement.* An interest in crude oil is considered "held for the benefit of" one of the organizations described in paragraph (c)(1)(ii) of this section only if all the net income from such interest (as defined in paragraph (b)(2) of this section) was dedicated to the organization on January 21, 1980, and at all times thereafter before the last day of the taxable period. The dedication need not be a formal or written dedication. However, no dedication will be recognized if any of the net income from the interest was in fact used for a purpose other than to benefit the organization or organizations to which it was purportedly dedicated. The requirement of paragraph (c)(1)(iii) and (2)(iii) and (iv) of this section that the interest in crude oil be held by certain organizations on January 21, 1980, or be held on January 21, 1980, "for the benefit of" certain organizations, and at all times thereafter (before the last day of the taxable period) may be satisfied although the identical organization does not hold the interest, or the interest is not held for the benefit of the identical organization, on January 21, 1980, and thereafter. For example, the holding requirements are satisfied if, on January 21, 1980, a church or trust held the interest for the benefit of an educational organization, and later the church or trust transferred the interest to an organization providing medical care, provided that both organizations otherwise meet the requirements of paragraph (c)(1) or (2).

(6) *Relationship to section 501(c)(3).* It is not necessary under this paragraph that the organization holding the interest in crude oil be recognized as exempt under section 501(c)(3).

(d) *Exempt Indian oil.* The term "exempt Indian oil" means any domestic crude oil which meets one or more of the following three requirements:

(1) The producer of the oil is an Indian tribe, an individual member of an Indian tribe, or an Indian tribal organization, under an economic interest held by such a tribe, member, or organization on January 21, 1980, and the oil is produced from mineral interests which are—

(i) Held in trust by the United States for the tribe, member, or organization, or

(ii) Held by the tribe, member, or organization subject to a restriction on alienation imposed by the United States because it is held by an Indian tribe, a member of an Indian tribe, or an Indian tribal organization; or

(2) The producer of the oil is a native corporation organized under the Alaska Native Claims Settlement Act (as in effect on January 21, 1980), and the oil—

(i) Is produced from mineral interests held by the corporations which were received under that Act, and

(ii) Is removed from the premises before 1992; or

(3) The proceeds from the sale of the oil are deposited in the Treasury of the United States to the credit of tribal or native trust funds pursuant to a provision of law in effect on January 21, 1980. The term "Indian tribe" means any group of individuals recognized as an Indian tribe eligible for services pro-

vided to Indians by the Secretary of Interior by his or her delegate. The term "native corporation organized under the Alaska Native Claims Settlement Act" includes a corporation that is a 100 percent-owned subsidiary of such a native corporation.

(e) *Exempt Alaskan Oil*—(1) *In general*. The term "exempt Alaskan oil" means any crude oil (other than Sadlerochit oil) which is produced—

(i) From a reservoir from which oil has been produced in commercial quantities (within the meaning of paragraph (e)(2) of this section) through a well located north of the Arctic Circle,

(ii) From a well located north of the Arctic Circle, or

(iii) From a well located south of the Arctic Circle but on the northerly side of the divides of the Alaskan and Aleutian ranges and at least 75 miles from the nearest point on the Trans-Alaska Pipeline System.

(2) *Commercial quantities*. For a definition of commercial quantities, see paragraph (n) of §51.4996-1. However, for purposes of this section, an unprofitable well located north of the Arctic Circle will not be considered to produce oil in commercial quantities if the only purpose for producing oil from that well is to exempt a reservoir from the windfall profit tax under section 4994(e)(1) and paragraph (e)(1)(i) of this section. For the purpose of the preceding sentence, for a taxable period a well will be considered to be unprofitable if the total current costs of producing the crude oil incurred during the taxable period exceeds the market value of the oil produced from that well during such period.

(3) *Definition of divides of Alaskan and Aleutian Ranges*. The term "divides of the Alaskan and Aleutian ranges" means the ridge or crest of land (with respect to those ranges) that marks the boundary between adjacent drainage basins, on either side of which the heads of steams flow in opposite directions. However, for purposes of the Aleutian Islands only, the divide is deemed to be a line constructed by connecting the main peaks or elevations in the island chain. The location of these peaks are listed in paragraph (e)(4).

(4) *Listing of peaks or elevations for purposes of line through Aleutian Islands*. The peaks or elevations used to construct a dividing line through the Aleutian Islands are as follows (within 2,000 feet accuracy):

(f) *Exempt royalty oil*—(1) *General rule.* The term "exempt royalty oil" means with respect to a qualified royalty owner (as defined in paragraph (f)(2) of this section) that portion of such owner's qualified royalty production (as defined in paragraph (f)(3) of this section) for a calendar quarter that does not exceed the royalty limit (as defined in paragraph (f)(4) of this section) for the quarter.

(2) *Qualified royalty owner.* The term "qualified royalty owner" means a producer (within the meaning of section 4996(a)(1)), but only if the producer is:

(i) An individual

(ii) An estate, or

(iii) A qualified family farm corporation (within the meaning of section 6429(d)(4)).

The term does not include a trust. However, in the case of a grantor trust (*i.e.*, a trust where the grantor or another person is treated a substantial owner of the trust under subpart E of subchapter J of chapter 1 of the Code), the person or entity who is treated as substantial owner may qualify if such person or entity is an individual, an estate, or a qualified family farm corporation.

(3) *Qualified royalty production*—(1) *General rule.* The term "qualified royalty production" means, with respect to any qualified royalty owner, crude oil removed after December 31, 1981, which would be taxable crude oil (within the meaning of section 4991(a)) except for the exemption in section 4991(b)(5) and which is attributable to an economic interest of such royalty owner other than an operating mineral interest (within the meaning of section 614(d)).

(ii) *Exclusion for certain interests created after June 9, 1981.* The term "qualified royalty production" does not include crude oil attributable to any overriding royalty interest, production payment, net profits interest, or similar interest of the qualified royalty owner which:

(A) Is created after June 9, 1981, out of an operating mineral interest in property which is a proven oil or gas property (within the meaning of section 613A(c)(9)(A)) on the date such interest is created, and

(B) Is not created pursuant to a binding written contract (including an irrevocable written option) entered into before June 10, 1981.

The exclusion in this subdivision, however, does not apply to a landowner that retains a royalty on a lease of a proven property owned by such landowner.

(iii) *Exclusion for production from certain transferred properties*—(A) *In general.* In the case of a transfer of an interest in any property, the qualified royalty production fo the transferee shall not include any production attributable to an interest that has been transferred after June 9, 1981, in a transfer which is described in section 613A(c)(9)(A). For the purpose of the preceding sentence, a transfer includes a sublease and property held by an estate shall be treated as owned both by the estate and proportionately by the beneficiaries of the estate.

(B) *Exception for certain transfers at death or among certain related persons.* The transfer rule of paragraph (f)(3)(iii)(A) of this section does not apply to any transfer described in section 613A(c)(9)(B) (relating to certain transfers at death or among certain related persons).

(C) *Exception for certain transfers where the transferor and the transferee are required to share the royalty limit.* The transfer rule of paragraph (f)(3)(iii)(A) of this section shall not apply to any transfer so long as the transferor and the transferee are required to share the royalty limit in accordance with the rules of paragraph (f)(4) of this section, but only if the production from the property was qualified royalty production of the transferor.

(4) *Royalty limit*—(i) *In general.* A qualified royalty owner's qualified royalty production is determined by applying section 4994(f)(2)(A).

(ii) *Production exceeds limitation.* If a qualified royalty owner's qualified royalty production for any quarter exceeds the royalty limit in section 4994(f)(2)(A) for such quarter, the royalty owner may allocate the royalty limit for such quarter to any qualified royalty production that the royalty owner selects.

(iii) *Allocation of royalty limit among taxpayers.* For the purpose of allocating the royalty limit in section 4994(f)(2)(A) among taxpayers, section 6429(c)(2) thru (4) will be applied except that the royalty limit determined under section 4994(f)(2)(A) is substituted in place of $2,500 each time it appears in section 6429(c)(2) thru (4).

(g) *Exempt stripper well oil.* [Reserved]

Par. 3 Paragraph (b)(1) of §51.4995-2 is revised to read as follows:

§51.4995-2 Producer's certificate.

* * * * *

(b) *Exemption certificate*—(1) *In general.* For purposes of this section, an exemption certificate is a written statement certifying that all of the producer's crude oil from a property is exempt from the tax imposed by section 4986 because the crude oil constitutes

exempt Indian oil or exempt royalty oil or the oil is from a qualified governmental interest or a qualified charitable interest. In the case of a trust or estate described in paragraphs (b)(4) or (c)(3) of §51.4994-1, the exemption certificate may certify that a percentage of the oil from that property is exempt from the tax imposed by section 4986 because that portion of the oil is oil from a qualified charitable or governmental interest. The percentage referred to in the preceding sentence may be based on a reasonable estimate of the percentage of the oil from the property that is held for the benefit of a qualified charity or governmental unit for that taxable period. Any producer who furnishes an exemption certificate (other than an exempt royalty owner's certificate) to an operator, purchaser, partnership, or other disburser shall also file an exemption certificate with the Internal Revenue Service Center, Austin, Texas. Only one such certificate need be filed even though the producer may furnish certificates to more than one operator, purchaser, partnership, or other disburser.

* * * * *

Par. 4. Paragraph (b)(2) of §51.4996-1 is revised to read as follows:

§51.4996-1 Definitions.

* * * * *

(b) *Producer* * * *

(2) *Partnerships, trusts, and estates.* In the case of a partnership, the partnership's economic interest in the crude oil shall be allocated among the partners on the basis of each partner's proportionate share of the partnership's income from the crude oil, and the partner to whom the crude oil is allocated shall be treated as the producer of the crude oil. In the case of a trust other than a grantor trust, *i.e.*, a trust where the grantor or another person is treated as substantial owner of the trust under subpart E of subchapter J of chapter 1 of the Internal Revenue Code) or an estate, the entity is the producer rather than the beneficiaries. In the case of a grantor trust, to the extent that a person or entity (the grantor or another person) is treated for purposes of income taxation under subchapter J of chapter 1 of the Internal Revenue Code as the owner of a crude oil interest held by such trust, such person or entity shall be deemed to be the producer of the crude oil attributable to such interest for purposes of section 4996(a)(1). (See also §51.4994-1 for special rules concerning the treatment of trusts and estates for purposes of determining the applicability of certain exemptions from the windfall profit tax.)

* * * * *

Par. 5. The authority for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805. * * *

Par. 6. Paragraph (c) of existing §602.101(c) is amended by inserting in the appropriate places in the table §51.4995-2(b)(1) . . . 1545-0912".

JAMES I. OWENS,
Acting Commissioner of Internal Revenue.

Approved August 30, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

TITLE 26—INTERNAL REVENUE.—CHAPTER 1, SUBCHAPTER A, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; SUBCHAPTER F, PART 301—PROCEDURE AND ADMINISTRATION; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Information Returns Required by Officers, Directors and Shareholders of Foreign Personal Holding Companies

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to the amendments made to the Internal Revenue Code of 1954 by the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) [Pub. L. 97-248, 1982-2 C.B. 462] which concern information returns required of officers, directors, and shareholders of foreign personal holding companies. While the changes expanded the number of persons required to file information returns for foreign personal holding companies, they also simplified the reporting requirements with respect to foreign personal holding companies and gave the Secretary the authority to set the return due dates and to waive duplicative filings. TEFRA also provided a new $1,000 civil penalty for failure to file a proper and timely foreign personal holding company information return.

DATES: The amendments are effective July 5, 1985 30 days after their publication as a Treasury decision in for taxable years of foreign corporations beginning after September 3, 1982. Taxpayers who are required to file under section 340 of TEFRA and who have compiled information based on the old Forms 957 and 958, which were replaced by Form 5471, may file the old forms instead of Form 5471 for taxable years ending on or before November 30, 1983. (See Announcement 83-56, 1983-13 I.R.B. 92).

FOR FURTHER INFORMATION CONTACT: Marnie J. Carro of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington D.C. 20224, (Attention: CC:LR:T) (202-566-3289, not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

On September 6, 1984, the Federal Register published proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 6035 and the Regulations on Procedure and Administration (26 CFR 301) under section 6679 of the Internal Revenue Code of 1954 (49 FR 35145) [LR-200-82, 1984-2 C.B. 856]. These amendments were proposed to conform the regulations to changes made to sections 6035 and 6679 by Section 340 of TEFRA (96 Stat. 633, 634) [Pub. L. 97-248, 1982-2 C.B. 462, 578]. A public hearing was neither requested nor held. One public comment was received. After consideration of this comment, the regulations are being published as they appeared in the notice of proposed rulemaking except for minor clarifying changes.

TEFRA simplified the reporting requirements that section 6035 imposes with respect to foreign personal holding companies. Prior to its amendment, section 6035 and the regulations thereunder required U.S. officers and directors of foreign personal holding companies to file two annual returns.

The first information return was filed on Form 957 and concerned the stock structure and identity of the shareholders of the corporation. The second information return was filed on Form 958 and concerned the foreign personal holding company's income and deductions for the taxable year, as well as undistributed foreign personal holding company income. In addition, any U.S. shareholder who had not already filed as a director or officer and who held 50% or more of the corporation's stock was required to file Form 957.

Because the various returns of officers, directors, and 50% shareholders suffered from overlapping coverage, as well as inconveniently staggered filing dates; TEFRA combined the filing requirements and gave the Service flexibility in setting return due date and waiving duplicative filings. Forms 957 and 958 have now been incorporated into Form 5471. TEFRA also expanded its reporting requirements to each United States citizen or resident who is a 10-percent (rather than 50-percent) shareholder of a foreign personal holding company as well as to officers and directors who are U.S. citizens or residents.

The regulations provide that Form 5471 is to be filed with the income tax return of the person required to file. In addition, the regulations provide that one person may file Form 5471 and the applicable schedules for other persons who have the same filing requirements. A person who does not file Form 5471 because another person has agreed to file the information on his behalf must attach a statement to his return identifying such person and he still remains liable under the penalty provisions if that other person fails to file a proper return.

Information required by the regulations includes corporate, shareholders and income information. The required shareholder information includes the names and addresses of all persons who held shares, options, and convertible securities during the taxable year; a description of each class of shares and the total number of shares of each class outstanding at the beginning and end of the taxable year; the number of shares of each class, option, or convertible security held by each person; and any changes in the holdings of shares, options, or convertible securities during the year. Required income information includes the foreign personal holding company's gross income, deductions, credits, taxable income, and undistributed foreign personal holding company income for the year.

In addition to the criminal penalties imposed by existing law for failure to file a return and filing a false or fraudu-

lent return. TEFRA imposed by an amendment under section 6679 a $1,000 civil penalty for failure to file a proper foreign personal holding company information return. This penalty does not apply, however, if the failure is shown to be due to reasonable cause.

DISCUSSION OF COMMENT

Under §1.6035-1(b)(2)(ii) and (b)(4) as proposed, an individual who does not own 10 percent or more in value of the outstanding stock directly, but is required to file solely by attribution of another United States person's stock ownership, is excused from filing if the direct owner who is an individual furnishes all the information required. The excused filer is required to file a statement with his income tax return indicating that such requirement has been or will be satisfied. In this context, the comment suggested that the regulations exempt from the filing requirements all individuals who directly own no stock of a foreign corporation. The final regulations do not adopt this suggestion because the statute requires that any individual who owns directly or *indirectly* 10 percent or more in value of the outstanding stock of a foreign corporation file a foreign personal holding company information return.

CERTIFICATION OF NONAPPLICABILITY OF REGULATORY FLEXIBILITY ACT OF 1980 AND EXECUTIVE ORDER 12291

The Secretary of the Treasury has certified that these regulations will not have a significant economic impact on a substantial number of small entities and are, therefore, not subject to the requirements of the Regulatory Flexibility Act of 1980 (5 U.S.C. chapter 6). Accordingly, a Regulatory Flexibility Analysis is not required and has not been prepared. The Commissioner of Internal Revenue has determined that these regulations are not major regulations subject to Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required and has not been prepared.

PAPERWORK REDUCTION ACT

The collection of information contained in these regulations has been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of these regulations is Marnie J. Carro of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, on matters of both substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Part 1, Part 301, and Part 602 are amended as follows:

Paragraph 1. These regulations are issued under the authority contained in 26 U.S.C. 7805 and 26 U.S.C. 6035(a), (d), and (e). The authority citation for Part 1 is amended by adding, "§§1.6035-1 through -3 also issued under 26 U.S.C. 6035(a), (d), and (e)."

Par. 2. Section 1.6035-1 is revised to read as follows:

§1.6035-1 Returns of U.S. officers, directors and 10-percent shareholders of foreign personal holding companies for taxable years beginning after September 3, 1982.

(a) *Requirements of returns—(1) In general.* For taxable years of a foreign personal holding company beginning after September 3, 1982, each United States citizen or resident who is an officer, director, or 10-percent shareholder of the foreign personal holding company (as defined in section 552) shall file with his income tax return, on or before the date that return is due, form 5471 and the applicable schedules to be completed in accordance with the instructions setting forth corporate, shareholder, and income information for the foreign personal holding company's annual accounting period that ends with or within the officer's, director's, or shareholder's taxable year.

(2) *General corporate information.* The general foreign personal holding company information required by this section with respect to each taxable year is as follows:

(i) The name and address and employer identification number (if any) of the corporation;

(ii) The kind of business in which the corporation is engaged;

(iii) The date of its incorporation;

(iv) The country under the laws of which the corporation is incorporated;

(v) A description of each class of stock issued and outstanding by the corporation for the beginning and end of the annual accounting period;

(vi) The number of shares and par value of common stock of the corporation issued and outstanding as of the beginning and end of the taxable year;

(viii) The number of shares and par value of preferred stock of the corporation issued and outstanding as of the beginning and end of the taxable year, the rate of dividend on such stock and whether such dividend is cumulative or noncumulative; and

(viii) Any other information required by the appropriate form and its instructions.

For purposes of this paragraph, the term "share" includes any security convertible into a share in the corporation and any option granted by the corporation with respect to any share in the corporation.

(3) *Shareholder information.* The shareholder information required by this section is as follows:

(i) The name, address and taxpayer identification number (if any) of each person, whether foreign or U.S., who was a shareholder during the taxable year and the class and number of shares held by each, together with an explanation of any changes in stock holdings during the taxable year;

(ii) The name and address of each holder during the taxable year of securities convertible into stock of the corporation and the class, number, and face value of the securities held by each, together with an explanation of any changes in the holdings of such securities during the taxable year;

(iii) The name and address of each holder during the taxable year of any option granted by the corporation with respect to any share in the corporation, and a full description of the options held by each, together with an explanation of any changes in the holdings of such options during the taxable year, and

(iv) Any other information required

by the appropriate form and its instructions.

(4) *Income information.* The income information required by this section is the gross income, deductions and credits, taxable income, foreign personal holding company income, and undistributed foreign personal holding company income for the taxable year and other information required by the appropriate form and its instructions.

(b) *Persons required to file return*—(1) *In general.* The determination of whether a United States citizen or resident is a person who is an officer, director, or 10-percent shareholder required to file a return with respect to any foreign corporation is made as of the date that Form 5471 is required to be filed. If there is no such person required to file on that date (because, for example, the corporation has been dissolved), then filing is required of the persons who were officers, directors or 10-percent shareholders on the last day of the most recent taxable year of the corporation for which there was such a person who was a United States citizen or resident.

(2) *10-percent shareholder.* (i) the term "10-percent shareholder" means any individual who owns directly or indirectly (within the meaning of section 554) 10 percent or more in value of the outstanding stock of a foreign corporation.

(ii) An individual who does not own 10 percent or more in value of the outstanding stock directly but is required to file solely by attribution of another United States person's stock ownership is excused from filing if the direct owner that is an individual furnishes all the information required.

(3) *Two or more persons required to submit the same information.* If two or more persons are required to furnish the information for the same foreign personal holding company for the same period, one person may make one return on Form 5471. The single Form 5471 may be filed with the income tax return of any one of the persons and shall disclose the name, address, and identifying number of each other person or persons on whose behalf the return is filed. Each person on whose behalf the return is filed remains liable for any penalties imposed under sections 6679, 7203, 7206, and 7207.

(4) *Statement required.* Any United States citizen or resident required to furnish information under this section with his return who does not do so by reason of the provisions of subparagraph (2)(ii) or (3) of this paragraph shall file a statement with his income tax return indicating that such requirement has been or will be satisfied and identifying the return with which the information was or will be filed and the place of filing.

(c) *Separate returns for each corporation.* If a person is required to file returns under section 6035 and this section with respect to more than one foreign personal holding company, separate returns must be filed with respect to each company.

(d) *Corrective filing.* If an information return with respect to a taxable year of a foreign personal holding company beginning after September 3, 1982, is filed before [date which is 30 days after the date of publication of a Treasury decision in the Federal Register] and that return does not contain all of the information required by this section, then the filer of the return shall file an amended information return containing all of such information within 90 days after [date of publication of a Treasury decision in the Federal Register].

(e) *Penalties*—(1) *Criminal penalties.* For criminal penalties for failure to file a return and filing a false or fraudulent return, see sections 7203, 7206, and 7207.

(2) *Civil penalties.* For civil penalties for failure to file a proper foreign personal holding company information return, see section 6679 and the regulations thereunder.

Par. 3. Section 1.6035-2 is revised to read as follows:

§1.6035-2 Returns of U.S. officers and directors of foreign personal holding companies for taxable years beginning before September 4, 1982.

For rules relating to information returns required to be filed by officers and directors of foreign personal holding companies for taxable years beginning before September 4, 1982, see section 6035(a) (as in effect before the enactment of the Tax Equity and Fiscal Responsibility Act of 1982) and 26 CFR 1.6035-1 (Rev. as of April 1, 1981).

Par. 4. Section 1.6035-3 is revised to read as follows:

§1.6035-3 Returns of 50-percent U.S. shareholders of foreign personal holding companies for taxable years beginning before September 4, 1982.

For rules relating to information returns required to be filed by shareholders of foreign personal holding companies for taxable years by beginning before September 4, 1982, see section 6035(b) (as in effect before the enactment of the Tax Equity and Fiscal Responsibility Act of 1982) and 26 CFR 1.6035-2 [Rev. as of April 1, 1981].

Par. 5. The authority citation for Part 602 is as follows:

Authority: 26 U.S.C. 7805.

Par. 6. Section 602.101(c) is amended by inserting in the appropriate place in the table "§1.6035-1 ... 1545-0704" "§1.6035-2 ... 1545-0704".

Par. 7. The authority citation for part 301 is unchanged. Section 301.6679-1 relies for authority on 26 U.S.C. 7805.

Par. 8. Section 301.6679-1 is amended as follows:

1. The section heading is revised to read as follows: "Failure to file returns, etc. with respect to foreign corporations or foreign partnerships for taxable years beginning after September 3, 1982".

2. Paragraph (a)(1) is revised as set forth below.

3. Paragraph (a)(2) is amended by removing "section 6046 and §1.6046-1," and adding in its place "section 6035, 6046, or 6046A".

4. The third sentence of paragraph (a)(3) is amended by removing "section 6046" and adding in its place 'section 6035, 6046, or 6046A".

§301.6679-1 Failure to file returns, etc. with respect to foreign corporations or foreign partnerships for taxable years beginning after September 3, 1982.

(a) *Civil penalty*—(1) *In general.* In addition to any criminal penalty provided by law, each United States citizen, resident or person filing a separate or joint information return or on whose behalf a return is filed, pursuant to sections 6035, 6046, or 6046A, and the regulations thereunder, who fails to file such a return within the time provided, or who files a return which does not

ıow the required information, shall ıy a penalty of $1,000, unless such ilure is shown to be due to reasonable ıuse.

This Treasury decision is issued un-er the authority contained in Code sec-ons 6035(a), (d), and (e) (96 Stat. 33, 26 U.S.C. 6035(a), (d), and (e)), 679 (96 Stat. 634; 26 U.S.C. 6679), nd 7805 (68a Stat. 917, 26 U.S.C. 805). Approved by the Office of Man-gement and Budget under control umber 1545-0704.

JAMES I. OWENS,
Acting Commissioner of Internal Revenue.

Approved May 20, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on June 3, 1985, 8:45 a.m., and published in the issue of the Federal Register for June 4, 1985, 50 F.R. 23407)

Section 6038.—Information With Respect to Certain Foreign Corporations

26 CFR 1.6038-2: Information returns required of United States persons with respect to annual accounting periods of certain foreign corporations beginning after December 31, 1962. Also Section 6038A; 1.6038A-1.)

T.D. 8040

TITLE 26—INTERNAL REVENUE.—CHAPTER 1, SUBCHAPTER A, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Information Returns Required of Certain Foreign-owned Corporations, and Information Returns Required of United States Persons With Respect to Certain Foreign Corporations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final Income Tax Regulations relating to information returns required of United States persons with respect to certain foreign corporations, and information returns required of certain foreign-owned corporations with respect to transactions with related corporations, under sections 6038 and 6038A, respectively, of the Internal Revenue Code of 1954. These regulations set forth the requirements for who must report, the information required to be reported, the time and manner for filing the information returns, and penalties for failure to report information. Changes to the applicable tax law were made by the Tax Equity and Fiscal Responsibility Act of 1982. These regulations provide the public with the guidance needed to comply with that Act.

DATES: The amendments under section 6038 with respect to penalties are effective for information required with respect to annual accounting periods of the foreign corporations ending after September 3, 1982. The remaining amendments under section 6038 are effective for taxable years beginning after August 23, 1985. The amendments under section 6038A are effective for taxable years beginning after December 31, 1983.

FOR FURTHER INFORMATION CONTACT: Charles C. Saverude of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, (Attention: CC:LR:T) (202-566-3323, not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

On December 19, 1983, the Federal Register published proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 6038 and 6038A of the Internal Revenue Code of 1954 (48 F.R. 56076) [LR-201-82, 1984-1 C.B. 752]. These amendments were proposed to conform the regulations to changes made to section 6038 and the addition of section 6038A by sections 338 and 339 of the Tax Equity and Fiscal Responsibility Act of 1982 (96 Stat. 631) [Pub. L. 97-248, 1982-2 C.B. 462, 576, 577]. A public hearing was held on March 29, 1984. After consideration of all comments regarding the proposed amendments, the amendments as set forth below are adopted by this Treasury decision.

DISCUSSION OF COMMENTS AND CHANGES FROM PROPOSED AMENDMENTS

Sections 1.6038-2 and 1.6038A-1

Two commentors suggested that a reporting person who has "substantially complied" with the reporting rules should not be penalized for errors or omissions. In both §1.6038-2 and §1.6038A-1, an explicit statement to that effect is not needed because "substantial compliance," as well as other factors, may be considered in determining whether reasonable cause existed for failure to furnish some information if a penalty for such a failure is asserted. However, a provision relating to "substantial compliance" has been retained, slightly modified for clarification, in §1.6038-2(k)(3), and the same language has been added to §1.6038A-1(f)(3)(ii) for foreign-owned corporations. The Service anticipates that the broad range of estimates and descriptions allowed in §1.6038A-1 for reporting of transactions will prevent most inadvertent errors from causing a technical violation if the reporting corporation has made a reasonable effort to comply.

The filing requirements for information returns under sections 6038 and 6038A have also been changed to require that duplicate returns be filed with the Philadelphia Service Center. This will facilitate use of the information in a centralized statistical analysis program (in addition to its use in audits), without the delays and additional costs to the Service of sorting, duplicating, and transferring the information received in the regional service centers for a second use in Philadelphia.

Section 1.6038-2

One comment criticized the proposal to allow other information to be required by forms. The commentor suggested that any requirement to provide additional information should be subject to notice and public comment procedures. The regulation has been modified to allow changes in the form or manner in which the prescribed information is to be reported, or to allow some items of information to be de-

leted, by the form, without allowing the form to require additional information.

Section 1.6038A-1

Changes have been made in paragraphs (a) and (b) to allow a group of corporations filing a consolidated income tax return to file Form 5472 on a consolidated basis, and to eliminate reporting with respect to transactions within the group. However, a reporting corporation (or group) is still required to file separately with respect to each related corporation with which it has transactions. Two commentors suggested that it might be easier to file one form (or one computer listing) for all related-corporation transactions, with details attached on a company-by-company basis is necessary. In the Service's view, adoption of that suggestion would not significantly reduce any burden of compliance, but it would reduce the usefulness of the information to the Service.

Two commentors suggested that the Service not require annual reporting of information, but rather collect it on a sample basis. This suggestion has not been adopted. Other commentors suggested that information reporting should not be required under section 6038A when a transaction must also be reported under section 6038. This suggestion has been adopted in paragraph (a)(3).

Paragraph (b)(1), defining "reporting corporation," contains an exception from reporting for corporations having no income subject to U.S. taxation. Several commentors felt that the exception should be clarified and expanded in various ways. That exception has been revised to include more situations in which reporting may not be particularly useful to the Internal Revenue Service. Banks are now excepted from reporting, as are other foreign corporations having no income except income subject to withholding or exempt from tax under the provisions of an income tax treaty.

A sentence has been added to the example in paragraph (b)(2), defining control, to explain that control is attributed directly rather than proportionately, once the 50 percent ownership threshold is met.

Paragraph (b)(3) has been changed to clarify that the term "foreign person" includes a foreign government or government agency.

The definition of "related corporation" has been narrowed to eliminate reporting of transactions between corporations that join in filing a consolidated income tax return.

In paragraph (c)(1), several items of information concerning the related corporation have been deleted in response to comments that the information required was overly burdensome or not readily available to the reporting corporation. All of the items of information listed in the proposed regulations were carefully considered, and those items that are retained have been determined to be the information most necessary to the Internal Revenue Service. One commentor suggested that some of the required information may be unavailable to the reporting corporation. Inability to obtain information may be reasonable cause for failure to provide that information. If the reporting corporation shows reasonable cause for failure to provide any information, paragraph (f)(3) provides procedures for avoiding imposition of penalties.

Paragraph (c)(2) has been revised to allow the form to change the manner in which information is reported without allowing it to require new information.

In response to comments that the reporting of transactions in exact amounts would be extremely burdensome, unnecessary, and subject to potentially severe penalties for minor errors, paragraph (c)(2) has been revised to allow reporting by reasonable estimates. The term "reasonable estimate" is defined in paragraph (c)(2)(iv), providing permissible percentages of variation and a simple method for reporting small amounts, as well as allowing a reporting corporation to show by facts and circumstances that its estimates were reasonable, if not within the ranges provided.

Two comments suggested that more types of reportable service transactions were listed in paragraph (c)(2)(i)(E) than in §1.6038-2(f)(11)(iv), producing a reporting burden that would discriminate against foreign-owned corporations in violation of income tax treaties. While the Service does not agree that the difference in reporting requirements would violate income tax treaty provisions, this item has nonetheless been changed to duplicate the services listed in §1.6038-2 to avoid any appearance of discrimination.

One commentor requested that the regulations provide guidance with respect to the method for reporting amounts loaned or borrowed. In response to this, a new sentence has been added at the end of paragraph (c)(2)(i) to provide a method for reporting those amounts, and to allow that method to be changed by forms.

A suggestion that banking transactions entered into on behalf of customers should be excluded form the information to be reported has not been adopted because banks have been excluded from reporting in general. A similar suggestion was made to exclude transactions by brokers and insurance companies on behalf of customers. This suggestion has not been adopted.

The requirements in paragraph (c)(2)(ii) for reporting transactions involving non-monetary consideration or no consideration have been revised to allow more flexibility in the manner in which transactions may be described. A description may be provided for a single transactions or a group of similar or related transactions. While a description should include all property and services transferred, the essential requirement is that it include sufficient information from which to determine the substance and size of the transaction. In reporting the value of these transactions, the reasonable estimate rules (discussed above) apply. These liberalized requirements are intended to permit one fairly brief description to be used to report a pattern of transactions for which no individual records are kept because the transactions are considered too insignificant to require compensation or because they are performed on a reciprocal basis. Also, a sentence has been added at the end of paragraph (c)(2)(ii) to clarify that descriptions of transactions under that subdivision are not required merely because the transaction involves a transfer of some intangible property in connection with tangible property for which monetary consideration is paid or received. A transaction fitting that description may be reported under paragraph (c)(2)(i), which only requires the reporting of a dollar amount.

In paragraph (c)(2)(iii), the exception for transactions that are not required to be reported has also been expanded and simplified, and now includes nonrecognition transactions, such as like-kind exchanges under section 1031.

Two comments stated that reporting of amounts in U.S. dollars, with exchange rates used, would be irrelevant, unnecessary and unduly burdensome in light of constantly changing exchange rates. It is precisely because of changing exchange rates that the rates used are relevant and necessary. Since a rate of exchange must be used in order to translate one currency into another, the reporting corporation will always have this information.

One commentor suggested that these information returns should not be due until 6 months after the reporting corporation's income tax return is filed. The information returns are required to be filed with the income tax return because they will be used with the income tax return to determine certain areas for which closer examination may be appropriate during an audit. Separate filing would require the Internal Revenue Service to match these information returns with the reporting corporation's tax returns. Therefore, the suggestion has not been adopted.

A few commentors proposed that no reporting should be required for past years, or that reports for those years should be made in an abbreviated fashion. These final regulations require reporting for all taxable years beginning after December 31, 1983. Reporting is not required for taxable years beginning before January 1, 1984. The reasonable estimate rule for reporting amounts of transactions should help to reduce the burden of compiling information on past transactions. Information returns for taxable years ending before July 24, 1985 must be filed by November 21, 1985, or, if later, with the reporting corporation's tax return for the same taxable year.

Paragraph (f)(1) has been revised to clarify that the penalty for failure to furnish information only applies once with respect to each related corporation for each year that a report is required. Suggestions that a "substantial compliance" exception should be added to the penalty provisions have been adopted, as discussed previously. In addition, the "reasonable estimate" provisions of the reporting requirements operate, in effect, quite similarly to the substantial compliance provision to prevent imposition of a penalty if a reporting corporation has complied with those requirements. Another commentor suggested that the regulations should provide specific guidelines for determining reasonable cause for failing to provide information, for the purpose of avoiding the penalty provided. For example, the comment suggested that a reporting corporation would not know and would not be able to determine whether it was dealing with a related corporation, and therefore the regulations should provide rules specifically excepting that reporting corporation from the penalty provisions. The final regulations do not include any specific guidelines or exceptions for determining whether a failure to provide information was due to reasonable cause. This determination must be based on the facts and circumstances of each individual case. Specific guidelines may be helpful in some cases but not in others because a failure may be due to reasonable cause under some facts but not under other similar facts.

CERTIFICATION OF NONAPPLICABILITY OF REGULATORY FLEXIBILITY ACT OF 1980 AND EXECUTIVE ORDER 12291

The Secretary of the Treasury has certified that these regulations will not have a significant economic impact on a substantial number of small entities and are, therefore, not subject to the requirements of the Regulatory Flexibility Act of 1980 (5 U.S.C. chapter 6). Accordingly, a Regulatory Flexibility Analysis is not required and has not been prepared. These regulations will generally only affect United States persons that have significant holdings in foreign corporations and certain foreign-owned corporations that have transactions with related corporations. The Commissioner of Internal Revenue has determined that these regulations are not major regulations subject to Executive order 12291. Accordingly, a Regulatory Impact Analysis is not required and has not been prepared.

PAPERWORK REDUCTION ACT

The collection of information contained in these regulations has been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB under control number 1545-0805.

DRAFTING INFORMATION

The principal author of these regulations is David J. Dean of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, on matters of both substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Part 1, Part 301, and Part 602 are amended as following:

Income Tax Regulations

Paragraph 1. These regulations are issued under the authority contained in 26 U.S.C. 7805, 26 U.S.C. 6038 and 26 U.S.C. 6038A. The authority citation for Part 1 is amended by adding, "§1.6038-2 and §1.6038A-1 also issued under 26 U.S.C. 6038 and 6038A."

Par. 2. Section 1.6038-2 is revised to read as follows:

§1.6038-2 Information returns required of United States persons with respect to annual accounting periods of certain foreign corporations beginning after December 31, 1962.

(a) *Requirement of return.* Every U.S. person shall make a separate annual information return with respect to each annual accounting period (described in paragraph (e) of this section) beginning after December 31, 1962, of each foreign corporation which that person controls (as defined in paragraph (b) of this section) for an uninterrupted period of 30 days or more during such annual accounting period. Such information shall not be required to be furnished, however, with respect to a corporation defined in sec-

tion 1504(d) of the Code which makes a consolidated return for the taxable year. The return shall be made, with respect to annual accounting periods ending with or within the United States person's taxable year, on—

(1) Form 2952 if such taxable year ends before December 31, 1982,

(2) Form 5471 if such taxable year ends on or after December 31, 1983, or

(3) Either Form 5471 or Form 2952 if such taxable year ends on or after December 31, 1982 and before December 31, 1983.

(b) *Control.* A person shall be deemed to be in control of a foreign corporation if at any time during that person's taxable year it owns stock possessing more than 50 percent of the total combined voting power of all classes of stock entitled to vote, or more than 50 percent of the total value of shares of all classes of stock of the foreign corporation. A person in control of a corporation which, in turn, owns more than 50 percent of the combined voting power, or of the value, of all classes of stock of another corporation is also treated as being in control of such other corporation. The provisions of this paragraph may be illustrated by the following example:

Example. Corporation A owns 51 percent of the voting stock in Corporation B. Corporation B owns 51 percent of the voting stock in Corporation C. Corporation C in turn owns 51 percent of the voting stock in Corporation D. Corporation D is controlled by Corporation A.

(c) *Attribution rules.* For the purpose of determining control of domestic or foreign corporations the constructive ownership rules of section 318(a) shall apply except that:

(1) Stock owned by or for a partner or a beneficiary of an estate or trust shall not be considered owned by the partnership, estate, or trust when the effect is to consider a United States person as owning stock owned by a person who is not a United States person;

(2) A corporation will not be considered as owning stock owned by or for a 50 percent or more shareholder when the effect is to consider a United States person as owning stock owned by a person who is not a United States person; and

(3) If 10 percent or more in value of the stock in a corporation is owned, directly or indirectly, by or for any person, section 318(a)(2)(C) shall apply.

The constructive ownership rules of section 318(a) apply only for purposes of determining control as defined in paragraph (b) of this section.

(d) *U.S. person.* For purposes of section 6038 and this section, the term "United States person" has the meaning assigned to it by section 7701(a)(30) of the Code, except that—

(1) With respect to a corporation organized under the laws of the Commonwealth of Puerto Rico, such term does not include an individual who is a bona fide resident of Puerto Rico, if a dividend received by such individual during the taxable year from such corporation would be excluded from gross income under section 933(1),

(2) With respect to a corporation organized under the laws of the Virgin Islands, such term does not include an individual who is a bona fide resident of the Virgin Islands and whose income tax obligation under subtitle A (relating to income taxes) of the Code for the taxable year is satisfied pursuant to section 28(a) of the Revised Organic Act of the Virgin Islands, approved July 22, 1954 (48 U.S.C. 1642), by paying tax on income derived from all sources both within and outside the Virgin Islands into the treasury of the Virgin Islands,

(3) With respect to a corporation organized under the laws of Guam or the Northern Mariana Islands, such term does not include an individual who is a bona fide resident of Guam or the Northern Mariana Islands, respectively, and who is relieved of liability for income tax to the United States under section 935(c)(3) of the Code or section 601 of the Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America (Pub. L. 94-241), respectively, for such individual's taxable year referred to in paragraph (e) of this section, and

(4) With respect to a corporation organized under the laws of any possession of the United States (other than Guam, the Northern Mariana Islands, Puerto Rico, or the Virgin Islands), such term does not include an individual who is a bona fide resident of such possession for the entire taxable year and whose income derived from sources within any possession of the United States is not, by reason of section 931(a), includible in gross income under subtitle A (relating to income taxes) of the Code for the taxable year.

An individual for whom an election under section 6013(g) or (h) is in effect shall, subject to the exceptions contained in this paragraph (d), be considered a United States person for purposes of section 6038 and this section.

(e) *Period covered by return.* The information required under paragraphs (f) and (g) of this section with respect to a foreign corporation shall be furnished for the annual accounting period of the foreign corporation ending with or within the United States person's taxable year. For purposes of this section, the annual accounting period of a foreign corporation is the annual period on the basis of which that corporation regularly computes its income in keeping its books. The term "annual accounting period" may refer to a period of less than one year, where, for example, the foreign income, war profits, and excess profits taxes are determined on the basis of an accounting period of less than one year as described in section 902(c)(2). If more than one annual accounting period ends with or within the United States person's taxable year, separate annual information returns shall be submitted for each annual accounting period.

(f) *Contents of return.* the return on Form 2952 or Form 5471 shall contain so much of the following information, and in such form or manner, as the form shall prescribe with respect to each foreign corporation:

(1) The name, address, and employer identification number. If any, of the corporation;

(2) The principal place of business of the corporation;

(3) The date of incorporation and the country under whose laws incorporated;

(4) The name and address of the foreign corporation's statutory or resident agent in the country of incorporation;

(5) The name, address, and identifying number of any branch office or agent of the foreign corporation located in the United States;

(6) The name and address of the person (or persons) having custody of the books of account and records of the foreign corporation, and the location of

such books and records if different from such address;

(7) The nature of the corporation's business and the principal places where conducted;

(8) As regards the outstanding stock of the corporation—

(i) A description of each class of the corporation's stock, and

(ii) The number of shares of each class outstanding at the beginning and end of the annual accounting period;

(9) A list showing the name, address, and identifying number of, and the number of shares of each class of the corporation's stock held by, each United States person who is shareholder owning at any time during the annual accounting period 5 percent or more in value of any class of the corporation's outstanding stock;

(10) For the annual accounting period, the amount of the corporation's:

(i) Current earnings and profits;

(ii) Foreign income, war profits, and excess profits taxes paid or accrued,

(iii) Distributions out of current earnings and profits for the period; and

(iv) Distributions other than those described in paragraph (f)(10)(iii) of this section and the source thereof; and

(11) A summary showing the total amount of each of the following types of transactions of the corporation, which took place during the annual accounting period, with the person required to file this return, any other corporation controlled by that person, or any United States person owning at the time of the transaction 10 percent or more in value of any class of stock outstanding of the foreign corporation, or of any corporation controlling that foreign corporation:

(i) Sales and purchases of stock in trade;

(ii) Purchases of tangible property other than stock in trade;

(iii) Sales and purchases of patents, inventions, models, or designs (whether or not patented), copyrights, trademarks, secret formulas or processes, or any other similar property rights;

(iv) Compensation paid and compensation received for the rendition of technical, managerial, engineering, construction, scientific, or like services;

(v) Commissions paid and commissions received;

(vi) Rents and royalties paid and rents and royalties received;

(vii) Amount loaned and amounts borrowed (except open accounts resulting from sales and purchases reported under other items listed in this paragraph (f)(11) that arise and are collected in full in the ordinary course of business);

(viii) Dividends paid and dividends received;

(ix) Interest paid and interest received; and

(x) Premiums received for insurance or reinsurance.

For purposes of paragraph (f)(11) of this section, if the United States person is a bank, as defined in section 581, or is controlled within the meaning of section 368(c) by a bank, the term "transactions" shall not, as to a corporation with respect to which a return is filed, include banking transactions entered into on behalf of customers; in any event, however, deposits in accounts between a foreign corporation, controlled (within the meaning of paragraph (b) of this section) by a United States person, and a person described in paragraph (f)(11) of this section and withdrawals from such accounts shall be summarized by reporting end-of-month balances.

(g) *Financial statements.* The following information with respect to the foreign corporation shall be attached to and filed as part of the return required by this section:

(1) A statement of the corporation's profit and loss for the annual accounting period;

(2) A balance sheet as of the end of the annual accounting period of the corporation showing—

(i) The corporation's asset;

(ii) The corporation's liabilities; and

(iii) The corporation's net worth; and

(3) An analysis of changes in the corporation's surplus accounts during the annual accounting period including both opening and closing balances.

The information listed in this paragraph (g) shall be prepared in conformity with generally accepted accounting principles, and in such form and detail as is customary for the corporation's accounting records.

(h) *Method of reporting.* All amounts furnished under paragraphs (f) and (g) of this section shall be expressed in United States currency with a statement of the exchange rates used. All statements submitted on or with the return required under this section shall be rendered in the English language.

(i) *Time and place for filing return.* Returns on Form 2952 or Form 5471 required under paragraph (a) of this section shall be filed with the United States person's income tax return on or before the date required by law for the filing of that person's income tax return. District directors and directors of service centers are authorized to grant reasonable extensions of time for filing returns on Form 2952 or Form 5471 in accordance with the applicable provisions of §1.6081-1 of this chapter. An application for an extension of time for filing a return of income shall also be considered as an application for an extension of time for filing returns on Form 2952 or Form 5471.

(j) *Two or more persons required to submit the same information*—(1) *Return jointly made.* If two or more persons are required to furnish information with respect to the same foreign corporation for the same period, such persons may, in lieu of making separate returns, jointly make one return. Such joint return shall be filed with the income tax return of any one of the persons making such join return.

(2) *Persons excepted from furnishing information*—(i) *Conditions.* Any person required to furnish information under this section with respect to a foreign corporation need not furnish that information provided all of the following conditions are met:

(A) Such person does not directly own an interest in the foreign corporation;

(B) Such person is required to furnish the information solely by reason of attribution of stock ownership from a United States person under paragraph (c) of this section; and

(C) The person from whom the stock ownership is attributed furnishes all of the information required under this section of the person to whom the stock ownership is attributed.

(ii) *Illustrations.* The rule of this paragraph (j)(2) is illustrated by the following examples:

Example (1). A, a U.S. person owns 100 percent of the stock of M, a domestic corporation. A

also owns 100 percent of the stock of N, a foreign corporation organized under the laws of foreign country Y. A, in filing the information return required by this section with respect to N Corporation, in fact furnishes all the information required of M Corporation with respect to N Corporation. M Corporation need not file the information.

Example (2). X, a domestic corporation owns 100 percent of the stock of Y, a domestic corporation, Y Corporation owns 100 percent of the stock of Z, a foreign corporation. X Corporation is not excused by this paragraph (j)(2) from filing information with respect to Z Corporation because X Corporation is deemed to control Z Corporation under the provisions of paragraph (b) of this section without recourse to the attribution rules in paragraph (c) of this section.

(3) *Statement required.* Any United States person required to furnish information under this section with his return who does not do so by reason of the provisions of paragraph (j)(1) or (j)(2) of this section shall file a statement with his income tax return indicating that such liability has been (or, in the case of a join return made under paragraph (j)(1) of this section, will be) satisfied and identifying the return with which the information was or will be filed and the place of filing.

(k) *Failure to furnish information*—(1) *Dollar amount penalty*—(i) *In general.* If any person required to file Form 2952 or Form 5471 under section 6038 and this section fails to furnish any information described in paragraphs (f) and (g) of this section within the time prescribed by paragraph (i) of this section, such person shall pay a penalty of $1,000 for each annual accounting period of each foreign corporation with respect to which such failure occurs.

(ii) *Increase in penalty for continued failure after notification.* If a failure described in paragraph (k)(1)(i) of this section continues for more than 90 days after the date on which the district director mails notice of such failure to the person required to file Form 2952 or Form 5471, such person shall pay a penalty of $1,000, in addition to the penalty imposed by section 6038(b)(1) and paragraph (k)(1)(i) of this section, for each 30-day period (or fraction thereof) during which such failure continues after such 90-day period has expired. The additional penalty imposed by section 6038(b)(2) and this paragraph (k)(1)(ii) shall be limited to a maximum of $24,000 for each failure.

(iii) *Effective date.* The penalty imposed by section 6038(b) and this paragraph (k)(1) shall apply with respect to information for annual accounting periods ending after September 3, 1982.

(2) *Penalty of reducing foreign tax credit*—(i) *Effect on foreign tax credit.* Failure of a United States person to furnish, in accordance with the provisions of this section, any return or any information in any return, required to be filed for a taxable year under authority of section 6038 on or before the date prescribed in paragraph (i) of this section may affect the application of section 901 as provided in paragraph (k)(2)(ii) of this section and may affect the application of sections 902 and 960 as provided in paragraph (k)(2)(iii) of this section. Such failure may affect the application of sections 902 and 960 to any such United States person which is a corporation or to any person who acquires from any other person any portion (but only to the extent of such portion) of the interest of such other person in any such foreign corporation.

(ii) *Application of section 901.* In the application of section 901 to a United States person referred to in paragraph (k)(2)(i) of this section, the amount of taxes paid or deemed paid by such person for any taxable year, with or within which the annual accounting period of a foreign corporation for which such person failed to furnish information required under this section ended, may be reduced by 10 percent. However, no tax reduced under paragraph (k)(2)(iii) of this section or deemed paid under section 904(c) shall be reduced under the provisions of this paragraph (k)(2)(ii).

(iii) *Application of sections 902 and 960.* In the application of sections 902 and 960 to a United States person referred to in paragraph (k)(2)(i) of this section for any taxable year, the amount of taxes paid or deemed paid by each foreign corporation for the accounting period or periods for which such person was required for the taxable year of the failure to furnish information under this section may be reduced by 10 percent. The 10-percent reduction is not limited to the taxes paid or deemed paid by the foreign corporation with respect to which there is a failure to file information but may apply to the taxes paid or deemed paid by all foreign corporations controlled by that person. In applying subsections (a) and (b) of section 902, and in applying subsection (a) of section 960, the reduction provided by this paragraph (k)(2) shall not apply for purposes of determining the amount of accumulated profits in excess of income, war profits, and excess profits taxes.

(iv) *Reduction for continued failure after notice.* (A) If the failure referred to in paragraph (k)(2)(i) of this section continues for more than 90 days after the date on which the district director mails notice of such failure to such United States person, then the amount of the reduction referred to in paragraph (k)(2)(ii) and (iii) of this section may be 10 percent plus an additional 5 percent for each 3-month period, or fraction thereof, during which such failure continues after the expiration of such 90-day period.

(B) No taxes shall be reduced under this paragraph (k)(2) more than once for the same failure. Taxes paid by a foreign corporation when once reduced for a failure shall not be reduced again for the same failure in their status as taxes deemed paid by a corporate shareholder. Where a failure continues, each additional periodic 5-percent reduction, referred to in paragraph (k)(2)(iv)(A) of this section, shall be considered as part of the one reduction.

(v) *Limitation on reduction of foreign tax credit.* The amount of the reduction under this paragraph (k)(2) for each failure to furnish information with respect to a foreign corporation as required under this section shall not exceed the greater of:

(A) $10,000, or

(B) The income of the foreign corporation for its annual accounting period with respect to which the failure occurs.

For purposes of this section if a person is required to furnish information with respect to more than one foreign corporation, controlled (within the meaning of paragraph (b) of this section) by that person, each failure to submit information for each such corporation constitutes a separate failure.

(vi) *Offset for dollar amount penalty imposed.* The total amount of the reduction or reductions which, but for

this paragraph (k)(2)(vi), may be made under this paragraph (k)(2) with respect to any separate failure, shall not exceed the maximum amount of such reductions which may be imposed, reduced (but not below zero) by the amount of the dollar amount penalty imposed by paragraph (k)(1) of this section with respect to such separate failure.

(3) *Reasonable cause*—(i) For purposes of section 6038(b) and (c) and this section, the time prescribed for furnishing information under paragraph (i) of this section, and the beginning of the 90-day period after mailing of notice by the district director under paragraph (k)(1)(ii) and (k)(2)(iv)(A) of this section, shall be treated as being not earlier than the last day on which reasonable cause existed for failure to furnish the information.

(ii) To show that reasonable cause existed for failure to furnish information as required by section 6038 and this section, the person required to report such information must make an affirmative showing of all facts alleged as reasonable cause for such failure in a written statement containing a declaration that it is made under the penalties of perjury. The statement must be filed with the district director for the district or the director of the service center where the return is required to be filed. The district director or the director of the service center shall determine whether the failure to furnish information was due to reasonable cause, and if so, the period of time for which such reasonable cause existed. In the case of a return that has been filed as required by this section except for an omission of, or error with respect to, some of the information required, if the person who filed the return establishes to the satisfaction of the district director or the director of the service center that the person has substantially complied with this section, then the omission or error shall not constitute a failure under this section.

(4) *Other penalties.* The information required by section 6038 and this section must be furnished even though there are no foreign taxes which would be reduced under the provisions of this section, and even though the information required may not affect the amount of any tax due under the Internal Revenue Code. For criminal penalties for failure to file a return and filing a false or fraudulent return, see sections 7203, 7206, and 7207 of the Code.

(5) *Illustrations.* The provisions of this paragraph may be illustrated by the following examples.

Example (1). M, a domestic corporation owns 100 percent of the stock of N, a foreign corporation. Both M and N use the calendar year as a taxable year and annual accounting period, and all of the following events occur in or with respect to the 1980 taxable year. The dividend from N is the only dividend from a foreign corporation received by M during the taxable year, and the foreign taxes listed are the only foreign taxes paid or deemed paid by M and N for the taxable year. On March 15, 1981, M filed its income tax return and paid its income tax, but M did not file Form 2952 with respect to N's 1980 annual accounting period. On June 1, 1961, the district director mailed notice to M of M's failure to file Form 2952 with respect to N. On November 30, 1981, M filed a complete Form 2952 with respect to N's 1980 annual accounting period.

(a)	Gains, profits, and income of N	$100,000
(b)	Foreign tax paid by N with respect to such gains, profits, and income	40,000
(c)	Reduction of foreign tax paid by N (for purposes of M's section 902 deemed paid credit) resulting from M's failure to file information with respect to N as required under section 6038(a) and this section: failure to file within the time prescribed in paragraph (i) of this section, 10-percent reduction; continued failure for one additional 3-month period after 90-day period after notice mailed, 5-percent reduction; total reduction, 15 percent ($40,000 times 15 percent)	6,000
(d)	Foreign tax paid by N after section 6038(c)(1)(B) reduction	34,000
(e)	Dividend paid by N to M	45,000
(f)	Accumulated profits of N as defined in section 902(c)(1) (determined without regard to the section 6038(c)(1)(B) reduction)	100,000
(g)	Accumulated profits of N as described in section 902(a) (determined without regard to the section 6038(c)(1)(B) reduction)	60,000
(h)	For purposes of the section 902 credit, M is deemed to have paid the same proportion of foreign taxes paid (reduced as provided under section 6038(c)) with respect to the accumulated profits described in section 902(a) (determined without regard to the reduction provided under section 6038(c)) as the amount of the dividend (determined without regard to section 78) bears to such amount of accumulated profits	25,500

(45,000 ÷ 60,000) × 34,000 = 25,500

Must include $25,500 in gross income as a dividend under the provisions of section 78 of the Code. This example illustrates that the reductions in foreign taxes paid by the foreign corporation provided under section 8038(c) are taken into account in determining the amount included in gross income of the domestic corporation under section 78 of the Code as foreign taxes deemed paid, but such reductions are not taken into account in computing accumulated profits for purposes of determining the portion of foreign taxes deemed paid with respect to a particular dividend. The dollar amount penalty imposed by section 8038(b) and paragraph (k)(1) of this section does not apply with respect to information for annual accounting periods ending before September 4, 1982, and therefore does not apply to M with respect to M's failure to file Form 2952 in this example.

Example (2). The facts are the same as in example (1) except that all of the events occur in or with respect to the 1982 taxable year. On March 15, 1983. M filed its income tax return and paid its income tax, but M did not file Form 2952 or Form 5471 with respect to N's 1982 annual accounting period. On June 1, 1983, the district director mailed notice to M of M's failure to file Form 2952 or Form 5471 with respect to N. On November 30, 1983, M filed a complete Form 5471 with respect to N's 1982 annual accounting period. Under paragraph (k)(1)(i) of this section, M is subject to a penalty of $1,000. Under paragraph (k)(1)(ii) of this section, that penalty is increased by $4,000 because the failure continued for 92 days (three full 30-day periods and a fraction of a fourth 30-day period) after the end of the 90-day period following mailing of the notice by the district director, bringing M's dollar amount penalty under paragraph (k)(1) of this section to $5,000. For purpose of determining the foreign tax credit available to M, there may be imposed a reduction of foreign tax paid by N of $6,000, which would be the total of reductions under paragraph (k)(2) of this section with respect to M's failure to file under section 6038 for N's 1982 annual accounting period, before application of paragraph (k)(2)(vi) of this section. Under said paragraph (k)(2)(vi), the amount of the foreign tax reduction imposed is reduced by the amount of the dollar amount penalty, leaving a foreign tax reduction penalty of $1,000 which may be imposed in addition to the $5,000 dollar amount penalty. If imposed, the $1,000 tax reduction would then be applied in the calculation of taxes deemed paid by M under section 902 as in example (1), item (c), (d), and (h).

Par. 3. There is added after §1.6038-2 the following new section.

§1.6038A-1 Information returns required of certain foreign-owned corporations.

(a) *Requirement of return*—(1) *In general.* Every corporation which at any time during its taxable year is a re-

porting corporation (described in paragraph (b)(1) of this section) shall make a separate annual information return on Form 5472 with respect to each related corporation (described in paragraph (b)(4) of this section) with which such reporting corporation has had any transaction of the types listed in paragraph (c)(2) of this section during such taxable year.

(2) *Consolidated returns.* If a reporting corporation is a member of an affiliated group of corporations filing a consolidated income tax return, it may join in filing information returns on Form 5472 on a consolidated basis. A consolidated Form 5472 shall be filed by the common parent corporation and shall be accompanied by a copy of the group's Form 851 (Affiliations Schedule), indicating which members listed thereon are reporting on the Form 5472. A member is not required to join in filing a consolidated Form 5472 merely because other members of the group choose to file one or more Forms 5472 on a consolidated basis.

(3) *Exception.* Notwithstanding paragraph (a)(1) of this section, a reporting corporation is not required to make a return of information on Form 5472 with respect to a related corporation for a taxable year for which a U.S. person that controls the reporting corporation makes a return of information on Form 5471 that is required under section 6038 and §1.6038-2, if that return contains information required under §1.6038-2(f)(11) with respect to the transactions between the reporting corporation and the related corporation for that taxable year.

(b) *Definitions*—(1) *Reporting corporation*—(i) *In general.* For purposes of section 6038A and this section, a corporation is a reporting corporation if—

(A) It is a domestic corporation or is a foreign corporation engaged in a trade or business within the United States, and

(B) It is a controlled (as defined in paragraph (b)(2) of this section) by a foreign person.

(ii) *Exceptions.* Notwithstanding paragraph (b)(1)(i) of this section, a corporation is not a reporting corporation if—

(A) It has had no transactions of the types listed in paragraph (c)(2) during the taxable year with any related corporation,

(B) It has no gross income (determined without reference to losses) for the taxable year subject to United States taxation, other than a withholding tax under section 881 of the Code, or

(C) Its sole trade or business in the United States is a banking, financing, or similar business, as defined in §1.864-4(c)(5)(i).

(iii) *Consolidated returns.* For purposes of paragraph (c)(1)(iv) of this section only, in the case of a group of reporting corporations filing a consolidated information return under this section the term "reporting corporation" means the common parent corporation (as shown on Form 851).

(2) *Control* (i) *Generally.* A corporation shall be deemed to be controlled by a foreign person if at any time during that corporation's taxable year such foreign person owns stock possessing at least 50 percent of the total combined voting power of all classes of outstanding stock of the corporation entitled to vote, or stock possessing at least 50 percent of the total value of outstanding shares of all classes of stock of the corporation. A corporation that is controlled (by this same test) by another corporation, which in turn, is controlled by a foreign person, is also treated as being controlled by such foreign person. The provisions of this paragraph (b)(2)(i) are illustrated by the following example:

Example F, a foreign person, owns 50 percent of the voting stock of X, a domestic corporation. X owns 50 percent of the total value of shares of all classes of stock of Y, also a domestic corporation. Y is controlled by F for purposes of section 6038A and this section. Thus, control is attributed directly, under section 6038A(c)(1) and this section, rather than proportionately (as is stock ownership under section 318(a)(2) and paragraph (b)(2)(ii) of this section).

(ii) *Attribution rules.* For the purpose of determining ownership of stock of domestic or foreign corporations under section 6038A and this section, the constructive ownership rules of section 318(a) shall apply, except that section 318(a)(2)(C) shall be applied by substituting the phrase "10 percent" for the phrase "50 percent".

(3) *Foreign person.* For purposes of section 6038A and this section, a foreign person is—

(i) Any individual who is not a citizen or resident of the United States, but not including any individual for whom an election under section 6013(g) or (h) is in effect;

(ii) Any individual who is a citizen of any possession of the United States but is not otherwise a citizen of the United States and is not a resident of the United States;

(iii) Any partnership, association, company, or corporation which is not created or organized in the United States or under the law of the United States or any State thereof;

(iv) Any foreign trust or foreign estate, as defined in section 7701(a)(31); or

(v) Any foreign government (or agency or instrumentality thereof).

(4) *Related corporation.* For purposes of section 6038A and this section, a related corporation is any corporation which is a member of the same controlled group (as defined in paragraph (b)(5) of this section) as the reporting corporation. The term "member" shall include any component member, excluded member, or additional member (as defined in section 1563(b)) of the controlled group. However, the term "related corporation" does not include any corporation filing a consolidated income tax return with the reporting corporation.

(5) *Controlled group.* For purposes of section 6038A and this section, the term "controlled group" has the meaning given to such term by §1563(a), except that—

(i) Section 1563(a)(1) shall be applied by substituting the term "at least 50 percent" for the them "at least 80 percent" each time it appears;

(ii) Section 1563(a)(2)(B) shall be applied by substituting the term "at least 50 percent" for the term "more than 50 percent" each time it appears; and

(iii) Section 1563(a)(4), (b)(2)(C), and (e)(3)(C) shall not apply.

(c) *Contents of return*—(1) *The related corporation.* The return on Form 5472 shall contain such information as the form shall prescribe, with respect to each related corporation (whether foreign or domestic) with which the reporting corporation has had a transaction of the types listed in paragraph (c)(2) of this section during its taxable year, relating to:

(i) The name and addresses of the corporation;

(ii) The nature of the corporation's business or businesses and the principal place or places where conducted;

(iii) Each country in which the corporation treats itself as resident for purposes of the tax laws of that country; and

(iv) The relationship of the reporting corporation to the related corporation (such as reporting corporation controls related corporation, reporting corporation is controlled by related corporation, or reporting and related corporations are under common control).

(2) *Transactions with related foreign corporations*—(i) *Transactions for which monetary consideration was paid or received.* If the related corporation is a foreign corporation, the return on Form 5472 shall contain, with respect to transactions (other than transactions excepted by paragraph (c)(2)(iii) of this section) of the reporting corporation with the related corporation, in such form or manner as the form shall prescribe, a summary showing a reasonable estimate of the total dollar amount of each of the following types of transactions for which monetary considerations (U.S. currency and/or foreign currency) was the sole consideration paid or received, during the taxable year of the reporting corporation:

(A) Sales and purchases of stock in trade;

(B) Sales and purchases of tangible property other than stock in trade;

(C) Rents and royalties paid and received (other than amounts reported under paragraph (c)(2)(i)(D) of this section);

(D) Sales, purchases, and amounts paid and received as consideration for the use of intangible property such as copyrights, designs, formulas, inventions, models, patents, processes, trademarks, and other similar property rights;

(E) Consideration paid and received for the rendition of technical, managerial, engineering, construction, scientific, or like services;

(F) Commissions paid and received;

(G) Amounts loaned and borrowed (except open accounts resulting from sales and purchases reported under other items listed in this paragraph (c)(2)(i) that arise and are collected in full in the ordinary course of business);

(H) Interest paid and received;

(I) Premiums paid and received for insurance and reinsurance.

Amounts required to be reported under paragraph (c)(2)(i)(G) of this section shall be reported as monthly averages or outstanding balances at the beginning and end of the taxable year, as the form shall prescribe.

(ii) *Transactions involving nonmonetary consideration or no consideration.* If the related corporation is a foreign corporation, the return on Form 5472 shall contain a description of any transaction, or group of transactions, listed in paragraph (c)(2)(i) of this section (other than transactions excepted by paragraph (c)(2)(iii) of this section), of the reporting corporation with the related corporation, for which any consideration paid or received was other than monetary consideration described in paragraph (c)(2)(i) of this section, or for which no consideration was paid or received. A description required under this paragraph (c)(2)(ii) shall include sufficient information from which to determine the substance and approximate size of the transaction or group of transactions, and should include—

(A) A description of all property (including monetary consideration), rights, or obligations transferred from the reporting corporation to the related corporation and from the related corporation to the reporting corporation,

(B) A description of all services performed by the reporting corporation for the related corporation and by the related corporation for the reporting corporation, and

(C) A reasonable estimate of the fair market value or a statement of the nature and importance of such property (other than money), rights, obligations, or services.

A transaction for which the entire consideration paid or received by one party was monetary consideration is not required to be described under this paragraph (c)(2)(ii) even though the transaction involved the transfer of both tangible and intangible property, as long as the transfer of the intangible property was related and incidental to the transfer of the tangible property (e.g., a right to warranty services).

(iii) *Exception.* This paragraph (c)(2) shall not apply to any transaction if neither party to the transaction is a United States person (as defined in section 7701(a)(30)) and the transaction—

(A) Does not give rise to any recognized income or gain which is from sources within the United States or which is effectively connected with the conduct of a trade or business within the United States, and

(B) Does not give rise to any expense, loss, or other deduction properly allocable or apportionable to such income.

(iv) *Reasonable estimate defined*—(A) *Estimate within 25 percent of actual amount.* Any amount reported under this section is considered a reasonable estimate if such amount is at least 75 percent and not more than 125 percent of the actual amount to which the amount reported relates.

(B) *Other estimates.* If any amount reported under this section fails to meet the reasonable estimate test of paragraph (c)(2)(iv)(A) of this section, the reporting corporation may, nevertheless, show that such amount is a reasonable estimate by making an affirmative showing of relevant facts and circumstances in a written statement containing a declaration that it is made under the penalties of perjury. The statement must be filed with the district director or the director of the service center where the reporting corporation's income tax return and the return on Form 5472 were filed. The district director or the director of the service center shall determine whether the amount reported was a reasonable estimate.

(v) *Small amounts.* If any actual amount required to be reported under this section does not exceed $66,667, the amount may be reported as "$50,000 or less."

(V) *Accrued payments and receipts.* For purposes of this section, in the case of an accrual basis taxpayer, the terms "paid" and "received" shall include accrued payments and receipts, respectively.

(d) *Method of reporting.* All statements required on or with the return on Form 5472 under this section shall be rendered in the English language. All amounts of consideration or value required to be reported under this section shall be expressed in terms of United States currency, with a statement of any exchange rates used.

(e) *Time and place for filing returns*—(1) *In general.* Returns on Form 5472 required under this section shall generally be filed with the reporting corporation's income tax return for the same taxable year, and the due date (including extensions) for filing that income tax return is the due date for filing Form 5472. However, if a reporting corporation's income tax return is not timely filed (including extensions), the return on Form 5472 shall be filed with the Internal Revenue Service Center with which the reporting corporation's income tax return is required to be filed, and shall be filed on or before the date required by law (including extensions of time) for the filing of such income tax return.

(2) *Taxable years ending before* July 24, 1985. Returns on Form 5472 required under this section for any taxable year ending before July 24, 1985 shall be filed either with the reporting corporation's income tax return or with the Internal Revenue Service Center or the district director with which the reporting corporation's income tax return has been filed. Returns on Form 5472 for such taxable years shall be filed on or before November 21, 1985, or, if later, with the reporting corporation's income tax return for the same taxable year on or before the date required by law (including extensions of time) for the filing of such income tax return.

(3) *Duplicate filing required.* The reporting corporation shall file a duplicate copy of each Form 5472 (at the same time as the original copy is filed) with the Internal Revenue Service Center, Philadelphia, PA 19255.

(f) *Penalty for failure to furnish information*—(1) *In general.* If a corporation required to file Form 5472 under section 6038A and this section fails to furnish any information required under paragraph (c) of this section with respect to any related corporation, within the time prescribed by paragraph (e) of this section, such corporation shall pay a penalty of $1,000 for each taxable year with respect to which such information is not timely reported. This penalty shall only be imposed on a reporting corporation once for each related corporation for each taxable year for which a failure to furnish information occurs. For purposes of this paragraph (f)(1), each member of a group of corporations filing a consolidated information return is a separate reporting corporation.

(2) *Increase in penalty for continued failure after notification.* If a failure described in paragraph (f)(1) of this section continues for more than 90 days after the date on which the district director mails notice of such failure to the reporting corporation, that corporation shall pay a penalty of $1,000, in addition to the penalty imposed by section 6038A(d)(1) and paragraph (f)(1) of this section, for each 30-day period (or fraction thereof) during which such failure continues after such 90-day period has expired. The additional penalty imposed by section 6038A(d)(2) and this paragraph (f)(2) shall be limited to a maximum of $24,000 for such continuing failure.

(3) *Reasonable cause*—(i) For purposes of section 6038A(d) and this section, the time prescribed for furnishing information under paragraph (e) of this section, and the beginning of the 90-day period after mailing of notice by the district director under paragraph (f)(2) of this section, shall be treated as being not earlier than the last day on which reasonable cause existed for failure to furnish the information.

(ii) To show that reasonable cause existed for failure to furnish information as required by section 6038A and this section, the reporting corporation must make an affirmative showing of all facts alleged as reasonable cause for such failure in a written statement containing a declaration that is is made under the penalties of perjury. The statement must be filed with the district director for the district or the director of the service center where the return is required to be filed. The district director or the director of the service center shall determine whether the failure to furnish information was due to reasonable cause, and if so, the period of time for which such reasonable cause existed.

In the case of a return that has been filed as required by this section except for an omission of, or error with respect to, some of the information required, if the person who filed the return establishes to the satisfaction of the district director or the director of the service center that the person has substantially complied with this section, then the omission or error shall not constitute a failure under this section.

(4) *Other penalties.* The information required by section 6038A and this section must be furnished even though it may not affect the amount of any tax due under the Internal Revenue Code. For criminal penalties for failure to file a return and filing a false or fraudulent return, see sections 7203, 7206, and 7207 of the Code.

(g) *Effective date.* This regulation is effective for taxable years beginning after December 31, 1983.

Par. 4. The authority for Part 602 is as follows:

Authority: 26 U.S.C. 7805.

Par. 5. Section 602.101 (c) is amended by inserting in the appropriate place in the table §1.6038-2 ... 1545-0805" and "1.6038A-1 ... 1545-0805".

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved July 2, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on July 23, 1985, 8:45 a.m., and published in the issue of the Federal Register for July 24, 1985, 50 F.R. 30160).

(Also Section 7701; 301.7701-1.)

Returns; information; Indian tribes. Indian tribal governments that operate bingo establishments are subject to the information reporting requirements of section 6041 of the Code.

Rev. Rul. 85-194

ISSUE

Are Indian tribal governments that operate bingo establishments subject to the information reporting requirements of section 6041 of the Internal Revenue Code?

FACTS

An American Indian tribe operates a bingo establishment as a tribally owned business. The bingo facility is owned by the tribe and is located on land held in trust by the United States for the Indian tribe. A general council composed of all persons qualified to vote in tribal elections is the governing body of the tribe. The bingo facility is operated by, and under the authority of, the general council. The proceeds derived from the bingo activity are used for the support of programs to promote the health, education, and welfare of the tribe. In the course of the bingo operations payments equal to or exceeding $1,200 are made from time to time by the tribe.

LAW AND ANALYSIS

Under section 6041(a) of the Code all persons engaged in a trade or business and making payment in the course of such trade or business to another person, of rent, salaries, wages, premiums, annuities, compensations, remunerations, emoluments, or other fixed or determinable gains, profits, and income of $600 or more in any taxable year shall render a true and accurate return to the Secretary, under such regulations and in such form and manner and to such extent as may be prescribed by the Secretary, setting forth the amount paid and the name and address of the recipient of each such payment.

Under section 7.6041-1 of the Temporary Income Tax Regulations, every person engaged in a trade or business and making a payment in the course of such trade or business of winnings of $1,200 or more from a bingo game must make an information return with respect to such payment. In determining whether such winnings equal or exceed the $1,200 amount, the amount of winnings shall not be reduced by the amount wagered, winnings shall include the fair market value of a payment in any medium other than cash, all winnings by the winner from one bingo game shall be aggregated, and winnings and losses from any other wagering transaction by the winner shall not be taken into account. The return shall be made on Form W-2G and shall be filed with the Internal Revenue Service Center serving the district in which is located the principal place of business of the person making the return. The return shall be filed on or before February 28 of the calendar year following the calendar year in which the payment of winnings is made.

Section 7701(a)(1) of the Code provides that, where not otherwise distinctly expressed or manifestly incompatible with the intent thereof, the term "person" shall be construed to mean and include an individual, a trust, estate, partnership, association, company or corporation.

The purpose of section 6041 of the Code is to help the federal government locate recipients of income and ascertain amounts they receive. *United States v. Haimowitz*, 404 F.2d 38 (2d Cir. 1968) (per curiam). *See* S. Rep. No. 103, 65th Cong., 1st Sess. 20 (1917), 1939-1 (Part 2) C.B. 56, 67.

Indian tribes have been recognized as distinct political communities. They have been characterized as unique aggregations possessing attributes of sovereignty over their members and their territory. Although physically within the territory of the United States and subject to ultimate federal control, they nonetheless remain a separate people with the power of regulating their internal and social relations. *See United States v. Wheeler*, 435 U.S. 313 (1978).

In the instant case, the Indian tribe is in the trade or business of operating a bingo facility and, in the course of that trade or business, makes payments of winnings of $1,200 from time to time. The application of section 6041 of the Code to the Indian tribe furthers the purpose of section 6041 to locate recipients of income. Moreover, the term "person," as defined in section 7701(a)(1), is sufficiently broad to include a governmental body. *See Ohio v. Helvering*, 292 U.S. 360 (1934), XIII-1 C.B. 531 (1934). In this regard, section 1.6041-1(g) of the Income Tax Regulations, which requires officers and employees of the United States, or of a state, to file information returns under section 6041 in the case of payments made by the United States, or by a state, otherwise coming within section 6041.

HOLDING

Indian tribes that operate bingo establishments for profit are subject to the information reporting requirements of section 6041 of the Code.

Section 6041A.—Returns Regarding Payments of Remuneration for Services and Direct Sales.

(Also Section 6041; 1.6041-1.)

Returns; information; exchange of services. Payments in the form of services rendered in the course of a trade or business are subject to the reporting requirements of section 6041(a) and 6041A of the Code.

Rev. Rul. 85-101

ISSUE

Are exchanges of services between individual taxpayers in the course of their trades or businesses as described below subject to the information reporting requirements of section 6041 and 6041A of the Internal Revenue Code?

FACTS

Situation 1. An attorney and a professional painter agreed to an exchange of services whereby the attorney will represent the painter in an action involving non-payment of business debts in return for the painting of the attorney's law offices. The value of the services performed by each is $600. Neither the painter nor the attorney is incorporated. The agreement is not effected through a broker, as that term is defined in section 6045 of the Code.

Situation 2. The same as *Situation 1* except that the attorney represents the painter in a divorce proceeding.

LAW AND ANALYSIS

Section 6041(a) of the Code provides

that all persons engaged in a trade or business and making payments in the course of such trade or business to another person of rent, salaries, wages, premiums, annuities, compensations, remunerations, emoluments, or other fixed or determinable gains, profits, and income of $600 or more in any taxable year must render a true and accurate return setting forth the amount of such gains, profits, and income, and the name and address of the recipient of such payment. Reporting under section 6041(a) is not required with regard to payments for which reporting is required under certain other sections of the Code, such as section 6045 (relating to reporting by brokers).

Section 6041A(a) of the Code provides that if any service-recipient engaged in a trade or business pays in the course of such trade or business during any calendar year remuneration to any person for services performed by such person and the aggregate of the remuneration paid to the person during the calendar year is $600 or more, then the service-recipient must make a return setting forth the amount of the payments and the name and address of the recipient of the payments.

Section 6041A was added to the Code by section 312(a) of Pub. L. No. 97-248, 1982-2 C.B. 462, 561. The conference report states that until new regulations are issued under section 6041A, the existing regulatory exceptions under section 6041 will continue to apply. H.R. Rep. No. 97-760 (Conf. Rep.), 97th Cong., 2d Sess. 467 (1982), 1982-2 C.B. 600, 646.

Section 1.6041-1(a)(2) of the regulations provides generally that Forms 1096 and 1099 shall be used for making information returns.

Section 1.6041-1(b) of the regulations states that section 6041(a) of the Code applies only to payments in the course of a trade or business; hence it does not apply, for example, to an amount paid by the proprietor of a trade or business to a physician for medical services rendered by the physician to the proprietor's child.

In *Situation 1* the attorney's remuneration to the painter in the form of services is for a trade or business expense, the repainting of the attorney's law offices. Likewise, the painter's remuneration to the attorney in the form of services is for a trade or business expense, representation by the attorney in an action for the non-payment of business debts. In *Situation 2*, however, while the services performed by the attorney are performed in the course of the attorney's trade or business, they are not related to the painter's trade or business but are services in connection with the painter's divorce proceeding, a personal matter. Hence, the payment by the painter to the attorney is not being made in the course of the painter's trade or business, even though the payment is in the form of services of the type normally performed in the course of the painter's trade or business.

HOLDING

Situation 1. The payments in the form of services rendered by both the attorney and the painter are subject to the information reporting requirements of sections 6041(a) and 6041A(a) of the Code. Forms 1096 and 1099 must be used for making the required information return. The amount reportable is the fair market value of the services rendered.

Situation 2. The payment by the attorney is subject to the information reporting requirements of sections 6041(a) and 6041A(a) of the Code. Forms 1096 and 1099 must be used for making the required information return. The amount reportable is the fair market value of the services rendered. The payment by the painter is not subject to information reporting.

Section 6045.—Returns of Brokers

26 CFR 1.6045-1: Returns of information of brokers and barter exchanges.

Returns; information; brokers; short-term state government bonds. A broker must file an information return on the retirement of short-term state government bonds, even though interest on the obligations is exempt from tax.

Rev. Rul. 85-102

ISSUE

Under section 6045(a) of the Internal Revenue Code, must a broker file an information return on the retirement of short-term state government bonds in the situation described below?

FACTS

X, a broker as defined in section 1.6045-1(a) of the Income Tax Regulations, is the paying agent for certain short-term obligations of State *M* issued in bearer form. The obligations were issued without any original issue discount on August 1, 1983. *X* retired the 12-month obligations on maturity. Interest on the obligations was exempt from tax under section 103 of the Code.

LAW AND ANALYSIS

Section 6045(a) of the Code provides that every person doing business as a broker must, when required by the Secretary, make a return, in accordance with prescribed regulations, showing the name and address of each customer, and other information as the Secretary may by forms or regulations prescribe.

Section 1.6045-1(a) of the Income Tax Regulations defines a "broker" as a person that, in the ordinary course of a trade or business during the calendar year, stands ready to effect sales to be made by others. Section 1.6045-1(a)(9) defines the term "sale" to include retirement of indebtedness.

Section 1.6045-1(c)(2) of the regulations provides that a broker must make an information return with respect to such sale by a customer of the broker effected by the broker in the ordinary course of a trade or business in which the broker stands ready to effect sales to be made by others, unless the sales come under one of the listed exceptions. Under section 1.6045-1(c)(3)(v)(c), no information return is required upon retirement of obligations having a fixed maturity date not exceeding one year from the date of issuance ("short-term obligations") that have original issue discount, as defined in section 1273(a) of the Code.

The regulations under section 6045 contain no exceptions to the reporting requirements of short-term obligations unless they have original issue discount. Because the obligations in question had no original issue discount, these obligations do not fall within the exception set forth in section 1.6045-1(c)(3)(v)(c) of the regulations.

HOLDING

The broker must file an information

return with respect to the retirement of the obligations on Form 1099-B, Statement for Recipients of Proceeds from Broker and Barter Exchange Transactions, even though interest on the obligations is exempt from tax.

26 CFR 1.6045-2: Furnishing statement required with respect to certain substitute payment.

T.D. 8029

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Furnishing Statements Requred With Respect to Certain Substitute Payments

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to statements required to be furnished by brokers and information returns of brokers. Changes to the applicable law were made by the Tax Reform Act of 1984 [Pub. L. 98–369, 1984–3 C.B. (Vol. 1) 1]. The regulations provide that a broker must furnish statements to its customers with respect to certain substitute payments received by the broker on behalf of such customers. The regulations also provide that brokers must make returns of information to the Internal Revenue Service respecting any customer to which such broker is required to furnish a statement. These regulations, which supersede the temporary regulations on this subject, affect brokers that receive substitute payments on behalf of customers and provide such brokers with the guidance needed to comply with the law.

DATES: The regulations apply to substitute payments received by brokers after December 31, 1984. The cross-references added to Part 1 under sections 6042 and 6049 are effective after December 31, 1984.

FOR FURTHER INFORMATION CONTACT: Bruce H. Jurist of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T), 202-566-3238, not a toll-free call.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On October 24, 1984, the FEDERAL REGISTER published temporary regulations (T.D. 7987; 49 FR 42715) [1984-2 C.B. 248] and proposed amendments (49 FR 42744) [LR-133-84, 1984-2 C.B. 907] to the Income Tax Regulations (26 CFR Part 1) under section 6045 of the Internal Revenue Code of 1954. These amendments were proposed to conform the regulations to section 146 of the Tax Reform Act of 1984 (Pub. L. 98–369, 98 Stat. 690) [1984–3 C.B. (Vol. 1) 1]. Three written comments responding to this notice were received. No requests for a public hearing were received and accordingly none was held. After consideration of all written comments regarding the proposed amendments, those amendments are adopted as revised by this Treasury decision.

PUBLIC COMMENTS

Section 6045(d) requires brokers to furnish written statements to their customers showing the amount of payments in lieu of dividends or tax-exempt interest (or such other items as the Secretary may prescribe) received by brokers on behalf of their customers. The proposed regulations required a broker to furnish a statement informing an individual that a payment is a substitute payment in lieu of a capital gain distribution or a return of capital, provided that the broker had reason to know the character of the payment by January 31 of the calendar year following the year in which the payment was received. Two comments were received suggesting that this requirement be removed from the regulations because, at the time substitute payments are made, brokers are unable to determine that the payments are in lieu of a capital gain distribution or are in lieu of a return of capital. In response to those comments, the final regulations provide that a broker is required to furnish a statement informing an individual that a payment is a substitute payment in lieu of a capital gain distribution or a return of capital, only if the broker has reason to know the character of the payment on the record date of such payment.

The proposed regulations required a broker to determine the identity of the customer whose securities were transferred and on whose behalf the broker received substitute payments. The determination with respect to substitute payments (other than for tax-exempt dividends and tax exempt interest) had to be made using one of the following methods: (1) specific identification; (2) allocation and selection; or (3) any other method with the prior approval of the Commissioner. Under the allocation and selection method, the broker proportionately allocates the transferred shares of stock between two pools of shares, one consisting of shares owned by individuals and one consisting of shares owned by nonindividuals.

The Internal Revenue Service has received a number of applications for approval of identification methods that purportedly fall under the third method (*i.e.*, a method requiring the prior approval of the Commissioner). The identification methods described in the majority of these applications relate to various forms of the allocation and selection method described in §1.6045-2(f)(2)(ii). Prior approval by the Commissioner is not required for any type of random or first-in-first-out ("FIFO") allocation method within the pool of nonindividual shares These applications indicate that the scope of the third method has been misunderstood. The Commissioner's approval is necessary only where identification of customers is based on a nonrandom method other than FIFO identification.

A commentator requested that the allocation and selection method be amended to allow brokers to allocate transferred shares first to shares of the same class and issue borrowed from other brokers or customers and then to the two pools. The final regulations adopt the requested change.

Section 1.6045–2(b)(1) of the proposed regulations provided that a broker need not furnish a statement to a customer on whose behalf the broker receives substitute payments that aggregate less than $10 in a calendar year. A commentator requested that this minimal payments exception be expanded to an annual $10 per issue per customer exception. This request was not adopted in the final regulations.

Section 1.6045-2(a)(4)(ii) of the proposed regulations defined the term "broker," in part, as any person described in §1.6045–1(a)(1). A commentator requested that the proposed regulations be amended to incorporate specifically the exceptions to the definition of broker provided in example (2) of §1.6045-1(b). Such an express incorporation is unnecessary. Because example (2) of §1.6045-1(b) includes a cross-reference to §1.6045-1(a) and the proposed regulations defined broker with reference to §1.6045-1(a), example (2) was included in the definition of broker in the proposed regulations by a series of cross-references. Therefore, no specific incorporation of example (2) is made in the final regulations.

Two commentators requested that the effective date of the requirement to furnish statements be delayed. Section 150(b) of the Tax Reform Act of 1984 provides that section 6045(d) applies to payments received after December 31, 1984. The Tax Reform Act of 1984 does not authorize the Internal Revenue Service to administratively change the statutorily prescribed effective date, and a delay in the effective date of the statement requirement is not adopted in the final regulations. Penalties for failure to file information returns or to furnish written statements, however, may be waived if it can be shown that such failure was due to reasonable cause and not to willful neglect.

SPECIAL ANALYSES

Although a notice of proposed rulemaking soliciting public comments was issued, the Internal Revenue Service concluded when the notice was issued that the regulations are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these regulations are not subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

The Treasury Department has determined that these final regulations are not major rules under Executive Order 12291 or the Treasury and OMB implementation of the Order dated April 29, 1983. Accordingly, a Regulatory Impact Analysis is not required.

PAPERWORK REDUCTION ACT

The collection of information requirements contained in these regulations have been submitted to the Office of Management and Budget ("OMB") in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of these regulations is Bruce H. Jurist of the Legislation and Regulations Division on the Office of Chief Counsel, Internal Revenue Service. However, other personnel in the Internal Revenue Service and Treasury Department participated in developing the regulations on matters of both substance and style.

* * * * *

Adoption of amendments to the regulations.

Accordingly, 26 CFR Part 1 and Part 602 are amended as follows:

Paragraph 1. New §1.6045–2 is added at the appropriate place. The new section is set forth below.

§1.6045-2 Furnishing statement required with respect to certain substitute payments.

(a) *Requirement of furnishing statement*— (1) *In general.* Any broker (as defined in paragraph (a)(4)(iii) of this section) that transfers securities (as defined in §1.6045-1(a)(3)) of a customer (as defined in paragraph (a)(4)(iii) of this section) for use in a short sale and receives on behalf of the customer a substitute payment (as defined in paragraph (a)(4)(i)) shall, except as otherwise provided, furnish a statement to the customer identifying such payment as being a substitute payment.

(2) *Special rule for transfer for broker's own use.* Any broker that borrows securities of a customer for use in a short sale entered into for the broker's own account shall be deemed to have transferred the stock to itself and received on behalf of the customer any substitute payment made with respect to the transferred securities, and shall be required to furnish a statement with respect to such payments in accordance with paragraph (a)(1) of this section.

(3) *Special rule for furnishing statements to individual customers with respect to payments in lieu of dividends*—(i) *In general.* Except as otherwise provided, a broker that receives a substitute payment in lieu of a dividend on behalf of a customer who is an individual ("individual customer") need not furnish a statement to the customer.

(ii) *Exception for certain dividends.* Any broker that receives on behalf of an individual customer a substitute payment in lieu of—

(A) An exempt-interest dividend (as defined in paragraph (a)(4)(vii) of this section);

(B) A capital gain dividend (as defined in paragraph (a)(4)(vi) of this section);

(C) A distribution treated as a return of capital under section 301(c)(2) or (c)(3); or

(D) An FTC dividend (as defined in paragraph (a)(4)(viii) of this section)

shall furnish a statement to the individual customer identifying the payment as being a substitute payment as prescribed by this section, provided that the broker has reason to know not later than the record date of the dividend payment that the payment is a substitute payment in lieu of an exempt-interest dividend, a capital gain dividend, a distribution treated as a return of capital, or an FTC dividend.

(4) *Meaning of terms.* The following definitions apply for purposes of this section.

(i) The term "substitute payment" means a payment in lieu of—

(A) Tax-exempt interest, to the extent that interest has accrued on the obligation for the period during which the short sale is open;

(B) A dividend, the ex-dividend date for which occurs during the period after the transfer of stock for use in a short sale, and prior to the closing of the short sale; or

(C) Any other item specified in a rule-related notice published in the Federal Register (provided that such items shall be subject to the rules of this section only subsequent to the time of such publication).

For purposes of this section original issue discount accruing on an obligation (the interest upon which is exempt from tax under section 103) for the period

during which the short sale is open shall be deemed a payment in lieu of tax-exempt interest.

(ii) The term "broker" means both a person described in §1.6045-1(a)(1) and a person that, in the ordinary course of a trade or business during the calendar year, loans securities owned by others.

(iii) The term "customer" means, with respect to a transfer of securities for use in a short sale, the person that is the record owner of trhe securities so transferred.

(iv) The term "dividend" means a dividend (as defined in section 316) or a distribution that is treated as a return of capital under section 301 (c)(2) or (c)(3).

(v) The term "tax-exempt interest" means interest to which the exception in section 6049(b)(2)(B) applies,

(vi) The term "capital gain dividend" means a capital gain dividend as defined in section 852(b)(3)(C) or section 857(b)(3)(C).

(vii) The term "exempt-interest dividend" means an exempt-interest dividend as defined in section 852(b)(5)(A).

(viii) The term "FTC dividend" means a dividend with respect to which the recipient is entitled to claim a foreign tax credit under section 901 (but not by virtue of taxes deemed paid under section 902 or 960).

(5) *Examples.* The following examples illustrate the definition of a substitute payment in lieu of tax-exempt interest found in paragraph (a)(4)(i)(A) of this section.

Example (1). On September 1, 1984, L, a broker, borrows 200 State Q Bonds (the interest upon which is exempt from tax under section 103) held in street name for customer R and transfers the bonds to W for use in a short sale. The bonds each have a face value of $100 and bear 12% stated annual interest paid semiannually on January 1 and July 1 of each year. The bonds were not issued with original issue discount. On November 1, 1984, W closes the short sale and returns State Q Bonds to L. On January 1, 1985, L receives a $1200 interest payment (6% × $100 × 200 bonds = $1200) from State Q with respect to R's bonds. Four hundred dollars (2 months the bonds were on loan/6 months in the interest period = ⅓ × $1200 = $400) of the interest payment represents accrued interest on the obligations for the period during which the short sale was open and is a substitute payment in lieu of tax-exempt interest within the meaning of paragraph (a)(4)(i)(A) of this section. L must furnish a statement under paragraph (a) of this section to R for calendar year 1985 with respect to the $400 substitute payment.

Example (2). Assume the same facts as in Example (1), except that W closes the short sale on February 1, 1985. On January 1, 1985, L receives a $1200 payment from W with respect to R's bonds. Eight hundred dollars (4 months the bonds were on loan prior to January 1, 1985/6 months in the interest period = ⅔ × $1200 = $800) of the payment represents accrued interest on the obligation for the period during which the short sale was open and is a substitute payment in lieu of tax-exempt interest. On July 1, 1985, L receives a $1200 payment from State Q. Two hundred dollars (1 month the bonds were on loan after December 31, 1984/6 months in the interest period = 1/6 × $1200 = $200) of the payment represents accrued interest on the obligation for the period during which the short sale was open and is a substitute payment in lieu of the tax-exempt interest. Because both payments are received by L in 1985, L must furnish a statement under paragraph (a) of this section to R for that year with respect to both payments.

(b) *Exceptions*—(1) *Minimal payments.* No statement is required to be furnished under section 6045(d) or this section to any customer if the aggregate amount of the substitute payments received by a broker on behalf of the customer during a calendar year for which a statement must be furnished is less than $10.

(2) *Exempt recipients*—(i) *In general.* A statement shall not be required to be furnished with respect to substitute payments made to a broker on behalf of—

(A) An organization exempt from taxation under section 501(a),

(B) An individual retirement plan,

(C) The United States, a possession of the United States, or an instrumentality or a political subdivision or a wholly-owned agency of the foregoing,

(D) A State, the District of Columbia, or a political subdivision or a wholly-owned agency or instrumentality of either of the foregoing,

(E) A foreign government or a political subdivision thereof, or

(F) An international organization.

(ii) *Determination of whether a person is described in paragraph (b)(2)(i) of this section.* The determination of whether a person is described in paragraph (b)(2)(i) of this section shall be made in the manner provided in §5f.6045-1(c)(3)(i)(B) of the Temporary Income Tax Regulations under the Tax Equity and Fiscal Responsibility Act of 1982 [Pub. L. 97-248, 1982-2 C.B. 462].

(3) *Exempt foreign persons.* A statement shall not be required to be furnished with respect to substitute payments made to a broker on behalf of a person that is an exempt foreign person as described in §1.6045-1(g).

(c) *Form of statement.* A broker shall furnish the statement required by paragraph (a) of this section on Form 1099. The statement must show the aggregate dollar amount of all substitute payments received by the broker on behalf of a customer (for which the broker is required to furnish a statement) during a calendar year, and such other information as may be required by Form 1099. A statement shall be considered to be furnished to a customer if it is mailed to the customer at the last address of the customer known to the broker.

(d) *Time for furnishing statements.* A broker must furnish the statements required by paragraph (a) of this section for each calendar year. Such statements shall be furnished after April 30th of such calendar year but in no case before the final substitute payment for the calendar year is made, and on or before January 31 of the following calendar year.

(e) *When substitute payment deemed received.* A broker is deemed to have received a substitute payment on behalf of a customer when the amount is paid or deemed paid to the broker (or as it accrues in the case of original issue discount deemed a payment in lieu of tax-exempt interest).

(f) *Identification of customer and record-keeping with respect to substitute payments*—(1) *Payments in lieu of tax-exempt interest and exempt-interest dividends.* A broker that receives substitute payments in lieu of tax-exempt interest, exempt-interest dividends, or other items (to the extent specified in a rule-related notice published pursuant to paragraph (a)(4)(i)(C) of this section) on behalf of a customer and is required to furnish a statement under paragraph (a) of this section must determine the identity of the customer whose security was transferred and on whose behalf the broker received such substitute payments by specific identification of the record owner of the security so transferred. A broker must keep adequate records of the determination so

made.

(2) *Payments in lieu of dividends other than exempt-interest dividends*—(i) *Requirements and methods.* A broker that receives substitute payments in lieu of dividends, other than exempt-interest dividends, on behalf of a customer and is required to furnish a statement under paragraph (a) of this section must make a determination of the identity of the customer whose stock was transferred and on whose behalf such broker receives substitute payments. Such determination must be made as of the record date with respect to the dividend distribution, and must be made in a consistent manner by the broker in accordance with any of the following methods:

(A) Specific identification of the record owner of the transferred stock;

(B) The method of allocation and selection specified in paragraph (f)(2)(ii) of this section; or

(c) Any other method, with the prior approval of the Commissioner.

A broker must keep adequate records of the determination so made.

(ii) *Method of allocation and selection— (A) Allocation to borrowed shares and individual and nonindividual pools.* With respect to each substitute payment in lieu of a dividend received by a broker, the broker must allocate the transferred shares (*i.e.*, the shares giving rise to the substitute payment) among all shares of stock of the same class and issue as the transferred shares which were (1) borrowed by the broker, and (2) which the broker holds (or has transferred in a transaction described in paragraph (a)(1) of this section) and is authorized by its customers to transfer (including shares of stock of the same class and issue held for the broker's own account) ("loanable shares"). The broker may first allocate the transferred shares to any borrowed shares. Then to the extent that the number of transferred shares exceeds the number of borrowed shares (or if the broker does not allocate to the borrowed shares first), the broker must allocate the transferred shares between two pools, one consisting of the loanable shares of all individual customers (the "individual pool") and the other consisting of the loanable shares of all nonindividual customers (the "nonindividual pool"). The transferred shares must be allocated to the individual pool in the same proportion that the number of loanable shares held by individual customers bears to the total number of loanable shares available to the broker. Similarly, the transferred shares must be allocated to the nonindividual pool in the same proportion that the number of loanable shares held by nonindividual customers bears to the total number of loanable shares available to the broker.

(B) *Selection of deemed transferred shares within the nonindividual pool.* The broker must select which shares within the nonindividual pool are deemed transferred for use in a short sale (the "deemed transferred shares"). Selection of deemed transferred shares may be made either by purely random lottery or on a first-in-first-out ("FIFO") basis.

(C) *Selection of deemed transferred shares within the individual pool.* The broker must select which shares within the individual pool are deemed transferred shares (in the manner described in the preceding paragraph) only with respect to substitute payments as to which a statement is required to be furnished under paragraph (a)(2)(ii) of this section.

(3) *Examples.* The following examples illustrate the identification of customer rules of paragraph (f)(2):

Example (1). A, a broker, holds X corporation common stock (of which there is only a single class) in street name for five customers: C, a corporation; D, a partnership; E, a corporation; F, an individual; and G, a corporation. C owns 100 shares of X stock, D owns 50 shares of X stock, E owns 100 shares of X stock, F owns 50 shares of X stock, and G owns 100 shares of X stock. A is authorized to loan all of the X stock of C, D, E, and F. G, however, has not authorized A to loan its X stock. A does not hold any X stock in its trading account nor has A borrowed any X stock from another broker. A transfers 150 shares of X stock to H for use in a short sale on July 1, 1985. A dividend of $2 per share is declared with respect to X stock on August 1, 1985, payable to the owners of record as of August 15, 1985 (the "record" date). A receives $2 per transferred share as a payment in lieu of a dividend with respect to X stock or a total of $300 on September 15, 1985. H closes the short sale and returns X stock to A on January 2, 1986. A's record specificially identify the owner of each loanable share of stock held in street name. From A's records it is determined that the shares transferred to H consisted of 100 shares owned by C, 25 shares owned by D, and 25 shares owned by F. The substitute payment in lieu of dividends with respect to X stock is therefore attributed to C, D and F based on the actual number of their shares that were transferred to H. Accordingly, C receives $200 (100 shares X $2 per share), and D and F each receive $50 (25 shares each X $2 per share). A must furnish statements identifying the payments as being in lieu of dividends to both C and D, unless they are exempt recipients as defined in paragraph (b)(2) of this section or exempt foreign persons as defined in paragraph (b)(3) of this section. Assuming that A had no reason to know on the record date of the payment that the dividend paid by X is of a type described in paragraph (a)(3) (ii)(A)-(D) of this section, A need not furnish F with a statement under section 6045(d) because F is an individual. (However, A may be required to furnish F with a statement in accordance with section 6042 and the regulations thereunder. See paragraph (h) of this section.) By recording the ownership of each share transferred to H, A has complied with the identification requirement of paragraph (f)(2) of this section.

Example (2). Assume the same facts as in example (1), except that A's records do not specifically identify the record owner of each share of stock. Rather, all shares of X stock held in street name are pooled together. When A receives the $2 per share payment in lieu of a dividend, A determines the identity of the customers to which the payment relates by the method of allocation and selection prescribed in paragraph (f)(2)(ii) of this section. First, the transferred shares are allocated proportionately between the individual pool and the nonindividual pool. One-sixth of the transferred shares or 25 shares are allocated to the individual pool (50 loanable shares owned by individuals/300 total loanable shares = 1/6; 1/6 × 150 transferred shares = 25 shares). Assuming A has no reason to know by the record date of the payment that the payment is in lieu of a dividend of a type described in paragraph (a)(3)(ii)(A)-(D) of this section, no selection of deemed transferred shares within the individual customer pool is required. (However, A may be required to furnish P with a statement under section 6042 and the regulations thereunder. See paragraph (h) of this section.) Five-sixths of the transferred shares or 125 shares are allocated to the nonindividual pool (250 loanable shares owned by nonindividuals/300 total loanable shares = 5/6; 5/6 × 150 transferred shares = 125 shares). A must select which 125 shares within the nonindividual pool are deemed to have been transferred. Using a purely random lottery, A selects 100 shares identified as being owned by C, and 25 shares identified as being owned by D. Accordingly, A is deemed to have transferred 100 shares and 25 shares owned by C and D respectively, and received substitute payments in lieu of dividends of $200 (100 shares × $2 per share) and $50 (25 shares × $2 per share) on behalf of C and D respectively. A must furnish statements to both C and D identifying such payments as being in lieu of dividends unless they are exempt recipients as defined in paragraph (b)(2) of this section or exempt foreign persons as defined in paragraph (b)(3) of this section. A has complied with the identification requirement of paragraph (f)(2) of this section.

(g) *Reporting by brokers*—(1) *Requirement of reporting.* Any broker required to furnish a statement under paragraph (a) of this section shall report on Form 1096 showing such information as may be required by Form 1096.

in the form, manner, and number of copies required by Form 1096. With respect to each customer for which a broker is required to furnish a statement, the broker shall make a return of information on Form 1099, in the form, manner and number of copies required by Form 1099.

(2) *Use of magnetic media.* Brokers not receiving an undue hardship exception under paragraph (l)(2) of §1.6045-1 shall file the returns required by this paragraph on magnetic media in accordance with paragraph (l)(1) of §1.6045-1.

(3) *Time and place of filing.* The returns required under this paragraph (g) for any calendar year shall be filed after September 30 of such year, but not before the final substitute payment for the year is received by the broker, and on or before February 28 of the following year with any of the Internal Revenue Service Centers, the addresses of which are listed in the instructions for Form 1096.

(h) *Coordination with section 6042.* In cases in which reporting is required by both sections 6042 and 6045(d) with respect to the same substitute payment in lieu of a dividend, the provisions of section 6045(d) control, and no report or statement under section 6042 need be made. If reporting is not required under section 6045(d) with respect to a substitute payment in lieu of a dividend, a report under section 6042 must be made if required in accordance with the rules of section 6042 and the regulations thereunder. Thus, if a broker receives a substitute payment in lieu of a dividend on behalf of an individual customer and the broker does not have reason to know by the record date of the payment that the payment is in lieu of a dividend of a type described in paragraph (a)(3)(ii)(A)-(D) of this section, the broker must report with respect to the substitute payment if required in accordance with section 6042 and the regulations thereunder.

(i) *Effective date.* These regulations apply to substitute payments received by a broker after December 31, 1984.

Par. 2. paragraph (a)(2) of section 1.6042-3 is amended by adding the following sentence to the end thereof.

§1.6042-3 Dividends subject to reporting.

(a) * * *

(2) * * * See §1.6045-2(h) for coordination of the reporting requirements under sections 6042 and 6045(d) with respect to payments in lieu of dividends.

* * * * *

Par. 3. Paragraph (a)(5) of section 1.6049-5 is amended by adding the following sentence to the end thereof.

§ 1.6049-5 Interest and original issue discount subject to reporting after December 31, 1982.

(a) * * *

(5) * * * See §1.6045-2 for reporting requirements with respect to payments in lieu of tax-exempt interest.

* * * * *

Par. 4. Section 602.101(c) is amended by inserting in the appropriate place in the table "§1.6045–2(a)(1) . . . 1545-0115" and "§1.6045-2(f) . . . 1545-0115" and "§1.6045-2(g)(1) . . . 1545-0115."

This Treasury decision is issued under the authority contained in sections 6045 and 7805 of the Internal Revenue Code of 1954 (98 Stat. 699, 26 U.S.C. 6045, 68A Stat. 917, 25 U.S.C. 7805).

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved May 20, 1985

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on June 4, 1985, 8:45 a.m., and published in the issue of the Federal Register for June 5, 1985, 50 F.R. 23676)

Section 6049.—Returns Regarding Payments of Interest

26 CFR 1.6049-4: Returns of information as to interest paid and original issue discount includible in gross income after December 31, 1982. (Also Section 3406; 35a.9999-3.)

Information returns; citizens of U.S. possessions. The Bureau of Public Debt, its nominees, or agents are required to make information returns under section 6049 of the Code with respect to U.S. source interest paid on U.S. Treasury obligations to citizens of U.S. possessions. The payors may also be required to deduct and withhold, under section 3406 of the Code, a tax equal to 20 percent of such payments.

Rev. Rul. 85-200

Interest on U.S. Government obligations paid to citizens of United States possessions is subject to information reporting and backup withholding. An information return is required under section 1.6049-4 of the Income Tax Regulations with respect to United States source interest (including original issue discount includible in gross income) that is paid to citizens of Guam, Puerto Rico, or the Northern Marianas; to citizens of American Samoa who are United States citizens by naturalization in a state, territory, or the District of Columbia; and to citizens of the Virgin Islands of the United States who provide notification under Rev. Proc. 81-20, 1981-1 C.B. 690, that they expect to satisfy their U.S. income tax obligations by paying their taxes to the Virgin Islands. United States source interest includes interest paid on, and original issue discount on, United States Treasury obligations. Section 1.6049-4 of the regulations provides whether, in any given circumstance, the information reporting is to be done by the Bureau of Public Debt itself or by its nominees or middlemen within the United States (federal reserve banks and commercial banks) or by its paying agents in United States possessions.

An information return is not required for interest paid to citizens of American Samoa who are not U.S. citizens by naturalization in a state, territory, or the District of Columbia or for interest paid to citizens of the U.S. Virgin Islands who do not provide notice under Rev. Proc. 81-20. Pursuant to section 6049(b)(2)(C)(ii) of the Internal Revenue Code, information reporting is not required in these instances, because the interest paid to such citizens is subject to income tax withholding under section 1441 of the Code.

Under section 3406 of the Code, as added by section 104(a) of the Interest and Dividend Tax Compliance Act of 1983, 1983-2 C.B. 352, 353, if the interest payment (or original issue discount) is required to be reported under section 6049 of the Code, then in certain circumstances the Bureau of Public Debt or its nominees or paying agents

may also be required to deduct and withhold from such payment a tax equal to 20 percent of such payment.

Section 6050E.—State and Local Income Tax Refunds

26 CFR 1.6050E-1: Reporting of State and local income tax refunds

T.D. 8052

TITLE 26—INTERNAL REVENUE.—CHAPTER 1, SUBCHAPTER A, SUBCHAPTER H, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; PART 5f—TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX EQUITY AND FISCAL RESPONSIBILITY ACT OF 1982; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Reporting of State and Local Income Tax Refunds

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to the reporting of State and local income tax refunds. Changes to the applicable law were made by the Tax Equity and Fiscal Responsibility Act of 1982 [Pub. L. 97-248, 1982-2 C.B. 462] and the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1]. The regulations affect all persons who, with respect to individuals, make payments of refunds of State and local income taxes, or allow credits or offsets with respect to such taxes, and provide them with the guidance to comply with the law.

DATES: The regulations are effective for refunds made, and credits and offsets allowed, after December 31, 1982.

FOR FURTHER INFORMATION CONTACT: Alice M. Bennett of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T, 202-566-3238 (not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

On September 15, 1983, the Federal Register published temporary regulations (48 FR 41385) [T.D. 7913, 1983-2 C.B. 222] and proposed amendments (48 FR 41436) [LR-233-82, 1983-2 C.B. 769] to the Income Tax Regulations (26 CFR Part 1) under section 6050E of the Internal Revenue Code of 1954. These amendments were proposed to provide rules relating to the information reporting of State and local income tax refunds, credits, and offsets under section 6050E of the Code. Section 6050E was added to the Code by section 313 of the Tax Equity and Fiscal Responsibility Act of 1982 (96 Stat. 603) [Pub. L. 97-248, 1982-2 C.B. 462, 562]. Section 6050E subsequently was amended by section 151 of the Tax Reform Act of 1984 (98 Stat. 690) [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1, 198].

Five written comments were received with respect to the proposed amendments to the regulations. A public hearing was not held. After consideration of all comments regarding the proposed amendments, those amendments are adopted as revised by this Treasury decision. The Treasury decision also reflects the changes made to section 6050E by the Tax Reform Act of 1984.

TAX REFORM ACT OF 1984

Section 6050E as originally enacted did not provide any exception to the reporting requirement or the requirement to furnish statements to taxpayers with respect to a refund, credit or offset made or allowed to a taxpayer who did not claim itemized deductions for Federal income tax purposes for the taxable year giving rise to the refund, credit, or offset. The temporary and proposed regulations, however, provide that a refund officer need not make an information return or send a statement to the applicable taxpayer if the refund officer can verify that the taxpayer did not claim itemized deductions for Federal income tax purposes for the taxable year giving rise to the refund, credit, or offset.

The Tax Reform Act of 1984 amended section 6050E to provide an exception only to the requirement to furnish statements to taxpayers if it can be determined, in the manner provided by regulations, that the applicable taxpayer did not claim itemized deductions for Federal income tax purposes for the taxable year giving rise to the refund, credit, or offset. The amendment is effective for refunds, credits, and offsets made or allowed after December 31, 1982. Congress intended that a refund officer be required to make an information return with respect to itemizers and non-itemizers who receive a refund, credit, or offset of State or local income taxes. Therefore, the Treasury decision provides that a refund officer need not send a statement to a taxpayer with respect to a refund, credit, or offset of personal income taxes if the refund officer can verify, in the manner provided by the regulations, that the taxpayer did not claim itemized deductions for Federal income tax purposes for the taxable year giving rise to the refund, credit, or offset. The refund officer, however, must make an information return with the Internal Revenue Service with respect to those refunds, credits, and offsets.

PUBLIC COMMENTS

The temporary and proposed regulations provide that a refund officer can verify that a taxpayer did not claim itemized deductions for Federal income tax purposes for the taxable year giving rise to the refund, credit or offset only from the three sources listed in the regulations. The first listed source of verification is a copy of Schedule A of the individual's Federal income tax return if the copy is required to be attached to the State or local income tax return. The second listed source is the State or local income tax return if transcription of information from schedule A of the Federal return on the State or local income tax return is required for the purpose of computing liability for the State or local income tax. The third listed source is information obtained through a voluntary information exchange agreement with the United States for the applicable taxable year.

One comment suggested that the list of sources for verification of non-itemization be expanded to include information transcribed on the State or local income tax return from the Federal return (other than schedule A), where the information can be used by the refund officer to determine independently whether the taxpayer itemized deductions for Federal income tax

purposes. The Service believes, however, that for verification purposes the transcription of such information on the State or local income tax return must be required by the State or local taxing authority for the purpose of computing the taxpayer's liability for the State or local income tax. The Service believes that this additional requirement is necessary in order to ensure that the transcribed information will be subject to the same checks for accuracy as other information on the State or local income tax return. Consequently, the Treasury decision provides that, in addition to the sources of verification set forth in the temporary and proposed regulations, information transcribed from the Federal return (other than Schedule A) on the State or local income tax return may be used to verify non-itemization if two conditions are met. First, the transcription of the information must be required for the purpose of computing liability for the State or local income tax. Second, the information must be such that the refund officer can determine conclusively from that information whether the taxpayer itemized deductions for Federal income tax purposes.

The Treasury decision also clarifies that the State or local income tax return is the source of verification in cases where a copy Schedule A of the Federal return is required to be attached to the State or local income tax return, or where transcription of information from Schedule A of the Federal return is required for the purpose of computing liability for the State or local income tax. In this connection, the Treasury decision provides that the omission of a copy of the Schedule A, or of information required to be transcribed from the Schedule A, must be consistent with the taxpayer's computation of tax on the State or local income tax return. In addition, the information contained on the Schedule A must be required for the purpose of computing liability for the State or local income tax.

The remaining comments suggested revisions to the regulations that either would have conflicted with the express statutory language of section 6050E, or would have placed an unreasonable burden on refund officers by requiring them to determine whether taxpayers who itemized deductions for Federal tax purposes received a tax benefit from the payment to which the State or local income tax refund, credit or offset is attributable. These suggestions were not adopted.

In particular, several comments suggested that the regulations be revised to allow a refund officer to furnish the required statement to the applicable taxpayers at any time before the end of January of the calendar year following the calendar year in which the refund is paid or the credit or offset is allowed. Section 6050E(b), however, provides that the statement must be furnished to the taxpayer during January of the calendar year following the calendar year in which the refund is paid or the credit or offset is allowed. This requirement was not changed by the Tax Reform Act of 1984. Therefore, in accordance with section 6050E(b), the Treasury decision retains the rule contained in the temporary and proposed regulations that the statement must be furnished to the taxpayer during January of the calendar year following the calendar year in which the refund is paid or the credit or offset is allowed.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this rule is not a major rule as defined in Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required. Although a notice of proposed rulemaking soliciting public comments was issued, the Internal Revenue Service concluded when the notice was issued that the regulations are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these regulations are not subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

The collection of information requirements contained in this regulation have been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of these regulations is Alice M. Bennett of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, on matters of both substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Parts 1, 5f, and 602 are amended as follows:

INCOME TAX REGULATIONS
(26 CFR Part 1)

Paragraph 1. The authority for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805, * * *

Section 1.6050E-1 also issued under 26 U.S.C. 6050E.

Par 2. The following new section shall be added at the appropriate place:

§1.6050E-1 Reporting of State and local income tax refunds.

(a) *Applicability.* Section 6050E and this section apply to any refund officer who, with respect to an individual, makes payments of refunds of State or local income taxes or allows credits or offsets with respect to such taxes aggregating $10 or more for such individual in any calendar year.

(b) *Definitions.* For purposes of this section—

(1) The term "refund officer" means the officer or employee of a State or local taxing jurisdiction having control of payments of refunds or the allowance of credits or offsets, or the person appropriately designated for purposes of this section.

(2) The term "State" shall include the District of Columbia but shall not include the Commonwealth of Puerto Rico or any possession of the United States.

(3) The term "individual" shall not include an estate or trust.

(4) The term "credit or offset" means an overpayment of tax which, in lieu of being refunded to the taxpayer, is:

(i) Applied against an existing liability of the taxpayer,

(ii) Available for application against a future liability of the taxpayer, or

(iii) Otherwise used or available for use for the taxpayer's benefit.

(c) *Requirement of reporting.* Every

refund officer described in paragraph (a) of this section shall make an information return in accordance with this section for each calendar year. An information return must be made even if the refund officer is not required to furnish a statement to the applicable taxpayer under paragraph (k)(2) of this section.

(d) *Prescribed Form.* Except as otherwise provided in paragraph (i) of this section, the information return required by paragraph (c) of this section shall be made on Forms 1096 and 1099.

(e) *Refunds involving different taxable years.* In the case of refunds paid or credits or offsets allowed during a calendar year with respect to two or more taxable years of an individual, a separate Form 1099 shall be filed with respect to each taxable year of the individual. Thus, if during calendar year 1983 a refund officer pays to an individual a refund of $15 with respect to that individual's taxable year ending in 1982 and $20 with respect to that individual's taxable year ending in 1981, a separate Form 1099 shall be filed for each of the two payments. If, instead, the refund with respect to the individual's taxable year ending in 1982 were $5 instead of $15, no return would be required for the payment of $5.

(f) *Information required.* The information required to be reported on Forms 1096 and 1099 includes the aggregate amount of refunds, credits, and offsets made or allowed during the calendar year with respect to the taxable year of the individual covered by the return; the name, address and taxpayer identification number of the individual with respect to whom such payment, credit, or offset was made or allowed; the taxable year covered by the return; and such other information as may be required by the forms. In addition, the nature of the tax is required to be indicated on the Form 1099 in any case where the refund, credit or offset is made or allowed with respect to a payment attributable to an income tax that applies exclusively to income from a trade or business and is not a tax of general application.

(g) *when credit or offset deemed allowed.* For purposes of a return of information under this section, a credit or offset is deemed to be allowed when the liability to pay or credit such amount is admitted by the State or local taxing jurisdiction. Thus, if an amount with respect to a taxpayer's 1982 taxable year is credited in 1983 to reduce the liability of the taxpayer to make estimated tax payments in 1983, it is reportable as a credit allowed in 1983. It is not reportable in the taxable year that gives rise to the refund, credit or offset.

(h) *Time and place for filing.* The returns required under this section for any calendar year shall be filed after September 30 of that calendar year, but not before the refund officer's final payment (or allowance of credit or offset) for the year, and on or before February 28 of the following year. Returns shall be filed with the appropriate Internal Revenue Service Center, the addresses of which are listed in the instructions for Forms 1099. For extensions of time for filing returns under this section, see §1.6081-1.

(i) *Use of magnetic media and substitute forms*—(1) *Magnetic media.* A refund officer may be required to file the Forms 1099 required by this section on magnetic media or machine-readable paper forms. See section 6011(e) and applicable regulations and revenue procedures thereunder. If a refund officer is not required to file the Forms 1099 required by this section on magnetic media, the refund officer may request permission under applicable regulations and revenue procedures to submit the information required by this section on magnetic media.

(2) *Substitute forms.* A refund officer may prepare and use a form which contains provisions identical with those of Form 1096 if the refund officer complies with all revenue procedures relating to substitute Form 1096 in effect at that time. In addition, if a refund officer is not required to file the Forms 1099 required by this section on magnetic media or machine-readable paper forms, the refund officer may prepare and use a form which contains provisions identical with those of Form 1099 if the refund officer complies with all revenue procedures relating to substitute Form 1099 in effect at that time.

(j) *Voluntary information exchange agreements.* The requirements of reporting information to the Internal Revenue Service under this section may be satisfied for any calendar year by submission of the information required under paragraph (f) of this section in accordance with the terms of a voluntary information exchange agreement between the State and the United States in effect during such year.

(k) *Requirement of furnishing statements to recipients*—(1) *In general.* Except as provided in paragraph (k)(2) of this section, every refund officer required to make a return of information under this section shall furnish to the individual whose identifying number is required to be shown on the return a written statement showing the aggregate amount shown on the information return of refunds, credits and offsets made or allowed to such individual with respect to each taxable year of the individual the name of the State or local taxing jurisdiction paying such refund or allowing such credits or offsets, the taxable year giving rise to the refund, credit or offset and a legend stating that such amount is being reported to the Internal Revenue Service. The requirement of this paragraph may be met by furnishing to the individual a copy of the Form 1099 filed with respect to that individual provided that the form bears a legend stating that such amount is being reported to the Internal Revenue Service. For purposes of this paragraph, a statement shall be considered to be furnished to an individual if it is mailed to the individual at the individual's last known address.

(2) *Exception for non-itemizers.* A refund officer need not furnish a statement to an individual under paragraph (k)(1) of this section if the refund officer verifies that the individual did not claim itemized deductions for Federal income tax purposes for the taxable year giving rise to the refund, credit, or offset. This exception shall not apply, however, if the refund, credit, or offset is made or allowed with respect to a payment attributable to an income tax that applies exclusively to income from a trade or business and is not a tax of general application. For purposes of this paragraph (k)(2), verification shall be made solely from—

(i) The State or local income tax return, or

(ii) Information obtained through a voluntary information exchange agreement with the United States for the applicable taxable year.

(3) *Verification from the State or local income tax return.* A refund officer shall verify from the State or local income tax return that an individual did not claim itemized deductions for Federal income tax purposes for the applicable taxable year only if—

(i)(A) An individual who itemized deductions for Federal income tax purposes either must attach a copy of Schedule A of the individual's Federal income tax return to the State or local income tax return or must transcribe information from Schedule A of the individual's Federal income tax return on the State or local income tax return;

(B) The information contained on or transcribed from the Schedule A is required for the purpose of computing liability for the State or local income tax; and

(C) The omission of a copy of the Schedule A, or of the information required to be transcribed from the Schedule A, is consistent with the taxpayer's computation of tax on the State or local income tax return; or

(ii) Individuals are required to transcribe information from their Federal income tax return (other than from Schedule A) on the State or local income tax return for the purpose of computing liability for the State or local income tax and the information can be used to determine conclusively whether the taxpayer itemized deductions for Federal income tax purposes.

(4) *Example.* The provisions of paragraph (k)(3)(ii) of this section may be illustrated by the following example:

Example. State X asks for transcription of the following information on its 1983 income tax return from the taxpayer's 1983 Federal income tax return: Adjusted gross income; taxable income; and number of exemptions claimed. The amount of adjusted gross income and the number of exemptions claimed on the Federal income tax return are taken into account in computing the liability for income tax under the laws of State X. The amount of taxable income transcribed from the Federal return, however, does not enter into the computation of liability for income tax under the laws of State X. Thus, this amount may not be taken into account by the refund officer of State X for purposes of verifying whether a taxpayer itemized deductions for Federal income tax purposes. Since the refund officer of State X will not be able to determine conclusively from the amount of adjusted gross income and the number of exemptions transcribed from the Federal return whether a taxpayer itemized deductions for Federal income tax purposes, the transcribed information does not meet the requirements of paragraph (k)(3)(ii) of this section.

(l) *Time for furnishing statements*—(1) *General rule.*

(2) *Time for furnishing statements.* The statement required under paragraph (k) of this section shall be furnished after December 31 of the year in which the refund is paid or credit or offset is allowed, and on or before January 31 of the following year.

(2) *Extensions of time.* For good cause shown upon written application of the refund officer, the service center director may grant an extension fo time not exceeding 30 days in which to furnish statements under this paragraph. The application shall be addressed to the Service Center with which the Forms 1099 required under this section are required to be filed and shall contain a concise statement of the reasons for requesting the extension to aid the service center director in determining the period of the extension, if any, which will be granted. The application shall state at the top of the first page that it is made under this section and shall be signed by the refund officer. In general, the application shall be filed after September 30 of the year in which the refund is paid or credit or offset is allowed, and before January 15 of the following year.

(m) *Effective date.* This section applies to payments of refunds, and credits and offsets allowed after December 31 1982.

TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX EQUITY AND FISCAL RESPONSIBILITY ACT OF 1982
(26 CFR Part 5f)

Par. 3. The authority for Part 5f is revised to read as set forth below and the authority citations following all sections in Part 5f are removed:

Authority: 26 U.S.C. 7805. Sections 5f.103-1 and 5f.163-1 also issued under 26 U.S.C. 103(j), 26 U.S.C. 163(f), and 96 stat. 595. Section 5f.6045-1 also issued under 26 U.S.C. 6045.

Par. 4. Part 5f of 26 CFR is amended by removing §5f.6050E-1.

OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT
(26 CFR Part 602)

Par. 5. The authority for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 6. Section 602.101(c) is amended by inserting in the appropriate place in the table "§1.6050E-1 . . . 1545-0120".

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved August 12, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

TITLE 26—INTERNAL REVENUE.—CHAPTER 1, SUBCHAPTER A, PART 1—INCOME TAX; TAXABLE YEAR BEGINNING AFTER DECEMBER 31, 1953; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Returns Relating to Mortgage Interest Received in a Trade or Business From Indivduals

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document contains temporary regulations relating to the requirement of reporting mortgage interest received in a trade or business from individuals. Changes to the applicable law were made by the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1]. The regulations affect any person who is engaged in a trade or business and who, in the course of such

trade or business, receives $600 or more of interest from any individual on any mortgage in a calendar year. The regulations provide these persons with the guidance necessary to comply with the law. In addition, the text of the temporary regulations set forth in this document serves as the text of the proposed regulations cross-referenced * * * [on page 832, this Bulletin].

DATES: The regulations apply with respect to mortgage interest received after December 31, 1984.

FOR FURTHER INFORMATION CONTACT: Annette J. Guarisco of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T, 202-566-3238 (not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document amends the Income Tax Regulations (26 CFR Part 1) to provide rules relating to the reporting of mortgage interest received in a trade or business from individuals under section 6050H of the Internal Revenue Code of 1954. The regulations reflect the addition of section 6050H to the Code by section 145 of the Tax Reform Act of 1984 (Pub. L. 98-369, 98 Stat. 685) [1984-3 C.B. (Vol. 1) 1, 192]. The temporary regulations will remain in effect until superseded by final regulations on this subject.

This document also amends 26 CFR part 602 to provide for the display of the OMB control numbers under the Paperwork Reduction Act.

EXPLANATION OF PROVISIONS

Section 6050H provides that an information return must be made by any person who is engaged in a trade or business and who, in the course of the trade or business, receives from any individual $600 or more of interest on any mortgage in a calendar year. The term "mortgage" is defined separately for obligations in existence on December 31, 1984, and obligations incurred after December 31, 1984. Any person required to make an information return under section 6050H must also furnish a statement to the payor or, if applicable, payor of record on or before January 31 of the calendar year following the year in which the interest was received. The regulations under section 6050H provide that, in cases where there is more than one individual responsible for repayment of a mortgage, the mortgage interest recipient must report only with respect to the payor of record. A payor of record is defined in the regulations.

The regulations provide that amounts received from the Department of Housing and Urban Development on mortgages insured under section 235 of the National Housing Act (12 U.S.C. §§1701–1715z (1982 & Supp. 1983)) should not be reported under section 6050H as received from the borrower. In addition, amounts received after December 31, 1986, from any governmental unit (or any agency or instrumentality thereof) under a mortgage subsidy program should not be reported under section 6050H as received from the borrower.

The regulations also require that interest paid by a seller on a purchaser's mortgage should not be reported under section 6050H as received from the purchaser. This rule will permit the Internal Revenue Service to effectively monitor proper treatment of such payments. For example, the Service would be assured that, if interest paid by the seller is properly deductible by the purchaser, the stated purchase price of the property would be reduced to reflect (and hence its basis would not include) the amount of the interest paid by the seller and deducted by the purchaser.

The Service has considered the use of Form 1098 (the form used to report under section 6050H) to report not only interest paid by a borrower, but also related information about the amount (if any) of mortgage credit allowable to the borrower under section 25 of the Code. Section 25 permits a mortgage credit for certain borrowers in a state which has issued mortgage credit certificates. As issued in temporary form, these regulations do not require interest recipients to report the amount of the mortgage credit allowable under section 25. If the number of taxpayers claiming such credit or the level of noncompliance with the requirements of that section indicate that reporting to borrowers and the Service would be desirable, however, the Service may, by regulation, require reporting of this information for future years.

Due to the effective date of section 6050H, there is need for immediate guidance so that persons subject to the reporting requirement can make preparations to comply with these provisions. Therefore, these regulations have been drafted in question and answer format in order to facilitate their timely publication. No inference should be drawn, however, regarding issues not raised herein or from the inclusion of certain questions and not others in these regulations.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this temporary rule is not a major rule as defined in Executive Order 12291 or the Treasury and OMB implementation of the Order dated April 29, 1983.

No general notice of proposed rulemaking is required by 5 U.S.C. 553(b) for temporary regulations. Accordingly, the Regulatory Flexibility Act does not apply and Regulatory Impact Analysis is not required for these regulations.

The collection of information requirements contained in these regulations have been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB. Control number 1545-0901

DRAFTING INFORMATION

The principal author of these regulations is Annette J. Guarisco of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations on matters of both substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Parts 1 and 602 are amended as follows:

INCOME TAX REGULATIONS

(26 CFR Part 1)

Paragraph 1. The authority for Part

is amended by adding the following citation:

Authority: 26 U.S.C. 7805 * * * section 1.6050H-1T also issued under 26 U.S.C. 6050H.

Par. 2. The following new section is added at the appropriate place.

§1.6050H-1T *Questions and answers concerning information returns relating to mortgage interest received in a trade or business from* individuals. (Temporary). The following questions and answers relate to the requirement of reporting mortgage interest under section 6050H of the Internal Revenue Code of 1954, as added by section 145 of the Tax Reform Act of 1984 (Pub. L. 98-369, 98 Stat. 685):

Requirement of Reporting

In general

Q-1: What does section 6050H provide with respect to the reporting of mortgage interest?

A-1: In general, section 6050H provides that an information return must be made by any person who is engaged in a trade or business and who, in the course of such trade or business, receives from any individual $600 or more of interest on any mortgage in a calendar year. For purposes of this section—

(a) Any person who is engaged in a trade or business and who, in the course of such trade or business, receives interest on any mortgage is referred to as an "interest recipient"; and

(b) Any individual who pays interest on any mortgage is referred to as a "payor".

Interest subject to reporting

Q-2: Does the reporting requirement apply to all interest received by an interest recipient?

A-2: No. The reporting requirement applies only to interest received from a payor on a mortgage (as defined in A-4 and A-5 of this section). The reporting requirement does not apply to interest received from a trust, estate, partnership, association, company, or corporation.

Q-3: Does the reporting requirement apply to any amount of mortgage interest received from a payor?

A-3: No. The reporting requirement applies only if $600 or more of interest is received from a payor on any mortgage in a calendar year. The 4600 threshold is determined on an obligation by obligation basis. Therefore, if the interest received from a payor on an obligation is less than $600, reporting with respect to that interest is not required even if the total interest received from the payor on all obligations held by the interest recipient exceeds $600 in a calendar year.

Q-4: What is a mortgage, for purposes of this section and section 6050H, with respect to obligations in existence on December 31, 1984?

A-4: An obligation in existence on December 31, 1984, that is secured primarily by real property (regardless of whether the property is located inside or outside the United States) is a mortgage unless, at the time the obligation was incurred, the interest recipient reasonably classified such obligation as other than a mortgage, real property loan, real estate loan, or other similar type of obligation. (See A-12 of this section for rules relating to interest received by foreign persons.) For example, if an obligation incurred in 1980 was secured primarily by real property, but the interest recipient reasonably classified the obligation as a commercial loan because the proceeds were used to finance the payor's trade or business, the obligation is not considered a mortgage for purposes of this section and section 6050H. If, however, a majority of the obligations in a particular class are primarily secured by real property, it is not reasonable to classify such obligations as other than mortgages, real property loans, real estate loans, or other similar types of obligations; such obligations are, therefore, mortgages for purposes of section 6050H and this section. For purposes of this definition, real property includes stock in a cooperative housing corporation. A mortgage does not include a credit card obligation that is secured primarily by real property or a line of credit that is secured primarily by real property.

Q-5: What is a mortgage, for purposes of this section and section 6050H, with respect to obligations incurred after December 31, 1984?

A-5: With respect to obligations incurred after December 31, 1984, a mortgage is any obligation that is secured primarily by real property, regardless of whether the property is located inside or outside the United States. (See A-12 of this section for rules relating to interest received by foreign persons.) For purposes of this definition, real property includes stock in a cooperative housing corporation. A mortgage does not include a credit card obligation that is secured primarily by real property or a line of credit that is secured primarily by real property. The determination of whether a particular obligation is a mortgage shall be made without regard to the interest recipient's classification of that obligation. For example, if an obligation is secured primarily by real property, but the interest recipient classifies the obligation as a commercial loan because the proceeds are to be used to finance the payor's trade or business, the obligation is nevertheless a mortgage for purposes of this section and section 6050H.

Q-6: If the amount of interest received on a mortgage in a calendar year is less than the amount of interest due on the mortgage, what amount of interest must be reported under this section?

A-6: The amount of interest received must be reported. For example, assume that $800 of interest is payable in a calendar year but only $600 of interest is received in the calendar year. The amount of interest received ($600) must be reported under this section. Similarly, assume that an interest recipient accrues $900 of interest on a mortgage in a calendar year but only $800 of interest is payable and is received in the calendar year (resulting in a $100 increase in the unpaid balance of the loan). The amount of interest received ($800) must be reported under this section.

Q-7: If a payor remits 13 payments of interest on any mortgage in a calendar year, but the interest recipient receives only 12 payments in the calendar year, what amount should the interest recipient report?

A-7: The interest recipient should report the interest actually received in the calendar year. For example, if a payor mails the 13th payment on December 31 of a calendar year, and the interest recipient does not receive it until the following calendar year, the interest recipient should report only the 12 payments received in the calendar year.

Trade or business requirement

Q-8: Must an interest recipient be

engaged in the trade or business of lending money to be subject to the reporting requirement of this section?

A-8: No. An interest recipient (other than a governmental unit, or any agency or instrumentality thereof) is subject to this reporting requirement if the interest recipient is engaged in any trade or business and, in the course of such trade or business, receives from an individual $600 or more of interest on any mortgage in a calendar year. For example, if A, a real estate developer, provides financing to B, an individual, to enable B to purchase a house in a subdivision owned and developed by A, and that house is the primary security for the financing, A is subject to this reporting requirement. Alternatively, if C, a physician, who is not engaged in any other trade or business, lends money to D to enable D to purchase C's home, C is not subject to the reporting requirement of this section because C will not receive the interest in the course of his sole trade or business of being a physician.

Q-9: How does that trade or business requirement apply to a governmental unit?

A-9: A governmental unit (or any agency or instrumentality thereof) which receives from a payor $600 or more of interest on any mortgage in a calendar year is subject to the reporting requirement without regard to the requirement that the money be received in the course of a trade or business. A governmental unit (or any agency or instrumentality thereof) that is subject to the reporting requirement must designate an officer or employee to make the return. The designated officer or employee must make the return in the form and manner prescribed by this section.

Treatment of cooperative housing corporations

Q-10: How does this reporting requirement apply in the case of cooperative housing corporations?

A-10: For purposes of section 6050H and this section, a cooperative housing corporation (as defined in section 216) is treated as a person who is engaged in a trade or business and who, in the course of such trade or business, receives interest from its tenant-stockholders on a mortgage. Therefore, a cooperative housing corporation is required to report under section 6050H and this section.

Interest received on behalf of another

Q-11: If, in the course of a trade or business, a person receives (collects) interest on behalf of another, who is required to report?

A-11: The person first receiving (collecting) the interest is required to report. For example, a servicing bank that receives $600 or more of mortgage interest in a calendar year from a payor on behalf of a lender is required to report the interest received under this section. No reporting is required under this section upon the transfer of the interest from the servicing bank to the lender for whom the interest was received.

Interest received by foreign persons

Q-12: Must an interest recipient that is a foreign person report under section 6050H and this section?

A-12: An interest recipient that is a foreign person must report with respect to mortgage interest that is received at a location within the United States. In the case of interest received at locations outside the United States, an interest recipient that is a foreign person must report—

(a) If the foreign person is a controlled foreign corporation within the meaning of section 957(a); or

(b) If the foreign person is a corporation any interest received from which would be considered to be from sources within the United States under section 861(a)(1)(C) (without regard to whether the interest is paid or credited by a domestic branch of a foreign corporation engaged in the commercial banking business).

Multiple borrowers

Q-13: When there is more than one borrower on a mortgage, must the interest recipient report with respect to each borrower?

A-13: No. The interest recipient must report only with respect to the payor of record (as defined in A-14 of this section) on the mortgage. The amount of interest subject to reporting is the full amount received by the interest recipient with respect to the mortgage during the calendar year.

Q-14: Who is a payor of record?

A-14: For purposes of this section, the payor of record is the individual carried on the books and records of the interest recipient as the principal bo
rower or the individual designated b
the interest recipient as the payor
record.

Interest paid by third parties

Q-15: If an interest recipient receiv
interest on a mortgage from a perso
other than the borrower, must the inte
est recipient report this amount as r
ceived from the borrower?

A-15: In general, yes. Except as ot
erwise provided in this A-15 and A-1
of this section, an interest recipie
must report all amounts received on
borrower's mortgage as received fro
the borrower under section 6050H a
this section. For example, assume th
N is the borrower on a mortgage a
that interest is received on the mortga
from N's mother. The interest that
received from N's mother on N's mo
gage is reportable under section 6050
and this section as received from
However, interest that is paid by
seller on a purchaser's mortgage sha
not be reported under section 6050
and this section as received from t
purchaser. For example, if a real esta
developer deposits an amount in escro
with the interest recipient and advis
the interest recipient to draw on the a
count to pay interest on a purchase
mortgage, this interest is not reportab
under section 6050H and this sectio
Similarly, if a real estate develop
pays a lump sum to the interest recip
ent for interest on a purchaser's mo
gage, this interest is not reportable u
der section 6050H and this section.
addition, amounts received by the int
est recipient as housing assistance pa
ments from the Department of Housi
and Urban Development ("HUD") on
borrower's mortgage that is insured u
der section 235 of the National Hou
ing Act (12 U.S.C. §§1701-171
(1982 & Supp. 1983)) shall not be r
ported as interest received from t
borrower. In such a case, therefor
only the amount of interest received
the mortgage that exceeds the amou
of housing assistance payments r
ceived from HUD shall be reported.

Q-15a: If an interest recipient r
ceives, with respect to a borrowe
mortgage, an amount from a gover
mental unit, or any agency or inst
mentality thereof (other than an amou
received from HUD as described
A-15 of this section), should the int

est recipient report the amount as received from the borrower?

A-15a: If the interest is received after December 31, 1986, it must be reported in the same manner as interest on mortgages with respect to which housing assistance payments are received from HUD, as described in A-15 of this section. If the interest is received before January 1, 1987, it may, but need not, be reported.

Form and manner of return

Form of return

Q-16: What form must be used to make a return required by section 6050H and this section?

A-16: An interest recipient must make the return on Form 1098 (with Form 1096 as the transmittal form). The interest recipient may, however, prepare and use a form that contains provisions substantially similar to those of Forms 1096 and 108 if that person complies with any revenue procedures relating to substitute Forms 1096 and 1098 in effect at that time. A separate return must be made for each mortgage with respect to which $600 or more of interest is received for a calendar year.

Information included on return

Q-17: What information must an interest recipient include on Form 1098?

A-17: An interest recipient must include the following information on the Form 1098:

(a) The name, address, and TIN (as defined in section 7701(a)) of the payor or payor of record;

(b) The name and address of the interest recipient;

(c) The amount of interest (not including points and other prepaid interest) received on the mortgage in the calendar year; and

(d) Any other information as may be required by Form 1098 or its instructions.

Time for filing

Q-18: When must an interest recipient file the return or returns required by section 6050H and this section?

A-18: An interest recipient must file the return or returns on or before February 28 of the year following the calendar year in which the mortgage interest is received.

Place for filing

Q-19: Where must the return or returns required under section 6050H and this section be filed?

A-19: The return or returns must be filed with the same Internal Revenue Service Center where other returns of the interest recipient are filed.

Use of magnetic media

Q-20: What rules apply with respect to the use of magnetic media?

A-20: Any return required under section 6050H and this section must be filed on magnetic media to the extent required by section 6011(e) and the regulations thereunder. Any person not required by section 6011(e) to file returns on magnetic media may requrest permission to do so. See §1.9101 for rules relating to permission to submit information on magnetic tape or other media. If a person required to file returns on magnetic media fails to do so, the penalty under section 6652 (failure to file an information return) applies.

Requirement of furnishing statements to payors

In general

Q-21: What statements are required to be furnished to payors under section 6050H and this section?

A-21: Any interest recipient required to make an information return under section 6050H must also furnish a statement to the payor or, if applicable, payor of record (see A-13 and A-14 of this section). For the date when the statement must be furnished, see A-26 of this section.

Q-22: Is the statement considered to be furnished to the payor or payor of record if it is mailed to him at his last known address?

A-22: Yes.

Q-23: If an interest recipient furnishes a statement required under a Federal mortgage program will the requirements of A-21 of this section be met?

A-23: Yes, if the statement furnished contains all the information required under A-24 of this section and is furnished to the payor or payor of record by the date required under A-26 of this section.

Information included on statement

Q-24: What information must be included on the statement required to be furnished to payors or payors of record under section 6050H and this section?

A-24: The statement must include the following information:

(a) The information required under A-17 of this section;

(b) A legend starting that the information is being reported to the Internal Revenue Service; and

(c) A legend stating that the amount reported on the statement is deductible by the payor for Federal income tax purposes only to the extent the payor actually paid the amount and was not reimbursed by another person.

Copy of Form 1098 to payors

Q-25: Can an interest recipient meet the requirement to furnish a statement to a payor or payor of record by furnishing a copy of the Form 1098 filed with respect to that payor or payor of record?

A-25: Yes. The requirement of furnishing a statement may be met by furnishing to the payor or payor of record a copy of the Form 1098 containing the same information filed with the Service with respect to such payor, or a form that contains provisions substantially similar to those of Form 1098, provided that the form bears the legends described in A-24 of this section.

Time for furnishing statement

Q-26: When is a statement required to be furnished by an interest recipient to the payor or payor of record?

A-26: A statement is required to be furnished by the interest recipient to the payor or payor of record on or before January 31 of the year following the calendar year in which the mortgage interest is received.

Penalties

In general

Q-27: Are there any penalties for failing to comply with the requirements of section 6050H and this section?

A-27: Yes. The penalty for failing to make an information return with respect to a payor or payor of record is provided in section 6652. The penalty for failing to furnish a statement to a payor or payor of record is provided in section 6678.

Q-28: Are there any penalties for failing to furnish a TIN upon request?

A-28: Yes. Any payor or payor of record is subject to a $50 penalty by the Internal Revenue Service if such

payor fails to furnish his TIN upon the request of an interest recipient. For rules relating to the requesting of TINs by interest recipients, see A-30 and A-31 of this section.

Q-29: Is an interest recipient subject to any penalties for failing to furnish the TIN of a payor or payor of record?

A-29: Yes. In general, the penalties provided under section 6676 will be assessed against interest recipients who fail to furnish to the Internal Revenue Service the TIN of a payor or payor of record. With respect to mortgages in existence on December 31, 1984, however, the interest recipient will not be subject to the section 6676 penalties if the interest recipient followed the rules of A-30 and A-31 of this section for requesting TINs and properly and promptly processed the responses.

Requesting TINS

Q-30: What rules apply with respect to the requesting of TINs by interest recipients?

A-30: With respect to obligations incurred after December 31, 1984, the interest recipient must take all reasonable steps to obtain the TIN of the payor or payor of record at the time the obligation is incurred. With respect to any mortgage for which the interest recipient does not have the TIN of the payor or payor of record in its accounting system, the interest recipient must request, at least once a year, the TIN of such payor.

The request for a TIN need not be in a separate mailing. The request may be included, for example, in the interest recipient's regular mailings of payment coupon booklets or annual statements. However, if the interest recipient makes no other mailings to the payor or payor of record during 1985 (or during the year in which the obligation is incurred for obligations incurred after 1985), then the interest recipient must request the TIN in a separate mailing.

Q-31: What form must the interest recipient use to request the TIN of a payor or a payor of record?

A-31: No particular form must be used to request the TIN. However, the request must be made on a separate piece of paper and the request must clearly notify the payor that the Internal Revenue Service requires the payor to furnish his TIN in order to verify any deduction for mortgage interest. The interest recipient must also notify such payor that he is subject to a $50 penalty, imposed by the Internal Revenue Service, if he fails to furnish his TIN.

Effective date

Q-32: When are section 6050H and this section effective?

A-32: Section 6050H and this section are generally effective for amounts of mortgage interest received after December 31, 1984. However, Q/A-15a of this section is effective for amounts of mortgage interest received after December 31, 1986.

OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

(26 CFR Part 602)

Par. 3. Section 602.101(c) is amended by inserting in the appropriate place in the table "§1.6050H-1T . . . 1545-0901."

There is need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue this Treasury decision with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

(Approved by the Office of Management and Budget under control number 1545-0901)

ROSCOE L. EGGER, JR.,
Commissioner of Internal Revenue.

Approved August 9, 1985.

RONALD A. PEARLMAN,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on August 16, 1985, 8:45 a.m., and published in the issue of the Federal Register for August 20, 1985, 50 F.R. 33529)

Subpart C.—Information Regarding Wages Paid Employees

Section 6053.—Reporting of Tips

26 CFR 31.6053-3: Reporting by certain large food or beverage establishments with respect to tips.

T.D. 8039

TITLE 26—INTERNAL REVENUE.—CHAPTER 1, SUBCHAPTER C.—PART 31—EMPLOYMENT TAXES AND COLLECTION OF INCOME TAX AT SOURCE; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Employee Tip Reporting and Substantiation Requirements

AGENCY: Internal Revenue Service Treasury.

ACTION: Temporary regulations.

SUMMARY: This document provide temporary regulations relating to em ployee tip reporting and substantiatio requirements. The text of the temporar regulations set forth in this documer also serves as the text of the propose regulations cross-referenced * * * [o page 811, this Bulletin]. The temporar regulations reflect amendments to th Internal Revenue Code of 1954 with re spect to tipped employees made by sec tion 1072 of the Tax Reform Act o 1984 [Pub. L. 98-369, 1984-3 C.B (Vol. 1) 1, 560] and provide guidanc to employers and employees with re spect to the new provisions.

DATES: The regulations contained i this document in §31.6053-3T(h) wi respect to a lower allocation-of-tip percentage are to be effective on an after July 18, 1984. The provisions o §31.6053-3T(j)(9) relating to the def nition of a large food or beverage e tablishment are effective for taxab years beginning after December 3 1982. The substantiation requiremen contained in §31.6053-3T(b)(5) an §31.6053-4T are effective with respe to tips received on or after October 1985.

FOR FURTHER INFORMATIO CONTACT: Gail H. Morse of the Le islation and Regulations Division, O fice of Chief Counsel, Internal Reven Service, 1111 Constitution Ave N.W., Washington, D.C. 20224 (A tention: CC:LR:T) (202-566-3297, n a toll-free call).

SUPPLEMENTARY INFORMATIO

BACKGROUND

Under current law, all employe who receive cash tips of $20 or more a calendar month are required to rep such tips to their employers for pu poses of income, social security, a railroad retirement tax withholding r quirements. To increase complian

with this requirement, the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) [Pub. L. 97-248, 1982-2 C.B.462] provided rules which, under certain circumstances, require large food and beverage establishments to file an information report setting forth an allocation of tip amounts. Generally, whenever the employees of a large food or beverage establishment fail to report to their employer tips aggregating 8 percent or more of the gross receipts of an establishment, the employer must allocate to the employees (as tips for purposes of section 6053(c)) an amount equal to the difference between 8 percent of the establishment's gross receipts and the aggregate amount of tips reported by the employees. The Secretary of the Treasury is authorized to reduce the allocation figure based on a showing by an employer that the tip rate for its particular establishment was lower than 8 percent. Under the provisions enacted in TEFRA, the rate could not be lower than 5 percent. The TEFRA rules were amended by Section 1072 of the Tax Reform Act of 1984 (the Act) (98 Stat. 1052, 26 U.S.C. 6053 note) to allow a majority of employees to petition for a reduced allocation rate and to permit a minimum allocation rate of 2 percent. In addition, the Act provides that for purposes of determining whether an establishment normally employed more than 10 employees and thus was a large food or beverage establishment, an individual who owns 50 percent or more in value of the stock of a corporation operating a food or beverage establishment is not considered an employee of such establishment. The Act also directed the Secretary to promulgate regulations with respect to recordkeeping requirements applicable to tipped employees.

The temporary regulations contained herein would provide guidance to employers and employees with respect to the provisions of section 1072 of the Act.

EXPLANATION OF PROVISIONS

The temporary regulations reflect amendments to section 6053 with respect to the reduction of the minimum allocation rate from 5 percent to 2 percent (§31.6053-3T(h)(1)) and with respect to the treatment of 50-percent stockholders as nonemployees (§31.6053-3T(j)(9)).

In addition, the temporary regulations provide rules with respect to employee-originated petitions for a reduction in the tip allocation rate. Section 31.6053-3T(h)(2) provides that employee-originated petitions must be consented to by a majority of employees, which, for this purpose, means more than one-half of the directly tipped employees employed by the establishment at the time the petition is filed. Further requirements of employee-originated petitions are set forth in §31.6053-3T(h)(2)(iii), including a requirement that employers provide (in confidence) certain information to the district director.

In addition to the general recordkeeping requirements applicable to all taxpayers, these temporary regulations, in response to the congressional mandate to promulgate regulations with respect to recordkeeping requirements applicable to tipped employees, provide rules specifically applicable to tipped employees. Under the temporary regulations, an employee is required to maintain sufficient evidence to establish the amount of tip income received by the employee during a taxable year. The temporary regulations provide that sufficient evidence consists of either (i) a daily record, or (ii) other evidence of the tip income received which is as credible and as reliable as a daily record (§31.6053-4T). The daily record or other evidence may not be sufficient evidence if there are facts and circumstances which indicate that the employee received a larger amount of tip income (§31.6053-4T).

The effective date for these substantiation regulations is October 1, 1985. However, under the general recordkeeping provisions of section 6001 and the regulations thereunder tipped employees are required, for periods prior to that date, to have books and records adequate to substantiate the amount of tip income received. Substantiation considered sufficient as provided in these temporary regulations will also be considered sufficient for such prior periods.

REGULATORY FLEXIBILITY ACT; EXECUTIVE ORDER 12291; PAPERWORK REDUCTION ACT OF 1980

No general notice of proposed rulemaking is required by 5 U.S.C. 553(b) for temporary regulations. Accordingly, the Regulatory Flexibility Act does not apply and no Regulatory Flexibility Analysis is required for this rule. The Commissioner of Internal Revenue has determined that this temporary rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not requied. The reporting requirements added by this document have been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. The reporting requirements have been approved by OMB.

DRAFTING INFORMATION

The principle author of these temporary regulations is Gail H. Morse of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue and Treasury Department participated in developing the regulations both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations.

Accordingly, 26 CFR Part 1 and Part 602 are amended as follows:

PART 31 EMPLOYMENT TAXES AND COLLECTION OF INCOME TAX AT SOURCE

Paragraph 1. The authority for Part 31 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Sections 31.6053-3T and 31.6053-4T are also issued under section 1072 of Pub. L. 98-369, 98 Stat. 1052 [1984-3 C.B. (Vol. 1), 1, 560]; and 26 U.S.C. 6001.

Par. 2. Section 31.6053-3 is amended by revising paragraphs (b)(5), (h), and (j)(9) to read as set forth below:

§31.6053-3 Reporting by certain large food or beverage establishments with respect to tips.

* * * * *

(b) *Employer statement to employees.* * * *

(5) See paragraph (b)(5) of §31.6053-3T.

* * * * *

(h) *Lowering the percentage to be used.* See paragraph (h) of §31.6053-3T.

* * * * *

(j) *Definitions.* * * *

(9) *More than 10 employees on a typical business day.* See paragraph (j)(9) of §31.6053-3T.

Par. 3. A new §31.6053-3T is added immediately following §31.6053-3 to read as follows:

§31.6053-3T Reporting by certain large food or beverage establishments with respect to tips. (Temporary)

(a) [RESERVED]

(b) *Employer statement to employees*—(1)-(4) [RESERVED]

(5) *Employee reporting of tip income.* Regardless of whether an employee receives an allocation under section 6053(c) and §31.6053-3, the employee is required to report as income on his or her Federal income tax return all tips received. For tips received before October 1, 1985, an employee must be able to substantiate the amount of reported tip income as provided in section 6001 and the regulations thereunder. For tips received on or after October 1, 1985, an employer must be able to substantiate the amount of reported tip income as provided in §31.6053-4T. The Internal Revenue Service may determine that a tipped employee received a larger amount of tip income than is reflected by the employee's allocation.

(c)–(g) [RESERVED]

(h) *Lowering the percentage to be used*—(1) *In general.* On and after July 18, 1984, an employer or a majority of the employees (as defined in paragraph (h)(2)(iii) of this section) of an employer may petition the district director for the internal revenue district in which the employer's establishment is located to have the percentage of gross receipts that is used to determine the amount to be allocated under section 6053(c)(3)(A) and paragraph (d) of §31.6053-3 reduced from 8 percent to the percentage that the petitioning employer or employees believe to be the actual percentage of the amount of the establishment's gross receipts that reflects the amount of tips. The district director may thereafter reduce the percentage of gross receipts used to determine the amount to be so allocated to the percentage that the district director determines to be the proper estimate of the actual percentage of gross receipts constituting tips. The district director, however, may not reduce the percentage below 2 percent. For the rules in effect prior to July 18, 1984, see 26 CFR §31.6053-3(h) (Rev. as of April 1, 1984).

(2) *Time and manner for petition to have percentage reduced*—(i) *In general.* The petition shall be in writing and shall include sufficient information to allow the district director to estimate with reasonable accuracy the actual tip rate of the establishment. For example, such information might include the charged tip rate, the type of establishment, menu prices, the location of the establishment, the amount of "self-service" required, the days and hours open for business, and whether the customer receives the check from or pays the server for the meal.

(ii) *Employer petitions.* In the case of employer-originated petitions, the employer has the burden of supplying sufficient information to allow the district director to estimate with reasonable accuracy the actual tip rate of the establishment. The employer also shall attach to the petition copies of Form 8027 (if any) filed for the establishment for the 3 immediately preceding calendar years.

(iii) *Employee petitions.* (A) In the case of employee-originated petitions, a majority of the employees of an establishment must consent to the petition. A majority for purposes of this paragraph is more than one-half of all the directly tipped employees (within the meaning of paragraph (j)(12) of §31.6053-3) employed by the establishment at the time the petition is filed. In the case of a single petition for certain multi-establishment employers (see paragraph (h)(4) of this section), more than onehalf of the aggregate directly tipped employees (at the time the petition is filed) of the establishments covered by the petition must consent. The petition filed with the district director must state the total number of directly tipped employees employed by the establishment (or establishments) and the number of the directly tipped employees consenting to the petition.

(B) The petitioning employees have the burden of supplying sufficient information to allow the district director to estimate with reasonable accuracy the actual tip rate of the establishment to the extent they possess such information. If the employer possesses relevant information, the employer must provide such information to the district director upon the request of the petitioning employees or district director. Employees who file a petition under this paragraph must promptly notify their employer of the petition. Promptly upon receipt of such notification, their employer must submit to the district director copies of the Form 8027 (if any) filed for the establishment for the 3 immediately preceding calendar years. Any information supplied by the employer during the petitioning process shall not be disclosed by the Internal Revenue Service to any employees of the employer nor to representatives of such employees.

(3) *Effective date for reduced percentage.* The district director shall determine the term for which the reduced percentage is to be effective. At the end of such term, the reduced percentage shall cease to apply unless previously extended by the district director for the district in which the large food or beverage establishment is located. In no event shall the reduced percentage be applied to payroll periods before the date the petition described in paragraph (h)(2) of this section is filed unless the establishment is a new business (as described in paragraph (i) of §31.6053-3). In the case of a new business or a petition for reduction filed prior to September 30, 1983, the district director may allow the approved reduced percentage to be applied retroactively to the first day of the calendar year of the petition. Until such time as the employer is notified in writing by the district director of approval of a reduction, the employer must continue to use 8 percent of gross receipts for purposes of complying with section 6053 (c) and this section.

(4) *Single petition for certain multi-establishment employers.* An employer (including a single employer as defined in section 52(a) or (b)) or a majority of the employees of such employer may

use a single petition for two or more of the employer's establishments if such establishments are essentially the same type of business, the petitioning employer or employees have made a good faith determination that the tip rates at such establishments are essentially the same, and the establishments are located in the same internal revenue region. Single petitions shall include the names and locations of the establishments for which a reduction is requested and the information required by paragraph (h)(2) of this section for a typical establishment. A single petition for multi-establishments located within an internal revenue region shall be filed with the district director for the internal revenue district in which the greatest number of the establishments included in the petition are located. If there is an equal number of establishments located in two or more internal revenue districts the employer or employees petitioning may choose the district to which the petition is sent.

(i) [RESERVED]

(j) *Definitions*—(1)-(8) [RESERVED]

(9) *More than 10 employees on a typical business day.* An employer shall be considered to have normally employed more than 10 employees on a typical business day during a calendar year if one half of the sum of the average number of employee hours worked per business day during the calendar month in which the aggregate gross receipts from food or beverage operations were the greatest plus the average number of employee hours worked per business day during the calendar month in which the aggregate gross receipts from food or beverage operations were the least, is greater than 80 hours. The average number of employee hours worked per business day during a month shall be computed by dividing the total number of hours worked during the month by all employees of the employer who are employed in a food or beverage operation by the average of the number of days during the month that each food or beverage operation at which such employees worked was open for business. If an employer operates both a food or beverage operation and a nonfood or beverage operation, and one or more of his or her employees work for both operations, the employer may make a good faith estimate of the number of hours such employees worked for each operation in a given month. Similarly, in cases where one or more of an employer's employees work for more than one of such employer's food or beverage operations, a good faith estimate may be made of the number of hours such employees worked for each operation in a given month. For purposes of this subparagraph, employees who are employed in a food or beverage operation include all employees of the operation, not just food or beverage employees. The employees of an employer shall include all employees at all food or beverage operations who, along with the employees of such employer, would be treated as employees of a single employer under section 52(a) or (b) (as in effect on September 3, 1982) and the regulations thereunder. For example, if an employer at a food or beverage operation is a member of a controlled group of corporations, then all employees of all corporations which are members of such controlled group of corporations shall be treated as employed by each such employer for purposes of this paragraph. However, an individual who owns 50 percent or more in value of the stock of a corporation operating an establishment shall not be treated as an employee of any establishment owned by the corporation.

Par. 4. A new §31.6053-4T is added immediately after §31.6053-3T to read as follows:

§31.6053-4T Substantiation requirements for tipped employees. (Temporary)

(a) *Substantiation of tip income*—(1) *In general.* An employee shall maintain sufficient evidence to establish the amount of tip income received by the employee during a taxable year. A daily record maintained by the employee (as described in paragraph (a)(2) of this section) shall constitute sufficient evidence. If the employee does not maintain a daily record, other evidence of the amount of tip income received during the year, such as documentary evidence (as described in paragraph (a)(3) of this section), shall constitute sufficient evidence, but only if such other evidence is as credible and as reliable as a daily record. However, notwithstanding any other provision of this paragraph (a)(1), a daily record or other evidence that is as credible and as reliable as a daily record may not be sufficient evidence if there are facts or circumstances which indicate that the employee received a larger amount of tip income. Moreover, oral statements of the employee, without corroboration, cannot constitute sufficient evidence.

(2) *Daily record.* The daily record shall state the employee's name and address, the employer's name, and the establishment's name. The daily record shall show for each work day the amount of cash tips and charge tips received directly from customers or from other employees, and the amount of tips, if any, paid out to other employees through tip sharing, tip polling or other arrangements and the names of such employees. The record shall also show the date that each entry is made. Form 4070A, *Employee's Daily Record of Tips,* may be used to maintain such daily record. The daily record of tips received by an employee shall be prepared and maintained in such manner that each entry is made on or near the date the tip income is received. A daily record made on or near the date the tip income is received has a high degree of credibility not present with respect to a record prepared subsequent thereto when generally there is a lack of accurate recall. An entry is made "near the date the tip income is received" if the required information with respect to tips received and paid out by the employee for the day is recorded at a time when the employee has full present knowledge of those receipts and payments.

(3) *Documentary evidence.* Documentary evidence consists of copies of any documents that contain (i) amounts that were added to a check by customers as a tip and paid over to the employee or (ii) amounts that were paid by a customer for food or beverages with respect to which tips generally would be received by the employee. Examples of documentary evidence are copies of restaurant bills, credit card charges, or charges under any other arrangement (see §31.6053-3(j)(4)) containing amounts added by the customer as a tip.

(b) *Retention of records.* Records maintained under this section shall be

kept at all times available for inspection by authorized internal revenue officers or employees, and shall be retained so long as the contents thereof may become material in the administration of any internal revenue law.

(c) *Effective date.* The substantiation requirements of this §31.6053-4T shall be effective for tips received on or after October 1, 1985. For the rules in effect prior to October 1, 1985, see section 6001 and the regulations thereunder. Substantiation considered sufficient as provided in this §31.6053-4T will also be considered sufficient for tips received before October 1, 1985.

PART 602
OMB CONTROL NUMBERS
UNDER THE PAPERWORK
REDUCTION ACT

Par. 5. The authority for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 6. Section 602.101(c) is amended by inserting in the appropriate places in the table "§31.6053-3T and §31.6053-4T . . . 1545-0065."

* * * * *

There is a need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue it with notice and public procedure under subsection (b) of section 553 of title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

ROSCOE L. EGGER, JR.
Commissioner of
Internal Revenue.

Approved July 12, 1985.

J. ROGER MENTZ,
Acting Assisting Secretary
of the Treasury.

(Filed by the Office of the Federal Register on July 18, 1985, 4:06 p.m., and published in the issue of the Federal Register for July 23, 1985, 50 F.R. 29964)

Part V.—Time for Filing Returns and Other Documents

Section 6071.—Time for Filing Returns and Other Documents

26 CFR 48.6071(a)-1: Time for filing returns.

Time for filing quarterly, monthly, and semimonthly returns required under section 48.6011(a)-1(a) of the regulations. See T.D. 8043, page 214.

Part VI.—Extension of Time for Filing Returns

Section 6081.—Extension of Time for Filing Returns

26 CFR 1.6081-1T: Extension of time to file return in case of taxpayers with mixed straddles (temporary).

Due date for filing return for taxpayers holding one or more mixed straddles within the meaning of section 1092(b)(2). See T.D. 8058, page 183.

---

26 CFR 48.6081(a)-1: Extension of time for filing returns.

Application for extension of time with respect to taxes imposed by section 4041, 4042, 4051, and chapter 32 of the Code. See T.D. 8043, page 214.

Part VII.—Place for Filing Returns or Other Documents

Section 6091.—Place for Filing Returns or Other Documents

26 CFR 48.6091-1: Place for filing returns.

Place for filing returns of persons other than corporations, returns of corporations, and returns of persons outside the United States. See T.D. 8043, page 214.

Subchapter B.—Miscellaneous Provisions

Section 6103.—Confidentiality and Disclosure of Returns and Return Information

Instructions for federal and state agencies requesting taxpayer address information and for federal agencies requesting tax delinquent account status indicators from the Service. See Rev. Proc. 85-33, page 414.

Section 6107.—Index Tax Return Preparer Must Furnish Copy of Return to Taxpayer and Must Retain a Copy or List

26 CFR 1.6107-1: Income tax return preparer must furnish copy of return to taxpayer and must retain a copy or record.

Whether the requirements of section 6107 of the Code apply to a firm that furnishes a computerized tax return preparation service to tax practioners. See Rev. Rul. 85-187, page 338.

---

26 CFR 1.6107-1: Income tax return preparer must furnish copy of return to taxpayer and must retain a copy or record.

Whether the requirements of section 6107 of the Code apply to a farmers cooperative credit association that prepares Schedule F of Form 1040. See Rev. Rul. 85-188, page 339.

---

26 CFR 1.6107-1: Income tax return preparer must furnish copy of return to taxpayer and must retain a copy or record.

Whether the requirements of section 6107 of the Code apply to a person who prepares a computer program and sells it to a taxpayer to use in preparing the taxpayer's income tax return. See Rev. Rul. 85-189, page 341.

Section 6109.—Identifying Numbers

26 CFR 1.6109-2: Furnishing identifying number of income tax return preparer.

Whether the requirements of section 6109(a)(4) of the Code apply to a firm that furnishes a computerized tax return preparation service to tax practitioners. See Rev. Rul. 85-187, page 338.

---

26 CFR 1.6109-2: Furnishing identifying number of income tax return preparer.

Whether the requirements of section 6109(a)(4) of the Code apply to a farmers cooperative credit association that prepares Schedule F of Form 1040. See Rev. Rul. 85-188, page 339.

---

26 CFR 1.6109-2: Furnishing identifying number of income tax return preparer.

Whether the requirements of section 6019(a)(4) of the Code apply to a person who prepares a computer program and sells it to a taxpayer to use in preparing the taxpayer's income tax return. See Rev. Rul. 85-189, page 341.

---

26 CFR 48.6109-1: Employer identification numbers.

Employer identification number required for every person who makes a sale or use of an article with respect to which a tax is imposed by section 4041, 4042, or 4051 or chapter 32 of the Code. See T.D. 8043, page 214.

Chapter 62.—Time and Place for Paying Tax
Subchapter B.—Extensions of Time for Payment

Section 6161.—Extension of Time for Paying Tax

26 CFR 48.6161(a)-1: Extension of time for paying tax shown on return.

Application for extension of time for payment of tax imposed by section 4041, 4042, or 4051 or chapter 32 of the Code. See T.D. 8043, page 214.

Chapter 63.—Assessment
Subchapter A.—In General

Section 6206.—Special Rules Applicable to Excessive Claims under Sections 6420, 6421, and 6427

26 CFR 48.6206-1: Assessment and collection of excessive payment and penalty.

Treatment of excessive claims with respect to the use of certain gasoline. See T.D. 8043, page 214.

Subchapter C.—Tax Treatment of Partnership Items

Section 6232.—Extension of Subchapter to Windfall Profit Tax

26 CFR 51.6232(a)-1: Partnership items for windfall profit tax purposes determined at the partnership level.

T.D. 8054

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER D, PART 51—EXCISE TAX REGULATIONS UNDER THE CRUDE OIL WINDFALL PROFIT TAX ACT OF 1980

Tax Treatment of Partnership Items for Windfall Tax Purposes

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to the treatment of partnership items for purposes of the windfall profit tax. The Tax Equity and Fiscal Responsibility Act of 1982 [Pub. L. 97-248, 1982-2 C.B. 462] changed the applicable law. The regulations provide guidance to partnerships with oil production subject to windfall profit tax, their partners, and Internal Revenue Service personnel.

DATES: The regulations extending the rules for consolidated partnership proceedings to windfall profit tax (§51.6232(a)-1) and setting out the definition of partnership items (§51.6232(a)-2) are effective for taxable periods beginning after December 31, 1982.

The final regulations relating to elections with respect to the authority of the partnership to act on behalf of partners are effective for taxable periods beginning after December 31, 1984.

FOR FURTHER INFORMATION CONTACT: Nerman Dobynes Hubbard of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) 202-566-3289, not a toll-free number.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On October 18, 1984, the FEDERAL REGISTER published proposed amendments to the Excise Tax Regulations under the Crude Oil Windfall Profit Tax Act of 1980 (26 CFR Part 51) [Pub. L. 96-223, 1980-3 C.B. 1] under section 6232 of the Internal Revenue Code of 1954 (49 FR 40896) [LR-220-83, 1984-2 C.B. 887]. Section 6232 relates to the extension of the partnership audit rules under sections 6221 through 6231 to the windfall profit tax and to the authority of a partnership to act on behalf of its partners in the determination, assessment, and collection of windfall profit tax. The amendments were proposed to conform the regulations to the changes made to the Internal Revenue Code by section 402 of the Tax Equity and Fiscal Responsibility Act of 1982 [Pub. L. 97-248, 1982-2 C.B. 462, 585].

Two written comments were received on the proposed regulations. No public hearing was held because the one request for a hearing was withdrawn. The most significant points raised by the comments are discussed in the remainder of the preamble. After consideration of all comments regarding the proposed amendments, those amendments are adopted as modified by this Treasury decision.

PARTNERSHIPS SUBJECT TO CONSOLIDATED PROCEEDINGS FOR WINDFALL PROFIT TAX PURPOSES

Sections 6221 through 6231 apply generally to all partnerships required to file partnership returns for income tax purposes except certain small partnerships described in section 6231(a)(1)(B). Those sections provide for consolidated partnership-level proceedings with respect to items treated under regulations as "partnership items" for income tax purposes.

Under section 6232, these provisions for consolidated partnership-level proceedings also apply, with certain modifications, with respect to items treated under regulations as "partnership items" for windfall profit tax purposes. If the rules for consolidated partnership-level proceedings apply with respect to a partnership for income tax purposes, they will also apply with respect to the partnership for windfall profit tax purposes whether or not the partnership chooses to act on behalf of the partners under section 6232(c).

These final regulations modify proposed §51.6232(a)-1(2) to alleviate a potential administrative burden on the Service. The Austin Service Center, which will be processing windfall profit tax data received from partnerships, will not receive income tax data from all partnerships. Accordingly, final §51.6232(a)-1(2) provides that if the Service determines that it is impractical to use information furnished to the Service for income tax purposes for windfall profit tax purposes, the tax matters partner must furnish to the Service any information requested by it for purposes of the windfall profit tax proceedings.

RESPONSE TO COMMENTS

It was suggested that the term "partnership item" be defined for windfall profit tax purposes to include the category of crude oil. In response to this comment, the Service has included in final §51.6232(a)-2(b)(1) a parenthetical to make clear that the category of crude oil is a partnership item to the extent that it is determinable at the partnership-level.

Another suggestion was that the regulations make clear that any interest allowed on an overpayment of windfall profit tax to be refunded to an electing partnership under section 6232(c) be paid to the partnership. The final regulations adopt this suggestion and provide that the partnership is entitled to any interest due with respect to any overpayment of tax. The regulations also provide that the partnership must pay any interest due with respect to any underpayment of such tax.

There was also a request for clarification as to the partnership return to be referred to for purposes of section 6611(h)(1). Section 6611(h)(1) provides that no interest will be allowed on an overpayment of tax imposed by section 4986 if the overpayment is refunded within 45 days after the later of the due date (determined without regard to any extension of time) for the return for the taxable period with respect to which the overpayment was made or the date the return was actually filed. The regulations make clear that the applicable partnership return for purposes of section 6611(h)(1) is the partnership's "first" Form 6248 which is required to be filed by the partnership

with the Service for the removal year to which the return relates. The last day for filing the "first" Form 6248 (determined without regard to extensions) is May 31 of the first year following the close of the removal year in which the crude oil is removed.

Both comments on the proposed regulations pointed to the need to clarify the term "adjustment" as used in §51.6232(c)-1 by distinguishing between "liability" adjustments and "withholding" adjustments.

Under final §51.6232(c)-1(b)(3), the partnership is to furnish to the Service Form 6248 which shows the amount of windfall profit tax allocable to the partner that was actually withheld and paid during the removal year and any adjustment made, that is, any tax paid or any refund claimed, by the partnership with respect to that partner to eliminate any underpayment or overpayment that would otherwise appear on the Form 6248. Once this adjustment is made, the Form 6248 will reflect the windfall profit tax liability of the partner as computed by the partnership. This is a "liability" adjustment.

Generally, the purchaser of crude oil is required to withhold from its payments made to the producer the amount of windfall profit tax imposed on the producer. If withholding errors are discovered by the purchaser during the removal year, the purchaser must make adjustments in the amount to be withheld from subsequent payments to the same person. However, no adjustments may be made by the purchaser after the annual return (Form 6248) is furnished to the producer. These adjustments are "withholding" adjustments.

A partnership that elects to represent its partners ordinarily may make only "liability" adjustments. The partnership may make "withholding" adjustments only if the partnership is a qualified disburser. The final regulations make this clear by cross references to the provision describing "liability" adjustments. Because one commentator construed the references in the proposed regulations to a "claim for credit or refund" filed by the partnership as indicating that a partnership was permitted to seek "withholding" adjustments (other than those that it could make as a qualified disburser), the final regulations refer only to a "claim for refund" filed by the partnership.

Finally, one commentator questioned the limitation placed on partners under proposed §51.6232(c)-1(b)(5). Under this provision, a partner for whom the partnership is acting is not entitled to participate in any administrative or judicial proceedings or to receive notices or other information as to those procedings; thus, the tax matters partner is not required to keep the partners informed of the proceedings. The commentator noted that section 6232(c)(3) provides that none of the rights granted to partners under sections 6221 through 6231 are lost by virtue of the partnership's authority to act on behalf of all partners. The Service believes that the rights of the partner are sufficiently protected by the availability of an election not to be represented by the partnership. Any partner who wishes to participate personally in partnership-level proceedings may make this election and so preserve the partner's right to notices, etc. If partners who do not choose to make this election were still entitled to notices, however, the Service and the partnership would labor under a paperwork burden that section 6232(c)(1) was intended to eliminate.

REGULATORY FLEXIBILITY ACT AND EXECUTIVE ORDER 12291

The Secretary of the Treasury has certified that this regulation will not have a significant economic impact on a substantial number of small entities. The regulation attempts to limit the paperwork burden to the minimum necessary to ensure that partners are aware of their rights and that the Service is able to administer the law efficiently. The paperwork burden will be substantial only for partnerships that have a very large number of partners. Accordingly, these proposed regulations are not subject to the requirements of the Regulatory Flexibility Act of 1980 (5 U.S.C. Chapter 6).

The Commissioner of Internal Revenue has determined that this regulation is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis is therefore not required.

PAPERWORK REDUCTION ACT

The collection of information requirements contained in this regulation have been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of these regulations is Nerman Dobynes Hubbard of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations.

Accordingly, the Excise Tax Regulations under the Crude Oil Windfall Profit Tax Act of 1980 (26 CFR Part 51) and the OMB Control Number under the Paperwork Reduction Act (26 CFR Part 602) are amended as follows:

Paragraph 1. The authority for Part 51 is amended by adding the following citation:

Authority: 26 U.S.C. 7805 * * * Sections 51.6232(a)-1, 51.6232(a)-2, and 51.6232(c)-1 through 51.6232(c)-5 also issued under 26 U.S.C. 6232.

Par. 2. In part 51, new §§51.6232(a)-1, 51.6232(a)-2, and 51.6232(c)-1 through 51.6232(c)-5 are added in the appropriate place to read as follows:

§51.6232(a)-1 Partnership items for windfall profit tax purposes determined at the partnership level.

(a) *Sections 6221 through 6231 of the Code made applicable to windfall profit tax*—(1) *In general.* Except as otherwise provided in §§51.6232(c)-1 through 51.6232(c)-5 or this section, the rules and procedures for determining the tax treatment of partnership items for income tax purposes as set forth in sections 6221 through 6231 of the Code and the regulations under those sections shall apply in determining the treatment of partnership items (as defined in §51.6232(a)-2) for windfall profit tax purposes. For example, the partner who is the tax matters part-

ner for income tax purposes shall also be the tax matters partner for windfall profit tax purposes.

(2) *Information furnished for income tax purposes shall be used for windfall profit tax purposes.* Information furnished to the Service for income tax purposes by the tax matters partner or any other person under sections 6221 through 6231 (for example, information furnished to identify a previously unidentified partner or information furnished to determine whether the partner is entitled to notice) shall be used to the extent practical for windfall profit tax purposes. If the Service determines that it is impractical to use the information furnished for income tax purposes, however, the tax matters partner shall furnish to the service any information requested by the Service for purposes of the windfall profit tax proceedings.

(3) *Periods of limitation.* The period of limitation for filing a request for an administrative adjustment of, or for assessing any tax attributable to, any partnership item for purposes of the windfall profit tax shall be determined under section 6227 or 6229, except that any reference to the partnership return shall mean the "first" Form 6248 which is required to be filed by the partnership with the Service for the removal year to which the return relates and the reference to "subtitle A" in section 6229 shall mean "Chapter 45 of subtitle D." The last day for filing the "first" Form 6248 (determined without regard to extensions) shall be May 31 of the first year following the close of the removal year in which the crude oil was removed. See §51.6232(c)-1(b)(3) and (7) for extension of time to June 30 for taking certain actions.

(4) *Request for administrative adjustment*—(i) *In general.* Any claim for credit or refund or any return with respect to any overpayment or underpayment of windfall profit tax on partnership production shall be treated as a request for administrative adjustment treated as a request for administrative adjustment within the meaning of section 6227 to the extent that the claim or return treats any partnership item in a manner that is inconsistent with the treatment of that item on the "first" Form 6248 filed by the partnership. Thus, for example, section 6228 applies in determining when a partner may file suit if the request for adjustment is not allowed.

(ii) *Certain rules as to form disregarded.* Requirements that a request for administrative adjustment for income tax purposes be filed on a particular form or in a particular manner do not apply in the case of a request for administrative adjustment for windfall profit tax purposes. The partnership or the partner may file a claim for credit or refund, or a return, of windfall profit tax with respect to partnership production in the same manner as a claim or return with respect to nonpartnership production.

(b) *Other windfall profit tax regulations remain applicable.* Except to the extent otherwise provided in §§51.6232(c)-1 and 51.6232(c)-5, the partnership and each partner shall comply with the requirements set forth in other provisions of this part or in Part 150 of this chapter for furnishing information, filing returns, paying additional tax, or claiming a credit or refund. For example, a partnership that does not make an election to represent partners under section 6232(c) shall furnish to partners and file with the Service the Form 6248 in the time and manner prescribed in §51.4997-2.

(c) *Income tax deduction for windfall profit tax paid.* The partner shall take the partner's share of the windfall profit tax paid or withheld with respect to partnership removed during the removal year as reported by the partnership into account in determining the partner's income tax deduction for windfall profit tax paid during that year. In making that determination the partner shall also take into account any statement received from the partnership regarding any additional windfall profit tax paid, or any credit or refund of windfall profit tax received, during that removal year by the partnership on behalf of that partner with respect to any earlier removal year. If the partnership, as a result of receiving additional information, furnishes the partner a revised statement with respect to the amounts described above, the partner shall amend the partner's income tax return (if already filed) to reflect the revisions.

(d) *Effective date.* The rules set forth in this section are applicable to taxable periods beginning after December 31, 1982.

§51.6232(a)-2 Definition of partnership item.

(a) *In general.* For purposes of Section 6232 and the regulations thereunder, the term "partnership item" means any item relating to the determination of the tax imposed by chapter 45 to the extent that such item is more appropriately determined at the partnership level than at the partner level.

(b) *Partnership items.* The following items with respect to oil removed from any property in which the partnership holds an interest are more appropriately determined at the partnership level than at the partner level and, therefore, are partnership items:

(1) the tier or tiers of the crude oil (including the category of the crude oil to the extent determinable at the partnership level),

(2) The quantity of crude oil in each tier;

(3) The adjusted base price and removal price;

(4) The severance tax adjustment;

(5) The determination of whether the oil qualifies as exempt Alaskan oil;

(6) The determination of when removal from the premises occurs and what constitutes the property;

(7) The percentage interest of each partner in the oil removed;

(8) The amount of (and each partner's share of) the windfall profit tax withheld form, or paid by, the partnership for partnership oil removed during the taxable period;

(9) The windfall profit tax liability of each partner for that partner's share of the partnership oil removed during the taxable period (computed without regard to the net income limitation and on the assumption that information furnished to the partnership by the partner with respect to the partner's status as an independent producer or exempt status is correct); and

(10) The net income limitation to the extent that the limitation can be computed at the partnership level.

(c) *Effective date.* The provisions of this section are applicable to taxable periods beginning after December 31, 1982.

§51.6232(c)-1 Partnership authorized to act on behalf of partners for a removal year beginning after 1984.

(a) *Overview of partnership authority and responsibilities*—(1) *In general.* Except to the extent otherwise provided in paragraph (a)(2) and (3) of this section, the partnership, acting through its tax matters partner, shall be authorized to act on behalf of the partners of that partnership in the determination assessment, and collection of the windfall profit tax for a removal year beginning after 1984 if the partnership elects to do so in accordance with the requirements of §51.6232(c)-2(b). If the partnership elects to act on behalf of the partners in this regard, the partnership's responsibilities to file with the Service and furnish to the partner any information, statement, or return are set forth in this section. If the partnership does not elect to act on behalf of the partner, it shall file with the Service and furnish to the partners any information, statement, or return required by other provisions of this part or by Part 150 of this chapter in the time and manner prescribed by those regulations.

(2) *Partnership authority negated by "5-percent election."* The authority of the partnership to act on behalf of the partners with respect to the windfall profit tax is negated if any partner or any group of partners who in the aggregate own at least a 5-percent interest in the income of the partnership make the election provided in §51.6232(c)-3. Paragraph (d) of this section sets out the responsibilities of the partnership in the event that a 5-percent election is made.

(3) *Partnership authority negated by "individual election."* The authority of the partnership to act on behalf of a particular partner with respect to the windfall profit tax is negated if that partner makes the election provided in §51.6232(c)-4. Paragraph (c) of this section sets out the responsibilities of the partnership with respect to a partner who makes the "individual election."

(4) *Rules applicable to partner not represented by partnership.* For rules applicable to a partner when partnership authority to act on behalf of the partner is negated by an election under §51.6232(c)-3 or §51.6232(c)-4, see §51.6232(c)-5.

(5) *Cross reference.* For rules applicable to removal years 1983 and 1984, see §150.6232(c)-1.

(b) *Partnership responsibility with respect to partner who does not elect to negate the authority of the partnership to act on its behalf*—(1) *In general.* If the partnership elects to be treated as authorized to act on behalf of the partners and no 5-percent election is made in accordance with §51.6232(c)-3, this paragraph (b) shall apply with respect to any partner who has not made an individual election under §51.6232(c)-4 to negate the authority of the partnership.

(2) *Information to be furnished to partner*—(i) *Information in lieu of 6248.* The partnership will not furnish the partner a Form 6248. Instead, the partnership shall furnish to the partner a statement indicating the partner's allocable share of the windfall profit tax paid or withheld during the removal year; see §51.6232(a)-1(c). This statement shall be furnished to the partner by the first March 31 following the removal year to which the statement relates.

(ii) *Later adjustments.* If the partnership—

(A) Pays an additional windfall profit tax, or

(B) Receives any credit or refund of windfall profit tax paid or withheld,

with respect to a partner's share of partnership production for a removal year for which the partnership is authorized to act on behalf of the partner, the partnership shall notify the partner of the adjustment so that the partner may take the amount of the adjustment into account appropriately for income tax purposes. The partnership shall provide this notice at the same time as the partnership furnishes information to the partner with respect to windfall profit tax withheld or paid during the removal year in which the adjustment occurs.

(3) *Partnership required to file Form 6248 with Service.* The partnership shall furnish a Form 6248 with respect to the partner to the Austin Service Center (at the address specified in paragraph (e) of this section) by the first June 30 following the year to which the form relates. This Form 6248 shall show the amount of windfall profit tax allocable to the partner that was actually withheld or paid during the removal year and any adjustment made by the partnership with respect to that partner under paragraph (b)(4)(i) of this section to eliminate any overpayment or underpayment. The partnership shall furnish a separate Form 6248 for each partner; the partnership is not permitted to subject an aggregate Form 6248 for all partners.

(5) *Partnership shall represent partner in all proceedings.* The tax matters partner shall represent the partner in all administrative and judicial proceedings. Therefore, the partner shall not be entitled to participate in these proceedings or to receive the notices described in section 6223(a). The tax matters partner shall not be required to keep the partner informed of administrative or judicial proceedings. However, the partnership shall furnish to the partner upon request any and all windfall profit tax information necessary for the verification of the tax computed by the partnership or the determination of the partner's entitlement to independent producer lower rates or royalty owner exemptions.

(6) *Settlement authority.* Any settlement entered into by the tax matters partner is binding on the partner. The partner is not permitted to enter into a separate settlement with the Service accordingly, the partner is not permitted to request consistent settlement terms under section 6224(c).

(7) *Extension of time for certain actions.* The provisions of paragraph (b)(3) and (b)(4) of this section that permit a return to be filed or a payment to be made later than the date otherwise prescribed for the filing of that return or the making of that payment under the Code or the applicable regulations operate as automatic extensions of the period otherwise prescribed.

(c) *Partnership responsibilities with respect to partner who has made an individual election*—(1) *In general.* If the partnership makes the election described in §51.6232(c)-2 to act on behalf of the partners and no 5-percent election is made, this paragraph (c) shall apply with respect to any partner who makes the individual election under §51.6232(c)-4 to negate the authority of the partnership.

(2) *Partnership shall furnish Form 6248.* The partnership shall furnish a Form 6248 with respect to the partner to the Austin Service Center (at the address specified in paragraph (e) of this section) and to that partner within the time period prescribed in §51.4997-

Since the partnership is not authorized to make any adjustment under paragraph (b)(4)(i) of this section to eliminate an overpayment or underpayment with respect to the partner, the Form 6248 will not show any such adjustment made by the partnership.
